(2) Any change in a contractor's compensation policy that results in a substantial increase in the contractor's level of compensation, particularly when it was concurrent with an increase in the ratio of Government contracts to other business, or any change in the treatment of allowability of specific types of compensation due to changes in the treatment of allowability of specific types of compensation due to changes in Government policy. No presumption of reasonableness will exist where major revisions of existing compensation plans or new plans are introduced by the contractor; and the contractor—

(i) Has not notified the cognizant contracting officer of the change either before their implementation or within a reasonable period after their implementation; and

(ii) Has not provided the Government, either before implementation or within a reasonable period after it, an opportunity to review the reasonableness of the changes.

(3) The contractor's business is such that its compensation levels are not subject to the restraints that normally occur in the conduct of competitive business.

(4) The contractor incurs costs for compensation in excess of the amounts which are deductible under the Internal Revenue Code and its regulations.

(d) *DOE Review and approval of compensation paid individual employees.* In determining the reasonableness of compensation, the compensation of each individual contractor employee normally need not be subjected to review and approval. Generally, the compensation paid individual employees should be left to the judgment of contractors subject to the limitations of DOE-approved compensation policies, programs, classification systems, and schedules, and amounts of money authorized for wage and salary increases for groups of employees. However, all compensation due an individual of $50,000 or more shall require the contracting officer's or designee's review and approval. In addition, it will often be necessary that employee compensation be subjected to review and approval on an individual basis at a level below $50,000, when the contracting officer finds it appropriate for the particular situation. The contract shall specifically provide for the approval by the contracting officer of the cost of compensating an individual contractor employee above the level determined by the contracting officer, if a total of 50 percent or more of such compensation is reimbursed under DOE cost-type contracts. For purposes of determining the level for individual review and approval, total compensation as used in this paragraph includes only the employee's salary and bonus or incentive compensation. As in the case of other personnel and compensation costs, it is intended that contracting officer review and approval of individual compensation normally will be prior to incurrence of costs.

(e) *Labor-management agreements.* Notwithstanding any other DOE requirements, costs of compensation are not allowable to the extent that they result from provisions of labor-management agreements that, as applied to work in performing Government contracts, are determined to be unreasonable because they are either unwarranted by the character and circumstances of the work or discriminatory against the Government. The application of the provisions of a labor-management agreement designed to apply to a given set of circumstances and conditions of employment (e.g., work involving extremely hazardous activities or work not requiring recurrent use of overtime) is unwarranted when applied to a Government contract involving significantly different circumstances and conditions of employment (e.g., work involving less hazardous activities or work continually requiring use of overtime). It is discriminatory against the Government if it results in employee compensation (in whatever form or name) in excess of that being paid for similar non-Government work under comparable circumstances. Disallowance of costs will not be made under this paragraph (e) unless—

(1) The contractor has been permitted an opportunity to justify the costs; and

(2) Due consideration has been given to whether unusual conditions pertain to Government contract work, imposing burdens, hardships, or hazards on the contractor's employees, for which compensation that might otherwise appear unreasonable is required to attract and hold necessary personnel.

(f) *Salaries and wages.* Salaries and wages for current services include gross compensation paid to employees in the form of cash, stock (see paragraph (h)(2) below regarding valuation), products, or services, and are allowable.

(g) *Domestic and foreign differential pay.* (1) When personal services are performed in a foreign country, compensation may also include a differential that may properly consider all expenses associated with foreign employment such as housing, cost of living adjustments, transportation, bonuses, additional Federal, state, local or foreign income taxes resulting from foreign assignment, and other related expenses.

(h) *Bonuses and incentive compensation.* Incentive compensation and cash bonuses based on production, cost reduction or efficient performance, suggestion awards, and safety awards are to be treated as allowable, to the extent that the contractor's overall compensation plan is determined to be reasonable and such costs are paid or accrued, pursuant to an agreement entered into in good faith between the contractor and the employees before the services were rendered, or pursuant to an established plan followed by the contractor so consistently as to imply, in effect, an agreement to make such payment (see 970.3101–6). In determining reasonableness, it will be necessary to take into account, not only bonuses and incentive compensation payments charged directly to the contract, but also payments charged indirectly to the contract through overhead. Bonuses, awards, and incentive compensation, when any of them are deferred, are to be treated as allowable to the extent provided in paragraph (m) of this section.

(1) Bonuses and incentive compensation paid to employees other than those whose pay is directly

reimbursed will not be made allowable in on-site construction and management and operating contracts, where home office general and administrative expense is unallowable.

(2) When the costs of bonuses and incentive compensation are paid in the stock of the contractor or of an affiliate, the following additional restrictions apply:

(i) Valuation placed on the stock shall be the fair market value on the measurement date (i.e., the first date the number of shares awarded is known) determined upon the most objective basis available; and

(ii) Accruals for the cost of stock before issuing the stock to the employees shall be subject to adjustment according to the possibilities that the employees will not receive the stock and that their interest in the accruals will be forefeited.

(3) When the bonus and incentive compensation payments are deferred, the costs are subject to the requirements of subparagraph (h)(1) above and of paragraph (m) below.

(i) *Severance pay.* (1) Severance pay, also commonly referred to as dismissal wages, is a payment in addition to regular salaries and wages by contractors to workers whose employment is being involuntarily terminated. Payments for early retirement incentive plans are covered in paragraph (l)(6) below.

(2) Severance pay to be allowable must meet the general allowability criteria in paragraph (i)(2)(i) below, and, depending upon whether the severance is normal or abnormal, criteria in paragraph (i)(2)(ii) for normal severance pay or paragraph (i)(2)(iii) for abnormal severance pay also apply.

(i) Severance pay is allowable only to the extent that, in each case, it is required by (A) law, (B) employer-employee agreement, (C) established policy that constitutes, in effect, an implied agreement on the contractor's part, or (D) circumstances of the particular employment. Payments made in the event of employment with a replacement contractor where continuity of employment with credit for prior length of service is preserved under substantially equal conditions of employment, or continued employment by the contractor at another facility, subsidiary, affiliate, or parent company of the contractor are not severance pay and are unallowable. Severance payments, or amounts paid in lieu thereof, are not allowable when paid to employees in addition to early or normal retirement payments.

(ii) Actual normal turnover severance payments shall be allocated to all work performed in the contractor's plant, or where the contractor provides for accrual of pay for normal severances, that method will be acceptable if the amount of the accrual is reasonable in light of payments actually made for normal severances over a representative past period and if amounts accrued are allocated to all work performed at the facility.

(iii) Abnormal or mass severance pay is of such a conjectural nature that measurement of costs by means of an accrual will not achieve equity to both parties. Thus, accruals for this purpose are not allowable. However, the Government recognizes its obligation to participate, to the extent of its fair share, in any specific payment. Thus, allowability will be considered on a case-by-case basis.

(3) Subject to paragraph (a) of this section, the following standards apply in determining allowability of costs for severance pay plans of management and operating contractors:

(i) Payments should be made only upon involuntary termination by reduction in force (RIF) of an employee which results in a permanent separation from the employment of the contractor. However, payments may also be made upon voluntary separation of an employee within a RIF grouping, but not otherwise scheduled for termination, which thereby eliminates the need for terminating another employee involuntarily.

(ii) Payments should be not provided for in the event of temporary layoffs; employment or offer of employment with a replacement contractor (employer) where continuity of employment with credit for prior length of service is preserved under substantially equal conditions of employment; early or normal retirement; or continued employment by the contractor at another facility, subsidiary, affiliate, or parent company of the contractor. Contractor employees should not have the option of refusing employment to receive severance pay.

(j) *Backpay.*—(1) *Backpay resulting from violations of Federal labor laws or the Civil Rights Act of 1964.* Backpay may result from a negotiated settlement, order, or court decree that resolves a violation of Federal labor laws or the Civil Rights Act of 1964. Such backpay falls into two categories: one requiring the contractor to pay employees additional compensation for work performed for which they were underpaid, and the other resulting from other violations, such as when the employee was improperly discharged, discriminated against, or other circumstances for which the backpay was not additional compensation for work performed. Backpay resulting from underpaid work is compensation for the work performed and is allowable. All other backpay resulting from willful violation of Federal labor laws or the Civil Rights Act of 1964 is unallowable.

(2) *Other backpay.* Backpay may also result from payments to union employees (union and non-union) for the difference in their past and current wage rates for working without a contract or labor agreement during labor management negotiations. Such backpay is allowable. Backpay to nonunion employee based upon results of union agreement negotiations is allowable only if (i) a formal agreement or understanding exists between management and the employees concerning these payments, or (ii) an established policy or practice exists and is followed by the contractor so consistently as to imply, in effect, an agreement to make such payment.

(k) *Stock options, stock appreciation rights, and phantom stock plans.* (1) The cost of stock options awarded to employees to purchase stock of the contractor or of an affiliate will be treated as deferred compensation and must comply with the requirements of paragraph (m) below and with the allowability criteria contained in paragraph (k)(2) below. The allowable cost of stock appreciation rights, whether offered separately or combined with stock options, will be determined in the same manner as stock options.

(2) The allowable costs of stock options and stock appreciation rights will be limited to the difference between the option price or stock-appreciation-right price and the market price of the stock on the measurement date (i.e., the first date on which both the number of shares and the option or stock-appreciation-right price are known). Accordingly, when the option or stock-appreciation-right price is equal to or greater than the market price on the measurement date, then no costs are allowed for contract costing purposes.

(3) In phantom-stock-type plans, contractors assign or attribute contingent shares of stock to employees as if the employees own the stock, even though the employees neither purchase the stock nor receive title to it. Under these plans, an employee's account may be increased by the equivalent of dividends issued and any appreciation in the market price of the stock over the price of the stock on the measurement date (i.e., the first date the number of shares awarded is known). Such increases in employee accounts for

dividend equivalents and market price appreciation are unallowable.

(l) *Pension costs.* (1) A pension plan is a deferred compensation plan that is established and maintained by one or more employers to provide systematically for paying benefits to plan participants after their retirement, provided that the benefits are paid for life or are payable for life at the option of the employee. Additional benefits such as permanent and total disability and death payments and survivorship payments to beneficiaries of deceased employees may be treated as pension costs, provided the benefits are an integral part of the pension plan and meet all the criteria pertaining to pension costs.

(2) Pension plans are normally segregated into two types of plans: defined benefit or defined contribution pension plans. Except as provided by other DOE directives, the cost of all defined benefit pension plans shall be measured, allocated, and accounted for in compliance with the provisions of CAS 412, Composition and Measurement of Pension Costs, and CAS 413, Adjustment and Allocation of Pension Cost. The costs of all defined contribution pension plans shall be measured, allocated, and accounted for in acordance with the provisions of CAS 412. Pension costs are allowable subject to directives issued by the Office of Labor Relations, Headquarters, the referenced standards and the cost limitations and exclusions set forth below in this subparagraph and in paragraphs (l)(3), (4), (5), (6), and (7) below.

(i) To be allowable in the current year, pension costs must be funded by the time set for filing the Federal income tax return or any extension thereof. Pension costs assigned to the current year, but not funded by the tax return time, shall not be allowable in any subsequent year.

(ii) Pension payments must be reasonable in amount and be paid pursuant to (A) an agreement entered into in good faith between the contractor and employees before the work or services are performed and (B) the terms and conditions of the established plan. The cost of changes in pension plans which are discriminatory to the Government or are not intended to be applied consistently for all employees under similar circumstances in the future are not allowable.

(iii) Except as provided for early retirement benefits in subparagraph (l)(6) below, one-time-only pension supplements not available to all participants of the basic plan are not allowable as pension costs unless the supplemental benefits represent a separate pension plan and the benefits are payable for life at the option of the employee.

(iv) Increases in payments to previously retired plan participants covering cost-of-living adjustments are allowable if paid in acordance with a policy or practice consistently followed.

(3) *Defined benefit pension plans.* This subparagraph covers pension plans in which the benefits to be paid or the basis for determining such benefits are established in advance and the contributions are intended to provide the stated benefits. The cost limitations and exclusions pertaining to defined benefit plans are as follows:

(i) Normal costs of pension plans not funded in the year incurred, and all other components of pension costs (see CAS 412.40(a)(1)) assignable to the current accounting period but not funded during it, shall not be allowable in subsequent years (except that a payment made to a fund by the time set for filing the Federal income tax return or any extension thereof is considered to have been made during such taxable year). However, any part of a pension cost that is computed for a cost accounting period that is deferred pursuant to a waiver granted under the provisions of the Employee's Retirement Income Security Act of 1974 (ERISA) (see CAS 412.50(c)(3)), will be allowable in those future accounting periods in which the funding does occur. The allowability of these deferred contributions will be limited to the amounts that would have been allowed had the funding occurred in the year the costs would have been assigned except for the waiver.

(ii) Any amount paid or funded before the time it becomes assignable and allowable shall be applied to future years, in order of time, as if actually paid and deductible in those years. The interest earned on such premature funding, based on the valuation rate of return, may be excluded from future years' computations of pension costs in accordance with CAS 412.50(a)(7).

(iii) Increased pension costs caused by delay in funding beyond 30 days after each quarter of the year to which they are assignable are unallowable. If a composite rate is used for allocating pension costs between the segments of a company and if, because of differences in the timing of the funding by the segments, an inequity exists, allowable pension costs for each segment will be limited to that particular segment's calculation of pension costs as provided for in CAS 413.50(c)(5). Determination of unallowable costs shall be made in accordance with the actuarial method used in calculating pension costs.

(iv) Allowability of the cost of indemnifying the Pension Benefit Guaranty Corporation (PBGC) under ERISA section 4062 or 4064 arising from terminating an employee deferred compensation plan will be considered on a case-by-case basis; provided that if insurance was required by the PBGC under ERISA section 4023, it was so obtained and the indemnification payment is not recoverable under the insurance. Consideration under the foregoing circumstances will be primarily for the purpose of appraising the extent to which the indemnification payment is allocable to Government work. If a beneficial or other equitable relationship exists, the Government will participate in the indemnification payment to the extent of its fair share.

(4) Defined contribution pension plans. This subparagraph covers those pension plans in which the contributions to be made are established in advance and the level of benefits is determined by the contributions made. It also covers profit sharing, savings plans, and other such plans provided the plans fall within the definition of a pension plan in paragraph (l)(1) above.

(i) The pension cost assignable to a cost accounting period is the net contribution required to be made for that period after taking into account dividends and other credits, where applicable. However, any portion of pension cost computed for a cost accounting period that is deferred pursuant to a waiver granted under the provisions of ERISA (see CAS 412.50(c)(3)) will be allowable in those future accounting periods when the funding does occur. The allowability of these deferred contributions will be limited to the amounts that would have been allowed had the funding been made in the year the costs would have been assigned except for the waiver.

(ii) Any amount paid or funded to the trust before the time it becomes assignable and allowable shall be applied to future years, in order of time, as if actually paid and deductible in such years.

(iii) The provisions of paragraph (l)(3)(vi) above concerning payments to PBGC apply to defined contribution plans.

(5) *Pension plans using pay-as-you-go methods.* A pension plan using pay-as-you-go methods is a plan in which the contractor recognizes pension cost only when benefits are paid to retired employees or their beneficiaries. Regardless of whether the payment of pension benefits contribution can or

cannot be compelled, allowable costs for these types of plans shall not exceed an amount computed as follows:

(i) Compute, by using an actuarial cost method, the plan's actuarial liability for benefits earned by plan participants. This entire liability is always unfunded for a pay-as-you-go plan.

(ii) Compute a level amount which, including an interest equivalent, would amortize the unfunded actuarial liability over a period of no less than 10 or more than 40 years from the inception of the liability.

(iii) Compute, by using an actuarial cost method, a normal cost for the period.

(iv) The sum of paragraphs (l)(5) (i), (ii), and (iii) of this subsection represents the amount of pension costs assignable to the current period. This amount, however, is limited to the amount paid in the year.

(v) For purposes of determining contract cost where a pay-as-you-go plan is initiated as either a supplemental plan or an additional but separate plan to a basic funded plan, the plans will be treated as one plan; e.g., the actuarial cost method, past service amortization period, etc., of the basic plan will be used on the supplemental or additional pay-as-you-go plan in determining the proper costs assignable to the current period. Any costs in excess of those determined by using the actuarial cost method and assumptions of the basic plan are unallowable. However, where assumption for salary progressions, mortality rates of the participants, and so forth are significantly different, the assumptions used for the basic and supplemental plan may be different.

(vi) The requirements of paragraphs (l)(3)(i) through (iv) above are also applicable to pay-as-you-go plans.

(6) *Early retirement incentive plans.* An early retirement incentive plan is a plan under which employees receive a bonus or incentive, over and above the requirement of the basic pension plan, to retire early. These plans normally are not applicable to all participants of the basic plan and do not represent life income settlements, and as such would not qualify as pension costs. However, for contract costing purposes, early retirement incentive payments are allowable subject to pension criteria contained in paragraphs (l)(3)(i) through (iv) provided—

(i) The costs are accounted for and allocated in accordance with the contractor's system of accounting for pension costs (see paragraph (l)(5)(v) above for supplemental pension benefits);

(ii) The payments are made in accordance with the terms and conditions of the contractor's plan;

(iii) The plan is applied only to active employees. The cost of extending the plan to employees who retired or were terminated before the adoption of the plan is unallowable; and

(vi) The total of the incentive payments to any employee may not exceed the amount of the employee's annual salary for the previous fiscal year before the employee's retirement.

(7) *Employee stock ownership plans (ESOP).* (i) An ESOP is an individual stock bonus plan designed specifically to invest in the stock of the employer corporation. The contractor's contributions to an Employee Stock Ownership Trust (ESOT) may be in the form of cash, stock, or property. Costs of ESOP's are allowable subject to the following conditions:

(A) Contributions by the contractor in any one year may not exceed 15 percent (25 percent when a money purchase plan is included) of salaries and wages of employees partcipating in the plan in any particular year.

(B) The contribution rate (ratio of contribution to salaries and wages of participating employees) may not exceed the last approved contribution rate except when approved by the contracting officer based upon justification provided by the contractor. When no contribution was made in the previous year for an existing ESOP, or when a new ESOP is first established, and the contractor proposes to make a contribution in the current year, the contribution rate shall be subject to the contracting officer's approval.

(C) When a plan or agreement exists wherein the liability for the contribution can be compelled for a specific year, the expense associated with that liability is assignable only to that period. Any portion of the contribution not funded by the time set for filing of the Federal income tax return for that year or any extension thereof shall not be allowable in subsequent years.

(D) When a plan or agreement exists wherein the liability for the contribution cannot be compelled, the amount contributed for any year is assignable to that year provided the amount is funded by the time set for filing of the Federal income tax return for that year.

(E) When the contribution is in the form of stock, the value of the stock contribution shall be limited to the fair market value of the stock on the date that title is effectively transferred to the trust. Cash contributions shall be allowable only when the contractor furnishes evidence satisfactory to the contracting officer demonstrating that stock purchases by the ESOT are or will be at a fair market price; e.g., makes arrangements with the trust permitting the contracting officer to examine purchases of stock by the trust to determine that prices paid are at fair market value. When excessive prices are paid, the amount of the excess will be credited to the same indirect cost pools that were charged for the ESOP contributions in the year in which the stock purchase occurs. However, when the trust purchases the stock with borrowed funds which will be repaid over a period of years by cash contributions from the contractor to the trust, the excess price over fair market value shall be credited to the indirect cost pools pro rata over the period of years during which the contractor contributes the cash used by the trust to repay the loan. When the fair market value of unissued stock or stock of a closely held corporation is not readily determinable, the valuation will be made on a case-by-case basis taking into consideration the guidelines for valuation used by the IRS.

(ii) Amounts contributed to an ESOP arising from either (A) an additional investment tax credit (see 1975 Tax Reduction Act-TRASOP's); or (B) a payroll-based tax credit (see Economic Recovery Tax Act of 1981) are unallowable.

(iii) The requirements of paragraphs (l)(3)(ii) above are applicable to Employee Stock Ownership Plans.

(m) *Deferred compensation.* (1) Deferred compensation is an award given by an employer to compensate an employee in a future cost accounting period or periods for services rendered in one or more cost accounting periods before the date of receipt of compensation by the employee. Deferred compensation does not include the amount of year-end accruals for salaries, wages, or bonuses that are paid within a reasonable period of time after the end of a cost accounting period. Subject to 970.3102–2(a), deferred awards are allowable when they are based on current or future services. Awards made in periods subsequent to the period when the work being remunerated was performed are not allowable.

(2) The costs of deferred awards shall be measured, allocated, and accounted for in compliance with the provisions of CAS 415, Accounting for the Cost of Deferred Compensation.

(3) Deferred compensation payments to employees under awards made before the effective date of CAS 415 are allowable to the extent they would have

been allowable under prior acquisition regulations.

(n) *Fringe benefits.* Fringe benefits are allowances and services provided by the contractor to its employees, as compensation, in addition to regular wages and salaries. Subject to the determination that total compensation is reasonable in accordance with this 970.3102–2, costs of fringe benefits such as pay for vacations, holidays, sick leave, military leave, employee insurance, pension, retirement plans, and supplemental unemployment benefit plans are to be treated as allowable, provided such fringe benefits meet the following conditions;

(1) The benefits contribute to the performance of contract work and are appropriate for reimbursement from public funds;

(2) Such benefit plans as exist in the contractor's private operations that are inconsistent with DOE published requirements are appropriately modified or disallowed;

(3) Employee benefit plans especially established to meet the particular needs of the contract are in conformity with published DOE policy and standards;

(4) Appropriate controls under the contract are established to assure that employees on contract work are treated no more or no less favorably than employees in the contractor's private operation, except to the extent that paragraphs (n)(2) and (3) of this section apply;

(5) To the fullest extent possible, definite limitations or terminal points are established for each of the various benefit plans, so that DOE's full liability with respect thereto is established under the contract; and

(6) DOE has access to all information necessary to complete understanding of the means of computing or determining the cost of the benefits afforded contract employees and their dependents under the benefit plans.

(o) *Training and education expenses.* See 970.5204–13 and 970.5204–14.

§ 970.3102–3 Cost of money.

Cost of money as an element of the (a) cost of facilities capital (CAS 414) and (b) cost of capital assets under construction (CAS 417) is not an allowable cost under DOE management and operating contracts. Under the provisions of CAS 414 and CAS 417, cost of money is an imputed cost applicable to contractor owned and financed tangible capital assets employed in contract performance or being constructed, fabricated, or developed for ultimate employment in contract performance. Cost of money is not applicable to DOE management and operating contracts since the Government provides for assets used, or under construction for use in performance of its contracts (such as through Government furnished or contractor-acquired Government property contract provisions and/or through granting cash advances, including letters-of-credit.)

§ 970.3102–4 Depreciation.

(a) Depreciation is allowable subject to the following:

(1) The charge represents normal depreciation on a contractor's plant and equipment used in performance of management and operating work.

(2) The charge to current operations is a distribution of the cost of acquisition of a tangible capital asset, less estimated residual value, over the estimated useful life of the asset, in a systematic and logical manner.

(3) Any generally accepted accounting method consistently applied to assets concerned having the approval of the Internal Revenue Service for Federal income tax purposes, if subject to the Internal Revenue Code of 1954, as amended, may be used including:

(i) The straight-line method;

(ii) The declining balance method, using a rate not exceeding twice the rate which would have been used had the annual allowance been computed under the method described in paragraph (a)(3)(i) of this section;

(iii) The sum-of-the-years digits method;

(iv) Any other consistent method productive of an annual allowance which, when added to all allowances for the period commencing with the use of the property and including the current year, does not, during the first two-thirds of the useful life of the property, exceed the total of such allowances which would have been used, had such allowances been computed under the method described in paragraph (a)(3)(ii) of this section.

(4) If a nonprofit or tax-exempt organization, the method shall be such that it could have had the approval of the Internal Revenue Service, had the organization been subject to the Internal Revenue Code of 1954, as amended.

(5) The contractor must use the same approved method of depreciation for costing its contract work as for costing its other work at the same facility.

(6) The method of depreciation shall produce equitable and reasonable results.

(b) Depreciation of the following is unallowable:

(1) Idle or excess facilities (machinery and equipment), other than reasonable standby facilities;

(2) Assets fully amortized or depreciated on the contractor's books;

(3) Unrealized appreciation of values of assets; and

(4) Accelerated amortization under Certificates of Necessity or other system in excess of normal depreciation, as computed under paragraph (a) of this section.

(c) In entering into contracts involving the use of "special facilities" under section 161 of the Atomic Energy Act of 1954, as amended (section 7 of Public Law 85–681 approved Aug. 19, 1958), the percentage of the total cost of such special facilities devoted to contract performance and chargeable to the DOE should not exceed the ratio between the period of contract deliveries and the anticipated useful life of such facilities.

970.3102–5 Employee morale, health, welfare, food service, and dormitory costs.

(a) Employee morale, health, and welfare activites are those services or benefits provided by the contractor to its employees to improve working conditions, employer-employee relations, employee morale, and employee performance. These activities include such items as house or employee publications, health or first-aid clinics, recreation, employee counseling services and, for the purpose of this section, food service and dormitory costs. However, these activities do not include, and should be differentiated from compensation for personal services as defined in 970.3102–2. Food and dormitory services include operating or furnishing facilities for cafeterias, dining rooms, canteens, lunch wagons, vending machines, living accommodations, or similar types of services for the contractor's employees at or near the contractor's facilities or site of the contract work.

(b) Except as limited by paragraph (c) of this section, the aggregate of costs incurred on account of all activities mentioned in paragraph (a) of this section, less income generated by all such activities, is allowable to the extent that the net aggregate cost of all such activities, as well as the net cost of each individual activity, is reasonable and allocable to the contract work. Additionally, advance understandings with respect to the costs mentioned in paragraph (a) of this section are to be reached prior to the incurrence of these costs as required in 970.3101–6.

(c) Losses from the operation of food or dormitory services may be included as costs incurred under paragraph (b) of this section, only if the contractor's objective is to operate such services at least on a break-even basis. Losses

sustained because food services or lodging accommodations are furnished without charge or at prices or rates which obviously would not be conducive to accomplishment of the above objective, are not allowable, except in those instances where the contractor can demonstrate that unusual circumstances exist, such that, even with efficient management, operation of the services on a break-even basis would require charging inordinately high prices, or prices or rates higher than those charged by commercial establishments offering the same services in the same geographical areas. Typical examples of such unusual circumstances are: (1) Where the contractor must provide food or dormitory services at remote locations where adequate commercial facilities are not reasonably available, or (2) where it is necessary to operate a facility at a lower volume than the facility could economically support. Cost of food and dormitory services shall include an allocable share of indirect expenses pertaining to these activities.

(d) In those situations where the contractor has an arrangement authorizing an employee association to provide or operate a service such as vending machines in the contractor's plant, and retain the profits derived therefrom, such profits shall be treated in the same manner as if the contractor were providing the service (but see paragraph (e) of this section).

(e) Contributions by the contractor to an employee organization, including funds set over from vending machines receipts or similar sources, may be included as cost incurred under paragraph (b) of this section, only to the extent that the contractor demonstrates that an equivalent amount of the costs incurred by the employee organization would be allowable, if incurred by the contractor directly.

970.3102-6 Facilities (plant and equipment).

(a) *Use of Government-owned facilities.* If the Government furnishes to the contractor, or the contractor acquires at Government expense, Government-owned equipment with which to do all or a significant amount of the work under the DOE contract, on which equipment the Government is bearing the expenses of depreciation, maintenance, insurance, and taxes, appropriate procedures must be established to avoid apportioning to DOE work performed with DOE-owned equipment, a share of the expenses of depreciation, maintenance, insurance and taxes on the contractor's equipment not used to perform such work. If the Government-owned equipment is placed in a segregated area, that area should be accounted for as a separate department. If the Government-owned equipment is not placed at the separate area, other steps must be taken to avoid what would amount to a double equipment burden on work performed with the Government-owned facilities. Such work shall be so accounted for as to be relieved of charges for expenses related to contractor's equipment not used in its performance.

(b) *Contractor's costs covering plant and equipment.* Charges relating to contractor-owned plant and equipment shall be restricted to the applicable costs, such as depreciation, maintenance, insurance, and taxes, and shall not be on a rental basis. (Compensation in excess of costs is covered by the fixed fee.) Rentals of plant or equipment owned by third parties are normally allowable, if the rates are reasonable in the light of the type, value, condition of the property involved, and option and other provisions of the lease agreement. However, where the plant and equipment used by the contractor is rented by the contractor under a sale and lease-back agreement, only the normal costs (such as depreciation, maintenance, insurance, and taxes) that would have been incurred if the contractor had retained title to the facilities, should be allowed. Allowances for plant and equipment rented under agreements that are not arms-length transactions should be similarly restrictive.

970.3102-7 Lobbying costs.

(a) Lobbying is defined as any activity or communication that is intended or designed (1) to directly influence members of the U.S. Congress or state and local legislatures, their staffs, or the staffs of committees of these bodies to favor or oppose pending, proposed, or existing legislation, appropriations, or other official actions of these bodies, their members, or their committees, or (2) to engage in any campaign to directly encourage others to do so. Except as provided in paragraph (c) below, lobbying includes, but is not limited to, appearances before any legislative committee or subcommittee and written or oral communications, including face-to-face decisions or conferences, telephone conversations, paid advertisements, and the sending of telegrams or letters.

(b) The costs of lobbying, including the applicable portion of the salaries and fees to those individuals engaged in lobbying efforts on behalf of a contractor, whether or not the individuals are registered as lobbyists under any applicable law, are unallowable.

(c) Legislative liaison activities, such as attendance at committee hearings and gathering information regarding pending legislation, are not lobbying and are allowable. In addition, written or oral communications, appearances before legislative committees and subcommittees, and meetings with legislative representatives are allowable legislative liaison activities when such efforts are undertaken in conjunction with a legislative public hearing or meeting in response to a public notice, or a specific invitation or request from a legislative source, and the notice, invitation, or request from a legislative source, and the notice, invitation, or request is documented. However, for the costs to be allowable, the contractor shall maintain and make available to the Government records and documentation sufficient to identify the costs and clearly establish the nature and purpose of the legislative liaison activity to which the costs relate.

970.3102-8 Membership in trade, business and professional organizations.

(a) The costs of memberships in trade, business and technical organizations are unallowable, except as approved by the contracting officer.

(b) In considering approval of membership dues, the contracting officer shall:

(1) Ensure that dues payments to an organization are clearly justified and provide necessary and specific agency benefit;

(2) Do not constitute payments for, or in support of partisan and political activity; and,

(3) Are solely for purposes of enhancing trade, business, or technical knowledge necessary for, and related to, performance of DOE contracts.

970.3102-9 Outside technical and professional consultants.

Technical and professional consultants, as used here, refer to private individuals acting in their own behalf, who make their services available on a fee or per diem basis. It does not refer to employees of firms acting in the firm's behalf whose services may be made available by the firm on, for example, a fixed rate basis. Consultant arrangements may permit bringing to contract work, the services of outstanding specialists who would not be available on a full-time basis, or whose employment on a full-time basis would not be economically feasible.

Costs of such outside consultant services are normally allowable (however, see 970.4204–13 and 970.5204–14 regarding compensation of an individual who is employed by another contractor and concurrently performing work on a full-time annual basis under a DOE cost-type contract), provided that the servies are essential to, and will make a material contribution to, the performance of contract work; the services may be performed more economically or more successfully by a consultant than by the contractor's regular personnel; the fee or per diem charged is reasonable; and, when approved by the contracting officer. If the cost of such services is charged directly to the DOE contract, the cost of like items properly chargeable only to other work of the contractor must be eliminated from indirect costs allocable to the DOE contract (see 970.3101–2).

970.3102–10 Overtime, shift, and holiday premiums.

(a) Overtime, shift, and holiday premiums are allowable only to the extent provided in the contract or approved by the contracting officer. The amount of such premiums charged to a management and operating contract shall be equitable in relation to the amount of such costs charged to other work currently performed in the contractor's plant and the factors which necessitate incurrence of the costs. When the necessity for overtime, shift, and holiday work arises from inadequacy of the contractor's plant or department to perform its total workload on a purely straight-time basis, inclusions in overhead for apportionment to all work of the plant or department, as the case may be, appears appropriate. When particular work, DOE or other, is being specially expedited to a point that its fair share of the contractor's purely straight-time efforts on a single-shift basis will not get the particular job completed within the time desired, direct charging of the related premiums appears appropriate.

(b) When premiums for overtime, shift, and holiday work are charged direct to the work concerned, if the operating overhead of the plant or related department is distributed on the basis of direct labor (cost or hours), the premiums should be excluded from the direct labor base for purposes of overhead distribution. That is, the direct labor base should be, as appropriate, direct labor straight-time cost or direct labor hours actually worked. While the premiums for authorized overtime, shift, and holiday work are acceptable as reimbursable costs, it is generally recognized that direct labor hours worked on an overtime, shift, or holiday basis should participate in indirect costs to the same extent as hours worked on a straight-time basis.

970.3102–11 Page charges in scientific journals.

It is a policy of the DOE to permit DOE contractors to budget for and pay page charges for scientific journal publication, as a necessary part of research costs, in all cases where:

(a) The research papers report work supported by the Government.

(b) The charges are levied impartially on all research papers published by the journal, whether by non-Government or by Government authors.

(c) Payment of such charges is in no sense a condition for acceptance of manuscripts by the journal.

(d) The journals involved are not operated for profit.

(e) The author does not receive an emolument from the journal for the research paper.

970.3102–12 Plant reconversion costs.

Plant reconversion costs are those incurred in the restoration of the contractor's facilities to approximately the same condition existing immediately prior to the commencement of the contract work, fair wear and tear excepted.

970.3102–13 Precontract costs.

Precontract costs are those incurred prior to the effective date of the contract directly pursuant to the negotiation and in anticipation of the award of the contract, where such incurrence is necessary to comply with the proposed contract delivery schedule. Such costs are allowable to the extent that they would have been allowable if incurred after effective the date of the contract. They do not include costs of preparing bids or of participation in the negotiation. The allowability of precontract costs is dependent upon appropriate coverage in the contract.

970.3102–14 Preparatory and make-ready costs.

Since indirect costs are usually apportioned to individual jobs wholly or substantially on the basis of the direct labor applied to the particular job, a contract will absorb no overhead by apportionment prior to the inception of the actual performance of direct work on the contract. The effort of the contractor's overhead organization in preparing for one job and in getting it underway, will thus be absorbed by jobs previously commenced and still being performed; later, the job, which in its initial stages of preparation and make-ready was relieved of expenses that were actually applicable to it, will partially absorb, through their apportionment as overhead, similar costs equally applicable in fact to other, subsequently undertaken jobs. This procedure is in accordance with generally accepted accounting practices and normally is reasonably equitable in its results. The initial advantages and subsequent disadvantages to the individual contract that result from consistent application of the procedure tend to offset each other and balance out. It is quite appropriate, however, to employ the direct charge method in connection with overhead costs in preparing for actual performance by segregating such preparatory and make-ready costs and identifying them specifically with the contract to which the effort actually pertains. However, if preparatory and make ready costs are charged direct to a DOE contract, care must be taken, as performance of the DOE contract work proceeds toward completion, to segregate subsequent indirect expenses similarly applicable to the preparation for, and commencement of, other jobs and to account for them as direct charges to those other jobs.

970.3102–15 Procurement: subcontracts and contractor-controlled sources.

(a) *Subcontracts.* Award and management policies for subcontracts placed under operating contracts when necessary to the performance of the required services and work efforts of the management and operating contractor are set forth in 970.44. The cost of performing such subcontracts shall be allowable under the DOE contract when (1) the award/approval is otherwise in accord with the contract terms and conditions and the provisions of 970.44 and (2) the reimbursement of subcontractor costs of the management and operating contractor is in accordance with the provisions of the DOE cost principles set forth in FAR 31, as appropriate to the type of subcontractor being selected; i.e., commercial, educational, state/local government, or nonprofit organization.

(b) *Procurement or transfer from contractor-controlled sources (See 970.4404).* Allowance for all equipment, materials, supplies, and services which are sold or transferred between any division, subsidiary, or affiliate of a management and operating contractor under a common control shall be on the basis of cost incurred in accordance with the terms of the contract; except, when it is the established practice of the transferring organization to price inter-organization transfers of equipment.

materials, supplies, and services at other than cost for commercial work of the contractor or any division, subsidiary, or affiliate of the contractor under a common control, allowance may be at a price when:

(1) It is based on an "established catalog or market price of commercial items sold in substantial quantities to the general public" in accordance with FAR 15.8 or

(2) It is the result of "adequate price competition" in accordance with FAR 15.8 and is the price at which an award was made to the affiliated organization, after obtaining quotations of an equal basis from such organization and one or more outside sources which normally produce the item or its equivalent in significant quantity, provided that in either case:

(i) The price is not in excess of the transferor's current sales price to its most favored customer (including any division, subsidiary, or affiliate of the contractor under a common control) for a like quantity under comparable conditions, and

(ii) The price is not determined to be unreasonable by the contracting officer, provided, however, that if the price is determined unreasonable, such determination must be supported by an enumeration of facts on which it is based and approved at a level above the contracting officer. The price determined in accordance with paragraph (a) of this section should be adjusted, when appropriate, to reflect the quantities being procured and may be adjusted upward or downward to reflect the actual cost of any modifications necessary because of contract requirements.

970.3102-16 Relocation costs.

(a) Relocation costs are costs incident to the permanent change of duty assignment (for an indefinite period or for a stated period of not less than 12 months) of an existing employee or upon recruitment of a new employee. The following types of costs are allowable as noted, subject to provisions of paragraphs (b), (c), and (d) below.

(1) Costs of travel of the employee and members of his/her immediate family and transportation of household and personal effects to the new location.

(2) Costs of finding a new home, such as advance trips by employees and spouses to locate living quarters, and temporary lodging during the transition periods, not exceeding separate cumulative totals of 60 days for employees and 45 days for spouses and dependents, including advance trip time.

(3) Closing costs (i.e., brokerage fees, legal fees, appraisal fees, points, finance charges, etc.) incident to the disposition of actual residence owned by the employee when notified of transfer; Provided that closing costs when added to the continuing costs described in (a)(6) below shall not exceed 14% of the sales price of the property sold.

(4) Other necessary and reasonable miscellaneous expenses incident to relocation, such as disconnection and connecting household appliances; automobile registration; drivers license and use taxes; cutting and fitting rugs, draperies, and curtains; forfeited utility fees and deposits; and purchase of insurance against damage to or loss of personal property while in transit.

(5) Costs incident to the acquisition of a home in a new location, except that these costs will not be allowable for existing employees or newly recruited employees who prior to the relocation were not homeowners and the total costs shall not exceed 5% of the purchase price of the new home.

(6) Continuing costs of ownership of the vacant former actual residence being sold, such as maintenance of building and grounds (exclusive of fixing up expenses), utilities, taxes, property insurance, mortgage interest, etc., after settlement date or lease date of new permanent residence; Provided that when added to the closing costs described in (a)(3) above, the costs shall not exceed 14% of the sales price of the property sold.

(7) Mortgage interest differential payments, except that these costs are not allowable for existing or newly recruited employees who prior to the relocation were not homeowners, and the total payments are limited to an amount determined as follows:

(i) Difference between the mortgage interest rates of the old and new residence times the current balance of the old mortgage times 3 years; and

(ii) When mortgage differential payments are made on a lump sum basis and the employee leaves or is transferred again in less than 3 years, the amount initially recognized shall be proportionately adjusted to reflect payments only for the actual time of the relocation.

(8) Rental differential payments covering situations where relocated employees retain ownership of a vacated home in the old location and rent at the new location. The rented quarters at the new location must be comparable to those vacated, and the allowable differential payment may not exceed the actual rental costs for the new home, less the fair market rent for the vacated home times 3 years.

(9) Cost of canceling an unexpired lease.

(b) The costs described in (a) above must also meet the following criteria to be considered allowable.

(1) The move is for the benefit of the Government.

(2) Reimbursement must be in accordance with an established policy or practice and program that is consistently followed and is designed to motivate employees to relocate promptly and economically.

(3) Amounts to be reimbursed do not exceed the employee's actual expenses, except that for miscellaneous costs of the type discussed in (a)(4), a flat amount, not to exceed $1,000, may be paid in lieu of actual costs.

(c) The following types of costs are not allowable:

(1) Loss on sale of a home.

(2) Continuing mortgage principle payments on residence being sold.

(3) Cost incident to the acquisition of a home in a new location as follows:

(i) Real estate brokers fees and commissions;

(ii) Costs of litigation;

(iii) Real and personal property insurance against damage or loss of property;

(iv) Mortgage life insurance;

(v) Owner's title policy insurance when such insurance was not previously carried by the employees on the old residence (however, costs of a mortgage title policy is allowable) and;

(vi) Property taxes and operating or maintenance costs.

(4) Payments for employee's income taxes of FICA (social security taxes) incident to reimbursed relocation costs.

(5) Costs incident to furnishing equity or nonequity loans to employees or making arrangements with lenders for employees to obtain lower-than-market rate mortgage loans.

(d) If relocation costs for an employee have been allowed and the employee resigns within 12 months for reasons within the employee's control, it is expected the contractor shall refund or credit the relocation costs to the Government.

(e) Contractor payments to an independent relocation assistance firm handling acquisitions and sales of houses of transferred employees are allowable in amounts which otherwise represent payment for itemized cost which are allowable in accordance with the provisions of this section.

970.3102-17 Travel costs.

(a) *Air travel.* It is the policy of the DOE to require the use of the lessor of the lowest available discount fare which serves the missions purpose or other less than first-class air accommodations

for all cost-reimbursed travel, except when less than first-class accommodations are not reasonably available to meet necessary mission requirements. For example, less than first-class accommodations are considered not reasonably available where less than first-class accommodations would:

(1) Require circuitous routing,

(2) Require travel during unreasonable hours,

(3) Greatly increase the duration of the flight,

(4) Result in additional costs which would offset the transportation savings; or

(5) Offer accommodations which are not reasonably adequate for the medical needs of the traveler.

The difference in cost between first-class air accommodations and less than first-class accommodations (such as discount fares or other less than first class accommodations) is an unallowable cost, except as provided for in this section.

(b) *Government-owned or commercial rental vechicles.* Commercial rental automobile costs in excess of the cost of a Government-furnished automobile or, when a Government-furnished automobile is not available, the cost of a Government-contract rental automobile available under a GSA Federal Supply Schedule contract, is unallowable unless:

(1) A Government-furnished or a Government contract rental automobile is not reasonably available to the traveler, or

(2) The traveler's use and the cost of a commercial rental automobile are justified and authorized as more advantageous to the Government.

970.3102-18 Special funds in the construction industry.

Costs of special "funds," financed by employer contributions, in the construction industry for such purposes as methods and materials research, public and industry relations, market development, disaster relief, etc., are unallowable, execept as specifically authorized by the contracting officer and provided for in the contract.

970.3102 Contract clauses.

The appropriate cost principles clause at 970.5204-13 or 970.5204-14 shall be included in a management and operating contract.

Subpart 970.32—Contract Financing

970.3201 General.

It is the policy of the DOE to finance management and operating contracts through advance payments and use of Special Bank Accounts. Appropriate procedures for properly managing and controlling funds for obligation and expenditure under a management and operating contract are maintained by the Office of Controller.

970.3202 Advance payments.

(a) The Head of the Contracting Activity, shall authorize advance payments without interest; and approve the findings, determinations and the contract terms and conditions concerning advance payments in accordance with the procedures set forth in FAR Subpart 32.4, Advance Payments, as amended by Subpart 932.4.

(b) Advance payments shall be made under a letter-of-credit arrangement for deposit in a special bank account.

(c) Prior to providing any advance payments, the contracting officer shall enter into an agreement with the contractor and a financial institution, regarding a special bank account where the advanced funds are to be deposited by the Government. Such agreement shall (1) provide that DOE shall retain title to the unexpended balance of funds in the special bank account including revenues if any, deposited by the contractor; and that such title shall be superior to any claim or lien of the bank of deposit and (2) incorporate as necessary or appropriate, additional financial provisions required by Treasury or Departmental financial regulations.

(d) Deviations from these specified requirements cited in paragraph (c) above shall be considered a deviation requiring approval of the Head of the Contracting Activity.

(e) Letter-of-Credit arrangements shall be prepared in accordance with FAR 32.406, Letters of Credit, and shall be coordinated between the procurement and finance organizations.

970.3270 Clauses.

The clauses at 970.5204-16 shall be included in management and operating contracts when advances of funds are to be placed in a special bank account. They may be appropriately modified to incorporate any additional provisions that may be required by governing financial regulations of the Treasury Department or the Department.

970.3271 Special bank account agreement.

Note.—The following agreement shall be used with special bank accounts in accordance with 970.3202(c).

Agreement entered into this —— day of ———, 19 —, between the United States of America (hereinafter called the Government) represented herein by the Department of Energy (hereinafter called the "DOE"), and ——— (hereinafter called the "Contractor," a corporation under the laws of the State of ———, and ———, (hereinafter called the "Bank,") a banking corporation under the laws of ———, located at ———.

Recitals

(a) On the date of ———, 19 —, DOE and the Contractor entered into Contract(s) No. ———, or a supplemental agreement thereto, providing for the making of advances of Government funds to the contractor a copy of such advance provisions has been furnished to the Bank.

(b) DOE requires that amounts advanced to the Contractor under said contract or supplemental agreement be deposited in a Special Bank Account or accounts with a bank designated by the Treasury Department as depositary and financial agent of the Government (Section 10 of the Act of June 11, 1942, 56 Stat. 356; 12 U.S.C. 265), separate from any of the Contractor's general or other funds; and, the Bank being such a bank, the parties are agreeable to so depositing said amounts with the Bank.

(c) This Special Bank Account shall be designated "——— (Name of Contractor), ——— (Contract Number), Department of Energy Special Bank Account."

Covenants

In consideration of the foregoing, and for other good and valuable considerations, it is agreed that,

(1) The Government shall have title to the credit balance in said account to secure the return of all advances made to the contractor, which title shall be superior to any lien or claim of the Bank or others with respect to such account.

(2) The Bank will be bound by the provisions of said contract or contracts relating to the deposit and withdrawal of funds in the above Special Bank Account, but shall not be responsible for the application of funds properly withdrawn from said account. After receipt by the Bank of written directions from the Contracting Officer, or from the duly authorized representative of the Contracting Officer, the Bank shall act thereon and shall be under no liability to any party hereto for any action taken in accordance with the said written directions.

(3) The Government, or its authorized representatives, shall have access to the books and records maintained by the Bank with respect to such Special Bank Account at all reasonable times and for all reasonable purposes, including, without limitation, the inspection or copying of such books and records and any and all memoranda, checks, correspondence, or documents pertaining thereto. Except as agreed upon by the Government and the Bank, all books and records pertaining to the Special Bank Account in the possession of the Bank relating to the Special Bank Account agreement shall be preserved by the Bank for a period of three (3) years after final payment under the contract to which the Special Bank Account agreement pertains or otherwise disposed of in such manners as may be agreed upon by the Government and the Bank.

(4) In the event of the services of any writ of attachment, levy of execution, or commencement of garnishment proceedings with respect to the Special Bank Account, the Bank will promptly notify the Head of Contracting Activity, DOE.

In witness whereof the parties hereto have caused this Agreement to be executed , as of the day and year first above written.

(Signatures and Official Titles) _____

Subpart 970.36—Construction and A-E Contracts

970.3600 Scope of subpart.

This subpart sets forth contracting procedures applicable to construction work performed by management and operating contractors and their subcontractors. Provisions of FAR Part 36 and Part 936 of this chapter also apply.

970.3601 Government estimates.

A Government estimate of costs shall be prepared for all construction work to be subcontracted under operating and management contracts. The services of an architect-engineer, management and operating contractor, or construction contractor shall be used as appropriate in the preparation of Government estimates.

970.3602 Specifications.

Management and operating contractors are required to comply with the DOE publication entitled "Design Criteria," in preparing specifications for construction work.

970.3603 Labor standards.

The provisions of FAR Subpart 22.4 and Subpart 922.4 of this chapter shall be followed in determining whether a management and operating contractor's procurement actions involve work covered under the Davis-Bacon Act.

970.3604 Agreement for rental of third-party owned construction equipment.

When construction work under a management and operating contract requires the rental of construction equipment from a third party, the DOE agreement outlined at 936.7302 shall be used.

970.3605 Davis-Bacon Act.

Subcontracts subject to the Davis-Bacon Act under management and operating contracts shall include the applicable clauses and shall be modified to delete references to a prime contract subject to the Davis-Bacon Act.

970.3606 Special construction clause for operating contracts.

The clause in 970.5204–38 shall be used in management and operating contracts when the contractor will not perform covered work with its own forces but may procure construction by subcontract.

970.3607 Architect-engineer/construction services.

Combinations in or subcontracts for architect-engineer and construction services, which may result in self-inspection of construction work, tend to prevent a contractor from rendering unbiased decisions, or create difficulties in segregating costs between contracts, and should be avoided. However, it is recognized that sometimes it is advantageous under carefully circumscribed conditions for a management and operating contractor to obligate a single firm to perform both architect-engineer and construction management services which may include performance of a segment of the construction work with the contractor's own forces. Unless otherwise authorized by the Procurement Executive, the following combinations of subcontracts shall not be awarded by a management and operating contractor to the same firm or to affiliated companies:

(a) Both a cost-reimbursable contract and fixed-price contract if the performance of any portion of the work under either the cost-type or fixed-price contract will be performed on different projects concurrently and in the same general locations. This restriction applies to contracts for construction services, architect-engineer services, or construction and architect-engineer services.

(b) A fixed-price contract or contracts, for both architect-engineer and construction services on the same construction project, or a cost-type contract for architect-engineer services and a fixed-price contract for construction services on the same construction project. If a firm is to be responsible under such contractual arrangements for both design and construction services, title III architect-engineer services shall be performed by another organization selected by DOE.

(c) A cost-type contract for both architect-engineer and construction services on the same construction project (engineer-constructor contract). If this contractual arrangement is used, the contract shall provide for performance of the title III architect-engineer services by contractor's engineering personnel who are not responsible to the contractor's construction personnel, or the title III services shall be performed by another organization selected by DOE.

970.3608 Inspection.

(a) Inspection services may be performed by the architect-engineer responsible for the design. Inspection services may not be procured from a fixed-price construction contractor with respect to its own work. Under cost-reimbursement type subcontracts where the construction contractor and architect-engineer contractor are the same, some degree of self-inspection may be permitted, but shall not constitute final inspection and acceptance by the Government.

(b) When one contractor is to inspect the work of another, the inspecting contractor will be given written instructions defining its responsibilities and stating that it is not authorized to modify the terms and conditions of the contract, direct additional work, waive any requirements of the contract, or settle any claims or dispute. Copies of the instructions will be given to the contractor who is to be inspected, with a request to acknowledge receipt on one copy and return it to the contracting officer. In this manner, both contractors are on notice as to the authority and limitations on the authority of the inspecting contractor.

Subpart 970.44—Contractor procurement

970.4401 General.

Contracting activities of management and operating contractors shall be governed by contract requirements. The Federal Acquisition Regulation generally is not directly applicable. There are, however, requirements of certain Federal Laws, Executive Orders and regulations including Federal Acquisition Regulations which pertain to and are applicable to procurements by management operating contractors. These requirements, together with implementing DOE Acquisition Regulations which apply to management and operating contractor procurements are identified in this subpart and other subparts of 970.

970.4402 Responsibility of contracting officers.

Contracting officers are responsible for assuring that procurement by management and operating contractors conforms to contract requirements and provides effective and timely support to agency programs. In carrying out this responsibility, contracting officers shall: (a) Assure that management and operating contracts include those provisions required by law or regulations, and such other provisions as are appropriate to implement DOE

policies and requirements; (b) review contractor procurement systems including implementation of policies as required by 970.4403 and in accordance with the provisions of their contracts; (c) review individual procurement actions of certain types or above stated dollar level; and (d) make periodic appraisals of the contractor's management of the procurement function in accordance with criteria established by the Procurement Executive.

970.4403 Policies.

The following policies shall apply to the procurement practices of management and operating contractors. Within these policies it is expected that procurement systems and methods will vary according to the types and kinds of procurement to be made, the needs of the particular programs, and the experience, methods, and practices of the particular contractor.

(a) Procurement systems and methods used to support DOE management and operating contract work should be well defined, consistently applied, and follow good business practices appropriate for the requirement and amount of procurement involved.

(b) Procurement should be effected in the manner most advantageous to the Government—price, quality, and other factors considered. In order to assure this objective and the award of subcontracts on an impartial basis, procurement (from other than Government sources) shall be effected by methods calculated to assure such full and free competition as is consistent with securing the required supplies and services. Generally, procurement actions are carried out through one of the following methods:

(1) *Firm-Price Competitive offers or quotations and award.* The competitive offer or quotation and award method of procurement, which normally assures the greatest degree of fair and open competition, generally involves the following basic steps and objectives:

(i) Preparation of a solicitation document setting forth contract terms and conditions and describing the requirement clearly, accurately, and completely, avoiding unnecessarily restrictive specifications or requirements.

(ii) Publicizing such solicitations by distribution to a reasonable number of prospective offerors and by such other means as may be appropriate, in sufficient time to permit the preparation and submission of offers before the time set for receipt of offers. This time shall be uniform for all.

(iii) Handling solicitations in a manner which provides fair and equal treatment for all prospective contractors.

(iv) Making an award to the prospective contractor whose offer, in response to the solicitation, will be most advantageous to the Government, price and other factors considered. However, if upon evaluation, it is determined to be in the best interest of the Government to enter into negotiations with prospective contractors before award, such negotiations should be conducted in accordance with (b)(2) below with respect to according fair and equal treatment to prospective contractors.

(2) *Negotiation.* Procurement by this method normally should be conducted by competitive negotiations through the solicitation and evaluation of proposals, from an adequate number of qualified sources to assure effective competition, consistent with securing the required supplies or services. Negotiated procurement involves advance planning, description of procurement and delivery requirements, and consideration of the effect these requirements may have on prices and competition. Requests for proposals should describe the property or services required as completely as possible; allow sufficient time for submission of proposals; and establish a closing date for receipt of proposals. Proposals should be handled in a manner which provides fair and equal treatment to all prospective offerors.

(c) Price or cost analyses shall be performed in accordance with the requirements of FAR Subpart 15.8 and Subpart 915.8 of this chapter. Profit and fee and negotiation objectives shall be consistent with guidance in FAR Subpart 15.9 and Subpart 915.9 of this chapter. Allowable cost shall be determined in accordance with the cost principles of FAR Part 31 appropriate for the type of organization to which the subcontract is awarded.

(d) Supplies and services normally should be procured through the use of specifications, standards, or purchase descriptions which clearly and accurately describe the supplies or services to be procured. If such specifications, standards, or purchase descriptions are not available and it is impractical and uneconomical to prepare them, "brand name or equal" descriptions may be used, provided the particular physical functions or other characteristics of the brand name item which are deemed essential are clearly identified and described.

(e) The need for access authorizations to classified information shall not be a limiting factor in obtaining competition except where time will not permit securing additional access authorizations.

(f) Awards shall be made only to responsible, responsive, prospective contractors. Proposed awards to firms or individuals on the GSA Consolidated List of Debarred, Suspended, and Ineligible Contractors or the DOE Consolidated List of Debarred, Suspended, Ineligible, and Voluntarily Excluded Awardees shall be submitted to DOE for approval.

(g) Selection of the type of contract to be used should be based on consideration of the nature of the supplies and services required and other circumstances surrounding the procurement. The cost-plus-a-percentage-of-cost system of contracting shall not be used in any event.

(h) Small purchases should be made by methods designed to (1) obtain fair and reasonable prices, (2) reduce administrative costs of making such purchases to the minimum required to establish the propriety of placing the order at the price paid with the supplier concerned, and (3) improve opportunities for small and minority business concerns within the local trade area to obtain a fair proportion of purchases.

970.4404 Procurement from contractor-controlled sources.

(a) When a management and operating contractor maintains a separate procurement function to support performance of work in DOE facilities on DOE sites, procurement from contractor-controlled sources (any division, subsidiary, or affiliate of the contractor under a common control) may be treated in the same manner as procurement from other sources provided the procurement is made:

(1) Under the same terms and conditions as would apply if the purchase were from a third party;

(2) In accordance with policies and procedures particularly designed to permit fair and open competition which have been approved by the contracting officer; and

(3) In a manner which results in legally enforceable terms and conditions.

(b) Subcontracts for performance of contract work itself (as distinguished from procurement of supplies and services needed in connection with the performance of work) require DOE authorization which may involve an adjustment of the contractor's fixed fee. If the contractor seeks authorization to have some part of the contract work performed by a contractor-controlled source, and the contractor's

performance of that work was a factor in the negotiated fixed fee, DOE approval would normally require (1) that the contractor-controlled source perform such work an a basis without profit, (2) an equitable downward adjustment to the contractor's (i.e., the contracting component's) fixed fee.

(c) Determination on cost of money allowance as prescribed in at FAR 31.205–10 shall be treated as follows:

(1) When a procurement from a contractor-controlled source with the provisions and conditions of (a) (1), (2), and (3) of this section, the contractor-controlled source may include cost of money as an allowable element of the costs of its goods or services provided to the contractor; *provided* (i) the procurement is based on cost as set forth in 970.3102–15 and (ii) the cost of money amount is computed in accordance with FAR 31.205–10 and related procedures (see 930.70).

(2) When a procurement from a contractor-controlled source is authorized in accordance with 970.4408 of this section, cost of money shall not be considered an allowable element of the cost of the contractor-controlled source procurement.

970.4405 Procedures for handling mistakes under management and operating contractor procurement.

(a) Heads of Contracting Activities may authorize the withdrawal of offers and the correction of mistakes in contracts awarded by contractors in accordance with this section.

(1) Contractors may permit the withdrawal of offers upon a showing of clear and convincing evidence of the alleged mistake.

(2) Contractors may correct obvious clerical errors in offers disclosed prior to award, regardless of amount.

(3) Except as provided in paragraph (a)(4) of this section, contractors may correct other mistakes in bids and contracts as provided in this section.

(4) The Head of the Contracting Activity approval shall be required for:

(i) Any corrections of mistakes which would cause the proposed contract price (A) to exceed that of the second low offer, or (B) to displace one or more lower acceptable offers;

(ii) Any corrections of mistakes in offers, other than obvious clerical errors, in procurement actions which require DOE approval;

(iii) Any correction of mistakes which exceed $10,000 disclosed after award; and

(iv) Any rescision of a contract.

(b) Corrections of mistakes are authorized under paragraph (a) (3) and (4) of this section when:

(1) There is clear and convincing evidence to support both the assertion of a mistake and the amount thereof;

(2) The mistake was made in good faith;

(3) The mistake is of such a nature that correction thereof is justified by consideration of fair dealings; and

(4) The mistake is of the type that would be corrected under the contractor's private procurement practices, or with respect to mistakes in excess of $10,000, or which require approval of the Head of the Contracting Activity, a determination is made that relief would be granted under applicable Federal law.

(c) The authority of this section may not be used to make a offer responsive.

(d) Where rescision is an appropriate remedy, the Head of the Contracting Activity may authorize a modification in a specific amount, or approve revisions in other terms and conditions, in lieu of rescision.

(e) Where a contract is executed or work is continued after assertion of a mistake, the alleged mistake may be considered on its merits as of the time it was asserted, provided the contract was executed or the work continued pursuant to an understanding that such action did not constitute a waiver of any rights.

(f) Corrections of mistakes or other remedial actions taken pursuant to this section shall be documented by a written statement setting forth the circumstances and basis for such action and shall be made a part of the procurement file.

(g) When correction of mistakes or other relief cannot be granted under the criteria of this section, the Head of the Contracting Activity may deny the request or forward the file to the Procurement Executive with recommendation for action.

970.4406 [Reserved]

970.4407 Review and approval.

(a) Heads of contracting activities shall require management and operating contractors to obtain the approval of the contracting officer before entering into any subcontracts or purchase orders within the following categories:

(1) *Specified contract types.* Approval shall be required before entering into cost reimbursement, labor-hour, and time-and-materials type subcontracts in excess of $500.

(2) *Specified dollar amounts.* Approval shall be required before entering into subcontracts or purchase orders that:

(i) Except as provided in paragraph (b) (1) and (2) of this section, exceed the following amounts:

(A) Construction and A–E, $10,000;

(B) R&D, $10,000; and

(C) All others, $25,000.

(ii) Exceed any lesser dollar limits established at the discretion of Heads of Contracting Activities, taking into consideration such factors as the nature of work under each contract, the estimated cost of work under the contract, the contractor's procurement organization, other controls exercised over the contractor's procurement operations, and policies with respect to approvals established by Headquarters or field offices.

(3) *Contracts entered into under section 41 of the Atomic Energy Act of 1954 relating to the operation of nuclear production facilities.* Prior approval shall be required for the subcontracting of any work a contractor is obligated to perform under a contract entered into under section 41 of the Atomic Energy Act of 1954, as amended.

(4) *Specified materials, equipment, or services.* Heads of Contracting Activities shall take such action as may be required to insure compliance with the procedure for purchase from contractor-controlled sources or the procurement of specific items, or classes of items which by the terms of the contract may require DOE approval.

(b) The following exceptions shall apply to the provisions of paragraph (a) above.

(1) In the event application of any of the dollar amount limitations established in paragraphs (a)(1) and (2) above would impair the DOE program or the field office or would be impracticable under the circumstances, or such higher levels would be in the Government's best interest, the Head of a Contracting Activity may, upon making such determination, establish a dollar amount in $100,000 subject to advance notification limitations set forth in 970.4408. Requests to establish dollar levels in excess of $100,000 shall be submitted to the Procurement Executive for approval and contain the applicable information required in 970.4408. Advance notification required in 970.44–8 shall be applicable to all such higher levels established.

(2) When a review has been made of the contractor's procurement system and the contractor's procurement system has been approved, the Head of the Contracting Activity may raise the dollar limitations in paragraph (a)(1) and (2) above as follows (subject to advance notification): To the lower of (A) limits established by the performing activity,

or (B) the amount of the Head of the Contracting Activities delegated authority, provided approval has been obtained as required.

(c) Heads of Contracting Activities may, up to the limits of their delegated authority, give oral approval (or approval by telephone or teletype) to any subcontract or purchase order requiring DOE approval in instances of compelling or unusual urgency, such as circumstances under which a DOE program would be seriously hampered or delayed if supplies or services are not obtained by a certain date and time does not permit the obtaining or formal approval. Such emergency approvals shall be confirmed in writing.

(d) Management and operating contractors shall be required to justify procurements in writing, setting forth the information and data used in determining that the procurements are in the best interest of the Government. The scope and detail of this documentation shall be consistent with the nature, dollar value, and complexity of the procurement.

(e) Contracting officers shall assure that the contractors establish and maintain procurement files which contain those documents essential to present an accurate and adequate record of the transaction.

(f) Field offices will establish files for the review and approval of contractor procurement actions, including among other necessary documentation, an appraisal of the proposed action and a copy of suggestions, deficiencies, or improvements forwarded to the contractor.

970.4408 Advance notification.

(a) This provision only applies to former AEC functions now being performed by DOE pursuant to section 602(d)13 of the Federal Property and Administrative Services Act of 1949, as amended. The limitation in section 304(b) of that act concerning advance notification is not applicable, provided the contractors procurement methods and systems have been reviewed and approved, except that advance notification shall be required for all proposed contracts or solicitations where the procurement is:

(1) Noncompetitive and over $25,000

(2) A intracompany transfer or payment over $10,000;

(3) Will result in direct reimbursement of costs over $500.

(4) For consulting work over $10,000.

(b) The advance notice shall contain, as a minimum, a description of work, estimated cost, type of contract or reimbursement provisions, and extent of anticipated competition, or justification for a noncompetitive procurement. The contracting officer may at any time request additional information that must be furnished promptly and prior to award of the subcontract.

970.4409 Nuclear material transfers.

(a) Management and operating contractors, in preparing contracts or other agreements in which monetary payments or credits depend on the quantity and quality of nuclear material, shall be required to assure that each such contract or agreement contains a:

(1) Description of the material to be transferred;

(2) Provision specifying the method by which the quantities are to be measured and reported;

(3) Provision specifying the procedures to be used in resolving any differences arising as a result of such measurements;

(4) Provision providing for the use of an umpire to settle unresolved differences in the analytical samples; and

(5) Provision specifying in detail which part shall bear the costs of resolving a difference and what constitutes such costs.

(b) The provisions providing for resolution of measurement differences must be such that resolution is always accomplished, while at the same time minimizing any advantage one party may have over the other.

Subpart 970.46—Quality Assurance

970.4601 General.

Contract provisions relating to inspection and acceptance as included, in subcontracts and purchase orders by management and operating contractors, should provide no less protection for the Government than are provided by the contract articles in prime contracts.

Subpart 970.49—Termination of Contracts

970.4901 General principles.

(a) All management and operating contracts, regardless of whether they are for production, research and development, or services, shall contain appropriate termination provisions.

(b) Subcontracts and purchase orders awarded by the management and operating contactor are required to include termination and settlement requirements of FAR Part 49.

§ 970.4902 Termination clause.

The clause at 970.5204–45 shall be inserted into management and operating contracts.

Subpart 970.51—Use of Government Sources by Contractors

970.5101 Use of Government supply sources.

(a) Management and operating contractors should meet their acquisition requirements from Government sources of supply, when these sources are made available to them and if it is economically advantageous or otherwise in the best interest of the Government.

(b) Contracting officers may authorize management and operating contractors and their subcontractors with cost-reimbursement type subcontracts, where all higher-tier subcontracts are cost-reimbursement types, to acquire materials and services directly from such Government sources of supply in accordance with the requirements of this subpart or the consent of agencies involved.

(c) Materials, supplies, and equipment procured from Government sources of supply under the procedures described herein must be used exclusively in connection with management and operating contract work, except as otherwise authorized by Heads of Contracting Activities.

(d) Many supply facilities and contracts of the Department of Defense are made available to DOE and its management and operating contractors. Accordingly:

(1) Requisitions or purchase orders shall be submitted directly to these sources, unless otherwise specified. Field offices will be notified by the Procurement Executive, or designee, when such contracts and facilities are made available. Inquiries in connection with these sources may be directed to the Procurement Executive.

(2) Contractor requisitions submitted to Defense Logistics Centers should include the following statement. "The consignee of the supplies and materials requisitioned herein is acting in behalf of and as agent for the Department of Energy with respect to the expenditure of Government funds." Orders submitted directly to DOD contractors shall be accompanied by an authorization substantially similar to that in FAR 51.103.

(e) Contracting officers, when reviewing the procurement systems and methods of contractors that have been authorized to use Government sources of supply, shall assure that provision is made for documenting the justification of procurements from commercial sources of items available from Government sources of supply.

(f) Direct procurement by DOE, rather than by a management and operating contractor, shall be required where deemed necessary by the Head of the Contracting Activity in order to carry out special requirements of appropriation acts or other applicable laws relating to particular items.

(g) The Procurement Executive, shall be informed of instances in which Government sources of supply are not used because of the quality of the items available or when a Federal Supply Schedule contractor refuses to honor an order.

970.5102 Use of interagency motor pool vehicles and related services.

The provisions of FAR subpart 51.2, FPMR 41 CFR 101–39, and DOE–PMR 41 CFR 109–39 apply.

Subpart 970.52—Contract Clauses for Management and Operating Contracts

970.5201 General policy.

Many of the clauses set forth in subparts of FAR Part 52 and Part 952 of this Chapter apply to management and operating contracts. The clauses in this subpart are to be used in addition to or in place of the FAR or the DEAR counterpart contract clauses where appropriate. Further modifications and notes to certain FAR clauses are also prescribed, in addition to those set forth in Part 952.

970.5202 Deviations.

Deviations from the standard contract clauses and modifications to FAR clauses set forth herein, as well as from the standard contract clauses prescribed in FAR Part 52 and Part 952 of this Chapter, shall be made only in accordance with the deviation procedures of Subpart 901.4. Minor changes in wording which may become necessary in the course of negotiations are not considered deviations, provided Counsel determines that the change is not prohibited by statue, executive order, or administrative regulation and does not alter the meaning, intent, or basic principles expressed in these clauses.

970.5203 Modifications and notes to FAR clauses.

970.5203–1 Covenant against contingent fees.

See FAR 52.203–5.

Note.—*Modify this clause by adding the following paragraph:*

"(c) Subcontracts and purchase orders. Unless otherwise authorized by the Contracting Officer in writing, the contractor shall cause provisions similar to the foregoing to be inserted in all subcontracts and purchase orders entered into under this contract."

970.5203–2 Examination of records by Comptroller General.

See FAR 52.215–1.

Note.—*The following paragraph (e) should be included in management and operating contracts when the clause at FAR 52.215–1 is required. It may be omitted only with the approval of the Procurement Executive, upon a specific determination, based on consultation with the Office of the Controller and the Office of the General Counsel, that nothing in the contract purports to preclude an audit by the General Accounting Office of any transaction thereunder.*

(e) Nothing in this contract shall be deemed to preclude an audit by the General Accounting Office of any transaction under this contract.

970.5203–3 Buy American Act.

See FAR 52.225–3.

Note.—*Substitute* "used" *for* "delivered" *in paragraph (b).*

970.5204 Clauses to be used in addition to or in place of the contract clauses set forth in FAR 52 and DEAR 952.

970.5204–1 Security.

Use the clauses at 952.204–2, Security and 952.204–70, Classification.

970.5204–2 Safety and health (Government-owned or leased).

Safety and Health (Government Owned or Leased) (Apr 1984)

The contractor shall take all reasonable precautions in the performance of the work under this contract to protect the safety and health of employees and of members of the public and shall comply with all applicable safety and health regulations and requirements (including reporting requirements) of DOE. The contracting officer shall notify the contractor, in writing, of any noncompliance with the provisions of the clause and the corrective action to be taken. After receipt of such notice, the contractor shall immediately take corrective action. The contractor shall submit a management program and implementation plan to the contracting officer for review and approval within 30 days after the date of award of this contract. In the event that the contractor fails to comply with said regulations or requirements of DOE, the contracting officer may, without prejudice to any other legal or contractual rights of DOE, issue an order stopping all or any part of the work; thereafter, a start order for resumption of the work may be issued at the discretion of the contracting officer. The contractor shall make no claim for an extension of time or for compensation or damages by reason of, or in connection with, such work stoppage.

970.5204–3 Buy American Act—Construction materials.

Include the clause at FAR 52.225–5 when the contract contains construction.

970.5204–4 [Reserved]

970.5204–5 Disclosure of information.

Clause located at 952.204–72 use as prescribed at 970.0404–4.

970.5204–6 Nuclear hazards indemnity.

See 952.250–70

970.5204–7 Nuclear hazards indemnity—product liability.

See 952.250–71

970.5204–8 Indemnity assurance to architect-engineer or supplier prior to operation of a production or utilization facility.

See 952.250–72

970.5204–9 Accounts, records, and inspection.

Accounts, Records, and Inspection (Apr. 1984)

(a) *Accounts.* The contractor shall maintain a separate and distinct set of accounts, records, documents, and other evidence showing and supporting all allowable costs incurred, revenues or other applicable credits, fixed-fee accruals, and the receipt, use, and disposition of all Government property coming into the possession of the contractor under this contract. The system of accounts employed by the contractor shall be satisfactory to DOE and in accordance with generally accepted accounting principles consistently applied.

Note.—*If the contract includes the clause for* "Price Reduction for Defective Cost or Pricing Data" *set forth at FAR 52.215–22, paragraph (a) above should be modified by adding the words* "or anticipated to be incurred" *after the words* "allowable costs incurred."

(b) *Inspection and audit of accounts and records.* All books of account and records relating to this contract shall be subject to inspection and audit by DOE at all reasonable times, before and during the period of retention provided for in (d) below, and the contractor shall afford DOE proper facilities for such inspection and audit.

(c) *Audit of subcontractors' records.* The contractor also agrees, with respect to any subcontracts (including fixed-price or unit-price subcontracts or purchase orders) where, under the terms of the subcontract, costs incurred are a factor in determining the amount payable to the subcontractor of any tier, to either conduct an audit of the subcontractor's costs or arrange for such an audit to be performed by the cognizant government audit agency through the contracting officer.

(d) *Disposition of records.* Except as agreed upon by the Government and the contractor, all financial and cost reports, books of account and supporting documents, and other data evidencing costs allowable, revenues, and other applicable credits under this contract, shall be the property of the Government, and shall be delivered to the Government or otherwise disposed of by the contractor either as the contracting officer may from time to time direct during the

progress of the work or, in any event, as the contracting officer shall direct upon completion or termination of this contract and final audit of accounts hereunder. Except as provided in this contract, all other records in the possession of the contractor relating to this contract shall be preserved by the contractor for a period of three years after final payment under this contract or otherwise disposed of in such manner as may be agreed upon by the Government and the contractor.

(e) *Reports.* The contractor shall furnish such progress reports and schedules, financial and cost reports, and other reports concerning the work under this contract as the contracting officer may from time to time require.

(f) *Inspections.* The DOE shall have the right to inspect the work and activities of the contractor under this contract at such time in such manner as it shall deem appropriate.

(g) *Subcontracts.* The contractor further agrees to require the inclusion of provisions similar to those in paragraphs (a) through this paragraph (g) of this clause in all subcontracts (including fixed-price of unit-piece subcontracts or purchase orders) of any tier entered into hereunder where, under the terms of the subcontract, costs incurred are a factor in determining the amount payable to the subcontractor.

Note.—*If the prime contract contains a "Defective Cost or Pricing Data" clause, this paragraph (g) shall be modified by adding the following:*

The contractor further agrees to include an audit clause, the substance of which is the "Audit" clause set forth at FAR 52.215–22, in each subcontract which does not include provisions similar to those in paragraph (a) through this paragraph (g) of this clause, but which contains a "defective cost or pricing data" clause.

(h) *Internal audit.* The contractor agrees to conduct an internal audit and examination satisfactory to DOE of the records, operations, expenses, and the transactions with respect to costs claimed to be allowable under this contract annually and at such other times as may be mutually agreed upon. The results of such audit, including the working papers, shall be submitted or made available to the contracting officer.

Note.—*This paragraph (h) shall be included in (a) all cost-type contracts (or subcontracts) involving an estimated cost exceeding $5 million and expected to run more than 2 years, and (b) any other cost-type contract (or subcontract) where deemed advisable by the Head of the Contracting Activity advisable by the Head of the Contracting Activity and wen the contactor (or subcontractor) already has an established internal audit organization.*

970.5204–10 Foreign ownership, control, or influence over contractors (FOCI).

(a) Insert the clause at 952.204–73 in a solicitation for a management and operating contract.

(b) Insert the clause at 925.204–74 in management and operating contracts as prescribed at 970.0404–4.

970.5204–11 Changes.

Changes (Apr 1984)

(a) *Changes and adjustment of fee.* The contracting officer may at any time and without notice to the sureties, if any, issue written directions within the general scope of this contract requiring additional work or directing the omission of, or variation in, work covered by this contract. If any such direction results in a material change in the amount or character of the work described in the "Statement of Work," an equitable adjustment of the fee, if any, shall be made in accordance with the agreement of the parties and the contract shall be modified in writing accordingly. Any claim by the contractor for an adjustment under this clause must be asserted in writing within 30 days from the date of receipt by the contractor of the notification of change; provided, however, that the contracting officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. A failure to agree on an equitable adjustment under this clause shall be deemed to be a dispute within the meaning of the clause entitled "Disputes."

(b) *Work to continue.* Nothing contained in this clause shall excuse the contractor from proceeding with the prosecution of the work in accordance with the requirements of any direction hereunder.

970.5204–12 Contractor's organization.

Contractor's Organization (Apr 1984)

(a) *Organization chart.* As promptly as possible after the execution of this Contract, the contractor shall furnish to the contracting officer a chart showing the names, duties, and organization of key personnel to be employed in connecting with the work, and shall furnish from time to time supplementary information reflecting changes therein.

(b) *Supervising representative of contractor.* Unless otherwise directed by the contracting officer, a competent full-time resident supervisory representative of the contractor satisfactory to the contracting officer shall be in charge of the work at the site at all times. This also applies to off-site work.

(c) *Control of employees.* The contractor shall be responsible for maintaining satisfactory standards of employee competency, conduct, and integrity and shall be responsible for taking such disciplinary action with respect to his employees as may be necessary. In the event the contractor fails to remove any employee from the contract work whom DOE deems incompetent, careless, or insubordinate, or whose continued employment on the work is deemed by DOE to be contrary to the public interest, the Government reserves the right to require the contractor to remove the employee.

Note.—*In contracts identified in 970.2273, the following paragraph shall be substituted for (c) above:*

(c) The contractor shall be responsible for maintaining satisfactory standards of employee competency, conduct, and integrity and shall be responsible for taking such disciplinary action with respect to its employees as may be necessary. The contractor shall establish such standards and procedures as are necessary to implement effectively the provisions set forth in 970.2273, and such standards and procedures shall be subject to the approval of the contracting officer.

970.5204–13 Allowable costs and fixed-fee (CPFF management and operating contracts).

Allowable Costs and Fixed-Fee (Apr 1984) (CPFF Management and Operating Contracts)

(a) *Compensation for contractor's services.* Payment for the allowable costs as hereinafter defined, and of the fixed-fee, if any, as hereinafter provided, shall constitute full and complete compensation for the performance of the work under this contract.

(b) *Fixed-fee.* The fixed-fee payable to the contractor for the performance of the work under this contract is $———. There shall be no adjustment in the amount of the contractor's fixed-fee by reason of differences between any estimate of cost for performance of the work under this contract and the actual costs for performance of that work.

Note.—*This provision to this paragraph may be appropriately changed to cover situations where the fee is for a period of time or different fees are allowed for various phases of the work.*

(c) *Allowable costs.* The allowable cost of performing the work under this contract shall be the costs and expenses that are actually incurred by the contractor in the performance of the contract work in accordance with its terms, that are necessary or incident thereto, and are determined to be allowable pursuant to this paragraph (c). The determination of the allowability of cost hereunder shall be based on: (1) Reasonableness, including the exercise of prudent business judgment; (2) consistent application of generally accepted accounting principles and practices that result in equitable charges to the contract work; and (3) recognition of all exclusions and limitations set forth in this clause or elsewhere in this contract as to types or amounts of items of cost. Allowable costs shall not include the cost of any item described as unallowable in paragraph (e) of this clause except as indicated therein. Failure to mention an item of cost specifically in paragraph (d) or paragraph (e) shall not simply either that it is allowable or that it is unallowable.

(d) *Items of allowable cost.* Subject to the other provisions of this clause, the following items of cost of work done under this contract shall be allowable to the extent indicated:

(1) Bonds and insurance, including self-insurance, as provided in the clause entitled "Required Bonds and Insurance—Exclusive of Government Property."

(2) Communication costs, including telephone services, local and long-distance calls, telegrams, cablegrams, postage, and similar items.

(3) Consulting services (including legal and accounting), and related expenses, as

approved by the contracting officer, except as made unallowable by paragraphs (e)(16) and (e)(26).

(4) Litigation expenses, including reasonable Counsel fees, incurred in accordance with the clause of this contract entitled "Litigation and Claims."

(5) Losses and expenses (including settlements made with the consent of the contracting officer) sustained by the contractor in the performance of this contract and certified in writing by the contracting officer to be reasonable, except the losses and expenses expressly made unallowable under other provisions of this contract.

(6) Materials, supplies, and equipment, including freight transportation, material handling, inspection, storage, salvage, and other usual expenses incident to the procurement, use and disposition thereof, subject to approvals required under other provisions of this contract.

(7) Patents, purchased design, and royalty payments to the extent expressly provided for under other provisions in this contract or as approved by the contracting officer, and preparation of invention disclosures, reports and related documents, and searching the art to the extent necessary to make such invention disclosures in accordance with any "Patent Rights" clause of this contract.

(8) Personnel costs and related expenses incurred in accordance with the personnel appendix which is hereby incorporated by reference and made a part of this contract. It is specifically understood and agreed that said personal appendix sets forth in detail personnel costs and related expenses to be allowable under this contract and is intended to document those personnel policies, practices and plans which have been found acceptable by the contracting officer. It is further understood and agreed that the contractor will advise DOE of any proposed changes in any matters covered by said policies, practices or plans which relate to this item of cost, and that the personnel appendix may be modified from time to time in writing by mutual agreement of the contractor and DOE without execution of an amendment to this contract for the purpose of effectuating any such changes in, or additions to, said personnel appendix as may be agreed upon by the parties. Such modifications shall be evidenced by execution of written numbered approval letters from the contracting officer or his representative. Types of personnel costs and related expenses to be incorporated into the personnel appendix, or amendments thereto, are as follows:

(i) Salaries and wages; bonuses and incentive compensation; overtime, shift differential, holiday, and other premium pay for time worked; nonwork time, including vacations, holidays, sick, funeral, military, jury, witness, and voting leave; salaries and wages to employees in their capacity as union stewards and committeemen for time spent in handling grievances, or serving on labor management (contractor) committees, provided, however, that the contracting officer's approval is required in each instance of total compensation to an individual employee at an annual rate of $——— or more, when it is proposed that a total of 50 percent or more or such compensation be reimbursed under DOE cost-type contracts. Total compensation, as used here, includes only the employee's base salary, bonus, and incentive compensation payments;

(ii) Legally required contributions to old-age and survivors' insurance, unemployment compensation plans, and workmen's compensation plans, (whether or not covered by insurance); voluntary or agree-upon plans providing benefits for retirement, separation, life insurance, hospitalization, medical-surgical and unemployment (whether or not such plans are covered by insurance);

(iii) Travel (except foreign travel, which requires specific approval by the contracting officer on a case-by-case basis); incidental subsistence and other allowances of contractor employees, in connection with performance of work under this contract (including new employees reporting for work and transfer of employees, the transfer of their household goods and effects and the travel and subsistence of their dependents);

(iv) Employee relations, welfare, morale, etc.; programs including incentive or suggestion awards; employee counseling services, health or first-aid clinics; house or employee publications;

(v) Personnel training (except special education and training courses and research assignments calling for attendance at educational institutions which require specific approval by the Contracting Officer on a case-by-case basis); including apprenticeship training programs designed to improve efficiency and productivity of contract operations, to develop needed skills, and to develop scientific and technical personnel in specialized fields required in the contract work;

(vi) Recruitment of personnel (including help-wanted advertisement), including service of employment agencies at rates not in excess of standard commercial rates, employment office, travel of prospective employees at the request of the contractor for employment interviews; and

(vii) Net cost of operating plant-site cafeteria, dining rooms, and canteens attributable to the performance of the contract.

Note.—*In appropriate circumstances, the lead sentence in subparagraph (d)(8) may be changed to read as follows:*

"Personnel costs and related expenses incurred in accordance with established policies, programs, and schedules, and any changes thereto during the contract term, applicable to the contractor's private operations and consistently followed throughout his organization, as approved by the contracting officer, such as".

(9) Repairs, maintenance, inspection, replacement, and disposal of Government-owned property and the restoration or clean-up of site and facilities to the extent directed or approved by the contracting officer.

(10) Subcontracts and purchase orders, including procurements from contractor-controlled sources, subject to approvals required by other provisions of this contract.

(11) Subscriptions to trade, business, technical, and professional periodicals, as approved by the contracting officer.

(12) Taxes, fees, and charges levied by public agencies which the contractor is required by law to pay, except those which are expressly made unallowable under other provisions of this contract.

(13) Utility services, including electricity, gas, water, and sewerage.

(14) Indemnification of the Pension Benefit Guaranty Corporation, pursuant to the Employee Retirement Income Security Act of 1974, in accordance with FAR 31.205-6(j)(3)(iv).

(15) Establishment and maintenance of bank accounts in connection with the work hereunder, including, but not limited to, service charges, the cost of disbursing cash, necessary guards, facilities and arrangements for cashing checks may be provided without expense to the employees, subject to the approval of the contracting officer.

Note.—*The following additional examples apply when the contractor performs construction.*

(16) Camp operations, to the extent approved by the contracting officer.

(17) Maintenance, inspection, repair, replacement, and transportation of construction plant and equipment to the extent not covered by rentals or insurance and as provided in rental agreements approved by the contracting officer.

(18) Rental for (i) construction plant and equipment rented by the contractor from others at rates and under written agreements approved by the contracting officer, and (ii) construction plant and equipment owned and furnished by the contractor under this contract.

(e) *Items of unallowable costs.* The following items of costs are unallowable under this contract to the extent indicated:

(1) Advertising, except (i) help-wanted advertising, and (ii) other advertising (such as costs of participation in exhibits) approved by the contracting officer as clearly in furtherance of work performed under the contract.

(2) Bad debts (including expenses of collection) and provisions for bad debts arising out of other business of the contractor.

(3) Proposal expenses and costs of proposals.

(4) Bonuses and similar compensation under any other name, which (i) are not pursuant to an agreement between the contractor and employee prior to the rendering of the services or an established plan consistently followed by the contract or (ii) are in excess of those costs which are allowable by the Internal Revenue Code and regulations thereunder, or (iii) provide total compensation to an employee in excess of reasonable compensation for the services rendered.

(5) Central and branch office expenses of the contractor, except as specifically set forth in the contract.

(6) Commissions, bonuses, and fees (under whatever name) in connection with obtaining or negotiating for a Government contract or a modification thereto, except when paid to bona fide employees or bona fide established selling organizations maintained by the contractor for the purpose of obtaining Government business.

(7) Contingency reserves, provisions for.

(8) Contributions and donations.

(9) Depreciation in excess of that calculated by application of methods approved for use by the Internal Revenue Code of 1954, as amended, including the straight-line declining balance (using a rate not exceeding twice the rate which would have been used had the depreciation been computed under the straight line method), or sum-of-the-years digits method, on the basis of expected useful life, to the cost of acquisition of the related fixed assets less estimated salvage or residual value at the end of the expected useful life.

(10) Dividend provisions or payments and, in the case of sole proprietors and partners, distributions of profit.

(11) Entertainment costs, except the costs of such recreational activities for on-site employees as may be approved by the contracting officer or provided for elsewhere in this contract.

(12) Fines and penalties, including assessed interest, resulting from violations of, or failure of, the contractor to comply with Federal, state, or local laws or regulations, except when incurred in accordance with the written approval of the contracting officer or as a result of compliance with the provisions of this contract.

(13) Government-furnished property, except to the extent that cash payment therefor is required pursuant to procedures of DOE applicable to transfers of such property to the contractor from others.

(14) Insurance (including any provisions of a self-insurance reserve) on any person where the contractor under the insurance policy is the beneficiary, directly or indirectly, and insurance against loss of or damage to Government property as defined in Clause ———.

(15) Interest, however represented (except interest incurred in compliance with the clause entitled "State and local taxes"), bond discounts and expenses, and costs of financing and refinancing operations.

(16) Legal, accounting, and consulting services and related costs incurred in connection with the preparation and issuance of stock, rights, organization or reorganization, prosecution or defense of antitrust suits, prosecution of claims against the United States, contesting actions of proposed actions of the United States, and prosecution or defense of patent infringement litigation.

(17) Losses (including litigation expenses, Counsel fees, and settlements) on, or arising from the sale, exchange, or abandonment of capital assets, including investments; losses on other contracts, including the contractor's contributed portion under cost-sharing contracts; losses in connection with price reductions to and discount purchases by employees and other from any source; and losses where such losses or expenses:

(i) Are compensated for by insurance or otherwise or which would have been compensated by insurance required by law or by written direction of the contracting officer but which the contractor failed to procure or maintain through its own fault or negligence;

(ii) Result from willful misconduct or lack of good faith on the part of any of the contractor's directors, corporate officers, or a supervising representative of the contractor, as defined in Clause ——— of this contract.

(iii) Represent liabilities to third persons from which the contractor has expressly accepted responsibility under other terms of this contract.

(18) Maintenance, depreciation, and other costs incidental to the contractor's idle or excess facilities (including machinery and equipment), other than reasonable standby facilities.

Note.—May be omitted when no contractor-owned equipment is being utilized in the performance of the contract.

(19) Membership in trade, business, and professional organizations, except as approved by the contracting officer.

(20) Precontract costs, except as expressly made allowable under the provisions in this contract.

(21) Research and development costs, unless specifically provided for elsewhere in this contract.

(22) Selling cost, except to the extent they are determined to be reasonable and to be allocable to the contract. Allocability of selling costs to the contract will be determined in the light of reasonable benefit to the agency program arising from such activities as technical, consulting, demonstration, and other services performed for such purposes as applying or adapting the contractor's product for agency use.

(23) Storage of records pertaining to this contract after completion of operations under this contract, irrespective of contractual or statutory requirement for the preservation of records.

(24) Taxes, fees, and charges in connection with financing, refinancing, or refunding operations, including listing of securities on exchanges, taxes which are paid contrary to the clause entitled "State and local taxes," federal taxes on net income and excess profits, special assessments on land which represent capital improvement and taxes on accumulated funding deficiencies of, or prohibited transactions involving, employee deferred compensation plans pursuant to Section 4971 or Section 4975 of the Internal Revenue Code of 1954, as amended, respectively.

(25) Travel expenses of the officers, proprietors, executives, administrative heads and other employees of the constractor's central office or branch office organizations concerned with the general management, supervision, and conduct of the contractor's business as a whole, except to the extent that particular travel is in connection with the contract and approved by the contracting officer.

(26) Salary or other compensation (and expenses related thereto) of any individual employed under this contract as a consultant or in another comparable employment capacity who is an employee of another organizational and concurrently performing work on a full-time annual basis for that organization under a cost-type contract with DOE, except to the extent that cash payment therefor is required pursuant to the provisions of this contract or procedure of DOE applicable to the borrowing of such an individual from another cost-type contractor.

(27) First-class air travel in excess of the cost of less than first-class air accommodations, except when less than first-class accommodations are not reasonably available to meet necessary mission requirements, such as where less than first-class accommodations would:

(i) Require circuitous routing,

(ii) Require travel during unreasonable hours,

(iii) Greatly increase the duration of the flight,

(iv) Result in additional costs which would offset the transportation sayings, or

(v) Offer accommodations which are not reasonably adequate for the medical needs of the traveler.

(28) Special construction industry "funds" financed by employer contributions for such purposes as methods and materials research, public and industry relations, market development, and disaster relief, except as specifically provided elsewhere in this contract.

(29) Late premium payment charges related to employee deferred compensation plan insurance.

(30) Facilities capital cost of money. (CAS 414 and CAS 417).

(31) Lobbying cost.

(32) Commercial automobile rental expenses unless approved by the Contracting Officer.

970.5204-14 Allowable costs and fixed-fee (support contracts).

Allowable Costs and Fixed-Fee (Support Contracts) (Apr 1984)

(a) *Compensation for contractor's services.* Payment for the allowable cost as hereinafter defined, and of the fixed-fee, if any, as hereinafter provided, shall constitute full and complete compensation for the performance of the work under this contract.

(b) *Fixed-fee.* The fixed-fee payable to the contractor for the performance of the work under this contract is $. There shall be no adjustment in the amount of the contractor's fixed-fee by reason of differences between any estimate of cost for perfomance of the work under this contract and the actual cost for performance of that work.

Note: *This provision to this paragraph may appropriately be changed to cover situations where the fee is for a period of time, or different fees are allowed for various phases of the work.*

(c) *Allowable cost.* The allowable costs for performing the work under this contract shall be the costs and expenses that are actually incurred by the contractor, are applicable and properly chargeable, either as directly incident or as allocable through appropriate distribution or apportionment, to the performance of the contract work in accordance with its terms, and are determined to be allowable pursuant to this paragraph (c). The determination of the allowability of cost hereunder shall be based on (1) reasonableness, including the exercise of prudent business judgment, (2) consistent application of generally accepted accounting principles and practices that result in equitable charges to the contract work, and (3) recognition of all exclusions and limitations set forth in this clause or

elsewhere in this contract as to types or amounts of items of costs. Allowable cost shall not include costs of any item described as unallowable in paragraph (e) of this clause, except as indicated therein. Failure to mention an item of cost specifically in paragraph (d) or paragraph (e) shall not imply either that it is allowable or that it is unallowable.

(d) *Items of allowable cost.* Subject to the other provisions of this clause, the following items of cost of work under this contract shall be allowable to the extent indicated:

(1) Bonds and insurance (including self-insurance) as provided in the clause entitled "Required bonds and insurance—exclusive of Government property."

(2) Communication costs, including telephone services, local and long-distance telephone calls, telegrams, cablegrams, radiograms, postage, and similar items.

(3) Consulting services (including legal and accounting) and related expenses, as approved by the contracting officer, except as made unallowable by paragraph (e)(14) and (e)(23).

(4) Litigation expenses, including reasonable Counsel fees, incurred in accordance with the clause of this contract entitled "Litigation and Claims."

(5) Losses and expenses (including settlements made with the consent of the contracting officer) sustained by the contractor in performance of this contract and certified in writing by the Contracting Officer to be just and reasonable, except the losses and expenses expressly made unallowable under other provisions of this contract.

(6) Materials and supplies (including those withdrawn from common stores costed in accordance with any generally recognized method that is consistently applied by the contractor and productive of equitable results).

(7) Patents, purchased design, and royalty payments to the extent expressly provided for under other provisions in this contract or as approved by the contracting officer; and preparation of invention disclosures, reports, and related documents, and searching the art to the extent necessary to make such invention disclosures in accordance with the Patent Rights clause of this contract.

(8) Personnel costs and related expenses incurred in accordance with the personnel appendix which is hereby incorporated by reference and made a part of this contract. It is specifically understood and agreed that said personnel appendix sets forth, in detail, personnel costs and related expenses to be allowable under this contract and is intended to document those personnel policies, practices and plans which have been found acceptable by the contracting officer. It is further understood and agreed that the contractor will advise DOE of any proposed changes in any matters covered by said policies, practices, or plans which relate to this item of costs, and that the personnel appendix may be modified from time to time in writing by mutual agreement of the contractor and DOE without execution of an amendment to this contract for the purpose of effectuating and such changes in, or additions to, said personnel appendix, as may be agreed upon by the parties. Such modifications shall be evidenced by execution of written numbered approval letters from the contracting officer or his representative. Examples of personnel costs and related expenses to be incorporated into the personnel appendix, or amendments thereto, are as follows:

(i) Salaries and wages; bonuses and incentive compensation; overtime, shift differential, holiday, and other premium pay for time worked; nonwork time including vacations, holidays, sick, funeral, military, jury, witness, and voting leave; salaries and wages to employees in their capacity as union stewards and committeemen for time spent in handling grievances, or serving on labor management (contractor) committees, provided, however, that the contracting officer's approval is required in each instance of total compensation to an individual employee at an annual rate of $———— (See 970.3102–2) or more, when it is proposed that a total of 50 percent or more of such compensation be reimbursed under DOE cost-type contracts. Total compensation, as used here, includes only the employee's base salary and bonus and incentive compensation payments.

(ii) Legally required contributions to old-age and survivor's insurance, unemployment, compensation plans, and workmen's compensation plans (whether or not covered by insurance); voluntary or agreed-upon plans providing benefits for retirement, separation, life insurance, hospitalization, medical-surgical and unemployment (whether or not such plans are covered by insurance);

(iii) Travel (except foreign-travel, which requires specific approval by the contracting officer on a case-by-case basis); incidental subsistence and other allowances of contractor employees, in connection with performance of work under this contract (including new employees reporting for work and transfer of employees, the transfer of their household goods and effects, and the travel and subsistence of their dependents);

(iv) Employee relations, welfare, morale, etc., programs, including incentive or suggestion awards, employee counseling services, health or first-aid clinics, and house or employee publications;

(v) Personnel training (except special education and training courses and research assignments calling for attendance at educational institutions which require specific approval by the contracting officer on a case-by-case basis) including services of employment agencies at rates not in excess of standard commercial rates, employment office, travel of prospective employees at the request of the contractor for employment interviews; and

(vi) Recruitment of personnel (including help-wanted advertisement) including services of employment agencies at rates not in excess of standard commercial rates, employment office, travel of prospective employees at the request of the contractor for employment interviews; and

(vii) Net cost of operating plant-site cafeterias, dining rooms, and canteens attributable to the performance of the contract.

Note.—*In appropriate circumstances that lead sentence in subparagraph (d)(8) may be changed to read as follows:*

Personnel costs and related expenses incurred in accordance with established policies, programs, and schedules, and any changes thereto during the contract term, applicable to the contractor's private operations and consistently followed throughout its organization, as approved by the contracting officer, such as:

(9) Rentals and leases of land, buildings, and equipment owned by third parties where such items are used in the performance of the contract, except that such rentals and leases directly chargeable to the contract shall be subject to approval by the contracting officer.

(10) Repairs, maintenance, inspection, replacement, and disposal of Government-owned property to the extent directed or approved by the contracting officer.

(11) Repairs, maintenance, and inspection of contractor owned property used in connection with the performance of this contract, including reasonable standby facilities, which are due to ordinary wear and tear from use and the action of the elements, provided such maintenance and repairs keep the property in efficient operating condition and do not add to its permanent value or appreciably prolong its intended useful life; and major repair (including replacement) to such property, as directed or approved by the contracting officer when charged directly to the contract.

(12) Special tooling, including jigs, dies, fixtures, molds, patterns, designs and drawings, tools, and equipment of a specialized nature generally useful to the contractor only in the performance of this contract.

Note.—*Itemize any additional special equipment which may be appropriate, such as loops, mockups, experimental setups, etc.*

(13) Subcontracts, purchase orders, and procurement from contractor-controlled sources, subject to approvals required by other provisions of this contract.

(14) Subscriptions to trade, business, technical, and professional periodicals, as approved by the Contracting Officer when charged directly to the contract.

(15) Taxes, fees, and charges levied by public agencies which the contractor is required by law to pay, except those which are expressly made unallowable under other provisions of this contract.

(16) Utility services, including electricity, gas, water, steam, and sewerage.

(17) Indemnification of the Pension Benefit Guaranty Corporation pursuant to the Employee Retirement Income Security Act of 1974, in accordance with FAR 31.205–6(j).

(e) *Items of unallowable costs.* The following examples of items of costs are unallowable under this contract to the extent indicated:

(1) Advertising, except (i) help-wanted advertising, and (ii) other advertising (such as costs of participation in exhibits) approved by the Contracting Officer as clearly in furtherance of work performed of this contract.

(2) Bad debts (including expenses of collection) and provisions for bad debts not

arising out of the performance of this contract.

(3) Bonuses and similar compensation under any other name, which (i) are not pursuant to an agreement between the contractor and employee prior to the rendering of the services or an established plan consistently followed by the contractor (ii) are in excess of those costs which are allowable by the Internal Revenue Code and regulations thereunder, or (iii) provide total compensation to an employee in excess of reasonable compensation for the services rendered.

(4) Commissions, bonuses, and fees (under whatever name) in connection with obtaining or negotiating for a Government contract or a modification thereto, except when paid to bona fide employees or bona fide established selling organizations maintained by the contractor for the purpose of obtaining Government business.

(5) Contingency reserves, provisions for (except provisions for reserves under a self-insurance program to the extent that the type, coverage, rates, and premiums would be allowable if commercial insurance were purchased to cover the same risk, as approved by the contracting officer).

(6) Contributions and donations.

(7) Depreciation in excess of that calculated by application of methods approved for use by the Internal Revenue Service under the Internal Revenue Code of 1954, as amended, including the straight-line declining balance (using a rate not exceeding twice the rate which would have been used had the depreciation been computed under the straight-line method) or sum-of-the-years digits method, on the basis of expected useful life, to the cost of acquisition of the related fixed assets less estimated salvage or residual value at the end of the expected useful life. Amortization or depreciation of unrealized appreciation of values of assets or of assests fully amortized or depreciated on the contractors books of account is unallowable.

(8) Dividend provisions or payments and, in the case of sole proprietors and partners, distributions of profits.

(9) Entertainment costs, except the costs of such recreational activities for on-site employees as may be approved by the contracting officer or provided for elsewhere in this contract.

(10) Fines and penalties, including assessed interest, resulting from violations of, or failure of, the contractor to comply with the Federal, state, or local laws, or regulations, except when incurred in accordance with written approval of the contracting officer or as a result of compliance with the provisions of this contract.

(11) Government-furnished property, except to the extent that cash payment therefor is required pursuant to procedures of the DOE applicable to transfers of such property to the contractor from others.

(12) Insurance (including and provision of a self-insurance reserve) on any person where the contractor under the insurance policy is the beneficiary, directly or indirectly, and insurance against loss or damage to Government property.

(13) Interest, however represented (excepted interest incurred in compliance with the clause entitled "State and Local Taxes), bond discounts and expenses, and costs of financing and refinancing operations.

(14) Legal, accounting, and consulting services, and related costs incurred in connection with the preparation of prospectuses, preparation and issuance of stock rights, organization or reorganization, prosecution or defense of antitrust suits, prosecution of claims against the United States, contesting actions or proposed actions of the United States, and prosecution or defense of patent infringement litigation.

(15) Losses, including litigation expenses. Counsel fees, and settlement on, or arising from the sale, exchange, or abandonment of capital assets, including investments; losses on other contracts, including the contractor's contributed portion under cost-sharing contracts; losses in connection with price reduction to and discount purchases by employees and others from any sources; and losses where such losses or expenses:

(i) Are compensated for by insurance or otherwise, or which would have been compensated by insurance required by law or by written direction of the contracting officer, but which the contractor failed to procure or maintain through its own fault or negligence, or which could have been covered by permissible insurance in keeping with ordinary business practice, but which the contractor failed to secure or maintain;

(ii) Result from willful misconduct or lack of good faith on the part of any of the contractor's directors, corporate officers, or a supervising representative of the contractor.

(iii) Represent liabilities to third persons for which the contractor has expressly accepted responsibility under other terms of this contract.

(16) Maintenance, depreciation, and other costs incidental to the contractor's idle or excess facilities (including machinery and equipment) other than reasonable standby facilities.

(17) Membership in trade, business, and professional organizations except as approved by the contracting officer.

(18) Precontract costs, except as expressly made allowable under other provisions in this contract.

(19) Reconversion, alteration, restoration, or rehabilitation of the contractor's facilities, except as expressly provided elsewhere in this contract.

(20) Selling costs, except to the extent they are determined to be reasonable and to be allocable to the contract. Allocability of selling costs to the contract will be determined in the light of reasonable benefit to the agency program arising from such purposes as applying or adapting the contractor's product for agency use.

(21) Storage or records pertaining to this contract after completion of operations under this contract irrespective of contract or statutory requirement for the preservation of records.

(22) Taxes, fees, and charges in connection with financing, refinancing or refunding operations, including the listing of securities on exchanges; taxes which are paid contrary to the clause entitled "State and local taxes;" Federal taxes on net income and excess profits; special assessments on land which represent capital improvement and taxes on accumulated funding deficiencies of, or prohibited transactions involving, employee deferred compensation plans pursuant to section 4971 or section 4975 of the Internal Revenue Code of 1954, as amended, respectively.

(23) Salary or other compensation (and expenses related thereto) of any individual employed under this contract as a consultant or in another comparable employment capacity who is an employee of another organization and concurrently performing work on a full-time annual basis for that organization under a cost-type contract with DOE, except to the extent that cash payment thereto is required pursuant to the provisions of this contract or procedures of the DOE applicable to the borrowing of such an individual from another cost-type contractor.

(24) First-class air travel in excess of the cost of less than first-class air accommodations, except when less than first-class accommodations are not reasonably available to meet necessary mission requirements, such as, where less than first-class accommodations would:

(i) Require circuitous routing,

(ii) Require travel during unreasonable hours,

(iii) Greatly increase the duration of the flight,

(iv) Result in additional costs which would offset the transportation savings, or

(v) Offer accommodations which are not reasonably adequate for the medical needs for the traveler.

(25) Late premium payment charges related to employee deferred compensation plan insurance, in accordance with FAR 31.205–6(j).

(26) Research and development costs, unless specifically provided for elsewhere in this contract.

(27) Bidding expenses and costs of proposals.

(28) Facilities capital cost of money (CAS–414 and CAS–417).

(29) Lobbying costs.

(30) Commercial automobile rental costs unless approved by the contracting officer.

970.5204–15 Obligation of funds.

Obligation of Funds (Apr 1984)

(a) *Obligation of funds.* The amount presently obligated by the Government with respect to this contract is ———— dollars ($————). Such amount may be increased unilaterally by DOE by written notice to the contractor and may be increased or decreased by written agreement of the parties (whether or not by formal modification of this contract). Estimated revenues and receipts from others for work and services to be performed under this contract are not included in this amount ———— obligated with respect to this contract. Such revenues and receipts, to the extent actually received by the contractor shall be available and used for the payment of allowable costs as provided in the article entitled "Payments and Advances." Nothing in this paragraph (a) is to be construed as authorizing the contractor to exceed limitations stated in financial plans

established by DOE and furnished to the contrator from time to time under this contract.

(b) *Limitation on payment by the Government.* Except as otherwise provided in this contract and except for costs which may be incurred by the contractor pursuant to the article entitled "Termination," or costs of claims allowable under the contract occurring after completion or termination and not released by the contractor at the time of financial settlement of the contract is in accordance with the article entitled "Payments and Advances," payment by the Government under this contract on account of allowable costs shall not, in the aggregate, exceed the amount obligated with respect to this contract, less the contractor's fixed fee. Unless expressly negated in this contract, payment on account of those costs excepted in the preceding sentence which are in excess of the amount obligated with respect to this contract shall be subject to the availability of (1) revenues and receipts deposited to the Government's account as provided in the article entitled "Payments and Advances," and (2) other funds with DOE may legally use for such purpose, provided DOE will use its best efforts to obtain the appropriation of funds for this purpose if not otherwise available.

(c) *Notices—Contractor excused from further performance.* The contractor shall notify DOE in writing whenever the unexpended balance of funds (including revenues and receipts) available under paragraph (a) above, plus the contractor's best estimate of revenues and receipts to be received during the —— day period hereinafter specified, is in the contractor's best judgment sufficient to continue contract operations at the programmed rate for only —— days and to cover the contractor's unpaid fixed fee, and outstanding commitments and liabilities on account of costs allowable under the contract at the end of such period. Whenever the unexpended balance of funds (including revenues and receipts) available under paragraph (a) above, less the amount of the contractor's fixed fee then earned but not paid, is in the contractor's best judgment either sufficient only to liquidate outstanding commitments and liabilities on account of costs allowable under this contract or is equal to zero, the contractor shall immediately notify DOE and shall made no further commitments or expenditures (except to liquidate existing commitments and liabilities), and, unless the parties otherwise agree, the contractor shall be excused from further performance (except such performance as may become necessary in connection with termination by the Government) and the performance of all work hereunder will be deemed to have been terminated for the convenience of the Government in accordance with the provisions of the article entitled "Termination."

(d) *Financial plans; cost and commitment limitations.* In addition to the limitations provided for elsewhere in this contract, DOE may, through financial plans or other directives issued to the contractor, establish controls on the costs to be incurred and commitments to be made in the performance of the contract work. Such plans and instruction may be amended or supplemented from time to time by DOE. The contractor hereby agrees to comply with the specific limitations (ceilings) on costs and commitments set forth in such plans and directives, to use its best efforts to comply with other requirements of such plans and directive, and to promptly notify DOE in writing whenever it has reason to believe the authorized financial levels of costs and commitments will be exceeded or substantially underrun.

Note.—*This paragraph (d) may be omitted in contracts which expressly or otherwise provided a contractual basis for equivalent controls in a separate article.*

(e) *Government's right to terminate not affected.* The giving of any notice under this article shall not be construed to waive or impair any right of the Government to terminate the contract under the provisions of the article entitled "Termination."

970.5204–16 Payments and advances.

Payments and Advances (Apr 1984)

(a) *Installments of fixed-fee.* Ninety percent (90%) of the fixed-fee shall become due and payable in periodic installments in amounts based on the proportion of the work then completed, as determined by the contracting officer, and the balance upon completion and acceptance of all work under this contract.

Note.—*Where a separate fixed-fee is provided for a separate item of work, this subparagraph should be modified to permit payment of the entire fixed-fee upon completion of that item.*

(b) *Payments on Account of Allowable Costs.* The contracting officer and the contractor shall agree as to the extent to which payment for allowable costs or payments for other items specifically approved in writing by the contracting officer shall be made from advances of Government funds. When pension contributions are paid by the contractor to the retirement fund less frequently than quarterly, accrued costs therefor shall be excluded from costs for payment purposes until such costs are paid. If pension contribution are paid on a quarterly or more frequent basis, accrual therefor may be included in costs for payment purposes, provided that they are paid to the fund within 30 days after the close of the period covered. If payments are not made to the fund within such 30-day period, pension contribution costs shall be excluded from cost for payment purposes until payment has been made.

(c) *Special bank account—use.* All advances of Government funds shall be withdrawn pursuant to a letter of credit in favor of the bank or, in the option of the Government, shall be made by check payable to the contractor, and shall be deposited only in the Special Bank Account referred to in the Agreement for Special Bank Account, which is attached hereto and incorporated into this contract as an appendix. The contractor shall likewise deposit in the Special Bank Account any other revenues received by the contractor in connection with the work under this contract. No part of the funds in the Special Bank Account shall be (1) mingled with any funds of the contractor or (2) used for a purpose other than that of making payments for costs allowable under this contract or payments for other items specifically approved in writing by the contracting officer. If the contracting officer shall at any time determine that the balance on such bank account exceeds the contractor's current needs, the contractor shall promptly make such disposition of the excess as the contracting officer may direct.

(d) *Title to funds advanced.* Title to the unexpended balance of any funds advanced and of any bank account established pursuant to this clause shall remain in the Government and be superior to any claim or lien of the bank of deposit or others. It is understood that an advance to the contractor hereunder is not a loan to the contractor, and will not require the payment of interest by the contractor, and that the contractor acquires no right, title or interest in or to such advance other than the right to make expenditures therefrom, as provided in this clause.

Note.—The following paragraph (e) shall be included in management and operating contracts with integrated contractors.

(e) *Review and approval of costs incurred.* The contractor shall prepare and submit annually as of September 30, a voucher for the total of net expenditures accrued (i.e., net costs incurred) for the period covered by the voucher, and DOE, after audit and appropriate adjustment, will approve such voucher. This approval by DOE will constitute an acknowledgment by DOE that the net costs incurred are allowable under the contract and that they have been recorded in the accounts maintained by the contractor in accordance with DOE accounting policies, but will not relieve the contractor of responsibility for DOE's assets in its care, for appropriate subsequent adjustments, or for errors later becoming known to DOE.

Note.—*It should be omitted in contracts with nonintegrated contractors.*

(f) *Financial settlement.* The Government shall promptly pay to the contractor the unpaid balance of allowable costs and fixed fee upon termination of the work, expiration of the term of the contract, or completion of the work and its acceptance by the Government after (1) compliance by the contractor with DOE's patent clearance requirements, and (2) the furnishing by the contractor of:

(i) An assignment of the contractor's rights to any refunds, rebates, allowances, accounts receivable, or other credits applicable to allowable costs under the contract;

(ii) A closing financial statement;

(iii) The accounting for Government-owned property required by the clause entitled "Property;" and

(iv) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract subject only to the following exceptions:

(A) Specified claims in stated amounts or in estimated amounts where the amounts are not susceptible to exact statement by the contractor;

(B) Claims, together with reasonable expenses incidental thereto, based upon liabilities of the contractor to third parties arising out of the performance of this contract; provided that such claims are not known to the contractor on the date of the execution of the release; and provided further that the contractor gives notice of such claims in writing to the Contracting Officer not more than six (6) years after the date of the release or the date of any notice to the contractor that the Government is prepared to make final payment, whichever is earlier; and

(C) Claims for reimbursement of costs (other than expenses of the contractor by reason of any indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the contractor under the provisions of this contract relating to patents.

In arriving at the amount due the contractor under this clause, there shall be deducted, any claim which the Government may have against the contractor in connection with this contract, and deductions due under the terms of this contract, and not otherwise recovered by or credited to the Government. The unliquidated balance of the Special Bank Account may be applied to the amount due and any balance shall be returned to the Government forthwith.

(g) *Claims.* Claims for credit against funds advanced for payment shall be accompanied by such supporting documents and justification as the contracting officer shall prescribe.

(h) *Discounts.* The contractor shall take and afford the Government the advantage of all known and available cash and trade discounts, rebates, allowances, credits, salvage, and commissions unless the contracting officer finds that action is not in the best interest of the Government.

(i) *Revenues.* All revenues other than the contractor's fixed fee or fees, if any, accruing to the contractor in connection with the work under this contract shall be Government property and shall be deposited in the Special Bank Account to be available for payment of allowable cost under this contract.

(j) *Direct payment of charges.* The Government reserves the right, upon ten days written notice from the contracting officer to the contractor, to pay directly to the persons concerned, all amounts due which otherwise would be allowable under this contract. Any payment so made shall discharge the Government of all liability to the contractor therefor.

970.5204-17 [Reserved]

970.5204-18 [Reserved]

970.5204-19 Printing clause for management and operating contracts.

Printing (Apr 1984)

(a) To the extent that duplicating or printing services may be required in the performance of this contract, the Contractor shall provide or secure such services in accordance with the Government Printing and Binding Regulations, Title 44 of the U.S. Code, and DOE Directives relative thereto.

(b) The term "Printing" includes the following processes: composition, platemaking, presswork, binding, microform publishing, or the end items produced by such processes. Provided, however, that performance of a requirement under this contract involving the duplication of less than 5,000 copies of a single page, or no more than 25,000 units in the aggregate of multiple pages, will not be deemed to be printing.

(c) Printing services not obtained in compliance with this guidance shall result in the cost of such printing being disallowed.

(d) In all subcontracts hereunder which require printing (as that term is defined in Title I of the U.S. Government Printing and Binding Regulations), the Contractor shall include a provision substantially the same as this clause.

970.5204-20 [Reserved]

970.5204-21 Property.

Property (Apr 1984)

(a) *Furnishing of Government property.* The Government reserves the right to furnish any property or services required for the performance of the work under this contract.

(b) *Title to property.* Except as otherwise provided by the contracting officer, title to all materials, equipment, supplies, and tangible personal property of every kind and description purchased by the contractor, for the cost of which the contractor is entitled to be reimbursed as a direct item of cost under this contract, shall pass directly from the vendor to the Government. The Government reserves the right to inspect, and to accept or reject, any item of such property. The contractor shall make such disposition of rejected items as the contracting officer shall direct. Title to other property, the cost of which is reimbursable to the contractor under this contract, shall pass to and vest in the Government upon (1) issuance for use of such property in the performance of this contract, or (2) commencement of processing or use of such property in the performance of this contract, or (3) reimbursement of the cost thereof by the Government, whichever first occurs. Property furnished by the Government and property purchased or furnished by the contractor, title to which vests in the Government, under this paragraph are hereinafter referred to as Government property. Title to Government property shall not be affected by the incorporation of the property into or the attachment of it to any property not owned by the Government, nor shall such Government property or any part thereof, be or become a fixture or lose its identity as personalty by reason of affixation to any realty.

(c) *Identification.* To the extent directed by the contracting officer, the contractor shall identify Government property coming into the contractor's possession or custody, by marking and segregating in such a way, satisfactory to the contracting officer, as shall indicate its ownership by the Government.

(d) *Disposition.* The contractor shall make such disposition of Government property which has come into the possession or custody of the contractor or under this contract as the contracting officer may direct during the progress of the work or upon completion or termination of this contract. The contractor may, upon such terms and conditions as the contracting officer may approve, sell, or exchange such property, or acquire such property at a price agreed upon by the Contracting Officer and the contractor as the fair value thereof. The amount received by the contractor as the result of any disposition, or the agreed fair value of any such property acquired by the contractor, shall be applied in reduction of cost allowable under this contract or shall be otherwise credited to account to the Government, as the contracting officer may direct. Upon completion of the work or the termination of this contract, the contractor shall render an accounting, as prescribed by the contracting officer, of all government property which had come into the possession or custody of the contractor under this contract.

(e) *Protection of government property—Classified Materials.* The contractor shall take all reasonable precautions, as directed by the contracting officer, or in the absence of such direction in accordance with sound industrial practice, to safeguard and protect government property in the contractor's possession or custody. Special measures shall be taken by the contractor in the protection of and accounting for any classified or special materials involved in the performance of this contract, in accordance with the regulations and requirements of DOE.

(f) *Risk of loss of government property.* The contractor shall be not liable for loss or destruction of or damage to government property in the contractor's possession unless such loss, destruction or damage results from willful misconduct or lack or good faith on the part of the contractor's managerial personnel, or unless such loss, destruction or damage results from a failure on the part of the contractor's managerial personnel to take all reasonable steps to comply with any appropriate written directive of the contracting officer to safeguard such property under paragraph (e) hereof. The term "contractor's managerial personnel" as used herein means the contractor's directors, officers and any of its managers, superintendents, or other equivalent representatives who have supervision or direction of (1) all or substantially all of the contractor's business; or (2) all or substantially all of the contractor's operation at any one plant or separate location at which this contract is being performed; or (3) a separate and complete major industrial operation in connection with the performance of this contract; or (4) a separate and complete major construction, alteration or repair operation in connection with performance of this contract.

(g) *Steps to be taken in event of loss.* Upon the happening of any loss or destruction of or damage to government property in the possession or custody of the contractor, the contractor shall immediately inform the contracting officer of the occasion and extent thereof, shall take all reasonable steps to protect the property remaining, and shall repair or replace the lost, destroyed, or

damaged property, if and as directed by the contracting officer, but shall take no action prejudicial to the right of the Government to recover therefor and shall furnish to the Government, on request, all reasonable assistance in obtaining recovery.

(h) *Government property for Government use only.* Government property shall be used only for the performance of this contract.

(i) *Property Management.* The contractor shall maintain and administer a property management system, subject to the approval of the contracting officer, of accounting for and control, utilization, maintenance, repair, protection and preservation of Government property in its possession under the contract. The contractor's property management system shall be maintained and administered in accordance with sound business practice, and in accordance with Department of Energy Property Management Regulations and such directives or instructions which the contracting officer may from time to time prescribe.

970.5204–22 Contractor procurement.

Contractor Procurement (Apr. 1984)

(a) DOE reserves the right at any time to require that the contractor submit for approval any or all procurements under this contract. The contractor shall not procure any item whose purchase is expressly prohibited by the written direction of DOE and shall use such special and directed procurement sources as may be expressly required by DOE. The contractor shall provide information concerning procurement methods, practices, and procedures used or proposed to be used and shall use methods, practices, and procedures which are acceptable to DOE. Procurement arrangements under this contract shall not relieve the contractor of any obligation under this contract (including, among other things, the obligation to properly supervise administer, and coordinate the work of subcontractors) and shall be in such form and contain such provisions as are required by this contractor or as DOE may prescribe.

(b) In addition to, and without derogation of any rights under paragraph (a) of this clause and any other provision in this contract the contractor shall require subcontractors to furnish cost or pricing data, and shall include in such subcontracts the appropriate clause set forth in 970.5204–24 except as otherwise directed or approved by DOE.

(c) Procurement or transfer of equipment, materials, supplies, or services from a contractor-controlled source (any division or other organizational component of the prime contractor, exclusive of the contracting component, and any subsidiary or affiliate of the contractor under a common control) shall be considered a procurement for the purposes of this clause.

(d) Proposed awards to firms or individuals on either the GSA Consolidated List of Debarred, Suspended, and Ineligible Contractors or the DOE Consolidated List of Debarred, Suspended, Ineligible, and Voluntarily Excluded Awardees shall be forwarded to DOE for approval notwithstanding any prior procurement system approval.

Note A.—*When appropriate, the words,* "if required by the contracting officer," *may be inserted in the sentence of paragraph (a) after the word* "shall.

Note B.—*When appropriate, the words,* "shall be made in the name of the contractor, shall not bind nor purport to bind the Government" *may be inserted in the fourth sentence.*

970.5204–23 Taxes

State and Local Taxes (Apr 1984)

(a) The contractor agrees to notify the contracting officer of any State or local tax, fee, or charge levied or purported to be levied on or collected from the contractor with respect to the contract work, any transaction thereunder, or property in the custody or control of the contractor and constituting an allowable item of cost if due and payable, but which the contractor has reason to believe, or the contracting officer has advised the contractor, is or may be inapplicable or invalid;* and the contractor further agrees to refrain from paying any such tax, fee, or charge unless authorized in writing by the Contracting Officer. Any State or local tax, fee, or charge paid with the approval of the contracting officer or on the basis of advice from the contracting officer that such tax, fee, or charge is applicable and valid, and which would otherwise be an allowable item of cost, shall not be disallowed as an item of cost by reason of any subsequent ruling or determination that such tax, fee, or charge was in fact inapplicable or invalid.

**Requirement for notice may be broadened to include all State and local taxes which may be claimed as allowable costs when considered to be appropriate.*

(b) The contractor agrees to take such action as may be required or approved by the contracting officer to cause any State or local tax, fee, or charge which would be an allowable cost to be paid under protest; and to take such action as may be required or approved by the contracting officer to seek recovery of any payments made, including assignment to the Government or its designee of all rights to an abatement or refund thereof, and granting permission for the Government to join with the contractor in any proceedings for the recovery thereof or to sue for recovery in the name of the contractor. If the contracting officer directs the contractor to institute litigation to enjoin the collection of or to recover payment of any such tax, fee, or charge referred to above, or if a claim or suit is filed against the contractor for a tax, fee, or charge it has refrained from paying in accordance with this article, the procedures and requirements of the article entitled "Litigation and Claims" shall apply and the costs and expenses incurred by the contractor shall be allowable items of costs, as provided in this contract, together with the amount of any judgment rendered against the contractor.

(c) The Government shall hold the contractor harmless from penalties and interest incurred through compliance with this clause. All recoveries or credits in respect of the foregoing taxes, fees, and charges (including interest) shall inure to and be for the sole benefit of the Government.

970.5204–24 Subcontractor cost or pricing data.

Subcontractor Cost or Pricing Data (Apr 1984)

(a) The following clause shall be inserted in all subcontracts where such subcontracts are over $500,000 and any modification over $500,000 to such subcontracts, even though the original amount of the subcontract is $500,000 or less:

Certified Cost or Pricing Data (Apr 1984)

(1) The subcontractor shall require under the situations described in (2) below, unless exempted under the exceptions set forth in (3) below, each sub-subcontractor under this subcontract to submit cost or pricing data and to certify that, to the best of his knowledge and belief, such cost or pricing data are accurate, complete and current.

(2) Except as provided in (3) below, certified cost or pricing data shall be submitted prior to (i) the award of each sub-subcontract, the price of which is expected to exceed $500,000, and (ii) the negotiation of the price of each change or modification to a sub-subcontract under this subcontract for which the price adjustment is expected to exceed $500,000.

(3) Certified cost or pricing data need not be furnished pursuant to this paragraph (a) where (i) the subcontractor has not been required to furnish cost or pricing data; or (ii) the price adjustment is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or the prices are set by law or regulation; and the subcontractor states in writing the basis for applying this exception.

(4) In submitting the cost or pricing data, the sub-subcontractor shall use the form of certificate set forth in paragraph (b) below and shall certify that the data are accurate, complete, and current. Such certificate and data (actual or identified, as provided in the certificate prescribed below) shall be submitted by sub-subcontractors to the next higher-tier sub-subcontractor or the subcontractor, as applicable, for retention.

(b) The certificates required by this clause shall be in the form set forth below.

Subcontractor's Certificate of Current Cost or Pricing Data

This is to certify that, to the best of my knowledge and belief, cost or pricing data submitted in writing, or specifically identified in writing if actual submission of the data is impracticable (see FAR 15.804–6(d)), to the contractor in support of _____* are accurate, complete, and current as of _____**.

Firm _____
Name _____
Title _____
Date of execution*** _____

*Identify the proposal, quotation, request for price adjustment, or other submission involved.

**Insert the day, month, and year when price negotiations were concluded and price agreement was reached.

***Insert the day, month, and year of signing, which should be as close as

practicable to the date when the price negotiations were concluded and the contract price was agreed to.

(c) For purposes of verifying that certified cost or pricing data submitted in conjunction with the negotiation of this subcontract change or other modification involving an amount in excess of $500,000 were accurate, complete, and current, DOE shall, until the expiration of 3 years from the date of final payment under this subcontract, have the right to examine those books, records, documents, papers, and other supporting data which involve transactions related to this subcontract or which will permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used therein.

(d) If the original price of this subcontract exceeds $500,000 or the price of any change or other modification to this subcontract is expected to exceed $500,000, the subcontractor agrees to furnish the contractor certified cost or pricing data, using the certificate set forth in paragraph (b) above, unless the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

(e) The requirement for submission of certified cost or pricing data with respect to any change or other modification does not apply to any sub-subcontract change or other modification, at any tier, where the subcontract is firm fixed-price or fixed-price with escalation unless such change or other modification result from a change or modification to the subcontract, nor does it apply to a sub-subcontract change or modification, at any tier, where the subcontract is not firm fixed-price or fixed-price with escalation unless the price for such change or other modification becomes reimbursable under the subcontract.

(f) The subcontractor agrees to insert paragraph (c) without change and the substance of paragraphs (a), (b), (d), (e), and (f) of this clause in each sub-subcontract hereunder in excess of $500,000 and in each sub-subcontract of $500,000 or less, at the time of making a change or other modification thereto in excess of $500,000.

(g) If the prime contractor determines that any price, including profit or fee, negotiated in connection with this subcontract or any cost reimbursable under this subcontract was increased by any significant sums because the subcontractor, or any sub-subcontractor pursuant to this clause or any sub-subcontract clause herein required, furnished incomplete or inaccurate cost or pricing data or data not current as certified in the subcontractor's certificate of current cost or pricing data, then such price or cost shall be reduced accordingly and the contract shall be modified in writing to reflect such reduction.

(h) Failure of the contractor and the subcontractor to agree on any of the matters in paragraph (g) above shall be a dispute concerning a question of fact subject to the Disputes provisions of this subcontract.

Note.—*Since the subcontract is subject to reduction under this clause by reason of defective cost or pricing data submitted in connection with certain sub-subcontracts, it is expected that the subcontractor may wish to include a clause in each such sub-subcontract requiring the sub-subcontractor to appropriately indemnify the subcontractor. It is also expected that any sub-subcontractor subject to such indemnification will generally require substantially similar indemnification for defective cost or pricing data required to be submitted by its lower-tier sub-subcontractors.*

(i) This clause may also be used for subcontracts of $500,000 or less for which a certificate of cost or pricing data is obtained and, if so used, the $500,000 amount stated in the clause should be appropriately modified.

(j) The Head of a Contracting Activity, for contracts estimated to be within the limits of delegated authority, may, without power of redelegation, approve the waiver cited in FAR 15.804–3(i).

970.5204–25 Workmanship and Materials.

Workmanship and materials (Apr 1984)

(a) *Grade of workmanship and materials.* Unless otherwise directed by the contracting officer or expressly provided for by specifications issued under this contract:

(1) All workmanship shall be first class; and

(2) All articles, equipment and materials incorporated in the work are to be:

(i) New and of the most suitable grade of their respective kinds for the purpose;

(ii) In accordance with any applicable drawings and specifications; and

(iii) Installed to the satisfaction and with the approval of the contracting officer.

Where equipment, materials, or articles are referred to in the specifications as "equal to" any particular standard, the contracting officer shall decide the question of equality.

(b) *Samples and test results.* If the contracting officer so requires, the contractor shall submit for approval samples of or test results on any materials proposed to be incorporated in the work before making any commitment for the purchase of such materials.

970.5104–26 Nuclear facility safety.

In accordance with the provisions at 970.2303 insert the clause below in management and operating contracts.

Nuclear Safety (Apr 1984)

(a) The activities under this contract include the operation of nuclear facilities. The contractor recognizes that such operation involves the risk of a nuclear incident which, while the chances are remote, could adversely affect the public health and safety as well as the environment. Therefore, the contractor will exercise a degree of care commensurate with the risk involved.

(b) The contractor shall comply with all applicable regulations of DOE concerning nuclear safety and with those requirements (including reporting requirements and instructions) of DOE concerning nuclear safety of which it is notified in writing by the contracting officer.

(c) Prior to the initial startup of any nuclear facility under this contract and prior to any subsequent startup following a change which represents a significant deviation from the procedures, equipment, or analyses described in the safety analysis reports or other hazards summary reports for that facility, the contractor shall:

(i) Prepare a safety analysis report and detailed plans and procedures designed to assure the safe operations and maintenance of the facility in accordance with applicable DOE regulations and directives. For nuclear reactors and critical facilities, technical specifications shall also be provided.

(2) Establish nuclear safety control procedures to be used within the contractor's organization to insure competent independent review and internal approval of the safety analysis report and the detailed plans and procedures specified in (1) above.

(3) Submit to the contracting officer for his approval such procedures relating to nuclear safety as may be designated by him.

(4) Carry out a program of initial training and periodic requalification designed to assure that all personnel who will be engaged in nuclear operations or maintenance understand the approved plans and procedures for nuclear safety and are qualified to perform their assigned functions; and

(5) Obtain the approval of the contracting officer prior to start-up of the facility.

(d) In the operation and maintenance of any nuclear facility under this contract, the contractor shall:

(1) Use all reasonable efforts to assure that all operational and maintenance activities are performed by qualified and adequately trained personnel, and except as otherwise agreed in writing, are conducted under the supervision of personnel who are qualified and authorized to evaluate any emergency condition and take prompt effective action with respect thereto.

(2) Operate the facility within the technical specifications or operational safety requirements which are approved by the contracting officer.

(3) Follow strictly the procedures relating to nuclear safety approved by the contracting officer in (c)(3) above, and submit to the

contracting officer for his approval, any proposed changes in such procedures.

(4) Establish an auditable, well-defined, internal safety review and inspection system approved by the contracting officer (including review and inspection reports by competent technical personnel) that will: (i) Provide frequent and periodic checks of facility performance and of the qualifications and training of operating and maintenance personnel, and (ii) provide for investigation of any unusual or unpredicted conditions that might affect safe operation.

(5) Report promptly to the contracting officer any change in the physical condition of the facility or its operating characteristics that might, in the judgment of the contractor, affect the safe operation of the facility.

(6) Terminate operations at the facility immediately whenever so instructed by the contracting officer, or whenever, in the judgment of the contractor, the risk of a nuclear incident endangering persons or property warrants such action.

(7) Prepare, in cooperation with other services and facilities available at the site and with the approval of the contracting officer, a plan for minimizing the effects of a nuclear incident upon the health and safety of all persons of the site; participate as directed in the integration of the contractor's and contracting officer's emergency plans with the responsible state and local government's emergency plans for protection of the public off-site; instruct its personnel as to their participation in such plans and any personal risk to such personnel that may be involved; and participate in such practice exercises as may be desirable to assure the effectiveness of such plans.

(8) At an appropriate time as determined by the contracting officer, prepare and submit to the contracting officer for his approval, shutdown, decommissioning, decontamination and property management plans leading to orderly and safe program disposition of the nuclear facility and any associated nuclear wastes or other hazardous material.

(9) In the event that the contractor fails to comply with said standards and requirements of DOE, the contracting officer may, without prejudice to any other legal or contractual rights of DOE, issue an order stopping all or any part of the work; thereafter a start order for resumption of the work may be issued at the discretion of the contracting officer. The contractor shall make no claim for an extension of time or for compensation or damages by reason of or in connection with such work stoppage.

970.5204-27 Consultant or other comparable employment services of contractor employees.

(a) The following clause shall be included in all cost-reimbursement type contracts identified in 970.2273(b)(3).

Consultant or Other Comparable Employment Services (Apr 1984)

The contractor shall require all employees who are employed full-time (an individual who performs work under the cost-type contract on a full-time annual basis) or part-time (50 percent or more of regular annual compensation received under terms of a contract with DOE) on the contract work to disclose to the contractor all consultant or other comparable employment services which the employees propose to undertake for others. The contractor shall transmit to the contracting officer all information obtained from such disclosures. The contractor will require any employee who will be employed full-time on the contract to agree, as a condition of his participation in such work, that he will not perform consultant or other comparable employment services for another DOE contractor under its contract with DOE, except with the prior approval of the contractor.

(b) The following clause shall be included in all contracts identified in 970.2273(b)(4).

Consultant or Other Comparable Employment Services (Apr 1984)

The contractor shall require all employees who are employed full-time (an individual who performs work under the cost-type contract on a full-time annual basis) or part-time (50 percent or more of regular annual compensation received under terms of a contract with DOE) on the contract work to disclose to the contractor all consultant or other comparable employment services which the employees propose to undertake for others. The contractor shall transmit to the contracting officer all information obtained from such disclosures. The contractor will require any employee who will be employed full-time on the contract work to agree, as a condition of his participation in such work, that he will not perform consultant or other comparable employment services for another DOE contractor in the same or related energy field or another organization except with the prior approval of the contractor. If the contractor believes, with respect to any employee who is employed full-time on the contract work, that any proposed consultant or other comparable employment service for an organization in the atomic energy field other than a DOE cost-type contractor may involve: (1) A rate of remuneration significantly in excess of the employee's regular rate of remuneration; (2) a significant question concerning possible conflict with DOE's policies regarding conduct of employees of DOE's contractors; (3) the contractor's responsibility to report fully and promptly to DOE all significant research and development information; or (4) the patent provisions of the contractor's contract with DOE, the contractor shall obtain the prior approval of the contracting officer for such consultant or other comparable employment service.

970.5204-28 Assignment.

Assignment (Apr 1984)

Neither this contract nor any interest therein nor claim thereunder shall be assigned or transferred by the contractor except as expressly authorized in writing by the contracting officer.

970.5204-29 Permits or licenses.

Permits or Licenses (Apr 1984)

Except as otherwise directed by the contracting officer, the contractor shall procure all necessary permits or licenses and abide by all applicable laws, regulations, and ordinances of the United States and of the state, territory, and political subdivision in which the work under this contract is performed.

970.5204-30 Notice of labor disputes.

Notice of Labor Disputes (Apr 1984)

Whenever an actual or potential labor dispute is delaying or threatening the performance of the work, the contractor shall immediately notify the contracting officer in writing. Such notice shall include all relevant information concerning the dispute and its background.

970.5204-31 Litigation and claims.

Litigation and Claims (Apr 1984)

(a) *Initiation of litigation.* The contractor may, with the prior written authorization of the contracting officer, and shall, upon the request of the Government, initiate litigation against third parties, including proceedings before administrative agencies, in connection with this contract. The contractor shall proceed with such litigation in good faith and as directed from time to time by the contracting officer.

(b) *Defense and settlement of claims.* The contractor shall give the contracting officer immediate notice in writing (1) of any action, including any proceeding before an administrative agency, filed against the contractor arising out of the performance of this contract, and (2) of any claim against the contractor, the cost and expense of which is allowable under the clause entitled "Allowable Costs and Fixed-Fee." Except as otherwise directed by the contracting officer, in writing, the contractor shall furnish immediately to the contracting officer copies of all pertinent papers received by the contractor with respect to such action of claim. To the extent not in conflict with any applicable policy of insurance, the contractor may with the contracting officer's approval, settle any such action or claim, shall effect at the contracting officer's request an assignment and subrogation in favor of the Government or all of the contractor's rights and claims (except those against the Government) arising out of such action or claim against the contractor, and if required by the contracting officer, shall authorize representatives of the Government to settle or defend any such action or claim and to represent the contractor in, or to take charge of, any action. If the settlement or defense of an action or claim against the contractor is undertaken by the Government, the contractor shall furnish all reasonable assistance in effecting a settlement or asserting a defense. Where an action against the contractor is not covered by a policy of insurance, the contractor shall, with the approval of the contracting officer, proceed with the defense of the action in good faith and in such event the defense of the action

shall be at the expense of the Government, provided, however, that the Government shall not be liable for such expense to the extent that it would have been compensated for by insurance which was required by law or by the written direction of the contracting officer, but which the contractor failed to secure or maintain through its own fault or negligence.

970.5204-32 Required bonds and insurance-exclusive of Government property (cost-type contracts).

Required Bonds and Insurance—Exclusive of Government Property (Cost-Type Contracts) (Apr 1984)

The contractor shall procure and maintain such bonds and insurance as are required by law or by the written direction of the contracting officer. The terms and conditions of any such bonds and insurance shall conform to the directions of the contracting officer. In view of the provisions of the article entitled "Property" the contractor shall not procure or maintain for its own protection any insurance covering loss or destruction of or damage to Government-owned property.

970.5204-33 Priorities, allocations, and allotments.

(a) The following clause shall be used in management and operating contracts for military and atomic energy production and directly related activity, where the programs have been authorized pursuant to the Atomic Energy Act of 1954, as amended.

Priorities, Allocations, and Allotments (Apr 1984)

The contractor shall follow the rules, regulations, and procedures of the Defense Priorities System and the Defense Materials System, Regulation 1, and all other applicable regulations and orders of the International Trade Administration, Department of Commerce, in obtaining controlled materials and other products and materials needed for contract performance.

(b) Management and operating contracts may be eligible for priorities and allocations support if their purpose maximizes domestic energy supplies. Eligibility is dependent on an executive decision on a case-by-case basis. Guidance is provided by DOE Publication PR-0042, "Priorities and Allocations Support for Energy: Keeping Energy Programs on Schedule," dated August 1980, as it may from time to time be revised. If the purpose of the contract is to maximize domestic energy resources, include the following clause:

Priorities, Allocations, and Allotments—Special Clause (Apr 1984)

This contract may be eligible for priorities and allocations support, as provided for by Section 101(c) of the Defense Production Act of 1950, as amended by the Energy Policy and Conservation Act (Pub. L. 94-163, 42 U.S.C. 6201 *et seq.*) if its purpose is to maximize domestic energy supplies. Eligibility is dependent on an executive decision on a case by case basis with the decision being jointly made by the Departments of Commerce and Energy.

DOE regulations regarding material allocation and priority performance under contracts or orders to maximize domestic energy supplies can be found at Part 216 of Title 10 of the Code of Federal Regulations (10 CFR Part 216).

Additional guidance is provided by DOE Publication PR-0042, "Priorities and Allocations Support for Energy: Keeping Energy Programs on Schedule," dated August 1980, as it may from time to time be revised. Copies may be obtained by written request to: Department of Energy, Technical Information Center (TIC), Post Office Box 62, Oak Ridge, Tennessee 37830.

970.5204-34 Sensitive foreign nations control.

See 952.204-71

970.5204-35 Controls in the national interest (unclassified contracts with educational institutions).

Controls in the National Interest (Apr 1984)

The contractor agrees to comply with the requirements of DOE specified in Attachment ———— to this contract, and to such other DOE requirements of the same general nature as the parties may agree to from time to time; these requirements relate to unclassified work, and they shall not be construed to limit or affect in any way the contractor's obligation to conform to all security regulations and requirements of DOE pertaining to classified work.

970.5204-36 Organizational conflicts of interest (contracts with universities where DOE has major investments in facilities but does not own or lease the land).

Organizational Conflicts of Interest (Apr 1984)

The parties agree that the university has adopted policies and procedures, designed to avoid conflict-of-interest situations, which are in substantial conformance with the Joint Statement of the Council of American Association of University Professors and the American Council on Education of December 1964, entitled, "On Preventing Conflicts of Interest in Government-Sponsored Research at Universities," which policies and procedures will be applied in connection with this contract.

970.5204-37 Statement of work (management and operating contracts).

See 970.10

970.5204-38 Special Clause for procurement of construction.

In accordance with 970.2274 the following clause shall be used in operating and management contracts when the contractor is to perform no Davis-Bacon work with his own forces but may procure construction by subcontract:

Government Facility Subcontract Approval (Apr 1984)

Upon request of the contracting officer and acceptance thereof by the contractor, the contractor shall procure, by subcontract, the construction of new facilities or the alteration or repair of Government-owned facilities at the plant. Any subcontract entered into under this paragraph shall be subject to the written approval of the contracting officer and shall contain the provisions relative to labor and wages required by law to be included in contracts for the construction, alteration, and/or repair, including painting and decorating, on a public building or public work.

970.5204-39 [Reserved]

970.5204-40 [Reserved]

970.5204-41 Preservation of individual occupational radiation exposure records.

See 952.223-75

970.5204-42 Key personnel.

Key personnel (Apr 1984)

It having been determined that the employees whose names appear (below or in Appendix ——), or persons approved by the contracting officer as persons of substantially equal abilities and qualifications, are necessary for the successful performance of this contract, the contractor agrees to assign such employees or persons to the performance of the work under this contract and shall not reassign or remove any of them without the consent of the contracting officer. Whenever, for any reason, one or more of the aforementioned employees is unavailable for assignment for work under the contract, the contractor shall, with the approval of the contracting officer, replace such employee with an employee of substantially equal abilities and qualifications.

970.5204-43 Other Government contractors.

Other Government Contractors (Apr 1984)

The Government may undertake or award contracts for work or services. The contractor agrees to fully cooperate with such other contractors and Government employees and carefully fit its own work to such other work as may be directed by the contracting officer. The contractor shall not commit or permit any act which will interfere with the performance of work by any other contractor or by Government employees.

970.5204-44 [Reserved]

970.5204-45 Termination.

The following clause is suggested for use in management and operating contracts:

Termination (Apr 1984)

(a) This contract shall continue until ———— unless sooner terminated in accordance with the provisions which follow:

(1) The performance of work under this contract may be terminated by the Government in whole, or from time to time in

part, (i) whenever the contractor shall default in performance, and shall fail to cure the fault or failure within such period as the contracting officer may allow after receipt from the contracting officer or a notice specifying the fault or failure, or (ii) whenever, for any reason, the contracting officer shall determine any such termination is for the best interest of the Government. Termination of the work hereunder shall be effected by delivery of a notice of termination specifying whether termination is for default of the contractor or for the convenience of the Government, the extent to which performance of work under the contract shall be terminated, and the date upon which such termination shall become effective. Any such termination shall be without prejudice to any claim which either party may have against the other. If, after notice of termination under the provisions of (a)(1)(i) above, it is determined for any reason that the contractor was not in default, such notice of default shall be deemed to have been issued pursuant to (a)(1)(ii) above, and the rights and obligations of the parties hereto shall in such event be governed accordingly.

(2) Upon receipt of notice of termination, in accordance with (1) above, the contractor shall, to the extent directed in writing by the contracting officer, discontinue the terminated work and the placing of orders for materials, facilities, supplies, and services in connection therewith, and shall proceed, if, and to the extent required by the contracting officer, to cancel promptly and settle with the approval of the contracting officer, existing orders, subcontracts, and commitments insofar as such orders, subcontracts, and commitments pertain to this contract.

(b) Upon the termination of this contract, full and complete settlement of all claims of the contractor and of DOE arising out of this contract shall be made as follows:

(1) The Government shall have the right in its discretion to assume sole responsibility for any or all obligations, commitments, and claims that the contractor may have undertaken or incurred, the cost of which are allowable in accordance with the provisions of this contract; and the contractor shall, as a condition of receiving the payments mentioned in this article, execute and deliver all such papers and; take all such steps as the contracting officer may require for the purpose of fully vesting in the Government any rights and benefits the contractor may have under or in connection with such obligations, commitments, or claims.

(2) The Government shall treat as allowable costs all expenditures made in accordance with and allowable under the clause entitled "Allowable Costs and Fixed Fee," not previously so allowed or otherwise credited for work performed prior to the effective date of termination, together with expenditures as may be incurred for a reasonable time thereafter with the approval of, or as directed by, the contracting officer.

(3) The Government shall treat as allowable costs, to the extent not included in (b)(2) above, the costs of settling and paying claims arising out of the termination of work under orders, subcontracts, and commitments as provided in (a)(2) above.

(4) The Government shall treat as allowable costs the reasonable costs of settlement, including accounting, legal, clerical, and other expenses reasonably necessary for the preparation of settlement claims and supporting data with respect to the termination of the contract and for the termination and settlement of orders and subcontracts thereunder, together with such further expenditures made by the contractor after the date of termination for the protection or disposition of Government property as are approved or required by the contracting officer; provided, however, that if the termination is for default of the contractor, there shall not be included any amount for preparation of the contractor's settlement proposal.

(5) If performance of work under this contract is terminated in whole by the Government, the fixed fee of the contractor shall be prorated to and including the effective date of such termination. In addition, if the termination is for the convenience of the Government, the contractor shall be paid a fixed fee in an amount to be agreed upon as compensation for its services in closing out the work under this contract after the effective date of such termination. The additional fixed fee is to be negotiated as soon as practicable after service of notice of termination, shall take into account the estimate of the cost of the services and managerial effort to be rendered under this clause after the effective date of termination, and shall be provided for in a supplement or amendment to this contract prior to final settlement hereunder. Pending agreement as to the amount of such fee, the contractor shall diligently proceed with the performance of the services required under this clause. No additional fee will be paid if the contract is terminated due to the default of the contractor. In the event of a partial termination by the Government, an equitable adjustment shall be made in the fixed fee if such termination results in a material decrease in the level of the contractor's management effort. Any failure to agree on the right to or the amount of any adjustment shall be deemed a dispute within the purview of the clause hereof entitled "Disputes."

(6) The obligation of the Government to make any of the payments required by this clause or any other provisions of this contract shall be subject to any unsettled claims in connection with this contract which the Government may have against the contractor.

(c) Prior to final settlement, the contractor shall furnish a release as required in the clause entitled "Payments and Advances" and account for Government-owned property as may be required by the contracting officer: provided, however, that unless the contracting officer requires an inventory, the maintenance and disposition of the records of Government-owned property in accordance with the clause entitled "Accounts, Records and Inspection" shall be accepted by the contracting officer as full compliance with all requirements of this contract pertaining to an accounting for such property.

970.5204-48 [Reserved]

970.5204-50 Cost and schedule control systems.

See 952.212-73.

970.5204-51 [Reserved]

970.5204-52 Foreign Travel.

See 952.247-70.

Subpart 970.70—Use of DOE Facilities for Work for Others

970.7000 Mission-oriented solicitation.

Contractors shall be required to promptly advise the DOE contracting officer of any advance notices of, or solicitations for, requirements which would logically involve DOE facilities or resources operated or managed by the contractor, received from other agencies pursuant to FAR 34.005. Management and operating contracts shall provide that the contractor shall not respond or otherwise propose to participate in response to the requirements of such solicitations unless the contractor shall have first obtained the written approval of the DOE manager of the field activity having cognizance over the contract. Such approval shall not be given except in compliance with DOE directives and with the concurrence of the appropriate Senior Program Official.

PART 971—HEADQUARTER'S REVIEW AND APPROVAL OF CONTRACT ACTIONS

Sec.

971.000 Scope of part.

Subpart 971.1—Headquarters Review and Notification Requirements

971.100 Scope of subpart.
971.101 Requirements—general.
971.102 Requirement—long-term contracts.
971.103 Documentation submittals.

Subpart 971.2—Contracting Activity Review Requirements

971.200 Scope of subpart.
971.201 Requirements.
971.202 Responsibilities.
971.203 Review functions.

Subpart 971.3—Procurement Management Systems Reviews

971.300 Scope of subpart.
971.301 Review of procurement management systems.

Authority: Sec. 644 of the Department of Energy Organization Act, Pub. L. 95-91 (42 U.S.C. 7254); and sec. 148 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2168).

971.000 Scope of part.

This part sets forth the administrative requirements for review and approval of certain solicitations and contract awards and a notification of Headquarters procurement system reviews.

Subpart 971.1—Headquarters Review and Notification Requirements

971.100 Scope of subpart.

This subpart establishes a requirement for Headquarters review of certain solicitations and contract awards made by DOE contracting activities.

971.101 Requirements—general.

Solicitations and contract awards which are in excess of authority delegated to Heads of Contracting Activities, likely to provoke unusual public interest, or of a new or unusual nature shall be submitted to the Procurement Executive or designee for appropriate review and approval. Contract actions are those actions relating to the letting of contracts, subcontracts, agreements with other governmental agencies, and subsequent modifications, extensions, and settlements of terminations thereof. Questions of contract policy or procedure which arise in the course of negotiation and administration of such contract actions shall be submitted for advance Headquarters review and approval.

971.102 Requirement—long-term contracts.

Heads of Contracting Activities shall notify the Controller, with a copy to the Procurement Executive, or any intent to utilize the long-term contract authority provided by subsection U, section 161 of the Atomic Energy Act of 1954, as amended by Pub. L. 85-681 (72 Stat. 633). Such advance notice should be provided at an early stage of planning on any such proposed contract action.

971.103 Documentation submittals.

(a) When contract awards require review and/or approval by Headquarters, (See 971.101) the following documentation is to be submitted to the Business Clearance Division, Headquarters, at the times set forth below:

(1) *Prior to negotiations.* Prior to the start of formal negotiations concerning contract awards the following documents are required for review:

(i) Five copies of the prenegotiation plan and draft contract (six copies in the case of operating and on-site service contracts which contain a personnel appendix).

(ii) One copy of the determinations and findings, as required by FAR 15.302.

(iii) If applicable, one copy of the justification for noncompetitive procurement (JNCP) or justification for acceptance of unsolicitated proposals (JNCP) should be provided.

(iv) One copy of documentation (including audits and technical evaluation of costs) to support a pricing action.

(2) *After completing negotiation.* If there were significant departures from the objectives of the prenegotiation plan, or new and significant issues were developed which were not addressed in the prenegotiation plan, one copy of the post negotiation summary shall be submitted for Headquarters' review and approval. In the event all of the prenegotiation objectives were substantially met, one information copy is to be submitted.

(b) When solicitations require review and approval by Headquarters, two copies of the solicitation shall be submitted to the Business Clearance Division, Headquarters, in sufficient time prior to the planned release to allow a comprehensive review.

(c) The following information should also be provided with the documentation submitted to Headquarters:

(1) Name and telephone number of the cognizant Headquarters program official.

(2) The supporting documentation should include a copy of the local independent review, if any, conducted in accordance with 971.102.

Subpart 971.2—Contracting Activity Review Requirements

971.200 Scope of subpart.

This subpart sets forth the administrative requirement for an independent Contracting Activity review of contracts to be awarded by that activity and subcontracts to be awarded by a prime or operating and management contract under a cost-reimbursement contract.

971.201 Requirements.

Prime contracts and subcontracts under cost-reimbursement contracts shall be reviewed, based on dollar thresholds to be established by Heads of Contracting Activities.

971.202 Responsibilities.

Each Head of Contracting Activity shall establish procedures, providing for an independent review by that activity prior to award of proposed contract and subcontract actions and to review termination settlements.

971.203 Review functions.

Responsibility for conducting the independent review of contract and subcontract actions shall be assigned to a contract review board or where it is impracticable to establish a contract review board, under appropriate alternate independent review procedures. The mode of conduct of the review is not prescribed herein in order to permit discretionary judgment in determining the depth to which significant areas are examined. The results of the review shall be documented showing the scope and extent of the review and written recommendations submitted to Heads of Contracting Activities (or to such other approving officials as may be appropriate) on each proposed contract or subcontract action reviewed. In the event the approving official departs from the recommendation of the review board, the basis for such action shall be appropriately documented in the files.

Subpart 971.3—Procurement Management System Reviews

971.300 Scope of subpart.

This subpart advises Contracting Activites of the Headquarters responsibility for oversight and review of Procurement Systems by contracting activities.

971.301 Review of procurement management systems.

The Procurement Executive is responsible for establishing and maintaining a program for the review of DOE procurement management systems. Review will be conducted in accordance with the procedures prescribed for that program. A review schedule will be published and maintained. Each contracting activity will be notified at least 60 days in advance of its review.

Part III

Department of Agriculture

48 CFR Ch. 4

Acquisition Regulation; Interim Rule

VOL 49 ISS 61 MR 28 1984

DEPARTMENT OF AGRICULTURE

48 CFR Ch. 4

Acquisition Regulation

AGENCY: Office of Operations, Department of Agriculture.

ACTION: Interim rule with request for comments.

SUMMARY: The Department of Agriculture is issuing an interim rule to implement and supplement the new Federal Acquisition Regulation (FAR). The FAR, which becomes effective on April 1, 1984, simplifies the Federal procurement process by creating a single, uniform regulation for all agencies.

This interim rule, the Agriculture Acquisition Regulation (AGAR), prescribes policies and procedures that implement and supplement the FAR. On the effective date, the AGAR will replace the Agriculture Procurement Regulations, 41 CFR Chapter 4. Although superseded by the AGAR, the existing procurement regulations remain in effect in Title 41 for contracts entered into, and solicitations issued (including any resultant contracts), before the effective date of this acquisition regulation.

DATES: This interim rule, except for 410.004 (see paragraph E of Supplementary Information), becomes effective April 1, 1984. Written comments must be received on or before May 15, 1984.

ADDRESS: Comments should be sent to: USDA, Procurement Division, Office of Operations, Room 1575–South Building, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT: Larry Schreier, 202–447–6924.

SUPPLEMENTARY INFORMATION:

Procedural Requirements

A. Administrative Procedure Act

This rule relates to agency contracting. As such, pursuant to the provisions of 5 U.S.C. 553(a), it is exempt from the notice and comment requirements set forth in 5 U.S.C. 553 (b) and (c). Nevertheless, the Secretary of Agriculture, in a Policy Statement issued on July 24, 1971, committed the Department to observing the aforementioned public participation requirements in contract related rule-making, unless such observance is for good cause found to be impracticable, unnecessary, or contrary to the public interest.

Because of the need to have the AGAR in place on April 1, 1984, the effective date of the FAR, time constraints make it impracticable to seek public participation before adopting the AGAR. Therefore, the requirements of 5 U.S.C. 553 (b) and (c) are not here applicable.

B. Office of Federal Procurement Policy Letter No. 83–2

Due to the aforementioned time constraints it is impracticable to solicit and consider the views of interested parties prior to adopting this regulation. Therefore, in accordance with OFPP Letter 83–2, the AGAR is being issued as an interim rule and will not be issued in its final form until the views of all interested parties have been considered. The time for comments and the location to which they should be addressed is set forth elsewhere in this preamble.

C. Executive Order 12291

David A. Stockman, Director of the Office of Management and Budget, has exempted procurement regulations from the requirements of a regulatory impact analysis and review required by Executive Order 12291 in a memorandum dated December 15, 1983, to Don Sowle, Administrator, Office of Procurement Policy and Christopher DeMuth, Administrator, Information and Regulatory Affairs.

D. Regulatory Flexibility Act

Consistent with the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et. seq.*), it is herein certified that this rule does not have a significant economic impact on a substantial number of small entities because the rule contains few changes in current acquisition regulations. To the extent changes are made to current regulations, they are designed to foster and promote participation of small entities in the Department's procurement program (5 U.S.C. 605(b)).

E. Paperwork Reduction Act

The information collection requirement contained in 48 CFR Part 410 will be submitted to the Office of Management and Budget for approval as required by 44 U.S.C. 3501 *et seq.* The collection of this information will not be required until it has been approved by the Office of Management and Budget. Comments on the information collection requirements should be submitted to Andy Velez-Rivera, Desk Officer, Office of Management and Budget, Office of Information and Regulatory Affairs, Room 3001, 725 Jackson Place, Washington, D.C. 20503, as well as to the Departmental address listed above.

List of Subjects in 48 CFR Chapter 4

Government procurement, Department of Agriculture Acquisition Regulation.

For the reasons set out in this preamble, an interim Chapter 4 is added to Title 48 of the Code of Federal Regulations as set forth below.

Issued in Washington, D.C. on March 16, 1984.

Frank Gearde, Jr.,

Director, Office of Operations.

Part 452—Solicitation Provisions and Contract Clauses
Part 453—Forms

SUBCHAPTER A—GENERAL

PART 401—AGRICULTURE ACQUISITION REGULATION SYSTEM

401.000 Scope of Part.

Subpart 401.1—Purpose, Authority, Issuance

401.101 Purpose.
401.102 Authority.
401.103 Applicability.
401.103–70 Exclusions.
401.104 Issuance.
401.104–1 Publication and Code arrangement.
401.104–2 Arrangement of regulations.
401.104–3 Copies.

Subpart 401.2—Administration

401.201 Maintenance of the FAR.
401.201–1 The two councils.

Subpart 401.3—Agency Acquisition Regulations

401.301 Policy.
401.303 Codification and public participation.
401.304 Agency control and compliance procedures.
401.370 Departmental directives.

Subpart 401.4—Deviations From the FAR and AGAR

401.402 Policy.
401.403 Individual deviations.
401.404 Class deviations.

Subpart 401.6—Contracting Authority and Responsibilities

401.601 General.
401.602–1 Authority.
401.603 Selection, appointment, and termination of appointment.
401.603–1 General.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

401.000 Scope of part.

This part presents introductory information about the Department of Agriculture's Acquisition Regulation, subsequently referred to as the AGAR. The AGAR is an integral part of the Federal Acquisition Regulations System and implements or supplements the Federal Acquisition Regulation (FAR).

Subpart 401.1—Purpose, Authority, Issuance

401.101 Purpose.

(a) This subpart establishes Chapter 4, the Department of Agriculture Acquisition Regulation (AGAR), within Title 48 of the Code of Federal Regulations. The AGAR provides for the codification and publication of uniform policies and procedures for acquisitions by contracting activities within the Department.

(b) The purpose of the AGAR is to implement the Federal Acquisition Regulation (FAR), where further implementation is needed, and to supplement the FAR when coverage is needed for subject matter not covered in the FAR. The AGAR is not by itself a complete document, as it must be used in conjunction with the FAR.

401.102 Authority.

The AGAR and amendments thereto are issued under 5 U.S.C. 301 and 40 U.S.C. 486(c). Pursuant to 7 CFR 2.76 the Director, Office of Operations, has the delegated authority to promulgate Departmental acquisition regulations.

401.103 Applicability.

The FAR and AGAR apply to all Department of Agriculture (USDA) acquisitions of supplies and services (including construction) which obligate appropriated funds, unless otherwise specified in this regulation or excepted by law. For acquisitions using nonappropriated funds, these regulations shall be used as guides to the maximum extent feasible and consistent with efficient program operations.

401.103-70 Exclusions.

Certain USDA policies and procedures which come within the scope of this chapter may be excluded from the AGAR under appropriately justified circumstances, such as:

(a) Subject matter which bears a security classification (See FAR 4.402).

(b) Subject matter which is effective for a period less than 6 months.

(c) Subject matter which is instituted on an experimental basis for a reasonable period.

401.104 Issuance.

401.104–1 Publication and code arrangement.

(a) The AGAR is issued in the Code of Federal Regulations as Chapter 4 of Title 48, Federal Acquisition Regulations System, to implement and supplement Chapter 1 which constitutes the FAR. Parts 400 through 499 have been assigned to USDA by the Office of the Federal Register.

(b) The AGAR and its subsequent changes are published in: (1) Daily issues of the **Federal Register**, (2) cumulative form in the Code of the Federal Regulations, and (3) looseleaf form for distribution within the Department.

401.104–2 Arrangement of regulations.

(a) *General.* The AGAR is divided into the same subchapters, parts, subparts, sections, and subsections as the FAR. However, when the FAR coverage is adequate by itself, there will be no AGAR counterpart. AGAR coverage parallels the FAR in format, arrangement, and numbering system.

(b) *Numbering.* The AGAR numbering system conforms to the FAR. The first digit, "4", represents the chapter number assigned to USDA, followed by a 2-digit part number, and then a decimal point. Numbers after the decimal point represent respectively the subpart, section (two digits) and subsection separated from the former by a dash. For example, the AGAR implementation of FAR 1.104 is shown as 401.104, and of FAR 15.804–3 as 415.80–3. Subdivisions at the section and subsection level are indicated by parenthetical alphanumerics in accordance with the FAR scheme. However, the designations of subdivisions in the AGAR do not necessarily correspond with subdivisions in the FAR.

401.104–3 Copies.

Copies of the AGAR published in the **Federal Register** or Code of Federal Regulations may be purchased from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Requests should reference Chapter 4 of Title 48 CFR.

Subpart 401.2—Administration

401.201 Maintenance of the FAR.

401.201–1 The two councils.

(a) The Department is represented on the Civilian Agency Acquisition Council by a Policy Team member of the Procurement Division, Office of Operations.

(b) The Procurement Division will coordinate proposed FAR revisions with interested contracting activities and serve as the point of contact for interpreting regulations or receiving

FAR revisions advocated by contracting activities.

Subpart 401.3—Agency Acquisition Regulations

401.301 Policy.

(a) The Director, Office of Operations, subject to the authorities in 401.102 and FAR 1.301(c)(3), shall issue and publish in the **Federal Register**, as may be required, Departmental regulations to implement and supplement the FAR, that together with the FAR, constitute Department-wide policies, procedures, solicitation provisions, and contract clauses governing the contracting process or otherwise controlling the relationship between the Department (including any of its contracting activities) and contractors or prospective contractors.

(b) Each designated Head of a Contracting Activity (HCA) is authorized to issue or authorize the issuance of internal guidance at any organizational level, which does not directly affect contractors or prospective contractors. Internal guidance will not be published in the **Federal Register**. HCA's shall ensure that the guidance, procedures, or instructions issued:

(1) Are consistent with the policies and procedures contained in this regulation;

(2) Follow the format, arrangement, and numbering system of this regulation to the extent practicable;

(3) Contain no material which duplicates, paraphrases, or is inconsistent with this regulation; and

(4) Are numbered and identified by use of alphabetical suffixes to the chapter number as follows:

4A Agricultural Marketing Service.
4B Agricultural Research Service.
4C Agricultural Stabilization and Conservation Service.
4D Farmers Home Administration.
4E [Reserved].
4F Foreign Agricultural Service.
4G Forest Service.
4H Rural Electrification Administration.
4I Soil Conservation Service.
4J Economics Management Staff.
4K Food and Nutrition Service.
4L Animal and Plant Health Inspection Service.
4M Federal Crop Insurance Corporation.
4N Office of Operations, Procurement Division (Procurement Operations).
4O [Reserved].
4P Office of International Cooperation and Development.
4R Office of the Inspector General.

401.303 Codification and public participation.

(a) The AGAR is codified as Chapter 4 Title 48 of the Code of Federal Regulations.

(b) Section 553(a)(2) of the Administrative Procedures Act, 5 U.S.C. 553, provides an exception from the standard public rulemaking procedures to the extent that the rule involves a matter related to agency management or personnel or to public property, loans, grants, benefits or contracts. OFPP Policy Letter 83–2 requires rulemaking for substantive acquisition rules but allows discretion in the matter for other than significant issues meeting the stated criteria. Accordingly, AGAR has been promulgated and may be revised from time to time in accordance with the rulemaking procedures of the Administrative Procedures Act and OFPP Policy Letter 83–2. This procedure for significant subject matter generally involves issuing a notice of proposed rulemaking inviting public comment, review and analysis of comments received, and publication of a final rule. The final rule includes a discussion of the public comments received and describes any changes made as a result of the comments.

401.304 Agency control and compliance procedures.

(a) The AGAR System is under the direct oversight and control of the Director, Office of Operations, who is responsible for review and issuance of all Department-wide acquisition regulations published in the **Federal Register** to assure compliance with FAR Part 1.

(b) The Director, Office of Operations, is also responsible for review and issuance of unpublished, Department-wide internal guidance under the AGAR System.

(c) HCA's are responsible for establishment and implementation of formal procedures for oversight and control of all unpublished internal guidance issued to implement FAR or AGAR requirements. These procedures shall be subject to the review and approval by the Director, Office of Operations, and shall include:

(1) Provisions for centralized issuance of all guidance and instructions using a directives system;

(2) Methods for periodic review and updating of all issuances;

(3) Distribution processes which assure timely receipt by all affected contracting offices; and

(4) Provisions for maintaining compliance with FAR 1.304.

(d) The Director, Office of Operations, is responsible for evaluating coverage under the AGAR System to determine applicability to other agencies and for recommending coverage to the FAR Secretariat for inclusion in the FAR.

(e) Recommendations for revision of existing FAR coverage or new FAR coverage shall be submitted by the HCA to the Director, Office of Operations, for further action.

401.370 Departmental directives.

Subject to the policies of FAR 1.3, the Department from time to time may issue internal directives of the following types to establish procedures, standards, guidance, or methods of performing duties, functions, or operations.

(a) *Departmental Regulations* (DR). Permanent directives signed by the Director, Office of Operations, to issue policies, authorities, and operating instructions.

(b) *Departmental Notices* (DN). Temporary directives signed by the Director, Office of Operations, to communicate policy or procedure which require immediate dissemination.

(c) *Secretary's Memoranda*. Temporary directives signed by the Secretary which establish major policy concerning missions and programs of the Department, direct initial or implementing action on these programs, or redirect or change policy or action in these areas.

Subpart 401.4—Deviations From the FAR and AGAR

401.402 Policy.

(a) Requests for authority to deviate from the provisions of the FAR or the AGAR shall be submitted in writing as far in advance as the exigencies of the situation will permit. Each request for deviation shall contain the following:

(1) A statement of the deviation desired, including identification of the specific paragraph number(s) of the FAR or AGAR;

(2) The reason why the deviation is considered necessary or would be in the best interest of the Government;

(3) If applicable, the name of the contractor and identification of the contract affected;

(4) A statement as to whether the deviation has been requested previously and, if so, circumstances of the previous request;

(5) A description of the intended effect of the deviation;

(6) A statement of the period of time for which the deviation is needed; and

(7) Any pertinent background information which will contribute to a full understanding of the desired deviation.

401.403 Individual deviations.

In individual cases, deviations from either the FAR or the AGAR will be authorized only when essential to effect

a necessary acquisition or where special circumstances make such deviations clearly in the best interest of the Government. Except for cost principles, HCA's may approve individual deviations from the AGAR, after coordinating with the General Counsel and the Director, Office of Operations. No deviations from the FAR or AGAR may be authorized at the contracting office level. A copy of each deviation and its supporting documentation shall be provided to the Director, Office of Operations. Deviations involving cost principles contained in FAR Part 31 and Part 431, or any FAR deviation, shall not be made unless such action is authorized by the Director, Office of Operations, after consultation with the Office of General Counsel and any other appropriate office, on the basis of a written justification stating clearly the special circumstances involved.

401.404 Class deviations.

Where deviations from the FAR or AGAR are considered necessary for classes of contracts, requests for authority to deviate shall be submitted in writing to the Director, Office of Operations, who will, after obtaining appropriate concurrences from other officials (e.g., General Counsel, and such other parties of interest), consider the submission, and in the case of FAR deviations, consider the submission jointly with the Chairperson of the Civilian Agency Acquisition Council. Where circumstances preclude obtaining prior concurrence of the Chairperson of the Civilian Agency Acquisition Council, the Procurement Executive may authorize the deviation and subsequently inform the Chairperson of the Civilian Agency Acquisition Council of the deviation including the circumstances under which it was required.

Subpart 401.6—Contracting Authority and Responsibilities

401.601 General.

(a) The authority and responsibility vested in the Secretary to manage the Department's acquisition function is delegated through the Assistant Secretary for Administration to the Director, Office of Operations, who is the USDA Procurement Executive, pursuant to 7 CFR 2.76(a) (1) and (10). This broad authority includes, but is not limited to, the following responsibilities:

(1) Prescribing and publishing Departmental acquisition policies, regulations, and procedures.

(2) Taking any necessary actions consistent with policies, regulations, and procedures with respect to purchases, contracts, leases, and other transactions.

(3) Designating contracting officers.

(4) Establishing clear lines of contracting authority.

(5) Evaluating and monitoring the performance of the Department's acquisition system.

(6) Managing and enhancing career development of the contracting work force.

(7) Participating in the development of Government-wide acquisition policies, regulations, and standards and determining specific areas where Government-wide performance standards should be established and applied.

(8) Determining areas of Department-unique standards and developing unique Department-wide standards.

(9) Acting as the advocate for competition.

(10) Certifying to the Secretary that the acquistion system meets approved standards.

(b) The Director, Office of Operations, may delegate contracting authority to the Heads of Contracting Activities (HCA's) and the responsibility to manage their acquisition function. Delegations of authority for automatic data processing (ADP) equipment, services and related supplies are limited in accordance with Part 439.

(c) HCA's may redelegate contracting authority, without the power of redelegation, only to qualified contracting officers as prescribed in 401.603. Contracts may be entered into and signed only by the Agency Head, HCA's and appointed contracting officers.

401.602-1 Authority.

Information on the limits of contracting officers' authority shall be maintained by the HCA's as required by FAR 1.602-1. This information shall be readily available to the public and is subject to review by the Director, Office of Operations.

401.603 Selection, appointment, and termination of appointment.

401.603-1 General.

HCA's are authorized by the Director, Office of Operations, to select and appoint contracting officers and terminate their appointment as prescribed in FAR 1.603.

PART 402—DEFINITIONS OF WORDS AND TERMS

402.000 Scope of part.
402.001 Definitions.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

402.000 Scope of part.

As used throughout this regulation, the following words and terms are used as defined in this subpart unless the context in which they are used clearly requires a different meaning, or a different definition is prescribed for a particular part or portion of a part.

402.001 Definitions.

"Agency Head" or "Head of the Agency" means the Secretary of Agriculture, Deputy Secretary, and the Assistant Secretary for Administration.

"Contracting Activity" means the Office of Operations and other USDA organizations having delegated acquisition contracting authority. A contracting activity's authority and responsibility to manage its acquisition contracting function and those of other organizations for which it provides administrative support are established by a written delegation from the Director, Office of Operations.

"Head of the Contracting Activity" (HCA) means the official who has overall responsibility for managing the contracting activity, i.e., Chief, Forest Service; Administrator, Agricultural Marketing Services; etc. Each HCA may designate one individual from the contracting activity to act as the HCA and perform the delegated contract management functions for the contracting activity.

"Procurement Executive" means the agency official appointed as such by the Head of the Agency pursuant to Exectutive Order 12352. The Director, Office of Operations, has been designated as the USDA Procurement Executive.

PART 403—IMPROPER BUSINESS PRACTICES AND PERSONAL CONFLICTS OF INTEREST

Subpart 403.2—Contractor Gratuities to Government Personnel

403.203 Reporting suspected violation of the gratuities clause.
403.204 Treatment of violations.

Subpart 403.3—Reports of Identical Bids and Suspected Antitrust Violations

403.302 Reporting identical bids.
403.303 Reporting suspected antitrust violations.

Subpart 403.4—Contingent Fees

403.406 Evaluation of the SF.-119.
403.406-1 Responsibilities.
403.409 Misrepresentations or violations of the Convenant Against Contingent Fees.

Subpart 403.5—Other Improper Business Practices

403.502 Subcontractor kickbacks.

Subpart 403.6—Contracts with Government Employees or Organizations Owned or Controlled by Them

403.602 Exceptions.
403.603 Responsibilities of the contracting officer.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 403.2—Contractor Gratuities to Government Personnel

403.203 Reporting suspected violation of the gratuities clause.

A suspected violation of the contract clause, FAR 52.203–3, Gratuities, shall be reported immediately to the cognizant contracting officer in writing, stating the circumstances surrounding the incident(s), and date(s) and names of all parties involved. The contracting officer shall review the report for completeness, add any additonal information deemed necessary and a recommendation for action, and submit the report to the HCA.

403.204 Treatment of violations.

The HCA shall review the report and consult with the Offices of General Counsel and Inspector General, as appropriate, to determine whether further action should be pursued. If it is found that the facts and circumstances warrant further action, the HCA shall give the contractor formal, written notice which summarizes the reported violation and affords the contractor the opportunity to make a written or oral response within a reasonable, specified period after receipt of the notice. The notice shall be sent by certfied mail with return receipt requested. Oral presentations shall follow the procedures outlined in FAR 3.204(b). The HCA shall furnish copies of any adverse determination to the contracting officer and the Department Debarring Officer for their subsequent considerations under FAR 3.204(c) (1) and (2), respectively.

Subpart 403.3—Reports of Identical Bids and Suspected Antitrust Violations

403.302 Reporting identical bids.

Executive Order 12430 dated July 6, 1983, revoked the requirement of Executive Order 10936 dated April 24, 1961, to submit reports to the Attorney General regarding identical bids.

403.303 Reporting suspect antitrust violations.

Contracting officers shall report the circumstances of suspected violations of antitrust laws to their respective HCA's. HCA's shall refer the reports directly to the Attorney General as stated in FAR 3.303(e), and send a copy of each to the Director, Office of Operations.

Subpart 403.4—Contingent Fees

403.408 Evaluation of the SF–119.

403.408–1 Responsibilities.

The review required by FAR 3.408–1(b) shall be performed at a level higher than the contracting officer.

403.409 Misrepresentations or violations of the Covenant Against Contingent Fees.

(a) A suspected misrepresentation or violation of the Covenant Against Contingent Fees shall be documented in writing by the contracting officer and reported immediately to the HCA. The HCA shall determine if a violation has occurred and take action in accordance with FAR 3.409(b).

(b) If the HCA decides to refer the case to the Department of Justice, it should be referred directly with a copy of the report and referral submitted to the Director, Office of Operations.

Subpart 403.5—Other Improper Business Practices

403.502 Subcontractor kickbacks.

Each suspected violation of the Anti-Kickback Act (41 U.S.C. 51–54) shall be documented in writing by the contracting officer and reported immediately to the HCA. The HCA, after consultation with the Office of General Counsel and referral to the Office of Inspector General, as appropriate, shall refer the suspected violation to the Department of Justice, with a copy of the report and referral submitted to the Director, Office of Operations.

Subpart 403.6—Contracts With Government Employees or Organizations Owned or Controlled by Them

403.602 Exceptions.

The HCA is authorized to except a contract from the policy in FAR 3.601.

403.603 Responsibilities of the contracting officer.

The contracting officer, when requesting authorization under 403.602, shall prepare a written determination and findings for the signature of the HCA. The determination shall document compliance with FAR 3.603 specifying the compelling reason(s) for award, and be placed in the contract file.

PART 404—ADMINISTRATIVE MATTERS

Subpart 404.4—Safeguarding Classified Information Within Industry

404.402 General.
404.403 Responsibilities of contracting officers.

Subpart 404.6—Contract Reporting

404.601 Federal Procurement Data System.

Subpart 404.8—Contract Files

404.805 Disposal of contract files.
404.870 Document numbering system.
404.870–1 Purchase order/delivery order numbering system.
404.870–2 Contract numbering system.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 404.4—Safeguarding Classified Information Within Industry

404.402 General.

(a) Based on an agreement with the Department of Defense, USDA is covered by the Defense Industrial Security Program (DISP). Accordingly, all contracting activities will conduct classified acquisitions as required by the DISP.

(b) Detailed information on DISP requirements is maintained by the Chief, Security and Employee Relations Staff, Office of Personnel, Washington, D.C. 20250.

404.403 Responsibilities of contracting officers.

When a proposed solicitation is likely to require access to information classified by USDA, the contracting officer shall consult with the Chief, Security and Employee Relations Staff, Office of Personnel, regarding the procedures that must be followed.

Subpart 404.6—Contract Reporting

404.601 Federal Procurement Data System.

(a) The Procurement Division, Office of Operations, manages an automated procurement reporting system for USDA This system provides the Federal Procurement Data System with all required contracting information.

(b) Contracting activities shall report all contract actions into the USDA Procurement Reporting System in accordance with the regulations and notices of the 5010 classification series in the Departmental Directives System.

(c) Questions about the USDA Procurement Reporting System should be directed to the Procurement Division, Office of Operations, Washington, D.C. 20250.

Subpart 404.8—Contract Files

404.805 Disposal of contract files.

Contracting activities shall comply with their organizational file plans and disposition guides with respect to procedures for handling, storing, and disposing of contract files and other

acquisition related documents. Contracting activity file plans and disposition guides shall not include provisions that permit contract files to be destroyed before the times indicated in FAR 4.805.

404.870 Document numbering system.

The Department has prescribed a standardized numbering system for acquisition documents.

404.870-1 Purchase order/delivery order numbering system.

USDA purchasing activities shall number their purchase/delivery orders in accordance with NFC Procedures Manual, "Purchase Orders," Title II, Section 5.1.

404.870-2 Contract numbering system.

Contracting offices shall assign an 8 to 12-digit number to all contracts. Contract numbers will be divided into four data elements and formatted as follows:

(1)	(2)	(3)	(4)
Transaction code	Ordering office	Fiscal year	Control No.
XX	XXXX	X	X to XXXXX

(a) *Transaction Code.* This two-position code identifies the contract as being one of the following types:

(1) Code 50—construction contract;

(2) Code 51—[Reserved]

(3) Code 52—tree planting/thinning contract;

(4) Code 53—service contract;

(5) Code 54—supply contract;

(6) Code 55—aircraft rental (for firefighting purposes only) contract;

(7) Code 56—personal equipment rental (rental of vehicular equipment for firefighting purposes only) contract;

(8) Code 57—real property rental contract.

(b) *Ordering Office.* This four-position alpha-numeric code corresponds to the last four characters of the contracting office's GSA assigned FEDSTRIP requisitioner number.

(c) *Fiscal Year.* This one-position code corresponds to the last digit of the fiscal year in which the contract becomes effective.

(d) *Control Number.* This up-to-five position code (from one to five characters may be used) will be assigned by the contracting office. While contracts will generally be numbered consecutively (1 through 99999), contracting offices may assign codes in any manner of their choosing. Codes may not be repeated, however, unless one of the preceding data elements (transaction code, ordering office, or fiscal year) changes. Alpha, as well as numeric, characters may be used in any one or more of the five positions.

PART 405—PUBLICIZING CONTRACT ACTIONS

Subpart 405.4 Release of Information

405.404-1 Release procedures.

Subpart 405.5—Paid Advertisements

405.502 Authority.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 405.4—Release of Information

405.404-1 Release procedures.

(a) The HCA's may release long-range acquisition estimates if the information meets the requirements of FAR 5.404-1.

(b) Classified information shall not be released without the approval of the Chief, Security and Employee Relations Staff, Office of Personnel.

Subpart 405.5—Paid Advertisements

405.502 Authority.

HCA's are authorized to order the publication of an advertisement in newspapers. HCA's may redelegate this authority by regulation, order, or memorandum to subordinates within the contracting activity.

PART 406—[RESERVED]

Subchapter B—Acquisition Planning

PART 407—ACQUISITION PLANNING

Subpart 407.1—Acquisition Plans

407.102 Policy.

407.170 Advance acquisition plans.

Subpart 407.3—Contractor Versus Government Performance

407.302 General.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 407.1—Acquisition Plans

407.102 Policy.

Each HCA shall develop an acquisition planning system in compliance with the requirements of FAR Subpart 7.1 for complex/high dollar acquisitions. The HCA should establish the criteria for requiring formal written plans and determine the dollar thresholds for use in each contracting activity that will ensure application of the principles of this section in FAR Subpart 7.1.

407.170 Advance acquisition plans.

Each HCA shall implement an advance acquisition planning system in accordance with procedures in Departmental Regulation (5000 series).

Subpart 407.3—Contractor Versus Government Performance

407.302 General.

The requirements of FAR Subpart 7.3 and OMB Circular A-76 are implemented by Departmental Regulation 2170-1.

PART 408—REQUIRED SOURCES OF SUPPLIES AND SERVICES

Subpart 408.8—Acquisition of Printing and Related Supplies

408.802 Policy.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 408.8—Acquisition of Printing and Related Supplies

408.802 Policy.

(a) The Office of Governmental and Public Affairs (OGPA) has been designated as the Department's liaison with the Joint Committee on Printing (JCP) and the Public Printer, Government Printing Office, on all matters related to printing.

(b) Departmental organizations and offices with publication programs have designated a publication liaison officer who is authorized to coordinate appropriate printing and publication matters with OGPA.

(c) Prior to contracting for any of the items defined in FAR 8.801, the contracting officer shall coordinate with the publications liaison officer and obtain required approvals.

PART 409—CONTRACTOR QUALIFICATIONS

Subpart 409.4—Debarment, Suspension and Ineligibility

409.403 Definitions.
409.404 Consolidated list of debarred, suspended, and ineligible contractors.
409.405 Effect of listing.
409.405-1 Continuation of current contracts.
409.405-2 Restrictions on subcontracting.
409.406 Debarment.
409.406-3 Procedures.
409.407 Suspension.
409.407-3 Procedures.
409.470 Appeals.

Subpart 409.5—Organizational Conflict of Interest

409.503 Waiver.
409.507 Procedures.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 409.4—Debarment, Suspension and Ineligibility

409.403 Definitions.

"Debarment official." The Director, Office of Operations, is designated as the debarment official (Department Debarring Officer) pursuant to the

Secretary's delegations of authority in 7 CFR 2.25 and 2.76. However, for contracts awarded under the School Lunch and Surplus Removal Program (42 U.S.C. 1755 and 7 U.S.C. 612C), the Department Debarring Officer has delegated debarring authority to the Agricultural Marketing Service.

409.404 Consolidated List of Debarred, Suspended, and Ineligible Contractors.

(a) The Department Debarring Officer is the department's single point of contact with GSA for debarment and suspension actions taken under this subpart. The debarring officer in the Agricultural Marketing Service shall notify the Department Debarring Officer of each debarment and suspension action by promptly submitting a copy of the debarment or suspension notice and any later changes to the debarment or suspension status. The Department Debarring Officer will forward a copy of each notice to GSA for inclusion in the Government-wide consolidated list.

(b) The Chief, Procurement Division, Office of Operations, is responsible for arranging bulk distribution of the consolidated list to contracting activities under the USDA Automated Mailing List. Contracting activities must make their own internal distribution.

409.405 Effect of listing.

Compelling reasons are considered to be present where failure to contract with the debarred or suspended contractor would seriously harm the agency's programs and prevent accomplishment of mission requirements. The Director, Office of Operations, is authorized to make the determinations under FAR 9.405. Requests for such determinations shall be submitted through the HCA to the Director, Office of Operations.

409.405-1 Continuation of current contracts.

The HCA is authorized to make the determinations under FAR 9.405-1.

409.405-2 Restrictions on subcontracting.

The HCA is authorized to approve subcontracts with debarred or suspended subcontractors under FAR 9.405-2.

409.406 Debarment.

409.406-3 Procedures.

(a) *Investigation and referral.* When a contracting officer becomes aware of possible irregularities or any information which may be sufficient cause for debarment, the case shall be immediately referred through the HCA to the debarring official. The case must be accompanied by a complete statement of the facts (including a copy of any criminal indictments, if applicable) along with a recommendation for action. Where the statement of facts indicates the irregularities to be possible criminal offenses, or for any other reason further investigation is considered necessary, the matter shall be referred to the HCA who should consult with the Office of Inspector General to determine if further investigation is required prior to referring to the debarring official.

(b) *Decision-making process.* If, after reviewing the recommendations and consulting with the Office of Inspector General and Office of the General Counsel, as appropriate, the debarring official determines debarment is justified, the debarring official shall initiate the proposed debarment in accordance with FAR 9.406-3(c) and notify the HCA of the action taken.

(c) *Fact-finding proceedings.* For actions listed under FAR 9.406-3(b)(2), the contractor shall be given the opportunity to appear at an informal hearing. The hearing should be held at a location and time that is convenient to the parties concerned, if at all possible. The contractor and any specifically named affiliates may be represented by counsel or any duly authorized representative. Witnesses may be called by either party. The proceedings shall be conducted expeditiously and in such a manner that each party will have an opportunity to present all information considered pertinent to the proposed debarment. The contractor shall be provided a copy of a transcript of the proceedings under the conditions established in FAR 9.406-3(b)(2)(ii).

409.407 Suspension.

409.407-3 Procedures.

(a) *Investigation and referral.* When a contracting officer becomes aware of possible irregularities or any information which may be sufficient cause for suspension, the case shall be immediately referred through the HCA to the debarring official. The case must be accompanied by a complete statement of the facts along with a recommendation for action. Where the statement of facts indicates the irregularities to be possible criminal offenses, or for any other reason further investigation is considered necessary, the matter shall be referred to the HCA who should consult with the Office of Inspector General to determine if further investigation is required prior to referring to the debarring official.

(b) *Decision-making process.* If, after reviewing the recommendations and consulting with the Office of Inspector General and Office of the General Counsel, as appropriate, the debarring official determines suspension is justified, the debarring official shall initiate the proposed suspension in accordance with FAR 9.407-3(c) and notify the HCA of the action taken.

(c) *Fact-finding proceedings.* For actions listed under FAR 9.407-3(b)(2), the contractor shall be given the opportunity to appear at an informal hearing, similar in nature to the hearing for debarments as discussed in 409.406-3(c).

409.470 Appeals.

A debarred or suspended contractor may appeal the debarring officer's decision by mailing or otherwise furnishing a written notice within 90 days from the date of the decision to the U.S. Department of Agriculture Board of Contract Appeals, Washington, D.C. 20250. A copy of the notice of appeal shall be furnished to the debarring officer from whose decision the appeal is taken. Appeals under Subpart 409.4 shall be governed by the rules and procedures of the U.S. Department of Agriculture Board of Contract Appeals set forth in 7 CFR, Part 24.

Subpart 409.5—Organizational Conflicts of Interest

409.503 Waiver.

(a) The Director, Office of Operations, is authorized to waive any general rule or procedure in FAR 9.5 when in the Government's interest.

(b) Requests for waiver shall be made by the HCA. Each request shall include:

(1) The general rule or procedure proposed to be waived;

(2) An analysis or the potential conflict, including the benefits and detriments to the Government and prospective contractors;

(3) A discussion of why the conflict cannot be avoided, neutralized, or mitigated; and

(4) Advice of counsel obtained under FAR 9.504(b).

409.507 Procedures.

(a) The Director, Office of Operations, is authorized to make the final decision under FAR 9.507(c)(4) when a prospective contractor disagrees with the decision by the HCA.

(b) Referrals shall be made by the HCA and include:

(1) A copy of the prospective contractor's request; and

(2) The initial decision made under FAR 9.507(a), along with the supporting documentation.

PART 410—SPECIFICATIONS, STANDARDS, AND OTHER PURCHASE DESCRIPTIONS

410.004 Selecting specifications or descriptions for use.
410.007 Deviations.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

410.004 Selecting specifications or descriptions for use.

(a) The determination required by FAR 10.004(b)(2) shall be prepared in writing, signed and dated by the initiating office and accompany the purchase requisition.

(b) Brand name or equal.

(1) A "brand name product" is a commercial product described by its brand name, make, model number, catalog designation or other description by which it is regularly offered for sale in the commercial marketplace.

(2) A "Brand Name, or Equal" purchase description shall include the following type information to clearly indentify the specific item named by brand(s):

(i) Identification of the item by generic description.

(ii) Make, model number, catalog designation, or other description, and identification of the commercial catalog where it is listed.

(iii) Name of manufacturer, producer, or distributor of the item and complete address.

(3) All salient characteristics of the "brand name product or products" which have been determined by the initiating office to be essential to the Government's minimum requirements shall be clearly identified and included in the purchase description under the heading, "Salient Characteristics."

(4) The following or similar language shall be included in every solicitation seeking offers on a "brand name, or equal" basis to allow offerors the opportunity to clearly identify the "equal" item being offered, and how that item meets the salient characteristics requirements of the Government:

(i) Offerors proposing to furnish an "equal" product, in accordance with the "Brand Name, or Equal" provision of this solicitation, shall provide the following information for the offered product:

Item Number: _____
Manufacturer's Name: _____
Address: _____
Product Name (if any): _____
Product Make, Model or Catalog Description:

_____

Offerors shall also be responsible for submitting all additional information on the above product necessary for the Government to determine whether the product offered meets the salient characteristics of the "brand name" as listed in the solicitation.

(5) In addition, the provision at 452.210–70, Brand Name or Equal, shall be inserted in solicitations where "brand name or equal" purchase descriptions are used.

410.007 Deviations.

HCA's are designated to authorize deviations as required by FAR 10.007 and are responsible for accomplishing the actions required by FAR 10.007. Copies of the applicable documents shall be provided to the Director, Office of Operations.

PART 411—[Reserved]

PART 412—[Reserved]

SUBCHAPTER C—CONTRACTING METHODS AND CONTRACT TYPES

PART 413—SMALL PURCHASE AND OTHER SIMPLIFIED PURCHASE PROCEDURES

Subpart 413.5—Purchase Orders

413.505 Purchase order and related forms.
413.505–2 Agency order forms in lieu of Optional Forms 347 and 348.
413.505–70 AD–744, Purchase Order-Invoice-Voucher.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 413.5—Purchase Orders

413.505 Purchase order and related forms.

413.505–2 Agency order forms in lieu of Optional Forms 347 and 348.

Form AD–838, Purchase Order, is prescribed for use by USDA in lieu of Optional Forms 347 and 348.

413.505–70 AD–744, Purchase Order-Invoice-Voucher.

(a) *Prescribed form.* Form AD–744, Purchase Order-Invoice-Voucher, is prescribed for use by USDA in lieu of Standard Form 44.

(b) *Restrictions on use.* Form AD–744 shall not be used for any of the following:

(1) Purchases involving future delivery of the items purchased.

(2) As a confirming purchase order.

(3) As an order under a Blanket Purchase Agreement.

(4) Purchases from GSA or other Government agencies.

(5) Purchases for which the vendor is paid in cash or as a receipt for such purchases.

(6) Purchases which may be accomplished normally through an inprest fund transaction.

(c) *Accountability controls.* Form AD–744 shall be controlled and accounted for in accordance with the procedures established by the USDA National Finance Center.

PART 414—FORMAL ADVERTISING

Subpart 414.2—Solicitation of Bids

414.205 Solicitation mailing lists
414.205–1 Establishment of lists.

Subpart 414.4—Opening of Bids and Award of Contract

414.406 Mistakes in bids.
414.406–3 Other mistakes disclosed before award.
414.406–4 Mistakes after award.
414.407 Award.
414.407–8 Protests against award.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 414.2—Solicitation of Bids

414.205 Solicitation mailing lists.

414.205–1 Establishment of lists.

(a) Contracting offices shall notify all prospective bidders who submit Bidder's Mailing List Applications (SF–129) that they either have been added to the solicitation mailing list or do not meet the criteria for placement on the list.

(b) The issuance of a solicitation within 60 days may be considered appropriate notification.

Subpart 414.4—Opening of Bids and Award of Contract

414.406 Mistakes in bids.

414.406–3 Other mistakes disclosed before award.

(a) Contracting offices shall send all cases of mistakes in bid described in FAR 14.406–3 (a), (b), and (d) through their HCA to the Director, Office of Operations, for an administrative determination. The Director, Office of Operations, shall submit all determinations to the Assistant General Counsel, Research and Operations Division, for approval.

(b) The HCA shall make the determination described in FAR 14.406–3(c). An HCA may redelegate this authority to a level no lower than the contracting officer. Each proposed determination is subject to the approval of the Assistant General Counsel, Research and Operations Division, or the appropriate Regional Attorney or Attorney-in-Charge, whoever routinely provides legal services for the contracting office.

(c) Doubtful cases that are to be submitted to the General Accounting Office for advance decision shall be submitted through the Director, Office of Operations.

414.406–4 Mistakes after award.

If a mistake in bid is disclosed after award, the contracting officer shall make a final determination in accordance with the provisions of FAR 14.406–4 (b) and (c) and shall coordinate each proposed determination with the Assistant General Counsel, Research and Operations Division, or the Regional Attorney-in-Charge, whoever routinely provides legal services to the contracting office. Such coordination shall, at a minimum, consist of the contracting officer providing the proposed determination and the case file to the appropriate legal officer for comment.

414.407 Award.

414.407–8 Protests against award.

(a) *General.* (1) When a protest has been filed with the contracting officer, the written final decision to the protestor required by FAR 14.407–8(a)(1) shall include a paragraph substantially as follows: This decision shall be final and conclusive unless a further written notice of protest is filed with the General Accounting Office in accordance with the Bid Protest Procedures of the General Accounting Office (4 CFR Part 21).

(2) The Director, Office of Operations, is responsible for coordinating the handling of bid protests lodged with the General Accounting Office (GAO) against contracts awarded by contracting activities. The Director, Office of Operations, may authorize individual contracting activities to coordinate their bid protests directly with the GAO when it will best serve to expedite the processing time.

(3) To ensure proper resolution of bid protests, the Office of Operations and the Office of the General Counsel will provide assistance to contracting activities upon request by the contracting officer.

(b) *Notice of protest.* Upon being advised by the GAO of receipt of a protest, the Chief, Procurement Division, Office of Operations, shall inform the appropriate HCA who will promptly notify the contracting officer. Based on this advance notification, the contracting officer shall begin compiling the information necessary to prepare a report responsive to the protest. Upon receiving a copy of the protest and GAO's request for an administrative report, the Chief, Procurement Division, Office of Operations, shall promptly forward it to the appropriate contracting activity for preparation of the written report by the contracting officer.

(c) *Submission of report.* (1) Bid protests shall be handled on a priority basis. Within 25 working days after notification by the Office of Operations that a protest has been filed with the GAO, the contracting officer shall prepare a report responsive to the protest and submit it directly to the GAO. The contracting officer shall furnish copies of the report, and any subsequent submissions, to the protester and other interested parties and advise the GAO accordingly. A copy of the letter transmitting the report to the GAO shall be furnished to the Chief, Procurement Division, Office of Operations.

(2) If the contracting officer is unable to submit a timely response, the GAO shall be notified, in writing or by phone, of the delay and the expected date of submission. The Chief, Procurement Division, Office of Operations, shall be notified accordingly.

(3) The report and any additional information requested by the GAO concerning the protest should be addressed to: General Counsel, Attn: Bid Protest Unit, General Accounting Office, Washington, D.C. 20548. The report shall be appropriately titled and dated and shall include the documents and statements required by FAR 14.407–8(a)(2).

(d) *Protests before award.* If a protest before award has been lodged with the GAO and the contracting officer determines in writing that it is necesary to make award under any of the circumstances, in FAR 14.407–8(b)(4), the determination must be approved by the HCA prior to contract award.

(e) *Protests after award.* Protests received after award shall be handled in accordance with paragraphs (b) and (c) above.

PART 415—CONTRACTING BY NEGOTIATION

Subpart 415.3—Determinations and Findings To Justify Negotiations

415.307 Signatory authority.

Subpart 415.4—Solicitation and Receipt of Proposals and Quotations

415.405 Solicitations for information or planning purposes.
415.406 Issuing solicitations.
415.411 Receipt of proposals and quotations.

Subpart 415.5—Unsolicited Proposals

415.504 Advance guidance.
415.506 Agency procedures.

Subpart 415.6—Source Selection

415.607 Disclosure of mistakes before award.
415.612 Formal source selection.

Subpart 415.8—Price Negotiation

415.804 Cost or pricing data.
415.804–3 Exemptions from or waiver of submission of certified cost or pricing data.

Subpart 415.9—Profit

415.902 Policy.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).)

Subpart 415.3—Determinations and Findings To Justify Negotiation

415.307 Signatory Authority.

(a) Those individual and class determinations and findings requiring agency head signature shall be submitted to the Director, Office of Operations, for review and referral to the Assistant Secretary for Administration for approval.

(b) The HCA is authorized to make determinations and findings under FAR 15.214 to permit negotiation after advertising.

(c) The HCA is authorized to make determinations to use the authority of FAR 15.211 to negotiate when not more than $25,000 will be obligated. Determinations and findings for obligations estimated to exceed $25,000 shall be forwarded to the Director, Office of Operations, for review and referral to the Assistant Secretary for Administration for approval.

Subpart 415.4—Solicitation and Receipt of Proposals and Quotations

415.405 Solicitations for information or planning purposes.

The written determination justifying use of a solicitation for information or planning purposes required by FAR 15.405–1 shall be approved by the HCA prior to release of the solicitation.

415.406 Issuing solicitations.

Solicitations involving classified information shall be issued as prescribed in Subpart 404.4.

415.411 Receipt of proposals and quotations.

Classified proposals and quotations shall be handled as prescribed in Subpart 404.4.

Subpart 415.5—Unsolicited Proposals

415.504 Advance guidelines.

HCA's are responsible for establishing advance guidelines as required by FAR 15.504 in accordance with contracting activities' missions and programs.

415.506 Agency procedures.

HCA's are responsible for establishing the procedures for control of unsolicited proposals required by FAR 15.506(a) and

for designating the contact point required by FAR 15.506(b).

Subpart 415.6—Source Selection

415.607 Disclosure of mistakes before award.

The HCA with the concurrence of the Office of General Counsel is authorized to make the determination permitting proposal correction as required by FAR 15.607(c)(3).

415.612 Formal source selection.

(a) The HCA shall determine when a formal source selection process will be used and establish procedures for implementing the requirements of FAR 15.612.

(b) The HCA shall be the formal selection official for all negotiated contracts over $500,000.

(c) A copy of the established procedures shall be forwarded to the Director, Office of Operations.

Subpart 415.8—Price Negotiation

415.804 Cost or pricing data.

415.804–3 Exemptions from or waiver of submission of certified cost or pricing data.

The HCA is authorized to waive the requirement for submission of certified cost or pricing data as allowed by FAR 15.804–3(i).

Subpart 415.9—Profit

415.902 Policy.

(a) USDA will use a structured approach to determine the profit or fee prenegotiation objective in acquisition actions that require cost analysis based on the profit analysis factors in FAR 15.905.

(b) The following types of acquisitions are exempt from the requirements of the structured approach, but the contracting officer shall comply with FAR 15.905–1 when analyzing profit for these contracts or actions:

(1) All actions which do not require cost analysis;

(2) Architect-engineer contracts;

(3) Construction contracts;

(4) Contracts primarily requiring delivery of material supplied by subcontractors;

(5) Termination settlements;

(6) Cost-plus-award-fee contracts; and

(7) Other professional services.

(c) In developing a profit or fee objective, the contracting officer shall comply with the requirements in FAR 15.903.

(d) When profit analysis is required, any amount proposed by the prospective contractor for the cost of money for facilities capital allowable under FAR 31.205–10 shall be deducted from the prenegotiation cost base objective before calculating the profit objective.

(e) The HCA is responsible for establishing procedures to ensure compliance with this subpart.

PART 416—TYPES OF CONTRACTS

Subpart 416.2—Fixed-Price Contracts

416.203 Fixed-price contracts with economic price adjustment.
416.203–4 Contract clauses.

Subpart 416.3—Cost-Reimbursement Contracts

416.301 General.
416.301–3 Limitations.
416.306 Cost-plus-fixed-fee contracts.

Subpart 416.4—Incentive Contracts

416.403 Fixed-price incentive contracts.
416.404 Cost-reimbursement-incentive contracts.
416.404–1 Cost-plus-incentive-fee contracts.
416.404–2 Cost-plus-award-fee contracts.

Subpart 416.6—Time-and-Materials, Labor-Hour, and Letter Contracts

416.603 Letter contracts.
416.603–2 Application.

Subpart 416.7—Agreements

416.702 Basic agreements.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 416.2—Fixed-Price Contracts

416.203 Fixed-price contracts with economic price adjustment.

416.203–4 Contract clauses.

An economic price adjustment clause based on cost indexes of labor or material may be used under the conditions listed in FAR 16.203–4(d) after approval by the Director, Office of Operations, and consultation with the Office of the General Counsel.

Subpart 416.3—Cost-Reimbursement Contracts

416.301 General.

416.301–3 Limitations.

(a) Determinations and findings authorizing the use of a cost-reimbursement type contract as described in FAR 16.302 through 16.306 shall be signed by the contracting officer after compliance with the limitations in FAR 16.301–3 and 16.404, as appropriate.

(b) Prepare determination and findings substantially in accordance with the following format:

Determination and Findings

Authority to Use Cost Reimbursement-Type Contract

I hereby find that:

(1) The (contracting activity name) proposes to contract with (name of proposed contractor) for (describe work, service, or product) (identify program or project). The estimated cost is ($—) (if contract is CPFF type, insert, "plus a fixed fee of ($—) which is — percent of the estimated cost of fee").

(2) (Set forth facts and circumstances that show why it is impracticable to secure property or services of the kind or quantity required without the use of the proposed type of contract or why the proposed method of contracting is likely to be less costly than other methods.)

I hereby determine that:

On the basis of the above findings it is impracticable to secure the property or services of the kind or quality required without the use of (cost, cost-sharing, or cost-plus-a-fixed-fee) type of contract, or the (cost, cost-sharing, or cost-plus-a-fixed-fee) method of contracting is likely to be less costly than other methods.

Date:

(Signature)

416.306 Cost-plus-a-fixed-fee contracts.

The determinations and findings establishing the basis for application of the statutory fee limitation (see FAR 16.306(c)(2) and 15.903(d)) shall be signed by the contracting officer and may be combined with the determination and findings prescribed in FAR 16.301–3.

Subpart 416.4—Incentive Contracts

416.403 Fixed-price incentive contracts.

Determinations and findings authorizing the use of a fixed-price incentive contract as described in FAR 16.403–1 through 16.403–2 shall be signed by the contracting officer after compliance with the limitations in FAR 16.403(c), 16.403–1(c) and 16.403–2(c), as appropriate.

416.404 Cost-reimbursement-incentive contracts.

416.404–1 Cost-plus-incentive-fee contracts.

In accordance with 416.301–3, determinations and findings authorizing the use of a cost-plus-incentive-fee contract under FAR 16.404–1 shall be signed by the contracting officer after compliance with the limitations in FAR 16.404–1(c).

416.404–2 Cost-plus-award-fee contracts.

In accordance with 416.301–3, determinations and findings authorizing the use of a cost-plus-award-fee contract under FAR 16.404–2 shall be signed by the contracting officer after compliance with the limitations in FAR 16.404–2(c).

Subpart 416.6—Time-and-Materials, Labor-Hour, and Letter Contracts

416.603 Letter contracts.

416.603-2 Application.

The HCA is authorized to extend the period for definitization of a letter contract required by FAR 16.603-2(c) in extreme cases where it is determined in writing that such action is in the best interest of the Government.

Subpart 416.7—Agreements

416.702 Basic Agreements.

Promptly after execution by the Government, HCA's shall furnish copies of basic agreements negotiated with contractors in accordance with FAR 16.702 to the Director, Office of Operations.

PART 417—SPECIAL CONTRACTING METHODS

Subpart 417.2—Options

417.203 Solicitations.
417.206 Evaluation.

Subpart 417.4—Leader Company Contracting

417.402 Limitations.

Subpart 417.5—Interagency Acquisitions Under the Economy Act

417.502 General.

Subpart 417.6—Management and Operating Contracts

417.602 Policy.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 417.2—Options

417.203 Solicitations.

The HCA shall authorize the use of option quantities in excess of the 50 percent limitation stated in FAR 17.203(g)(2).

417.206 Evaluation.

The HCA shall make the written determination required by FAR 17.206(a).

Subpart 417.4—Leader Company Contracting

417.402 Limitations.

The HCA shall authorize the use of leader company contracting procedures in FAR Subpart 17.4.

Subpart 417.5—Interagency Acquisitions Under the Economy Act

417.502 General.

The HCA shall make the determination required by FAR 17.502.

Subpart 417.6—Management and Operating Contracts

417.602 Policy.

(a) The Assistant Secretary for Administration shall make the determination to enter into or renew any management and operating contracts as prescribed in FAR 17.602(a).

(b) Written determinations shall be prepared for the Assistant Secretary's signature and submitted by the HCA to the Director, Office of Operations, for action. The determination shall be submitted prior to solicitation for the requirement and shall:

(1) Reference the statutory authority for awarding a managment and operating contract;

(2) Discuss the relationship between the requirement and the limitations in FAR 17.603;

(3) Include a copy of the solicitation document including evaluation criteria;

(4) If non-competitive acquisition is proposed, include a copy of the justification.

(c) The HCA shall be responsible for conducting the reviews required by FAR 17.602(c).

PART 418—[RESERVED]

SUBCHAPTER D—SOCIOECONOMIC PROGRAMS

PART 419—SMALL BUSINESS AND SMALL DISADVANTAGED BUSINESS CONCERNS

Subpart 419.2—Policies.

419.201 General Policy.
419.201-70 Office of Small and Disadvantaged Business Utilization (OSDBU).
419.201-71 OSDBU coordinators.
419.201-72 Goals.
419.201-73 Reports.
419.202 Specific policies.
419.202-70 Specific policies relating to small businesses.
419.202-71 Specific policies relating to minority, disadvantaged, and women-owned businesses.

Subpart 419.5—Set-Asides for Small Business

419.506 Withdrawing or modifying set-asides.

Subpart 419.6—Certificates of Competency and Determinations of Eligibility

419.602 Procedures.
419.602-1 Referral.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 419.2—Policies

419.201 General policy.

419.201-70 Office of Small and Disadvantaged Business Utilization (OSDBU).

The Office of Small and Disadvantaged Business Utilization shall develop policy, procedures and guidelines for the effective administration of the Department's small and disadvantaged business procurement preference program to include minority and women-owned businesses. OSDBU shall also evaluate contracting activity accomplishments, objectives and procedures with respect to these programs, and recommend corrective actions for program improvement. The HCA's and Departmental staff office directors whose programs generate requirements for contract actions shall administer the Department's procurement preference program within their organizations. This responsibility may be delegated to ensure program effectiveness.

419.201-71 OSDBU coordinators.

HCA's shall designate an OSDBU Coordinator in each contracting office. In addition, Departmental staff office directors whose programs generate contracts shall designate an OSDBU Coordinator. OSDBU Coordinators shall take positive actions which will maximize contracting opportunities for small businesses, including minority and women-owned businesses. The amount of time required for the performance of functions concerning this program shall be directly related to the number and dollar value of contract awards made in each office. In addition to their regular assigned duties, it is anticipated that about 20 percent of their time should be spent as OSDBU Coordinators. Supervisors of OSDBU Coordinators are encouraged to provide time for the coordinators to perform this important function. The duties and responsibilities of the OSDBU Coordinators shall include, but not be limited to, the following:

(a) Review each proposed acquisition expected to exceed $25,000 prior to its solicitation. The Coordinator shall:

(1) Recommend section 8(a) action and identify potential contractors, or

(2) Identify available minority and women-owned businesses to be solicited by competitive procedures. Coordinators shall document the contract file with recommendations made and actions taken.

(b) Participate in goal-setting procedures and planning activities as described in 419.201-72.

(c) Ensure that the subcontracting clause entitled "Utilization of Small Business Concerns and Small Disadvantaged Business Concerns," as prescribed in FAR 19.708, is included in applicable solicitations. The coordinator shall participate in the review of those contracts which reguire the successful offeror to submit written plans for the utilization of small and small disadvantaged businesses as subcontractors.

(d) Ensure that small purchases (under $25,000) are reserved exclusively for small businesses, including minority and women-owned businesses as prescribed by FAR 13.105 and 19.506. This policy shall be implemented unless the contracting officer is unable to obtain offers from two or more small business concerns that are competitive with market prices and in terms of quality and delivery of the goods or services being purchased.

(e) Maintain comprehensive source listings of small, minority and women-owned businesses and utilize SBA's Procurement Automated Source System (PASS) and the National Minority Purchasing Council's Vendor Information Service to build and maintain these listings. Ensure that all small, minority and women-owned businesses seeking to do business are informed of the bid and proposal submission requirements, and of financial, management and technical assistance programs offered by SBA and the Minority Business Development Agency. Ensure that these firms, upon request, are directed to appropriate program and project personnel.

(f) Upon written request, provide small, minority and women-owned businesses the bidders mailing lists of individuals receiving solicitations which will contain the subcontracting clause entitled "Utilization of Small Business Concerns and Small Disadvantaged Business Concerns." These lists may be limited to those supplies or services of major interest to the requesting firms.

(g) Develop a program of contacts with local, small, minority, and women-owned trade, business, and professional associations and organizations and Indian tribal councils to apprise them of the Department's program needs and recurring contract requirements.

(h) Actively participate in the programs and activities of the local Minority Business Opportunity Committees (MBOC) and assist the Minority Business Development Centers (MBDC), where applicable. Become aware of and participate in locally sponsored workshops, conferences, trade fairs, etc., which are held to apprise small, minority and women-owned firms about current and projected contracting opportunities.

(i) Periodically meet with program managers to discuss the section 8(a), small, minority and women-owned business programs and the impact which their requirements can have to achieve progress. Explore the feasibility of breaking large complex requirements into smaller lots suitable for participation by small, minority and women-owned firms. Encourage program managers to meet with these firms so that their capabilities can be demonstrated.

(j) Establish internal operating procedures which implement the requirements of the regulations as set forth in this Part 419. Compile data and prepare all reports pertaining to the small, minority and women-owned business activities. Ensure that these reports are accurate, complete and up-to-date.

419.201-72 Goals.

(a) The Department is required by Pub. L. 95-507, Section 221, Executive Order 12138 (May 18, 1979) and Executive Order 12073 (August 16, 1978) to establish fiscal year goals for the procurement preference programs. Goals shall be reviewed and approved by the Director, Office of Small and Disadvantaged Business Utilization (OSDBU). HCA's and staff office directors whose programs generate contract requirements shall submit to the Director, OSDBU, the following data no later than August 1 of each fiscal year:

(1) An estimate of the total dollar amount of all prime contracts regardless of dollar value to be awarded during the fiscal year, including awards to non-profit organizations, educational institutions, all transportation services and real property leases. Do not include foreign military sales, contracts to be awarded and performed entirely outside the United States and Federal Supply Schedule orders;

(2) An estimate of the total dollar value of all prime contracts having a value of $25,000 or more to be awarded during the fiscal year, including contracts to non-profit organizations, educational institutions, all transportation services and real property leases. Do not include foreign military sales, contracts to be awarded and performed entirely outside the United States and Federal Supply Schedule orders;

(3) A goal for prime contract awards valued at $25,000 or more to be made to small business concerns during the fiscal year, expressed in dollars and as a percentage of paragraph (a)(2) of this section;

(4) A goal for prime contract awards to be made to the Small Business Administration under the authority of Section 8(a) of the Small Business Act, as amended, expressed in dollars and as a percentage of paragraph (a)(1) of this section;

(5) A goal for prime contract awards valued at $25,000 or more to be made to small business concerns owned and controlled by socially and economically disadvantaged individuals, expressed in dollars and as a percentage of paragraph (a)(2) of this section;

(6) A goal for prime contract awards to be made to small business concerns owned and controlled by women, expressed in dollars and as a percentage of paragraph (a)(1) of this section;

(7) A goal for prime contract awards to business concerns in Labor Surplus Areas (LSA) on the basis of set-asides, expressed in dollars and as a percentage of paragraph (a)(1) of this section. (This includes all categories of LSA set-asides authorized by Pub. L. 96-302);

(8) An estimate of the total dollar amount of subcontracts to be awarded by "reporting prime contractors" (as identified in Standard Form 295) during the fiscal year;

(9) A goal for subcontracts to be awarded by prime contractors to small business concerns, expressed in dollars and as a percentage of paragraph (a)(8) of this section; and

(10) A goal for subcontracts to be awarded by prime contractors to small business concerns owned and controlled by socially and economically disadvantaged individuals, expressed in dollars and as a percentage of paragraph (a)(8) of this section.

(b) The information developed in paragraph (a) shall include a detailed written presentation of the method used to establish the estimates and goals submitted pursuant to paragraphs (a) (1) through (10) of this section, along with copies of the historical, empirical data upon which the estimates and goals are based. Information about the types, kinds and amounts of goods and services brought and the numbers and types of contracts involved in the estimates submitted pursuant to paragraphs (a) (3) through (10) of this section is required. This information is needed to realistically evaluate the estimates and the goals related thereto. In establishing subcontracting goals, identification and justification should be provided for each class of contracts and the projected total value thereof determined to have little or no subcontract possibilities. Similarly, in

establishing goals for prime contract awards to small or small disadvantaged firms, contracts which have no potential for award to such firms, including the projected value thereof, should be identified.

(c) All goals are expressed in terms of dollars and percentages. However, if there is any significant variance, up or down, from the estimates in paragraph (a) (1) or (2) of this section, upon which the goals are established, the percentage goal is the controlling factor and will be used to measure actual attainment.

(d) Section 221 of Pub. L. 95–507 reserves all small purchases with certain exceptions for small business and requires that goals be established for awards over $25,000 to small and small disadvantaged business. Thus, the goals under paragraphs (a) (3) and (5) of this section do not include awards under $25,000.

419.201–73 Reports.

(a) The Director, OSDBU, shall be responsible for submitting reports concerning the Department's progress and achievements in the procurement preference program. Data for these reports shall be obtained from the USDA Procurement Reporting System (UPRS). Subcontracting data, however, cannot be retrieved from UPRS and shall be reported in accordance with paragraph (b) of this section.

(b) Contracting activities shall collect, summarize, and submit subcontracting data elements to the Director, OSDBU. The data are to be reported quarterly for other than commercial products and annually for commercial products for contract awards in excess of $500,000 ($1 million for construction). Reports shall be submitted each quarter in the format of the Standard Form 295. An additional data form will be required in the fourth quarter for the annual report on commercial products. To ensure accurate and timely reporting, contracting activities shall perform the following:

(1) Submit the SF–295 on a contractor-by-contractor basis 30 calendar days following the end of the first, second, and third quarters and 45 days following the end of the fourth quarter.

(2) Edit all forms (data) prior to their submission. Forms must be completed in all fields of the "Cumulative Commitments" and "Subcontract Goal Achievement." OSDBU will not assume that a blank field is a zero. Forms not fully completed will be returned. Contracting officers should communicate with the prime contractor's representative to ensure that consistent, accurate and timely data are submitted.

(3) In the "Cumulative Commitment" block, many contractors are reporting each quarter only those awards occuring in that quarter. OSDBU will return quarterly reports on which the awards reported are less than those submitted on the previous quarter of the same fiscal year. Totals must add up to exactly 100 percent. The sum of line 9 must be the sum only of lines 9a and 9b. All dollar figures should be in whole numbers and not in thousands.

(4) In the "Subcontract Goal Achievement" block, the column headed "No. of Contracts" must reflect the number of contracts and subcontracts valued over $500,000 ($1 million for construction) which have subcontracting plans and goals. Delete the three zeros (000) in the "$ Value of Subcontracts" column. The percentage of actual goal achievement reported on line 12b must always be 100 percent or higher and on line 12c must always be lower than 100 percent. The same applies for lines 13b and 13c.

(5) Items in lines 12 and 13 do not apply to company-wide annual subcontracting plans for commercial products. Accomplishments for these type plans are reported in line 14. The information reported must summarize all Federal contracts for commercial products performed during the year and the share of the total attributable to USDA from which contracts for such commercial products were received

(c) Explanatory comments concerning shortfalls in meeting procurement preference program goals established in accordance with 419.201–72 shall be summitted to the Director, OSDBU. Reports may be submitted in a narrative format and shall contain appropriate justifications for the goal shortfall(s). Achievements shall be based upon official AD–760 and SF–281 data as recorded in UPRS. Reports shall be submitted no later than November 20 of each fiscal year.

419.202 Specific policies.

419.202–70 Specific policies relating to small businesses.

OSDBU Coordinators shall take positive actions to ensure maximum participation of small business concerns in proposed acquisitions. These actions shall include:

(1) Developing a plan of operation to increase the share of contracts awarded to small business and LSA concerns;

(2) Reviewing the types and classes of items and services to be purchased to determine the applicability of small business and LSA set-aside priorities prescribed in 419.504(a);

(3) Developing adequate small business and/or LSA competition on all appropriate contract requirements;

(4) Making maximum utilization of SBA's Procurement Automated Source System (PASS) when considering contract requirements;

(5) Ensuring that specifications are not restrictive, thereby enabling small business participation;

(6) Assisting and counseling small business firms and especially those found to be nonresponsive or nonresponsible to help qualify them for future awards;

(7) Reviewing proposed large contract requirements to determine the potential for breaking out components suitable for purchase from small business firms or LSA concerns; and

(8) Ensuring that the SBA Resident Procurement Center Representative (PCR) is provided an opportunity and reasonable time to review any solicitation that meets the dollar threshold for small business and small disadvantaged business subcontracting plans.

419.202–71 Specific policies relating to minority, disadvantaged, and women-owned businesses.

OSDBU Coordinator shall take positive action to ensure maximum participation of minority business enterprises, including women-owned, in proposed acquisitions. These actions shall include:

(a) Establishing aggressive minority and women-owned business goals based on the annual review of advance acquisition plans. These goals shall be submitted in accordance with 419.201–72.

(b) Attempting to direct those contracting requirements to the 8(a) program which match the abilities of the minority contractors located in the area where the contract will be performed.

(1) Recurring requirements should not be assigned to the 8(a) program, without consulting SBA, when small businesses are dependent in whole or in significant part on such Government requirements. However, this does not mean that a segment of a requirement could not be assigned to the 8(a) program.

(2) The SBA publication "Firms in the 8(a) Business Development Program" should be used as an aid in locating eligible contractors.

(3) Field personnel should be encouraged to locate and contact minority contractors for possible 8(a) participation. These contractors should be directed to the nearest District or Regional Office of SBA to make application for certification.

(c) Fully utilizing available minority and women-owned vendor listings, directories and query systems to ensure that eligible and qualified minority and women-owned business enterprises are included on bidders mailing lists and source lists.

(d) Nominating OSDBU Coordinators for appointment by the HCA at each contracting office. Duties of these coordinators shall be in accordance with 419.201–71.

(e) Providing training opportunities for all personnel involved in carrying out the Department's minority and women-owned business enterprise program.

(f) Preparing plans for the utilization of minority and women-owned business enterprises. These plans may be in the form of standard operating procedures, and they are to be followed by all personnel involved in carrying out this program.

Subpart 419.5—Set-Asides for Small Business

419.506 Withdrawing or modifying set-asides.

Disagreements between the contracting officer and OSDBU Coordinator concerning withdrawals or modifications of individual or class set-asides shall be forwarded to the HCA for resolution. The OSDBU Coordinator shall provide timely notification of such disagreements to the OSDBU in order to afford them an opportunity to provide assistance in resolving the dispute.

Subpart 419.6—Certificates of Competency and Determinations of Eligibility

419.602 Procedures.

419.602–1 Referral.

Contracting officers shall refer determinations of non-responsibility regarding small businesses directly to the SBA Regional Office servicing the location where the contractor's office (home) is located. This referral shall consist of the documents described in FAR 19.602–1(c).

PART 420—LABOR SURPLUS AREA CONCERNS

Subpart 420.1—General

420.170 Labor surplus area performance and goals.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 420.1—General

420.170 Labor surplus area performance and goals.

(a) Construction and other "site-specific" contract requirements are applicable to labor surplus area set-asides. Contracts which are restricted to labor surplus area concerns shall be recorded in fulfillment of labor surplus area goals.

(b) Contracts awarded under priorities (1), (3) and (5) of FAR 19.504(a) shall be recorded in fulfillment of labor surplus area goals. Contracting activities shall not record noncompetitive 8(a) contracts, purchases from blind and handicapped workshops, and purchases from Federal Prison Industries toward their LSA goals. However, contracts may be counted toward LSA goals whenever there is competition among firms in labor surplus areas which are also in the 8(a) Program.

(c) Small business-small purchase set-asides accomplished under the procedures in FAR 13.105 shall be counted toward fulfillment of LSA goals. The clause requiring firms to perform as LSA concerns shall be included in the purchase order or other purchase document. In addition, the following statement should be included in the SF–18, when applicable: "This request is restricted to small business (and labor surplus area firms)." The contracting officer shall document a firm's acceptance of the LSA provisions whenever solicitations are conducted orally.

(d) LSA goals shall be established in accordance with the provisions of 419.201–72.

PART 421—[RESERVED]

PART 422—APPLICATION OF LABOR LAWS TO GOVERNMENT ACQUISITIONS

Subpart 422.1—Basic Labor Policies

422.103 Overtime.
422.103–4 Approvals.

Subpart 422.6—Walsh-Healy Public Contracts Act

422.604 Exemptions.
422.604–2 Regulatory exemptions.
422.608 Procedures.
422.608–4 Award pending final determination.

Subpart 422.8—Equal Employment Opportunity

422.803 Responsibilities.
422.804 Affirmative action programs.
422.804–2 Construction.
422.805 Procedures.
422.807 Exemptions.

Subpart 422.10—Service Contract Act of 1965

422.1003 Applicability.
422.1007 Notice of intention to make a service contract.
422.1011 Hearings.

Subpart 422.13—Special Disabled and Vietnam Era Veterans

422.1303 Waivers.
422.1306 Complaint procedures.

Subpart 422.14—Employment of the Handicapped

422.1403 Waivers.
422.1406 Complaint procedures.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 422.1—Basic Labor Policies

422.103 Overtime.

422.103–4 Approvals.

Requests for the use of overtime shall be approved at a level above the contracting officer in accordance with the procedures in FAR 22.103–4.

Subpart 422.6—Walsh-Healy Public Contracts Act

422.604 Exemptions.

422.604–2 Regulatory exemptions.

The Assistant Secretary for Administration can request the Secretary of Labor to exempt contracts from the Walsh-Healy Public Contracts Act pursuant to FAR 22.604–2(c). A written finding justifying the request for exemption shall be prepared for the Assistant Secretary's signature and submitted by the HCA to the Director, Office of Operations, for referral to the Assistant Secretary.

422.608 Procedures.

422.608–4 Award pending final determination.

The HCA is delegated authority to approve the contracting officer's certification for award required by FAR 22.608–4.

SUBPART 422.8—Equal Employment Opportunity

422.803 Responsibilities.

The contracting officer shall submit questions involving the applicability of EO 11246 and FAR Subpart 22.8 through the HCA to the Director, Office of Operations, for resolution.

422.804 Affirmative action programs.

422.804–2 Construction.

The HCA shall ensure that each contracting office awarding nonexempt construction contracts maintains a current listing of covered geographical areas subject to affirmative action requirements specifying goals for minorities and women in covered construction trades.

422.805 Procedures.

(a) The contracting officer shall submit requests for preaward reviews directly to the appropriate OFCCP regional office in accordance with FAR 22.805(a) (4) and (5).

(b) The contracting officer shall obtain copies of the poster "Equal Opportunity is the Law" (OFCCP 1420), from the nearest regional GSA supply depot using stock NO. 769000–926–8988.

422.807 Exemptions.

(a) The Assistant Secretary for Administration is authorized to make the determination in FAR 22.807(a)(1) that a contract is essential to the national security.

(b) The contracting officer shall submit request for exemptions under FAR 22.807(a)(1), (a)(2), and (b)(5) through the HCA to the Director, Office of Operations, for determination by the Assistant Secretary for Administration or referral to the Director, OFCCP, as appropriate.

Subpart 422.10—Service Contract Act of 1965

422.1003 Applicability.

The contracting officer shall submit requests for determinations regarding application of the Service Contract Act and exemptions to the HCA for referral to the Department of Labor (DOL), Wage and Hour Administrator.

422.1007 Notice of intention to make a service contract.

The contracting officer shall contact the DOL, Wage and Hour Division, directly when expediting wage determinations or checking the status.

422.1011 Hearings.

The contracting officer shall submit a request for a hearing in accordance with FAR 22.1011 to the HCA for referral to the DOL, Office of Government Contract Wage Standards, for determination.

Subpart 422.13—Special Disabled and Vietnam Era Veterans

422.1303 Waivers.

(a) The Assistant Secretary for Administration is authorized to make the waiver determination under FAR 22.1303(a), and under FAR 22.1303(b) with concurrence of the Director, OFCCP.

(b) The contracting office shall submit requests for waivers through the HCA to the Director, Office of Operations.

422.1306 Complaint procedures.

The contracting officer shall forward complaints received about the administration of the Vietnam Era Veterans Readjustment Assistance Act of 1972 directly to the DOL as prescribed in FAR 22.1306.

Subpart 422.14—Employment of the Handicapped

422.1403 Waivers.

(a) The Assistant Secretary for Administration is authorized to make the waiver determinations under FAR 22.1403(a), and under FAR 22.1403(b) with concurrence of the Director, OFCCP.

(b) The contracting officer shall submit requests for waivers through the HCA to the Director, Office of Operations.

422.1406 Complaint procedures.

The contracting officer shall forward complaints received about the administration of Section 503 of the Rehabilitation Act of 1973, as amended, directly to the OFCCP as prescribed in FAR 22.1406.

PART 423—ENVIRONMENT, CONSERVATION, AND OCCUPATIONAL SAFETY

Subpart 423.1—Pollution Control and Clean Air and Water

423.104 Exemptions.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 423.1—Pollution Control and Clean Air and Water

423.104 Exemptions.

(a) Requests for exemption shall be submitted to the Director, Office of Operations. The Office of Operations will coordinate review of the request with the appropriate staff and program officer and submit the request to the Assistant Secretary for Administration for decision.

(b) The Office of Operations shall notify the Environmental Protection Agency upon the granting of an individual exemption, and shall consult with the Environmental Protection Agency in advance of the granting of any class exemption.

PART 424—PROTECTION OF PRIVACY AND FREEDOM OF INFORMATION

Subpart 424.2—Freedom of Information Act

424.202 Policy.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 424.2—Freedom of Information Act

424.202 Policy.

USDA implementation of the Freedom of Information and Privacy Acts is found in 7 CFR, Subtitle A, Part 1, Subparts A and G, respectively. Contracting officers shall follow these regulations when responding to requests for information or awarding contracts that will involve the design, development, or operation of a system of records on individuals to accomplish agency function.

PART 425—FOREIGN ACQUISITION

Subpart 425.1—Buy American Act—Supplies

425.102 Policy.
425.105 Evaluating offers.
425.108 Excepted articles, materials and supplies.

Subpart 425.2—Buy American Act—Construction Materials

425.202 Policy.
425.203 Evaluating offers.
425.204 Violations.

Subpart 425.3—Balance of Payments Program

425.302 Policy.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 425.1—Buy American Act—Supplies

425.102 Policy.

(a) The Assistant Secretary for Administration shall make the determination prescribed in FAR 25.102(a)(3).

(b) The HCA shall make the determination prescribed in FAR 25.102(a)(4) in accordance with 425.108.

425.105 Evaluating offers.

(a) FAR 25.105 provides that the price of a domestic end product is unreasonable if it exceeds specified percentages. The FAR, however, permits the agency head to determine that offers above these percentages are acceptable.

(1) Contracting officers who determine it is in the best interest of the Government to award a contract to a domestic firm whose offer exceeds the percentages specified in FAR 25.105(a) (1) and (2) may do so only with approval of the Assistant Secretary for Administration.

(2) Requests for approval must:

(i) Be directed to the Director, Office of Operations, by the HCA;

(ii) Be in writing; and

(iii) Provide a detailed justification for the reasonableness of the domestic offer.

(b) If an award of more than $250,000 would be made to a domestic concern if the 12 percent factor were applied, but not if the 6 percent factor were applied, the Assistant Secretary for Administration shall decide whether award to the domestic concern would involve unreasonable cost. The HCA shall refer such proposed awards to the

Director, Office of Operations, for coordination of the necessary approval.

425.108 Excepted articles, materials, and supplies.

(a) The HCA shall determine if articles, materials, and supplies should be added to or deleted from the list in FAR 25.108(d)(1). The HCA shall provide a copy of all such determinations to the Director, Office of Operations.

(b) The Director of the Office of Operations shall submit a copy of each determination to the FAR Council in accordance with FAR 25.108 (b) and (c).

Subpart 425.2—Buy American Act—Construction Materials

425.202 Policy.

(a) The Assistant Secretary for Administration shall make the determination prescribed in FAR 25.202(a)(2).

(b) The HCA shall make the determination prescribed in FAR 25.202(a)(3) in accordance with the procedures in 425.108.

(c) The HCA shall make the determination prescribed in FAR 25.202(b).

425.203 Evaluating offers.

The Assistant Secretary for Administration may determine that the use of a particular domestic construction material would be impracticable or unreasonably increase the cost of the contract. If the Assistant Secretary makes such a determination, the restrictions of the Buy American Act shall be waived for that material for the contract in question.

(a) If a contracting officer determines that the use of a particular domestic construction material should be waived for a contract, the contracting officer shall submit the proposed award and the information prescribed in FAR 25.203(b) through the HCA to the Director, Office of Operations.

(b) The Director, Office of Operations, shall evaluate all waiver requests and make a recommendation for approval or disapproval to the Assistant Secretary for Administration.

425.204 Violations.

Contracting officers shall, in accordance with the debarment procedures prescribed in 409.4, refer all violations of the clause found in FAR 52.225–5 to the Department Debarring Officer for possible debarment action.

Subpart 425.3—Balance-of-Payments Program

425.302 Policy.

The HCA shall make the determinations prescribed in FAR 25.302(b) (2) and (3) and may authorize differentials greater than 50 percent as prescribed in FAR 25.302(c).

PART 426—[RESERVED]

SUBCHAPTER E—GENERAL CONTRACTING REQUIREMENTS

PART 427—[RESERVED]

PART 428—BONDS AND INSURANCE

Subpart 428.1—Bonds

428.102–3 Solicitation requirements.

Subpart 428.2—Sureties

428.203 Options in lieu of sureties.

Subpart 428.3—Insurance

428.370 Government-owned vehicles operated in foreign countries.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 428.1—Bonds

428.102–3 Solicitation requirements.

(a) When a performance or payment bond is required, the contracting officer shall insert the clause at 452.228–70, Notice of Required Bid Security.

(b) When a performance bond is required, the contracting officer shall insert the clause at 452.228–71, Notice of Required Performance Security.

(c) When a payment bond is required, the contracting officer shall insert the clauses at 452.228–72, Notice of Required Payment Security.

Subpart 428.2—Sureties

428.203 Options in lieu of sureties.

HCA's shall establish procedures to ensure protection and conveyance of deposited securities of the types listed in FAR 28.203–1 and 28.203–2.

Subpart 428.3—Insurance

428.370 Government-owned vehicles operated in foreign countries.

The Department is authorized to obtain insurance to cover liability incurred by any of its employees while acting within the scope of their employment and operating a Government-owned vehicle in a foreign country. (7 U.S.C. 2262).

PART 429—[RESERVED]

PART 430—COST ACCOUNTING STANDARDS

Subpart 430.3—CAS Contract Requirements

430.304 Waiver.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 430.3—CAS Contract Requirements

430.304 Waiver.

(a) The Director, Office of Operations, is authorized to waive CASB requirements as prescribed in FAR 30.304(c).

(b) Requests for waivers under (a) above shall be prepared by the contracting officer as prescribed in FAR 30.304(a) and submitted by the HCA.

PART 431—[RESERVED]

PART 432—CONTRACT FINANCING

Subpart 432.4—Advance Payments

432.402 General.

Subpart 432.5—Progress Payments Based on Costs

432.502 Preaward matters.

432.502–2 Contract finance office clearance.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 432.4—Advance Payments

432.402 General.

The HCA is designated as the individual responsible for making the findings and determination and for approval of contract terms concerning advance payments as required by FAR 32.402(e).

Subpart 432.5—Progress Payments Based on Costs

432.502 Preaward matters.

432.502–2 Contract finance office clearance.

The contracting officer shall obtain the approval of the HCA and the cognizant finance office for the contract before taking action under FAR 32.502–2.

PART 433—DISPUTES AND APPEALS

433.003 Applicability.

433.003–70 Agriculture Board of Contract Appeals.

433.009 Suspected fraudulent claims.

433.011 Contracting officer's decision.

433.012 Contracting officer's duties upon appeal.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

433.003 Applicability.

(a) The Assistant Secretary for Administration is authorized to

determine the applicability of the Contract Disputes Act to contracts with foreign governments pursuant to FAR 33.003.

(b) A written determination shall be prepared for the Assistant Secretary's signature and submitted by the HCA to the Director, Office of Operations, for review and referral to the Assistant Secretary.

433.003–70 Agriculture Board of Contract Appeals.

The Agriculture Board of Contract Appeals (AGBCA) is authorized by the Secretary of Agriculture to hear, consider and determine appeals by contractors from decisions of USDA contracting officers under a contract or relating to a contract made by the Department or by any other executive agency when such agency or the Administrator for Federal Procurement Policy has designated the Board to decide the appeal. All appeals brought before the Board are subject to the AGBCA Rules of Procedure in 7 CFR, Part 24.

All correspondence and documents to be filed with the Board should be addressed to the Board of Contract Appeals, U.S. Department of Agriculture, Washington, D.C. 20250.

433.009 Suspected fraudulent claims.

The contracting officer shall refer all matters related to suspected fraudulent claims by a contractor under the conditions in FAR 33.009 to the Office of the Inspector General for further action or investigation.

433.011 Contracting officer's decision.

The contracting officer's decision under FAR 33.011(a)(4) shall include the Board or Contract Appeals' mailing address and rules of procedure citation as referenced in 433.003–70.

433.012 Contracting officer's duties upon appeal.

Once notified by the AGBCA of an appeal, the contracting officer shall provide data, documentation, information, and support in accordance with the AGBCA Rules of Procedure, 7 CFR, 24.9.

SUBCHAPTER F—SPECIAL CATEGORIES OF CONTRACTING

PART 434—MAJOR SYSTEM ACQUISITION

434.001 Implementation.
434.002 Policy.
434.003 Responsibilities.
434.004 Acquisition strategy.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

434.001 Implementation.

(a) *Definition.* For the purpose of applying the policy and procedures of OMB Circular No. A–109 within the USDA, the definition of a major system contained in the Circular is to be followed subject to the following:

(1) All system acquisitions which are expected to result in at least 50 million dollars of acquisition costs with private industry are considered to be major system acquisitions and are subject to the requirements of OMB Circular No. A–109.

(2) Other system acquisitions not expected to result in acquisition costs in excess of this 50 million dollar limit may be specifically designated as major system acquisitions subject to A–109 by the USDA Acquisition Executive.

(3) Classification as a major system acquisition is independent of the number of component USDA contracting activities involved in the process. A major system acquisition may occur entirely within the jurisdiction of a single contracting activity or may involve more than one component USDA contracting activity.

(4) The Major Missions of USDA are documented in the USDA Program Structure Dictionary. All major system acquisitions will be in response to a "need" of one of these Major Missions.

(b) *Exemption.* Acquisition of major ADP systems which would otherwise be subject to the requirements of this section and OMB Circular A–109 are exempted from these requirements. USDA has other existing controls which provide the necessary reviews, approval and monitoring procedures to manage major ADP systems acquisitions.

434.002 Policy.

USDA concurs with the objecives of OMB Circular A–109 to assure effectiveness and efficiency in acquiring major systems and also views the guidelines stated in A–109 as necessary steps in the acquisition of any system, be it major or otherwise. The steps outlined in the Circular should serve as a guide to all contracting activities in the planning and developing of all systems. These steps should include:

(a) Expressing needs in "mission terms" to encourage innovation;

(b) Emphasizing initial activities of the system acquisition process;

(c) Communicating with Congress at an early stage;

(d) Establishing clear lines of authority, responsibility, and accountability;

(e) Designating focal points for integration and unification of activities; and

(f) Relying on private industry in accordance with the policies established by OMB Circular No. A–76.

434.003 Responsibilities.

(a) The Secretary of Agriculture is charged by OMB Circular No. A–109 with the responsibility for making four key decisions in each major system acquisition process. These are summarized in paragraph nine of the Circular and elaborated in paragraphs ten through thirteen.

(b) The key executives of USDA, i.e., the Secretary, Deputy Secretary, Under Secretaries, and Assistant Secretaries, individually or as a group, will participate in the identification and definition of specific mission needs to be fulfilled in USDA and in the assignment of priorities to these needs. They will also be involved in assisting the Secretary in making the "key decisions" identified in A–109.

(c) The Assistant Secretary for Administration has been designated by the Secretary to be the Departmental Acquisition Executive. The Assistant Secretary will assure that OMB Circular No. A–109 is implemented in USDA and ensure that the management objectives of the Circular are realized. The Acquisition Executive is responsible for designating the program manager for each Major System Acquisition designating any acquisition in the Department as a Major System Acquisition and approving the written charter and project control system for each Major System Acquisition.

(d) The Office of Operations will serve as the cognizant staff office in assisting the Assistant Secretary for Administration in carrying out the above responsibilities. The Office of Operations will access the budget development and review process to identify potential major system acquisitions and bring them to the attention of the Assistant Secretary.

(e) HCA's must:

(1) Become familiar with the requirements of OMB Circular No. A–109 and ensure that contracting activity personnel are knowledgeable regarding the Circular.

(2) Take such steps as are necessary to ensure that all potential Major System Acquisitions are brought to the attention of the Acquisitions Executive.

(3) Recommend qualified candidates for designations as program managers for each major system acquisition within their jurisdictions.

(4) Ensure that program managers fulfill their responsibilities and discharge their duties.

(5) Cooperate with the Assistant Secretary for Administration and the Office of Finance and Management in implementing the requirements of the Circular.

(6) Adhere to the principles outlined in the Circular with regard to all major system acquisitions.

(7) Use the principles outlined in the Circular as a guideline for other acquisitions.

(f) Program Managers will:

(1) Plan and carry out the proposed objective of the Major System Acquisition.

(2) Schedule and monitor all aspects of the projects using an appropriate project control system.

(3) Provide analysis papers to recommend decisions to the key executives of USDA and the Secretary.

(4) Document USDA compliance with A–109.

434.004 Acquisition strategy.

(a) The Program Manager will assume operational responsibility for the planning and execution of the Major System Acquisition upon designation by the Acquisition Executive.

(b) The Program Manager will work closely with the Acquisition Executive to develop a written charter outlining the authority, responsibility, accountability, and budget for accomplishing the proposed objective.

(c) The Program Manager will develop a project control system to schedule, monitor, and regularly report on all aspects of the project. The control system will be presented to the Acquisition Executive for approval. In developing the control system, the Program Manager shall provide for appropriate reporting periods and for checkpoints consistent with the "key decisions" Section No. 9 of OMB Circular No. A–109.

(d) Upon initiation of the project, the Program Manager will report regularly (at least monthly) to the Acquisition Executive on the progress achieved to that point. The reports shall include information with regard to the requirements of OMB Circular No. A–109 and how the objectives of the Circular have been realized to present time. Also, the reports shall contain a statement as to what is planned for the next reporting period both in terms of the project itself and the requirements of A–109.

(e) As each "key decision" point is reached, the Program Manager will prepare detailed analysis, findings and recommendations to be submitted, through the Acquisition Executive, to the key executives in the Department. The program manager shall also prepare additional reports and documentation as requested by the key executives.

(f) The Program Manager will work closely with the Director, Office of Finance and Management, with regard to budgeting and financing for the system and will provide the necessary information to OMB and Congress as required by Circular A–109.

PART 435—RESEARCH AND DEVELOPMENT CONTRACTING

435.010 Scientific and technical reports.
435.015 Contracts for research with educational institutions and nonprofit organizations.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

435.010 Scientific and technical reports.

(a) Pursuant to FAR 35.010(b), research and development contracts shall contain a provision requiring that the contractor send copies of all scientific and technical reports to the National Technical Information Service (303Y), Department of Commerce, 5285 Port Royal Road, Springfield, VA 22161.

(b) The release of research and development contract results to other Government activities and to the private sector is subject to the provisions of FAR Subject 4.4

435.015 Contracts for research with educational institutions and nonprofit organizations.

(a) Promptly after execution of a basic agreement for research and development with an educational institution or nonprofit organization, the HCA shall furnish a copy of the agreement to the Director, Office of Operations.

(b) The Director, Office of Operations, shall furnish the list required under FAR 35.015(b)(3) to the FAR Secretariat.

PART 436—CONSTRUCTION AND ARCHITECT-ENGINEER CONTRACTS

Subpart 436.2—Special Aspects of Contracting for Construction

436.201 Evaluation of contractor performance.
436.209 Construction contracts with architect-engineer firms.

Subpart 436.3—Special Aspects of Formal Advertising in Construction Contracting

436.370 Additive or deductive items.

Subpart 436.5—Contract Clauses

436.570 Prohibition against use of lead-based paint.

Subpart 436.6—Architect-Engineer Services

436.602 Selection of firms for achitect-engineer contracts.
436.602–1 Selection criteria.
436.602–2 Evaluation boards.
436.602–3 Evaluation board functions.
436.602–4 Selection authority.
436.602–5 Short selection processes for contracts not to exceed $10,000.
436.603 Collecting data on and appraising firms' qualifications.
436.604 Performance evaluation.
436.606 Negotiations.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 436.2—Special Aspects of Contracting for Construction

436.201 Evaluation of contractor performance.

(a) HCA's shall establish procedures to evaluate construction contractor peformance including instructions for review of the evaluation report (SF–1420) as prescribed in FAR 36.201 and 36.701(e).

436.209 Construction contracts with architect-engineer firms.

(a) As required by FAR 36.209, no contract for construction of a project shall be awarded to the firm that designed the project or its subsidiaries or afffiliates without the written approval of the Director, Office of Operations.

(b) Requests for approval under (a) above shall be made by the HCA to the Director, Office of Operations. The request shall include the reason(s) why award to the design firm is required; an analysis of the facts involving potential or actual organizational conflicts of interest including benefits and detriments to the Government and the prospective contractor; and the measures which are to be taken to avoid, neutralize, or mitigate conflicts of interest.

Subpart 436.3—Special Aspects of Formal Advertising in Construction Contracting

436.370 Additive or deductive items.

(a) When it appears that funds available for a project may be insufficient for all the desired features of construction, the contracting officer may provide in the solicitation for a base bid item covering the work generally as specified and for one or more additive or deductive bid items which progressively add or omit specified features of the work in a stated order or priority. In such case, the invitation shall include a provision substantially as set forth in 452.236–71, and the low bidder and the bid items to be awarded shall be determined as therein provided.

Subpart 436.5—Contract Clauses

436.570 Prohibition against use of lead-based paint.

(a) *Policy.* The Lead-Based Paint Poisoning Prevention Act, as amended by the National Consumer Health Information and Health Promotion Act of 1976 (42 U.S.C. 4831), prohibits the use of lead-based paint in Federal or Federally-assisted construction or rehabilitation of residential structures. Implementing regulations of the Secretary of Housing and Urban Development under 24 CFR Part 35 requires agencies to include appropriate provisions in contracts or subcontracts for construction or rehabilitation of residential structures.

(b) *Definitions.* As used in this section, "residential structure" means any house, apartment, or structure intended for human habitation including any institutional structure where persons reside such as an orphanage, boarding school dormitory, day care center, or extended care facility.

(c) *Procedures.* The contracting officer shall insert the clause at 452.236–70, Prohibition Against Use of Lead-Based Paint, in solicitations and contracts when construction of residential structures or rehabilitation (including dismantling, demolition, or removal) of residential structures is contemplated.

Subpart 436.6—Architect-Engineer Services

436.602 Selection of firms for architect-engineer contracts.

436.602–1 Selection criteria.

(a) In addition to the selection criteria under FAR 36.602–1(a), the following criteria shall be used in the evaluation of each potential contractor when applicable to a particular acquisition:

(1) Computer-assisted design capability and capacity (where such design is required).

(2) Adequacy of facilities for performance of the work including those necessary to provide specialized services that may be required.

(3) Volume and nature of present workload as it relates to the ability to perform the work required.

(4) Experience and qualifications of proposed key personnel including specialized technical skills, project coordination and management skills, and experience in working together as a team.

(5) Availability of additional contractor personnel or consultants to support expansion or acceleration of the project.

(6) Other specific criteria as may be required.

(b) HCA's are authorized to approve the use of design competition under the conditions in FAR 36.602–1(b).

436.602–2 Evaluation boards.

HCA's shall establish procedures for providing permanent or ad hoc architect-engineer evaluation boards as prescribed in FAR 36.602–2. Procedures may provide for the appointment of private practitioners of architecture, engineering, or related professions when such action is determined by the HCA to be essential to meet the Government's minimum needs.

436.602–3 Evaluation board functions.

(a) Firms shall be evaluated in accordance with the criteria in 436.601–1, as applicable, as well as the criteria in FAR 36.602–1.

(b) The selection report required in FAR 36.602–3(d) shall be prepared for the approval of the HCA. The HCA may authorize an acquisition official above the level of the contracting officer to execute the required approval.

436.602–4 Selection authority.

The HCA shall serve as the selection authority in accordance with FAR 36.602–4. The HCA may authorize an acquisition official above the level of the contracting officer to serve as the selection authority.

436.602–5 Short selection processes for contracts not to exceed $10,000.

The selection process prescribed in FAR 36.602–5(a) shall be used for architect-engineer contracts not expected to exceed $10,000.

436.603 Collecting data on and appraising firms' qualifications.

(a) HCA's which require architect-engineer services shall establish procedures to comply with the requirements of FAR 36.603.

(b) Copies of procedures established under (a) above shall be submitted to the Director, Office of Operations, for review and approval. The procedures shall include a list of names, addresses, and phone numbers of offices or boards assigned to maintain architect-engineer qualification data files. The list shall be updated annually.

436.604 Performance evaluation.

(a) HCA's shall establish procedures to evaluate architect-engineer contractor performance including instructions for review of the evaluation report (SF–1421) as prescribed in FAR 36.604 and 36.702(c).

(b) Performance reports shall be distributed to the HCA for filing, distribution points in FAR 36.604(c), and other points required by internal procedures.

436.606 Negotiations.

Whenever a proposal is solicited from an architect-engineer firm selected for negotiation, the contracting officer shall include in the request for proposal a reference to 436.209 as required by FAR 36.606(c).

PART 437—SERVICE CONTRACTING

Subpart 437.2—Consulting Services

437.205 Management controls.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 437.2—Consulting Services

437.205 Management controls.

Contracts for consulting services are subject to the management controls and procedures in Departmental Regulation 5000–2, "Contracting for Consulting Services."

PART 438—[RESERVED]

PART 439—MANAGEMENT, ACQUISITION, AND USE OF INFORMATION RESOURCES

Subpart 439.70—Delegation of Acquisition Authority

439.7001 Delegation threshold limitations.
439.7002 Other limitations.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 439.70—Delegation of Acquisition Authority

439.7001 Delegation threshold limitations.

Contracting activities delegated general contracting authority by the Office of Operations are hereby delegated specific authority for acquisition of automatic data processing equipment, services, and related supplies in the following circumstances:

(a) *ADP equipment.* (1) Card punching, verifying, and manipulating equipment described as electronic accounting machines (EAM) or punch card accounting machines (PCAM) where the total dollar cost does not exceed $100,000 for purchase or annual rental.

(2) Any other items of ADP equipment where the total dollar cost does not exceed $100,000 for purchase or annual rental; provided, that no existing computer system is augmented under this delegation such that the purchase cost (cost to purchase if leased) of all the components of that system are made to exceed $400,000.

(3) Renewal of equipment up to $100,000 for purchase or annual rental, or within the dollar limits and time frame of the original delegation.

(b) *ADP equipment maintenance.* The acquisition does not exceed $50,000 annually.

(c) *ADP software.* The total acquisition for the specific software package does not exceed $15,000 annual lease cost, excluding maintenance, or $20,000 purchase cost.

(d) *ADP services.* The cost of the ADP service does not exceed $50,000.

(e) *ADP supplies.* (1) The cost of the supplies does not exceed $5,000; or

(2) The acquisition will be made under a specific purchase program established by GSA. These programs include electronic data processing (EDP) tapes, tabulating machine cards, and marginally punched continuous forms.

439.7002 Other limitations.

All acquisitions which are not within the authorities set forth in 439.7001 must be submitted to the Director, Office of Operations, for delegation of contracting authority. The Office of Operations will either conduct the acquisition or delegate authority to the contracting activity to conduct the acquisition.

SUBCHAPTER G—CONTRACT MANAGEMENT

PART 440—[RESERVED]

PART 441—[RESERVED]

PART 442—CONTRACT ADMINISTRATION

Subpart 442.1—Interagency Contract Administration and Audit Services

442.102 Procedures.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 442.1—Interagency Contract Administration and Audit Services

442.102 Procedures.

(a) The Office of the Inspector General (OIG), Audit Division, has established a cross-servicing arrangement with the Defense Contract Audit Agency (DCAA) to provide contract audit services required by the FAR.

(b) All contract audit services required by contracting officers shall be coordinated through the cognizant OIG Regional Inspector General—Auditing (RIG–A). Cognizance is determined on the basis of the contractor's location. The OIG will, at its discretion, perform the audit with OIG personnel or refer the request to the DCAA if such would be more practical due to workload considerations or the location of the contractor. There is no charge for audit services coordinated through OIG.

(c) In order to ensure compliance with this requirement and to evaluate the results of audits, contracting officers shall forward to the RIG–A copies of all price negotiation memoranda prepared for contracts and contract modifications in excess of $500,000.

PART 443—[RESERVED]

PART 444—[RESERVED]

PART 445—GOVERNMENT PROPERTY

Subpart 445.3—Providing Government Property to Contractors

445.302 Providing facilities.
445.302–1 Policy.

Subpart 445.4—Contractor Use and Rental of Government Property

445.403 Rental—Use and Charges Clause.
445.407 Non-Government use of plant equipment.

Subpart 445.6—Reporting, Redistribution and Disposal of Contractor Inventory

445.608 Screening of contractor inventory.
445.608–6 Waiver of screening requirements.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 445.3—Providing Government Property to Contractors

445.302 Providing facilities.

445.302–1 Policy.

HCA's are authorized to make determinations for providing facilities to a contractor as prescribed in FAR 45.302–1(a)(4).

Subpart 445.4—Contractor Use and Rental of Government Property

445.403 Rental—Use and Charges clause.

HCA's are authorized to make determinations for charging rent on the basis of use under the Use and Charges clause in FAR 52.245–9 as prescribed in FAR 45.403(a).

445.407 Non-Government use of plant equipment.

Requests for non-Government use of plant equipment as prescribed in FAR 45.407 shall be submitted by the HCA to the Director, Office of Operations, for approval.

Subpart 445.6—Reporting, Redistribution and Disposal of Contractor Inventory

445.608 Screening of contractor inventory.

445.608–6 Waiver of screening requirements.

Requests to waive screening requirements as prescribed in FAR 45.608–6 shall be submitted by the HCA to the Director, Office of Operations, for approval.

PART 446—QUALITY ASSURANCE

Subpart 446.6—Material Inspection and Receiving Reports

446.601 Inspection and receiving.
446.602 Acceptance.
446.603 Inspection, acceptance, and receiving certification.
446.604 Distribution of material inspection and receiving reports.

Subpart 446.7—Warranties

446.704 Authority for use of warranties.
446.708 Warranties of data.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 446.6—Material Inspection and Receiving Reports

446.601 Inspection and receiving.

(a) The certification stated in 446.603 shall be inserted on each commercial shipping document or packing list for supplies or services and shall be signed by the authorized Government representative as required by FAR 46.401(f), except for small purchases (see FAR 46.404).

(b) Form AD–838, Purchase Order, shall be used to comply with the requirements of FAR 46.406(f) and FAR 46.404.

(c) The certification required by 446.601(a) shall be made at the place or places specified in the contract for performance of Government quality assurance as required by FAR 46.401(b) and as prescribed in FAR 46.402 or FAR 46.403, as appropriate.

446.602 Acceptance.

(a) The certification stated in 446.603 shall be inserted on each commercial shipping document or packing list for supplies or services and signed by the authorized Government representative as required by FAR 46.501.

(b) The certification required by 446.602(a) shall be made at the place or places specified in the contract for Government acceptance as required by FAR 46.503.

(c) If the contracting officer elects to use a contractor's certificate of conformance as allowed by FAR 46.315 under the conditions prescribed by FAR 46.504, the certificate may be used as the basis for Government acceptance.

(d) Form AD–838, Purchase Order, shall be used to comply with the requirements of FAR 46.501.

446.603 Inspection, acceptance and receiving certification.

As prescribed in this subpart, the following certification shall be inserted on commercial shipping documents or packing lists for supplies or services:

Inspection, Acceptance and Receiving Certification

The listed items or services have been: ——— inspected, ———accepted, ——— received by me or under my supervision and they conform to contract except as noted below or on attached documents.

Date ———————————

(Signature) ———————————

(Typed name of authorized Government representative)

446.604 Distribution of material inspection and receiving reports.

Distribution of material inspection and receiving reports shall be made in accordance with established procedures established by contracting activities.

Subpart 446.7—Warranties

446.704 Authority for use of warranties.

The HCA is authorized to approve the use of warranties as prescribed by FAR Subpart 46.7.

446.708 Warranties of data.

Warranties of data shall be developed and used only after review and approval by OGC.

PART 447—[RESERVED]

PART 448—VALUE ENGINEERING

Subpart 448.1—Policies and Procedures

448.102 Policies.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 448.1—Policies and Procedures

448.102 Policies.

(a) USDA is exempt from the requirements of FAR Part 48, Value Engineering.

(b) HCA's are encouraged to implement value engineering programs in their contracting activities in accordance with FAR Part 48 when it has been determined by the HCA that such implementation is in the best interest of the Government.

PART 449—TERMINATION OF CONTRACTS

Subpart 449.1—General Principles

449.106 Fraud or other criminal conduct.
449.107 Audit of prime contract settlement proposals and subcontract settlements.
449.111 Review of proposed settlements.

Subpart 449.4—Termination for Default

449.402 Termination of fixed-price contracts for default.

449.402–3 Procedure for default.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 449.1—General Principles

449.106 Fraud or other criminal conduct.

(a) Whenever fraud, such as falsified documents, false statements, or other criminal conduct related to the settlement of a terminated contract is suspected, the contracting officer shall discontinue negotiations and prepare a report of the facts. The report shall be submitted by the HCA to the Inspector General along with copies of documents or other information connected with the suspected violation(s). Concurrently, a copy of the report shall also be submitted to the Director, Office of Operations.

(b) Depending of the findings of the Inspector General, the HCA may initiate suspension of debarment action as prescribed in FAR Part 9.4 and Part 490.4 of this chapter.

449.107 Audit of prime contract settlement proposals and subcontract settlements.

Prime contractor settlement proposals and subcontract settlements requiring audit review in accordance with FAR 49.107 shall be referred to the Inspector General.

449.111 Review of proposed settlements.

All proposed settlement agreements shall be reviewed and approved at a level above the contracting officer in accordance with contracting activity procedures. Settlement agreements of $50,000 or more shall be approved by the HCA.

Subpart 449.4—Termination for Default

449.402 Termination of fixed-price contracts for default.

449.402–3 Procedure for default.

(a) In addition to the requirements of FAR 49.402–3(g), the notice of termination shall contain instructions regarding the disposition of any Government property in the possession of the contractor (see FAR 45.508–1) and, in the case of construction contracts, such materials, appliances, and structures as may be on the site of the construction work. The notice shall also contain a statement concerning the liability of the contractor or its surety for any liquidated damages (see FAR 49.402–7).

(b) The notice of termination suggested under FAR 49.601–2 shall be modified in accordance with (a) above.

PART 450—EXTRAORDINARY CONTRACTUAL ACTIONS

450.001 Definitions.

Subpart 450.1—General

450.103 Deviations.
450.104 Reports.

Subpart 450.2—Delegation of and Limitations on Exercise of Authority

450.201 Delegation of authority.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

450.001 Definitions.

"Approving authority," as used in this part, means the Assistant Secretary for Administration.

Subpart 450.1—General

450.103 Deviations.

Requests for deviations to FAR Part 50 shall be submitted by the HCA to the Director, Office of Operations, for approval.

450.104 Reports.

The Director, Office of Operations, shall prepare the report required by FAR 50.104.

Subpart 450.2—Delegation of and Limitations on Exercise of Authority

450.201 Delegation of authority.

The Assistant Secretary for Administration is authorized to approve all actions under FAR Part 50 except indemnification actions listed in FAR 50.201(d).

PART 451—[RESERVED]

SUBCHAPTER H—CLAUSES AND FORMS

PART 452—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

Subpart 452.2—Texts of Provisions and Clauses

452.210–70 Brand name or equal.
452.228–70 Notice of required bid security.
452.228–71 Notice of required performance security.
452.228–72 Notice of required payment security.
452.232–70 Interest on overdue payments.
452.232–71 Payment due date.
452.232–72 Invoices.
452.236–70 Prohibition against use of lead-based paint.
452.236–71 Additive or deductive items.

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

Subpart 452.2—Texts of Provisions and Clauses

452.210–70 Brand name or equal.

As prescribed in 410.004, insert the following provision in solicitations which contain a "brand name or equal" purchase description:

Brand Name or Equal (Apr 1984)

(As used in this clause, the term "brand name" includes identification of products by make and model.)

(a) If items called for by this solicitation have been identified in the schedule by a "brand name or equal" description, such identification is intended to be descriptive, but not restrictive, and is to indicate the quality and characteristics of products that will be satisfactory. Bids offering "equal" products (including products of the brand name mapufacturer other than the one described by brand name) will be considered for award if such products are clearly identified in the bids or proposals and are determined by the Government to meet fully the salient characteristics requirements listed in the solicitation.

(b) Unless the bidder clearly indicates in its bid that it is offering an "equal" product, its bid shall be considered as offering a brand name product referenced in the solicitation.

(c)(1) If the bidder proposes to furnish an "equal" product, the brand name, if any, of the product to be furnished shall be inserted in the space provided in the solicitation, or such product shall be otherwise clearly identified in the bid. The evaluation of bids and the determination as to equality of the product offered shall be the responsibility of the Government and will be based on information furnished by the bidder or identified in its bid as well as other information reasonably available to the contracting activity. Caution to bidders: The contracting activity is not responsible for locating or securing any information which is not identified in the bid and reasonably available to the contracting activity. Accordingly, to assure that sufficient information is available, the bidder must furnish as a part of its bid all descriptive material (such as cuts, illustrations, drawings, or other information) necessary for the contracting activity to (i) determine whether the product offered meets the salient characteristics requirement of the solicitation and (ii) establish exactly what the bidder proposes to furnish and what the Government would be binding itself to purchase by making an award. The information furnished may include specific reference to information previously furnished or to information otherwise available to the contracting activity.

(2) If the bidder proposes to modify a product so as to make it conform to the requirements of the solicitation, the bid shall include (i) a clear description of such proposed modifications and (ii) clearly marked descriptive material to show the proposed modifications.

(3) Modifications proposed after bid opening to make a product conform to a brand name product referenced in the solicitations will not be considered.

(End of clause)

452.228–70 Notice of Required Bid Security.

As prescribed in 428.102–3(a), insert the following clause in solicitations:

Notice of Required Bid Security (Apr 1984)

Each bidder must submit a bid guarantee in the amount of ——— percent of the total bid price, but in no event shall the penal sum exceed $3 million. If a bid bond is submitted, it should be on Standard Form 24. Money orders and checks, if used, shall be drawn payable to: (*insert name of the USDA contracting activity*).

(End of clause)

452.228–71 Notice of Required Performance Security.

As prescribed in 428.102–3(b), insert the following clause in solicitations:

Notice of Required Performance Security (Apr 1984)

The successful bidder shall furnish security to guarantee faithful performance of the contract in the amount of ——— percent of the total contract price. Security may be in the form of a performance bond on Standard Form 25 (furnished on request), or in the form of a postal money order, certified check or cashier's check, or United States Government bonds or notes (at par value) may be deposited in accordance with Treasury Regulations. Money orders and checks shall be drawn payable to: (*insert name of the USDA contracting activity*).

(End of clause)

452.228–72 Notice of Required Payment Security.

As prescribed in 428.102–3(c), insert the following clause in solicitations:

Notice of Required Payment Security (Apr 1984)

The successful bidder shall furnish security to guarantee payment to all persons supplying labor or materials in the performance of the contract, such security to be in the form of a payment bond on Standard Form 25A (furnished on request). The penal sum of the payment bond shall equal:

(a) 50 percent of the contract price, if the contract price is not more than $1 million;

(b) 40 percent of the contract price, if the contract price is more than $1 million but not more than $5 million; or

(c) $2½ million, if the contract price is more than $5 million.

(End of clause)

452.232–70 Interest on Overdue Payments.

The following clause, which sets forth the Government's liability for interest penalties, shall be included (incorporation may be by reference) in all nonexempt contracts and purchase orders, including leases of real property. Exempt contracts and purchase orders include:

(a) Those for which payment is made for financing purposes before receipt of complete delivered items of property or service;

(b) Contracts for utilities (gas, water, electricity, etc.) that include provisions for late payment charges established by tariff or State regulatory commissions; or

(c) Informal contracts for the purchase of utilities under a tariff when such tariff provides for late payment charges.

Interest on Overdue Payments (Apr 1984)

(a) The Prompt Payment Act, Public Law 97–177 (96 Stat. 85, 31 U.S.C. 1801) is applicable to payments under this contract and requires the payment to contractors of interest on overdue payments and improperly taken discounts.

(b) Determinations of interest due will be made in accordance with the provisions of the Prompt Payment Act and Office of Management and Budget Circular A–125.

(End of clause)

452.232–71 Payment Due Date.

(a) When invoices required to be furnished by contractors may be received before the Government has had an opportunity to inspect and accept the supplies or services, the following clause shall be included in all nonexempt contracts and purchase orders not exceeding $25,000 (exemptions are defined in 452.232–70):

Payment Due Date (Apr 1984)

(a) Payments under this contract will be due on the 30th calendar day after the latter of:

(1) The date of actual receipt of a proper invoice in the office designated to receive the invoice, or

(2) The date the supplies are accepted by the Government.

(b) For the purpose of determining the due date for payment and for no other purpose, acceptance will be deemed to occur on the 15th calendar day after the date of delivery of the supplies in accordance with the terms of the contract.

(c) If the supplies are rejected for failure to conform to the technical requirements of the contract, or for damage in transit or otherwise, the provisions in paragraph (b) of this clause will apply to the new delivery of replacement supplies.

(d) The date of the check issued in payment shall be considered to be the date payment is made.

(End of clause)

(b) The following clause shall be included in all nonexempt contracts and purchase orders not exceeding $25,000 (exemptions are defined in 452.232–70), when invoices may be required to reflect that delivery (or performance) and acceptance has already occurred. This would be the situation in the case of supplies purchased on an f.o.b. origin basis, with inspection and acceptance at source, and proof of shipment (e.g., a Government bill of lading) required to be furnished with the invoice. This may also be the case with respect to various contracts for services.

Payment Due Date—Alternate I (Apr 1984).

(a) Payments under this contract will be due on the ——— calendar day after the date of actual receipt of a proper invoice in the office designated to receive the invoice.

(b) The date of the check issued in payment shall be considered to be the date payment is made.

(End of clause)

(c) The following clause shall be included in all contracts or purchase orders not exceeding $25,000 for leases of real property:

Payment Due Date—Alternate III (Apr 1984)

(a) Payments under this contract will be due on the 15th calendar day of the month following that in which payment accrued.

(b) The date of the check issued in payment shall be considered to be the date payment is made.

(End of clause)

452.232-72 Invoices.

Insert the following clause in all contracts and purchase orders (unless the clause at FAR 52.213-2 applies). The contracting officer may appropriately modify the clause to request additional information under paragraph (b):

Invoices (Apr 1984)

(a) Invoices shall be submitted in an original and 2 copies to the Government office designated in this contract or on the delivery order to receive invoices. To constitute a proper invoice, the invoice must include the following information and/or attached documentation:

(1) Name of the business concern and invoice date.

(2) Contract number, or other authorization for delivery of property or services.

(3) Description, price, and quantity of property and services actually delivered or rendered.

(4) Shipping and payment terms.

(5) Name (where practicable), title, phone number, and complete mailing address of responsible official to whom payment is to be sent.

(b) To assist the Government in making timely payments, the Contractor is requested to furnish the following additional information either on the invoice or on an attachment to the invoice: (List any such additional information.)

(End of clause)

452.236-70 Prohibition Against Use of Lead-based Paint.

As prescribed in 436.570, insert the following clause in solicitations and contracts when construction of residential structures or rehabilitation (including dismantling, demolition, or removal) of residential structures is contemplated:

Prohibition Against the Use of Lead-Based Paint (Apr 1984)

No lead-based paint containing more than .5 of 1 percent lead by weight (calculated as lead metal) in the total nonvolatile content of paint, or the equivalent measure of lead in the dried film of paint already applied, or both, or with respect to paint manufactured after June 23, 1977, no lead-based paint containing more then .06 of 1 percent lead by weight (calculated as lead metal) in the total nonvolatile content of the paint, or the equivalent measure of lead in the dried film of paint already applied, or both, shall be used in the construction or rehabilitation of residential structures under this contract or any resulting subcontracts.

(End of clause)

452.236-71 Additive or Deductive Items.

As prescribed in 436.370, insert the following clause in solicitations when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. Contracting officers may use the clause in solicitations when a resultant contract within the small purchase limitation is expected.

Additive or Deductive Items (Apr 1984)

The low bidder for purposes of award shall be the conforming responsible bidder offering the low aggregate amount for the first or base bid item, plus or minus (in the order of priority listed in the schedule) those additive or deductive bid items providing the most features of the work within the funds determined by the Government to be available before bids are opened. If addition of another bid item in the listed order of priority would make the award exceed such funds for all bidders, it shall be skipped and the next subsequent additive bid item in a lower amount shall be added if award thereon can be made within such funds. For example, when the amount available is $100,000 and a bidder's base bid and four successive additives are $85,000, $10,000, $8,000, $6,000, and $4,000, the aggregate amount of the bid for purposes of award would be $99,000 for the base bid plus the first and fourth additives, the second and third additives being skipped because each of them would cause the aggregate bid to exceed $100,000. In any case all bids shall be evaluated on the basis of the same additive or deductive bid items, determined as above provided. The listed order of priority need be followed only for determining the lower bidder. After determination of the low bidder as stated, award in the best interests of the Government may be made to him on his base bid and any combination of his additive or deductive bid for which funds are determined to be available at the time of the award, provided that award on such combination of bid items does not exceed the amount offered by any other conforming responsible bidder for the same combination of items.

(End of clause)

PART 453—FORMS

453.000 Scope of part.

Subpart 453.1—General

453.103 Exceptions.
453.108 Recommendations concerning forms.

Subpart 453.2—Prescription of Forms

453.200 Scope of subpart.
453.204 Administrative matters.
453.204-2 Contract reporting (AD-760).
453.213 Small purchase and other simplified purchase procedures (AD-744 and AD-838).
453.270 Request for contract action (AD-700).

Subpart 453.3—Illustrations of Forms

453.300 Scope of subpart.
453.303 Agency forms.
453.303-700 Procurement Request (AD-700)
453.303-744 Purchase Order-Invoice-Voucher (AD-744).
453.303-760 Report of Individual Procurement (AD-760).
453.303-838 Purchase Order (AD-838).

Authority: 5 U.S.C. 301 and 40 U.S.C. 486(c).

453.000 Scope of part.

This part: (a) Prescribes Department of Agriculture (AD) forms for use in acquisition, (b) contains requirements and information generally applicable to AD forms and forms prescribed by FAR Part 53, and (c) illustrates AD forms.

Subpart 453.1—General

453.103 Exceptions.

(a) The contracting officer shall submit requests for exceptions to forms prescribed in FAR Part 53 through the HCA to the Director, Office of Operations, for referral to the GSA.

(b) Requests for exceptions to AD forms prescribed in Part 453 shall be handled as individual or class deviations, as appropriate (see Subpart 401.4).

453.108 Recommendations concerning forms.

Contract officers shall submit recommendations for new forms or to revise, eliminate, or consolidate forms prescribed by FAR 53 and Part 453 through the HCA to the Director, Office of Operations, for consideration or referral to the Civilian Agency Acquisition Council (CAAC), as appropriate.

Subpart 453.2—Prescription of Forms

453.200 Scope of subpart.

This subpart prescribes Department of Agriculture (AD) forms for use in acquisition. Consistent with the approach used in FAR Subpart 53.2, this subpart is arranged by subject matter, in the same order as, and keyed to, the parts of the AGAR in which the form usage requirements are addressed.

453.204 Administrative matters.

453.204-2 Contract reporting (AD-760).

Form AD-760, *Report of Individual Procurement,* is prescribed by the USDA Procurement Reporting System, for reporting contract actions over $10,000 (see 404.601(b)).

453.213 Small purchase and other simplified purchase procedures (AD-744 and AD-838).

(a) Form AD-744, *Purchase Order-Invoice-Voucher,* is prescribed for use as an over-the-counter purchase document (see 413.505-3(a)).

(b) Form AD-838, *Purchase Order,* is prescribed for use as a small purchase/delivery order document (see 413.505-2).

453.270 Request for contract action (AD-700).

Form AD-700, *Procurement Request,* is prescribed as the contract requisition document for contracting activities in USDA.

Subpart 453.3—Illustrations of Forms

453.300 Scope of subpart.

This subpart contains illustrations of Department of Agriculture (AD) forms for use in acquisitions. Forms are not illustrated in the **Federal Register**, or Code of Federal Regulations. Individual copies may be obtained from any USDA contracting activity, or the Director, Office of Operations, Washington, D.C. 20250.

453.303 Agency forms.

453.303-700 Procurement Request (AD-700).

453.303-744 Purchase Order-Invoice-Voucher (AD-744).

453.303-760 Report of Individual Procurement (AD-760).

453.303-838 Purchase Order (AD-838).

Federal Aviation Administration

14 CFR Parts 121 and 135

Flight Time Limitations and Rest Requirements for Flight Crewmembers; Proposed Rule

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Parts 121 and 135

[Docket No. 23634; Notice No. 84-3]

Flight Time Limitations and Rest Requirements for Flight Crewmembers

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA is proposing flight time limitations and rest requirements for flight crewmembers engaged in air transportation. This proposal is based on the recommendations of a regulatory negotiation advisory committee composed of persons who represent the interests affected by the flight time rules. This proposal results from a reassessment of the agency's role in regulating flight and rest time in light of current operating conditions and current regulatory phlosophy. The proposal would simplify, clarify, and update the regulations and reduce the need for their interpretation.

DATE: Comments must be received on or before May 14, 1984.

ADDRESS: Comments on the proposal may be mailed in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-204), Docket No. 23634, 800 Independence Avenue SW., Washington, D.C. 20591; or delivered to: Room 915G, 800 Independence Avenue, SW., Washington, D.C. Comments may be examined in the Rules Docket on weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Lawrence P. Bedore, Project Development Branch, Air Transportation Division, Office of Flight Operations, Federal Aviation Administration, Room 304, 800 Independence Avenue SW., Washington D.C. 20591; Telephone (202) 426-8096.

SUPPLEMENTARY INFORMATION:

Comments

Interested persons are invited to participate in this rulemaking by submitting written data, views, or arguments and by commenting on the possible environmental, energy, or economic impact of the adoption of this proposal. Comments are also specifically requested concerning the implementation and effective date of the final rule. For example, the FAA would like to know if operators want the option of complying before the mandatory effective date. The FAA proposes to establish an effective date of 180 days after the publication of the final rule in the Federal Register.

The comment should carry the regulatory docket or notice number and be submitted in duplicate to the address above. All comments received as well as a report summarizing any substantive public contact with FAA personnel on this rulemaking will be filed in the docket. The docket is available for public inspection both before and after the closing date for making comments.

Before taking any final action on this proposal, the Administrator will consider the comments made on or before May 14, 1984 and the proposal may be changed in light of the comments received. The FAA is allowing only 45 days for comment on this NPRM, because notwithstanding the significance of the issues involved, the FAA believes that this is sufficient time given the length of and the accomplishments of the Regulatory Negotiation Advisory Committee sessions.

The FAA will acknowledge receipt of a comment if the commenter includes a self-addressed, stamped postcard with the comment. The postcard should be marked "Comments to Docket No. 23634." When the comment is received by the FAA, the postcard will be dated, time stamped, and returned to the commenter.

Availability of The NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the notice number of the NPRM wanted. Anyone interested in being placed on a mailing list for future FAA NPRM's should also request a copy of Advisory Circular No. 11-2 which describes how to apply to be on the mailing list.

Background

The Federal Aviation Act of 1958 (49 U.S.C. 1351 et. seq.) requires the Administrator of the Federal Aviation Administration to issue "reasonable rules and regulations governing, in the interest of safety, the maximum hours or periods of service of aircrew and other employees of air carriers." The rules issued by the FAA under this provision are generally referred to as "flight time limitations." The flight time limitation rules that apply to the major scheduled airlines—those most familiar to the traveling public—are contained in Part 121 of the Federal Aviation Regulations (14 CFR Part 121). These rules contain daily rest requirements for certain operations and weekly, monthly, and annual limits on the number of hours of flight time.

The flight time limitation rules that apply to the fast growing scheduled airlines that operate airplanes of 30 or less seats (commonly referred to as "commuters") and air taxi operations are contained in Part 135 of the Federal Aviation Regulations (14 CFR Part 135). These rules contain daily rest requirements as well as daily limits on the number of hours of flight time but do not contain weekly, monthly, or annual limits. The Airline Deregulation Act of 1978 requires the Administrator, among other things, to "impose requirements upon * * * commuter air carriers to assure that the level of safety provided to persons traveling on such commuter air carriers is, to the maximum feasible extent, equivalent to the level of safety provided to persons traveling" on Part 121 air carriers.

Despite changes in the airline transportation industry over the past 30 years, the rules governing flight time limits and rest requirements have remained virtually unchanged. No safety reasons have been presented which have necessitated changes to the regulations. But the presumed safety of the rules does not necessarily mean that the rules are as effective as they should be or that given recent changes in the industry they will continue to provide an adequate safety standard. There are a number of factors which affect the adequacy of the rules and require that they be amended.

Perhaps the most significant factor requiring amendment of the current rules is that the rules regulating the rest requirements under Part 121 are extremely complicated. Over the 30 years of their existence they have required thousands of pages of interpretations, have sometimes been incorrectly followed by air carriers, and have been difficult to enforce. Thus, a primary aim of this rulemaking is to clarify and simplify the rest requirements for domestic air carriers. This is consistent with Executive Order 12291.

A second significant factor requiring amendment of the rules has been their inflexibility. For example, although under the current rule air carriers are not considered in violation of the rules if flight times are exceeded due to adverse weather conditions or other circumstances beyond the control of the

air carrier, an air carrier presently has not flexibility to adjust scheduled rest periods in the event of late arrivals or other factors. If a flight is late, the subsequent flights must often be held up while the flight crewmember receives his scheduled rest. This has resulted in numerous canceled flights as well as delays, and has often required crewmembers to spend extra days away from home. An important objective of this rulemaking proceeding is to eliminate this problem, without derogating safety, by allowing flexibility in scheduling rests so that air carriers, passengers, and flight crewmembers are not unnecessarily inconvenienced.

A third factor affecting the current rules is a change in the character and make-up of the air transportation industry. In the past, most of the domestic air carriers were major companies each employing several thousand crewmembers. However, under deregulation of the air transportation industry, the number and variety of part 121 domestic operators has dramatically increased. The present complexity and variety of operations require that the FAA provide clear and simple minimum safety criteria for all operators. If the present rules are examined as the criteria for safe flight time limitations and rest requirements, some potential weaknesses are apparent. For example, current Part 121 fligh time limits are effective against chronic long-term fatigue because they provide weekly, monthly, and annual flight time limits as well as daily rest requirements for a pilot who flies more than 8 hours in a 24-hour period. But these rules do not provide rest requirements for a pilot scheduled for 8 hours or less flight time in a 24-hour period. Thus, under the current rules an operator can schedule a flight crewmember for 8 hours or less of flight time in a 24-hour duty day and repeat this cycle until the flight crewmember reaches the 30-hour weekly limit. The current Part 121 rule, then, provides no protection against acute short-term fatigue for flight crewmembers scheduled for 8 hours or less of flight time in a 24-hour period. On the other hand, under Part 135, acute short-term fatigue is covered by a 10-hour minimum rest requirement in a 24-hour period and by a flight time limit of 8 hours for a one-pilot crew and 10 hours for a two-pilot crew; but not annual, monthly, or weekly limits exist to protect against long-term fatigue. Under existing Part 135 rules a flight crewmember could fly 10 hours a day with a 14-hour duty day every day of the year, all year.

A fourth factor affecting the current rules, and one related to the changing character of the air transportation industry, has been the growth of commuter-type operations. Some commuter-type operations fall under Part 121 domestic rules while others fall under Part 135 rules. A question exists as to whether either set of requirements effectively covers these comparatively new and growing operations. Thus an additional aim of this rulemaking proceeding has been to study the materials submitted by this industry group and incorporate into the rules standards which will provide a level of safety equivalent to other air transportation operations.

The current rulemaking proceeding is not the FAA's first attempt to solve these problems. For several years the FAA has recognized that the flight time limits and rest requirements need to be clarified and substantively improved in those areas where they are potentially weak. On several occasions the FAA has attempted to correct the flight time limitation problems of both Parts 121 and 135 through rulemaking actions. [1] But because of the complexity of the flight time rules and the economic interests affected, none of the past proposals succeeded in resolving the problems to the satisfaction of the affected parties. Given the importance of these rules in air transportation safety, the FAA, therefore, decided to try an innovative approach which would bring the affected parties together to negotiate a resolution. It was the FAA's hope that this approach would produce a proposal that would at once simplify and clarify the existing regulations, increase their flexibility, and meet all statutory requirements.

Regulatory Negotiation

Regulatory negotiation, as recommended by the Office of Vice President and by the Administrative Conference of the United States, is a procedure by which representatives of all interests affected by a rulemaking fully discuss the issues under conditions conducive to narrowing or eliminating differences and to negotiating a proposed rule acceptable to each interest. In accordance with the recommended procedure, the FAA created an advisory commmittee chartered under the Federal Advisory Committee Act. The committee is comprised of persons representing the diverse interests affected by the flight time rules including persons representing flight crewmembers, air carriers, air taxis, helicopter operators, and the public. At its opening session, the committee was addressed by the FAA Deputy Administrator, the Deputy Secretary of Transportation, the Legal Counsel to the Vice President, a representative of the Office of Information and Regulatory Affairs in the Office of Management and Budget, and the Chairman of the Administrative Conference of the United States. These individuals stated their support for the committee and encouraged the committee to take its charge seriously. In addition, representatives of these offices attended and monitored sessions. The committee met under the direction of Nicholas Fidandis (former Director of Mediation Services of the Federal Mediation and Conciliation Service) who acted as convenor/mediator.

The committee met for 16 days in 1983 (June 29–30, July 11–13, July 25–27, August 8–10, August 22–25, and September 26) and thoroughly discussed the major issues involved in the regulation of flight time limits. Numerous proposals and justifications were drafted by participants and submitted to the committee for review. Copies of all proposals submitted for consideration by committee members and copies of written summaries of each meeting are available in the public docket for this NPRM. Although the committee did not reach consensus on any particular proposal, its deliberations were successful because committee members gave serious consideration to and entered onto candid discussion of the various proposals and justifications submitted to them. Thus the committee succeeded in narrowing the differences among parties and in reaching substantial agreement of some issues. In addition, the committee identified major areas of concern and all parties obtained significant, new information on a subject which has been discussed, without resolution, for years. This document is a notice of proposed rulemaking that reflects the committee's discussion of and agreements on the issues. The document sets forth the FAA's analysis of those agreements and discussions.

The Regulatory Negotiation Advisory Committee also met on February 14, 1984, to review and discuss this proposed rule and preamble. A majority of the committee members recommended that the proposed rule be published in the **Federal Register** as submitted. Several members of the

[1] The following past proposals have to do with flight time limitations and rest requirements:
Notice No. 77–17 [42 FR 43490, August 29, 1977]
Notice No. 78–3 [43 FR 8070, February 27, 1978]
Notice No. 78–3B [45 FR 53316, August 11, 1980]
Notice No. 82–4 [47 FR 10748, March 11, 1982]

committee, however, dissented from this recommendation because they believed that certain issues which have not been resolved to their satisfaction should be addressed further before the proposal is published. The FAA has decided to publish the proposed rule and preamble as submitted to the committee on February 14, but with modifications in the preamble which address the following unresolved issues:

1. The maximum flight time allowed between rests under proposed Parts 121 and 135 scheduled operations;

2. The minimum amount of rest required under proposed Parts 121 and 135 scheduled operations;

3. The maximum weekly, monthly, and annual flight time limits under proposed § 121.471(h);

4. The limitation of "passenger-carrying" in the definition of "scheduled operations" under proposed § 135.261(b); and

5. The lack of a specific response time for deviations under proposed § 135.263(f).

Modifications on these issues have been made in appropriate sections of the preamble.

Comments received on this proposed rule will be reviewed by the committee to determine whether it should recommend that the proposal be modified. Any necessary changes would be negotiated by the committee in the same manner as the NPRM. It must be emphasized that a decision on the final rule is the sole responsibility of the Administrator.

PROPOSED REVISIONS

General Discussion

The proposed rule modifies the current rule in several important ways. First, it reorganizes the regulations according to certain operational differences by creating a separate category in Part 121 domestic rules for commuter-type operations and in Part 135 by separating scheduled operations from non-schedule. Secondly, it adds cumulative flight time limits for all Part 135 operations. The cumulative flight time limits and daily rest requirements for commuter-type Part 121 and scheduled Part 135 operations would be identical. Thirdly, it clarifies the daily rest requirements of Part 121 operators and specific Part 135 operators and adds provisions which correct potential weaknesses in the current rule and which provided scheduling flexibility for air carriers. A complete description and rationale for specific revisions appears below.

Revisions To Part 121 and Part 135 Scheduled Operations

Reorganization to cover "Commuter-type" operations

An issue in this rulemaking proceeding has been the question of which part of the regulations the new commuter air carriers should comply with. The large domestic air carriers clearly fall under Part 121; the small on-demand operators fall under both parts. The dividing line between Parts 121 and 135 is provided by Special Federal Aviation Regulation (SFAR) 38. Operations of airplanes with more than 30 passenger seats or a payload capacity of more than 7,500 pounds must be conducted under Part 121 which contains separate flight time limits for domestic, flag and supplemental (non-scheduled) air carrier operations. Operations with airplanes below these limits must be conducted under Part 135 which at present does not distinguish between scheduled and non-scheduled operations.

While this proposal would continue the 30-passenger/7,500 pound payload distinction as the major dividing line between Part 121 and Part 135 air carrier operations, it would make some additional operational distinctions that would, in effect, make the rules in Part 121 for commuter-type operations identical to those in Part 135 for scheduled operations. The proposed rule would accomplish this in the following way:

(a) Based upon a recommendation of the advisory committee, Part 135 would contain two sets of daily rest requirements and flight time limits, one for scheduled operations and another for non-scheduled operations. The set of daily rest requirements for scheduled operations would be identical to those proposed for Part 121.

(b) Operations of aircraft exceeding the 30-passenger/7,500 pound payload line would continue to be conducted under Part 121, but a separate category would be recognized in paragraph (h) of § 121.471 for operators of propeller driven multiengine airplanes with a passenger seating configuration of 31–60 seats and a payload capacity of 18,000 pounds or less. The flight time limits set forth in pargraph (h) would be somewhat less restrictive than the flight time limits for other domestic operations under that part and would be identical to those proposed for Part 135 scheduled operations (discussed under that section).

The only minor difference between the two sets of rules would be that scheduled operations under Part 135 would in addition have a daily flight time limit of 8 hours of flight time for one pilot crew. In all other respects the rules would be the same and an operator of aircraft with up to 60 seats having a payload capacity of 18,000 pounds or less could conduct all operations under the identical flight time limits and daily rest requirements.

The proposed creation of this "commuter-type" category is based upon a proposal submitted by the Regional Airline Association (RAA) and endorsed by other committee members that scheduled passenger-carrying operations in aircraft with 60 or less seating capacity be treated, for flight time limitation purposes, as a separate category in both Parts 121 and 135.

According to information submitted by RAA, the basic premise of its request is that "the present regulatory benchmark of 30 versus 31 seats that defines Part 135 operations from those conducted under Part 121 is inappropriate for the flight time rules." Commuter-type operations using smaller aircraft, whether conducted under Part 135 or Part 121, are like each other and substantially unlike longer haul jet operations of the major airlines. Specifically, commuter-type operations are similar in the number of aircraft operated, pilot employed, and routes served; in route distance and pilot flight times, and in operating schedules. The slightly higher flight time limits are balanced by the type of operations typically conducted by this type of operator. The route systems of these operators are such that crewmembers do less flying at night and spend more time at home.

Although the FAA has incorporated the RAA requests into this proposed rule, in view of objections to proposed paragraph (h) expressed at the February 14 advisory committee meeting, the FAA invites comments and statistics on this issue.

It should also be noted that, consistent with present regulatory requirements, Part 135 operators who operate scheduled passenger carrying operations under Part 121 are subject to the domestic air carrier flight time limitations of Subpart Q. Comments are requested as to whether additional regulatory language is needed in this rulemaking proceeding to make this requirement clear.

Revision of flight time limits and daily rest requirements

The weekly, monthly, and annual flight time limits of Part 121 would not be changed by the proposal, except (as mentioned in the previous section) that less restrictive limits are added in

§ 121.471(h) for commuter-type operations. These less restrictive limits are discussed later under "Revisions to Part 135—Scheduled Operations."

The proposed rule makes significant changes in the daily rest requirements under Part 121 and Part 135 scheduled operations. The purpose of these changes is to correct several potential problems inherent in the existing rule.

Under current § 121.471(b), a domestic air carrier may schedule a flight crewmember for more than 8 hours of flight time during a 24-hour period if a rest period is scheduled at or before the end of the 8 hours. The rest period must be twice the number of hours of flight time since the last rest period, but not less than 8 hours. In addition, a flight crewmember who has accumulated flight time of more than 8 hours during any 24 consecutive hours (whether scheduled or not) must be given, upon completion of his assigned flight or series of flights, at least 16 hours of rest before being assigned to any duty with the air carrier.

Several problems exist with these requirements. First, a 16-hour rest given at the end of a series of flights in which a rest of at least 8 consecutive hours has already been given is considered excessive since it amounts to 24 or more hours of rest in a 48-hour period. Second, a 16-hour rest is considered counterrestful because in many cases a flight crewmember will receive his actual rest (sleepful rest) in the first half of the 16-hour period and may therefore no longer be rested by the time he reports for the next duty period. Both of these points were acknowledged by most committee members. Third, and most important, the series-of-flights rule has been misunderstood by some operators to mean that the 16-hour rest must be given at the end of a series of flights that have extended over several days; this is contrary to the agency's interpretation that the 16-hour rest must be given at the end of a series of flights that have occurred within a 24-hour period.

In addition to the above problem, the current Part 121 rule does not have a rest requirement if flight time is 8 hours or less in 24, because the rule was predicated on the belief that fatigue is an issue only in circumstances where flight time is more than 8 hours in 24. Theoretically, this allows a Part 121 operator to schedule a flight crewmember for a 24-hour duty day as long as the total scheduled flight time is 8 hours or less. However unlikely such a schedule might be in practice, the potential for unsafe scheduling should not exist in regulations designed to set a minimum level of safety.

Although present Part 135 does contain a minimum 10-hour rest requirement for scheduled flight time, including flight time of 8 hours or less within any 24-hour period, this requirement has not proven flexible enough to cover some typical Part 135 commuter operations. As a result, at the request of the Regional Airline Association, the FAA issued an exemption that under specific conditions and limitations allows reduction of the rest period to 8 hours.

The proposed rule addresses all of the above mentioned problems. It would clarify and simplify the current regulations by creating reasonable and flexible rest requirements for both Part 121 operations and scheduled operations under Part 135. Proposed §§ 121.471(b) and 135.265(b) would require that a flight crewmember be given the following rest periods in any 24 consecutive hours involving flight time: (1) 9 consecutive hours of rest for less than 8 hours of flight time; (2) 10 consecutive hours of rest for 8 or more but less than 9 hours of flight time; and (3) 11 consecutive hours of rest for 9 or more hours of flight time.

The proposed rule provides flexibility to air carriers in scheduling flights or in rescheduling for flights that have arrived late. Sections 121.471(c) and 135.265(c) would allow the following:

(1) An air carrier could schedule less than a 9-hour rest or could reduce a 9-hour rest by up to 1½ hours if 10 hours of rest is given at the flight crewmember's next scheduled rest.

(2) An air carrier could schedule less than a 10-hour rest or could reduce a 10-hour rest by up to 2 hours if 11 hours of rest is given at the flight crewmember's next scheduled rest.

(3) An air carrier could schedule less than an 11-hour rest or could reduce an 11-hour rest by up to 2 hours if 12 hours of rest is given at the flight crewmember's next scheduled rest.

Thus the proposed rule would eliminate the series of flights problem by establishing a minimum rest requirement in relation to the number of flight hours, and would protect against short-term fatigue while allowing air carriers flexibility in scheduling over a 48-hour period.

In relation to the above proposal, it should be noted that each rest requirement is based on what is commonly referred to in the industry as "release to report." That is, if 8 hours of rest are required, the flight crewmember must be given at least 8 hours free of all duty from the time the flight crewmember is "released" from a duty assignment involving flight time until the crewmember "reports" for the next duty assignment involving flight time. Transportation to or from a hotel is not considered as duty.

It must be emphasized that as a practical matter carriers will not schedule to the limitations permitted by this proposal. For example, the rest requirement for flight time of 8 or more but less than 9 hours is 10 consecutive hours of rest. That 10-hour rest can be reduced for any reason to 8 hours if 11 hours of rest is given at the next scheduled rest. Although the rule technically allows the carriers to reduce the 10-hour rest down to 8, existing practice shows that the carriers would add a "buffer" period to that minimum rest requirement to avoid the need to cancel or reschedule the crewmember's next flight. Thus, few carriers, if any, would actually schedule down to the minimum 8-hour rest. Instead, they would more likely schedule approximately 9 hours of rest leaving additional time in case the flight encountered bad weather or other delays. It must be noted that the minimum rest requirement (in this example 8 hours) cannot *under any circumstances* be reduced further nor can the make-up rest (11 hours) be reduced. If the carriers set the scheduled rest under this example at 8 hours 15 minutes and if there were weather delays resulting in a 30-minute late arrival, the crewmembers would not be able to report to work until they have had the 8 consecutive hours of rest. Therefore, the next scheduled flight would have to be delayed or canceled.

In this connection, it must be noted that the carriers can reduce the scheduling rest for any reason. It can be reduced for scheduling purposes or to accommodate delays in the system caused by weather or other factors. Although the current rules only allow reduction for limited reasons, the proposed change acknowledges that a crewmember who is delayed for bad weather is in the same position as one delayed for "scheduling" reasons. A flight crewmember is not necessarily more "tired" because of the type of delay. This proposed change will increase the flexibility of all parties while assuring that over a 48-hour period each crewmember would receive adequate rest. If the scheduled rest is reduced for any reason, the crewmember must receive a make-up rest. For example, if the scheduled rest was reduced to 9 hours, the crewmember would be entitled to 11 hours of rest at his next scheduled rest and, therefore, would be getting a total minimum of 20 hours of rest during approximately a 48-hour period.

The FAA wants to make it clear that this proposed requirement, as well as all requirements in this proposal, would be strictly monitored and enforced by the FAA.

In addition to the rest requirement, the proposal includes a provision (Section 121.471(a)(4)) which limits flight time to 9 hours between rest periods. This provision has been included to prevent flight crewmembers from accumulating excessive flight hours within short periods of time. This flight time limit plus the weekly flight time limit would prevent flight crewmembers from flying up to the 9-hour limit for more than a few days at a time.

The rest requirement set forth in this portion of the proposal reflects proposals submitted by the Air Transport Association (ATA), a modified version of the ATA proposal issued by the mediator, and a proposal made by the Regional Airline Association. The flight time limit between rest periods reflects with modifications, flight time limits under current Parts 121 and 135. At the February 14 advisory committee meeting which reviewed this proposed rule, flight crewmember organization representatives objected to the 9-hour flight time limit and to the minimum 7½ hour rest allowed under proposed §§ 121.471(c)(1) and 135.265(c)(1). These advisory committee members requested that the 9-hour limitation between rests be reduced to 8 hours and that the minimum rest never be less than 8 hours. They stated that they do not believe these provisions would provide adequate rest. The FAA invites further comments on these proposals including benefits and detriments. Air carriers and flight crewmember organizations should provide comments on how often the 9-hour cap would be reached including the types of schedules, in use or contemplated, to which it would apply. These comments also should discuss the 9-hour cap in relation to the present § 121.471 which, as a practical matter, may limit flight time between rest periods to 8 hours.

Transcontinental Flights

The current requirement under paragraph (b) of § 121.471 for scheduled transcontinental non-stop flights would be eliminated. Under the current requirements for such flights, a crewmember can be scheduled for more than 8 but not more than 10 hours of duty aloft without an intervening rest if the aircraft has a pressurization system and if the flight consists of two pilots and flight engineer. This requirement is outdated since transcontinental non-stop flights no longer take 8 hours.

Revisions to Part 135—All Operations

Organization and Applicability of Sections

At present, all of the flight time limitation requirements in Part 135 are contained in § 135.261. These limits apply to all Part 135 operations whether scheduled or not, whether in helicopters or airplanes, and regardless of any special nature of the operation. The variety of operations conducted under Part 135 has spawned a number of exemptions for seemingly special, but actually somewhat general, types of operations. To accommodate the variety of Part 135 operations, the proposed flight time limitation requirements would be organized into the following categories: (1) Requirements for all operations; (2) scheduled operations; (3) non-scheduled operations; and (4) helicopter emergency medical evacuation service operations.

Section 135.261(b) would define "scheduled operations" to mean "passenger-carrying operations that are conducted in accordance with a published schedule of at least five round trips per week on at least one route between two or more points which include dates or times (or both) that is openly advertised or otherwise made readily available to the general public." Operations within this definition (except those in Alaska) would fall under the requirements of § 135.265. These scheduled operations would be conducted in aircraft with a seating capacity of 30 or less and a payload capacity of 7,500 pounds or less.

This proposed definition would limit "scheduled operations" to "passenger-carrying" operations only. At the February 14 meeting of the advisory committee, a member objected to the proposed rule on the ground that it excluded scheduled cargo operations. The FAA requests further information on the issue of whether cargo operations which meet all other requirements of this definition should be included under "scheduled operations."

Non-scheduled operations (except helicopter emergency medical evacuation services) would be conducted under the rest period and flight time limits of §§ 135.267 and 135.269. These operations would include non-scheduled air taxi operations and commercial operations. Such operations are often seasonal and highly diverse. They include cargo transportation, work crew and executive transportation, surveying, fire fighting, etc. Most of these operations are conducted under contract and are not available to the general public.

The proposal to permit Part 135 scheduled passenger carrying operations in Alaska to be conducted under the rules applicable to non-scheduled operations was made by several members of the advisory committee. The unique characteristics of the Alaskan air transportation system were cited as the rational for allowing Alaskan operators to conduct scheduled passenger-carrying operations under rules designed for non-scheduled operations. Comments and information regarding the safety aspects of this proposal are invited.

General requirements for all operations

Section 135.263 contains requirements that apply either to all operations under Part 135 or to more than one type of operation. There are two significant changes from the present rule proposed in this section. The first is paragraph (e) which would replace current § 135.261(d). Under the present rule is the daily flight time limit of 8 hours in any 24 hours for one pilot crew or 10 hours of flight time in any 24 hours for a two pilot crew is exceeded due to circumstances beyond the control of the certificate holder, the flight crewmember must be given 16 hours of rest before being assigned to further duty which includes flight time. The excessiveness of this penalty would be corrected by paragraph (e) of the proposed section which establishes the following sliding scale for rest periods if flight time limits are exceeded:

(1) 11 consecutive hours of rest if the flight time limitations is exceed by not more than 30 minutes;

(2) 12 consecutive hours of rest if the flight time limitations is exceed by more than 30 minutes, but not more than 60; and

(3) 16 consecutive hours of rest if the flight time limitations is exceed by more than 60 minutes.

In the event that Part 135 scheduled operations exceed the daily flight time limit, this penalty would supersede applicable shorter rest requirements.

The second significant change would be the addition of a deviation authority Proposed § 135.263(g) authorizes the Director of Flight Operations to issue operations specifications authorizing a deviation from any specific requirement of §§ 135.267 and 135.269, the non-scheduled operations, within 2 years after the issuance of this regulation, if he finds that the operator's request is justified and that other conditions provide an equivalent level of safety. The FAA does not believe that the proposal for cumulative flight time limits will be burdensome. However, in an effort to relieve any potential burden of

the proposed cumulative flight time limits for non-scheduled operators, this authority would provide an alternative to the exemption process during a 2-year transition period. The intent is to provide limited transition relief and not a permanent exception.

An objection raised at the February 14 advisory committee meeting is that the provision does not specify a time within which the FAA would have to respond to a request for a deviation. A 20-day limit on the response time was recommended by an advisory committee member. The FAA does not believe that a response time limit is appropriate and is unlikely to accept such a time limit on FAA action. Comments are invited.

Revisions to Part 135—Scheduled Operations

As discussed earlier, under the current regulations, no distinction exists between scheduled and non-scheduled operations. All Part 135 operations have a 24-hour flight time limit of 8 hours for a one-pilot crew and 10 hours for a two-pilot crew, and a rest requirement of 10 hours in any 24-hour period. Under the proposed rule, scheduled operations would be separated from non-scheduled. For scheduled operations the daily rest requirements would be identical to daily rest requirements for Part 121 domestic operations, as discussed above under "Revisions to Part 121 and Part 135 Scheduled Operations." In addition, proposed § 135.265 would impose the following flight time limits:

(1) 1,200 hours in any calendar year.
(2) 120 hours in any calendar month.
(3) 32 hours in any 7 consecutive days.
(4) 8 hours during any 24 consecutive hours for a flight crew consisting of one pilot.
(5) 9 hours between rest periods for a flight crew consisting of two pilots.

With the exception of the 8-hour limit, these flight time limits parallel those under § 121.471(h). These figures are similar to the recommendations of those advisory committee members representing scheduled operations subject to Part 135, and are considered to be set at a level that accommodates those operators' scheduling constraints, while requiring a much stricter flight time limit than under present regulations. Under current regulations pilots on two member crews may fly as many as 10 hours a day or 70 hours a week. Under the proposed rule they may fly only 32 hours per week.

The retention of the daily 8-hour flight time requirement for a one pilot crew is necessary because under Part 135 one pilot crews are currently permitted for certain operations, and the FAA considers 8 hours to be the maximum for safe operation of a one-pilot crew without regard to whether there are weekly and other cumulative limits.

Another new requirement for Part 135 operators is the proposed provision in § 135.265(d) that flight crewmembers be relieved of all duty for at least 24 consecutive hours at least once during any 7 consecutive days. This requirement is identical to § 121.471(d) and works together with the weekly flight time limits to prevent the buildup of fatigue in flight crewmembers operations under Part 135.

Revisions to Part 135—Non-Scheduled Operations

Quarterly and Yearly Flight Time Limits

Current § 135.261 contains no cumulative flight time limits. The proposed §§ 135.267(a) and 135.269(a) would impose the following quarterly and yearly flight time limits:

(1) 500 hours in any calendar quarter.
(2) 800 hours in any two consecutive quarters.
(3) 1,400 hours in any calendar year.

The quarterly and yearly flight time limitations are intended to prevent cumulative fatigue while acknowledging that the seasonal operations of a few non-scheduled operators may exceed the weekly and monthly limits proposed in § 135.265.

As used in this proposal "calendar quarter" refers to January–March, April–June, July–September, or October–December.

Quarterly Rest Requirements

In the current Part 135 rules, there is no requirement to provide one 24-hour period of rest in every 7-day period as there is in Part 121. Proposed §§ 135.267(f) and 135.269(b) would require the certificate holder to provide at least 13 rest periods of at least 24 hours in each calendar quarter. While this requirement is not identical to the rest required under Part 121, it will provide adequate rest and still allow flexibility in scheduling 24-hour rests for seasonal and on-demand operations.

Daily Flight Time Limits and Rest Requirements for One- and Two-Pilot Crews

The daily flight time limits of § 135.267(b) are parallel to the present § 135.261(a) with the following exceptions. the phrase "required by this chapter" has been replaced by the phrase "qualified under this part" with respect to the 10-hour flight time limit for a flight crew consisting of two pilots. In effect, this will allow a flight crew consisting of two qualified pilots to fly up to 10 hours in an aircraft which may be operated by a flight crew of only one pilot under Part 135. In addition a new paragraph (c) has been added which allows a flight crewmember to exceed the flight hours of paragraph (b) within a specified duty period.

Paragraph (c) § 135.267 would allow an operator and flight crew to use a regular daily schedule rather than the rolling 24-hour clock. A flight crew could fly the allowed flight time any time during a regularly scheduled duty period which is separated from the next duty period by a regularly scheduled rest period of at least 10 hours. The duty period and the rest period together must total 24 hours. This alternative is intended to give scheduling flexibility to Part 135 operators who use a regular, diurnal cycle as the basis of their operations.

Another difference from the current rule is the addition of flight time limits for augmented crews. These limits, set forth in § 135.269, are discussed below.

Daily Flight Time Limits and Rest Requirements for Three- and Four-Pilot Crews

Since the present rules do not provide special requirements for augmented crews, operations which utilize augmented crews have been operating under exemptions. Proposed Section 135.269(c) incorporates the exemption requirements into the rule. Basically the rule would limit flight time to 8 hours in 24 consecutive hours, but would allow for an extended duty period and extended period aloft if the aircraft is equipped with approved sleeping facilities for the relief pilot. The rule also would require a minimum 12-hour rest after an extended duty period. These regulations would provide an equivalent level of safety while recognizing the benefits of augmented crews for certain operations.

Helicopter Hospital Emergency Medical Evacuation Services

Proposed § 135.271 contains regulations for the helicopter hospital emergency medical evacuation services. These regulations would differ from proposed § 135.267 in that flight time would be limited to 8 hours and the rest period would be at least 8 consecutive hours during any 24 consecutive hours. No emergency evacuation assignment would be allowed to exceed 72 consecutive hours at the hospital. In order to assure that a helicopter pilot is adequately rested, there would have to be an approved place of rest at, or in close proximity to, the hospital at which the helicopter is based. In addition, an extended rest period would be required

at the completion of an assignment. These air ambulance operations are of undoubted social benefit and proven safety. The FAA has been issuing exemptions for these operations for several years and is satisfied that they are safe. This proposal codifies the terms of the typical exemption for emergency evacuations.

Economic Evaluation

The proposals in this NPRM are expected to generate no net cost, while maintaining or increasing the level of safety. Although there are a number of changes in the regulation, any potentially costly changes would be balanced by benefits. Major changes are discussed below.

Part 121

The basic changes in Part 121 would be the inclusion of a minimum rest period for periods when flight time is less than 8 hours in any 24 consecutive hours, and changes in the required rest periods when flight time is 8 hours or more in any 24 consecutive hours. The first change is not expected to involve significant cost, because the required rest period is only 9 hours and it can be reduced to 7½ hours if a longer rest is provided at the next scheduled rest period. The second change stipulates that a rest period of 10 hours must be given if the flight time exceeds 8 hours in any 24 consecutive hours, and 11 hours if the flight time exceeds 9 hours in any 24 consecutive hours. These periods may be reduced if longer rests are given at the next scheduled rest periods. The present regulation requires that if a flight crewmember exceeds 8 hours of flight in 24 consecutive hours, an intervening rest period must be given of twice the flight time before the rest period; also, at the end of the crewmember's "series of flights," there must be a 16-hour rest period granted. While the proposed rule is substantively different from the present rule, the FAA believes it will be beneficial to operators, allowing somewhat more flexibility than the present rule.

Part 135

There are a number of changes from the present rule. In particular, different rules would be provided for scheduled versus non-scheduled operations. The proposed rule for Part 135 is similar to that for Part 121. However, the weekly, monthly, and annual maximum flight hours for all Part 135 operators are somewhat higher than the Part 121 limits.

The proposed Part 135 non-scheduled regulations are similar to present regulations except that certain penalties in the present rule are moderated, while quarterly and annual flight time limits are added.

Both scheduled and non-scheduled proposals are based on industry recommendations to the committee. As such, they were presented as acceptable from a cost standpoint, and thus were only generally reviewed from a benefit/cost standpoint. The costs are expected to be minimal. For example, certain monthly, quarterly, and annual hours will have to be checked by operators. This is a minimal cost, since basic payroll type records already provide simple building blocks for developing such data.

A number of elements incorporated in the proposal would eliminate potentially costly situations. For example, non-scheduled operations have no requirement for 1 day off in 7, but are required to give 13 days off per calendar quarter. This provides the flexibility needed by non-scheduled operations. From comments to previous NPRM's, the FAA knows that there would be a significant cost if the rule required 1 day off in 7.

As outlined in the discussion of the proposals, other rule elements are either non-costly, relaxatory, or they are codifications of present exemptions. As such they are not expected to have a net cost to any segment of the industry. Also, while there are benefits to some of the changes, these are not readily quantifiable. Only the air carriers can accurately determine, by comparing crew scheduling options under present rules to the proposals, whether costs or benefits are associated with the proposals.

Under the terms of the Regulatory Flexibility Act of 1980, Federal agencies must review regulatory proposals with particular concern about the impact rules might have on small entities. The proposals will not have significant economic impact on a substantial number of small entities because the only costs implied (those for keeping track of total flight hours on a quarterly and annual basis) are minimal and are balanced by benefits of new flexibilities in the rules.

List of Subjects

14 CFR Part 121

Aviation safety, Safety, Air carriers, Air traffic control, Air transportation, Aircraft, Aircraft pilots, Airmen, Airplanes, Airports, Airspace, Airworthiness directives and standards, Beverages, Cargo, Chemicals, Children, Narcotics, Flammable materials, Handicapped, Hazardous materials, Hours of work, Infants, Liquor, Mail, Drugs, Pilots, Smoking, Transportation, Common carriers.

14 CFR Part 135

Air carriers, Airplanes, Airspace, Aviation safety, Air traffic control, Air transportation, Air taxi, Airworthiness, Airmen, Aircraft, Alcohol, Airports, Baggage, Beverages, Cargo, Chemicals, Drugs, Handicapped, Hazardous materials, Helicopters, Hours of work, Mail, Narcotics, Pilots, Safety, Smoking, Transportation, Weapons.

Proposed Rule

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Parts 121 and 135 of the Federal Aviation Regulations (14 CFR Parts 121 and 135) as follows:

PART 121—CERTIFICATION AND OPERATIONS: DOMESTIC, FLAG AND SUPPLEMENTAL AIR CARRIERS AND COMMERCIAL OPERATORS OF LARGE AIRCRAFT

1. By revising the table of contents of Subpart Q of Part 121 to read as follows:

Subpart Q—Flight Time Limitations: Domestic Air Carriers

Sec.
121.470 Applicability.
121.471 Flight time limitations: All flight crewmembers.

2. By revising Subpart Q of Part 121 to read as follows:

Subpart Q—Flight Time Limitations: Domestic Air Carriers

§ 121.470 Applicability.

This subpart prescribes flight time limitations for domestic air carriers.

§ 121.471 Flight time limitations: All flight crewmembers.

(a) Except as provided in paragraph (h) of this section, no domestic air carrier may schedule any flight crewmember and no flight crewmember may accept an assignment for flight time in scheduled air transportation or in other commercial flying if that crewmember's total flight time in all commercial flying will exceed—

(1) 1,000 hours in any calendar year;
(2) 100 hours in any calendar month;
(3) 30 hours in any 7 consecutive days;
(4) 9 hours between rest periods.

(b) Except as provided in paragraph (c) of this section, no domestic air carrier may schedule a flight crewmember and no flight crewmember may accept an assignment for flight time during the 24 consecutive hours preceding the scheduled completion of any flight segment without a scheduled

rest period during that 24 hours as follows:

(1) 9 consecutive hours of rest for less than 8 hours of flight time.

(2) 10 consecutive hours of rest for 8 or more but less than 9 of flight time.

(3) 11 consecutive hours of rest for 9 or more hours of flight time.

(c) An air carrier may schedule a flight crewmember for less than the rest required in paragraph (b) of this section or may reduce a scheduled rest under the following conditions:

(1) A rest required under paragraph (b)(1) of this section may be scheduled for or reduced to a minimum of 7½ hours if the flight crewmember is given at his next scheduled rest period 10 hours of rest before being assigned to any further flight time with the air carrier.

(2) A rest required under paragraph (b)(2) of this section may be scheduled for or reduced to a minimum of 8 hours if the flight crewmember is given at his next scheduled rest period 11 hours of rest before being assigned to any further flight time with the air carrier.

(3) A rest required under paragraph (b)(3) of this section may be scheduled for or reduced to a minimum of 9 hours if the flight crewmember is given at his next scheduled rest period 12 hours of rest before being assigned to any further flight time with the air carrier.

No air carrier may assign, nor may any flight crewmember perform any flight time with the air carrier unless the flight crewmember has had at least the minimum rest required under this paragraph.

(d) Each domestic air carrier shall relieve each flight crewmember engaged in scheduled air transportation from all further duty for at least 24 consecutive hours during any 7 consecutive days.

(e) No domestic air carrier may assign any flight crewmember and no flight crewmember may accept assignment to any duty with the air carrier during any required rest period.

(f) Time spent in transportation, not local in character, that an air carrier requires of a flight crewmember and provides to transport the crewmember to an airport at which he is to serve on a flight as a crewmember, or from an airport at which he was relieved from duty to return to his home station, is not considered part of a rest period.

(g) A flight crewmember is not considered to be scheduled for duty in excess of flight time limitations if the flights to which he is assigned are scheduled and normally terminate within the limitations, but due to circumstances beyond the control of the air carrier (such as adverse weather conditions) are not at the time of departure expected to reach their destination within the scheduled time.

(h) For operations of propeller driven multiengine airplanes having a passenger seating configuration of 31–60 seats and a payload capacity of 18,000 pounds or less, no air carrier may schedule any flight crewmember for flight time in scheduled air transportation or in other commercial flying if that crewmember's total flight time in all commercial flying will exceed—

(1) 1,200 hours in any calendar year.

(2) 120 hours in any calendar month.

(3) 32 hours in any 7 consecutive days.

(4) 9 hours between rest periods.

PART 135—AIR TAXI OPERATORS AND COMMERCIAL OPERATORS

3. By revising the table of contents of Subpart F of Part 135 to read as follows:

Subpart F—Flight Crewmember Flight Time Limitations

Sec.
135.261 Applicability.
135.263 Flight time limitations: All certificate holders.
135.265 Flight time limitations: Scheduled operations.
135.267 Flight time limitations: Non-scheduled one- and two-pilot crews.
135.269 Flight time limitations: Non-scheduled three- and four-pilot crews.
135.271 Helicopter hospital emergency medical evacuation services (HEMES).

4. By revising Subpart F of Part 135 to read as follows:

Subpart F—Flight Crewmember Flight Time Limitations

§ 135.26 Applicability.

Section 135.263 through 135.271 prescribe flight time limitations and rest requirements for operations conducted under this part as follows:

(a) Section 135.263 applies to all operations under this subpart.

(b) Section 135.265 applies to scheduled operations except scheduled operations conducted solely within the state of Alaska. "Scheduled operations" means passenger-carrying operations that are conducted in accordance with a published schedule of at least five round trips per week on at least one route between two or more points which includes dates or times (or both) that is openly advertised or otherwise made readily available to the general public.

(c) Section 135.267 and 135.269 apply to air taxi operations, commercial operator operations, and operations conducted solely within the state of Alaska.

(d) Section 135.271 contains special daily flight time limits for operations conducted under the helicopter emergency medical evacuation service (HEMES).

§ 135.263 Flight time limitations: All certificate holders.

(a) A certificate holder may assign a flight crewmember and a flight crewmember may accept an assignment for flight time only when the applicable requirements of §§ 135.263 through 135.271 are met.

(b) No certificate holder may assign any flight crewmember to any duty with the air carrier during any required rest period.

(c) Time spent in transportation, not local in character, that a certificate holder requires of a flight crewmember and provides to transport the crewmember to an airport at which he is to serve on a flight as a crewmember, or from an airport at which he was relieved from duty to return to his home station, is not considered part of a rest period.

(d) A flight crewmember is not considered to be scheduled for duty in excess of flight time limitations if the flights to which he is assigned are scheduled to and normally terminate within the limitations, but due to circumstances beyond the control of the air carrier or flight crewmember (such as adverse weather conditions), are not at the time of departure expected to reach their destination within the scheduled time.

(e) When a flight crewmember has exceeded the daily flight time limitations in § 135.265 through 135.271, because of circumstances beyond the control of the certificate holder or flight crewmember (such as adverse weather conditions), that flight crewmember must have a rest period before the next duty period of at least—

(1) 11 consecutive hours of rest if the flight time limitation is exceeded by not more than 30 minutes;

(2) 12 consecutive hours of rest if the flight time limitation is exceeded by more than 30 minutes, but not more than 60 minutes; and

(3) 16 consecutive hours of rest if the flight time limitation is exceeded by more than 60 minutes.

The rest requirements of this paragraph supersede shorter rest requirements of this subpart.

(f) Within 2 years after the issuance of this rule, the Director of Flight Operations may issue operations specifications authorizing a deviation from any specific requirement of §§ 135.267 and 135.269 if he finds that the deviation provides a substantially equivalent standard of safety.

§ 135.265 Flight time limitations: Scheduled operations.

(a) No air carrier may schedule any flight crewmember for flight time in scheduled operations or in other commercial flying if that crewmember's total flight time in all commercial flying will exceed—

(1) 1,200 hours in any calendar year.

(2) 120 hours in any calendar month.

(3) 32 hours in any 7 consecutive days.

(4) 8 hours during any 24 consecutive hours for a flight crew consisting of one pilot.

(5) 9 hours between rest periods for a flight crew consisting of two pilots.

(b) Except as provided in paragraph (c) of this section, no air carrier may schedule a flight crewmember for flight time during the 24 consecutive hours preceding the scheduled completion of any flight segment without a scheduled rest period during that 24 hours as follows:

(1) 9 consecutive hours of rest for less than 8 hours of flight time.

(2) 10 consecutive hours of rest for 8 or more but less than 9 hours of flight time.

(3) 11 consecutive hours of rest for 9 or more hours of flight time.

(c) An air carrier may schedule a flight crewmember for less than the rest required in paragraph (b) of this section or may reduce a scheduled rest under the following conditions:

(1) A rest required under paragraph (b)(1) of this section may be scheduled for or reduced to a minimum of 7½ hours if the flight crewmember is given at his next scheduled rest period 10 hours of rest before being assigned to any further flight time with the air carrier.

(2) A rest required under paragraph (b)(2) of this section may be scheduled for or reduced to a minimum of 8 hours if the flight crewmember is given at his next scheduled rest period 11 hours of rest before being assigned to any further flight time with the air carrier.

(3) A rest required under paragraph (b)(3) of this section may be scheduled for or reduced to a minimum of 9 hours if the flight crewmember is given at his next scheduled rest period 12 hours of rest before being assigned to any further flight time with the air carrier.

(d) Each air carrier shall relieve each flight crewmember engaged in scheduled air transportation from all further duty for at least 24 consecutive hours during any 7 consecutive days.

§ 135.267 Flight time limitations: Non-scheduled one- and two-pilot crews.

(a) No certificate holder may assign any flight crewmember, and no flight crewmember may accept an assignment, for duty during flight time if that crewmember's total flight time in all commercial flying will exceed—

(1) 500 hours in any calendar quarter.

(2) 800 hours in any two consecutive calendar quarters.

(3) 1,400 hours in any calendar year.

(b) Except as provided in paragraph (c) of this section, during any 24 consecutive hours the total flight time of the assigned flight when added to any other commercial flying by that flight crewmember may not exceed—

(1) 8 hours for a flight crew consisting of one pilot; or

(2) 10 hours for a flight crew consisting of two pilots qualified under this Part.

(c) A flight crewmember's flight time may exceed the flight time limits of paragraph (b) of this section if the assigned flight time occurs during a regularly assigned duty period of no more than 14 hours and—

(1) If this duty period is immediately preceded by 10 or more consecutive hours of rest;

(2) If flight time is assigned during this period, that total flight time when added to any other commercial flying by the flight crewmember may not exceed—

(i) 8 hours for a flight crew consisting of one pilot; or

(ii) 10 hours for a flight crew consisting of two pilots; and

(3) If the combined duty and rest periods equal 24 hours.

(d) Each assignment under paragraph (b) of this section must provide for at least 10 consecutive hours of rest during the 24-hour period that precedes the planned completion time of the assignment.

(e) Each assignment under paragraph (c) of this section must be immediately preceded by and followed by 10 consecutive hours of rest.

(f) The certificate holder must provide each flight crewmember at least 13 rest periods of at least 24 consecutive hours each in each calendar quarter.

§ 135.269 Flight time limitations: Non-scheduled three- and four-pilot crews.

(a) No certificate holder may assign any flight crewmember for duty during flight time if the crewmember's total flight time in all commercial flying will exceed—

(1) 500 hours in any calendar quarter.

(2) 800 hours in any two consecutive calendar quarters.

(3) 1,400 hours in any calendar year.

(b) A certificate holder must provide each flight crewmember at least 13 rest periods of at least 24 consecutive hours each in each calendar quarter.

(c) No certificate holder may assign any pilot to a crew of three or four pilots, unless that assignment provides—

(1) At least 10 consecutive hours of rest immediately preceding the assignment;

(2) No more than 8 hours of flight time in any 24 consecutive hours;

(3) No more than 18 duty hours for a three-pilot crew or 20 duty hours for a four-pilot crew in any 24 consecutive hours;

(4) No more than 12 hours aloft for a three-pilot crew or 16 hours aloft for a four-pilot crew during the maximum duty hours specified in paragraph (c)(3) of this section;

(5) Approved sleeping facilities on the aircraft for the relief pilot;

(6) Upon completion of the assignment, a rest period of at least 12 hours;

(7) For a three-pilot crew, a crew which consists of at least the following:

(i) A pilot in command (PIC) who meets the applicable flight crewmember requirements of Subpart E of Part 135;

(ii) A PIC who meets the applicable flight crewmember requirements of Subpart E of Part 135, except those prescribed in § 135.244 and 135.247; and

(iii) A second in command (SIC) who meets the SIC qualifications of § 135.245

(8) For a four-pilot crew, at least three pilots who meet the conditions of paragraph (c)(7) of this section, plus a fourth pilot who meets the SIC qualifications of § 135.245.

§ 135.271 Helicopter hospital emergency medical evacuation service (HEMES).

(a) A certificate holder operating under this section must also comply with § 135.267 (a) and (f).

(b) No certificate holder may assign a helicopter pilot for hospital emergency medical evacuation service helicopter operations unless that assignment provides for at least 10 consecutive hours of rest immediately preceding reporting to the hospital for availabitity for duty during flight time.

(c) No pilot may fly for more than 8 hours during any 24-consecutive hour period of a HEMES assignment.

(d) Each pilot must be given at least 8 consecutive hours of rest during any 24 consecutive hour period of a HEMES assignment.

(e) A HEMES assignment may not exceed 72 consecutive hours at the hospital.

(f) An approved place of rest must be provided at, or in close proximity to, the hospital at which the HEMES assignment is being performed.

(g) No certificate holder may assign any other duties during a HEMES assignment.

(h) Each pilot must be given a rest period upon completion of the HEMES assignment and prior to being assigned any further duty with the certificate holder of—

(1) 12 consecutive hours for an assignment of at least 24 hours but less than 48 hours.

(2) 16 consecutive hours for an assignment of more than 48 hours.

(Sec. 313, 314, and 601 through 610, Federal Aviation Act of 1958 (49 U.S.C. 1354, 1355, and 1421 through 1430); 49 U.S.C. 106(g) (revised, Pub. L. 97-449, January 12, 1983); and 14 CFR 11.45)

Note.—This notice proposes regulatory changes that are based on the discussions and recommendations of a regulatory negotiation advisory committee. Since this committee included representatives from the air transportation industry, the FAA believes that these regulatory proposals are not costly. Therefore, the FAA has determined that this notice involves a rulemaking action which: (1) Is not a "major rule" under Executive Order 12291, and (2) is not a "significant rule" under Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). In addition, it is certified that the proposals, if promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained by contacting the person identified under the caption "FOR FURTHER INFORMATION CONTACT."

Issued in Washington, D.C., on February 23, 1984.

Kenneth S. Hunt,

Director of Flight Operations.

Part V

Department of Energy

Office of Conservation and Renewable Energy

10 CFR Part 430

Energy Conservation Program for Consumer Products; Test Procedures for Furnaces, Vented Home Heating Equipment and Unvented Home Heating Equipment; Final Rule

DEPARTMENT OF ENERGY

Office of Conservation and Renewable Energy

10 CFR Part 430

[Docket No. CAS-RM-79-104]

Energy Conservation Program for Consumer Products; Test Procedures for Furnaces, Vented Home Heating Equipment, and Unvented Home Heating Equipment

AGENCY: Office of Conservation and Renewable Energy, DOE.

ACTION: Final rule.

SUMMARY: The Department of Energy (DOE) hereby prescribes amendments to its test procedures for furnaces, vented home heating equipment, and unvented home heating equipment. These test procedures are one part of the energy conservation program for consumer products established pursuant to the Energy Policy and Conservation Act as amended by the National Energy Conservation Policy Act. Among other program elements, the legislation requires that standard methods of testing be prescribed for 13 covered products.

DOE is referencing, the American National Standards Institute/American Society of Heating, Refrigerating, and Air-Conditioning Engineers (ANSI/ASHRAE) Standard 103–82 into the furnace test procedure. Other amendments prescribed today for furnaces include test procedures for modulating furnaces and boilers, condensing furnaces and boilers, and thermal stack dampers, and other technical revisions. Amendments prescribed today for vented home heating equipment include test procedures for vented heaters with thermal stack dampers and/or manual controls and a simplified test procedure which covers modulating vented heaters. Amendments prescribed today for unvented home heating equipment include test procedures for unvented heaters that use natural gas, propane, or kerosene. DOE is also including an estimated cost per million Btu output as a measure of energy use for vented and unvented heaters.

EFFECTIVE DATE: (30 days from publication)

SUPPLEMENTARY INFORMATION:

I. BACKGROUND

On October 1, 1977, the Department of Energy (DOE) assumed the authority of the Federal Energy Administration (FEA) for the energy conservation program for consumer products, under Section 301 of the Department of Energy Organization Act (DOE Act) (Pub. L. 95–91). The energy conservation program for consumer products was established by FEA pursuant to Title III, Part B of the Energy Policy and Conservation Act (EPCA) (Pub. L. 94–163). Subsequently, EPCA was amended by the National Energy Conservation Policy Act (NECPA) (Pub. L. 95–619). References in this notice to the Act, or to sections of the Act, refer to EPCA as amended by NECPA. Among other program elements, Section 323 of the Act requires that standard methods of testing be prescribed for covered products. Test procedures appear at 10 CFR 430, Subpart B.

II. DISCUSSION OF COMMENTS

In general, the received comments were supportive of the proposed amendments; consequently for most of the issues, today's notice prescribes the amendments as proposed. For each issue, the following discussion sections repeat the background information that was presented in the proposal followed by a characterization of the comments received and a statement delineating the disposition of the issue with regards to today's final rule. Also, some additional issues were brought up during the comment period. Where appropriate, those issues are also discussed here today.

A. Furnace Test Procedure

Test procedures for furnaces were prescribed by DOE by notice issued May 2, 1978. 43 FR 20155 (May 10, 1978). DOE amended the furnace test procedures by notice issued August 4, 1980. 45 FR 53720 (August 12, 1980). The amendment included provisions for pulse combustion and condensing furnaces and technical revisions. Subsequently, DOE has become aware of additional areas of concern through cooperative efforts with the furnace industry and by the test procedure waiver process. Specifically, manufacturers of condensing furnaces and boilers felt an improved method of testing was warranted to determine the amount of beneficial condensation produced in their designs; manufacturers of boilers felt the test procedure needed further clarification in the area of advanced controls (modulating controls and pump delay controls); utilities and research groups identified the need for improving the test procedure with regard to stack dampers and draft hood designs; and the furnace industry expressed the need for the test procedure to specifically outline the method of test for units installed in "isolated combustion systems." On the basis of the information submitted under the waiver process, research done by the National Bureau of Standards (NBS), and other available information, DOE proposed to amend the furnace test procedure to address all these concerns. 48 FR 28014 (June 17, 1983) hereafter referred to as the June 17 proposal. Subsequently, a public hearing was held on June 29, 1983 and comments were received regarding the proposed rule.

1. ANSI/ASHRAE Standard 103–82

When the test procedures were initially developed in 1976 and 1977, existing commercial standards were referenced wherever possible. The final test procedures prescribed by DOE reference sections from many commercial standards developed by various consensus standard organizations, such as ASHRAE, Air-Conditioning and Refrigeration Institute, American National Standards Institute, Association of Home Appliance Manufacturers, and Underwriters Laboratory. However, at the time when DOE was developing test procedures for residential furnaces and boilers, no commercial standard existed from ASHRAE, or any other organization, that could meet the needs of the Act. Specifically, no commercial standard was available for referencing by DOE that could be used to determine the annual energy consumption of a furnace as outlined in EPCA. Thus, DOE and NBS set out to develop a test procedure methodology that would satisfy the legislative requirements. This effort included referencing portions of certain commercial standards for the purposes of including test set up and instrumentation provisions that were already established in the test methods used by the furnace industry at that time.

As mentioned above, final test procedures for residential furnaces were prescribed by DOE, pursuant to the Act, on May 10, 1978. In 1980, the test procedures were amended to include new furnace designs and to make some technical revisions. Following the

establishment of the test procedure amendments ASHRAE initiated the development of a standard method of measurement and test for residential furnaces and boilers that could be referenced by DOE in its test procedures. ASHRAE established a Standards Project Committee, with representation from Industry, Government, and Research groups, for the purpose of developing a consensus standard for testing furnaces and boilers. The resulting commercial standard is now available entitled "Methods of Testing for Heating Seasonal Efficiency of Central Furnaces and Boilers ASHRAE 103–82." DOE believes the referencing of the ASHRAE Standard will not result in a difference in efficiency ratings since the Project Committee has essentially adopted the existing DOE test methods.

DOE is required by Section 32 of the FEA Act to alert the public to the use and background of commercial standards in a proposed rulemaking and, through the comment and hearing process, allow interested persons to make known their views regarding the appropriateness of the use of particular commercial standards in any proposed rulemaking.

In addition to identifying the organization which promulgated the standard to be used, Section 32 requires that the Secretary make a judgmental statement concerning the organization process of promulgating any of its standards (i.e. are all interested persons given adequate notice, is there effective representation of all interested persons in the membership, are all proceedings of the organization made available to the public, and can any interested persons obtain reconsideration and review of any action taken by the organization).

In the June 17, 1983 proposal it was the judgment of DOE that ASHRAE standards are not developed in a manner which provided for public participation, comment and review. ASHRAE (ASHRAE, No. 4, at 1),[1] American National Standards Institute (ANSI) (ANSI, No. 5 at 1), and GAMA (GAMA No. 12, at 1), all took exception to this statement and offered that ASHRAE and ANSI[2] procedures do clearly provide for public participation, comment, and review. DOE has reviewed the procedures of these organizations and agrees that, if complied with, these procedures will provide for public participation, comment, and review.

In addition, as required by Section 32(c) of FEA Act, DOE has consulted with the Attorney General and the Chairman of the Federal Trade Commission (FTC) regarding referencing ASHRAE Standard 103–82 into furnace test procedures. (Letters from DOE to the Attorney General and FTC dated July 26, 1983.)

All comments received concerning the use of ASHRAE Standard 103–82 expressed approval. In addition, neither the Attorney General nor the Chairman of FTC recommends against such referencing or use. (Letter from Attorney General dated September 14, 1983, letter from FTC dated September 12, 1983.) Therefore, DOE is referencing in today's final rule the ASHRAE Standard 103–82.

Since the standard has received approval from the American National Standards Institute (ANSI), the standard has been designated as the ANSI/ ASHRAE Standard 103–82. Today's final rule reflects this change.

2. Modulating Furnaces and Boilers

The furnace and vented heater test procedures were developed to reflect the fact that furnaces, boilers and vented heaters operate either at the maximum firing rate or are off. This is called single step control. For heating equipment that is designed to operate at various firing rates, both the vented heater and furnace test procedures require that the testing is to be based only on the maximum firing rate. It was thought that the results of such testing were reasonably accurate and further complication of an already complicated test procedure was not warranted. However, since that time, two vented heater and three furnace manufacturers have petitioned the Department's Office of Hearings and Appeals (OHA) for an Exception from the existing test procedure on the grounds that such procedures are not appropriate for their units which have modulating controls.[3] These petitioners felt that modified test procedures are necessary to account for operation with fuel modulation. OHA agreed with the petitioners and has granted an exception in each case. However, no testing provisions were specified in these grants regarding modulating controls. A revised procedure which accommodates two types of fuel modulating controls was developed by NBS and the June 17 proposal proposed this revised procedure.

The two types of modulating controls are:

1. "Step-modulating thermostat control" means a control that reduces burner fuel input rate if the heating load is light, or gradually increases or steps-up the heat input to meet any higher heating load that cannot be met with the low firing rate.

2. "Two stage thermostat control" means a control that either cycles a burner at the reduced heat input rate and off, or cycles a burner at the maximum heat input rate and off.

A. *Proposed Amendment*—The June 17 proposal included methods for measuring the Annual Fuel Utilization Efficiency (AFUE) for modulating furnaces and boilers by devising two new measures, weighted average steady state efficiency and weighted average part load efficiency. The methods are more fully described in the technical support document, *A Test Method and Calculation Procedure for Determining Annual Efficiency for Vented Household Heaters and Furnaces Equipped with Modulating-Type Controls*, NBSIR 82–2497, May 1982.

The June 17 proposal outlined calculation methods for two types of variable firing rate controls, i.e., step-modulating and two stage. All comments received expressed approval of these methods. However, Teledyne Laars and Raypak, Inc. requested clarification in the final rule on which calculation method is to be used when testing their particular design of two stage control. *See* Teledyne Laars and Raypak, Inc. No. 9, at 4. Specifically, the June 17 proposal assumes that two stage controls operate either from off to minimum and then to off, or from off to maximum and then to off. Their design of modulating controls differ in that they can operate from off to minimum to maximum and back to minimum (more than once) without ever going through an off cycle. NBS has determined that the proposed test method for step modulating controls is appropriate for this design of controls. Thus, the final rule is the same as the proposed rule with the addition of clarifying language

[1] Comments on the rulemaking were given docket numbers. Citations to comments provide the docket numbers, unless the comment was submitted as part of an oral presentation, in which case the citation is to the date and the numerical order of the presentation.

[2] ASHRAE Standards 103–82 received approval as an ANSI Standard on June 21, 1983.

A. O. Smith Corporation, Case No. HXE–0018, *Federal Energy Guidelines*, 81,042

involving user-evaluation of the control. Specifically, this control design is defined as a step modulating control in the definitions.

Also, in early comments, Raypak, Inc. expressed concerns about the appropriateness of the proposed provisions for modulating boilers in general. *See* Raypak, Inc., No. 1, at 1. However, the final comments from Raypak, Inc. endorsed these provisions as proposed. *See* Raypak, Inc., No. 6.

B. *Oversize Factor of Furnaces and Boilers*—In the existing furnace test procedure, the value of efficiency used to determine the estimated annual operating cost is prescribed to be constant for all design heating loads regardless of the extent that the capacity of the installed furnace exceeds the design heating load, i.e. the extent of oversizing. The existing furnace test procedures are only applicable to units with single-stage controls. Consequently, where the FTC labeling rule for furnaces and boilers requires annual operating costs for various design heating load to be determined, these costs are based on a single value of efficiency. NBS has found that oversizing has little effect on the efficiency of furnaces and boilers equipped with single stage controls.

However, the efficiency of modulating furnaces and boilers depend on the fraction of the heating load that occurs during the various firing rates. In turn, the fraction is dependent on the extent of oversizing. Consequently, for modulating units, DOE believes the test procedure should reflect the change in efficiency due to the differences in oversizing. This would allow the FTC labeling program to present the consumer with a valid evaluation of modulating furnaces and boilers.[4] Specifically, the labeled operating costs under each design heating load that appears on the FTC EnergyGuide Fact Sheet, will be based on the appropriate value of efficiency for the degree of oversizing that each design heating load represents.

Consequently, the June 17 proposal provided for a separate efficiency and annual cost calculation to be made for each oversizing factor, corresponding to each typical design heating load listed in Table 1 of the test procedure.

Teledyne Laars and Raypak, Inc. objected to the requirement to calculate the efficiency for each degree of oversizing. *See* Teledyne Laars and Raypak, Inc., No. 9, at 2. It is their belief that disclosure of these different efficiencies would be of little or no use to the consumer since most consumers do not understand what oversizing means and are not likely to use FTC EnergyGuide fact sheets in any event. DOE disagrees with this contention and fails to see any merit to reducing the accuracy of a test procedure on such a basis. The procedure to determine the different efficiencies is simply an arithmetic exercise with no additional testing required. Since the energy savings potential of modulating controls depends on the extent of oversizing, DOE feels it is justified to require these additional calculations.

These same commenters stated that the proposed test procedures do not provide for the use of zone controls for boilers, and therefore will not recognize the benefits of such widely used systems. *See* Teledyne Laars and Raypak, Inc. No. 9, at 3. DOE realizes this shortcoming but is reluctant to expand the test procedures to allow different ratings for installations with and without zone controls. As with other installation variables (i.e. chimney height) DOE has sought to be as representative as possible. Since most residential boiler installations are without zone controls, DOE believes it appropriate to have the efficiency ratings based on this single condition. Further, the expansion necessary to accommodate zone controls would be significantly more than that already objected to above (i.e. an efficiency for each degree of oversizing). This expansion would apply not only to modulating boilers but to all boilers. Therefore, DOE is not considering expanding the test procedures to accommodate zone controls at this time.

Hydrotherm Inc., a manufacturer of boilers which are equipped with modulating controls, has been granted a test procedure waiver to use the modulating control test provisions outlined in the June 17 proposal. 48 FR 55020 (December 8, 1983). The effective date of the final rule constitutes the official expiration of the test procedure waiver by Hydrotherm Inc. (F–009). Today's provisions reflect exactly the provisions granted in the Hydrotherm waiver (F–009).

Also, since the above mentioned test procedure exceptions, HXE–0012, HXE–0013, and HXE–0018, (delineated in footnote 3) were partially granted on the basis that no modulating control provisions were included in the existing test procedures, the effective date of this rule constitutes the expiration of those exceptions with regard to modulating controls. Further, those exceptions are superceded on the effective date of today's rule since all the grounds for these exceptions are now addressed. (*See* Section II a 9 "Pump Delay Boiler Controls" below).

3. Condensing Furnaces and Boilers

A. *Direct Condensate Method*—DOE has granted waivers to Hydrotherm, Inc. (Hydrotherm), Lennox Industries, Inc. (Lennox), Arkla Industries, Inc. (Arkla), Amana Refrigeration, Inc. (Amana), Duo/Matic Olsen, Inc. (Duo/Matic) and Heil Quaker Corporation (Heil) from the existing test procedures for furnaces and boilers because the prescribed test procedures do not adequately consider the improvement in energy efficiency attributable to the condensing and the removing of water in the flue products. 46 FR 34621 (July 2, 1981). 47 FR 32471 (July 27, 1982). 47 FR 57987 (December 29, 1982). 48 FR 28531 (June 22, 1983). 48 FR 41213 (September 14, 1983). 48 FR 41215 (September 14, 1983), respectively.

The test procedure waivers specified that the manufacturers use the test method outlined in Appendix C of the NBS report, *Recommended Testing and Calculation Procedures for Estimating the Seasonal Performance of Residential Condensing Furnaces and Boilers,* NBSIR 80–2110, April 1981. The June 17 proposal was identical to the requirements of the waivers except it proposed a six cycle test in lieu of three cycles. Hydronics Institute (HI), Carrier Corp., GAMA and Trane indicated that the six cycle test was burdensome especially for those designs that have repeatable condensate collection rates. *See* HI, No. 8, at 4, Carrier, No. 10, at 4; GAMA, No. 12, at 3; and Trane, No. 14, at 2. Also, the one hour period for the steady-state collection test was thought to be excessive by these commenters. NBS analyzed these issues and agrees with the recommended reduction in the number of required cycles for units with repeatable condensate collection rates and the reduction in steady-state testing time.

Accordingly, today's final rule prescribes a ½ hour steady-state test and a three cycle test for those furnaces and boilers with repeatable condensate collection rates. A furnace or boiler is considered to have a repeatable condensate collection rate if it can demonstrate a standard deviation less than 20 percent of the mean per cycle condensate collected after three cycles. For those furnaces and boilers which do not demonstrate a repeatable condensate collection rate in these first three cylces, and additional three cycles are required irrespective of variability.

[4] FTC labeling program for furnaces consists of a requirement to produce "EnergyGuide Fact Sheets" that report estimates of annual operating costs for several different design heating loads (degrees of oversizing).

The effective date of this final rule constitutes the official expiration of the following waivers: Hydrotherm (F–002), Lennox (F–004), Arkla (F–005), Amana (F–006), Duo-Matic/Olsen (F–008) and Heil (F–010). Today's rule differs from what was granted in these six waivers in that one hour steady-state test is changed to a 30 minute test and the cyclic test may be 3 cycles in length instead of 6 cycles in length.

4. Energy Efficiency Descriptor

Although not directly related to any of the issues raised in the June 17 proposal, many commenters discussed the need for an energy efficiency descriptor (energy efficiency rating) to account for the electrical energy used by a fossil fueled furnace in addition to the fossil fuel used. The descriptor AFUE only accounts for the fossil fuel efficiency. *See* TRD, No. 7, at 1; Carrier, No. 10, at 1; and GAMA, No. 12, at 8. The proposed provisions for modulating controls drew these comments since in most modulating designs improved fuel efficiency (AFUE) is obtained at the expense of additional electrical energy consumption, (e.g. increased blower run time). The existing regulation for determining annual operating costs does reflect this concept, since electrical and fuel costs are separately determined and then summed. The commenters felt that in addition to the annual operating cost provisions, an energy efficiency descriptor needs to be added that will fairly disclose to the consumer the relative performance of different designs of furnaces that use both fossil fuel and electricity. Commenters felt the situation is exacerbated by FTC's labeling program, where for furnaces the dominant disclosure is AFUE and annual operating costs are relegated to the bottom of the Fact Sheet in grid format. The consumer may make a purchasing decision solely on the AFUE and not consider the electrical cost as well. Carrier delineated an example of the misleading nature of comparisons based on AFUE by showing where a higher AFUE furnace had an actual higher annual operating cost. *See* Carrier Corp., No. 10, at 2. Obviously, this outcome was dependent on assumed relative costs of the fuel and electricity. Other relative costs assumptions could lead to the opposite outcome, i.e., higher AFUE, lower operating costs. The commenters suggested the adoption of a new efficiency descriptor that includes an *average* electricity to fuel cost ratio. Any rankings developed from this descriptor would be identical to that developed on the basis of annual operating costs using the same average electricity to fuel costs ratio. DOE sees some merit to an efficiency descriptor based on the average electricity to fuel cost ratio but feels there exists, already in DOE procedures, a superior method of rating a furnace's performance in all costs scenarios, not just average costs scenarios. The DOE procedures currently provide the method of calculation needed to explicitly detail the electrical energy cost and the fuel energy cost for any furnace.

Therefore, for the reasons discussed above today's final rule does not include a new energy efficiency descriptor. However, DOE will continue to examine this subject and may consider revisions at a later date.

5. Furnaces Without Draft Relief

The 1980 amendments clarified how to test gas furnaces equipped with reduced draft fans and no draft relief device. Specifically, a definition of "direct exhaust" was added and provisions to allow testing of direct exhaust systems were specified. In addition, the Carrier Corporation was granted a test procedure waiver for its induced draft gas furnace with a draft safeguard system. 46 FR 22799 (April 21, 1981). The waiver specified that the unit with a draft safeguard system is tested according to the same provisions specified in the 1980 amendments for "direct exhaust" systems.

The June 17 proposal would allow all manufacturers of similar designs to use the provisions granted to Carrier's draft safeguard system.

All commenters that addressed this issue agreed with the proposal. *See* HI, No. 8, at 4; Carrier, No. 10, at 3; ETL, No. 11, at 4; and Trane, No. 14, at 2. However, both GAMA and Hydronics Institute suggested that the term "draft safeguard system" is proprietary and should be eliminated. DOE agrees with the commenters, and today's final rule adopts the proposal except that the term "draft safeguard system" is eliminated.

The effective date of today's rule constitutes the official expiration of the Carrier waiver (F–001). Future rulemakings may consider the need to specify exactly how to determine this percent flue flow if it is found that today's provisions lead to difficulty in replicating the procedure.

6. Hot Water Boiler Specifications

Existing test procedures for non-condensing hot water boilers specify testing at a 120°F temperature rise and a 200°F outlet water temperature. These specifications generally are not difficult to achieve and thereby reduce the testing burden on manufacturers. However, some manufacturers of finned tube boilers were granted test procedure exceptions because their boilers cannot be tested safely at these conditions. (Exception requests by Teledyne Laars and Raypak, Office of Hearings and Appeals, Case Nos. DEE–3439 and DEE–3950). The August 1980 amendments to the furnace test procedures prescribed test procedures for finned tube boilers. Specifically, these amendments required boilers to be tested at at a 20°F to 40°F temperature rise and a 200°F outlet water temperature.

Since the 1980 amendments, Energy Kinetics (F–003), a manufacturer of boilers which are designed with low thermal mass, received a test procedure waiver to allow testing of its boilers under the provisions prescribed for finned tube boilers. 46 FR 58732 (December 3, 1981).

The June 17 notice proposed entirely new provisions, specifically all non-condensing hot water boilers are to be tested with a return inlet water temperature of at least 120°F and a water temperature rise of at least 20°F. DOE believed that all non-condensing hot water boilers, including finned tube boilers and low thermal mass boilers, generally operate at these conditions.

Teledyne Laars and Raypak agreed with these provisions but felt the exact test apparatus necessary to supply the 120°F water should be specified. *See* Teledyne Laars and Raypak, Inc., No. 9, at 4. DOE disagrees and would like to avoid further specification, because in this case no increase in test procedure accuracy is likely.

The effective date of today's final rule constitutes the official expiration of the water specifications provisions of the test procedure waiver granted to Energy Kinetics (F–003).

7. Thermal Stack Dampers

The June 17 proposal proposed a test method to directly measure the off-cycle losses for furnaces and boilers equipped with thermal stack dampers. These losses are the off-cycle infiltration loss ($L_{I,OFF}$) and the off-cycle sensible loss ($L_{S,OFF}$) which have been estimated in the past by the use of off-cycle draft factors for flue gas flow (D_F) and for stack gas flow (D_S). Currently, the off-cycle draft factors are assigned values in the existing furnace test procedure and these draft factors are adjusted if the unit is equipped with an electro-mechanical stack damper; this adjustment factor is the stack damper effectiveness factor D_O.

For furnaces and boilers with thermal stack dampers, the energy efficiency could not be accurately determined by using the value of D_O that was

developed for electric-mechanical stack dampers. This is based on the fact that thermal stack dampers typically have changing off-period leakage rates, whereas electro-mechanical dampers typically have relatively constant off-period leakage rates. Also, the leakage rate is strongly dependent on temperature for thermal stack dampers whereas it is not dependent on temperature for electro-mechanical stack dampers.

The June 17 proposal allowed for the direct measurement of off-cycle losses by measuring the concentration of a tracer gas in the flue and in the stack during an appropriate off-cycle period and thereby eliminating any need for assigned draft factors. The method is based on the tracer gas method described in Appendix A of the NBS milestone report, *Recommendations to DOE on Modifications of Assigned Factors for Test Procedures for Vented Gas and Oil Fueled Heaters*, May 1980, and in Appendix D of ANSI/ASHRAE Standard 103–82. *See* NBS letter report, *An Analysis of Burner On and Off Periods and Their Effect on Part-Load Efficiency for Furnaces and Boilers Equipped with Modulating Controls*, January 1983.

Comments received regarding this issue approved of the proposal. *See* HI, No. 8, at 5 and Trane No. 14, at 2. However, GAMA's test procedure committee pointed out a number of questions that needed to be clarified before GAMA could fully support the provisions (e.g. should the thermal stack damper be in place for all parts of the test? should the thermal stack damper be insulated during testing? should the provision apply to furnaces with power burners?) *See* GAMA, No. 12, at 6. GAMA stated that the provision needed to be reproposed to allow comment on the complete procedures. DOE agrees and is reserving those provisions relating to thermal stack dampers until testing details and calculation procedures as required can be developed. These details and procedures are still being developed by the National Bureau of Standards. Thus, DOE will include those provisions in a separate notice.

8. Improvement in Stack (Flue) Damper Evaluation in the Test Procedures

Since the development of DOE furnace test procedures, it has been suspected by many interested parties that the actual energy efficiency improvement attributable to electro-mechanical stack (flue) dampers is less than that predicted in the test procedures. At this time, DOE is aware of analyses (both theoretical and field analyses) that support this conclusion. *See Proposed Framework for Furnace and Boiler Test Procedure Modifications*, a report to U.S. DOE Office of Buildings Energy Research and Development by Arthur D. Little, Inc., November 1982.

The current test procedure evaluates the effectiveness of a stack (flue) damper by comparing the area of the damper plate to the area of the stack. This simplified evaluation method ignores damper closing times. Thus, it is deficient in that it likely results in overstatements of efficiency. Also, the existing method discourages manufacturers from using quicker closing dampers.

The June 17 notice proposed that the direct measurement (tracer gas) method proposed for thermal stack dampers be allowed as an option for other than thermal stack flue dampers.

As with the provisions proposed for thermal stack dampers, all comments received expressed merit for the provisions. *See* HI, No. 8 at 5; GAMA, No. 12, at 6; and Trane, No. 14, at 2. However, since these provisions for all stack damper designs use essentially the same test method as was proposed for thermal stack dampers, the same questions as to the completeness of the proposed provisions were also raised. DOE agrees with these comments, therefore, DOE is reserving those provisions relating to the direct measurement method of testing all designs of stack dampers until testing details and calculation procedures as required can be developed.

9. Pump Delay Boiler Controls.

The June 17 proposal for pump delay boiler controls included a test method similar to that for time delay blower controls for furnaces, i.e. during testing the circulating pump is allowed to operate in accordance with its own control strategy. Maximum allowable time delays, a minimum return water temperature and a method for calculating the estimated annual operating cost to reflect the additional run time of the electrical circulating pump were proposed.

HI agreed with the proposal, especially for those control strategies that are time actuated. *See* HI, No. 8, at 6. However, HI felt clarification of the test method with regard to temperature actuated controls was required. It recommended a 15 minute fixed time delay be used for these controls. NBS reviewed these comments and also recommends the incorporation of this provision. Consequently, DOE has incorporated these provisions into today's final rule.

Three boiler manufacturers were granted test procedure exceptions which allowed testing under these provisions for pump delay. (Previously mentioned in footnote 3 were Raypak, Teledyne-Laars, and A. O. Smith). Since both pump delay and modulating controls are addressed, the effective date of today's final rule constitutes the official expiration of exceptions HXE–0012, HXE–0013, and HXE–0018.

DOE also received comments regarding the need to specify clearly the procedures for testing boilers designed for continous pump operations. *See* ETL, No. 11, at 1. This is done in today's rule by allowing such designs to have their laboratory testing conducted under continuous pump operation. In addition, the calculations are appropriately adjusted to reflect continuous operation.

10. Improved Method of Determining the S/F Factor for Furnaces and Boilers

A. Gas Furnaces and Boilers—The June 17 proposal included a method for calculating the S/F factor (average ratio of stack gas mass flow rate to flue gas mass flow rate at steady-state operation). The S/F factor is used to measure the on-cycle infiltration losses and the off-cycle infiltration losses in the furnace test procedure. The existing method is based on assigned values. The proposed method is based on the flue and stack measurements of CO_2 concentration, which already are required in the existing test procedures.

All comments received regarding these issues agreed with the proposal. *See* HI, No. 8, at 4; Carrier, No. 10, at 4; GAMA, No. 12, at 6; and Trane, No. 14, at 3. However, GAMA and the Hydronics Institute pointed out that though the flue and stack measurements of CO_2 concentration are already required for gas units with integral draft diverters, they are not required for units equipped with draft hoods. In consideration of this, the commenters suggested a 2-year phase in period for gas units equipped with draft hoods since data is not on file for previously tested units and thus additional testing is necessary to develop the new S/F factors. DOE agrees and has incorporated the suggested 2-year phase in period for units equipped with draft hoods. Specifically, the draft hood units shall have the option of using the existing assigned value or today's method for a 2-year period. Thereafter only today's method may be used.

B. Oil Furnaces and Boilers—Based on tests conducted by NBS, it was found that the value of S/F for oil furnaces and boilers is relatively constant, therefore, the assigned value of S/F is not likely to

result in marked inaccuracy. Also, oil furnaces and boilers are commonly marketed and sold without a barometric draft regulator. Thus, for those models, a laboratory determination of an S/F value is inappropriate.

Therefore, DOE proposed to allow the use of an assigned value of S/F oil furnaces and boilers and at the manufacturers option a measured value of S/F for oil furnaces and boilers that have the barometric regulator shipped with the unit. As with the gas furnaces and biolers, CO_2 concentrations are used to determine the measured value of S/F.

No opposing comments were received on this issue. Therefore, DOE has adopted the provisions as proposed.

11. Isolated Combustion System (ICS)

The June 17 notice addressed how DOE test procedures should be applied to determine a representative energy efficiency for units installed in an "isolated combustion system." DOE proposed that an assigned jacket loss value of 1 percent may be used, as an option, by all designs of furnaces, if an outdoor rating is made. Since many of the units in ICS installations are designed and intended for indoor installations, this will allow manufacturers to produce indoor and outdoor ratings of any design without increasing testing burden. Additionally, DOE proposed that representations specifically regarding ICS installations be based on the outdoor test method with one half of the jacket loss deduction.

All commenters supported the proposal regarding ICS systems. *See* HI, No. 8, at 6; Carrier, No. 10, at 3; GAMA, No. 12, at 5; and Trane, No. 14, at 3. Therefore, the provisions are adopted as proposed.

In addition, HI and GAMA suggested that this issue further be clarified by revising the definition of "outdoor furnace" in the ASHRAE/ANSI Standard 103–82. *See* HI, No. 8, at 6, and GAMA, No. 12, at 5. Basically, this suggestion is to require a statement on the furnace itself that indicates "intended for outdoor use" if the manufacturer is to consider his design an outdoor furnace in the test procedures. GAMA indicated it would petition the appropriate ASHRAE revision committee regarding this issue.

12. Additional Issues Regarding Furnace Test Procedures

There were a number of additional issues brought up in the comments regarding the furnace test procedures. Although in most cases, these comments were not directly related to the June 17 proposal, they are discussed here for the information of all interested parties.

A. Test Procedure Applicability to Furnaces with High Mass Heat Exchangers—The 20th Century Heating and Ventilating Company (20th Century) believed the June 17 proposal failed to address the company's long-standing objections to the DOE furnace test procedures. *See* 20th Century, No. 2. Twentieth Century company believes that furnaces with higher mass are inherently more efficient than the AFUE predicted by using DOE's "average cycle" methodology. Twentieth Century contends that its design will continue to deliver heat beyond the time frame of the average cycle; thereby keeping the thermostat satisfied and keeping the burner off beyond the time the test procedures assume a furnace should recycle. This postponing of burner on time, called a "free ride" by the commenter, is the basis of the company's contention that its furnace is inherently more efficient than predicted by DOE's test procedures. The fundamental error in this contention is the belief, by the company, that the house thermostat will be satisfied as long as some heat is being delivered by the furnace. This belief is incorrect since the room temperature can decrease in spite of the delivered heat: thus, the thermostat is not satisfied and another burner cycle is needed even though the furnace blower may still be delivering some heat. The DOE test procedures allow for the rating of furnaces with various blower run times. In fact, if the design is such that the furnace would deliver heat in excess of the amount that would be delivered during the average cycle time frame, the test procedures allow ratings based on continuous fan operation.

DOE believes the existing procedures do adequately and fairly allow for the rating of furnaces with high mass heat exchangers. Therefore, DOE sees no need to further address this issue.

B. Deletion of Test Procedures for Electric Furnaces—Trane, Inc. recommended that "the rating of electric furnaces be deleted from the DOE test procedures since they are essentially 100 percent efficient and perpetuation of their rating with resulting FTC labeling is contributing to a waste of industry and government resource time with no benefit to the consumers." *See* Trane, No. 14, at 1.

DOE believes the use of the test procedure itself constitutes little or not testing burden to the manufacturer. Test procedure results and the FTC labeling program provide consumers with useful information. While there is little variation in electric furnace efficiency, the DOE is not deleting the provisions. If the commenter has any proposed revisions to the FTC labeling program, they should be addressed to the FTC.

C. Jacket Loss Testing Accuracy—The existing DOE test procedures refer to the industry standards jacket loss test when determining the efficiency of furnaces installed outdoors. The jacket loss provisions of these standards of the American National Standard Institute (ANSI) (ANSI Z21.47 and ANSI Z91.1) were incorporated into the ANSI/ASHRAE 103–82 standard. These provisions as published in the ANSI/ASHRAE 103–82 was criticized by the ETL Laboratories as being extremely vague and subject to varied interpretations. *See* ETL, No. 11, at 1. ETL suggests a more formal and detailed jacket loss test be developed.

DOE will consider this issue as a possible area for future test procedure rulemaking. Any data, analysis, or general comment from interested parties including ANSI are welcome.

Comments were also received that the proposed the jacket loss test failed to assign an adjustment factor, C_j, for finned tube boilers as was done in the existing test procedures. *See* Teledyne Laars and Raypak, Inc., No. 9, at 4, and GAMA, No. 12, at 5. DOE regrets this inadvertent error and has included in today's rule the provision that $C_j = 1.0$ for finned tube boilers.

D. Need to Include a "Preamble" to the Test Procedures—Trane, Teledyne Laars and Raypak and GAMA recommended that a preamble be included in the test procedures to clarify their intent. *See* Trane, No. 14, at 1, Teledyne Laars and Raypak, Inc., No. 9, at 5, and GAMA, No. 12 at, 9. Basically, the preamble would serve to point out the inability of the test procedures to predict the energy performance of a furnace in every installation. Rather, it would point out that their use is for comparison purposes and thus installation variables are only representatively accounted for. DOE agrees with this statement. Thus, this discussion constitutes a "preamble" to the test procedure as requested.

GAMA and Trane suggested DOE provide that: "the procedures are not intended to provide comparisons with other types of heating devices such as heat pumps, space heater, etc.". DOE strongly objects to this additional wording because this cross-product comparison was intended by DOE in developing the different test procedures for the various types of heating devices. Efforts were made by DOE to promulgate consistent test procedures that will allow, to the extent possible,

informed purchase decisions across types of heating devices. In addition, the Act requires this when it states the test procedures are to contain measures of energy consumption which are likely to assist consumers in making purchasing decisions.

B. Vented Heater Test Procedure

The vented heater test procedure was prescribed by DOE by notice issued May 2, 1978, 43 FR 20182 (May 10, 1978). Several manufacturers petitioned DOE to expand the vented heater test procedure to include modulating vented heaters and manually controlled vented heaters. Other manufacturers felt that an improved method of testing was needed for vented oil heaters equipped with vaporizing-type burners. In 1980, the *Ad Hoc* Technical Committee of GAMA, presented a simplified testing method to DOE. The method was intended to be an optional procedure that reduces the testing burden on manufacturers. On the basis of the information submitted by the petitioners, information from GAMA, research conducted by NBS, and other available information, DOE proposed to amend the vented heater test procedure to address these concerns in the June 17 proposal. Subsequently, a public hearing was held on June 29, 1983 and comments were received regarding the proposed rule. DOE today is amending the vented heater test procedure to expand the coverage of the test procedure while at the same time reducing the testing burden.

1. Simplified Vented Heater Test Procedure

For vented heaters equipped without manual controls or without thermal stack dampers, DOE proposed a simplified test procedure. The simplified procedures addressed those heaters with modulating controls.

No disapproving comments were received regarding the simplified procedures. *See* GAMA, No. 12, at 10. Therefore, DOE is adopting the simplified procedure as proposed in the June 17 proposal.

Also, since the above mentioned test procedure exceptions BEE–0883 and BEE–0983 (delineated in foot note 3) were granted partially on the basis that no modulating control provisions were included in the existing vented heater test procedures, the effective date of today's rule constitutes the expiration of those exceptions with regard to modulating controls.

2. Manually Controlled Vented Heaters

The June 17 proposal would allow for a determination of efficiency of manually controlled heaters by use of a weighted-average steady-state efficiency. Since a typical manual control allows for several firing rates, this weighted average steady-state efficiency is based on the manually controlled heater operating at 50 percent of maximum heating output rate. However, GAMA testified that since there exist manually controlled heaters that have only a single firing rate and for this design, the averaging of efficiencies method is inappropriate. *See* GAMA, June 29. DOE agrees and today's rule provides that for such designs the weighted average steady-state efficiency is that steady state efficiency when tested at its single firing rate.

Since both modulating controls and manual controls are addressed, the effective date of this final rule constitutes the official expiration of exceptions BEE–0883 and BEE–0983 (delineated in footnote 3).

3. Vented Heaters Equipped With Thermal Stack Dampers

Since no comments objecting to the June 17 proposal for testing of vented heaters with thermal dampers were received, DOE is adopting the proposed provisions in today's final rule.

4. Floor Furnaces

Floor furnaces are a class of vented heaters that are specifically designed to be installed in a crawl space under a home. GAMA suggested that the similar provisions allowed ICS furnaces be allowed for floor furnaces. Specifically, ICS furnaces are allowed an assigned jacket loss of 1 percent and an adjustment factor to account for outdoor and cycling conditions of 1.7. GAMA asks that floor furnaces be allowed an assigned jacket loss of 3 percent and an adjustment factor of 1.7. *See* GAMA, No. 12, at 12.

NBS has reviewed these comments and recommends that the jacket loss continue to be required to be measured for floor furnaces since reduced jacket losses represent the single most important improvement available to floor furnaces. Allowing an assigned value reduces the incentive for improving jacket losses. Consequently, DOE is not allowing an assigned jacket loss for floor furnaces.

Regarding the issue of a lower adjustment factor for floor furnaces, DOE agrees that some reduction of adjustment factor is appropriate for reasons similar to ICS's (i.e. not entirely outside, protected from the wind, etc.). However, DOE believes that representatively, floor furnace installations more closely resemble outdoor installations than ICS installations. Therefore, the appropriate adjustment factor for floor furnace jacket loss should be between that which is allowed for ICS furnaces (1.7) and what is allowed for outdoor vented heaters (3.93). The factor of 2.8 represents the midpoint of these two cases.

C. Unvented Heater Test Procedures

A test procedure for unvented heaters, using electricity, natural gas, or propane, was proposed by DOE on May 4, 1977. 42 FR 23860 (May 11, 1977). A test procedure for electric heaters was prescribed by DOE on May 2, 1978. 43 FR 20128 (May 10, 1978). A final test procedure was not prescribed for unvented natural and propane gas heaters at that time because the Consumer Product Safety Commission (CPSC) proposed to ban the sale of these heaters. 43 FR 6235 (February 14, 1978). CPSC has issued a safety standard in place of a sales ban (16 CFR Part 1212). Today, DOE is prescribing a test procedure appropriate for unvented natural and propane gas heaters as proposed.

In addition, DOE is today prescribing a test procedure for unvented kerosene heaters as proposed. Kerosene heaters were not considered during the previous rulemaking process essentially because these heaters were not widely marketed at the time of the original proposal. DOE believes that a test procedure for kerosene heaters is presently needed since these heaters are now widely marketed.

All comments received regarding these prodedures approved of the provisions as proposed. In particular, the kerosene industry elaborated on the appropriateness of the implied 100 percent fuel efficiency. The Kerosun Company testified that since the operation of an unvented heater does not cause an additional infiltration loss to the home, and since the combustion of the fuel is essentially complete, the implied 100 percent fuel efficiency is entirely appropriate. *See* Kerosun, Inc. June 29. Therefore, based on this testimony and due to the fact that no opposing testimony was received, DOE is prescribing today the provisions that were proposed for these types of heaters.

Arizona Public Service Company (APSC), a public utility, generally supported the proposed amendments for unvented heaters but commented upon the unsafe nature of unvented gas-fired room heaters. *See* APSC, No. 13. The safety of such heaters is not within the jurisdiction of DOE.

D. Estimated Operating Cost for Vented and Unvented Heaters

For vented and unvented heaters, DOE is adopting the proposed method to determine an estimated operating cost per million British thermal units (Btu) output. In the past, several commenters expressed concern over the validity of an estimated annual operating cost for vented and unvented heaters. Most felt that any selection of a representative hours of annual use would be inappropriate for these heaters considering the large variability involved. Secondly, an appropriate efficiency determination was needed for vented heaters with modulating controls. As with furnaces, heaters with modulating controls would have a variable efficiency and operating costs depending on the extent of oversizing.

A valid estimated annual operating cost method for modulating vented heaters would require substantial changes in order to properly consider the effects of oversizing. The changes would require additional calculations for the weighted-average efficiency because the fraction of time that the heater would operate in each mode would depend on the extent of oversizing and on the ratio of minimum to maximum heat output rates. The changes would be similar to today's amendments for modulating furnaces and boilers discussed above.

The variable annual operating cost method was originally developed for vented heaters under the premise that the cost data would be required for the FTC labeling program. The FTC has excluded vented heaters from the labeling program. Therefore, DOE sees no need to expand the estimated annual operating cost calculations for vented heaters.

DOE believes that for vented and unvented heaters the best economic measure to assist consumers in their purchasing decisions is the estimated operating cost per million Btu output. For vented heaters, the estimated cost is determined by using the measured output, the representative unit cost of energy and the annual fuel utilization efficiency (which may be determined from the simplified test procedure proposed today). For unvented heaters, the estimated cost is determined by using the measured output, the representative unit cost of energy and the implied efficiency of 100 percent.

At the public hearing, GAMA and Kerosun, Inc. expressed support for the cost per million Btu's measure. No comments opposing the measure were received. *See* GAMA, June 29; Kerosun, June 29. Therefore, DOE is today prescribing this measure for both unvented and vented home heating equipment.

However, GAMA thought it appropriate that in addition to cost per million Btu's, an hourly operating cost be included for vented heaters as is currently included in electric unvented heaters. DOE sees little merit in such a measure for vented heaters since most vented heaters have modulating type controls and, therefore, various hourly operating costs. Accordingly, a consumer could be misled by this measure if comparisons are made across various firing rates. DOE feels that such comparisons should be avoided and is, therefore, not including them in today's regulations for all types of heaters.

A number of commenters pointed out an apparent deficiency in the measures provided for vented heaters. Although a regulation to determine the operating cost for heaters which use both fossil fuel and electricity was proposed for unvented heaters, no such regulation was proposed for vented heaters. This was an oversight on DOE's part and consequently, today's rule includes a regulation to determine operating cost for such heaters in both the unvented and vented heater subparagraphs.

E. Miscellaneous

After careful consideration of all of the comments and further consultation with NBS, DOE has made some editorial and minor technical changes to the published proposal in today's final rule. For instance, an equals sign (=) is added to the first expression in section 4.9 of Appendix N.

III. PROCEDURAL MATTERS

A. Environmental Review

Pursuant to Section 7(c)(2) of the Federal Energy Administration Act of 1974, a copy of the proposed notice was submitted to the Administrator of the Environmental Protection Agency (EPA) for his comments concerning the impact of this proposal on the quality of the environment. EPA responded by letter with no comment on September 28, 1983.

In addition, the Department has reviewed today's final rule in accordance with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 et seq.), the Council of Environmental Quality Regulations implementing the procedural provisions of NEPA (40 CFR Part 1500 et seq.), and the Department's own NEPA guidelines (45 FR 20694, March 28, 1980, as amended by 47 FR 7976, Feb. 23, 1982) to determine if an environmental impact statement (EIS) or an environmental assessment (EA) is required.

Today's final rule serves only to standardize the measurement of energy usage for furnaces and other home heating equipment. The action of prescribing these revised test procedures will not result in any environmental impacts. Because it is clear that today's final rule is not a major Federal action significantly affecting the quality of the human environment within the meaning of NEPA, DOE has determined that neither an EA nor an EIA is required.

B. Regulatory Impact Review

The final rule has been reviewed in accordance with Executive Order 12291 which directs that all regulations achieve their intended goals without imposing unnecessary burdens on the economy, on individuals, on public or private organizations, or State and local governments. The Executive Order also requires that regulatory impact analyses be prepared for "major rules." The Executive Order defines a major rule as any regulation that is likely to result in: (1) An annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of the United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

This final rule would only make minor changes in the test procedures for furnaces and other home heating equipment. Therefore, DOE has determined that this final rule does not come within the definition of a major rule.

In accordance with Section 3(c)(3) of the Executive Order, which applies to rules other than major rules, the final rule was submitted to OMB for review without a regulatory impact analysis. This rule has been reviewed by OMB in accordance with the procedures applicable to rules other than major rules.

C. Small Entity Review

The Regulatory Flexibility Act (Pub. L. 96-354) requires that an agency prepare a final regulatory analysis to be available at the time the final rule is published. This requirement does not apply if the agency "certifies that the final rule will not * * * have a

significant economic impact on a substantial number of small entities."

In the June 17 proposal, DOE certified, pursuant to Section 605(b) of the Regulatory Flexibility Act, that the proposal, if promulgated, would not have a significant economic impact on a substantial number of small entities. All commenters were generally supportive of the proposal and no commenter took issue with DOE's certification. Accordingly, DOE certifies that this rule will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 10 CFR Part 430

Administrative practice and procedure, Energy conservation, Household appliances.

(Energy Policy and Conservation Act of December 22, 1975, Pub. L. 94–163, Sec. 323(a))

Issued in Washington, D.C., March 7, 1984.

Pat Collins,

Acting Assistant Secretary, Conservation and Renewable Energy.

PART 430—ENERGY CONSERVATION PROGRAM FOR CONSUMER PRODUCTS

Provisions of 10 CFR Part 430, § 430.2, § 430.22, Appendix G, Appendix N, and Appendix O are amended as follows:

1. Section 430.2 definition of "unvented home heating equipment" is revised and definitions of "Kerosene," "Unvented gas heater," and "unvented oil heater" are added in alphabetical order to read as follows:

§ 430.2 Definition.

* * * * *

"Kerosene" means No. 1 fuel oil with a viscosity meeting the specifications as specified in UL–730–1974, section 36.9 and in tables 2 and 3 of ANSI Standard Z91.1–1972.

* * * * *

"Unvented gas heater" means an unvented, self-contained, free-standing, nonrecessed gas-burning appliance which furnishes warm air by gravity or fan circulation.

"Unvented home heating equipment" means a class of home heating equipment, not including furnaces, used for the purpose of furnishing heat to a space proximate to such heater directly from the heater and without duct connections and includes electric heaters and unvented gas and oil heaters.

"Unvented oil heater" means an unvented, self-contained, free-standing, nonrecessed oil-burning appliance which furnishes warm air by gravity or fan circulation.

* * * * *

§ 430.22 [Amended]

2. Section 430.22 is amended by revising paragraphs (g), (n) and (o) to read as follows:

* * * * *

(g) *Unvented home heating equipment.* (1) The estimated annual operating cost for primary electric heaters, shall be the product of: (i) The average annual electric energy consumption in kilowatt-hours per year, determined according to section 3.1 of Appendix G of this subpart and (ii) the representative average unit cost in dollars per kilowatt-hour as provided pursuant to section 323(b)(2) of the Act, the resulting product then being rounded off to the nearest dollar per year.

(2) The estimated regional annual operating cost for primary electric heaters, shall be the product of: (i) The regional annual electric energy consumption in kilowatt-hours per year for primary heaters determined according to section 3.2 of Appendix G of this subpart and (ii) the representative average unit cost in dollars per kilowatt-hour as provided pursuant to section 323(b)(2) of the Act, the resulting product then being rounded off to the nearest dollar per year.

(3) The estimated operating cost per million Btu output shall be—

(i) For primary and supplementary electric heaters and unvented gas and oil heaters without an auxiliary electric system, the product of: (A) One million; and (B) the representative unit cost in dollars per Btu for natural gas, propane, or oil, as provided pursuant to section 323(b)(2) of the Act as appropriate, or the quotient of the representative unit cost in dollars per kilowatt-hour, as provided pursuant to section 323(b)(2) of the Act, divided by 3,412 Btu per kilowatt hour, the resulting product then being rounded off to the nearest 0.01 dollar per million Btu output; and

(ii) For unvented gas and oil heaters with an auxiliary electric system, the product of: (A) The quotient of one million divided by the rated output in Btu's per hour as determined in 3.4 of appendix G of this subpart; and (B) the sum of: (*1*) The product of the maximum fuel input in Btu's per hour as determined in 2.2. of this appendix times the representative unit cost in dollars per Btu for natural gas, propane, or oil, as appropriate, as provided pursuant to section 323(b)(2) of the Act, plus (*2*) the product of the maximum auxiliary electric power in kilowatts as determined in 2.1 of appendix G of this subpart times the representative unit cost in dollars per kilowatt-hour as provided pursuant to section 323(b)(2) of the Act, the resulting quantity shall be rounded off to the nearest 0.01 dollar per million Btu output.

(4) The rated output for unvented heaters is the rated output as determined according to either sections 3.3 or 3.4 of Appendix G of this subpart, as appropriate, with the result being rounded to the nearest 100 Btu per hour.

(5) Other useful measures of energy consumption for unvented home heating equipment shall be those measures of energy consumption for unvented home heating equipment which the Secretary determines are likely to assist consumers in making purchasing decisions and which are derived from the application of Appendix G of this subpart.

* * * * *

(n) *Furnaces.* (1) The estimated annual operating cost for furnaces is the sum of: (i) The product of the average annual fuel energy consumption, in Btu's per year for gas or oil furnaces or in kilowatt-hours per year for electric furnaces, determined according to section 4.8 or 4.10 of Appendix N of this subpart, respectively, and the representative average unit cost in dollars per Btu for gas or oil, or dollars per kilowatt-hour for electric, as appropriate, as provided pursuant to section 323(b)(2) of the Act, plus (ii) the product of the average annual auxiliary electric energy consumption in kilowatt-hours per year determined according to section 4.9 of Appendix N of this subpart, and the representative average unit cost in dollars per kilowatt-hour as provided pursuant to section 323(b)(2) of the Act, the resulting sum then being rounded off to the nearest dollar per year. (For furnaces which operate with variable inputs, an estimated annual operating cost is to be calculated for each degree of oversizing specified in section 4 of Appendix N of this subpart.)

(2) The annual fuel utilization efficiency for furnaces, expressed in percent, is the ratio of annual fuel output of useful energy delivered to the heated space to the annual fuel energy input to the furnace determined according to section 4.6 of Appendix N of this subpart for gas and oil furnaces and determined in accordance with section 4.1 of Appendix N of this subpart for electric furnaces.

(3) The estimated regional annual operating cost for furnaces is the sum of: (i) The product of the regional annual fuel energy consumption in Btu's per year for gas or oil furnaces or in kilowatt-hours per year for electric

furnaces, determined according to section 4.11 or 4.13 of Appendix N of this subpart, respectively, and the representative average unit cost in dollars per Btu for gas or oil, or dollars per kilowatt-hour for electric, as appropriate, as provided pursuant to section 323(b)(2) of the Act, plus (ii) the product of the regional annual auxiliary electrical energy consumption in kilowatt-hours per year, determined according to section 4.12 of Appendix N of this subpart, and the representative average unit cost in dollars per kilowatt-hour as provided pursuant to section 323(b)(2) of the Act, the resulting sum then being rounded off to the nearest dollar per year.

(4) The energy factor for furnaces, expressed in percent, is the ratio of annual fuel output of useful energy delivered to the heated space to the total annual energy input to the furnace determined according to section 4.14 of Appendix N of this subpart.

(5) Other useful measures of energy consumption for furnaces shall be those measures of energy consumption which the Secretary determines are likely to assist consumers in making purchasing decisions and which are derived from the application of Appendix N of this subpart.

(o) *Vented home heating equipment.*

(1) The annual fuel utilization efficiency for vented home heating equipment, expressed in percent, which is the ratio of the annual fuel output of useful energy delivered to the heated space to the annual fuel energy input to the vented heater, shall be determined either according to section 4.1.17 of Appendix O of this subpart for vented heaters without either manual controls or thermal stack dampers; according to section 4.2.6 of Appendix O of this subpart for vented heaters equipped with manual controls; or according to section 4.3.7 of Appendix O of this subpart for vented heaters equipped with thermal stack dampers.

(2) The estimated operating cost per million Btu output for vented heaters without an auxiliary electric system shall be the product of: (i) One hundred; (ii) the quotient of one million Btu output divided by the annual fuel utilization efficiency as determined in paragraph (o) (1) and (iii) the representative unit cost in dollars per Btu for natural gas, propane, or oil, as appropriate, as provided pursuant to section 323(b)(2) of the Act, the resulting product shall be rounded to the nearest 0.01 dollar per million Btu output.

(3) The estimated operating cost per million Btu output for gas or oil vented home heating equipment with an auxiliary electric system shall be the product of: (A) The quotient of one million Btu divided by the sum of: (*1*) The product of the maximum fuel input in Btu's per hour as determined in 3.1.1 or 3.1.2 of Appendix O of this subpart times the annual fuel utilization efficiency in percent as determined in 4.1.17, 4.2.6, or 4.3.7 of this appendix as appropriate divided by 100, plus (*2*) the product of the maximum electric power in watts as determined in 3.1.3 of Appendix O of this subpart times the quantity 3.412; and (B) of the sum of: (*1*) the product of the maximum fuel input in Btu's per hour as determined in 3.1.1 of this appendix times the representative unit cost in dollars per Btu for natural gas, propane, or oil, as appropriate, as provided pursuant to section 323(b)(2) of the Act; plus (*2*) the product of the maximum auxiliary electric power in kilowatts as determined in 3.1.3 of Appendix O of this subpart times the representative unit cost in dollars per kilowatt-hour as provided pursuant to section 323(b)(2) of the Act, the resulting quantity shall be rounded off to the nearest 0.01 dollar per million Btu output.

(4) Other useful measures of energy consumption for vented home heating equipment shall be those measures of energy consumption which the Secretary determines are likely to assist consumers in making purchasing decisions and which are derived from the application of Appendix O of this subpart.

3. Appendix G. to Subpart B of Part 430 is revised to read as follows:

Appendix G to Subpart B of Part 430—Uniform Test Method for Measuring the Energy Consumption of Unvented Home Heating Equipment

1. *Testing conditions.*

1.1 *Installation.*

1.1.1 *Electric heater.* Install heater according to manufacturer's instructions. Heaters shall be connected to an electrical supply circuit of nameplate voltage with a wattmeter installed in the circuit. The wattmeter shall have a maximum error not greater than one percent.

1.1.2 *Unvented gas heater.* Install heater according to manufacturer's instructions. Heaters shall be connected to a gas supply line with a gas displacement meter installed between the supply line and the heater according to manufacturer's specifications. The gas displacement meter shall have a maximum error not greater than one percent. Gas heaters with electrical auxiliaries shall be connected to an electrical supply circuit of nameplate voltage with a wattmeter installed in the circuit. The wattmeter shall have a maximum error not greater than one percent.

1.1.3 *Unvented oil heater.* Install heater according to manufacturer's instructions. Oil heaters with electric auxiliaries shall be connected to an electrical supply circuit of nameplate voltage with a wattmeter installed in the circuit. The wattmeter shall have a maximum error not greater than one percent.

1.2 *Temperature regulating controls.* All temperature regulating controls shall be shorted out of the circuit or adjusted so that they will not operate during the test period.

1.3 *Fan controls.* All fan controls shall be set at the highest fan speed setting.

1.4 *Energy supply.*

1.4.1 *Electrical supply.* Supply power to the heater within one percent of the nameplate voltage.

1.4.2 *Natural gas supply.* For an unvented gas heater utilizing natural gas, maintain the gas supply to the heater with a normal inlet test pressure immediately ahead of all controls at 7 to 10 inches of water column. The regulator outlet pressure at normal supply test pressure shall be approximately that recommended by the manufacturer. The natural gas supplied should have a higher heating value within ± 5 percent of 1,025 Btu's per standard cubic foot. Determine the higher heating value, in Btu's per standard cubic foot, for the natural gas to be used in the test, with an error no greater than one percent. Alternatively, the test can be conducted using "bottled" natural gas of a higher heating value within ± 5 percent of 1,025 Btu's per standard cubic foot as long as the actual higher heating value of the bottled natural gas has been determined with an error no greater than one percent as certified by the supplier.

1.4.3 *Propane gas supply.* For an unvented gas heater utilizing propane, maintain the gas supply to the heater with a normal inlet test pressure immediately ahead of all controls at 11 to 13 inches of water column. The regulator outlet pressure at normal supply test pressure shall be that recommended by the manufacturer. The propane supplied should have a higher heating value of within± 5 percent of 2,500 Btu's per standard cubic foot. Determine the higher heating value in Btu's per standard foot, for the propane to be used in the test, with an error no greater than one percent. Alternatively, the test can be conducted using "bottled" propane of a higher heating value within ± 5 percent of 2,500 Btu's per standard cubic foot as long as the actual higher heating value of the bottled propane has been determined with an error no greater than one percent as certified by the supplier.

1.4.4 *Oil supply.* For an unvented oil heater utilizing kerosene, determine the higher heating value in Btu's per gallon with an error no greater than one percent. Alternatively, the test can be conducted using a tested fuel of a higher heating value within ± 5 percent of 137,400 Btu's per gallon as long as the actual higher heating value of the tested fuel has been determined with an error no greater than one percent as certified by the supplier.

1.5 *Energy flow instrumentation.* Install one or more energy flow instruments which measure, as appropriate and with an error no greater than one percent, the quantity of electrical energy, natural gas, propane gas, or oil supplied to the heater.

2. *Testing and measurements.*

2.1 *Electric power measurement.* Establish the test conditions set forth in

section 1 of this appendix. Allow an electric heater to warm up for at least five minutes before recording the maximum electric power measurement from the wattmeter. Record the maximum electric power (P_E) expressed in kilowatts.

Allow the auxiliary electrical system of a forced air unvented gas, propane, or oil heater to operate for at least five minutes before recording the maximum auxiliary electric power measurement from the wattmeter. Record the maximum auxiliary electric power (P_A) expressed in kilowatts.

2.2 *Natural gas, propane, and oil measurement.* Establish the test conditions as set forth in section 1 of this appendix. A natural gas, propane, or oil heater shall be operated for one hour. Using either the nameplate rating or the energy flow instrumentation set forth in section 1.5 of this appendix and the fuel supply rating set forth in sections 1.4.2, 1.4.3, or 1.4.4 of this appendix, as appropriate, determine the maximum fuel input (P_F) of the heater under test in Btu's per hour. The energy flow instrumentation shall measure the maximum fuel input with an error no greater than one percent.

3. Calculations.

3.1 *Annual energy consumption for primary electric heaters.* For primary electric heaters, calculate the annual energy consumption (E_E) expressed in kilowatt-hours per year and defined as:

$E_E = 2080(0.77)DHR$

where:

2080 = national average annual heating load hours
0.77 = adjustment factor
DHR = design heating requirement and is equal to P_E /1.2 in kilowatts.
P_E = as defined in 2.1 of this appendix
1.2 = typical oversizing factor for primary electric heaters

3.2 *Annual energy consumption for primary electric heaters by geographic region of the United States.* For primary electric heaters, calculate the annual energy consumption by geographic region of the United States (E_E) expressed in kilowatt-hours per year and defined as:

$E_E = HLH(0.77)(DHR)$

where:

HLH = heating load hours for a specific region determined from Figure 1 of this appendix in hours
0.77 = as defined in 3.1 of this appendix
DHR = as defined in 3.1 of this appendix

3.3 *Rated output for electric heaters.* Calculate the rated output (Q_{out}) for electric heaters, expressed in Btu's per hour, and defined as:

$Q_{out} = P_E$ (3,412 Btu/kWh)

where:

P_E = as defined in 2.1 of this appendix

3.4 *Rated output for unvented heaters using either natural gas, propane, or oil.* For unvented heaters using either natural gas, propane, or oil equipped without auxiliary electrical systems, the rated output (Q_{out}), expressed in Btu's per hour, is equal to P_F, as determined in section 2.2 of this appendix.

For unvented heaters using either natural gas, propane, or oil equipped with auxiliary electrical systems, calculate the rated output (Q_{out}), expressed in Btu's per hour, and defined as:

$Q_{out} = P_F + P_A$ (3,412 Btu/kWh)

where:

P_F = as defined in 2.2 of this appendix in Btu/hr
P_A = as defined in 2.1 of this appendix in Btu/hr

FIGURE I

Heating Load Hours (HLH) for the United States and Territories

This map is reasonably accurate for most parts of the United States but is necessarily highly generalized and consequently not too accurate in mountainous regions, particularly in the Rockies.

Alaska — 3500 HLH
Hawaii and Territories — 0 HLH

4. Appendix N to Subpart B of Part 430 is revised to read as follows:

Appendix N to Subpart B of Part 430—Uniform Test Method for Measuring the Energy Consumption of Furnaces

1. *Definitions.* Definitions shall include the definitions specified in section 3.0 of ANSI/ASHRAE 103–82 and the following additional definitions:

1.1 "ASHRAE" means the American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc.

1.2 "ANSI/ASHRAE 103-82" means the test standard published in 1982 by ASHRAE, approved by the American National Standards Institute (ANSI) on June 21, 1983 and titled "Methods of Testing for Heating Seasonal Efficiency of Central Furnaces And Boilers."

1.3 "Electro-mechanical stack damper" means a type of stack damper which is operated by electrical and/or mechanical means.

1.4 "Isolated combustion system" means an installation in which a furnace is installed indoors and all combustion and ventilation air is admitted through grills or ducts from outdoors and (all such air) does not communicate with air in the conditioned space.

1.5 "Modulating control" means either a step modulating or a "two-stage control"

1.6 "Reduced heat input rate" means the factory adjusted lowest reduced heat input rate for furnaces equipped with either two stage thermostats or step-modulating thermostats.

1.7 "Single stage thermostat" means a thermostat that cycles a burner from the maximum heat input rate and off.

1.8 "Step-modulating control" means a modulating control that cycles a burner from the reduced input rate to off if the heating load is light. If a higher heating load is encountered which cannot be met with the reduced input rate, the control either gradually increases or steps up the input rate to meet the higher heating load. At that point if a lower heating load is encountered, the control either gradually decreases or steps down to a lower rate, or gradually increases the heat input to meet any higher heating load that cannot be met with the low firing rate.

1.9 "Thermal stack damper" means a type of stack damper which is dependent for operation exclusively upon the direct conversion of thermal energy of the stack gases into closure of the damper.

1.10 "Two stage control" means a modulating control that cycles a burner from reduced heat input rate and off or cycles a burner at the maximum heat input rate and off.

2.0 *Testing conditions.* The testing conditions shall be as specified in section 8 of ANSI/ASHRAE 103–82 with the exception of section 8.4.2.3, and the inclusion of the following additional testing conditions:

2.1 *Gas burner adjustment at maximum input rate.* The following paragraph is in addition to the requirements specified in section 8.4.1.1 of ANSI/ASHRAE 103–82:

For gas fueled furnaces and boilers equipped with modulating type controls, adjust the controls to operate the unit at the maximum fuel input rate. Set the thermostat control to the maximum setting. Start the furnace or boiler by turning the safety control valve to the "on" position. Use a supply water temperature for boilers that will allow for continuous operation without shut off by the thermostat control.

2.2 *Gas burner adjustment at reduced input rate.* The following paragraph is in addition to the requirements specified in section 8.4.1.1 of ANSI/ASHRAE 103–82:

For gas fueled furnaces and boilers equipped with modulating type thermostat controls, adjust the controls to operate the unit at the reduced fuel input rate. Set the thermostat control to the lowest setting that does not cause the burner to cycle on and off. Start the furnace or boiler by turning the safety control valve to the "on" position. Use supply water temperature for boilers that will allow for continuous operation without shut off by the thermostat control. If necessary, supply water may be increased above 120° F in order to maintain continuous operation at the reduced setting.

2.3 *Gas and oil fueled low pressure steam and hot water boilers (including direct vent systems).* The following paragraphs are in place of section 8.4.2.3 of ANSI/ASHRAE 103–82:

For non-condensing hot water boilers, the water flow rate shall be adjusted to produce a water temperature rise, during the steady-state test described in section 9.1 of ANSI/ASHRAE 103–82, of 19° F –24° F. During the steady-state and heat-up tests, the hot water boiler shall be supplied with water having a temperature of at least 120° F but not more than 124° F.

For steam boilers, the pressure shall be at atmospheric or at a pressure not exceeding 2 psig during the steady-state test.

3.0 *Test procedure.* Testing and measurements shall be as specified in section 9 of ANSI/ASHRAE 103–82 with the exception of sections 9.2.2 and 9.3.2, and the inclusion of the following additional procedures:

3.1 *Gas fueled gravity furnaces, forced air central furnaces, and low pressure steam and hot water boilers (including direct vent systems, excluding condensing furnaces or boilers).* The following paragraphs are in addition to the requirements specified in section 9.1.1 of ANSI/ASHRAE 103–82:

For all gas fueled furnaces and boilers, the steady-state efficiency shall be determined at the maximum fuel input rate measured in accordance with sections 2.1 of this appendix and section 9.1.1 of ANSI/ASHRAE 103–82. Also, for gas fueled furnaces and boilers equipped with either two stage thermostats or step-modulating thermostats, the steady-state efficiency shall also be determined at the reduced fuel input rate measured in accordance with sections 2.2 of this appendix and section 9.1.1 of ANSI/ASHRAE 103–82.

In addition, for gas fueled furnances and boilers equipped with draft hoods, measure CO_2 in stack after dilution during the steady state condition.

3.2 *Flue temperature measurements—cool down test.* The following paragraphs are in addition to the requirements specified in section 9.2 of ANSI/ASHRAE 103–82:

For furnaces and boilers equipped with step-modulating thermostats, the cool down test shall be conducted after steady-state conditions have been reached at the reduced input rate, as specified in section 2.2 of this appendix. For furnaces and boilers equipped with two stage controls, separate cool down tests shall be conducted after steady-state conditions have been reached at both the reduced and maximum fuel input rates.

3.3 *Gas and oil fueled boilers—cool down test.* The following paragraphs are in place of the requirements specified in section 9.2.2 of ASHRAE 103–82:

After steady-state testing has been completed, turn the main burner(s) off and measure the flue gas temperature at 3.75 ($T_{F,OFF(3)}$) and 22.5 ($T_{F,OFF(4)}$) minutes after the burner shuts off, using the thermocouple grid described above. During this off period for units that do not have pump delay after shut-off, no water shall be allowed to circulate through the hot water boilers. For units that have pump delay on shut-off, except those having pump controls sensing water temperature, the pump shall be stopped by the unit control and the time, t^+, between burner shut-off and pump shut-off shall be measured within one second accuracy. For units having pump delay controls which sense water temperature, the pump shall be operated for 15 minutes and t^+ shall be 15 minutes. While the pump is operating, the inlet water temperature and flow rate shall be maintained at the same values as used during the preceding steady-state test.

Make a third flue gas temperature measurement 45 minutes after the burner shuts off to determine the off-period minimum flue gas temperature ($T_{F,OFF(5)}$).

During this cool down test, measure the energy input rate to the pilot light (Q_P), if the unit is so equipped, to within an error no larger than ± 3 percent. Record all measured values. For oil fueled units not equipped with stack dampers, maintain the draft in the flue within the same ranges specified in section 9.2.1 of ANSI/ASHRAE 103–82. For direct vent systems with flue dampers or boilers equipped with both stack dampers and barometric dampers, close the flue or stack damper during the cool down test.

3.4 *Flue gas temperature measurements—heat-up test.* The following paragraph is in addition to the requirement specified in section 9.3 of ANSI/ASHRAE 103–82.

For furnaces and boilers equipped with step-modulating thermostats, the heat-up test shall be conducted at the reduced fuel input rate, as specified in section 2.2 of this appendix. For furnaces and boilers equipped with two stage controls, separate heat-up tests shall be conducted at both the reduced and maximum fuel input rates.

3.5 *Gas and oil fueled boilers.* The following paragraph is in place of the requirements specified in section 9.3.2 of ANSI/ASHRAE 103–82.

Fifty minutes or more after the main burner(s) is turned off for the cool down test, turn on the steam or hot water boiler and measure the flue gas temperature at 1.0 ($T_{I,on(1)}$) and 5.5 ($T_{I,on(2)}$) minutes after the main burners are turned on. The pump circulating the water through the hot water

boiler shall be started simultaneously with the main burner(s). The water flow rate shall be the same as that maintained during the steady-state test described in section 9.1 of ANSI/ASHRAE 103–82. During the heat-up test for oil fired boilers maintain the draft in the flue pipe within ± 0.01 inch of water column of the manufacturer's recommended on-period draft. Record the measured temperatures.

3.6 *Direct measurement of condensate.* For condensing furnaces and boilers, the condensate heat loss shall be determined either by the method specified in section 11.2.33 of ANSI/ASHRAE 103–82 or by the following test procedures:

Control devices shall be installed to allow cyclical operation of the unit and return water or air flows as described in sections 9.2 and 9.3 of ANSI/ASHRAE 103–82 and sections 3.2, 3.3, 3.4 and 3.5 of this appendix. The test unit shall be leveled prior to test. Operating times and beginning and end of condensate collection shall be determined by a clock or timer with a minimum resolution of one second. Humidity of the room air shall, at no time, exceed 80 percent.

Control of on or off operation actions shall be within ± 6 seconds of the scheduled time. Condensate drain lines shall be attached to the unit as specified in the manufacturer's installation instructions. A continuous downward slope of drain lines from the unit shall be maintained. Additional precautions shall be taken to facilitate uninterrupted flow of condensate during the test.

The flue pipe installation must not allow condensate formed in the flue pipe to flow back into the unit. An initial downward slope from the unit's exit, an offset with a drip leg, annular collection rings, or drain holes must be included in the flue pipe installation without disturbing normal flue gas flow, as specified in section 7.2.2 of ANSI/ASHRAE 103–82. Flue gases should not flow out of the drain with the condensate.

Collection-containers must be glass or polished stainless steel, so removal of interior deposits can be easily made. The collection-container shall have a vent opening to the atmosphere.

The scale for measuring the containers and sample condensate mass shall be calibrated with an error no larger than ± 0.5 percent over the range of interest.

The condensing furnace or boiler shall be tested by the flue loss method in accordance with the provisions for condensing units, as specified in section 9 of ASNI/ASHRAE 103–82 and section 3 of this appendix. The condensate collection-containers shall be dried prior to each use and shall be at room ambient temperature prior to a sample collection. Tare weight of the collection-container must be measured and recorded prior to each sample collection.

The unit should be operated in a cyclical manner until flue gas temperatures at the end of each on-cycle are within 5° F (2.8° C) of each other for two consecutive cycles. On-cycle and off-cycle times are listed in Table 2 of this appendix. Begin three test cycles. Return air temperature for furnaces shall be as specified in section 9 of ANSI/ASHRAE 103–82 and section 3 of this appendix. Return water temperature for boilers shall be as specified in section 2.3 of this appendix. Operation of the furnace blower or boiler pump shall conform to the time delay requirements specified in sections 9.2 and 9.3 of ANSI/ASHRAE 103–82 and sections 3.2, 3.3, 3.4, and 3.5 of this appendix for cool down and heat up tests. Operation of the boiler pump shall conform to the time delay requirements specified in section 3.3 of this appendix.

Begin condensate collection at one minute before the on-cycle period of the first test cycle. The container shall be removed one minute before the end of each off-cycle period of the sixth test cycle. Condensate mass shall be measured for each test cycle.

Fuel input shall be recorded during the entire test period starting at the beginning of the on-time period of the first cycle to the beginning of the on-time period of the second cycle, etc., for each of the test cycles. Fuel higher heating value (HHV), temperature and pressures necessary for determining fuel energy input (Q_c) shall be recorded. The fuel quantity and HHV shall be measured with errors no greater than one percent. Determine the mass of condensate for each cycle (m_c) in pounds. If at the end of three cycles, the sample standard deviation is within 20% of the mean value for 3 cycles use total condensate collected in the three cycles as m_c, if not, continue collection for an additional three cycles and use the total condensate collected for the six cycles as m_c. Determine the fuel energy input during the three or six test cycles (Q_c) expressed in Btu.

Begin a steady-state condensate collection after steady-state conditions have been achieved as specified in section 8 of ANSI/ASHRAE 103–82 and section 2 of this appendix. The steady-state collection period shall be 30 minutes. Condensate mass shall be measured immediately at the end of the collection period to prevent evaporation loss from the sample. Fuel input shall be recorded for the one hour steady-state test period. Fuel Higher Heating Value (HHV), temperature and pressures necessary for determining fuel energy input $Q_{C.ss}$ will be observed and recorded in Btu's. The fuel quantity and HHV shall be measured with errors no greater than one percent. Determine the mass of condensate for the steady-state test, $m_{C.ss}$, in pounds by subtracting the tare container weight from the total container and condensate weight measured at the end of the 30 minutes test period.

3.7 *Direct measurement of off-cycle losses testing method.* Reserved.

3.8 *Direct measurement of the S/F factors for oil furnaces and boilers.* For oil furnaces and boilers that are marketed and sold with attached barometric dampers, the S/F factor shall be determined either by using assigned factors in Table 2 of ANSI/ASHRAE 103–82 or by the following test procedure:

To directly measure the S/F factor, seal the barometric damper plate in the closed position. Operate the furnace or boiler until steady-state temperatures are attained. Adjust the draft in the flue within one foot of the heat exchanger exit to be between 0.075 and 0.085 inch water column. A mechanical draft inducer or a natural draft developed by adjusting the height of the test stack may be used. Remove the seal from the barometric damper and adjust the damper gate to achieve proper draft, as specified by the manufacturer. If the draft over the fire is specified as a range, adjust the draft to the mid-point of that range.

After steady-state conditions are again achieved with the draft adjusted as specified, measure CO_2 before and after dilution at points marked A and B in Figure 2 of this appendix. To ensure that the sample is well mixed after dilution obtain a representative sample of stack gas by sampling from several points on a horizontal plane through the cross section of the stack. The test setup shown in Figure 2 enhances the mixing of dilution air and flue gases. Alternatively, a straight length of stack or other flue piping arrangement may be used with stack samples taken sufficiently downstream after dilution in order to obtain a well-mixed sample.

3.9 *Furnaces and boilers that includes small air passages in the flue.* For furnaces and boilers that includes small air passages in the flue where such passage serves a utility other than for draft relief, the air passage shall be open during all tests and the test data shall be reduced as specified in section 4 of this appendix.

These units shall be considered as direct exhaust systems, for the purposes of this test procedure. These provisions shall not apply to systems which allow for air flow through the air passage in excess of 10 percent of maximum steady state total flue flow; in these cases, such passages are to be considered as draft diverters or draft hoods.

4.0 *Calculations.* Calculations shall be as specified in section 11 of ANSI/ASHRAE 103–82 with the exception of section 11.2.6, and the inclusion of the following additional calculations:

4.1 *Annual fuel utilization efficiency for electric furnaces and boilers.* The annual fuel utilization efficiency for electric furnaces and boilers (AFUE) is equal to the heating seasonal efficiency for electric furnaces and boilers ($Effy_{hs-e}$) as defined in section 11.1 of ANSI/ASHRAE 103–82.

4.2. *Average ratio of stack gas mass flow rate to flue gas mass flow rate at steady-state operation.* The following paragraphs are in place of the requirements specified in section 11.2.6 of ANSI/ASHRAE 103–82:

For gas furnaces and boilers with integral draft diverters, calculate the average ratio of stack gas mass flow rate to flue gas mass flow rate at steady-state operation (S/F) defined as:

$$S/F = 1.3\ R_{T.S}/R_{T.F}$$

where:

$R_{T.S}$ = as defined in 11.2.3 of ANSI/ASHRAE 103–82

$R_{T.F}$ = as defined in 11.2.2 of ANSI/ASHRAE 103–82

For gas furnaces and boilers equipped with draft hoods determine the S/F by the method set out above or use the assigned value of 2.4. This alternative method may be used until 24 months from the effective date of the amendment. After that date, the assigned value may not be used and only the method set out above may be used.

For oil furnaces and boilers, S/F shall be 1.40 for units not shipped with barometric

dampers or for units shipped with barometric dampers, S/F shall be either 1.40 or determined by:

$S/F = R_{T.S}/R_{T.F}$

where:

$R_{T.S}$ = as defined in 11.2.3 of ANSI/ASHRAE 103–82 in which the value of CO_2 measured in the stack in 3.8 of this appendix is used

$R_{T.F}$ = as defined in 11.2.2 of ANSI/ASHRAE 103–82 in which the value of CO_2 measured in the flue in 3.8 of this appendix is used

4.3 *Optional direct condensate measurement method.* For condensing furnaces and boilers for which the direct measurement of condensate is used, as specified in section 3.6 of this appendix, calculate the part-load efficiency (η_u) and the steady-state efficiency (η_{ss}) expressed as a percent and defined as:

$\eta_u = Effy_{ss} + L_G - L_C$

$\eta_{ss} = Effy_{ss} + L_{G.ss} - L_{C.ss}$

where:

$Effy_{ss}$ = heating seasonal efficiency for non-condensing furnaces and boilers, as defined in 11.2.34 of ANSI/ASHRAE 103–82

L_G = latent heat gain under part-load conditions, as defined in 4.3.1 of this appendix

L_C = part-load heat loss due to the condensate going down the drain and corrected for the fact that the condensate did not go up the flue as heated vapor, as was assumed in determining $L_{G.ss.A}$, as defined in 4.3.2 of this appendix

$Effy_{ss}$ = steady-state efficiency for non-condensing furnaces and boilers, as defined in 11.2.5 of ANSI/ASHRAE 103–82

$L_{G.ss}$ = latent heat gain under steady-state conditions, as defined in 4.3.3 of this appendix

$L_{C.ss}$ = steady-state heat loss due to the condensate going down the drain and corrected for the fact that the condensate did not go up the flue as heated vapor, as was assumed in determining $L_{G.ss.A}$, as defined in 4.3.4 of this appendix

4.3.1 *Latent heat gain under part-load conditions.* Calculate the latent heat gain under part-load conditions (L_G) expressed as a percent and defined as:

$L_G = 100(1053.3)\, m_c/Q_c$

where:

100 = conversion factor to express a decimal as a percent

1053.3 = latent heat vaporization of water, Btu per pound

m_c = as defined in 3.6 of this appendix

Q_c = as defined in 3.6 of this appendix

4.3.2 *Part-load heat loss due to the condensate.* Calculate the part-load heat loss due to the condensate going down the drain and corrected for the fact that the condensate did not go up the flue as heated vapor, as was assumed in determining $L_{G.ss.A}$ (L_C) expressed as a percent and defined as:

$L_C = L_G[1.0(T_{F.ss} - 70) - 0.45(T_{F.ss} - 42)]/1053.3$

where:

L_G = as defined in 4.3.1 of this appendix

1.0 = specific heat of water (liquid), Btu per pound – °F

$T_{F.ss}$ = as defined in 11.2.4 of ANSI/ASHRAE 103–82

70 = assumed average indoor air temperature, °F

0.45 = specific heat of water vapor, Btu per pound – °F

42 = average outdoor temperature corresponding to 5,200 degree day location, °F

1053.3 – Latent heat of vaporization of water, Btu per pound

4.3.3 *Latent heat gain under steady-state conditions.* Calculate the latent heat gain under steady-state conditions ($L_{G.ss}$) expressed as a percent and defined as:

$L_{G.ss} = 100(1053.3)m_{C.ss}/Q_{C.ss}$

where:

100 = conversion factor to express a decimal as a percent

1053.3 = latent heat of vaporization of water, Btu per pound

$m_{C.ss}$ = as defined in 3.6 of this appendix, pound

$Q_{C.ss}$ = as defined in 3.6 of this appendix, Btu

4.3.4 *Steady-state heat loss due to the condensate.* Calculate the steady-state heat loss due to the condensate going down the drain ($L_{C.ss}$) expressed as a percent and defined as:

$L_{C.ss} = L_{G.ss}[1.0(T_{F.ss} - 70) - 0.45(T_{F.ss} - 42]/1053.3$

where:

$L_{G.ss}$ = as defined in 4.3.3 of this appendix

1.0 = specific heat of water (liquid), Btu per pound – ° F

$T_{F.ss}$ = as defined in 11.2.4 of ANSI/ASHRAE 103–82

70 = assumed average indoor air temperature, ° F

0.45 = specific heat of water vapor, Btu per pound – ° F

42 = average outdoor temperature corresponding to 5200 degree day location, ° F

1053.3 = latent heat of vaporization of water, Btu per pound

4.4 *Direct determination of off-cycle losses for furnaces and boilers equipped with stack dampers.* Reserved

4.5 *Modulating controls.*

4.5.1 *Weighted-average part-load utilization efficiency.* For furnaces and boilers equipped with two stage thermostats, calculate the weighted-average part-load utilization efficiency at each design heating requirement ($\eta_{U.WT}$) expressed as a percent and defined as:

$\eta_{U.WT} = X_1\eta_{U.RED} + X_2\eta_{U.MAX}$

where:

X_1 = fraction of heating load at reduced operating mode, as defined in 4.5.2 of this appendix

$\eta_{U.RED}$ = the part-load efficiency at the reduced fuel input rate and is defined as the heating seasonal efficiency ($Effy_{ss}$) in 11.2.34 of ANSI/ASHRAE 103–82, measured at the reduced fuel input rate and calculated by using the appropriate on and off times as specified from Table 2 of this appendix

X_2 = fraction of heating load at maximum operating mode, as defined in 4.5.3 of this appendix

$\eta_{U.MAX}$ = the part-load efficiency at the maximum fuel input rate and is defined as the heating seasonal efficiency ($Effy_{ss}$) in 11.2.34 of ANSI/ASHRAE 103–82, measured at the maximum fuel input rate and calculated by using the appropriate on and off times as specified from Table 2 of this appendix

For furnaces and boilers equipped with step-modulating thermostats, calculate $\eta_{U.WT}$ expressed as a percent and defined as:

$\eta_{U.WT} = X_1\,\eta_{U.RED} + X_2\,\eta_{U.MOD}$

where:

X_1 = as defined in 4.5.2 of this appendix

$\eta_{U.RED}$ = as defined in 4.5.1 of this appendix

X_2 = as defined in 4.5.3 of this appendix

$\eta_{U.MOD}$ = average part-load efficiency for the modulating mode, as defined in 4.5.8 of this appendix

4.5.2 *Fraction of heating load at reduced operating mode.* Determine the fraction of heating load at the reduced operating mode (X_1) expressed as a decimal and listed in either Figure 4 or Table 3 of this appendix for appropriate values of the balance point temperature (T_C). T_C is defined in section 4.5.4 of this appendix.

4.5.3 *Fraction of heating load at maximum operating mode.* Determine the fraction of heating load at the maximum operating mode (X_2) expressed as a decimal and listed in either Figure 4 or Table 3 of this appendix for appropriate values of the balance point temperature (T_C).

4.5.4 *Balance point temperature.* Calculate the balance point temperature (T_C) which represents a temperature used to apportion the annual heating load between the reduced input cycling mode and either the modulation mode or maximum input cycling mode. T_C is defined as:

$T_C = 65 - [\Delta T_D(1 + \alpha_{DHR})\,[Q_{OUT.RED}/Q_{OUT.MAX}]]$

where:

65 = average outdoor temperature at which a furnace or boiler starts operating, °F

ΔT_D = the difference between the outdoor air temperature where heating is typically required and the outdoor design temperature, the national average temperature difference is 65° F – 5° F or 60° F

5 = outdoor design temperature

α_{DHR} = oversize factor at each design heating requirement, as defined in 4.5.5 of this appendix

$Q_{OUT.RED}$ = heat output rate at the reduced fuel input rate, as defined in 4.5.6 of this appendix

$Q_{OUT.MAX}$ = heat output rate at the maximum fuel input rate, as defined in 4.5.7 of this appendix

4.5.5 *Oversize factor at each design heating requirement.* Calculate the oversize factor at each design heating requirement (α_{DHR}) expressed as a decimal and defined as:

$\alpha_{DHR} = [Q_{OUT.MAX}/DHR] - 1$

where:

$Q_{OUT.MAX}$ = as defined in 4.5.7 of this appendix

DHR = typical design heating requirements, as listed in Table 1 of this appendix

4.5.6 *Heat output rate at the reduced fuel input rate.* Calculate the heat output rate at the reduced fuel input rate ($Q_{OUT.RED}$) defined as:

$$Q_{OUT.RED} = \eta_{SS.RED} Q_{IN.RED}$$

where:

$\eta_{SS.RED}$ = steady-state efficiency at the reduced fuel input rate and is defined as the steady-state efficiency ($Effy_{SS}$) in 11.2.5 of ANSI/ASHRAE 103–82, measured at the reduced fuel input rate

$Q_{IN.RED}$ = the reduced fuel input rate and is defined as Q_{IN} in 11.2.34 of ANSI/ASHRAE 103–82, measured at the reduced fuel input rate

4.5.7 *Heat output rate at the maximum fuel input rate.* Calculate the heat output rate at the maximum fuel input rate ($Q_{OUT.MAX}$) defined as:

$$Q_{OUT.MAX} = \eta_{SS.MAX} Q_{IN.MAX}$$

where:

$\eta_{SS.MAX}$ = steady-state efficiency at the maximum fuel input rate and is defined as the steady-state efficiency ($Effy_{SS}$) in 11.2.5 of ANSI/ASHRAE 103–82, measured at the maximum fuel input rate

$Q_{IN.MAX}$ = the maximum fuel input rate and is defined as $_{IN}$ in 11.2.34 of ANSI/ASHRAE 103–82

4.5.8 *Average part-load efficiency for the modulating mode for furnaces and boilers equipped with step-modulating thermostats.*

For furnaces and boilers equipped with step-modulating thermostats and are located in heated spaces, calculate the average part-load efficiency for the modulating mode ($\eta_{U.MOD}$) expressed as a percent and defined as:

$$\eta_{U.MOD} = \eta_{SS.MOD} - L_{I.ON.\ MOD}$$

where:

$\eta_{SS.MOD}$ = average steady-state efficiency for the modulating mode as defined in 4.5.9 of this appendix

$L_{I.ON.MOD}$ = average on-cycle infiltration heat loss for the modulating mode as defined in 4.5.10 of this appendix

For furnaces and boilers equipped with step-modulating thermostats and are located outside or are in unheated spaces, calculate $\eta_{U.MOD}$ defined as:

$$\eta_{U.MOD} = \eta_{SS.MOD} - C_J L_L$$

where:

$\eta_{SS.MOD}$ = as defined in 4.5.9 of this appendix

C_J = as defined in 4.6 of this appendix

L_J = as defined in 4.6 of this appendix

4.5.9 *Average steady-state efficiency for the modulating mode for furnaces and boilers equipped with step-modulating thermostats.* For furnaces and boilers equipped with step-modulating thermostats, calculate the average steady-state efficiency for the modulating mode ($\eta_{SS.MOD}$) expressed as a percent and defined as:

$$\eta_{SS-MOD} = \left[\frac{DHR - Q_{OUT.RED}}{Q_{OUT.MAX} - Q_{OUT.RED}}\right]\left[\frac{T_C - T_{OA'}}{T_C - 5}\right]\left[\eta_{SS.MAX} - \eta_{SS.ED}\right] + \eta_{SS.RED}$$

where:

DHR = average design heating requirement as listed in Table 1 of this appendix

$Q_{OUT.RED}$ = as defined in 4.5.6 of this appendix

$Q_{OUT.MAX}$ = as defined in 4.5.7 of this appendix

T_C = as defined in 4.5.4 of this appendix and is based on the average design heating requirement listed in Table 3 of this appendix

$T_{OA'}$ = average outdoor air temperature during the modulating mode, as defined in 4.5.1 of this appendix and is based on the average design heating requirement listed in Table 3 of this appendix

5 = outdoor design temperature, °F

$\eta_{SS.MAX}$ = as defined in 4.5.7 of this appendix

$\eta_{SS.RED}$ = as defined in 4.5.6 of this appendix

4.5.10 *Average on-cycle infiltration heat loss for the modulating mode for furnaces and boilers equipped with step-modulating thermostats.* For furnaces and boilers equipped with step-modulating thermostats, calculate the average on-cycle infiltration heat loss for the modulating mode ($L_{I.ON.MOD}$) expressed as a percent and defined as:

$$L_{I.ON.MOD} = [K_{I.ON.RED}(70 - T_{OA}) + K_{I.ON.MAX}(70 - T_{OA'})]/2$$

where:

$K_{I.ON.RED}$ = multiplication factor for infiltration loss during burner on-cycle at the reduced firing rate, and defined as $K_{I.ON}$ in 11.2.18 of ANSI/ASHRAE 103–82 at the reduced firing rate

70 = average indoor temperature, °F

T_{OA} = average outdoor temperature in the cycling mode, based on the average design heating requirement, and is listed in either Figure 3 or Table 2 of this appendix

$K_{I.ON.MAX}$ = multiplication factor for infiltration loss during burner on-cycle at the maximum firing rate, and defined as $K_{I.ON}$ in 11.2.18 of ANSI/ASHRAE 103–82 at the maximum firing rate

$T_{OA'}$ = average outdoor temperature in the modulating mode, based on the average design heating requirement, and is listed in either Figure 3 or Table 3 of this appendix

4.5.11 *Average heat output rate for the modulating mode for furnaces and boilers equipped with step-modulating thermostats.* For furnaces and boilers equipped with step-modulating thermostats, calculate the average heat output rate for the modulating mode ($Q_{OUT.MOD}$) defined as:

$$Q_{OUT.MOD} = [(DHR - Q_{OUT.RED})[T_C - T_{OA'}]/[T_C - 5]] + Q_{OUT.RED}$$

where:

DHR = average design heating requirement, as listed in Table 1 of this appendix

$Q_{OUT.RED}$ = as defined in 4.5.6 of this appendix

T_C = as defined in 4.5.4 of this appendix and is based on the average design heating requirement listed in Table 3 of this appendix

$T_{OA'}$ = as defined in 4.5.10 of this appendix and is based on the average design heating requirement listed in Table 3 of this appendix

5 = outdoor design temperature, °F

4.5.12 *Average fuel input rate for the modulating mode for furnaces and boilers equipped with step-modulating thermostats.* For furnaces and boilers equipped with step-modulating thermostats, calculate the average fuel input rate for the modulating mode ($Q_{IN.MOD}$) defined as:

$$Q_{IN.MOD} = Q_{OUT.MOD} / \eta_{SS.MOD}$$

where:

$Q_{OUT.MOD}$ = as defined in 4.5.11 of this appendix

$\eta_{SS.MOD}$ = as defined in 4.5.9 of this appendix

4.5.13 *Average outdoor temperature.* For furnaces and boilers equipped with two stage thermostats or with step-modulating thermostats operating at the reduced operating mode, the average outdoor temperature shall be T_{OA}, as obtained either from Figure 3 or Table 3 of this appendix. For furnaces and boilers equipped with two stage thermostats operating at the maximum operating mode or with step-modulating thermostats operating at the modulating mode, the average outdoor temperature shall be $T_{OA'}$, as obtained from either Figure 3 or Table 3 of this appendix. These values for the average outdoor temperature shall replace the value of 42 specified as the average outdoor temperature in sections 11.2.15, 11.2.17, 11.2.19, 11.2.30, 11.2.31, and 11.2.33 of ANSI/ASHRAE 103–82.

4.5.14 *Weighted-average steady-state efficiency.* For furnaces and boilers equipped with two stage thermostats, calculate the weighted-average steady-state efficiency ($\eta_{SS.WT}$) expressed as a percent and defined as:

$$\eta_{SS.WT} = X_2 \eta_{SS.MAX} + X_1 \eta_{SS.RED}$$

where:

X_1 = as defined in 4.5.2 of this appendix

$\eta_{SS.MAX}$ = as defined in 4.5.7 of this appendix

X_2 = as defined in 4.5.3 of this appendix

$\eta_{SS.RED}$ = as defined in 4.5.6 of this appendix

For furnaces and boilers equipped with step-modulating thermostats, calculate $\eta_{SS.WT}$ defined as:

$$\eta_{SS.WT} = X_2 \eta_{SS.MOD} + X_1 \eta_{SS.RED}$$

where:

X_1 = as defined in 4.5.2 of this appendix

$\eta_{SS.MOD}$ = as defined in 4.5.9 of this appendix

X_2 = as defined in 4.5.3 of this appendix

$\eta_{SS.RED}$ = as defined in 4.5.6 of this appendix

4.6 *Annual fuel utilization efficiency.* The annual fuel utilization efficiency (AFUE) shall be expressed as a percent and defined as:

$$AFUE = \frac{5200 \eta_{SS} \eta_U Q_{IN}}{5200 \eta_{SS} Q_{IN} + 2.5(1 + 0.7)(4600) \eta_U Q_P}$$

where:

5200 = average annual heating degree-days

η_{SS} as defined in 4.3 of this appendix for condensing furnaces and boilers measured by the optional direct condensate measurement method; as

$\eta_{ss.WT}$ as defined in 4.5.14 of this appendix at each design heating requirement for modulating furnaces and boilers; or as $Effy_{ss}$ as defined in 11.2.5 of ANSI/ASHRAE 103–82 for all other furnaces and boilers

η_U = as defined in 4.3 of this appendix for condensing furnaces and boilers measured by the optional direct condensate measurement method; as $\eta_{U.WT}$ as defined in 4.5.1 of this appendix at each design heating requirement for modulating furnaces and boilers; or as $Effy_{hs}$ as defined in 11.2.34 of ANSI/ASHRAE 103–82 and in 4.2 of this appendix for all other furnaces and boilers except that C_j and L_j are defined as:

C_j =
- 0 for furnaces or boilers intended to be installed indoors
- 3.3 for furnaces intended to be installed outdoors
- 1.7 for furnaces intended to be installed as isolated combustion systems
- 4.7 for boilers intended to be installed outdoors
- 2.4 for boilers intended to be installed as isolated combustion systems

L_j = jacket loss and is either assigned the value of 1 percent or determined in accordance with 8.6 of ANSI/ASHRAE 103–82 in percent

Q_{IN} = steady-state heat input as defined in 11.2.34 of ANSI/ASHHRAE 103–82

0.7 = average oversizing factor for furnaces and boilers

4600 = average non-heating season hours per year

Q_P = pilot flame fuel input rate as defined in 9.2 of ANSI/ASHRAE 103–82

4.7 *National average number of burner operating hours.* For furnaces and boilers equipped with single stage thermostats, calculate the national average number of burner operating hours (BOH_{ss}) defined as:

$BOH_{ss} = 2080(0.77)A\ DHR - 2080\ B$

where:

2080 = national average heating load hours

0.77 = adjustment factor which serves to adjust the calculated design heating requirement and heating load hours to the actual heating load experienced by a heating system

DHR = typical design heating requirements, as listed in Table 1 of this appendix using the proper value of Q_{OUT} where:

$Q_{OUT} = (\eta_{ss}/100 - (K)\ (L_j)/100)\ (Q_{IN})$ rounded off to the nearest 1,000 Btu/hr

where:

η_{ss} as defined in 4.3 of this appendix for condensing furnaces and boilers measured by the optional direct condensate measurement method: as $\eta_{ss.WT}$ as defined in 4.5.14 of this appendix at each design heating requirement for modulating furnaces and boilers; or as $Effy_{ss}$ as defined in 11.2.5 of ANSI/ASHRAE 103–82 for all other furnaces and boilers.

Q_{IN} as defined in 11.2.34 of ANSI/ASHRAE 103–82

K = factor that adjusts jacket losses measured in the laboratory to those that would be measured under outdoor design conditions.
- 0 for furnaces or boilers intended to be installed indoors.
- 1.7 for furnaces or boilers intended to be installed as isolated combustion systems.
- 3.3 for furnaces or boilers intended to be installed outdoors.
- 1.0 for finned tubed boilers intended for installation outdoors.

L_j = jacket loss

$A = 100{,}000/[341{,}300(PE + y\ BE) + (Q_{IN} - Q_P)\eta_U]$

$B = 2\ Q_P \eta_U A/100{,}000$

100,000 = factor that accounts for percent and kBtu

PE = power burner electrical energy input rate at full-load steady-state operation, as defined in 9.1 of ANSI/ASHRAE 103–82

y =
- ratio of average blower or pump on time to average burner on time
- 1, for furnaces without a fan delay
- 1, for boilers without a pump delay
- $1 + (t^+ - t^-)/3.87$, for single stage furnaces with fan delay
- $1 + (t^+ - t^-)/10.00$, for two stage and step modulating furnaces with fan delay
- $1 + (t^+/9.68)$, for single stage boilers with pump delay
- $1 + (t^+/15.00)$, for two stage and step modulating boilers with pump delay

BE = circulating air fan (or circulating water pump) electrical energy input rate at full-load steady-state operation, as defined in 9.1 of ANSI/ASHRAE 103–82

Q_{IN} = as defined in 11.2.34 of ANSI/ASHRAE 103–82

Q_P = as defined in 11.2.34 of ANSI/ASHRAE 103–82

$\eta\mu$ = as defined in 4.6 of this appendix

2 = ratio of the average length of a heating season in hours to the average heating load hours

t^+ = as defined in 3.3 of this appendix

t^- = as defined in 9.3.1 of ANSI/ASHRAE 103–82

For furnaces and boilers equipped with two stage thermostats or step-modulating thermostats, calculate the national average number of burner operating hours at the reduced operating mode (BOH_{RED}) defined as:

$BOH_{RED} = X_1\ E_M/Q_{IN.RED}$

where:

X^1 = as defined in 4.5.2 of this appendix

E_M = average annual energy used during the heating season

$E_M = (Q_{IN.MAX} - Q_P)BOH_{ss} + (8760 - 4600)Q_P$

$Q_{IN.RED}$ = as defined in 4.5.6 of this appendix

$Q_{IN.\ MAX}$ = as defined in 4.5.7 of this appendix

Q_P = as defined in 11.2.34 of ANSI/ASHRAE 103–82

BOH_{ss} = as defined in 4.7 of this appendix in which $\eta_{U.WT}$ replaces η_U for calculating the values of A and B and the term (PE + y BE) in the factor A is increased by the ratio, R. It is defined as:

R =
- 2.3 for two stage controls
- 2.3 for step-modulating controls when the ratio of minimum-to-maximum output is greater than or equal to 0.5
- 3.0 for step modulating controls when the ratio of minimum-to-maximum out is less than 0.5

$A = 100{,}000/[341{,}300(PE + y\ BE)R + (Q_{IN} - Q_P)\eta_U]$

8760 = total number of hours per year

4600 = as defined in 4.6 of this appendix

For furnaces and boilers equipped with two stage thermostats, calculate the national average number of burner operating hours at the maximum operating mode (BOH_{MAX}) defined as:

$BOH_{MAX} = X_2 E_M/Q_{IN.MAX}$

where:

X_2 = as defined in 4.5.3 of this appendix

E_M = as defined in 4.7 of this appendix

$Q_{IN.MAX}$ = as defined in 4.5.7 of this appendix

For furnaces and boilers equipped with step-modulating thermostats, calculate the national average number of burner operating hours in the modulating mode (BOH_{MOD}) defined as:

$BOH_{MOD} = X_2 E_M/Q_{IN.MOD}$

where:

X_2 = as defined in 4.5.3 of this appendix

E_M = as defined in 4.7 of this appendix

$Q_{IN.MOD}$ = as defined in 4.5.12 of this appendix

4.8 *Average annual fuel energy consumption for gas or oil fueled furnaces or boilers.* For furnaces and boilers equipped with single stage thermostats, calculate the average annual fuel energy consumption for gas or oil fueled furnaces or boilers (E_F) expressed in Btu's per year and defined as:

$E_F = BOH(Q_{IN} - Q_P) + 8760\ Q_P$

where:

BOH = as defined in 4.7 of this appendix

Q_{IN} = as defined in 11.2.34 of ANSI/ASHRAE 103–82

Q_P = as defined in 11.2.34 of ANSI/ASHRAE 103–82

8760 = as defined in 4.7 of this appendix

For furnaces and boilers equipped with either two stage thermostats or step-modulating thermostats, calculate E_F as defined as:

$E_F = E_M + 4600\ Q_P$

where:

E_M = as defined in 4.7 of this appendix

4600 = as defined in 4.6 of this appendix

Q_P = as defined in 11.2.34 of ANSI/ASHRAE 103–82

4.9 *Average annual auxiliary electrical energy consumption for gas or oil fueled furnaces or boilers.* For furnaces and boilers equipped with single stage thermostats, calculate the average annual auxiliary electrical energy consumption (E_{AE}) expressed in kilowatt-hours per year and defined as:

$E_{AE} = BOH_{SS}$ (PE + y BE)

where:

BOH_{SS} = as defined in 4.7 of this appendix
PE = as defined in 9.1 of ANSI/ASHRAE 103–82
y = as defined in 4.7 of this appendix
BE = as defined in 9.1 of ANSI/ASHRAE 103–82

For furnaces and boilers equipped with two stage thermostats, calculate E_{AE} defined as:

$E_{AE} = BOH_{RED}$ (PE_{RED} + y BE_{RED}) + BOH_{MAX}(PE_{MAX} + y BE_{MAX})

where:

BOH_{RED} = as defined in 4.7 of this appendix
PE_{RED} = as defined in 9.1 of ANSI/ASHRAE 103–82, measured at the reduced fuel input rate
y = as defined in 4.7 of this appendix
BE_{RED} = as defined in 9.1 of ANSI/ASHRAE 103–82, measured at the reduced fuel input rate
BOH_{MAX} = as defined in 4.7 of this appendix
PE_{MAX} = as defined in 9.1 of ANSI/ASHRAE 103–82, measured at the maximum fuel input rate
BE_{MAX} = as defined in 9.1 of ANSI/ASHRAE 103–82, measured at the maximum fuel input rate

For furnaces and boilers equipped with step-modulating thermostats, calculate E_{AE} defined as:

$E_{AE} = BOH_{RED}$ (PE_{RED} + y BE_{RED}) + BOH_{MOD}(PE_{MAX} + y BE_{MAX})

where:

BOH_{RED} = as defined in 4.7 of this appendix
PE_{RED} = as defined in 4.9 of this appendix
y = as defined in 4.7 of this appendix
BE_{RED} = as defined in 4.9 of this appendix
BOH_{MOD} = as defined in 4.7 of this appendix
PE_{MAX} = as defined in 4.9 of this appendix
BE_{MAX} = as defined in 4.9 of this appendix

4.10 *Average annual electric energy consumption for electric furnaces or boilers.* For electric furnaces and boilers, calculate the average annual electric energy consumption (E_E) expressed in kilowatt-hours per year and defined as:

$E_E = 100(2080)(0.77)$ DHR/3412 AFUE

where:

100 = conversion to express a percent as a decimal
2080 = as defined in 4.7 of this appendix
0.77 = as defined in 4.7 of this appendix
DHR = as defined in 4.7 of this appendix
3.412 = conversion to express energy in terms of watt-hours instead of Btu
AFUE = as defined in 4.1 of this appendix

4.11 *Average annual fuel energy consumption for gas or oil fueled furnaces or boilers located in different geographic regions of the United States and in buildings with different design heating requirements.* For gas or oil fueled furnaces and boilers, calculate the average annual fuel energy consumption for a specific geographic region and for a specific typical design heating requirement (E_{FR}) expressed in Btu's per year and defined as:

$E_{FR} = [(E_T - 8760\ Q_T)HLH/2080] + 8760\ Q_T$

where:

E_T = as defined in 4.8 of this appendix
8760 = as defined in 4.7 of this appendix
Q_T = as defined in 11.2.34 of ANSI/ASHRAE 103–82
HLH = heating load hours for a specific geographic region determined in accordance with the heating load hour map in Figure 1 of this appendix
2080 = as defined in 4.7 of this appendix

4.12 *Average annual auxiliary electrical energy consumption for gas or oil fueled furnaces or boilers located in different geographic regions of the United States and in buildings with different design heating requirements.* For gas or oil fueled furnaces and boilers, calculate the average annual auxiliary electrical energy consumption for a specific geographic region and for a specific typical design heating requirement (E_{AER}) expressed in kilowatt-hours per year and defined as:

$E_{AER} = E_{AE}HLH/2080$

where:

E_{AE} = as defined in 4.9 of this appendix
HLH = as defined in 4.11 of this appendix
2080 = as defined in 4.7 of this appendix

4.13 *Average annual electric energy consumption for electric furnaces or boilers located in different geographic regions of the United States and in buildings with different design heating requirements.* For electric furnaces and boilers, calculate the average annual electric energy consumption for a specific geographic region and for a specific typical design heating requirement (E_{ER}) expressed in kilowatt-hours per year and defined as:

$E_{ER} = 100(0.77)$DHR HLH/3.412 AFUE

where:

100 = as defined in 4.10 of this appendix
0.77 = as defined in 4.7 of this appendix
DHR = as defined in 4.7 of this appendix
HLH = as defined in 4.11 of this appendix
3.412 = as defined in 4.10 of this appendix
AFUE = as defined in 4.1 of this appendix

4.14 *Energy factor.* For electric furnaces and boilers, the energy factor (EF) is equal to AFUE, as defined in section 4.1 of this appendix. For gas and oil furnaces and boilers, calculate EF as defined as:

$EF = \eta_U[E_T - 4600\ Q_T]/[E_T + 3412\ E_{AE}]$

where:

η_U = as defined in 4.6 of this appendix
E_T = as defined in 4.8 of this appendix
4600 = as defined in 4.6 of this appendix
Q_T = as defined in 11.2.34 of ANSI/ASHRAE 103–82
3412 = as defined in 4.10 of this appendix
E_{AE} = as defined in 4.9 of this appendix

TABLE 1.—AVERAGE AND TYPICAL DESIGN HEATING REQUIREMENTS FOR FURNACES AND BOILERS WITH DIFFERENT OUTPUT CAPACITIES

Furnace or boiler output capacity, Q_{out} (Btu/hr)	Average design heating requirements (KBtu/hr)	Typical design heating requirements (KBtu/hr)
5,000–10,000	5	5
11,000–16,000	10	5, 10
17,000–25,000	15	10, 15
26,000–34,000	20	15, 20
35,000–42,000	25	20, 25, 30
43,000–51,000	30	25, 30, 35
52,000–59,000	35	30, 35, 40, 45
60,000–76,000	40	35, 40, 45, 50
77,000–93,000	50	40, 45, 50, 60
94,000–110,000	60	50, 60, 70, 80
111,000–127,000	70	60, 70, 80, 90
128,000–144,000	80	70, 80, 90, 100
145,000–161,000	90	80, 90, 100, 110, 120
162,000–178,000	100	90, 100, 110, 120, 130
179,000–195,000	110	100, 110, 120, 130, 140
over 196,000	120	120, 130, 140, 150, 160

TABLE 2.—AVERAGE BURNER ON-TIME AND OFF-TIME PER CYCLE FOR FURNACES AND BOILERS (MINUTES)

Thermostat type	Furnaces		Boilers	
	t_{on}	t_{off}	t_{on}	t_{off}
Single stage	3.87	13.3	9.68	33.26
Two stage	10.0	10.0	15.0	15.0
Step modulating	10.0	10.0	15.0	15.0

TABLE 3.—FRACTIONAL HEATING LOADS AND AVERAGE OUTDOOR TEMPERATURES FOR FURNACES AND BOILERS EQUIPPED WITH MODULATING CONTROLS

Balance point temperature range (° F)	Fractional heating load		Average outdoor temperature (° F)	
	Reduced rate	Modulating or maximum rate	Reduced rate	Modulating or maximum rate
(T_C)	(X_1)	(X_2)	(T_{OA})	(T_{OA}*)
6 to 15	0.95	0.05	41	9
16 to 20	0.90	0.10	42	14
21 to 25	0.84	0.16	43	18
26 to 28	0.77	0.23	44	22
29 to 31	0.70	0.30	45	24
32 to 33	0.66	0.34	46	26
34 to 35	0.60	0.40	47	27
36 to 37	0.54	0.46	48	28
38 to 39	0.48	0.52	48	30
40 to 41	0.42	0.58	49	31
42 to 43	0.35	0.65	50	32
44 to 45	0.29	0.71	51	33
46 to 47	0.23	0.77	52	35
48 to 49	0.18	0.82	54	36
50 to 52	0.12	0.88	55	37
53 to 57	0.07	0.92	56	39
58 to 62	0.02	0.98	61	40

NOTE.—This table is based on national average 5,200 degree-days.

BILLING CODE 6450-01-M

FIGURE I

Heating Load Hours (HLH) for the United States and Territories

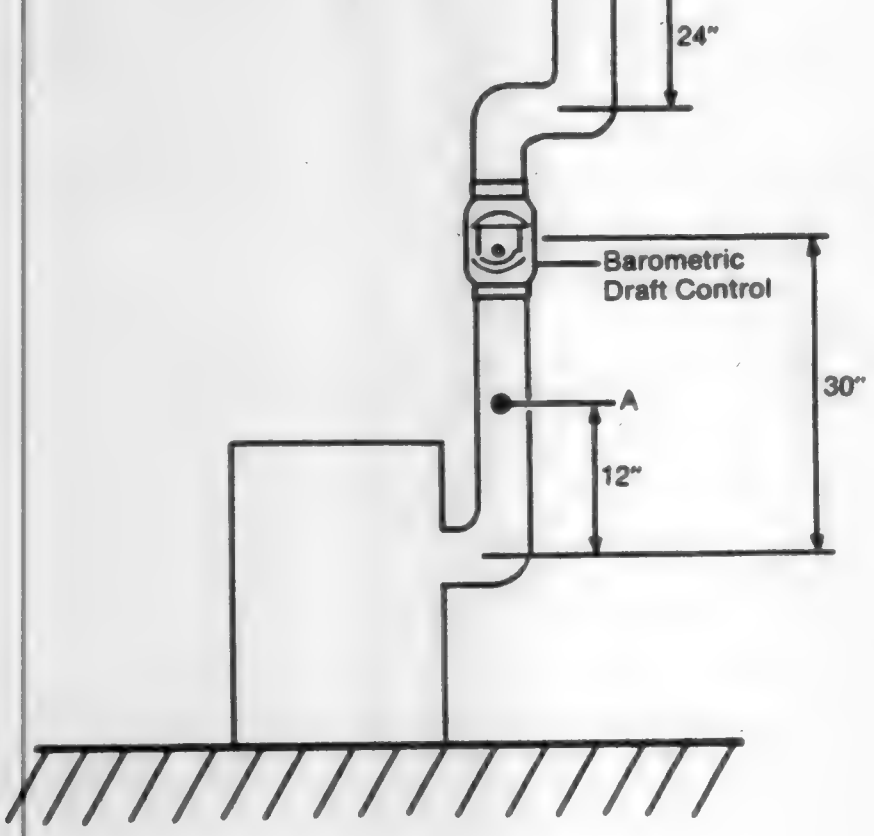
This map is reasonably accurate for most parts of the United States but is necessarily highly generalized and consequently not too accurate in mountainous regions, particularly in the Rockies.

Alaska — 3500 HLH
Hawaii and Territories — 0 HLH

FIGURE 2

Test Setup for Measuring S/F for Furnaces and Boilers with Barometric Draft Controls

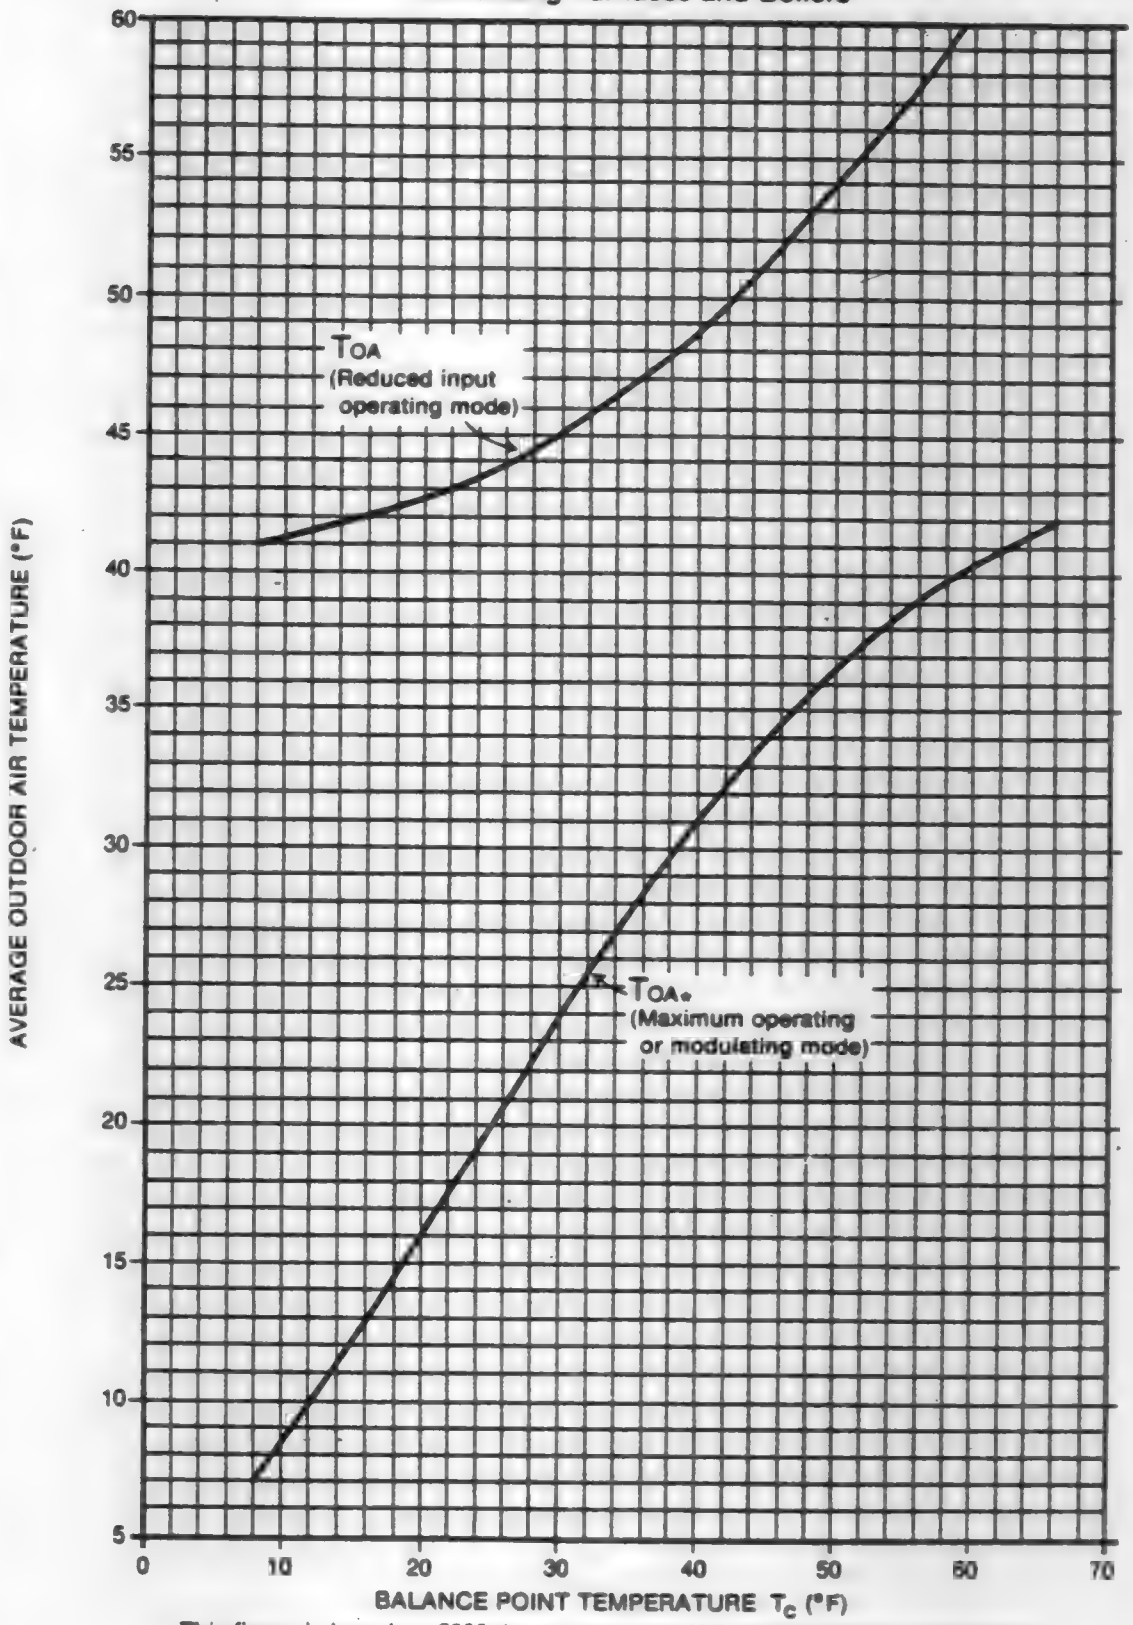
Note: Dimensions are suggested minimums in inches and may be varied to assure well-mixed samples of gases.



VOL 49 ISS 61 MR 28 1984 UMI

FIGURE 3

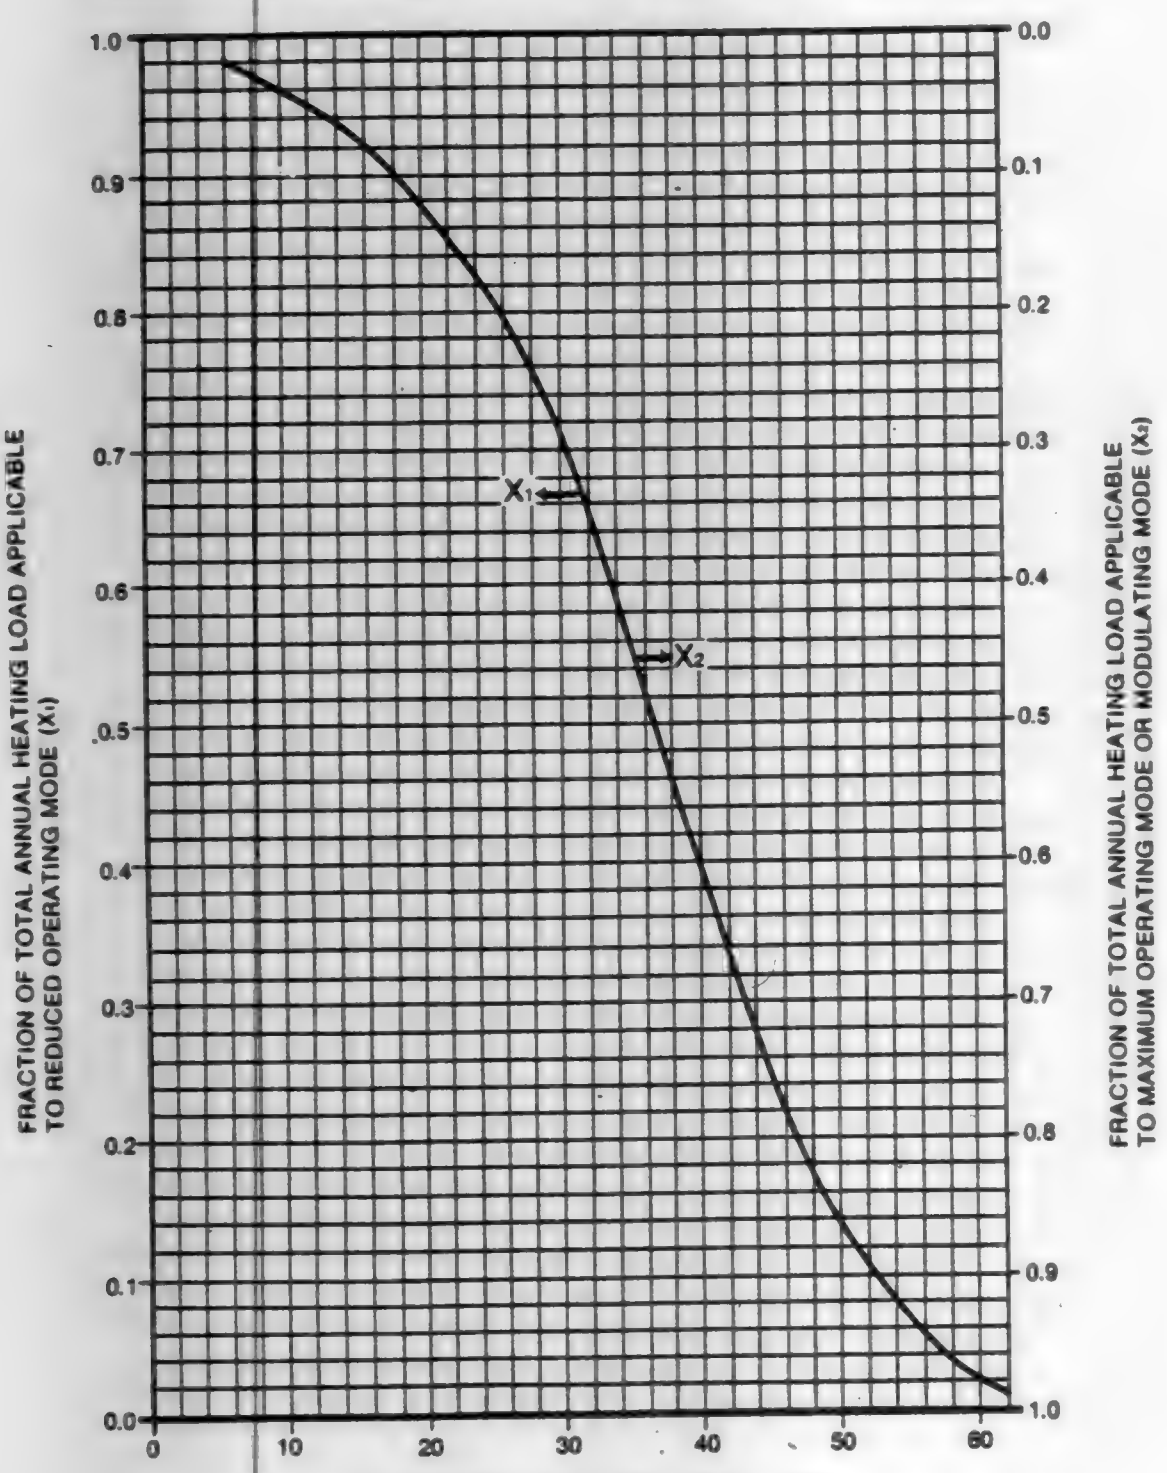
Average Outdoor Air Temperature vs. Balance Point Temperature for Modulating Furnaces and Boilers



This figure is based on 5200 degree-days and 5°F outdoor design temperature.

FIGURE 4

Fraction of Total Annual Heating Load Applicable to Reduced Operating Mode (X_1) and to Maximum Operating Mode or Modulating Mode (X_2) vs. Balance Point Temperature for Modulating Furnaces and Boilers.



This figure is based on 5200 degree-days and 5°F outdoor design temperature.

BILLING CODE 6450-01-C

5. Appendix O to Subpart B of Part 430 is revised to read as follows:

Appendix O to Subpart B of Part 430–Uniform Test Method for Measuring the Energy Consumption of Vented Home Heating Equipment

1.0 *Definitions.*

1.1 "Air shutter" means an adjustable device for varying the size of the primary air inlet(s) to the combustion chamber power burner.

1.2 "Air tube" means a tube which carries combustion air from the burner fan to the burner nozzle for combustion.

1.3 "Barometic draft regulator or barometric damper" means a mechanical device designed to maintain a constant draft in a vented heater.

1.4 "Draft hood" means an external device which performs the same function as an integral draft diverter, as defined in section 1.17 of this appendix.

1.5 "Electro-mechanical stack damper" means a type of stack damper which is operated by electrical and/or mechanical means.

1.6 "Excess air" means air which passes through the combustion chamber and the vented heater flues in excess of that which is theoretically required for complete combustion.

1.7 "Flue" means a conduit between the flue outlet of a vented heater and the integral draft diverter, draft hood, barometric damper or vent terminal through which the flue gases pass prior to the point of draft relief.

1.8 "Flue damper" means a device installed between the furnace and the integral draft diverter, draft hood, barometric draft regulator, or vent terminal which is not equipped with a draft control device, designed to open the venting system when the appliance is in operation and to close the venting system when the appliance is in a standby condition.

1.9 "Flue gases" means reaction products resulting from the combustion of a fuel with the oxygen of the air, including the inerts and any excess air.

1.10 "Flue losses" means the sum of sensible and latent heat losses above room temperature of the flue gases leaving a vented heater.

1.11 "Flue outlet" means the opening provided in a vented heater for the exhaust of the flue gases from the combustion chamber.

1.12 "Heat input" (Q_{in}) means the rate of energy supplied in a fuel to a vented heater operating under steady-state conditions, expressed in Btu's per hour. It includes any input energy to the pilot light and is obtained by multiplying the measured rate of fuel consumption by the measured higher heating value of the fuel.

1.13 "Heating capacity" (Q_{out}) means the rate of useful heat output from a vented heater, operating under steady-state conditions, expressed in Btu's per hour. For room and wall heaters, it is obtained by multiplying the "heat input" (Q_{in}) by the steady-state efficency (η_{ss}) divided by 100. For floor furnaces, it is obtained by multiplying (A) the "heat input" (Q_{in}) by (B) the steady-state efficiency divided by 100, minus the quantity (2.8) (L_j) divided by 100, where L_j is the jacket loss as determined in section 3.2 of this appendix.

1.14 "Higher heating value" (HHV) means the heat produced per unit of fuel when complete combustion takes place at constant pressure and the products of combustion are cooled to the initial temperature of the fuel and air and when the water vapor formed during combustion is condensed. The higher heating value is usually expressed in Btu's per pound, Btu's per cubic foot for gaseous fuel, or Btu's per gallon for liquid fuel.

1.15 "Induced draft" means a method of drawing air into the combustion chamber by mechanical means.

1.16 "Infiltration parameter" means that portion of unconditioned outside air drawn into the heated space as a consequence of loss of conditioned air through the exhaust system of a vented heater.

1.17 "Integral draft diverter" means a device which is an integral part of a vented heater, designed to: (1) Provide for the exhaust of the products of combustion in the event of no draft, back draft, or stoppage beyond the draft diverter, (2) prevent a back draft from entering the vented heater, and (3) neutralize the stack action of the chimney or gas vent upon the operation of the vented heater.

1.18 "Manually controlled vented heaters" means either gas or oil fueled vented heaters equipped without thermostats.

1.19 "Modulating control" means either a step-modulating or two-stage control.

1.20 "Power burner" means a vented heater burner which supplies air for combustion at a pressure exceeding atmospheric pressure, or a burner which depends on the draft induced by a fan incorporated in the furnace for proper operation.

1.21 "Reduced heat input rate" means the factory adjusted lowest reduced heat input rate for vented home heating equipment equipped with either two stage thermostats or step-modulating thermostats.

1.22 "Single stage thermostat" means a thermostat that cycles a burner at the maximum heat input rate and off.

1.23 "Stack" means the portion of the exhaust system downstream of the integral draft diverter, draft hood or barometric draft regulator.

1.24 "Stack damper" means a device installed downstream of the integral draft diverter, draft hood, or barometric draft regulator, designed to open the venting system when the appliance is in operation and to close off the venting system when the appliance is in the standby condition.

1.25 "Stack gases" means the flue gases combined with dilution air that enters at the integral draft diverter, draft hood or barometric draft regulator.

1.26 "Steady-state conditions for vented home heating equipment" means equilibrium conditions as indicated by temperature variations of not more than 5° F (2.8C) in the flue gas temperature for units equipped with draft hoods, barometric draft regulators or direct vent systems, in three successive readings taken 15 minutes apart or not more than 3° F (1.7C) in the stack gas temperature for units equipped with integral draft diverters in three successive readings taken 15 minutes apart.

1.27 "Step-modulating control" means a control that either cycles off and on at the low input if the heating load is light, or gradually, increases the heat input to meet any higher heating load that cannot be met with the low firing rate.

1.28 "Thermal stack damper" means a type of stack damper which is dependent for operation exclusively upon the direct conversion of thermal energy of the stack gases into movement of the damper plate.

1.29 "Two stage control" means a control that either cycles a burner at the reduced heat input rate and off or cycles a burner at the maximum heat input rate and off.

1.30 "Vaporizing-type oil burner" means a device with an oil vaporizing bowl or other receptacle designed to operate by vaporizing liquid fuel oil by the heat of combustion and mixing the vaporized fuel with air.

1.31 "Vent/air intake terminal" means a device which is located on the outside of a building and is connected to a vented heater by a system of conduits. It is composed of an air intake terminal through which the air for combustion is taken from the outside atmosphere and a vent terminal from which flue gases are discharged.

1.32 "Vent limiter" means a device which limits the flow of air from the atmospheric diaphragm chamber of a gas pressure regulator to the atmosphere. A vent limiter may be a limiting orifice or other limiting device.

1.33 "Vent pipe" means the passages and conduits in a direct vent system through which gases pass from the combustion chamber to the outdoor air.

2.0 *Testing conditions.*

2.1 *Installation of test unit.*

2.1.1 *Vented wall furnaces (including direct vent systems).* Install gas fueled vented wall furnaces for test as specified in sections 2.1.3 and 2.1.4 of ANSI Z21.49–1975. Install gas fueled wall furnaces with direct vent systems for test as described in sections 2.1.3 and 2.1.4 of ANSI Z21.44–1973. Install oil fueled vented wall furnaces as specified in UL–730–1974, section 33. Install oil fueled vented wall furnaces with direct vent systems as specified in UL–730–1974, section 34.

2.1.2 *Vented floor furnaces.* Install vented floor furnaces for test as specified in sections 35.1 through 35.5 of UL–729–1976.

2.1.3 *Vented room heaters.* Install in accordance with manufacturer's instructions.

2.2 *Flue and stack requirements.*

2.2.1 *Gas fueled vented home heating equipment employing integral draft diverters and draft hoods (excluding direct vent systems).* Attach to, and vertically above the outlet of gas fueled vented home heating equipment employing draft diverters or draft hoods with vertically discharging outlets, a five (5) foot long test stack having a cross sectional area the same size as the draft diverter outlet.

Attach to the outlet of vented heaters having a horizontally discharging draft diverter or draft hood outlet a 90 degree elbow, and a five (5) foot long vertical test stack. A horizontal section of pipe may be used on the floor furnace between the diverter and the elbow if necessary to clear

any framing used in the installation. Use the minimum length of pipe possible for this section. Use stack, elbow, and horizontal section with same cross sectional area as the diverter outlet.

2.2.2 *Oil fueled vented home heating equipment (excluding direct vent systems).* Use flue connections for oil fueled vented floor furnaces as specified in section 35 of UL 729–1976, sections 34.10 through 34.18 of UL 730–1974 for oil fueled vented wall furnaces and sections 36.2 and 36.3 of UL 896–1973 for oil fueled vented room heaters.

2.2.3 *Direct vent systems.* Have the exhaust/air intake system supplied by the manufacturer in place during all tests. Test units intended for installation with a variety of vent pipe lengths with the minimum length recommended by the manufacturer. Do not connect a heater employing a direct vent system to a chimney or induced draft source. Vent the gas solely on the provision for venting incorporated in the heater and the vent/air intake system supplied with it.

2.3 *Fuel supply.*

2.3.1 *Natural gas.* For a vented heater utilizing natural gas, maintain the gas supply to the unit under test at a normal inlet test pressure immediately ahead of all controls at 7 to 10 inches water column. Maintain the regulator outlet pressure at normal test pressure approximately at that recommended by the manufacturer. Use natural gas having a specific gravity of approximately 0.65 and a higher heating value within ± 5 percent of 1,025 Btu's per standard cubic foot. Determine the actual higher heating value in Btu's per standard cubic foot for the natural gas to be used in the test with an error no greater than one percent.

2.3.2 *Propane gas.* For a vented heater utilizing propane gas, maintain the gas supply to the unit under test at a normal inlet pressure of 11 to 13 inches water column and a specific gravity of approximately 1.53. Maintain the regulator outlet pressure, on units so equipped, approximately at that recommended by the manufacturer. Use propane having a specific gravity of approximately 1.53 and a higher heating value within ± 5 percent of 2,500 Btu's per standard cubic foot. Determine the actual higher heating value in Btu's per standard cubic foot for the propane to be used in the test with an error no greater than one percent.

2.3.3 *Other test gas.* Use other test gases with characteristics as described in section 2.2, table VII, of ANSI Standard Z21.11.1–1974. Use gases with a measured higher heating value within ± 5 percent of the values specified in the above ANSI standard. Determine the actual higher heating value of the gas used in the test with an error no greater than one percent.

2.3.4 *Oil supply.* For a vented heater utilizing fuel oil, use No. 1, fuel oil (kerosene) for vaporizing-type burners and either No. 1 or No. 2 fuel oil, as specified by the manufacturer, for mechanical atomizing type burners. Use No. 1 fuel oil with a viscosity meeting the specifications as specified in UL–730–1974, section 36.9. Use test fuel conforming to the specifications given in tables 2 and 3 of ANSI Standard Z91.1–1972 for No. 1 and No. 2 fuel oil. Measure the higher heating value of the test fuel with an error no greater than one percent.

2.3.5 *Electrical supply.* For auxiliary electric components of a vented heater, maintain the electrical supply to the test unit within one percent of the nameplate voltage for the entire test cycle. If a voltage range is used for nameplate voltage, maintain the electrical supply within one percent of the mid-point of the nameplate voltage range.

2.4 *Burner adjustments.*

2.4.1 *Gas burner adjustments.* Adjust the burners of gas fueled vented heaters to their maximum Btu ratings at the test pressure specified in section 2.3 of this appendix. Correct the burner volumetric flow rate to 60° F (15.6C) and 30 inches of mercury barometric pressure, set the fuel flow rate to obtain a heat rate of within ±2 percent of the hourly Btu rating specified by the manufacturer as measured after 15 minutes of operation starting with all parts of the vented heater at room temperature. Set the primary air shutters in accordance with the manufacturer's recommendations to give a good flame at this adjustment. Do not allow the deposit of carbon during any test specified herein.

If a vent limiting means is provided on a gas pressure regulator, have it in place during all tests.

For gas fueled heaters with modulating controls adjust the controls to operate the heater at the maximum fuel input rate. Set the thermostat control to the maximum setting. Start the heater by turning the safety control valve to the "on" position. In order to prevent modulation of the burner at maximum input, place the thermostat sensing element in a temperature control bath which is held at a temperature below the maximum set point temperature of the control.

For gas fueled heaters with modulating controls adjust the controls to operate the heater at the reduced fuel input rate. Set the thermostat control to the minimum setting. Start the heater by turning the safety control valve to the "on" position. If ambient test room temperature is above the lowest control set point temperature, initiate burner operation by placing the thermostat sensing element in a temperature control bath that is held at a temperature below the minimum set point temperature of the control.

2.4.2 *Oil burner adjustments.* Adjust the burners of oil fueled vented heaters to give the CO_2 reading recommended by the manufacturer and an hourly Btu input, during the steady-state performance test described below, which is within ±2 percent of the heater manufacturer's specified normal hourly Btu input rating. On units employing a power burner do not allow smoke in the flue to exceed a No. 1 smoke during the steady-state performance test as measured by the procedure in ANSI Standard Z11.182–1965 (R1971) (ASTM D 2156–65 (1970)). If, on units employing a power burner, the smoke in the flue exceeds a No. 1 smoke during the steady-state test, readjust the burner to give a lower smoke reading, and, if necessary a lower CO_2 reading, and start all tests over. Maintain the average draft over the fire and in the flue during the steady-state performance test at that recommended by the manufacturer within ±0.005 inches of water gauge. Do not make additional adjustments to the burner during the required series of performance tests. The instruments and measuring apparatus for this test are described in section 6.3 of ANSI standard Z91.1–1972.

2.5 *Circulating air adjustments.*

2.5.1 *Forced air vented wall furnaces (including direct vent systems).* During tests maintain the air flow through the heater as specified by the manufacturer and operate the vented heater with the outlet air temperature between 80° F and 130° F above room temperature. If adjustable air discharge registers are provided, adjust them so as to provide the maximum possible air restriction. Measure air discharge temperature as specified in section 2.14 of ANSI Z21.49–1975.

2.5.2 *Fan type vented room heaters and floor furnaces.* During tests on fan type furnaces and heaters, adjust the air flow through the heater as specified by the manufacturer. If adjustable air discharge registers are provided, adjust them to provide the maximum possible air restriction.

2.6 *Location of temperature measuring instrumentation.*

2.6.1 *Gas fueled vented home heating equipment (including direct vent systems).* For units employing an integral draft diverter, install nine thermocouples, wired in parallel, in a horizontal plane in the five foot test stack located one foot from the test stack inlet. Equalize the length of all thermocouple leads before paralleling. Locate one thermocouple in the center of the stack. Locate eight thermocouples along imaginary lines intersecting at right angles in this horizontal plane at points one third and two thirds of the distance between the center of the stack and the stack wall.

For units which employ a direct vent system, locate at least one thermocouple at the center of each flue way exiting the heat exchanger. Provide radiation shields if the thermocouples are exposed to burner radiation.

For units which employ a draft hood or units which employ a direct vent system which does not significantly preheat the incoming combustion air, install nine thermocouples, wired in parallel, in a horizontal plane located within 12 inches (304.8 mm) of the heater outlet and upstream of the draft hood on units so equipped. Locate one thermocouple in the center of the pipe and eight thermocouples along imaginary lines intersecting at right angles in this horizontal plane at points one third and two thirds of the distance between the center of the pipe and the pipe wall.

For units which employ direct vent systems that significantly preheat the incoming combustion air, install nine thermocouples, wired in parallel, in a plane parallel to and located within 6 inches (152.4 mm) of the vent/air intake terminal. Equalize the length of all thermocouple leads before paralleling. Locate one thermocouple in the center of the vent pipe and eight thermocouples along imaginary lines intersecting at right angles in this plane at points one third and two thirds of the distance between the center of the flue pipe and the pipe wall.

Use bead-type thermocouples having wire size not greater than No. 24 American Wire Gauge (AWG). If there is a possibility that the thermocouples could receive direct radiation from the fire, install radiation shields on the fire side of the thermocouples only and position the shields so that they do not touch the thermocouple junctions.

Install thermocouples for measuring conditioned warm air temperature as described in ANSI Z21.49–1975, section 2.14. Establish the temperature of the inlet air by means of single No. 24 AWG bead-type thermocouple, suitably shielded from direct radiation and located in the center of the plane of each inlet air opening.

2.6.2 *Oil fueled vented home heating equipment (including direct vent systems).* Install nine thermocouples, wired in parallel and having equal length leads, in a plane perpendicular to the axis of the flue pipe. Locate this plane at the position shown in Figure 34.4 of UL 730–1974, or Figures 35.1 and 35.2 of UL 729–1976 for a single thermocouple, except that on direct vent systems which significantly preheat the incoming combustion air, it shall be located within 6 inches (152.5 mm) of the outlet of the vent/air intake terminal. Locate one thermocouple in the center of the flue pipe and eight thermocouples along imaginary lines intersecting at right angles in this plane at points one third and two thirds of the distance between the center of the pipe and pipe wall.

Use bead-type thermocouples having a wire size not greater than No. 24 AWG. If there is a possibility that the thermocouples could receive direct radiation from the fire, install radiation shields on the fire side of the thermocouples only and position the shields so that they do not touch the thermocouple junctions.

Install thermocouples for measuring the conditioned warm air temperature as described in sections 35.12 through 35.17 of UL 730–1974. Establish the temperature of the inlet air by means of a single No. 24 AWG bead-type thermocouple, suitably shielded from direct radiation and located in the center of the plane of each inlet air opening.

2.7 *Combustion measurement instrumentation.* Analyze the samples of stack and flue gases for vented heaters to determine the concentration by volume of carbon dioxide present in the dry gas with instrumentation which will result in a reading having an accuracy of ±0.1 percentage points.

2.8 *Energy flow instrumentation.* Install one or more instruments, which measure the rate of gas flow or fuel oil supplied to the vented heater, and if appropriate, the electrical energy with an error no greater than one percent.

2.9 *Room ambient temperature.* During the time period required to perform all the testing and measurement procedures specified in section 3.0 of this appendix, maintain the room temperature within ±5° F (±2.8C) of the value T_{RA} measured during the steady-state performance test. At no time during these tests shall the room temperature exceed 100° F (37.8C) or fall below 65° F (18.3C).

Temperature (T_{RA}) shall be the arithmetic average temperature of the test area, determined by measurement with four No. 24 AWG bead-type thermocouples with junctions shielded against radiation, located approximately at 90-degree positions on a circle circumscribing the heater or heater enclosure under test, in a horizontal plane approximately at the vertical midpoint of the appliance or test enclosure, and with the junctions approximately 24 inches from sides of the heater or test enclosure and located so as not to be affected by other than room air. Locate a thermocouple at each elevation of draft relief inlet opening and combustion air inlet opening at a distance of approximately 24 inches from the inlet openings. The temperature of the air for combustion and the air for draft relief shall not differ more than ±5° F from room temperature as measured above.

2.10 *Equipment used to measure mass flow rate in flue and stack.* The tracer gas chosen for this task should have a density which is less than or approximately equal to the density of air. Use a gas unreactive with the environment to be encountered. Using instrumentation of either the batch or continuous type, measure the concentration of tracer gas with an error no greater than 2 percent of the value of the concentration measured.

3.0 *Testing and measurements.*

3.1 *Steady-state testing.*

3.1.1 *Gas fueled vented home heating equipment (including direct vent systems).* Set up the vented heater as specified in sections 2.1, 2.2, and 2.3 of this appendix. The draft diverter shall be in the normal open condition and the stack shall not be insulated. (Insulation of the stack is no longer required for the vented heater test.) Begin the steady-state performance test by operating the burner and the circulating air blower, on units so equipped, with the adjustments specified by sections 2.4.1 and 2.5 of this appendix, until steady-state conditions are attained as indicated by a temperature variation of not more than 3° F (1.7 C) in the stack gas temperature for vented heaters equipped with draft diverters or 5° F (2.8 C) in the flue gas temperature for vented heaters equipped with either draft hoods or direct vent systems; in three successive readings taken 15 minutes apart.

On units employing draft diverters, measure the room temperature (T_{RA}) as described in section 2.9 of this appendix and measure the steady-state stack gas temperature ($T_{S.SS}$) using the nine thermocouples located in the 5 foot test stack as specified in section 2.6.1 of this appendix. Secure a sample of the stack gases in the plane where $T_{S.SS}$ is measured or within 3.5 feet downstream of this plane. Determine the concentration by volume of carbon dioxide (X_{CO2S}) present in the dry stack gas. If the location of the gas sampling differs from the temperature measurement plane, there shall be no air leaks through the stack between these two locations.

On units employing draft hoods or direct vent systems, measure the room temperature (T_{RA}) as described in section 2.9 of this appendix and measure the steady-state flue gas temperature ($T_{F.SS}$), using the nine thermocouples located in the flue pipe as described in section 2.6.1 of this appendix. Secure a sample of the flue gas in the plane of temperature measurement and determine the concentration by volume of CO_2 (X_{CO2F}) present in dry flue gas. In addition, for units employing draft hoods, secure a sample of the stack gas in a horizontal plane in the five foot test stack located one foot from the test stack inlet; and determine the concentration by volume of CO_2 (X_{CO2S}) present in dry stack gas.

Determine the steady-state heat input rate (Q_{in}) including pilot gas by multiplying the measured higher heating value of the test gas by the steady-state gas input rate corrected to standard conditions of 60° F and 30 inches of mercury. Use measured values of gas temperature and pressure at the meter and the barometric pressure to correct the metered gas flow rate to standard conditions.

After the above test measurements have been completed on units employing draft diverters, secure a sample of the flue gases at the exit of the heat exchanger(s) and determine the concentration of CO_2 (X_{CO2F}) present. In obtaining this sample of flue gas, move the sampling probe around or use a sample probe with multiple sampling ports in order to assure that an average value is obtained for the CO_2 concentration. For units with multiple heat exchanger outlets, measure the CO_2 concentration in a sample from each outlet to obtain the average CO_2 concentration for the unit. A manifold (parallel connected sampling tubes) may be used to obtain this sample.

For heaters with single stage thermostat control (wall mounted electric thermostats), determine the steady-state efficiency at the maximum fuel input rate as specified in section 2.4 of this appendix.

For gas fueled vented heaters equipped with either two stage thermostats or step-modulating thermostats, determine the steady-state efficiency at the maximum fuel input rate, as specified in section 2.4.1 of this appendix, and at the reduced fuel input rate, as specified in section 2.4.1 of this appendix.

For manually controlled gas fueled vented heaters, with various input rates determine the steady-state efficiency at a fuel input rate that is within ±5 percent of 50 percent of the maximum fuel input rate. If the heater is designed to use a control that precludes operation at other than maximum output (single firing rate) determine the steady state efficiency at the maximum input rate only.

3.1.2 *Oil fueled vented home heating equipment (including direct vent systems).* Set up and adjust the vented heater as specified in sections 2.1, 2.2, and 2.3.4 of this appendix. Begin the steady-state performance test by operating the burner and the circulating air blower, on units so equipped, with the adjustments specified by sections 2.4.2 and 2.5 of this appendix until steady-state conditions are attained as indicated by a temperature variation of not more than 5° F (2.8 C) in the flue gas temperature in three successive readings taken 15 minutes apart.

Do not allow smoke in the flue, for units equipped with power burners, to exceed a No. 1 smoke during the steady-state performance test as measured by the procedure described in ANSI standard Z11.182–1965 (R1971) (ASTM D 2156–65

(1970)). Maintain the average draft over the fire and in the breeching during the steady-state performance test at that recommended by the manufacturer ±0.005 inches of water gauge.

Measure the room temperature (T_{RA}) as described in section 2.9 of this appendix and measure the steady-state flue gas temperature ($T_{F,SS}$) using nine thermocouples located in the flue pipe as described in section 2.6.2 of this appendix. Secure a sample of the flue gas in the plane of temperature measurement and determine the concentration by volume of CO_2(X_{CO2F}) present in dry flue gas. Measure and record the steady-state heat input rate (Q_{in}).

For manually controlled oil fueled vented heaters, determine the steady-state efficiency at a fuel input rate that is within ±5 percent of 50 percent of the maximum fuel input rate.

3.1.3 *Auxiliary Electric Power Measurement.* Allow the auxiliary electrical system of a gas or oil vented heater to operate for at least five minutes before recording the maximum auxiliary electric power measurement from the wattmeter. Record the maximum electric power (P_E) expressed in kilowatts. For vented heaters with modulating controls, the recorded (P_E) shall be maximum measured electric power multiplied by the following factor (R). For two stage controls, R=1.3. For step modulating controls, R=1.4 when the ratio of minimum-to-maximum fuel input is greater than or equal to 0.7, R=1.7 when the ratio of minimum-to-maximum fuel input is less than 0.7 and greater than or equal to 0.5, and R=2.2 when the ratio of minimum-to-maximum fuel input is less than 0.5.

3.2 *Jacket loss measurement.* Conduct a jacket loss test for vented floor furnaces. Measure the jacket loss (L_J) in accordance with the ANSI standard Z21.48–1976 section 2.12.

3.3 *Measurement of the off-cycle losses for vented heaters equipped with thermal stack dampers.* Install the thermal stack damper according to the manufacturer's instructions. Unless specified otherwise, the thermal stack damper should be at the draft diverter exit collar. Attach a five foot length of bare stack to the outlet of the damper. Install thermocouples as specified in section 2.6.1 of this appendix.

For vented heaters equipped with single stage thermostats, measure the off-cycle losses at the maximum fuel input rate. For vented heaters equipped with two stage thermostats, measure the off-cycle losses at the maximum fuel input rate and at the reduced fuel input rate. For vented heaters equipped with step-modulating thermostats, measure the off-cycle losses at the reduced fuel input rate.

Let the vented heater heat up to a steady-state condition. Feed a tracer gas at a constant metered rate into the stack directly above and within one foot above the stack damper. Record tracer gas flow rate and temperature. Measure the tracer gas concentration in the stack at several locations in a horizontal plane through a cross section of the stack at a point sufficiently above the stack damper to ensure that the tracer gas is well mixed in the stack.

Continuously measure the tracer gas concentration and temperature during a 10 minute cool down period. Shut the burner off and immediately begin measuring tracer gas concentration in the stack, stack temperature, room temperature, and barometric pressure. Record these values as the midpoint of each one-minute interval between burner shut down and ten minutes after burner shut down. Meter response time and sampling delay time shall be considered in timing these measurements.

3.4 *Measurement of the effectiveness of electro-mechanical stack dampers.* For vented heaters equipped with electro-mechanical stack dampers, measure the cross sectional area of the stack (A_s), the net area of the damper plate (A_o), and the angle that the damper plate makes when closed with a plane perpendicular to the axis of the stack (Ω). The net area of the damper plate means the area of the damper plate minus the area of any holes through the damper plate.

3.5 *Pilot light measurement.* Measure the energy input rate to the pilot light (Q_P) with an error no greater than 3 percent for vented heaters so equipped.

3.6 *Optional procedure for determining D_P, D_F, and D_S for systems for all types of vented heaters.* For all types of vented heaters, D_P, D_F and D_S can be measured by the following optional cool down test.

Conduct a cool down test by letting the unit heat up until steady-state conditions are reached, as indicated by temperature variation of not more than 5°F (2.8°C) in the flue gas temperature in three successive readings taken 15 minutes apart, and then shutting the unit off with the stack or flue damper controls by-passed or adjusted so that the stack or flue damper remains open during the resulting cool down period. If a draft was maintained on oil fueled units in the flue pipe during the steady-state performance test described in section 3.1 of this appendix, maintain the same draft (within a range of −.001 to +.005 inches of water gauge of the average steady-state draft) during this cool down period.

Measure the flue gas mass flow rate ($m_{F,OFF}$) during the cool down test described above at a specific off-period flue gas temperature and corrected to obtain its value at the steady-state flue gas temperature ($T_{F,SS}$), using the procedure described below.

Within one minute after the unit is shut off to start the cool down test for determining D_F, begin feeding a tracer gas into the combustion chamber at a constant flow rate of V_T, and at a point which will allow for the best possible mixing with the air flowing through the chamber. (On units equipped with an oil fired power burner, the best location for injecting this tracer gas appears to be through a hole drilled in the air tube.) Periodically measure the value of V_T with an instantaneously reading flow meter having an accuracy of ±3 percent of the quantity measured. Maintain V_T at less than 1 percent of the air flow rate through the furnace. If a combustible tracer gas is used, there should be a delay period between the time the burner gas is shut off and the time the tracer gas is first injected to prevent ignition of the tracer gas.

Between 5 and 6 minutes after the unit is shut off to start the cool down test, measure at the exit of the heat exchanger the average flue gas temperature, $T^*_{F,OFF}$. At the same instant the flue gas temperature is measured, also measure the percent volumetric concentration of tracer gas C_T in the flue gas in the same plane where $T^*_{F,OFF}$ is determined. Obtain the concentration of tracer gas using an instrument which will result in an accuracy of ±2 percent in the value of C_T measured. If use of a continuous reading type instrument results in a delay time between drawing of a sample and its analysis, this delay should be taken into account so that the temperature measurement and the measurement of tracer gas concentration coincide. In addition, determine the temperature of the tracer gas entering the flow meter (T_T) and the barometric pressure (P_B).

The rate of the flue gas mass flow through the vented heater and the factors D_P, D_F, and D_S are calculated by the equations in sections 4.5.1 through 4.5.3 of this appendix.

4.0 *Calculations.*

4.1 *Annual fuel utilization efficiency for gas or oil fueled vented home heating equipment equipped without manual controls and without thermal stack dampers.* The following procedure determines the annual fuel utilization efficiency for gas or oil fueled vented home heating equipment equipped without manual controls and without thermal stack dampers.

4.1.1 *System number.* Obtain the system number from Table 1 of this appendix.

4.1.2 *Off-cycle flue gas draft factor.* Based on the system number, determine the off-cycle flue gas draft factor (D_F) from Table 1 of this appendix.

4.1.3 *Off-cycle stack gas draft factor.* Based on the system number, determine the off-cycle stack gas draft factor (D_s) from Table 1 of this appendix.

4.1.4 *Pilot fraction.* Calculate the pilot fraction (P_F) expressed as a decimal and defined as:

$$P_F = Q_P / Q_{in}$$

where:

Q_P = as defined in 3.5 of this appendix
Q_{in} = as defined in 3.1 of this appendix at the maximum fuel input rate

4.1.5 *Jacket loss for floor furnaces.* Determine the jacket loss (L_J) expressed as a percent and measured in accordance with section 3.2 of this appendix. For other vented heaters L_J=0.0.

4.1.6 *Latent heat loss.* Based on the fuel, obtain the latent heat loss ($L_{L,A}$) from Table 2 of this appendix.

4.1.7 *Ratio of combustion air mass flow rate to stoichiometric air mass flow rate.* Determine the ratio of combustion air mass flow rate to stoichiometric air mass flow rate ($R_{T,F}$), and defined as:

$$R_{T,F} = A + B/X_{CO2F}$$

where:

A = as determined from Table 2 of this appendix
B = as determined from Table 2 of this appendix
X_{CO2F} = as defined in 3.1 of this appendix

4.1.8 *Ratio of combustion and relief air mass flow rate to stoichiometric air mass flow rate.* For vented heaters equipped with

either an integral draft diverter or a drafthood, determine the ratio of combustion and relief air mass flow rate to stoichiometric air mass flow rate ($R_{T.S}$), and defined as:

$$R_{T.S}=A+[B/X_{CO_2S}]$$

where:

A = as determined from Table 2 of this appendix
B = as determined from Table 2 of this appendix
X_{CO_2S} = as defined in 3.1 of this appendix

4.1.9 *Sensible heat loss at steady-state operation.* For vented heaters equipped with either an integral draft diverter or a draft hood, determine the sensible heat loss at steady-state operation ($L_{S.SS.A}$) expressed as a percent and defined as:

where:

$L_{S.SS.A}=C(R_{T.S}+D)(T_{S.SS}-T_{RA})$
C = as determined from Table 2 of this appendix
$R_{T.S}$ = as defined in 4.1.8 of this appendix
D = as determined from Table 2 of this appendix
$T_{S.SS}$ = as defined in 3.1 of this appendix
T_{RA} = as defined in 2.9 of this appendix

For vented heaters equipped without an integral draft diverter, determine ($L_{S.SS.A}$) expressed as a percent and defined as:

$L_{S.SS.A}=C(R_{T.F}+D)(T_{F.SS}-T_{RA})$

where:

C = as determined from Table 2 of this appendix
$R_{T.F}$ = as defined in 4.1.7 of this appendix
D = as determined from Table 2 of this appendix
$T_{F.SS}$ = as defined in 3.1 of this appendix
T_{RA} = as defined in 2.9 of this appendix

4.1.10 *Steady-state efficiency.* For vented heaters equipped with single stage thermostats, calculate the steady-state efficiency (excluding jacket loss, η_{SS}, expressed in percent and defined as:

$\eta_{SS}=100-L_{I.A}-L_{S.SS.A}$

where:

$L_{I.A}$ = as defined in 4.1.6 of this appendix
$L_{S.SS.A}$ = as defined in 4.1.9 of this appendix

For vented heaters equipped with either two stage thermostats or with step-modulating thermostats, calculate the steady-state efficiency at the reduced fuel input rate, $\eta_{SS.L}$, expressed in percent and defined as:

$\eta_{SS-L}=100-L_{I.A}-L_{S.SS.A}$

where:

$L_{I.A}$ = as defined in 4.1.6 of this appendix
$L_{S.SS.A}$ = as defined in 4.1.9 of this appendix in which $L_{S.SS.A}$ is determined at the reduced fuel input rate

For vented heaters equipped with two stage thermostats, calculate the steady-state efficiency at the maximum fuel input rate, $\eta_{SS.H}$, expressed in percent and defined as:

$\eta_{SS.H}=100-L_{I.A}-L_{S.SS.A}$

where:

$L_{I.A}$ = as defined in 4.1,6 of this appendix
$L_{S.SS.A}$ = as defined in 4.1.9 of this appendix in which $L_{S.SS.A}$ is measured at the maximum fuel input rate

For vented heaters equipped with step-modulating thermostats calculate the weighted-average steady-state efficiency in the modulating mode, η_{SS-MOD}, expressed in percent and defined as:

$$\eta_{SS-MOD}=[\eta_{SS-H}-\eta_{SS-L}]\left[\frac{T_C-T_{OA'}}{T_C-15}\right]+\eta_{SS-L}$$

where:

η_{SS-H} = as defined in 4.1.10 of this appendix
η_{SS-L} = as defined in 4.1.10 of this appendix
$T_{OA'}$ = average outdoor temperature for vented heaters with step-modulating thermostats operating in the modulating mode and is obtained from Table 3 or Figure 1 of this appendix
T_C = balance point temperature which represents a temperature used to apportion the annual heating load between the reduced input cycling mode and either the modulating mode or maximum input cycling mode and is obtained either from Table 3 of this appendix or calculated by the following equation:

$T_C=65-[(65-15)R]$

where:

65 = average outdoor temperature at which a vented heater starts operating
15 = national average outdoor design temperature for vented heaters
R = ratio of reduced to maximum heat output rates, as defined in 4.1.13 of this appendix

4.1.11 *Reduced heat output rate.* For vented heaters equipped with either two stage thermostats or step-modulating thermostats, calculate the reduced heat output rate ($Q_{red\cdot out}$) defined as:

$Q_{red\cdot out}=\eta_{SS\cdot L}Q_{red\cdot in}$

where:

$\eta_{SS\cdot L}$ = as defined in 4.1.10 of this appendix
$Q_{red\cdot in}$ = the reduced fuel input rate

4.1.12 *Maximum heat output rate.* For vented heaters equipped with either two stage thermostats or step-modulating thermostas, calculate the maximum heat output rate ($Q_{max\cdot out}$) defined as:

$Q_{max.\ out}=\eta_{SS.H}\ Q_{max.\ in}$

where:

$\eta_{SS\cdot H}$ = as defined in 4.1.10 of this appendix
$Q_{max\cdot in}$ = the maximum fuel input rate

4.1.13 *Ratio of reduced to maximum heat output rates.* For vented heaters equipped with either two stage thermostats or step-modulating thermostats, calculate the ratio of reduced to maximum heat output rates (R) expressed as a decimal and defined as:

$R=Q_{red\cdot out}/Q_{max\cdot out}$

where:

$Q_{red\cdot out}$ = as defined in 4.1.11 of this appendix
$Q_{max\cdot out}$ = as defined in 4.1.12 of this appendix

4.1.14 *Fraction of heating load at reduced operating mode.* For vented heaters equipped with either two stage thermostats or step-modulating thermostats, determine the fraction of heating load at the reduced operating mode (X_1) expressed as a decimal and listed in Table 3 of this appendix or obtained from Figure 2 of this appendix.

4.1.15 *Fraction of heating load at maximum operating mode or noncycling mode.* For vented heaters equipped with either two stage thermostats or step-modulating therostats, determine the fraction of heating load at the maximum operating mode or noncycling mode (X_2) expressed as a decimal and listed in Table 3 of this appendix or obtained from Figure 2 of this appendix.

4.1.16 *Weighted-average steady-state efficiency.* For vented heaters equipped with single stage thermostats, the weighted-average steady-state efficiency (η_{SS-WT}) is equal to η_{SS}, as defined in section 4.1.10 of this appendix. For vented heaters equipped with two stage thermostats, η_{SS-WT} is defined as:

$\eta_{SS-WT}=X_1\eta_{SS-L}+X_2\eta_{SS-H}$

where:

X_1 = as defined in 4.1.14 of this appendix
η_{SS-L} = as defined in 4.1.10 of this appendix
X_2 = as defined in 4.1.15 of this appendix
η_{SS-H} = as defined in 4.1.10 of this appendix

For vented heaters equipped with step-modulating thermostats, η_{SS-WT} is defined as:

$\eta_{SS-WT}=X_1\eta_{SS-L}+X_2\eta_{SS-MOD}$

where:

X_1 = as defined in 4.1.14 of this appendix
η_{SS-L} = as defined in 4.1.10 of this appendix
X_2 = as defined in 4.1.15 of this appendix
η_{SS-MOD} = as defined in 4.1.10 of this appendix

4.1.17 *Annual fuel utilization efficiency.* Calculate the annual fuel utilization efficiency (AFUE) expressed as percent and defined as:

$AFUE=[0.968\eta_{SS-WT}]-1.78D_F-1$
$.89D_S-129P_F-2.8\ L_J+1.81$

where:

η_{SS-WT} = as defined in 4.1.16 of this appendix
D_F = as defined in 4.1.2 of this appendix
D_S = as defined in 4.1.3 of this appendix
P_F = as defined in 4.1.4 of this appendix
L_J = as defined in 4.1.5 of this appendix

4.2 *Annual fuel utilization efficiency for gas or oil fueled vented home heating equipment equipped with manual controls.* The following procedure determines the annual fuel utilization efficiency for gas or oil fueled vented home heating equipment equipped with manual controls.

4.2.1 *Average ratio of stack gas mass flow rate to flue gas mass flow rate at steady-state operation.* For vented heaters equipped with either direct vents or direct exhaust or are outdoor units, the average ratio of stack gas mass flow rate to flue gas mass flow rate at steady-state operation (S/F) shall be equal to unity. (S/F=1.) For all other types of vented heaters, calculate (S/F) defined as:

$S/F=1.3R_{T.S}/R_{T.F}$

where:
$R_{T.S}$ = as defined in 4.1.8 of this appendix with X_{CO_2} measured at 50% fuel input rate
$R_{T.P}$ = as defined in 4.1.7 of this appendix with X_{CO_2} measured at 50% fuel input rate

4.2.2 *Multiplication factor for infiltration loss during burner on-cycle.* Calculate the multiplication factor for infiltration loss during burner on-cycle ($K_{1.ON}$) defined as:

$$K_{1.ON} = 100(0.24)\ (S/F)\ (0.7)\ [1 + R_{T.P}(A/F)]/HHV_A$$

where:
100 = converts a decimal fraction into a percent
0.24 = specific heat of air
A/F = stoichiometric air/fuel ratio, determined in accordance with Table 2 of this appendix
S/F = as defined in 4.2.1 of this appendix at 50 percent of rated maximum fuel input
0.7 = infiltration parameter
$R_{T.P}$ = as defined in 4.1.7 of this appendix
HHV_A = average higher heating value of the test fuel, determined in accordance with Table 2 of this appendix

4.2.3 *On-cycle infiltration heat loss.* Calculate the on-cycle infiltration heat loss ($L_{4.ON}$) expressed as a percent and defined as:

$$L_{4.ON} = K_{1.ON}\ (70–45)$$

where:
$K_{1.ON}$ = as defined in 4.2.2 of this appendix
70 = average indoor temperature
45 = average outdoor temperature

4.2.4 *Weighted-Average Steady-State Efficiency.* For manually controlled heaters with various input rates the weighted average steady-state efficiency ($\eta_{SS\text{-}WT}$), is at 50 percent of the maximum fuel input rate as measured in either section 3.1.1 to this appendix for manually controlled gas vented heaters or section 3.1.2 to this appendix for manually controlled oil vented heaters. For manually controlled heater with one single firing rate the weighted average steady-state efficiency is the steady state efficiency measured at the single firing rate.

4.2.5 *Part-load fuel utilization efficiency.* Calculate the part-load fuel utilization efficiency (η_u) expressed as a percent and defined as:

$$\eta_u = \eta_{SS\text{-}WT} - L_{4.ON}$$

where:
$\eta_{SS\text{-}WT}$ = as defined in 4.2.4 of this appendix
$L_{4.ON}$ = as defined in 4.2.3 of this appendix

4.2.6 *Annual fuel utilization efficiency.* For manually controlled vented heaters. Calculate the annual fuel utilization efficiency (AFUE) expressed as a percent and defined as:

$$AFUE = \frac{4400\eta_{SS}\eta_u Q_{in\ max}}{4400\eta_{SS}Q_{in-max} + 2.5(4600)\eta_u Q_P}$$

where:
4400 = average number of heating degree days
η_{SS} = as defined as $\eta_{SS\ WT}$ in 4.2.4 of this appendix
η_u = as defined in 4.2.5 of this appendix
$Q_{in\text{-}max}$ = as defined as Q_{in} at the maximum fuel input rate, as defined in 3.1 of this appendix
4600 = average number of non-heating season hours per year
Q_P = as defined in 3.5 of this appendix

4.3 *Annual fuel utilization efficiency by the tracer gas method.* The annual fuel utilization efficiency shall be determined by the following tracer gas method for all vented heaters equipped with thermal stack dampers. All other types of vented heaters can elect to use the following tracer gas method, as an optional procedure.

4.3.1 *On-cycle sensible heat loss.* For vented heaters equipped with single stage thermostats, calculate the on-cycle sensible heat loss ($L_{S.ON}$) expressed as a percent and defined as:

$$L_{S.ON} = L_{S.SS.A}$$

where:
$L_{S.SS.A}$ = as defined in 4.1.9 of this appendix

For vented heaters equipped with two stage thermostats, calculate $L_{S.ON}$ defined as:

$$L_{S.ON} = X_1 L_{S.SS.A\text{-}red} + X_2 L_{S.SS.A\text{-}max}$$

where:
X_1 = as defined in 4.1.14 of this appendix
$L_{S.SS.A\text{-}red}$ = as defined as $L_{S.SS.A}$ in 4.1.9 of this appendix at the reduced fuel input rate
X_2 = as defined in 4.1.15 of this appendix
$L_{S.SS.A\text{-}max}$ = as defined as $L_{S.SS.A}$ in 4.1.9 of this appendix at the maximum fuel input rate

For vented heaters with step-modulating thermostats, calculate $L_{S.ON}$ defined as:

$$L_{S.ON} = X_1 L_{S.SS.A\text{-}red} + X_2 L_{S.SS.A\text{-}avg}$$

where:
X_1 = as defined in 4.1.14 of this appendix
$L_{S.SS.A\text{-}red}$ = as defined in 4.3.1 of this appendix
X_2 = as defined in 4.1.15 of this appendix
$L_{S.SS.A\text{-}avg}$ = average sensible heat loss for step-modulating vented heaters operating in the modulating mode

$$L_{S.SS.A-avg} = \left[[L_{S.SS.A\ max} - L_{S.SS.A-red}] \left[\frac{T_C - T_{OA'}}{TC - 15} \right] \right] + L_{S.SS.A-red}$$

where:
$L_{S.SS.A\text{-}avg}$ = as defined in 4.3.1 of this appendix
T_C = as defined in 4.1.10 of this appendix
$T_{OA'}$ = as defined in 4.1.10 of this appendix
15 = as defined in 4.1.10 of this appendix

4.3.2 *On-cycle infiltration heat loss.* For vented heaters equipped with single stage thermostats, calculate the on-cycle infiltration heat loss ($L_{4.ON}$) expressed as a percent and defined as:

$$L_{4.ON} = K_{1.ON}(70–45)$$

where:
$K_{1.ON}$ = as defined in 4.2.2 of this appendix
70 = as defined in 4.2.3 of this appendix
45 = as defined in 4.2.3 of this appendix

For vented heaters equipped with two stage thermostats, calculate $L_{4.ON}$ defined as:

$$L_{1.ON} = X_1 K_{1.ON\text{-}Max}(70–T_{OA'}) + X_2 K_{1.ON\text{-}red}(70–T_{OA})$$

where:
X_1 = as defined in 4.1.14 of this appendix
$K_{1.ON\text{-}max}$ = as defined as $K_{1.ON}$ in 4.2.2 of this appendix at the maximum heat input rate
70 = as defined in 4.2.3 of this appendix
$T_{OA'}$ = as defined in 4.3.4 of this appendix
$K_{1.ON.red}$ = as defined as $K_{1.ON}$ in 4.2.2 of this appendix at the minimum heat input rate
T_{OA} = as defined in 4.3.4 of this appendix
X_2 = as defined in 4.1.15 of this appendix

For vented heaters equipped with step-modulating thermostats, calculate $L_{4.ON}$ defined as:

$$L_{4.ON} = X_1 K_{1.ON\text{-}avg}(70–T_{OA'}) + X_2 K_{1.ON\text{-}red}(70–T_{OA})$$

where:
X_1 = as defined in 4.1.14 of this appendix

$$K_{1.on\text{-}avg} = \frac{[K_{1.on\text{-}max} + K_{1.ON.red}]}{2}$$

70 = as defined in 4.2.3 of this appendix
$T_{OA'}$ = as defined in 4.3.4 of this appendix
X_2 = as defined in 4.1.15 of this appendix
T_{OA} = as defined in 4.3.4 of this appendix

4.3.3 *Off-cycle sensible heat loss.* For vented heaters equipped with single stage thermostats, calculate the off-cycle sensible heat loss ($L_{S.OFF}$) at the maximum fuel input rate. For vented heaters equipped with step-modulating thermostats, calculate $L_{S.OFF}$ defined as:

$$L_{S.OFF} = X_1 L_{S.OFF.red}$$

where:
X_1 = as defined in 4.1.14 of this appendix
$L_{S.OFF.red}$ = as defined as $L_{S.OFF}$ in 4.3.3 of this appendix at the reduced fuel input rate

For vented heaters equipped with two stage thermostats, calculate $L_{S.OFF}$ defined as:

$$L_{S.OFF} = X_1 L_{S.OFF.red} + X_2 L_{S.OFF.Max}$$

where:
X_1 = as defined in 4.1.14 of this appendix
$L_{S.OFF.red}$ = as defined as $L_{S.OFF}$ in 4.3.3 of this appendix at the reduced fuel input rate
X_2 = as defined in 4.1.15 of this appendix
$L_{S.OFF.Max}$ = as defined as $L_{S.OFF}$ in 4.3.3 of this appendix at the maximum fuel input rate

Calculate the off-cycle sensible heat loss ($L_{S.OFF}$) expressed as a percent and defined as:

$$L_{S.OFF}=\frac{100(0.24)}{Q_{in}t_{on}}\sum m_{S.OFF}(T_{S.OFF}-T_{RA})$$

where:

100 = conversion factor for percent
0.24 = specific heat of air in Btu per pound—°F
Q_{in} = fuel input rate, as defined in 3.1 of this appendix in Btu per minute (as appropriate for the firing rate)
t_{on} = average burner on-time per cycle and is 20 minutes
$\Sigma m_{S.OFF}(T_{S.OFF}-T_{RA})$ = summation of the twenty values of the quantity, $m_{S.OFF}(T_{S.OFF}-T_{RA})$, measured in accordance with 3.3 of this appendix
$m_{S.OFF}$ = stack gas mass flow rate pounds per minute

$$m_{S.OFF}=\frac{1.325P_BV_T(C_{T^*}-C_T)}{C_T(T_T+460)}$$

$T_{S.OFF}$ = stack gas temperature measured in accordance with 3.3 of this appendix
T_{RA} = average room temperature measured in accordance with 3.3 of this appendix
P_B = barometric pressure in inches of mercury
V_T = flow rate of the tracer gas through the stack in cubic feet per minute
C_{T^*} = concentration by volume of the active tracer gas in the mixture in percent and is 100 when the tracer gas is a single component gas
C_T = concentration by volume of the active tracer gas in the diluted stack gas in percent
T_T = temperature of the tracer gas entering the flow meter in degrees Fahrenheit
(T_T+460) = absolute temperature of the tracer gas entering the flow meter in degrees Rankine

4.3.4 *Average outdoor temperature.* For vented heaters equipped with single stage thermostats, the average outdoor temperature (T_{OA}) is 45°F. For vented heaters equipped with either two stage thermostats or step-modulating thermostats, T_{OA} during the reduced operating mode is obtained from Table 3 or Figure 1 of this appendix. For vented heaters equipped with two stage thermostats, T_{OA}° during the maximum operating mode is obtained from Table 3 or Figure 1 of this appendix.

4.3.5 *Off-cycle infiltration heat loss.* For vented heaters equipped with single stage thermostats, calculate the off-cycle infiltration heat loss ($L_{I.OFF}$) at the maximum fuel input rate. For vented heaters equipped with step-modulating thermostats, calculate $L_{I.OFF}$ defined as:

$$L_{I.OFF}=X_1L_{I.OFF.red}$$

where:

X_1 = as defined in 4.1.14 of this appendix
$L_{I.OFF.red}$ = as defined in $L_{I.OFF}$ in 4.3.3 of this appendix at the reduced fuel input rate

For vented heaters equipped with two stage thermostats, calculate $L_{I.OFF}$ defined as:

$$L_{I.OFF}=X_1L_{I.OFF.red}+X_2L_{I.OFF.max}$$

where:

X_1 = as defined in 4.1.14 of this appendix
$L_{I.OFF.red}$ = as defined as $L_{I.OFF}$ in 4.3.3 of this appendix at the reduced fuel input rate
X_2 = as defined in 4.1.15 of this appendix
$L_{I.OFF.Max}$ = as defined as $L_{I.OFF}$ in 4.3.3 of this appendix at the maximum fuel input rate

Calculate the off-cycle infiltration heat loss ($L_{I.OFF}$) expressed as a percent and defined as:

$$L_{I.OFF}=\frac{100(0.24)(1.3)(0.7)(70-T_{OA})}{Q_{in}t_{on}}\sum m_{S.OFF}$$

where:

100 = conversion factor for percent
0.24 = specific heat of air in Btu per pound—°F
1.3 = dimensionless factor for converting laboratory measured stack flow to typical field conditions
0.7 = infiltration parameter
70 = assumed average indoor air temperature, °F
T_{OA} = average outdoor temperature as defined in 4.3.4 of this appendix
Q_{in} = fuel input rate, as defined in 3.1 of this appendix in Btu per minute (as appropriate for the firing rate)
t_{on} = average burner on-time per cycle and is 20 minutes
$\Sigma m_{S.OFF}$ = summation of the twenty values of the quantity, $m_{S.OFF}$, measured in accordance with 3.3 of this appendix
$m_{S.OFF}$ = as defined in 4.3.3 of this appendix

4.3.6 *Part-load fuel utilization efficiency.* Calculate the part-load fuel utilization efficiency (η_u) expressed as a percent and defined as:

$$\eta_u=100-L_{I.A}-C_jL_j-\left[\frac{t_{on}}{t_{on}+P_Ft_{OFF}}\right]+[L_{I.ON}+L_{S.OFF}+L_{I.ON}+L_{S.OFF}]$$

where:

C_j = 2.8, adjustment factor
L_j = jacket loss as defined in 4.1.5
$L_{I.A}$ = as defined in 4.1.6 of this appendix
t_{on} = as defined in 4.3.3 of this appendix
$L_{S.ON}$ = as defined in 4.3.1 of this appendix
$L_{S.OFF}$ = as defined in 4.3.3 of this appendix
$L_{I.ON}$ = as defined in 4.3.2 of this appendix
$L_{I.OFF}$ = as defined in 4.1.4 of this appendix
P_F = as defined in 4.1.4 of this appendix
t_{OFF} = average burner off-time per cycle and is 20 minutes

4.3.7 *Annual fuel utilization efficiency.* Calculate the annual fuel utilization efficiency (AFUE) expressed as a percent and defined as:

$$AFUE=\frac{4400\eta_{SS-WT}\eta_uQ_{in-max}}{4400\eta_{SS}Q_{in-max}+2.5(4600)\eta_uQ_p}$$

where:

4400 = as defined in 4.2.6
η_{SS-WT} = as defined in 4.1.16 of this appendix
η_u = as defined in 4.3.6 of this appendix
Q_{in-max} = as defined in 4.2.6 of this appendix
4600 = as defined in 4.2.6 of this appendix
Q_p = as defined in 3.5 of this appendix

4.4 *Stack damper effectiveness for vented heaters equipped with electro-mechanical stack dampers.* Determine the stack damper effectiveness for vented heaters equipped with electro-mechanical stack dampers (D_e). defined as:

$$D_e=1.62\ [1-A_D\cos\Omega/A_S]$$

where:

A_D = as defined in 3.4 of this appendix
Ω = as defined in 3.4 of this appendix
A_S = as defined in 3.4 of this appendix

4.5 *Addition requirements for vented home heating equipment using indoor air for combustion and draft control.* For vented home heating equipment using indoor air for combustion and draft control, D_P, as described in section 4.1.2 of this appendix, and D_e, as described in section 4.1.3 of this appendix, shall be determined from Table 1 of this appendix.

4.5.1 *Optional procedure for determining D_P for vented home heating equipment.* Calculate the ratio (D_P) of the rate of flue gas mass through the vented heater during the off-period, $M_{F.OFF}(T_{F.SS})$, to the rate of flue gas mass flow during the on-period, $M_{F.SS}(T_{F.SS})$, and defined as:

$$D_P=M_{F.OFF}(T_{F.SS})/M_{F.SS}(T_{F.SS})$$

For vented heaters in which no draft is maintained during the steady-state or cool down tests, $M_{F.OFF}(T_{F.SS})$ is defined as:

$$M_{F.OFF}(T_{F.SS})=M_{F.OFF}(T^*_{F.OFF})\left[\frac{T_{F.SS}-T_{RA}}{T^*_{F.OFF}-T_{RA}}\right]^{0.56}\left[\frac{T^*_{F.OFF}+460}{T_{F.SS}+460}\right]^{1.19}$$

For oil fueled vented heaters in which an imposed draft is maintained, as described in section 3.6 of this appendix, $M_{F.OFF}(T_{F.SS})$ is defined as:

$$M_{F.OFF}(T_{F.SS})=M_{F.OFF}(T^*_{F.SS})$$

where:

$T_{F.SS}$ = as defined in 3.1.1 of this appendix
$T^*_{F.OFF}$ = flue gas temperature during the off-period measured in accordance with 3.6 of this appendix in degrees Fahrenheit
T_{RA} = as defined in 2.9 of this appendix

$$M_{F,OFF}(T_{F,OFF}) = \frac{1.325\,P_B V_T(100-C_T)}{C_T(T_T+460)}$$

P_B = barometric pressure measured in accordance with 3.6 of this appendix in inches of mercury
V_T = flow rate of tracer gas through the vented heater measured in accordance with 3.6 of this appendix in cubic feet per minute
C_T = concentration by volume of tracer gas present in the flue gas sample measured in accordance with 3.6 of this appendix in percent
C_T^* = concentration by volume of the active tracer gas in the mixture in percent and is 100 when the tracer gas is a single component gas
T_T = the temperature of the tracer gas entering the flow meter measured in accordance with 3.6 of this appendix in degrees Fahrenheit
(T_T+460) = absolute temperature of the tracer gas entering the flow meter in degrees Rankine
$M_{T,SS}(T_{T,SS}) = Q_{in}[R_{T,P}(A/F)+1]/[60HHV_A]$
Q_{in} = as defined in 3.1 of this appendix
$R_{T,P}$ = as defined in 4.1.7 of this appendix
A/F = as defined in 4.2.2 of this appendix
HHV_A = as defined in 4.2.2 of this appendix

4.5.2 *Optional procedure for determining off-cycle draft factor for flue gas flow for vented heaters.* For systems numbered 1 thru 10, calculate the off-cycle draft factor for flue gas flow (D_F) defined as:

$D_F = D_P$

For systems numbered 11 or 12: $D_F = D_P D_O$

where:

D_P = as defined in 4.5.1 of this appendix
D_O = as defined in 4.4 of this appendix

4.5.3 *Optional procedure for determining off-cycle draft factor for stack gas flow for vented heaters.* Calculate the off-cycle draft factor for stack gas flow (D_S) defined as:

For systems numbered 1 or 2: $D_S = 1.0$
For systems numbered 3 or 4: $D_S = (D_P + 0.79)/1.4$
For systems numbered 5 or 6: $D_S = D_O$
For systems numbered 7 or 8 and if $D_O(S/F) < 1$: $D_S = D_O D_P$
For systems numbered 7 or 8 and if $D_O(S/F) > 1$:

$D_S = D_O D_P + [0.85 - D_O D_P]\,[D_O(S/F) - 1]/[S/F - 1]$

where:

D_P = as defined in 4.5.1 of this appendix
D_O = as defined in 4.4 of this appendix

TABLE 1.—OFF-CYCLE DRAFT FACTORS FOR FLUE GAS FLOW (D_F) AND FOR STACK GAS FLOW (D_S) FOR VENTED HOME HEATING EQUIPMENT EQUIPPED WITHOUT THERMAL STACK DAMPERS

System number	(D_F)	(D_S)	Burner type	Venting system type [1]
1	1.0	1.0	Atmospheric.	Draft hood or diverter.
2	0.4	1.0	Power	Draft hood or diverter.
3	1.0	1.0	Atmospheric.	Barometric draft regulator.
4	0.4	0.85	Power	Barometric draft regulator.
5	1.0	D_o	Atmospheric.	Draft hood or diverter with damper.
6	0.4	D_o	Power	Draft hood or diverter with damper.
7	1.0	D_o	Atmospheric.	Barometric draft regulator with damper.
8	0.4	D_oD_p	Power	Barometric draft regulator with damper.
9	1.0		Atmospheric.	Direct vent.
10	0.4		Power	Direct vent.
11	D_o		Atmospheric.	Direct vent with damper.
12	0.4 D_o		Power	Direct vent with damper.

[1] Venting systems listed with dampers means electro-mechanical dampers only.

TABLE 2.—VALUES OF HIGHER HEATING VALUE (HHV_A), STOICHIOMETRIC AIR/FUEL (A/F), LATENT HEAT LOSS ($L_{L,A}$) AND FUEL-SPECIFIED PARAMETERS (A, B, C, AND D) FOR TYPICAL FUELS

Part VI

Office of Management and Budget

5 CFR Part 1320

Controlling Paperwork Burdens on the Public, Delegation of Review and Approval Authority to the Board of Governors of the Federal Reserve System; Proposed Rulemaking

OFFICE OF MANAGEMENT AND BUDGET

5 CFR Part 1320

Controlling Paperwork Burdens on the Public, Delegation of Review and Approval Authority to the Board of Governors of the Federal Reserve System; Notice of Proposed Rulemaking

AGENCY: Office of Management and Budget, Executive Office of the President.

ACTION: Notice of proposed rulemaking.

SUMMARY: This regulation would delegate to the Board of Governors of the Federal Reserve System the authority, under the Paperwork Reduction Act of 1980 and 5 CFR 1320.9, to approve of and assign OMB control numbers to collection of information requests and requirements conducted or sponsored by the Federal Reserve Board (Board). This delegation is proposed to cover all collections of information by the Board except those meeting certain criteria specified in Appendix A and discussed in the Supplementary Information section which follows. In exercising this delegated authority, the Board is to afford the public opportunity to participate in the review process, where this is possible and appropriate, assure that the requirements of 5 CFR 1320.4(b) are adhered to, and assure that the guidelines in 5 CFR 1320.6 are considered in the review process. Board-approved collections of information will be incorporated into the official OMB inventory of currently approved collections of information. A copy of the SF83 and supporting statement and the approved collection of information instrument(s) will be placed into OMB's public docket files. Under the Act, OMB may limit, condition, or rescind this delegation at any time, but it is intended that OMB will exercise this authority only rarely and in unusual circumstances.

The Office of Management and Budget is seeking comments on this proposal to add a new paragraph (d) to 5 CFR 1320.9 and a new Appendix A to 5 CFR 1320.

DATE: Comments must be received on or before April 27, 1984.

ADDRESS: Please address all written comment to Mr. Arnold Strasser, Assistant Chief, Reports Management Branch, Office of Information and Regulatory Affairs, OMB, Washington, D.C. 20503.

FOR FURTHER INFORMATION CONTACT: Mr. Arnold Strasser, Assistant Chief, Reports Management Branch, Office of Information and Regulatory Affairs, OMB, Washington, D.C. 20503 ((202) 395–6880).

SUPPLEMENTARY INFORMATION: Section 3507(e) of the Paperwork Reduction Act of 1980 (Act) and 5 CFR 1320.9 provide that OMB may delegate its authority to approve collections of information to an agency's designated senior official for Paperwork Reduction or to the agency head if certain conditions are met. The Act and OMB's implementing regulations require OMB to comply with the notice and comment procedures of Title 5 U.S.C. Chapter 5 before providing delegation to any agency. OMB has determined that the Board of Governors of the Federal Reserve System (Board) meets all of the requirements for delegation. Accordingly, and because OMB believes that the public has a vital interest in the administration of the Act, OMB is seeking public comment on this proposal.

The delegation would be to the Board itself because as head of the agency, the Board retains final authority to approve the agency's collections of information, subject to OMB's Paperwork Reduction Act review and approval. This authority is usually exercised by the Board as a collegial body during scheduled meetings conducted "on the record" after the public has received notification of the meeting. The agency review process for proposed collections of information considers the purpose, need, burden, and utility of each collection, and determines whether the information needed is already available to the Board. This review process culminates with Board authorization of the collection either as proposed or with Board-ordered modifications (after which Board staff transmits the proposed collectons to OMB for review and approval), an order for the Board staff to reexamine and modify the proposal, or a determination that the collection of information should not be conducted because it s not necessary for the proper performance of the agency function.

Under this review procedure, instituted by the Board in 1975, collections of information proposed to be started, revised, continued without modification, or deleted are subjected to a comprehensive and rigorous evaluation by several Federal Reserve groups. Each group is charged with, among other things, the responsibility of minimizing reporting burdens while focusing special attention on smaller institutions, questioning the need for the information, and evaluating the trade-off between data needs and reporting burdens. Each reviewing group separately analyzes the proposals and considers the need for the information, including the need for individual report items, the reporting frequency, and selection of the reporting panel. The reviews cover statutory or regulatory authority, issues of confidentiality, availability of related information, clarity of format and instructions, reporting deadlines, costs and burdens, relative burden of alternative approaches, and other relevant items. The next to the last stage of this system of critique and evaluation is conducted by three Board members including the Governor who is the Board's designated senior official for paperwork reduction activities. At each stage, the initiators may modify the proposal as a result of the review and an evaluation of the proposal at that stage accompanies the proposal to the next stage. The final, and decision, stage of the process, as noted above, is action by the Board of Governors.

The exact procedures and the particular structure of the reviewing groups may vary depending upon the nature of the collection, its relationship to statutory or regulatory requirements, and whether or not the collection is mandated by other agencies (*e.g.*, the Federal Financial Institutions Examination Council (FFIEC)). For the bulk of proposals that entail reporting to the Board, the current process is initiated by the submission of a proposal by the Division with subject-matter responsibility for the new, revised, or extended reporting. The initiating Division prepares the proposal and reviews it for conformance with the review standards. After preliminary screening by the Financial Reports Section, the proposal is reviewed in-depth by the Steering Committee for Report Review, which is made up of staff members from both the Board and the Reserve Banks, and then is reviewed by the Presidents of the Federal Reserve Banks before being submitted to the Board members.

The whole process is under the general direction of the Board member designated as the Board's senior official for Paperwork Reduction and under the day-to-day supervision and management of a senior staff member—an Assistant to the Board who is outside the structure of the program offices that would originate proposals for information collections. The Financial Reports Section maintains staff-level administrative control throughout the review process regardless of how or where the collection proposal originates. Each Division with program responsibilities has staff designated to act as liaison with the review structure

described above and to monitor that Division's adherence to the paperwork clearance standards and procedures.

OMB believes that this review and approval process meets all the requirements for full delegation of OMB's Paperwork Reduction Act approval authority. These requirements and the reasons why OMB believes that the Board fully meets them follow.

(1) The agency review process must exhibit independence from program responsibility.

The Board of Governors, which as a collegial body is the head of the agency, makes the final decisions as to whether to conduct or sponsor a collection of information. These decisions are based on independent Board review following the intensive review within the Federal Reserve. Since the final decisions are made at head-of-agency level, the process satisfies the required independence from program responsibility.

(2) The agency must have sufficient resources to carry out responsibilities.

The Board has demonstrated a commitment to information collection reviews that, as described above, includes the use of extensive resources and personnel from all areas within the Federal Reserve.

(3) The agency review process must evaluate fairly whether the proposed collections of information should be approved.

OMB is convinced that a fair evaluation is afforded each proposal throughout each stage of the Board review process. This is evident by the fact that OMB has only refused approval to the Board twice since the Paperwork Reduction Act was implemented. Both refusals were on grounds of timing, not substance, and in each case the disapproved request was mandated by the FFIEC. (All such mandated requirements would be excluded from the area of delegated authority.)

(4) Evidence of successful performance.

All the other points previously mentioned indicate the successful performance of the Board's review process. Additionally, the Board has achieved a 25% reporting burden reduction over the FY 1981 to FY 1983 period. The Board has achieved this reduction on its own initiatives, each year requesting an information collection budget (ICB) with substantial reductions, and its requested budget has always been approved. Under the proposed delegation, the Board would continue to be subject to the ICB process, would have a budget ceiling approved, and would be required to request a higher ceiling from OMB prior to approving an information collection that would otherwise result in the existing ceiling being exceeded by fiscal year-end.

Based on these facts, OMB proposes to give the Board of Governors of the Federal Reserve System a delegation to approve its collections of information subject to the following three exceptions.

The first exception would apply when the proposed collections or proposed revisions to existing collections are required by the FFIEC or other Federal executive branch entity with authority to require the Board to conduct or sponsor a collection of information. In this situation, the Board's review authority would not satisfy the criterion for an independent evaluation as to whether the proposed collection or change should be approved. Since the decision to require the information collection came from outside the Board and was imposed on the Board, the Board would not be an independent party in the review.

The second exception where review would revert to OMB is if the Board proposed to delete or change information it currently collects that is required and used by another agency, and, after the staff of the Board and the other agency have attempted to resolve the problem, the head of that agency objects is writing to OMB before the end of the comment period specified by the Board.

The third exception would be in the case of a new collection or change to an existing collection that would cause the Board to exceed its ICB ceiling by fiscal year-end.

The Board may also, at its option, request OMB to conduct any delegated review.

The Board's final action would normally be taken after the public was given reasonable opportunity to comment on the collection of information through notice in the **Federal Register**. These **Federal Register** notices will advise the public that a copy of comments may also be submitted to the OMB/OIRA desk officer for the Board. When the Board submits the notice to the **Federal Register**, a copy must also be sent to the OMB/ORRA desk officer.

However, in a situation where the Board determines that a new collection or proposed change must be instituted so quickly that public participation is not feasible and that immediate action is necessary for the Board to carry out its statutory authority or that any delay would defeat the purpose of the collection, the Board may grant an "immediate" clearance to the collection, that is, without providing opportunity for public comment. However, upon issuing that clearance, the Board must publish in the **Federal Register** a notice informing the public of its approval and indicating why immediate action was necessary. Prior to any extension of such an approval, the Board will take into account any comments received after the institution of the collection.

The Board must also assure that all approved collections of information are reviewed at least once every three years and when any changes in the collections are proposed. This review would normally be conducted before the expiration date of the prior approval. Where the review has not been completed prior to the expiration date, the Board may extend the report, up to three months, without public notice in order to complete the review and consequent revisions, if any. There may also be other circumstances in which the Board determines that a three-month extension without public notice is appropriate.

OMB and the Board recognize that there may be some collection of information requirements in existing regulations that have not yet been reviewed by OMB and assigned OMB control numbers. According to 5 CFR 1320.14, OMB must approve all collection of information requirements contained in existing regulations, though OMB may require an agency to initiate subsequent rulemaking to modify or eliminate a requirement. Inasmuch as the proposed delegation to the Board would extend to newly instituted collection-of-information requirements, OMB believes that the Board should also have delegated authority to approve like requirements contained in existing regulations. Accordingly, the OMB proposed delegation would also permit the Board to exercise delegated authority over all collections of information in existing regulations that do not have current OMB control numbers without any suspension of their effectiveness. Upon issuance of a final OMB rule providing the proposed delegation to the Board, the Board will promptly review all such requirements, assign OMB control numbers to them, and display such numbers as required by 5 CFR 1320.14.

In determining whether to approve a collection of information under the delegation, the Board is to comply with the review criteria specified in 5 CFR 1320.4. In doing so, the Board must assure itself: (1) That the collection of information is the least burdensome necessary for the proper performance of the Board's functions and to comply

with legal requirements and achieve program objectives; (2) that the collection of information does not duplicate information otherwise accessible to the Board; and (3) that the collection of information has practical utility and that the Board has sought to minimize the cost to itself but not by means of shifting disproportionate costs or burdens onto the public.

The Board must also consider all relevant concerns, including but not limited to, comments received from the public and other government agencies, and whether or not the collection satisfies the guidelines set forth in 5 CFR 1320.6. If the collection is determined by the Board to be inconsistent with those guidelines, the Board must either disapprove the collection, change the proposal so that it conforms to the guidelines, or, upon determining that it is essential to the proper performance of the Board's function to conduct the collection as proposed, approve it.

The Board will also assure that each approved information collection displays an OMB control number, which it will assign from the block of numbers provided in advance by OMB, and the expiration date (unless the collection is contained in a regulation).

As soon as practical after approval, the Board will provide to OMB each approved collection of information, together with a completed SF83, a supporting statement, a copy of each comment received or a summary of these comments and a certification that the Board has approved the collection of information. This package will be incorporated into OMB's public docket files.

OMB may choose to review the Board's paperwork review process under the delegation at any time. The Board will cooperate in carrying out such a review. The Board will respond to any recommendations resulting from such review and, if it finds the recommendations to be appropriate, will either accept the recommendations or propose an alternative approach to achieve the intended purpose.

As required by 5 CFR 1320.9(c), the delegation may be limited, conditioned, or rescinded in whole or in part at any time. However, OMB will exercise its right to review individual information collection proposals only in unusual circumstances and, in those rare instances, will do so, subject to the provisions of 5 CFR 1320.11(f), prior to the expiration of the time period set for public comment in the Board's **Federal Register** notices. OMB will generally exercise this authority in only three situations:

(a) If prior to the commencement of a Board review (*e.g.*, during the ICB review), it has notified the Board that it intends to review a specific new proposal for the collection of information or the continued use (with or without modification) of an existing collection;

(b) If there is substantial public objection to a proposed information collection; or

(c) If OMB determines that a substantially inadequate and inappropriate lead time has been provided between the final announcement date of the proposed requirement and the first date when the information is to be submitted or disclosed.

Where OMB conducts a review of a Board information collection proposal, either because the collection is exempt from the delegation or because OMB has exercised its right to rescind the delegation with respect to that collection, or the Board has asked OMB to review the collection, the provisions of 5 CFR 1320.17 and 5 CFR 1320.19 shall continue to apply.

Regulatory Impact and Regulatory Flexibility Act Analysis

OMB has determined that this regulation is not a major rule as defined by Executive Order 12291 and that the regulation would not have a significant economic impact on a substantial number of small businesses or other small entities.

Issued in Washington, D.C., March 22, 1984.

Christopher C. DeMuth,

Administrator, Office of Information and Regulatory Affairs.

List of Subjects in 5 CFR Part 1320

Reporting and recordkeeping requirements, Paperwork, Collection of information, Delegated review authority.

PART 1320—[AMENDED]

For the reasons set forth in the preamble, OMB proposes to amend 5 CFR Part 1320 by adding a new paragraph, (d) to § 1320.9 and by adding a new Appendix A to Part 1320 which read as follows:

§ 1320.9 Delegation of approval authority.

* * * * *

(d) Subject to the provisions of this part, and in accord with the terms and conditions of each delegation as specified in Appendix A to this part, the Director delegates review and apporval authority to the following agencies:

(1) Board of Governors of the Federal Reserve System

* * * * *

Appendix A. Agencies With Delegated Review and Approval Authority

1. The Board of Governors of the Federal Reserve System.

(a) Authority to review and approve collection of information requests, collection of information requirements, and collections of information in current rules is delegated to the Board of Governors of the Federal Reserve System (Board).

(1) This delegation does not include review and approval authority over any new collection of information or any modification to an existing collection of information that:

(i) Is proposed to be collected as a result of a requirement or other mandate of the Federal Financial Institutions Examination Council, or other Federal executive branch entities with authority to require the Board to conduct or sponsor a collection of information.

(ii) Is objected to by another Federal agency on the grounds that that agency requires information currently collected by the Board, that the currently collected information is being deleted from the collection, and the deletion will have a serious adverse impact on the agency's program provided that such objection is certified to OMB by the head of the Federal agency involved, with a copy to the Board, before the end of the comment period specified by the Board in the **Federal Register** notices specified in (3) (i) below.

(iii) Would cause the burden of the information collections conducted or sponsored by the Board to exceed by the end of the fiscal year the Information Collection Budget allowance provided to the Board by OMB for the fiscal year-end.

(2) The Board may ask that OMB review and approve collections of information covered by this delegation.

(3) In exercising delegated authority, the Board will: (i) Provide the public, to the extent possible and appropriate, with reasonable opportunity to comment on collections of information under review prior to taking final action approving the collection. Reasonable opportunity for public comment will include publishing a notice in the **Federal Register** informing the public of the proposed collection of information, notifying the public of the availability of copies of the "clearance package," and providing the public with the opportunity to comment. Such **Federal Register** notices shall also advise the public that they may also send a copy of their comments to the OMB/OIRA Desk Officer for the Federal Reserve Board.

(A) Should the Board determine that a new collection of information or a change in an existing collection must be instituted quickly and that public participation in the approval process would defeat the purpose of the collection or substantially interfere with the Board's ability to perform its statutory obligation, the Board may approve of the collection of information without providing opportunity for public comment. At the earliest practical data after approving the collection of information, the Board will publish a **Federal Register** notice informing the public of its approval of the collection of

information and indicating why immediate action was necessary.

(B) In such cases, before taking final action to reauthorize the collection of information for an additional period, the Board will take into account any comments received after the institution of the collection.

(ii) Provide the OMB desk officer for the Federal Reserve Board with a copy of the Board's **Federal Register** notice not later than the day the Board files the notice with the Office of the Federal Register.

(iii) Assure that approved collections of information are reviewed not less frequently than once every three years, and that such reviews are normally conducted before the expiration date of the prior approval. Where the review has not been completed prior to the expiration date, the Board may extend the report, for up to three months, without public notice in order to complete the review and consequent revisions, if any. There may also be other circumstances in which the Board determines that a three-month extension without public notice is appropriate.

(iv) Take every reasonable step to ensure that the collection of information conforms to the requirements of 5 CFR 1320.4(b). In determining whether to approve a collection of information, the Board will consider all comments received from the public and other agencies. The Board will not approve a collection of information that it determines does not satisfy the guidelines set forth in 5 CFR 1320.6, unless it determines that departure from these guidelines is necessary to satisfy statutory requirements or other substantial need.

(v) Assure that each approved collection of information displays an OMB control number and that all collections of information, except those contained in regulations, display the expiration date of the approval.

(vi) Assure that each approved collection of information, together with a completed SF83, a supporting statement, a copy of each comment received from the public and other agencies in response to the Board's **Federal Register** notice or a summary of these comments, and a certification that the Board has approved of the collection of information in accordance with the provisions of this delegation is transmitted to OMB for incorporation into OMB's public docket files. Such transmittal shall be made as soon as practical after the Board has taken final action approving the collection. However, no collection of information may be instituted until the Board received written or oral notification from OMB or OMB staff that the transmittal has been received.

(b) OMB will:

(1) Provide the Board in advance with a block of control numbers which the Board will assign in sequential order to, and display on, new collections of information.

(2) Provide a written notice of action to the Board indicating the Board approvals of collections of information have been received by OMB and incorporated into OMB's public docket files and inventory of currently approved collections of information.

(3) Review any collection of information referred by the Board in accordance with the provisions of section 1(a)(2) of the appendix.

(c) OMB may review the Board's paperwork review process under the delegation. The Board will cooperate in carrying out such a review. The Board will respond to any recommendations resulting from such review and, if it finds the recommendations to be appropriate, will either accept the recommendations or propose an alternative approach to achieve the intended purpose.

(d) This delegation may, as provided by 5 CFR 1320.9(c), be limited, conditioned, or rescinded, in whole or in part at any time. OMB will exercise this authority only in unusual circumstances and, in those rare instances, will do so subject to the provisions of 5 CFR 1320.11(f), prior to the expiration of the time period set for public comment in the Board's **Federal Register** notice *and* generally only if:

(1) Prior to the commencement of a Board review (*e.g.*, during the ICB review), OMB has notified the Board that it intends to review a specific new proposal for the collection of information or the continued used (with or without modification) of an existing collection;

(2) There is substantial public objection to a proposed information collection; or

(3) OMB determines that a substantially inadequate and inappropriate lead time has been provided between the final announcement date of the proposed requirement and the first date when the information is to be submitted or disclosed.

When OMB exercises this authority it will consider that the period of its review began the day that OMB received the **Federal Register** notice provided for in Section 1(a)(3)(i) of the Appendix.

(e) Where OMB conducts a review of a Board information collection proposal under Section 1(a)(1), 1(a) (2), or 1(d) of this Appendix, the provisions of 5 CFR 1320.17 and 5 CFR 1320.19 continue to apply.

(Paperwork Reduction Act of 1980, (Pub. L. 96–511); 44 U.S.C. Chapter 3)

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Rules and Regulations

Federal Register
Vol. 49, No. 62
Thursday, March 29, 1984

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

Animal and Plant Health Inspection Service

7 CFR Part 354

Overtime Services Relating to Imports and Exports

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: This document amends the regulations which established charges for reimbursable overtime work performed by employees of Plant Protection and Quarantine at border ports, seaports and airports. Plant Protection and Quarantine Officers of the United States Department of Agriculture are charged with performing inspection duties relating to imports and exports at border ports, ocean ports and airports of entry. Such services may be performed outside the regular tour of duty of the employee when requested by persons having ownership, custody or control of plants, plant products, or other articles subject to such port of entry inspection, treatment or testing and the charges for such premium pay service are recoverable through reimbursement from those for whom the services are performed. The payrolling procedures under which port of entry inspectors are paid have been changed insofar as entitlement to commuted traveltime allowances is concerned. In the past, entitlement to commuted traveltime allowances has been based on the performance of additional travel solely on account of the overtime service. This entitlement has been changed to permit the substitution of certain time elements in lieu of a positive travel requirement when overtime service begins less than one hour before the regular tour of duty or begins shortly after the completion of the daily tour of duty. At the same time, the amount of commuted traveltime allowance paid is reduced from a full allowance to ½ an allowance in most instances where only one-way travel is involved. This change in the method of computing commuted traveltime entitlements necessitates a change in the regulations under which reimbursement for such sums paid out for such services is made under the reimbursable features of the Act of August 28, 1950. (7 U.S.C. 2260).

EFFECTIVE DATE: April 1, 1984.

FOR FURTHER INFORMATION CONTACT: John C. Frey, Classification, Employment and Executive Resources Program, Human Resources Division, U.S. Department of Agriculture, Room 221, Federal Building, 6505 Belcrest Rd., Hyattsville, MD 20782 [301–436–6466.]

SUPPLEMENTARY INFORMATION: The Act of August 28, 1950 (64 Stat. 561; 7 U.S.C. 2260) authorizes the Secretary of Agriculture to pay employees of the Department performing inspection and quarantine services relating to imports into and exports from the United States for all overtime, night or holiday work at such rates as he may determine and to accept from persons for whom such work is performed, reimbursement for any sums paid out by him for such work. Thus, the amounts reimbursed to the Department by owners or custodians of plants and plant products or other articles who request the services of Plant Protection and Quarantine employees at ports of entry outside their regular tour of duty or at night or on a holiday, need to be computed on the same basis as is the pay of those employees actually performing the work. Under the current payrolling practices, entitlement to commuted traveltime allowances is based primarily on the performance of additional travel solely on account of the overtime services. This pay entitlement qualification has been changed, when inspection services are performed on a reimbursable basis immediately before or immediately after the regular scheduled daily tour of duty, to permit substitution of designated periods of elapsed time in lieu of the positive travel heretofore required.

This amendment has been issued in conformance with Executive Order 12291 and Secretary's Memorandum 1512–1 and has been determined to be not a "major rule." This final rule will not have a significant effect on the economy and will not result in a major increase in costs or prices for consumers, individual industries, Federal, State or local Government agencies, or geographic regions; and will not have significant adverse effects on competition, employment, or investment, productivity innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Mr. Harvey L. Ford, Deputy Administrator, Plant Protection and Quarantine, APHIS, has determined that this action will not have a substantial impact on a significant number of small entities. Specifically, this amendment affects only those entities that request the services of an inspector on a holiday or on an overtime basis. Services of an inspector during regularly established hours of service at a port are still furnished free of charge to those requiring the service. The pay provisions determined by the Secretary to be appropriate for employees performing inspection and quarantine services at ports of entry, the established hours of service for such ports, and the features of the reimbursable plan for recovering the costs of furnishing port of entry inspection on an appeal basis depend upon facts within the knowledge of the Department of Agriculture. Public participation in this rulemaking proceeding would not make additional relevant information available to the Department. The Agency has no alternatives to establishing procedures to effect reimbursement which utilize the same basis for recovery as is used in paying the employees who perform the work. By law, importers/exporters are required to reimburse the Agency for costs associated with services requested and rendered. Unless reimbursable amounts are calculated in the same manner as sums paid for the personal services provided, the reimbursement achieved will not equal the cost of providing the service. Accordingly, pursuant to the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedures on these amendments are impracticable and unnecessary and good cause is found for making these amendments effective less than 30 days after publication in the Federal Register.

List of Subjects in 7 CFR Part 354

Agricultural commodities, Exports, Government employees, Imports, Plants (agriculture), Quarantine, Transportation.

PART 354—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

Accordingly, Part 354, Chapter III, Title 7, Code of Federal Regulations is amended as follows:

1. The authority citation for Part 354 reads as follows:

Authority: 7 U.S.C. 2260 and Sec. 15, Pub. L. 94–353 (49 U.S.C. 1741).

2. Section 354–1(a) (1) and (2) is revised to read as follows:

§ 354.1 Overtime work at border ports, seaports, and airports.

(a)(1) Any person, firm, or corporation having ownership, custody or control of plants, plant products, animals, animal products or other commodities subject to inspection, laboratory testing, certification or quarantine under this chapter and Subchapter D of Chapter I, Title 9 CFR, who requires the services of an employee of Plant Protection and Quarantine on a Sunday or holiday or at any other time outside the regular tour of duty of such employee, shall sufficiently in advance of the period of Sunday or holiday or overtime service request the Plant Protection and Quarantine inspector in charge to furnish inspection, laboratory testing, certification or quarantine service during such overtime or Sunday or holiday period, and shall pay the Government therefor at the rate of $28.92 per work-hour per employee on a Sunday and at the rate of $21.84 per work-hour per employee for holiday or any other period except that for any services performed on a Sunday or holiday or at any time after 5 p.m. or before 8 a.m. on a weekday, in connection with the arrival in or departure from the United States of a private aircraft or vessel, the total amount payable shall not exceed $25 for all inspectional services performed by the Customs Service, Immigration and Naturalization Service, Public Health Service, and the Department of Agriculture; and except that owners and operators of aircraft will be provided service without reimbursement during regularly established hours of service on a Sunday or holiday; and except that the overtime rate to be charged owners and operators of aircraft at airports of entry or other places of inspection as a consequence of the operation of aircraft, for work performed outside of the regularly established hours of service on a Sunday will be $23.68 and for work performed outside the regularly established hours of service for holiday or any other period will be $16.44 per hour, which charges exclude administrative overhead charges.

(2) A minimum charge of 2 hours shall be made for any Sunday or holiday or unscheduled overtime duty performed by an employee on a day when no work was scheduled for him or which is performed by an employee on his regular workday beginning either at least 1 hour before his scheduled tour of duty or which is not in direct continuation of the employee's regular tour of duty. In addition, each such period of Sunday or holiday or unscheduled overtime work to which the 2-hour minimum charge provision applies may include a commuted traveltime period (CTT) the amount of which shall be prescribed in administrative instructions to be issued by the Deputy Administrator, Plant Protection and Quarantine for the areas in which the Sunday or holiday or overtime work is performed and such period shall be established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which the employee performs such Sunday or holiday or overtime duty. With respect to places of duty within the metropolitan area of the employee's headquarters, such CTT period shall not exceed 3 hours. It shall be administratively determined from time to time which days constitute holidays. The circumstances under which such CTT periods shall be charged and the percentage applicable in each circumstance are as reflected in the following table:

	Actual time[1] charge—no minimum	2-hour guarantee charge	Commuted[2] traveltime (CTT) charge
Charges for Inspection Within Metropolitan Area of Employee's Headquarters			
Work beginning before daily tour begins:			
8 to 59 minutes	Yes	No	None
60 to 119 minutes		Yes	½ CTT.
120 minutes or more.		Yes	Full CTT.
Work beginning after daily tour ends:			
Direct continuation.	Yes	No	None.
Break-in-service of:			
2–29 minutes		Yes	None.
30–60 minutes		Yes	½ CTT.
61 minutes or more.		Yes	Full CTT.
Charges for Inspection Services Performed Outside Metropolitan Area of Employee's Headquarters			
Work beginning before daily tour begins:			
8 to 59 minutes	Yes	No	½ CTT.
60 minutes or more.		Yes	Full CTT.
Work beginning after daily tour ends:			
Direct continuations.	Yes	No	½ CTT.
2–59 minutes	No	Yes	½ CTT.
60 minutes or more.	No	Yes	Full CTT.
Charges for Call Out Inspection Service on Holiday or Nonworkday			
Work beginning at any time.	No	Yes	Full CTT.

[1] Actual time charged when work is contiguous with the daily tour will be in quarter hour multiples, with service time of 8 minutes or more rounded up to the next quarter hour and any time of less than 8 minutes will be disregarded.
[2] The full CTT allowance will be the amount of commuted traveltime prescribed for the place at which the inspections are performed. See Part 97.2. One-half CTT is ½ of the full CTT period.

* * * * *

3. The introductory paragraph of § 354.2 is revised to read as follows:

§ 354.2 Administrative instructions prescribing commuted traveltime.

Each period of overtime and holiday duty as defined in § 354.1 shall, in addition, include a commuted traveltime period for the respective ports, stations, and areas in which employees are located. The prescribed commuted traveltime periods are set forth below:

* * * * *

Done at Washington, D.C., on March 23, 1984.

Bert W. Hawkins,

Administrator, Animal and Plant Health Inspection Service.

[FR Doc. 84–8405 Filed 3–28–84; 8:45 am]

BILLING CODE 3410–34–M

Federal Crop Insurance Corporation

7 CFR Part 417

[Amendment No. 2]

Sugarcane Crop Insurance Regulations

AGENCY: Federal Crop Insurance Corporation, USDA.

ACTION: Final rule.

SUMMARY: This action makes final an amendment to the Sugarcane Crop Insurance Regulations (7 CFR Part 417), effective for the 1983 and succeeding crop years. The amendment was implemented by the Federal Crop

Insurance Corporation (FCIC) on an interim basis to provide insureds with sufficient time to consider changes being made in the policy for insuring sugarcane and to comply with the regulations with respect to placing these changes on file in a timely manner. The intended effect of this action is to confirm the interim rule.

EFFECTIVE DATE: March 29, 1984.

FOR FURTHER INFORMATION CONTACT: Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, D.C., 20250, telephone (202) 447–3325.

SUPPLEMENTARY INFORMATION: On Friday, August 20, 1982, FCIC published an interim rule in the **Federal Register** at 47 FR 36405, amending the Sugarcane Crop Insurance Regulations (7 CFR Part 417), effective for the 1983 and succeeding crop years to (1) add a Section 11 to the Appendix to the Policy to describe FCIC's liability in cases of loss by fire when the insured has other insurance covering fire losses, (2) prescribe the interest to be charged when premiums payments are not made within a certain time, and (3) add a provision to require the insured to file a notice when the crop is damaged to the extent that a loss is probable and leave intact a representative sample of the unharvested crop.

In accordance with the provisions of these regulations for insuring sugarcane, any amendments to these regulations must have been placed on file 15 days prior to the cancellation date in order to provide sufficient time for the policyholder to consider the changes being made. There would not have been sufficient time for notice and public comment prior to the implementation of this rule and still comply with the regulations with respect to placing this rule on file in the required time to be effective for the 1983 crop year.

Merritt W. Sprague, Manager, FCIC, has determined that this action (1) is not a major rule as defined by Executive Order No. 12291 (February 17, 1981), (2) will not increase the Federal paperwork burden for individuals, small businesses, and other persons, and (3) conforms to the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), and other applicable law.

The title and number of the Federal Assistance Program to which these regulations apply are: Title—Crop Insurance; Number 10.450.

This action will not have a significant impact specifically upon area and community development; therefore, review as established by Executive Order No. 12372 (July 14, 1982) was not used to assure that units of local government are informed of this action.

It has been determined that this action is exempt from the provisions of the Regulatory Flexibility Act; therefore, no Regulatory Impact Statement was prepared.

It has been determined that this action does not constitute a review as to the need, currency, clarity, and effectiveness of these regulations under the provisions of Departmental Regulations 1512–1. The sunset review date established for these regulations is April 1, 1988.

List of Subjects in 7 CFR Part 417

Crop insurance, Sugarcane.

Final Rule

Accordingly, the interim rule, published in the **Federal Register** of Friday, August 20, 1982, is hereby adopted as final.

Done in Washington, D.C., February 21, 1984.

Peter F. Cole,

Secretary, Federal Crop Insurance Corporation.

Dated: March 22, 1984.

Edward Hews,

Acting Manager.

Approved by:

7 CFR Part 431

Soybean Crop Insurance Regulations

AGENCY: Federal Crop Insurance Corporation, USDA.

ACTION: Final rule.

SUMMARY: This action makes final a revision and reissuance of the Soybean Crop Insurance regulations, effective for the 1983 and succeeding crop years. The revision and reissuance of the regulations was implemented by the Federal Crop Insurance Corporation (FCIC) on an interim basis to allow insureds sufficient time to consider changes in the regulations for insuring sugar beets. The intended effect of this action is to confirm the interim rule as published.

EFFECTIVE DATE: March 29, 1984.

FOR FURTHER INFORMATION CONTACT: Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, D.C., 20250, telephone (202) 447–3325.

SUPPLEMENTARY INFORMATION: On December 21, 1982, FCIC published an interim rule in the **Federal Register** at 47 FR 56820, revising and reissuing the Soybean Crop Insurance Regulations (7 CFR Part 431), effective for the 1983 and succeeding crop years in order to provide sufficient time for insureds to consider changes in the regulations for insuring soybeans. Under the regulations, any amendments must be placed on file in the service office by a date 15 days prior to the cancellation date in order to be effective for the crop year. It was determined that there would not have been sufficient time to allow insureds to consider such changes and still comply with the regulations with respect to placing the changes on file 15 days prior to the cancellation date. The public was given 60 days after publication of the interim rule in which to submit comments, data, and opinions on the rule and the rule was scheduled for review in order to provide for any amendments made necessary by such public comment, but no comments were received.

Merritt W. Sprague, Manager, FCIC, has determined that this action (1) is not a major rule as defined by Executive Order No. 12291 (February 17, 1981), (2) will not increase the Federal paperwork burden for individuals, small businesses, and other persons, and (3) conforms to the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), and other applicable law.

The title and number of the Federal Assistance Program to which these regulations apply are: Title—Crop Insurance; Number 10.450.

This action will not have a significant impact specifically upon area and community development; therefore, review as established by Executive Order No. 12372 (July 14, 1982) was not used to assure that units of local government are informed of this action.

It has been determined that this action is exempt from the provisions of the Regulatory Flexibility Act; therefore, no Regulatory Impact Statement was prepared.

This action has been reviewed under USDA procedures established in Departmental Regulation No. 1512–1 (December 15, 1983). This action constitutes a review under such procedures as to the need, currency, clarity, and effectiveness of these regulations. The sunset review date established for these regulations is October 1, 1987.

List of Subjects in 7 CFR Part 431

Crop insurance; Soybeans.

Final Rule

Accordingly, under the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*),

the Interim Rule, revising and reissuing the Soybean Crop Insurance Regulations as published in the **Federal Register** at 47 FR 56820 on December 21, 1982, is hereby adopted as final.

Done in Washington, D.C., on February 24, 1984.

Peter F. Cole,

Secretary, Federal Crop Insurance Corporation.

Date: March 22, 1984.

Acting Manager.

Approved by:

[FR Doc. 84-8477 Filed 3-28-84; 8:45 am]

BILLING CODE 3410-08-M

Soil Conservation Service

7 CFR Part 613

Plant Materials Centers; Technical Amendments

AGENCY: Soil Conservation Service, USDA.

ACTION: Final rule; amendment to the rule.

SUMMARY: Minor editorial changes are being made to clarify and update the material published October 31, 1974, and April 17, 1975, in the **Federal Register.**

EFFECTIVE DATE: March 29, 1984.

FOR FURTHER INFORMATION CONTACT: Thomas N. Shiflet, Director, Ecological Sciences Division, Soil Conservation Service, USDA, P.O. Box 2890, Washington, D.C. 20013, (202) 447-2587.

SUPPLEMENTARY INFORMATION: Since this rule became effective, several inconsistencies have been brought to light requiring the need to update it with several minor editorial changes. These changes do not significantly affect the rule.

This rule relates to internal agency management. Therefore, pursuant to 5 U.S.C. 553, it is found upon good cause that notice and other public procedures are impractical and contrary to the public interest, and good cause is found for making this rule effective on publication in the **Federal Register.** Since this rule relates to internal agency management, it is exempt from the provisions of E.O. 12291. Finally, this action is not a rule as defined by Pub. L. 96-354, the Regulatory Flexibility Act, and thus is exempt from the provisions of that Act.

List of Subjects in 7 CFR Part 613

Plants (agriculture), Soil conservation.

PART 613—[AMENDED]

Accordingly, 7 CFR Part 613 is revised to read as follows:

Sec.

613.1 Purpose.
613.2 Policy.
613.3 SCS responsibilities in plant materials.
613.4 Special production of plant materials.
613.5 Plant materials centers.

Authority: Pub. L. 74-46, 49 Stat. 163 (16 U.S.C. 590a-f); Pub. L. 74-210, 50 Stat. 525 (7 U.S.C. 1010-1011).

§ 613.1 Purpose.

This part provides Soil Conservation Service (SCS) policy on the operations of plant materials centers. The centers have responsibilities for assembling, testing, releasing, and providing for the commercial production and use of plant materials for programs of soil, water, and related resource conservation and development.

§ 613.2 Policy and objectives.

(a) It is SCS policy to assemble, comparatively evaluate, release, and distribute for commerical increase new or improved plant materials needed for broad programs of resource conservation and development for agriculture, wildlife, urban, recreation, and other land uses and environmental needs. It is SCS policy to conduct plant materials work in cooperation with other agencies of the U.S. Department of Agriculture, such as the Agricultural Research Service, and with other federal and state research agencies including state agricultural experiment stations. The emphasis of the SCS plant materials work is to find suitable plants for erosion control adapted to soil and site conditions where vegetation is difficult to establish. In contrast, the emphasis of research agencies and organizations in plant development is to improve economically important crops. The SCS program of testing and releasing new seed-progagated plant materials follows the guidelines in "Statement of Responsibilities and Policies Relating to the Development, Release, and Multiplication of Publicly Developed Varieties of Seed-Propagated Crops," which was adopted in June 1972 by land grant colleges and interested federal agencies. SCS releases improved conservation plant materials requiring vegetative multiplication in ways appropriate for particular states and particular species by working with experiment stations, crop improvement associations, and other state and federal agencies.

(b) The objective of the plant materials activity is to select or develop special and improved plants, and techniques for their successful establishment and maintenance to solve conservation problems and needs relate to:

(1) Controlling soil erosion on all lands.

(2) Conserving water.

(3) Protecting upstream watersheds.

(4) Reducing sediment movement into waterways and reservoirs through the stabilization of critical sediment sources such as surface mined lands, highway slopes, recreation sites, and urban and industrial development areas.

(5) Stabilizing disposal areas for liquid and solid wastes.

(6) Improving plant diversity and lengthening grazing season on dryland pastures and rangelands.

(7) Replacing brush on mountain slopes with fire-retarding plant cover to reduce the possiblity of fires that threaten life and property or result in serious sediment sources.

(8) Improving the effectiveness of windbreaks and shelterbelts for reducing airborne sediment, controlling snow drifting, and preventing crop damage from wind erosion.

(9) Protecting streambank, pond, and lake waterlines from erosion by scouring and wave action.

(10) Improving wildlife food and cover.

(11) Selecting special-purpose plants to meet specific needs for environment protection and enhancement.

(12) Selecting plants that tolerate air pollution agents and toxic soil chemicals.

§ 613.3 SCS responsibilities in plant materials.

SCS operates or enters into agreements with state universities or other state organizations to operate plant materials centers. SCS employs specialists for selecting and using plant materials. SCS responsibilities are to:

(a) Identify the need for suitable plant materials and cultural and management methods in resource conservation and for environmental protection and enhancement.

(b) Assemble and comparatively evaluate plant materials at the plant materials centers and on sites where soil, climate, or other conditions differ significantly from those at the centers.

(c) Make comparative field plantings for final testing of promising plants and techniques in cooperation with conservation districts and other interested cooperators.

(d) Release cooperatively improved conservation plants and maintain the breeder or foundation stocks in ways appropriate for particular state and

plant species by working with experiment stations, crop improvement associations, and other state and federal agencies.

(e) Produce limited amounts of foundation or foundation-quality seed and plants available by grant to or by exchange with conservation districts, experiment stations, other federal and state research agencies, and state seed certifying organizations that will use the material to establish seed fields, seed orchards or plantings for vegetative increase.

(f) Encourage conservation districts, commercial seed producers, and commercial and state nurseries to produce needed plant materials for conservation uses and to assist them in this production.

(g) Encourage the use of improved plant materials in resource conservation and environmental improvement programs.

§ 613.4 Special production of plant materials.

SCS can produce plant materials in the quantity required to do a specific conservation job if this production will serve the public welfare and only if the plant materials are not available commercially. This function will be performed only until the plant materials are available commercially. Specific production of plant materials by SCS requires the approval of the Chief.

§ 613.5 Plant materials centers.

(a) The National Plant Materials Center. The National Plant Materials Center at Beltsville, Maryland, serves as the central facility for assembling, increasing, and determining the characteristics of plant materials from foreign and domestic sources. Plant materials with potential value for conservation and related uses are distributed to other plant materials centers.

(b) Other Plant Materials Centers. There are 23 other plant materials centers. Each serves several major land resource areas. Seventeen of these other centers are operated by SCS, and six by cooperating agencies, as follows:

(1) Operated by SCS:

Tucson, Arizona
Lockeford, California
Brooksville, Florida
Americus, Georgia
Molokai, Hawaii
Aberdeen, Idaho
Manhattan, Kansas
Quicksand, Kentucky
East Lansing, Michigan
Coffeeville, Mississippi
Elsberry, Missouri
Bridger, Montana
Cape May Courthouse, New Jersey
Big Flats, New York
Corvallis, Oregon
Knox City, Texas
Pullman, Washington

(2) Operated by cooperating agencies with financial and technical assistance from SCS:

Los Lunas, New Mexico (New Mexico State University)
Bismarck, North Dakota (North Dakota Association of Soil Conservation Districts)
Meeker, Colorado (White River and Douglas Creek Soil Conservation Districts with partial funding from SCS)

(3) Operated by cooperating agencies with technical assistance from SCS:

Palmer, Alaska (State of Alaska)
Kingsville, Texas (Caesar Kleberg Wildlife Research Institute, Texas Agricultural and Industrial University, and South Texas Association of Conservation Districts)
Nacogdoches, Texas (Stephen F. Austin University and the East Texas Association of Conservation Districts)

Dated: March 21, 1984.

Peter C. Myers,

Chief.

BILLING CODE 3410-16-M

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

8 CFR Parts 100 and 103

Statement of Organization; Powers and Duties of Service Officers; Availability of Service Records

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Final rule.

SUMMARY: This document reflects the recent reorganizational changes that occurred within the office of Information Systems. These changes were necessary to provide better management and technical support for INS' expansion of automated systems.

EFFECTIVE DATE: March 29, 1984.

FOR FURTHER INFORMATION CONTACT: Loretta J. Shogren, Director, Policy Directives and Instructions, Immigration and Naturalization Service, 425 I Street, N.W., Washington, D.C. 20536, Telephone: (202) 633-3048.

SUPPLEMENTARY INFORMATION: On January 9, 1984, the Attorney General signed the reorganization of the office of Information Systems as previously approved by OMB and Congress. This reorganization established a Project Control and Integration Division to provide for better management and technical support for the expansion of automated systems. This division is to be headed by an Assistant Commissioner for Project Control and Integration.

Compliance with 5 U.S.C. 553 as to notice of proposed rulemaking and delayed effective date is unnecessary because this rule relates solely to agency management.

This order will not have a significant impact on a substantial number of small entities and is not a rule within the definition of section (1)(a) of EO 12291 as it relates to agency management.

List of Subjects

8 CFR Part 100

Administrative practice and procedure, Authority delegations, Organization and functions (government agencies).

8 CFR Part 103

Administrative practice and procedure, Archives and records, Authority delegations (government agencies), Organization and functions (government agencies).

Accordingly, Title 8 of the Code of Federal Regulations is amended as follows:

PART 100—STATEMENT OF ORGANIZATION

In § 100.2, paragraph (c)(2)(iv) is revised to read as follows:

§ 100.2 Organization and functions.

* * * * *

(c) * * *

(2) * * *

(iv) Project Control and Integration Division

* * * * *

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS; AVAILABILITY OF SERVICE RECORDS

In § 103.1, paragraph (e) is revised to read as follows:

§ 103.1 Delegations of authority.

* * * * *

(e) *Associate Commissioner for Information Systems.*

Under the direction of the Executive Associate Commissioner, the Associate Commissioner for Information Systems is delegated authority and responsibility for program planning, development, coordination, evaluation, counseling, and staff direction of the Records

Systems, Data Systems, Policy Directives and Instructions, and Project Control and Integration programs, and general direction to and supervision of:

(1) Assistant Commissioner for Records Systems

(2) Assistant Commissioner for Data Systems

(3) Director for Policy Directives and Instructions, and

(4) Assistant Commissioner for Project Control and Integration.

* * * * *

(Sec. 103, Immigration and Nationality Act, as amended; (8 U.S.C. 1103))

Dated: March 26, 1984.

John W. Murray,

Associate Commissioner, Information Systems, Immigration and Naturalization Service.

BILLING CODE 4410-10-M

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

9 CFR Part 94

[Docket No. 84-026]

Change in Disease Status of Chile Because of Foot-and-Mouth Disease

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Interim rule.

SUMMARY: This document removes Chile from the list of countries declared to be free of rinderpest and foot-and-mouth disease. This is necessary because the existence of foot-and-mouth disease has been confirmed in Chile. The effect of this action is to prohibit or restrict the importation into the United States from Chile of cattle, sheep, or other ruminants, or swine, or fresh, chilled, or frozen meats of such animals. This is warranted as an emergency measure in order to protect the livestock of the United States from the threat of introduction or dissemination of foot-and-mouth disease into the United States.

DATES: Effective date is March 26, 1984.

Written comments must be received on or before May 29, 1984.

ADDRESS: Written comments concerning this interim rule should be submitted to Thomas O. Gessel, Director, Regulatory Coordination Staff, APHIS, USDA, Room 728, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782. Written comments received may be inspected at Room 728 of the Federal Building between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Dr. M. R. Crane, Import/Export Animals and Products Staff, VS, APHIS, USDA, Room 846, 6505 Belcrest Road, Hyattsville, MD 20782, 301-436-8170.

SUPPLEMENTARY INFORMATION:

Background

On March 23, 1984, the Department was notified by the International Office of Epizootics that an outbreak of foot-and-mouth disease has been diagnosed in cattle in Chile. The outbreak was confirmed by the Government of Chile. The diagnosis of foot-and-mouth disease, Type 01, was based on clinical signs and laboratory confirmation. Consequently, it is necessary to remove Chile from the list of areas determined to be free of rinderpest and foot-and-mouth disease.

Foot-and-mouth disease is a dangerous and destructive communicable disease of ruminants and swine. The morbidity rate within a herd usually approaches 100 percent.

The effect of this action is to prohibit or restrict the importation into the United States from Chile of cattle, sheep, or other ruminants, or swine, or fresh, chilled, or frozen meats of such animals.

Emergency Action

Dr. John K. Atwell, Deputy Administrator of the Animal and Plant Health Inspection Service for Veterinary Services, has determined that an emergency situation exists which warrants publication of this interim rule without prior opportunity for public comment. The interim rule should be made effective immediately in order to protect the livestock of the United States from the threat of introduction or dissemination of foot-and-mouth disease.

Therefore, pursuant to the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that prior notice and other public procedure with respect to this interim rule are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making this interim rule effective upon signature. Comments are solicited for 60 days after publication of this document. A document discussing comments received and any amendments required will be published in the **Federal Register.**

Executive Order 12291 and Regulatory Flexibility Act

The emergency nature of this action makes it impracticable for the Agency to follow the procedures of Executive Order 12291 with respect to this interim rule. Immediate action is warranted in order to protect the livestock of the United States from the threat of introduction or dissemination of foot-and-mouth disease into the United States.

This emergency situation also makes compliance with section 603 and timely compliance with section 604 of the Regulatory Flexibility Act impracticable. Since this action may have a significant economic impact on a substantial number of small entities, the Final Regulatory Impact Analysis, if required, will address the issues required in section 604 of the Regulatory Flexibility Act.

For this rulemaking action, the Office of Management and Budget has waived its review process required by Executive Order 12291.

List of Subjects in 9 CFR Part 94

Animal diseases, Imports, Livestock and livestock products, Meat and meat products, Milk, Poultry and poultry products, African swine fever, Exotic Newcastle disease, Foot-and-mouth disease, Fowl pest, Garbage, Hog cholera, Rinderpest, Swine vesicular disease.

PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS), AFRICAN SWINE FEVER, AND HOG CHOLERA: PROHIBITED AND RESTRICTED IMPORTATIONS

Accordingly, 9 CFR Part 94 is amended as follows:

§ 94.1 [Amended]

2. In § 94.1(a)(2), "Chile" is removed.

§ 94.11 [Amended]

1. In § 94.11(a), "Chile" is removed.

Authority: Sec. 2, 32 Stat. 792, as amended; sec. 306, 46 Stat. 689, as amended; secs. 2, 3, 4, 11, 76 Stat. 129, 130, 132; 19 U.S.C. 1306; 21 U.S.C. 111, 134a, 134b, 134c, 134f; 7 CFR 2.17, 2.51, and 371.2(d).

Done at Washington, D.C., this 26th day of March, 1984.

Saul T. Wilson,

Acting Deputy Administrator, Veterinary Services.

BILLING CODE 3410-34-M

9 CFR Part 97

Overtime Services Relating to Imports and Exports

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: This document amends the regulation which establishes charges for reimbursable overtime work performed by Veterinary Services inspectors at laboratories, border ports, ocean ports and airports. Veterinary Services inspectors of the United States Department of Agriculture are charged with performing inspection duties relating to imports and exports at laboratories, border ports, ocean ports and airports of entry. Such services may be performed outside the regular tour of duty of the employee when requested by the owner or custodian of the animals, animal products or other commodities subject to such port of entry inspection or testing and the charges for such premium pay service are recoverable through reimbursement from those for whom the services are performed. The payrolling procedures under which port of entry inspectors are paid have been changed insofar as entitlement to commuted traveltime allowances is concerned. In the past, entitlement to commuted traveltime allowances has been based on the performance of additional travel solely on account of the overtime service. This entitlement has been changed to permit the substitution of certain time elements in lieu of a positive travel requirement when overtime service begins less than one hour before the regular tour of duty, or begins shortly after the completion of the daily tour of duty. At the same time, the amount of commuted traveltime allowances paid is reduced from a full allowance to ½ an allowance in most instances where only one-way travel is involved. This change in the method of computing commuted traveltime entitlements necessitates a change in the regulations under which reimbursement for such sums paid out for such services is made under the reimbursable features of the Act of August 28, 1950 (7 U.S.C. 2260).

EFFECTIVE DATE: April 1, 1984.

FOR FURTHER INFORMATION CONTACT: John C. Frey, Classification, Employment and Executive Resources Program, Human Resources Division, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 221 Federal Building, Hyattsville, MD 20782, (301–436–6466.).

SUPPLEMENTARY INFORMATION: The Act of August 28, 1950, 64 Stat. 561; 7 U.S.C. 2260) authorizes the Secretary of Agriculture to pay employees of the Department performing inspection and quarantine services relating to imports into and exports from the United States for all overtime, night or holiday work at such rates as he may determine and to accept from persons for whom such work is performed, reimbursement for any sums paid out by him for such work. Thus, the amounts reimbursed to the Department by owners or custodians of animals, animal products or other commodities who request the services of Veterinary Services employees at ports of entry outside their regular tour of duty or at night or on a holiday, need to be computed on the same basis as is the pay of those employees who actually performed the work. Under the current payrolling practices, entitlement to commuted traveltime allowances is based primarily on the performance of additional travel solely on account of the overtime service. This pay entitlement qualification has been changed, when inspection services are performed on a reimbursable basis immediately before or immediately after the regularly scheduled daily tour of duty, to permit substitution of designated periods of elapsed time in lieu of the positive travel heretofore required. In addition, a proviso limiting periods of unscheduled overtime for laboratory personnel to hours which normally constitute a regular workday has been removed.

This amendment has been issued in conformance with Executive Order 12291 and Secretary's Memorandum 1512–1 and has been determined to be not a "major rule." This final rule will not have a significant effect on the economy and will not result in a major increase in costs or prices for consumers, individual industries, Federal, state or local Government agencies, or geographic regions; and will not have significant adverse effects on competition, employment, or investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Dr. John K. Atwell, Deputy Administrator, Veterinary Services, APHIS, has determined that this action will not have a substantial impact on a significant number of small entities. Specifically, this amendment affects only those entities that request the services of an inspector on a Sunday or a holiday or on an overtime basis. Services of an inspector during regularly established hours of service at a port are still furnished free of charge to those requiring the service. The pay provisions determined by the Secretary to be appropriate for employees performing inspection and quarantine services at ports of entry, the established hours of service for such ports, and the features of the reimbursable plan for recovering the costs of furnishing port of entry inspection on an appeal basis depend upon facts within the knowledge of the Department of Agriculture. Public participation in this rulemaking proceeding would not make additional relevant information available to the Department. The Agency has no alternatives to establishing procedures to effect reimbursement which utilize the same basis for recovery as is used in paying the employees who perform the work. By law, importers/exporters are required to reimburse the Agency for costs associated with services requested and rendered. Unless reimbursable amounts are calculated in the same manner as sums paid for the personal services rendered, the reimbursement achieved will not equal the cost of providing the service. Accordingly, pursuant to the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedures on these amendments are impracticable and unnecessary and good cause is found for making these amendments effective less than 30 days after publication in the **Federal Register.**

PART 97—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

Accordingly, Part 97, Subchapter D, Title 9, Code of Federal Regulations is amended as follows:

1. The authority citation for Part 97 reads as follows:

Authority: Act of August 28, 1950 (64 Stat. 561; 7 U.S.C. 2260, and the Airports and Airways Development Act Amendments of July 12, 1978 (90 Stat. 882; 49 U.S.C. 1741).

2. Section 97.1(a) is revised to read as follows:

§ 97.1 Overtime work at laboratories, border ports, ocean ports, and airports.[1]

(a) Any person, firm, or corporation having ownership, custody or control of

[1] For designated ports of entry for certain animals, animal semen, poultry, and hatching eggs see 9 CFR

animals, animal byproducts, or other commodities subject to inspection, laboratory testing, certification or quarantine under this subchapter and subchapter G of this chapter, and who requires the services of an employee of Veterinary Services on a holiday or Sunday or at any other time outside the regular tour of duty of such employee, shall sufficiently in advance of the period of overtime or holiday or Sunday service request the Veterinary Services inspector in charge to furnish inspection, laboratory testing, certification or quarantine service during such overtime or holiday or Sunday period, except as provided in paragraph (b) of this section, and shall pay the Government therefor at the rate of $28.92 per work hour per employee on Sunday and at a rate of $21.84 per work hour per employee for holiday or any other period; except that for any services performed on a Sunday or holiday, except as provided in paragraph (b) of this section for inspection or quarantine services requested by an owner or operator of an aircraft at an airport on a Sunday or holiday which are performed within the regularly established hours of service, or at any time after 5 p.m. or before 8 a.m. on a weekday, in connection with the arrival in or departure from the United States of a private aircraft or vessel, the total amount payable shall not exceed $25 for all inspectional services performed by the Customs Service, Immigration and Naturalization Service, Public Health Service, and the Department of Agriculture. A minimum charge of 2 hours shall be made for any Sunday or holiday or unscheduled overtime duty performed by an employee on a day when no work was scheduled for him or which is performed by an employee on his regular work day beginning either at least 1 hour before his scheduled tour of duty or which is not in direct continuation of the employee's regular tour of duty. In addition, each such period of Sunday or holiday or unscheduled overtime work to which the 2-hour minimum charge applies may include a commuted traveltime period (CTT) the amount of which shall be prescribed in administrative instructions to be issued by the Deputy Administrator, Veterinary Services for the areas in which the Sunday or holiday or overtime work is performed and such period shall be established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which the employee performs such Sunday, holiday or overtime duty. With respect to places of duty within the metropolitan area of the employee's headquarters, such CTT period shall not exceed 3 hours. It shall be administratively determined from time to time which days constitute holidays. The circumstances under which such CTT periods shall be charged and the percentage applicable in each circumstance are as reflected in the following table:

	Actual time [1] charge—no minimum	2-hour guarantee charge	Commuted [2] traveltime (CTT) charge
Charges for Inspection Within Metropolitan Area of Employee's Headquarters			
Work beginning before daily tour begins:			
8 to 59 minutes	Yes	No	None.
60 to 119 minutes		Yes	½ CTT.
120 minutes or more		Yes	Full CTT.
Work beginning after daily tour ends:			
Direct continuation	Yes	No	None.
Break-in-service of:			
2–29 minutes		Yes	None.
30–60 minutes		Yes	½ CTT.
61 minutes or more		Yes	Full CTT.
Charges for Inspection Services Performed Outside Metropolitan Area of Employee's Headquarters			
Work beginning before daily tour begins:			
8 to 59 minutes	Yes	No	½ CTT.
60 minutes or more		Yes	Full CTT.
Work beginning after daily tour ends:			
Direct continuation	Yes	No	½ CTT.
2–59 minutes	No	Yes	½ CTT.
60 minutes or more	No	Yes	Full CTT.
Charges for Call Out Inspection Service on Holiday or Nonworkday			
Work beginning at any time.	No	Yes	Full CTT.

[1] Actual time charged when work is contiguous with the daily tour will be in quarter hour multiples, with service time of 8 minutes or more rounded up to the next quarter hour and any time of less than 8 minutes will be disregarded.
[2] The full CTT allowance will be the amount of commuted traveltime prescribed for the place at which the inspections are performed. See Part 97.2. One-half CTT is ½ of the full CTT period.

FEDERAL RESERVE SYSTEM

12 CFR Part 211

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Part 351

Accounting for International Loan Fees

AGENCIES: Comptroller of the Currency, Board of Governors of the Federal Reserve System, and Federal Deposit Insurance Corporation.

ACTION: Joint notice of final rules.

SUMMARY: These regulations establish uniform requirements for the accounting for fees associated with the restructuring of international lending arrangements and nonrefundable fees charged by banking institutions in connection with other international loans. These regulations implement one aspect of the joint program of the Federal banking agencies to strengthen the supervisory and regulatory framework relating to foreign lending by U.S. banking institutions, incorporated in section 906 of the International Lending Supervision Act of 1983.

EFFECTIVE DATES: The effective date of the regulations is June 30, 1984, except for §§ 20.9(a), 211.45(a) and 351.2(b) which are effective March 29, 1984.

FOR FURTHER INFORMATION CONTACT:

Comptroller of the Currency: Zane D. Blackburn, Director, Bank Accounting or Eugene Green, Senior Accountant, Bank Accounting (202/447-0471); Harold Schuler, Director, International Relations & Financial Evaluation (202/447-1747); Dorothy Sable, Senior Attorney (202/447-1880).

Federal Reserve System: Michael G. Martinson, Projects Manager,

International Activities, Division of Banking Supervision and Regulation (202/452–3621); or Stanley C. Weidman, Senior Accountant-Analyst, Division of Banking Supervision and Regulation (202/452–3502); or Nancy P. Jacklin, Assistant General Counsel (202/452–3428); Kathleen O'Day, Senior Counsel, Legal Division (202/452–3786).

Federal Deposit Insurance Corporation: Paul L. Sachtleben, Planning and Program Development Branch, Division of Bank Supervision (202/389–4761) or Peter M. Kravitz, Senior Attorney, Legal Division (202/389–4171).

SUPPLEMENTARY INFORMATION: On February 13, 1984, the agencies published for comment regulations to implement section 906 of the International Lending Supervision Act of 1983 (12 U.S.C. 3901 et seq., 3905) ("Act"). The proposed regulations set forth the accounting for various fees received by banking institutions when making international loans.

The agencies received 67 letters of comment on the proposed regulations as follows: The Board received 32 comments; 6 from trade or professional associations, 17 from banks and bank holding companies, 3 from accounting firms and 6 from Federal Reserve banks; the Comptroller of the Currency received 21 comments; 13 from national banks, 4 from trade or professional associations or firms and 4 from accounting firms or groups; and the Federal Deposit Insurance Corporation received 14 comments which were duplicative of those received by the other agencies.

In the explanatory materials accompanying the proposed regulations, the agencies specifically requested comments on: (1) Whether the rules should differentiate between fees related to restructured loans and other international loans, and if so, how restructured loans should be defined; (2) whether all or certain costs should be capitalized rather than expensed as incurred; (3) whether commitment fees should be deferred and recognized over the combined commitment and expected loan period as adjustments to yield; (4) how banking institutions should account for the costs of, and fee income attributable to, their merchant banking activities; and (5) whether any aspects of the proposed rules were inconsistent with the accounting treatment for domestic loans. Those submitting comments addressed these and other issues. In light of the comments received, the agencies have made several revisions to improve the proposed regulations. Following are the major topics raised in the comments and the agencies' responses thereto:

(1) Scope of the Rules

Many commenters objected to the issuance of rules on the treatment of international loan fees other than fees received in connection with restructured international loans. They argued that Congress only intended the agencies to address restructured loan fees. However, the agencies believe that Section 906 and its legislative history clearly require the agencies to issue rules addressing fees on both types of international loans. Section 906(a) is directed to restructured loans and authorizes the agencies to issue necessary implementing rules. Section 906(b) is directed to all international loans and requires the agencies, subject to the specific requirements for restructured loan fees, to issue rules governing the treatment of all international loan fees.

Most commenters, including the Banking Committee of the American Institute of Certified Public Accountants (AICPA), urged the agencies not to establish accounting rules now that differ significantly from Generally Accepted Accounting Principles (GAAP), especially in view of the current status of consideration by the accounting profession of issues of fee accounting. Accordingly, several commenters urged the agencies to adopt accounting rules for fees on restructured loans as specified in section 906(a) but to adopt current GAAP rules for all other fee accounting for international loans, thereby leaving the resolution of these issues to the accounting profession.

The suggestion that Congress was solely concerned that the Federal banking agencies promulgate regulations for fees on restructured loans and that GAAP should otherwise apply, would make superfluous the legislative requirements in section 906(b). To the contrary, the Federal banking agencies in proposing to Congress the provisions now contained in section 906(b), and Congress in adopting those provisions, considered that the application of the broad fee accounting principles for banks contained in GAAP were insufficient to accomplish adequate uniformity in accounting practices in this area. Further, Congress determined that more appropriate accounting rules were necessary in order to avoid artificial incentives for banking institutions to make international loans.

In connection with this issue, several commenters requested that implementation of rules on fees other than those received in a restructuring be delayed until final decisions are reached by the Financial Accounting Standards Board (FASB). The FASB has scheduled the issue of accounting for nonrefundable loan fees for its current agenda. The FASB itself, although not commenting specifically on the proposal, noted that it will address this issue through its "due process" procedures and will keep the agencies informed of developments. The agencies do no believe that delaying the rules to an idefinite date would be in accordance with the intention of Congress. However, in order to allow reasonable time for adjustment of accounting methods, the rules are effective June 30, 1984, except for the rules on fees for restructured loans which are effective immediately. Finally, in recognition of the current consideration of these issues by the accounting profession, the agencies intend to reexamine their regulations to assess the need for modification in the event the FASB issues a final pronouncement or standard on loan fees.

(2) Accounting Rules Related to Restructured Loans and Other International Loans

The proposed regulations did not differentiate between restructured and all other international loans. Uniform accounting rules were specified for commitment an agency fees, and the rules required that any other fee received in connection with an international loan in excess of adminisrative costs be deferred and amortized over the effective life of the loan. The reason given for such a requirement was that the fees on restructured international loans and all other international loans are similar in substance and therefore should be treated in the same manner. In addition, it would be burdensome to distinguish between restructurings and other international loans.

The commenters generally were opposed to treating all international loans alike. They cited the statutory provision which mandates certain accounting treatment of fees on restructured loans but provides the banking agencies with discretion as to other international loans. They also stated that the legislative history of the Act shows the major Congressional concern was with restructured loans to debtor countries, and the need to avoid imposing excessive debt burden in those instances.

Section 906(b) of the Act, unlike section 906(a), provides that the bank regulatory agencies shall establish rules

that require that the "appropriate portion" of fees related to international loans be taken into income over the effective life of the loan. In implementing this section of the law, the commenters considered that the agencies should adopt rules that recognize the economic substance of the transactions for which fees are charged. The commenters stated that some fees in excess of administrative costs are compensation for services provided, are unrelated to yield adjustment, and therefore should not be deferred and amortized.

In light of the language and legislative history of the provision and in response to the comments, the final regulations distinguish between restructured international loans and other international loans in the required accounting treatment for fees.

(3) Definition of "Restructured International Loan"

In order to distinguish between restructured international loans and all other international loans for purposes of accounting for fees, it is necessary that "restructured international loan" be defined to meet the particular scope and purpose of section 906(a). The commenters generally suggested that the definition cover restructured loans to borrows in countries with severe foreign exchange or liquidity problems. Several indicated that the definition of a restructured loan could be linked to loans made to countries that had been classified by the agencies for transfer risk purposes.

Some commenters suggested that restructured loans include refinancings or loans the terms of which had been modified or maturities extended in order to permit the loan to be repaid. Others suggested using the definition of "troubled debt restructuring" in the Statement of Financial Accounting Standard No. 15 (SFAS 15, "Accounting by Debtors and Creditors for Troubled Debt Restructurings"), issued by the FASB.

Because section 906(a) refers to restructurings of international loans to avoid excessive debt service burden on debtor countries, the regulations provide that the definition of restructured loan contain two criteria. First, the borrower whose loan is being restructured because of debt service difficulties must be a resident of a foreign country experiencing a generalized inability of public and private sector obligors to meet their external debt obligations on a timely basis because of a lack of, or restraints on the availability of, foreign exchange in that country. Second, in a restructuring, the terms of the loan are revised to extend the original schedule of payments or reduce stated interest, or the restructuring takes the form of provision of new funds for the benefit of the borrower that has the same effect as extending the schedule of payments or reducing stated interest on the original loan. These criteria are intended to cover loans restructured to meet debt service difficulties, but not ordinary refinancings.

For any loan that meets the definition of restructured international loan, the regulations prohibit a banking institution from charging any fee unless the portion of the fee in excess of administrative costs is deferred and amortized over the effective life of the loan. If any loan meets the more restrictive category of a "troubled debt restructuring" under the terms of SFAS 15, it should be accounted for in accordance with that Standard. Moreover the definition of "restructured loan" adopted to implement the fee accounting rules mandated by statute is in no way intended to categorize any particular loan as a "restructured loan" for purposes of applying any other accounting standard.

(4) Syndication Fees

As indicated above, fees on international loans other than restructured international loans need not all be amortized but, pursuant to section 906(b), must be accounted for in a manner to accrue an appropriate portion of the fee as income over the life of the loan. The purpose of this provision is to assure that any portion of the fee that is in actuality a yield adjustment be accounted for as interest and amortized.

In those instances where a banking institution is managing or syndicating the loan, the proposed rule established a presumption that a portion of a managing banking institution's fees (other than commitment or agency fees) would be considered an adjustment to yield. This portion would be equal to the proportion of fees in relation to loan principal received by the largest non-managing loan participant. The remainder of the fee would be presumed to be a syndication fee and the proposed rule provided that the syndication fee could be recognized as revenue when received only to the extent it equals administrative costs directly identifiable with the syndication process. The excess was to be deferred and amortized over the loan period.

Many commenters agreed that some portion of a syndication fee normally represents an adjustment to yield because a portion of the fee is passed on to participating banks as an incentive to participate in the loan. The commenters concurred with the proposal that this yield adjustment component should be deferred and amortized over the loan period. Most of the commenters agreed also with the presumption in the proposal that the yield adjustment component is that portion of the fee equal to the fee received by the non-managing bank with the largest proportionate share in the syndication. Several commenters, however, disagreed with the presumption, indicating that the greater the participation, the higher the fee that is passed to that bank. Therefore, the regulation should use a weighted method for determining the yield adjustment component of a syndication fee.

The final regulations retain the requirement that, in all international loans (except restructured international loans for which no fee exceeding specified administrative costs may be taken into income immediately), a banking institution shall recognize that portion of syndication fees that represent an adjustment to yield as interest to be amortized over the loan period, using the interest method.

The presumption in the proposal as to the yield adjustment component in a syndication fee has been altered in the final rules. Because a non-managing participating bank performs no syndication services, whatever fee it receives is a yield adjustment. Therefore, the interest yield component of the syndication fee should be based upon the largest fee received by a non-managing loan participant on a pro rata basis. Accordingly, the managing bank's effective yield on its portion of the loan should be at least equal to that of the non-managing loan participant receiving the largest fee.

The commenters strongly disagreed with the requirement that the remainder of a syndication fee also be deferred as a yield adjustment. Most stated that the proposal misconstrues the nature of the management or syndication fee as comprised only of reimbursement of administrative costs and an adjustment to yield. These commenters stated that the syndication fee is a charge for separate services unrelated to the actual lending of money. These "merchant banking functions," for which banking institutions should be separately compensated, include the arranging of the loan (bringing together third parties), using associated expertise, assuming the underwriting risk of the loan, and negotiating the terms of the loan. These fees also include a "profit" on the provision of the services.

Because the fee is compensation for such services, the commenters stated that GAAP provides that the income should be recorded when the service is rendered. Several commenters stated that the services provided by commercial banks are like those provided by merchant banks in the syndication process and that to apply different accounting rules for fee income for such services earned by commercial banks would place them at a competitive disadvantage.

There can be little dispute that banking institutions that are "lead" or "managing" banks provide services, as described by the commenters, in connection with international loan syndications. These banking institutions also frequently participate in the loan, and often their share in the loan is among the largest of all participants. In such circumstances, the activities of the institution in syndicating the loan are, to at least some extent, integral to the lending of funds.

What additional portion of the syndication fees is intended to compensate a managing bank for making the loan, as compared with arranging loans for others, is not easily determined using any generalized standard and may vary from case to case. In those cases where all or a portion of the remaining fee represents a yield adjustment, as noted above, such income must be amortized over the loan period. Where all or a portion of the remaining fee instead represents compensation for services provided in arranging the loan, the final regulations allow it to be taken into income when the loan agreement is signed.

In order to assure that, in practice, the appropriate portion of the fee is amortized, the final regulations allow the banking institution to take the fee into income when the loan is closed only to the extent the institution can identify and document the services for which the specified fee was received. Documentation for this purpose shall include the loan agreement, signed by all of the parties to the loan, which identifies the services provided and the total fee received by the institution for provision of such syndication or management services. Normally, these agreements contain the amount, terms and conditions of the loan, and the interest and fees to be paid by the borrower. If the portion of fees received representing compensation for such services cannot be so identified and documented, then the fee will be presumed to be an adjustment to yield and must be amortized over the life of the loan. Fees received by a "managing bank" in name only are not compensation for syndication services and must be amortized over the life of the loan.

(5) Commitment Fees

The proposed regulations required banking institutions to defer all commitment fees over the term of the combined commitment and expected loan period. Commenters generally opposed this requirement, indicating that such fees should be recognized as income over the commitment period. Objections largely centered on the impracticability of the requirement and the fact that commitment fees are intended as compensation for guaranteeing the funding of a loan and are not yield related. Therefore, the deferral of these fees beyond the commitment period is inconsistent with their nature and purpose. Commenters cited revolving credit arrangements as an example where the proposed rule is particularly inappropriate. Fees on revolving credit commitments are based on the unused line of credit and typically are received periodically in arrears, clearly evidencing their purpose to compensate the bank for the funding risk assumed. Moreover, in such cases, the "loan period" would be particularly difficult to estimate. Many commenters indicated that commitment fees should be recognized in income based on their economic substance consistent with the requirements of the Bank Audit Guide issued by the AICPA.

In light of these comments, the agencies have determined to revise the proposed regulations as they relate to commitment fees to be consistent with the treatment of such fees in the Bank Audit Guide. Accordingly, commitment fees could be taken into income over the commitment period alone. The final regulations retain the requirement to defer commitment fees over the combined term of the loan and commitment period only in those situations when it is not practicable to identify that portion of the fee related to making the commitment as compared with any portion related to lending funds. This includes instances where the fee is unreasonable in comparison with normal banking practices whereby, as indicated by banking industry commenters, such fees typically fall within a narrow range (currently ¼% to ½% per annum) regardless of customer. As required by section 906(a) of the Act, a commitment fee received in connection with a restructured international loan must be amortized over the loan period.

Further, based on responses that commitment fees on revolving loan arrangements are generally received periodically in arrears during the commitment period and are based on the amount of the unused loan commitment, the regulations permit such fees to be recognized as income on a cash basis provided the result would not be materially different from deferring these fees and amortizing them over the commitment period. Finally, the regulations were clarified to state that, if the loan is funded before the end of the commitment period, any unamortized commitment fees may be recognized as revenue at that time.

(6) Administrative Costs

Under the proposed regulations, administrative costs for originating or restructuring a loan, or managing a syndicated loan were similarly defined and were required to be expensed as incurred. Such costs were defined as those which are specifically identified with processing the loan or negotiating and consummating the lending arrangement in the case of an international syndicated loan. These costs included, but were not necessarily limited to: legal fees; costs of preparing and processing loan documents; an allocable portion of salaries and related benefits of employees engaged in the international lending function or, for managing banks, employees, engaged in the syndication function; and an allocable portion of occupancy and other similar costs.

In the preamble to the proposed regulation, the agencies specifically asked whether all or certain costs should be capitalized rather than expensed as incurred and how banking institutions should account for the costs of their merchant banking activities.

The majority of the commenters agreed that costs in both activities should be expensed as incurred. They indicated this is the generally accepted practice in the industry. Some commenters mentioned that the AICPA's Accounting Standards Executive Committee recommendation of capitalizing costs is not a currently accepted practice and represents only a recommendation to the FASB for its consideration in addressing the loan fee issue. Other commenters indicated that the capitalization of such costs would inflate the balance sheet and require the burdensome development of accounting systems to accumulate and track the information. Some of these commenters contended that the initial cost of establishing such an accounting system would outweigh the benefits.

On the issue of defining administrative costs, only a few

commenters thought that the proposed definition was too restrictive and suggested that general overhead costs in addition to those specifically identifiable with processing or consummating a loan should be included. Most commenters considered that the definition encompassed too many allocated costs and suggested that only incremental costs be included. They noted that inclusion of these allocated costs is not current accounting practice and would require establishment of new cost accounting systems. A number of commenters indicated the definition should be consistent with that set forth in SFAS 17 (Accounting for Leases—Initial Direct Costs) and the Bank Audit Guide.

In light of these comments, the agencies have determined that, consistent with GAAP, administrative costs will be required to be expensed as incurred and defined to include only specifically identified direct costs as provided in SFAS 17. Accordingly, supervisory and administrative expenses or other indirect expenses such as occupancy and other similar costs may not be included.

The rule thus would be consistent with GAAP and the Bank Audit Guide, and will not create an undue burden for banking institutions.

(7) Other Issues

There was no disagreement with the basic rules requiring that fees be deferred and amortized over the effective life of the loan unless specific treatment for a particular fee is specified elsewhere in the regulations. Therefore, no change was made in these provisions. The effective life of the loan in this context and in the regulations generally, is meant to be the term of the loan. This may, however, differ from the stated loan period, where, for example, a short-term loan is expected to be rolled-over at maturity.

Several commenters requested the option to amortize the entire fee, whether received in connection with a restructuring or other international loan, rather than being required to recognize a portion of the fee equal to administrative costs as income in the same period such costs are expensed. While immediate recognition of this portion of the fee is the preferred accounting treatment, the final rule also allows deferral and amortization of the entire fee.

Those comments discussing agency fees agreed with the treatment of such fees in the proposed rules and, accordingly, no change in this provision was made in the final rules.

Several comments raised the issue of materiality. Determinations of materiality for the purpose of application of the rules should be made in accordance with GAAP with the exception of the rule on treatment of fees for restructured international loans. That rule must be applied regardless of materiality because it is based on a specific statutory requirement.

One commenter asked how the unamortized balance of fees should be treated when the asset is sold. Sufficient accounting guidance already is provided on this question in GAAP and the agencies do not believe that a specific rule on this point is necessary.

Finally, the Federal banking agencies intend, through the examination process, to oversee good faith compliance with the Act and these regulations. In the event that the regulations do not achieve the objective of assuring that the appropriate portion of fee income is recognized as an interest yield adjustment, the agencies will revise the regulations or review individual institutions' accounting practices as needed.

Regulatory Flexibility Act

Pursuant to section 605(b) of the Regulatory Flexibility Act (Pub. L. 96–354, 5 U.S.C. 601 et seq.) the agencies certify that the regulations will not have a significant economic impact on a substantial number of small entities since small banks generally do not engage extensively in international lending and would not be affected by these regulations.

Executive Order 12291

The Comptroller of the Currency has determined that the proposed regulation does not constitute a "major rule" and therefore does not require a regulatory impact analysis.

List of Subjects in 12 CFR Parts 20, 211, and 351

Accounting for international loan fees, Banks, banking, Federal Reserve System, Foreign banking, Investments, Reporting and recordkeeping requirements, Export trading companies, Allocated transfer risk reserve, National banks, International operations, Reserves on certain international assets, Reporting and disclosure of international assets, State nonmember banks.

Authority and Issuance

Pursuant to their respective authorities, the agencies are amending Title 12 of the Code of Federal Regulations, Parts 20, 211 and 351, as follows:

COMPTROLLER OF THE CURRENCY

[Docket No. 84–11]

PART 20—[AMENDED]

1. The authority citation for 12 CFR Part 20 reads as follows:

Authority: 12 U.S.C. 1 *et seq.* unless otherwise noted.

2. Part 20 is amended by redesignating paragraph (d) of § 20.7 as paragraph (h) and by adding new paragraphs (d), (e), (f), and (g) to read as follows:

§ 20.7 Definitions.

* * * * *

(d) "International loan" means a loan as defined in the instructions to the "Report of Condition and Income" for the respective banking institution (FFIEC Nos. 031, 032, 033 and 034) and made to a foreign government, or to an individual, a corporation, or other entity not a citizen of, resident in, or organized or incorporated in the United States.

(e) "International syndicated loan" means a loan characterized by the formation of a group of "managing" banking institutions and, in the usual case, assumption by them of underwriting commitments, and participation in the loan by other banking institutions.

(f) "Loan agreement" means the documents signed by all of the parties to a loan, containing the amount, terms and conditions of the loan, and the interest and fees to be paid by the borrower.

(g) "Restructured international loan" means a loan that meets the following criteria:

(1) The borrower is unable to service the existing loan according to its terms and is a resident of a foreign country in which there is a generalized inablilty of public and private sector obligors to meet their external debt obligations on a timely basis because of a lack of, or restraints on the availability of, needed foreign exchange in the country; and

(2) The terms of the existing loan are amended to reduce stated interest or extend the schedule of payments; or

(3) A new loan is made to, or for the benefit of, the borrower, enabling the borrower to service or refinance the existing debt.

3. Part 20 is amended by adding a new § 20.9 to read as follows:

§ 20.9 Accounting for fees on international loans.

(a) *Restrictions on fees for restructured international loans.* No banking institution shall charge any fee in connection with a restructured international loan unless all fees

exceeding the banking institution's administrative costs, as described in paragraph (c)(2) of this section, are deferred and recognized over the term of the loan as an interest yield adjustment.

(b) *Amortizing fees.* Except as otherwise provided by this section, fees received on international loans shall be deferred and amortized over the term of the loan. The interest method should be used during the loan period to recognize the deferred fee revenue in relation to the outstanding loan balance. If it is not practicable to apply the interest method during the loan period, the straight-line method shall be used.

(c) *Accounting treatment of international loan or syndication administrative costs and corresponding fees.* (1) Administrative costs of originating, restructuring, or syndicating an international loan shall be expensed as incurred. A portion of the fee income equal to the banking institution's administrative costs may be recognized as income in the same period such costs are expensed.

(2) The administrative costs of originating, restructuring, or syndicating an international loan include those costs which are specifically identified with negotiating, processing and consummating the loan. These costs include, but are not necessarily limited to: Legal fees; costs of preparing and processing loan documents; and an allocable portion of salaries and related benefits of employees engaged in the international lending function and, where applicable, the syndication function. No portion of supervisory and administrative expenses or other indirect expenses such as occupancy and other similar overhead costs shall be included.

(d) *Fees received by managing banking institutions in an international syndicated loan.* Fees received on international syndicated loans representing an adjustment of the yield on the loan shall be recognized over the loan period using the interest method. If the interest yield portion of a fee received on an international syndicated loan by a managing banking institution is unstated or differs materially from the pro rata portion of fees paid other participants in the syndication, an amount necessary for an interest yield adjustment shall be recognized. This amount shall at least be equivalent (on a pro rata basis) to the largest fee received by a loan participant in the syndication that is not a managing banking institution. The remaining portion of the syndication fee may be recognized as income at the loan closing date to the extent that it is identified and documented as compensation for services in arranging the loan. Such documentation shall include the loan agreement. Otherwise, the fee shall be deemed an adjustment of yield.

(e) *Loan commitment fees.* (1) Fees which are based upon the unfunded portion of a credit for the period until it is drawn and represent compensation for a binding commitment to provide funds or for rendering a service in issuing the commitment shall be recognized as income over the term of the commitment period using the straight-line method of amortization. Such fees for revolving credit arrangements, where the fees are received periodically in arrears and are based on the amount of the unused loan commitment, may be recognized as income when received provided the income result would not be materially different.

(2) If it is not practicable to separate the commitment portion from other components of the fee, the entire fee shall be amortized over the term of the combined commitment and expected loan period. The straight-line method of amortization should be used during the commitment period to recognize the fee revenue. The interest method should be used during the loan period to recognize the remaining fee revenue in relation to the outstanding loan balance. If the loan is funded before the end of the commitment period, any unamortized commitment fees shall be recognized as revenue at that time.

(f) *Agency fees.* Fees paid to an agent banking institution for administrative services in an international syndicated loan shall be recognized at the time of the loan closing or as the service is performed, if later.

Dated: March 22, 1984.

H. Joe Selby,

Acting Comptroller of the Currency.

FEDERAL RESERVE SYSTEM

Regulation K

[Docket No. R-0509]

PART 211—[AMENDED]

Pursuant to the Board's authority under sections 9, 25 and 25(a) of the Federal Reserve Act (12 U.S.C. 221 *et seq.*, 601–604a, and 611 *et seq.)*, section 5 of the Bank Holding Company Act (12 U.S.C. 1844) and section 906 of the International Lending Supervision Act of 1983 (12 U.S.C. 3905), the Board has amended 12 CFR Part 211, Subpart D, as follows:

1. By redesignating paragraph § 211.42(d) as 211.42(h) and by adding new paragraphs § 211.42 (d), (e), (f) and (g), to read as follows:

§ 211.42 Definitions.

* * * * *

(d) "International loan" means a loan as defined in the instructions to the "Report of Condition and Income" for the respective banking institution (FFIEC Nos. 031, 032, 033 and 034) and made to a foreign government, or to an individual, a corporation, or other entity not a citizen of, resident in, or organized or incorporated in the United States.

(e) "International syndicated loan" means a loan characterized by the formation of a group of "managing" banking institutions and, in the usual case, assumption by them of underwriting commitments and participation in the loan by other banking institutions.

(f) "Loan agreement" means the documents signed by all of the parties to a loan, containing the amount, terms and conditions of the loan, and the interest and fees to be paid by the borrower.

(g) "Restructed international loan" means a loan that meets the following criteria:

(1) The borrower is unable to service the existing loan according to its terms and is a resident of a foreign country in which there is a generalized inability of public and private sector obligors to meet their external debt obligations on a timely basis because of a lack of, or restraints on the availability of, needed foreign exchange in the country; and

(2) the terms of the existing loan are amended to reduce stated interest or extend the schedule of payments; or

(3) a new loan is made to, or for the benefit or, the borrower, enabling the borrower to service or refinance the existing debt.

* * * * *

2. By adding a new section 211.45, to read as follows:

§ 211.45 Accounting for fees on international loans.

(a) *Restrictions on fees for restructured international loans.* No banking institution shall charge any fee in connection with a restructured international loan unless all fees exceeding the banking institution's administrative costs, as described in paragraph (c)(2) of this section, are deferred and recognized over the term of the loan as an interest yield adjustment.

(b) *Amortizing fees.* Except as otherwise provided by this section, fees received on international loans shall be deferred and amortized over the term of the loan. The interest method should be used during the loan period to recognize the deferred fee revenue in relation to the outstanding loan balance. If it is not practicable to apply the interest method

during the loan period, the straight-line method shall be used.

(c) *Accounting treatment of international loan or syndication administrative costs and corresponding fees.* (1) Administrative costs of originating, restructuring or syndicating an international loan shall be expensed as incurred. A portion of the fee income equal to the banking institution's administrative costs may be recognized as income in the same period such costs are expensed.

(2) The administrative costs of originating, restructuring, or syndicating an international loan include those costs which are specifically identified with negotiating, processing and consummating the loan. These costs include, but are not necessarily limited to: legal fees; costs of preparing and processing loan documents; and an allocable portion of salaries and related benefits of employees engaged in the international lending function and, where applicable, the syndication function. No portion of supervisory and administrative expenses or other indirect expenses such as occupancy and other similar overhead costs shall be included.

(d) *Fees received by managing banking institutions in an international syndicated loan.* Fees received on international syndicated loans representing an adjustment of the yield on the loan shall be recognized over the loan period using the interest method. If the interest yield portion of a fee received on an international syndicated loan by a managing banking institution is unstated or differs materially from the pro rata portion of fees paid other participants in the syndication, an amount necessary for an interest yield adjustment shall be recognized. This amount shall at least be equivalent (on a pro rata basis) to the largest fee received by a loan participant in the syndication that is not a managing banking institution. The remaining portion of the syndication fee may be recognized as income at the loan closing date to the extent that it is identified and documented as compensation for services in arranging the loan. Such documentation shall include the loan agreement. Otherwise, the fee shall be deemed an adjustment of yield.

(e) *Loan commitment fees.* (1) Fees which are based upon the unfunded portion of a credit for the period until it is drawn and represent compensation for a binding commitment to provide funds or for rendering a service in issuing the commitment shall be recognized as income over the term of the commitment period using the straight-line method of amortization. Such fees for revolving credit arrangements, where the fees are received periodically in arrears and are based on the amount of the unused loan commitment, may be recognized as income when received provided the income result would not be materially different.

(2) If it is not practicable to separate the commitment portion from other components of the fee, the entire fee shall be amortized over the term of the combined commitment and expected loan period. The straight-line method of amortization should be used during the commitment period to recognize the fee revenue. The interest method should be used during the loan period to recognize the remaining fee revenue in relation to the outstanding loan balance. If the loan is funded before the end of the commitment period, any unamortized commitment fees shall be recognized as revenue at that time.

(f) *Agency fees.* Fees paid to an agent banking institution for administrative services in an international syndicated loan shall be recognized at the time of the loan closing or as the service is performed, if later.

Board of Governors of the Federal Reserve System, March 26, 1984

William W. Wiles,

Secretary of the Board.

FEDERAL DEPOSIT INSURANCE CORPORATION

In consideration of the foregoing, the FDIC hereby amends Part 351 of its rules and regulations (12 CFR Part 351) by adding a new § 351.2 thereto.

PART 351—[AMENDED]

1. The authority citation for 12 CFR Part 351 is as follows:

Authority: Title 1X, Pub. L. 98–181, 97 Stat. 1153, 12 U.S.C. 3901 *et seq.*

2. Part 351 is amended by adding a new section 351.2 as follows:

§ 351.2 Accounting for fees on international loans.

(a) *Definitions.* For the purpose of this subpart:

(1) "International loan" means a loan as defined in the instructions to the "Report of Condition and Income" for the respective banking institution (FFIEC Nos. 031, 032, 033 and 034) and made to a foreign government, or to an individual, a corporation, or other entity not a citizen of, resident in, or organized or incorporated in the United States.

(2) "International syndicated loan" means a loan characterized by the formation of a group of "managing" banking institutions and, in the usual case, assumption by them of underwriting commitments and participation in the loan by other banking institutions.

(3) "Loan agreement" means the documents signed by all of the parties to a loan, containing the amount, terms and conditions of the loan, and the interest and fees to be paid by the borrower.

(4) "Restructured international loan" means a loan that meets the following criteria: (i) The borrower is unable to service the existing loan according to its terms and is a resident of a foreign country in which there is a generalized inability of public and private sector obligors to meet their external debt obligations on a timely basis because of a lack of, or restraints on the availability of, needed foreign exchange in the country; and either (ii) the terms of the existing loan are amended to reduce stated interest or extend the schedule of payments; or (iii) a new loan is made to, or for the benefit of, the borrower, enabling the borrower to service or refinance the existing debt.

(b) *Restrictions on fees for restructured international loans.* No banking institution shall charge any fee in connection with a restructured loan unless all fees exceeding the banking institution's administrative costs, as described in subsection (d)(2) of this section, are deferred and recognized over the term of the loan as an interest yield adjustment.

(c) *Amortizing fees.* Except as otherwise provided by this section, fees received on international loans shall be deferred and amortized over the term of the loan. The interest method should be used during the loan period to recognize the deferred fee revenue in relation to the outstanding loan balance. If it is not practicable to apply the interest method during the loan period, the straight-line method shall be used.

(d) *Accounting treatment of international loan or syndication administrative costs and corresponding fees.* (1) Administrative costs of originating, restructuring, or syndicating an international loan shall be expensed as incurred. A portion of the fee income equal to the banking institution's administrative costs may be recognized as income in the same period such costs are expensed.

(2) The administrative costs of originating, restructuring, or syndicating an international loan include those costs which are specifically identified with negotiating, processing and consummating the loan. These costs include, but are not necessarily limited to: legal fees; costs of preparing and processing loan documents; and an allocable portion of salaries and related

benefits of employees engaged in the international lending function and, where applicable, the syndication function. No portion of supervisory and administrative expenses or other indirect expenses such as occupancy and other similar overhead costs shall be included.

(e) *Fees received by managing banking institutions.* Fees received on international syndicated loans representing an adjustment of the yield on the loan shall be recognized over the loan period using the interest method. If the interest yield portion of a fee received on an international syndicated loan by a managing banking institution is unstated or differs materially from the pro rata portion of fees paid other participants in the syndication, an amount necessary for an interest yield adjustment shall be recognized. This amount shall at least be equivalent (on a pro rata basis) to the largest fee received by a loan participant in the syndication that is not a managing banking institution. The remaining portion of the syndication fee may be recognized as income at the loan closing date to the extent that it is identified and documented as compensation for services in arranging the loan. Such documentations shall include the loan agreement. Otherwise, the fee shall be deemed an adjustment of yield.

(f) *Loan commitment fees.* (1) Fees which are based upon the unfunded portion of a credit for the period until it is drawn and represent compensation for a binding commitment to provide funds or for rendering a service in issuing the commitment shall be recognized as income over the term of the commitment period using the straight-line method of amortization. Such fees for revolving credit arrangements, where the fees are received periodically in arrears and are based on the amount of the unused loan commitment, may be recognized as income when received provided the income result would not be materially different.

(2) If it is not practicable to separate the commitment portion from other components of the fee, the entire fee shall be amortized over the term of the combined commitment and expected loan period. The straight-line method of amortization should be used during the commitment period to recognize the fee revenue. The interest method should be used during the loan period to recognize the remaining fee revenue in relation to the outstanding loan balance. If the loan is funded before the end of the commitment period, any unamortized commitment fees shall be recognized as revenue at that time.

(g) *Agency fees.* Fees paid to an agent banking institution for administrative services in an international syndicated loan shall be recognized at the time of the loan closing or as the service is performed, if later.

Dated: March 26, 1984.

By Order of the Board of Directors.

Hoyle L. Robinson,

Executive Secretary, Federal Deposit Insurance Corporation.

BILLING CODES 4810-33, 6210-01, 6714-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 84-NM-15-AD; Amdt. 39-4833]

Airworthiness Directives; Short Brothers Ltd. Model SD3-30 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds a new airworthiness directive (AD) applicable to certain Short Brothers Ltd. Model SD3-30 series airplanes which requires insulating the body of certain line contactors on the electrical power panels. There have been several incidents of short circuits, including one in which severe damage occurred. This action is necessary to prevent short circuits which could cause a fire.

EFFECTIVE DATE: April 9, 1984.

ADDRESSES: The service bulletin specified in this AD may be obtained upon request to Shorts Aircraft, 1725 Jefferson Davis Highway, Suite 510, Arlington, Virginia 22202, or may be examined at the address shown below.

FOR FURTHER INFORMATION CONTACT: Mr. Harold N. Wantiez, Foreign Aircraft Certification Branch, ANM-150S, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington, telephone (206) 431-2977. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: The Civil Aviation Authority of the United Kingdom (CAA) has classified Short Brothers Ltd. Service Bulletin SD3-24-18 as mandatory. There have been several reported cases of a short circuit occurring between a live contact and contactor body on the electrical power panels. Extensive damage resulted when a contactor end cap failed and the live contact touched the contactor body. Arcing, which accompanied the short circuit, resulted in a fire. The service bulletin requires that the body of the line contactor be insulated.

This airplane model is manufactured in the United Kingdom and type certificated in the United States under the provisions of Section 21.29 of the Federal Aviation Regulations and the applicable airworthiness bilateral agreement.

Since this condition is likely to exist or develop on airplanes of this model registered in the United States, the FAA has determined that an AD is necessary which requires insulating the body of line contactors on the electrical power panels.

Further, since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

Adoption of the Amendment

PART 39—[AMENDED]

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

Short Brothers Ltd.: Applies to Model SD3-30 series airplanes as listed in Short Brothers Ltd. Service Bulletin SD3-24-18 dated November 1983, certificated in all categories. Compliance is required as indicated unless previously accomplished. To prevent short circuiting of the ECE141CC01A line contactor, accomplish the following:

A. Within the next 60 days or 300 hours time in service, whichever occurs first after the effective date of this AD, modify the ECE141CC01A line contactor on the 1C and 2C panels in accordance with Short Brothers Ltd., Service Bulletin SD3-24-18 dated November 1983.

B. Alternate means of compliance which provide an equivalent level of safety may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

C. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base for the accomplishment of inspections and/or modifications required by this AD.

This amendment becomes effective April 9, 1984.

(Sections 313(a), 314(a), 601 through 610, and 1102 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 through 1430, and 1502); 49 U.S.C. 106(g) (Revised, Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (445 FR 11034; February 26, 1979), and if this action is subsequently determined to involve a significant/major regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation or analysis is not required). A copy of it, when filed, may be obtained by contacting the person identified under the caption **"FOR FURTHER INFORMATION CONTACT."**

Issued in Seattle, Washington, on March 19, 1984.

Wayne J. Barlow,

Acting Director, Northwest Mountain Region.

[FR Doc. 84-8378 Filed 3-28-84; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 84-NM-17-AD; Amdt. 39-4834]

Airworthiness Directives; Messerschmitt-Bolkow-Blohm GmbH HFB-320 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds a new airworthiness directive (AD) applicable to certain HFB-320 airplanes which requires a one-time inspection of the stabilizer/elevator outboard bearing housing fittings for cracks. Cracked fittings have been discovered on several airplanes in service. This action is necessary to prevent failure of the fitting which could result in loss of elevator control.

EFFECTIVE DATE: April 9, 1984.

ADDRESSES: The service bulletin specified in this AD may be obtained upon request to Messerschmitt-Bolkow-Blohm GmbH, Unternehmensbereich, Transport Und Verkehrsflugzeuge, TV 454, 2874 Lemwerder (01db), Germany, or may be examined at the address shown below.

FOR FURTHER INFORMATION CONTACT: Mr. Harold N. Wantiez, Foreign Aircraft Certification Branch, ANM-150S, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington, telephone (206) 431-2977. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: The Luftfahrt-Bundesamt (LBA), which is the airworthiness authority for West Germany, has classified Messerschmitt-Bolkow-Blohm GmbH HFB-320 Service Bulletin 55-8 as mandatory. Cracks have been discovered in the stabilizer/elevator outboard bearing housing fittings on some HFB-320 airplanes. The cracks may result from excessive clamp-up forces, and can compromise the structural integrity of the fitting. The service bulletin requires a one-time inspection of the fittings and the installation of new fittings if cracks are discovered which are beyond certain limits.

This airplane model is manufactured in Germany and type certificated in the United States under the provisions of § 21.29 of the Federal Aviation Regulations and the applicable airworthiness bilateral agreement.

Since this condition is likely to exist or develop on airplanes of this model registered in the United States, the FAA has determined that an AD is necessary which requires the inspection and eventual replacement of all cracked fittings regardless of crack length.

Further, since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

Messerschmitt-Bolkow-Blohm GmbH: Applies to HFB-320 airplanes as listed in HFB-320 Service Bulletin 55-8 dated September 14, 1983, certificated in all categories. Compliance is required as indicated unless previously accomplished. To prevent failure of the stabilizer/elevator outboard bearing housing fittings accomplish the following:

A. Within the next 25 hours time in service or 45 days after the effective date of this AD, whichever occurs first, perform a one-time inspection of the stabilizer/elevator outboard bearing housing fittings in accordance with HFB-320 Service Bulletin 55-8 dated September 14, 1983. Fittings with cracks greater than 0.79 inches must be replaced prior to further flight. Fittings cracked 0.79 inches or less must be stop drilled per the service bulletin, but also must be replaced within six months.

B. Alternate means of compliance which provide an equivalent level of safety may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

C. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base for the accomplishment of inspections and/or modifications required by this AD.

This amendment becomes effective April 9, 1984.

(Secs. 313(a), 314(a), 601 through 610, and 1102 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 through 1430, and 1502); 49 U.S.C. 106(g) (Revised, Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), and if this action is subsequently determined to involve a significant/major regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation or analysis is not required). A copy of it, when filed, may be obtained by contacting the person identified under the caption **"FOR FURTHER INFORMATION CONTACT."**

Issued in Seattle, Washington on March 19, 1984.

14 CFR Part 39

[Docket No. 84-NM-14-AD; Amdt. 39-4836]

Airworthiness Directives; (NAMC) Nihon Airplane Manufacturing Company, YS-11/-11A Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds a new airworthiness directive (AD) applicable to certain NAMC YS-11/-11A series airplanes fitted with a main deck cargo door, which requires a modification of the cargo door handle locking mechanism. There have been three

incidents reported in which the door opened during flight. Modification is required to prevent inadvertent opening of the door in flight.

EFFECTIVE DATE: April 9, 1984.

ADDRESSES: The service bulletin specified in this AD may be obtained upon request to Mitsubishi Heavy Industries, Ltd., No. 10 Oye-cho, Minato-ku, Nagoya, Japan, or may be examined at the address shown below.

FOR FURTHER INFORMATION CONTACT: Mr. H. N. Wantiez, Foreign Aircraft Certification Branch, ANM–150S, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington, telephone (206) 431–2977. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C–68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: The Japanese Civil Aviation Bureau (JCAB) has issued an AD which requires mandatory compliance with NAMC Service Bulletin 52–92. Three incidents have occurred in which the main deck cargo door inadvertently opened during flight. The service bulletin requires modifications to the main cargo door handle lock mechanism to ensure that the locking mechanism is properly engaged.

This airplane model is manufactured in Japan and type certificated in the United States under the provisions of § 21.29 of the Federal Aviation Regulations and the applicable airworthiness bilateral agreement.

Since this condition is likely to exist or develop on airplanes of this model registered in the United States, the FAA has determined that an AD is necessary which requires modification of the main cargo door locking mechanism in accordance with the service bulletin. Further, since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

NAMC: Applies to all model NAMC YS–11/–11A series airplanes fitted with a main deck cargo door certificated in all categories. To prevent inadvertent opening of the main deck cargo door during flight, accomplish the following, unless already accomplished:

A. Within 450 flight hours time in service or 90 days after the effective date of this AD, whichever occurs first, modify the main cargo door handle lock mechanism in accordance with NAMC YS–11 Service Bulletin 52–92, Revision 1, dated September 29, 1983.

B. Alternate means of compliance which provide an equivalent level of safety may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

C. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base for the accomplishment of inspections and/or modifications required by this AD.

This amendment becomes effective April 9, 1984.

(Secs. 313(a), 314(a), 601 through 610, and 1102 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 through 1430, and 1502); 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), and if this action is subsequently determined to involve a significant/major regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation or analysis is not required). A copy of it, when filed, may be obtained by contacting the person identified under the caption "**FOR FURTHER INFORMATION CONTACT.**"

Issued in Seattle, Washington, on March 20, 1984.

Charles R. Foster,

Director, Northwest Mountain Region.

[FR Doc. 84–8374 Filed 3–28–84; 8:45 am]

BILLING CODE 4910–13–M

---

14 CFR Part 39

[Docket No. 84–NM–16–AD; Amdt. 39–4835]

Airworthiness Directives; Short Brothers Ltd. Model SD3–60 Series Airplanes

AGENCY: Federal Aviation Agency (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds a new airworthiness directive (AD) applicable to certain Short Brothers Ltd. Model SD3–60 series airplanes which requires installation of additional mass balance weights on the elevator tab and elevator. The necessity for this action was demonstrated during an evaluation by the manufacturer, which showed that, with the present design, an elevator tab drive failure will result in an unacceptable vibration level.

EFFECTIVE DATE: April 9, 1984.

ADDRESSES: The service bulletin specified in this AD may be obtained upon request to Shorts Aircraft, 1725 Jefferson Davis Highway, Suite 510, Arlington, Virginia 22202, or may be examined at the address shown below.

FOR FURTHER INFORMATION CONTACT: Mr. Harold N. Wantiez, Foreign Aircraft Certification Branch, ANM–150S, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington, telephone (206) 431–2977. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C–68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: The Civil Aviation Authority of the United Kingdom (CAA) has classified Short Brothers Ltd. Service Bulletin SD360–55–02 as mandatory. Evaluation by the manufacturer has shown that in the event of an elevator tab drive failure, an unacceptable level of vibration will occur. The service bulletin requires the installation of additional mass balance weights on the elevator and tab to eliminate this vibration in the event of a tab drive system failure.

This airplane model is manufactured in the United Kingdom and type certificated in the United States under the provisions of Section 21.29 of the Federal Aviation Regulations and the applicable airworthiness bilateral agreement.

Since this condition is likely to exist or develop on airplanes of this model registered in the United States, the FAA has determined that an AD is necessary which requires the installation of the additional mass balance weights.

Further, since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation

Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

Short Brothers Ltd.: Applies to SD3–60 airplanes as listed in Short Brothers Service Bulletin SD360–55–02, dated November 1983, certificated in all categories. Compliance is required as indicated unless previously accomplished. To prevent vibration in the event of an elevator tab drive system failure, accomplish the following:

A. Within 60 days after the effective date of this AD, modify the elevator and elevator tab mass balance weights in accordance with Short Brothers Ltd. Service Bulletin SD360–55–02 dated November 1983.

B. Alternate means of compliance which provide an equivalent level of safety may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

C. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base for the accomplishment of inspections and/or modifications required by this AD.

This amendment becomes effective April 9, 1984.

(Secs. 313(a), 314(a), 601 through 610, and 1102 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 through 1430, and 1502); 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), and if this action is subsequently determined to involve a significant/major regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation or analysis is not required). A copy of it, when filed, may be obtained by contacting the person identified under the caption "**FOR FURTHER INFORMATION CONTACT.**"

Issued in Seattle, Washington on March 20, 1984.

Charles R. Foster,

Director, Northwest Mountain Region.

BILLING CODE 4910-13-M

[Docket No. 23950; Amdt. No. 1265]

14 CFR Part 97

Air Traffic and General Operating Rules, Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

EFFECTIVE DATE: An effective date for each SIAP is specified in the amendatory provisions.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591;

2. The FAA Regional Office of the region in which the affected airport is located; or

3. The Flight Inspection Field Office which originated the SIAP.

For Purchase—Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA–430), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

FOR FURTHER INFORMATION CONTACT: Donald K. Funai, Flight Procedures Standards Branch (AFO–230), Air Transportation Division, Office of Flight Operations, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426–8277.

SUPPLEMENTARY INFORMATION: This amendment to Part 97 of the Federal Aviation Regulations (14 CFR Part 97) prescribes new, amended, suspended, or revoked Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA from documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR Part 51, and § 97.20 of the Federal Aviation Regulations (FARs). The applicable FAA Forms are identified as FAA Forms 8260–3, 8260–4 and 8260–5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format makes their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form document is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to Part 97 is effective on the date of publication and contains separate SIAPs which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs is unnecessary, impracticable, and

contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

Charlottesville, VA—Charlottesville-Albemarle, RNAV RWY 3, Amdt. 3

(Secs. 307, 313(a), 601, and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348, 1354(a), 1421, and 1510); 49 U.S.C. 106(g) (Revised, Pub. L. 97-449, January 12, 1983); and 14 CFR 11.49(b)(3))

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Note.—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

Issued in Washington, D.C., on March 30, 1984.

Kenneth S. Hunt,

Director of Flight Operations.

[FR Doc. 84-8380 Filed 3-28-84; 8:45 am]

BILLING CODE 4910-13-M

SECURITIES AND EXCHANGE COMMISSION

17 CFR Parts 200 and 201

[Release No. 34-20783; IC-13839; IA-903; File No. S7-1001]

Applications by Barred Individuals for Consent to Associate With a Registered Broker, Dealer, Municipal Securities Dealer, Investment Adviser or Investment Company

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Securities and Exchange Commission (the "Commission") has adopted a new Rule of Practice, 17 CFR 201.29 ("Rule 29"), that sets forth the procedures to be followed by certain individuals who are barred by Commission order, and thereafter submit an application to the Commission for consent to associate, or to change the terms and conditions of association, with a registered broker, dealer, municipal securities dealer, investment adviser, or investment company ("registered entities"). Rule 29 clarifies policies and practices relating to applications by such individuals.

EFFECTIVE DATE: April 30, 1984.

FOR FURTHER INFORMATION CONTACT: Mary A. Binno (202) 272-2318, Office of Chief Counsel, Division of Enforcement, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, D.C. 20549.

SUPPLEMENTARY INFORMATION: A number of provisions of the Securities Exchange Act of 1934 ("Exchange Act") authorize the Commission to institute administrative proceedings and impose sanctions against a person associated with a broker-dealer or municipal securities dealer if such person has engaged in certain acts or omissions, has been convicted of particular offenses, or has been enjoined from specified acts.[1] Among the remedial sanctions which may be imposed against such persons is a bar from being associated with a broker-dealer or municipal securities dealer.[2] The Commission has similar disciplinary authority over members of, and participants in, self-regulatory organizations ("SROs"),[3] persons associated with investment advisers, and certain affiliated persons and principal underwriters of registered investment companies.[4] When the Commission issues an order barring an individual from association with a registered entity, it is unlawful for that person to be, or to become, so associated without the consent of the Commission.[5]

In addition to direct regulation of registered entities by the Commission, the statutory scheme for regulation of the securities industry contemplates self-regulation through SROs. For example, Section 6 of the Exchange Act requires a commitment by an exchange to discipline members for conduct inconsistent with "just and equitable principles of trade," the provisions of the Exchange Act and the rules and regulations thereunder, and the rules of the exchange.[6] The same general approach applies to registered securities associations [7] and registered clearing agencies.[8] Additionally, a national securities exchange,[9] registered securities association,[10] or registered clearing agency,[11] may bar any person from association with a member of the SRO if that person is "subject to a statutory disqualification."[12] When an individual is "subject to a statutory disqualification", he or she must seek the consent of the SRO before associating with a member of that SRO.[13]

Most applicants, the majority of whom seek to associate with registered broker-dealers, apply for consent to associate with the assistance of their prospective employer through the employer's SRO. These applications are processed pursuant to Exchange Act Rule 19h-1 (17 CFR 240.19h-1) ("Rule 19h-1"). However, a number of applicants seek to become associated with an entity that is not a member of an SRO and must apply directly to the Commission, or, because of the wording of a Commission bar order, are permitted to apply directly to the Commission for consent to associate. New Rule 29 of the Commission's Rules of Practice [14] sets forth steps to be followed with respect to applications made directly to the Commission for consent to associate, or to change the terms and conditions of association.[15]

The Commission solicited public comment on Rule 29 in Release No. 34-20393 (November 18, 1983), 48 FR 54039 (November 30, 1983). No comment letters were received. The Commission has determined to adopt the Rule as proposed.

Applications which may be made under Rule 29 include applications by individuals barred pursuant to

---

[1] *See, e.g.*, Exchange Act section 15(b)(6) and 15B(c)(4), 15 U.S.C. 78*o*(b)(6) and 78*o*-4(c)(4), respectively.

[2] *Id.*

[3] As defined by Exchange Act § 3(3)(26), 15 U.S.C. 78c(a)(26), an SRO is any national securities exchange, registered securities association, or registered clearing agency.

[4] Exchange Act § 19(h), 15 U.S.C. 78s(h); Investment Advisers Act of 1940 ("Advisers Act") section 203(f), 15 U.S.C. 80b-3(f); Investment Company Act of 1940 ("Investment Company Act") section 9(b), 15 U.S.C. 80a-9(b).

[5] *See* note 1, *supra.*

[6] Exchange Act section 6(b) (1) and (5), 15 U.S.C. 78f(b) (1) and (5).

[7] Exchange Act section 15A(b) (2) and (6), 15 U.S.C. 78*o*-3(b) (2) and (6).

[8] Exchange Act section 17A(b)(4)(A), 15 U.S.C. 78q-1(b)(4)(A).

[9] Exchange Act section 6(c)(2), 15 U.S.C. 78f(c)(2).

[10] Exchange Act section 15A(g)(2), 15 U.S.C. 78*o*-3(g)(2).

[11] Exchange Act section 17A(b)(4)(A), 15 U.S.C. 78q-1(b)(4)(A).

[12] *See* Exchange Act section 3(a)(39), 15 U.S.C. 78c(a)(39); among other disqualifications, this section includes the existence of a present suspension or bar from association with SRO members, a Commission order barring the individual's association with a registered entity, and those situations described in Exchange Act section 15(b)(4) (B) through (E), 15 U.S.C. 78*o*(b)(4)(B)-(E). For purposes of determining whether a person is subject to a statutory disqualification under Exchange Act sections 6(c)(2), 15(A)(g)(2), or 17A(b)(4)(B), the term "Commission" in Exchange Act § 15(b)(4)(B) means "exchange", "association", or "clearing agency", respectively. *See* Exchange Act section 15(b)(10), 15 U.S.C. 78*o*(b)(10).

[13] *See* notes 8, 9 and 10, *supra.*

[14] 17 CFR 201.1-201.29.

[15] Applications that are governed by Rule 29 previously were subject to the guidelines announced by the Commission in Exchange Act Release No. 11267 (February 26, 1975).

Investment Company Act Section 9(b).[16] However, they should not be confused with applications under Rule 19h–1 or investment Company Act Section 9(c).[17] Rule 19h–1 permits application by individuals subject to a broader range of disqualifications and specifies appropriate procedures for applications thereunder.[18] Under the Rule 19h–1 process, the Commission reviews SRO determinations on such applications. Investment Company Act Section 9(c) applies only to persons who are ineligible to serve in certain positions in connection with investment companies by reason of certain misdemeanor or felony convictions or injunctions by a court of competent jurisdiction.[19]

I. Relief Obtained Through Applications for Consent

Once an individual is barred by a Commission order from the securities business or some aspect thereof, it is unlawful for him or her to become associated with a registered entity without the consent of the Commission.[20] Commission approval of an application for consent to associate, however, does not modify or vacate the Commission order nor does it remove or lift the bar; the order and bar remain in effect.[21]

Accordingly, if the individual does not comply with the terms or conditions under which his or her application was approved, the individual is in violation of the Commission's order and the Commission may take appropriate enforcement action.[22]

Commission approval of an application for consent to associate, or to change the terms and conditions of association, with a registered entity should not be construed to be consent by an SRO for the individual to associate with one of its members. That consent must be given by the particular SRO.

II. Procedural Channels for Individuals Barred by Commission Order

For those barred individuals who seek to associate with a broker-dealer, an application for consent to associate, or to change the terms and conditions of association, must be submitted by the individual's prospective employer to the employer's SRO. In those cases where the SRO gives its consent, and the Commission does not veto that action pursuant to the provisions of Rule 19h–1, the Commission gives: (a) Consent to the SRO to permit the individual to associate with a member of the SRO, notwithstanding his or her disqualification; and (b) consent to the individual to associate with an entity registered with the Commission.

Direct application to the Commission pursuant to Rule 29 *may* be utilized where the individual has been barred by Commission order and seeks to associate, or to change the terms and conditions of association, with a broker-dealer that is a member of an SRO, provided that the order states that application may be made "to the Commission" after a specified period of time.[23] Rule 29 provides that individuals subject to such orders may elect either: (a) To have the prospective employer apply to the employer's SRO, subject to Commission review under Rule 19h–1; or (b) to apply directly to the Commission pursuant to Rule 29 and, if the Commission approves the application, thereafter to the appropriate SRO. An application pursuant to the Rule 19h–1 process would eliminate the necessity for two separate applications which require substantially the same information.[24]

Applications by those barred individuals who seek to associate with an investment adviser, investment company, or other entity that is not a member of an SRO, should be submitted directly to the Commission pursuant to Rule 29.

III. Delegation of Authority

Currently, the Commission's rules governing delegation of authority to the Director of the Division of Enforcement (the "Director") authorize the Director to approve applications by barred individuals, who have previously been granted Commission consent to associate, to change employers, provided that the conditions of the new employment are substantially similar to those of the previously approved employment.[25] In order to expedite the processing of all direct applications for consent to associate, the Commission is amending its rules to authorize the Director to approve or deny applications made pursuant to Rule 29. Notwithstanding this delegation, in any case where the Director believes it appropriate, the matter may be submitted to the Commission.[26] In the event that the Director denies an application for consent to associate, the applicant will be notified that the denial may be appealed to the Commission for review pursuant to Rule 26 of the Commission's Rules of Practice, provided, however, that the notice of intention to petition for review required of the applicant by that rule may be communicated within the shorter of (a) ten days after the receipt of actual notice of the denial or (b) fifteen days after mailing of the notice of denial.[27]

IV. Regulatory Flexibility Act

A copy of the Regulatory Flexibility Act certification was previously published in Release No. 34–20393 (November 18, 1983), 48 FR 54039 (November 30, 1983).

List of Subjects in Parts 200 and 201

Administrative practice and procedure, Freedom of Information, Investigations, Privacy, Securities.

V. Text of Revised Rule 200.30–4 and Rule 29

Title 17, Chapter II of the Code of Federal Regulations is amended as follows:

PART 200—ORGANIZATIONS; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

1. By revising paragraph (a)(5) of § 200.30–4 as follows:

---

[16] 15 U.S.C. 80a–9(b).

[17] 15 U.S.C. 80a–9(c).

[18] Rule 19h–1 permits application by individuals subject to an "applicable disqualification", defined to include not only Commission bar orders but also any conviction or injunction under Exchange Act section 15(b)(4) (B) or (C), 15 U.S.C. 78*o*(b)(4) (B) and (C), and a failure to meet certain qualification standards under Rule G–4 of the Municipal Securities Rulemaking Board. *See* Rule 19h–1(f).

[19] Any person who seeks an exemption from the provisions of Investment Company Act section 9(a), 15 U.S.C. 80a–9(a), should continue to file an application pursuant to Investment Company Act section 9(c), 15 U.S.C. 80a–9(c). Investment Company Act Rules 2 and 5, 17 CFR 270. 0–2 and 0–5, set forth the procedures with respect to such applications.

[20] Exchange Act sections 15(b)(6) and 15B(c)(4), 15 U.S.C. 78*o*(b)(6) and 78*o*–4(c)(4); Investment Advisers Act section 203(f), 15 U.S.C. 80b–3(f); *see also* Investment Company Act section 9, 15 U.S.C. 80a–9.

[21] Commission approval of an application is limited to association in a specified capacity with a particular registered entity and is subject to specific terms and conditions. If any of the individual's duties or responsibilities vary materially from the terms and conditions under which the application was approved, or if he or she seeks to become associated with another registered entity, a new application must be submitted.

[22] *See, e.g.*, Exchange Act section 21(e), 15 U.S.C. 78u(e); Advisers Act section 209(e), 15 U.S.C. 80b–9(e); Investment Company Act section 42(e), 15 U.S.C. 80a–41(e).

[23] In those cases where the Commission bar order specifies that a person may apply for consent to associate after a specified period of time, the Commission generally will grant the application upon a proper showing made after expiration of the specified period of time.

[24] The Commission has previously expressed a preference, where both it and the SROs have authority, for having applications for consent to associate presented first to the SRO concerned. *See*, Securities Exchange Act Release No. 18278 (November 20, 1981).

[25] 17 CFR 200.30–4(a)(5).

[26] 17 CFR 200.30–4(b).

[27] 17 CFR 201.28.

[1] The Phase I regulations are set forth in 18 CFR Part 282.

§ 200.30–4 Delegation of authority to Director of Division of Enforcement.

* * * * *

(a) * * *

(5) To grant or deny applications made pursuant to Rule 29 of the Commission's Rules of Practice (17 CFR 201.1–201.29), provided, that, in the event of a denial, the applicant shall be notified that such a denial may be appealed to the Commission for review.

* * * * *

The Commission finds, in accordance with 5 U.S.C. 553(b)(A) of the Administrative Procedure Act ("APA"), that the amendment of Rule 30–4(a)(5) relates solely to agency organization, procedure, or practice, and that notice and public procedure in accordance with the APA are not necessary. In addition, the Commission finds that the foregoing action does not impose any burden on competition.

PART 201—RULES OF PRACTICE

2. By adding § 201.29 as follows:

§ 201.29 Applications by barred individuals for consent to associate with registered brokers, dealers, municipal securities dealers, investment advisers or investment companies.

Preliminary Note

This rule governs applications by certain persons, barred by Commission order from association with entities registered with the Commission, for consent to become so associated. Applications made pursuant to this rule must show that the proposed association would be consistent with the public interest. In addition to the information specifically required by the rule, applications should be supplemented, where appropriate, by written statements of individuals (other than the applicant) who are competent to attest to the applicant's character, employment performance, and other relevant information. Intentional misstatements or omissions of fact may constitute criminal violations of 18 U.S.C. 1001 and other provisions of law.

The nature of the supervision that an applicant will receive or exercise as an associated person with a registered entity is an important matter bearing upon the issue of the public interest. In meeting the burden of showing that the proposed association is consistent with the public interest, the application and supporting documentation must demonstrate that the proposed supervision, procedures, or terms and conditions of employment, are reasonably designed to prevent a recurrence of the conduct that led to imposition of the bar. As an associated person, the applicant will be limited to association in a specified capcity with a particular registered entity and may also be subject to specific temrs and condtions.

Normally, the applicant's burden of demonstrating that the proposed association is consistent with the public interest will be difficult to meet where the applicant is to be supervised by, or is to supervise, another barred individual. In addition, where an applicant wishes to become the sole proprietor of a registered entity and, thus, is seeking Commission consent notwithstanding an absence of supervision, the applicant's burden will be difficult to meet.

In addition to the factors set forth in paragraph (d) of this rule, the Commission will consider the nature of the findings that resulted in the bar in determining whether the proposed association is consistent with the public interest. In this regard, attention is directed to Rule 5(e) of the Commission's Rules on Informal and Other Procedures. Among other things, Rule 5(e) sets forth the Commission's policy "not to permit a * * * respondent [in an administrative proceeding] to consent to * * * [an] order that imposes a sanction while denying the allegations in the * * * order for proceeding." Consistent with the rationale underlying that policy, and in order to avoid the appearance that an application made pursuant to this rule was granted on the basis of such denial, the Commission will not consider any application that attempts to re-argue or collaterally attack the findings that resulted in the Commission's bar order.

(a) *Scope of rule.* Applications for Commission consent to associate, or to change the terms and conditions of association, with a registered broker, dealer, municipal securities dealer, investment adviser, or investment company ("registered entities") may be made pursuant to this rule where a Commission order bars the individual from association with a registered entity and:

(1) Such barred individual seeks to become associated with an entity that is not a member of a self-regulatory organization; or

(2) The order contains a proviso that application may be made to the Commission after a specified period of time.

(b) *Form of application.* Each application shall be supported by an affidavit, manually signed by the applicant, which addresses the factors set forth in paragraph (d) of this rule. One original and four copies of the application shall be filed with the Office of the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549. Each application shall include as exhibits: (1) A copy of the Commission order imposing the bar; (2) an undertaking by the applicant immediately to notify the Commission in writing if any information submitted in support of the application, while pending, becomes materially false or misleading; (3) a copy of a completed Form U–4, where the applicant's proposed association is with a broker-dealer or municipal securities dealer; (4) a copy of a completed Form MSD–4, where the applicant's proposed association is with a bank municipal securities dealer; (5) the information required by Form ADV with respect to the applicant, where the applicant's proposed association is with an investment adviser; and (6) a written statement by the proposed employer that describes (i) the terms and conditions of employment and supervision to be exercised over such applicant and, where applicable, by such applicant; (ii) the qualifications, experience, and disciplinary records of the proposed supervisor(s) of the applicant; (iii) the compliance and disciplinary history, during the two years preceding the filing of the application, of the office in which the applicant will be employed; and (iv) the names of any other associated persons in the same office who have previously been barred by the Commission, and whether they are to be supervised by the applicant.

(c) *Required showing.* The applicant shall make a showing satisfactory to the Commission that the proposed association would be consistent with the public interest.

(d) *Factors to be addressed.* The affidavit required by paragraph (b) shall address each of the following:

(1) The time period which has elapsed since the imposition of the bar;

(2) Any restitution or similar action taken by the applicant to recompense any person injured by the misconduct that resulted in the bar;

(3) The applicant's compliance with the order imposing the bar;

(4) The applicant's employment during the period subsequent to imposition of the bar;

(5) The capacity or position in which the applicant proposes to be associated;

(6) The manner and extent of supervision to be exercised over such applicant and, where applicable, by such applicant;

(7) Any relevant courses, seminars, examinations or other actions completed by the applicant subsequent to imposition of the bar to prepare for his or her return to the securities business; and

(8) Any other information material to the application.

(e) *Notification to applicant and written statement.* In the event an adverse recommendation is proposed by the staff with respect to an application made pursuant to this rule, the applicant shall be so advised and provided with a written statement of the reasons for such recommendation. The applicant shall then have 30 days to submit a written statement in response.

(f) *Concurrent applications.* The Commission will not consider any application submitted pursuant to this rule, if any other application for consent to associate concerning the same applicant is pending before any self-regulatory organization.

VI. Statutory Basis

Rule 29 is adopted pursuant to the authority of Sections 15, 15B, 19, 23 (a) and (c) of the Securities Exchange Act of 1934, (15 U.S.C. 78*o*, 78s, 78w (a) and (c)); Sections 203 and 211 of the Investment Advisers Act of 1940, (15 U.S.C. 80b–3, 80b–11); and Sections 9 and 38 of the Investment Company Act of 1940, (15 U.S.C. 80a–9, 80a–38).

The Amendment to Rule 30–4(a)(5) of the Commission's Rules on Organization; Conduct and Ethics; and Information and Requests is adopted pursuant to Sections 19 and 20 of the Securities Act of 1933 (15 U.S.C. 77s and 77t); Sections 21 and 23 of the Securities Exchange Act of 1934 (15 U.S.C. 78u and 78w); Sections 38 and 42 of the Investment Company Act of 1940 (15 U.S.C. 80a–37 and 80a–41); Sections 209 and 211 of the Investment Advisers Act of 1940 (15 U.S.C. 80b–9 and 80b–11); and the Act of August 20, 1962, Pub. L. No. 87–592, 76 Stat. 344 (15 U.S.C. 78d–1, 78d–2), as amended by the Securities Act Amendments of 1975, Pub. L. No. 94–29, 89 Stat. 163 (June 4, 1975).

By the Commission.

George A. Fitzsimmons,

Secretary.

BILLING CODE 6010–01–M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 282

[Docket No. RM80–10–002; Order No. 363]

Rule Required Under Section 202 of the Natural Gas Policy Act

Issued: March 15, 1984.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: On December 1, 1983, the Federal Energy Regulatory Commission (Commission) issued a Notice of Proposed Rulemaking (48 FR 55294, December 12, 1983) proposing not to implement the regulations promulgated in Order No. 80 (45 FR 31622, May 13, 1980). The Commission proposed to use its exemptive authority under section 206(d) of the Natural Gas Policy Act of 1978 (NGPA) to issue a final rule exempting all Phase II users from the Order No. 80 regulations. The Commission has considered the 51 comments filed in response to the Notice. For the reasons discussed in the rule, the Commission, instead of relying on the exemptive authority under section 206(d) of the NGPA, revokes Order No. 80 and issues a new Phase II rule, providing incremental pricing applies only to the boiler fuel uses covered by Phase I and not to any other industrial uses of natural gas.

EFFECTIVE DATE: The final rule becomes effective April 12, 1984.

FOR FURTHER INFORMATION CONTACT: Barbara K. Christin, Office of the General Counsel, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, (202) 357–8033.

I. Summary

The Federal Energy Regulatory Commission is issuing this final rule on Phase II of the incremental pricing program under section 202 of the Natural Gas Policy Act of 1978 (NGPA), 15 U.S.C. 3301–3432 (Supp. V 1981). The final rule limits the scope of the incremental pricing program to the boiler fuel uses of natural gas covered by Phase I of the program. To accomplish this, the Commission revokes the regulations issued in Order No. 80 and adds a new paragraph (a)(2) to § 282.102 of its regulations. The new paragraph provides that the requirements of the rule under section 201 apply only to the use of natural gas by industrial boiler fuel facilities, and not by any other category of industrial facilities.

II. Background

Title II of the NGPA requires that the Commission issue regulations to channel to industrial users of natural gas a specified portion of the higher gas costs allowed by Title I.

The "incremental costs" of natural gas are to be passed through from interstate pipelines to industrial users by a surcharge pricing mechanism. Congress designed this program to prepare the natural gas market for deregulation in 1985 and to provide some shelter from rising gas prices to residential and other high priority customers.

Under Title II, the Commission must implement the incremental pricing program in two phases. Section 201 requires that the first phase of the program apply to large industrial facilities that use natural gas as boiler fuel (Phase I).[1]

Section 202 required the Commission to issue an amendment to the Phase I rule by May 9, 1980 (Phase II). That section provides that Phase II of incremental pricing will apply to (1) the industrial boiler fuel facilities covered by the Phase I rule, and (2) any industrial facility in a category defined by the Commission. Section 202 also directed the Commission to submit the Phase II rule to Congress for review. The rule would not become effective if disapproved by either House within a thirty-day review period.

The Commission issued a Phase II rule on May 6, 1980 (Order No. 80).[2] Although commenters overwhelmingly opposed any expansion of incremental pricing, the final rule broadened the scope of incremental pricing to include all industrial users of natural gas except those exempted specifically by the NGPA or exempted by the Commission under section 206(d). The Commission had serious reservations about issuing Order No. 80 because it doubted that an expansion of incremental pricing could achieve the goals of the program. It declined, however, to consider whether market conditions had "so changed as to render the program inappropriate," believing that it was without authority "to second-guess the social and economic judgments that the Congress made in enacting Title II." [3] The Commission left that determination to Congress, which had reserved the right to review the Commission's rule.

Order No. 80 was submitted to Congress pursuant to section 202(c) of the NGPA. The House of Representatives passed a resolution of disapproval of the Phase II rule by a vote of 360–34. Subsequently, the Commission attempted to revoke the Phase II rule because it had not "independently evaluated whether the Phase II rule meets the social and economic goals" of incremental pricing.[4]

Continued

Court of Appeals for the District of Columbia Circuit held the legislative review provision unconstitutional and severable from section 202 of the NGPA. The court also held that the Commission's attempted revocation of the Phase II rule was invalid because the Commission did not provide adequate notice and opportunity for public comment. As a result, the Commission became obligated to exercise its independent judgment and reconsider Order No. 80 in light of the objectives of incremental pricing and current market conditions.

The rule was due to become effective on October 15, 1983, but the Commission stayed the effective date until December 14, 1983, and proposed to continue the stay for an additional 120 days.[6] On December 1, 1983, the Commission issued an order extending the stay until April 12, 1984, or until the Commission completes reconsideration of Order No. 80, whichever is earlier.[7]

On December 1, 1983, the Commission also issued a Notice of Proposed Rulemaking that proposed not to implement the regulations promulgated in Order No. 80 because an expansion of incremental pricing would not achieve the goals of the program.[8] The Commission received 51 written comments in response to the Notice. In addition, 7 persons presented oral comments at a public hearing held on January 10, 1984.[9] In issuing this final rule, the Commission has considered the written and oral comments in this docket, including those filed before Order No. 80 was issued.

III. Discussion

A. Scope of Incremental Pricing

All the comments in response to the Notice support the Commission's proposal not to implement the Order No. 80 regulations. They agree with the Commission that an expanded incremental pricing program would not help prepare the natural gas market for deregulation and, in fact, would be contrary to present Commission programs aimed at improving market conditions.

As the commenters and the Commission have noted, incremental pricing was intended to shift a greater portion of increasing wellhead prices of natural gas to price-sensitive industrial users at what was expected to be a time of excess demand. In this manner it was supposed to curb the bidding by interstate pipelines for gas, thus carrying out a "market ordering" function. At the time the Commission issued Order No. 80, it expressed doubt that an expanded incremental pricing program could achieve market ordering under those circumstances. This doubt was based on the fact that industrial users with little or no alternative fuel capability would be in a relatively weak position to influence prices that pipelines will pay for natural gas.[10]

Under today's actual market conditions, (*i.e.*, high gas prices, the narrow gap between gas and oil prices, and the large deliverability surplus[11]) implementing and expanded incremental pricing program would compound the present market imbalance by further reducing the demand for gas by industrial users. This decreased demand would require a pipeline's remaining customers to bear a greater share of the fixed costs.

In addition, the commenters agree with the Commission that an expansion of incremental pricing is inconsistent with the Commission's goal of lowering gas prices through the use of competition and market forces.[12] In fact, an expanded incremental pricing program would severely hamper the Commission's and the gas industry's efforts at recovery of the natural gas market. Keeping gas prices at artifically high levels could motivate an increasing number of industrial users to switch to alternative fuels or to look for other sources of gas that are not subject to incremental pricing, such as intrastate supplies, natural gas purchased directly from producers, or gas reserves developed by the user.

In the Notice, the Commission also stated that an expanded incremental pricing program would not significantly further the price shielding objective of incremental pricing. The commenters agree with the Commission that the record in this proceeding supports such a finding. The record established before Order No. 80 was issued showed that, even during periods when alternative fuel prices would exceed base gas prices and incremental pricing surcharges would be collected widely, the price-shielding benefits to residential users would be *de minimus*. Since then, the gap between natural gas and fuel oil prices has closed, further reducing the minimal price-shielding effect of incremental pricing. One commenter noted, for example, that the weighted average price of natural gas sold by the major interstate pipelines to industrial users was $4.24/Mcf in July 1983.[13] For that same month, the alternative fuel price ceilings ranged from $3.30 to $3.99/MMBtu. When the gas price is higher than the alternative fuel price ceilings, there are no incremental pricing surcharges.

For these reasons, and the reasons discussed in the Notice, the Commission has determined that an expanded incremental pricing program would not further the Congressional objectives of Title II, and would be contrary to the public interest and counter-productive in today's natural gas market. Therefore, the Commission revokes the Order No. 80 regulations and issues a new Phase II rule that does not expand the scope of incremental pricing beyond the boiler fuel uses of natural gas covered by Phase I.

B. Commission's Authority

In the Notice, the Commission proposed not to implement the Order No. 80 regulations by using its exemption authority under section 206(d) of the NGPA. That section gives the Commission the authority to exempt from incremental pricing, in whole or in part, any incrementally priced industrial facility or category thereof.

The commenters agree with the Commission that section 206(d) is broad enough to permit the Commission to exempt Phase II users from incremental pricing. As discussed in detail in the Notice,[14] the court's decision in *Ohio Association of Community Action Agencies* v. *FERC*[15] confirms that the

[15] 654 F.2d 811 (D.C. Cir. 1981).

Commission could issue the exemption. For example, after discussing the legislative history of section 206(d), the court concluded:

> it may be reasonably inferred that the section 206(d) exemption * * * could be used to accommodate the myriad of concerns raised by legislators about the impacts of incremental pricing, *e.g.*, promoting essential industrial users and *preventing market distortions* incident to deregulation. (Emphasis added.)[16]

Although the commenters agree that the Commission may use its section 206(d) exemptive authority as proposed, most prefer instead that the Commission revoke Order No. 80 and issue a Phase II rule that does not expand incremental pricing beyond Phase I uses. Under the approach proposed in the Notice, the Commission would let the stay of Order No. 80 expire and simultaneously would issue a final rule exempting Phase II users.

Many commenters object to this approach because the Order No. 80 regulations, which the Commission has acknowledged were not the product of reasoned decisionmaking, would become part of the Code of Federal Regulations (CFR). The commenters are concerned that, if the regulations are in the CFR, there is a possibility that, at some point, they could become effective.

The Commission proposed to use its exempting authority because it was not convinced that it has the authority to revoke the regulations promulgated in Order No. 80. The Commission said in the Notice that the statute appeared to require an expansion of the incremental pricing program. The Commission, therefore, proposed to issue a final rule that exempted Phase II users instead of a final rule that revoked the Phase II regulations.

Most of the commenters, however, disagree with the Commission's assessment in the Notice of its authority to revoke the regulations promulgated in Order No. 80. The commenters agree with the Commission that the NGPA requires the promulgation of a Phase II rule but they convincingly argue that the Phase II rule does not have to expand incremental pricing beyond the mandatory Phase I uses. They note that the statute only requires the Commission to *consider* whether an expansion of incremental pricing would be appropriate in light of the objectives of incremental pricing and current market conditions. To support their argument, the commenters note that section 202 of the NGPA requires that the Commission prescribe, by rule, an amendment to the rule required under section 201. The section 201 rule must apply to the boiler fuel use of natural gas by industrial boiler fuel facilities. In contrast, the Phase II rule, while continuing this mandatory application of incremental pricing to Phase I boiler fuel uses, only requires the inclusion of additional Phase II uses of gas as may be defined by the Commission. Thus, section 202 does not require that Phase II apply to any industrial facilities other than the boiler fuel facilities covered by Phase I.

The commenters argue that Congress contemplated that it would make the major policy determinations with regard to a Phase II rule. However, with the invalidation of the Congressional review provisions of section 202(c), the Commission is left to exercise its discretion to determine the scope of Phase II that would best meet Congress' objectives, without benefit of Congressional review. The commenters cite the court's decision in *CECA* as support for this argument. There, for example, the court observed that, without the legislative veto, "the *scope* of the Phase II rule would have been left to the Commission's discretion which would include consideration of the effect of changed market conditions on the usefulness of incremental pricing." (Emphasis added.)[17]

As further support for the breadth of the Commission's discretion, many commenters point out that the legislative history of the NGPA does not require an expansion of the incremental pricing program. For example, Congressman Dingell, a member of the Conference Committee and principal proponent of Title II, recognized that "the mandatory requirements of incremental pricing apply only to boiler fuel users".[18] Similarly, Senator Jackson, Manager of the Senate Bill and a key member of the Conference Committee, stated that Title II "does not compel incremental pricing with respect to any industrial use other than in large boilers".[19]

The Commission is persuaded by the commenters that it has the discretion to issue a Phase II rule that includes either no additional category of industrial uses under the Title II rule, or some additional categories, or all categories of industrial uses (and to exempt such uses under section 206(d)) so long as it engages in reasoned decisionmaking based on consideration of the Congressional objectives. All that is required is that the Commission use the rulemaking process to consider what expansion, if any, would be appropriate.

The commenters have also convinced the Commission that revoking the Order No. 80 regulations and issuing a new rule that does not expand incremental pricing is preferable to using the Commission's section 206(d) exemption authority. It does not appear that incremental pricing will serve any useful purpose in the foreseeable future. Even if conditions were to change, there is no reason to believe that the Order No. 80 regulations could fulfill future needs in any different market setting. In any event, the Commission further believes, and the commenters agree, that section 201(a) of the NGPA provides clear authority for the Commission to amend the rule in the future.

Some commenters suggest that the Commission, in addition to revoking Order No. 80 and issuing a rule that does not expand incremental pricing, also issue a rule using its exemptive authority. This suggestion is based on their concern that a reviewing court might determine that an expansion of the program is required by section 202 and would require a reinstatement of the Order No. 80 regulations. In that event, a rule providing for a section 206(d) exemption would already be in place to effectively limit the scope of an expanded program to Phase I users.

The Commission declines to use this dual approach because it is unnecessary at this time. As noted, the Commission has determined that it does have the authority to revoke Order No. 80 and to issue a Phase II rule that does not expand the program to other industrial facilities. Should the need arise in the future, the Commission believes that it could use its section 206(d) authority, at that time, to exempt from Phase II of incremental pricing industrial facilities other than those covered by the Phase I rule.

Accordingly, for the reasons discussed above, the Commission (1) revokes the regulations promulgated in Order No. 80 and (2) issues in their place a final rule under section 202 which provides that no additional category of industrial facilities is subject to the rule required under section 201 of the NGPA. The final rule implements this latter decision by adding a new paragraph (a)(2) to § 282.102 which states that the requirements of the rule under section 201 of the NGPA shall apply only to the use of natural gas by industrial boiler fuel facilities, and not to the use of gas by any other category of industrial facilities.

[17] 673 F. 2d at 444–45.

[18] 124 Cong. Rec. H11314–15 (Oct. 14, 1978).

[19] 124 Cong. Rec. S15221 (Sept. 15, 1978).

IV. Certification Under the Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA), 5 U.S.C. 601–612, requires agencies to prepare certain statements, descriptions, and analyses of rules that will have "a significant economic impact on a substantial number of small entities." The Commission is not required to make such analyses if a rule will not have such an impact.

Most pipelines and distribution companies may not fall within the RFA's definition of small entity.[39] Most large industrial users of natural gas, on the other hand, may fall within the small entity definition. The economic impact and the record retention burden on all these types of entities remains unchanged from what it is at present because the rule revokes regulations that never became effective. In addition, the new regulations being promulgated have no additional economic impact and do not impose any record retention burden. Therefore, pursuant to section 605(b) of the RFA, the Commission certifies that this rule will not have "a significant economic impact on a substantial number of small entities."

V. Effective Date

For the reasons discussed above, the Order No. 80 regulations must not become effective. Since the stay of those regulations is due to expire at 11:59 p.m. e.s.t. on April 11, 1984, this final rule, which revokes the Order No. 80 regulations, must be effective by April 12, 1984. Therefore, in accordance with section 553(d) of the Administrative Procedure Act, 5 U.S.C. 553, the Commission finds good cause to waive the requirement for publication thirty days before the effective date and make the final rule effective April 12, 1984.

Intergovernmental Relations, Natural Gas, Reporting and recordkeeping requirements, Uniform System of Accounts.

In consideration of the foregoing, the Commission amends § 282.102 of Part 282, Title 18, code of Federal Regulations, as set forth below, effective April 12, 1984.

[39] 5 U.S.C. 601(3) *citing to* section 3 of the Small Business Act, 15 U.S.C. 632 (Supp. IV 1980). Section 3 of the Small Business Act defines "small business concern" as a business which is independently owned and operated and which is not dominant in its field of operation. *See also* SBA's Small Business Size Standards, 13 CFR Part 121 (1982).

By the Commission.

Kenneth F. Plumb,

Secretary.

PART 282—[AMENDED]

1. The authority citation for Part 282 reads as follows:

Authority: Natural Gas Policy Act of 1978, Pub. L. 95–621, 92 Stat. 3350, 15 U.S.C. 3301–3432 (Supp. V 1981).

2. Section 282.102(a) is amended by designating the text as paragraph (1) and adding new paragraph (a)(2) to read as follows:

§ 282.102 Applicability and effective date.

(a) *Uses*

(1) * * *

(2) Pursuant to section 202(b) of the NGPA, the requirements of the rule under section 201 shall apply, as of May 9, 1980, only to the use of natural gas by industrial boiler fuel facilities, and not to any other category of industrial facilities.

* * * * *

3. The Commission revokes the regulations promulgated in Order No. 80 published at 45 FR 31622, May 13, 1980.

18 CFR Part 282

[Docket No. RM79–14]

Natural Gas Policy Act; Publication of Incremental Pricing Acquisition Cost Thresholds

AGENCY: Federal Energy Regulatory Commission.

ACTION: Order prescribing incremental pricing thresholds.

SUMMARY: The Director of the Office of Pipeline and Producer Regulation is issuing the incremental pricing acquisition cost thresholds prescribed by Title II of the Natural Gas Policy Act and 18 CFR 282.304. The Act requires the Commission to compute and publish the threshold prices before the beginning of each month for which the figures apply. Any cost of natural gas above the applicable threshold is considered to be an incremental gas cost subject to incremental pricing surcharging.

EFFECTIVE DATE: April 1, 1984.

FOR FURTHER INFORMATION CONTACT: Kenneth A. Williams, Federal Energy Regulatory Commission, 825 N. Capitol Street, NE., Washington, D.C. 20426, (202) 357–8500.

SUPPLEMENTARY INFORMATION:

Issued: March 26, 1984.

Section 203 of the NGPA requires that the Commission compute and make available incremental pricing acquisition cost threshold prices prescribed in Title II before the beginning of any month for which such figures apply.

Pursuant to that mandate and pursuant to § 375.307(1) of the Commission's regulations, delegating the publication of such prices to the Director of the Office of Pipeline and Producer Regulation, the incremental pricing acquisition cost threshold prices for the month of April 1984 is issued by the publication of a price table for the applicable month. The incremental pricing acquisition cost threshold prices for months prior to January 1984 are found in the tables in § 282.304.

List of Subjects in 18 CFR Part 282

Natural gas.

Kenneth A. Williams,

Director, Office of Pipeline and Producer Regulation.

Organization and functions (Government agencies).

E.O. 12291 Federal Regulations

USIA has determined that this is not a major rule for the purposes of E.O. 12291, Federal Regulation, because it will not result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; or

(3) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Date: March 22, 1984.

Charles Z. Wick,

Director, United States Information Agency.

Part 504 of Title 22 of the Code of Federal Regulations is revised to read as follows:

PART 504—ORGANIZATION

Sec.

504.1 Introduction.
504.2 Description of central and field organization established places at which, officers from whom, and methods whereby the public may obtain information.
Appendix I—USIA Office Locations in Washington, D.C. Area
Appendix II—USIA Office Locations Outside the Washington, D.C. Area

Authority: Sec. 4, 63 Stat. 111, as amended, sec. 501, 65 Stat. 290; 22 U.S.C. 2658, 31 U.S.C. 483a, 5 U.S.C. 301, 552, E.O. 10477, as amended, 18 FR 4540, 3 CFR 1949–1953 Comp., page 958, E.O. 10501, 18 FR 7049, 3 CFR 1949–1953 Comp., page 979. Reorganization Plan No. 2 of 1977, Pub. L. 97–241, 96 Stat. 291, Pub. L. 98–111.

§ 504.1 Introduction.

It is the policy of the United States Information Agency that information about its operations, organization, procedures, and records be freely available to the public in accordance with the provisions of Pub. L. 89–487, the "Public Information Act of 1966", referred to hereinafter as "The Act", which amended the "Public Information" section of the Administrative Procedure Act (5 U.S.C. 552).

§ 504.2 Description of central and field organization, established places at which, officers from whom, and methods whereby the public may obtain information.

(a) The United States Information Agency, redesignated by Section 303(a) of the United States Information Agency Authorization Act, Fiscal Years 1982 and 1983 (Pub. L. 97–241, Stat. 291), was formerly the International Communication Agency.

(b) The United States International Communication Agency was established as an independent Agency of the Executive Branch of the Government by Reorganization Plan No. 2 of 1977. The Director of the Agency is responsible for reporting to the President and the Secretary of State, as well as advising the National Security Council, on international, informational, educational, and cultural matters. The scope of the Director's advice includes assessments of the impact of actual and proposed U.S. foreign policy decisions on public opinion abroad.

(c) Reorganization Plan No. 2 transferred to the new Agency overseas information functions previously lodged in the U.S. Information Agency and the educational and cultural affairs functions of the Department of State. The Reorganization Plan abolished the U.S. Advisory Commission on Information and the U.S. Advisory Commission on International Educational and Cultural Affairs and established the U.S. Advisory Commission on International Communication, Cultural, and Educational Affairs whose name was subsequently changed to the United States Advisory Commission on Public Diplomacy by Section 604 of the Department of State Authorization Act, Fiscal Years 1980–1981 (93 Stat. 390, August 15, 1979).

(d) The United States Information Agency has responsibility for the conduct of international information, education, and cultural activities, including exchange programs to build bridges of mutual understanding between Americans and the other peoples of the world. The United States Information Agency engages in a wide variety of communication activities—from academic and cultural exchanges to press, radio, and television programs—to accomplish its goals of strengthening foreign understanding of American society and support United States policies. The United States Information Agency operates field posts in 126 foreign countries.

(e) Agency operations are organized along both functional and geographical lines and directed by the Executive Policy group composed of the Director, Deputy Director, four Bureau Associate Directors, the General Counsel, Director of the Office of Public Liaison, Director of the Television and Film Service, the five Area Office Directors, and the Comptroller of the Agency.

(1) The four Bureaus are: Broadcasting (B), Programs (P), Educational and Cultural Affairs (E), and Management (M).

(i) The Bureau for Broadcasting is the global radio network of the United States Information Agency which seeks to promote understanding abroad of the United States, its people, culture, and policies. The Bureau of Broadcasting operates the Voice of America (VOA). VOA conducts its operations in accordance with the VOA Charter, which states:

(A) VOA will serve as a consistently reliable and authoritative source of news. VOA news will be accurate, objective, and comprehensive.

(B) VOA will represent America, not any single segment of American society, and will therefore present a balanced and comprehensive projection of significant American thought and institutions.

(C) VOA will present the policies of the United States clearly and effectively, and will also present responsible discussion and opinion of these policies.

VOA produces and broadcasts radio programs in English and 41 foreign languages, and operates broadcasting and relay facilities to transmit these programs. The Voice of America's Radio Marti Program, established by PL 98–111, seeks to provide news commentary and other information about events in Cuba and elsewhere to promote the cause of freedom in Cuba.

(ii) The Bureau of Programs is comprised of two small specialized staffs, three foreign press centers, and four major offices and services, all reporting directly to the Associate Director. The Policy and Guidance Staff provides both fast daily and in-depth background guidance for operating elements of the Agency on those U.S. foreign policy issues which are susceptible to public diplomacy and on those domestic concerns which are relevant to the conduct of it. This staff also reviews program proposals of the Agency's overseas posts and Washington elements to assure that they are consistent with agreed-upon policy and that resources are allocated in accordance with priorities, and represents USIA in interagency meetings on public affairs issues, evaluates the extent to which media products reflect the Agency's subject priorities, and develops options and policy

recommendations. The International Communication Policy Staff develops options and policy recommendations over the entire range of international communciation policy issues for the Director of USIA and for the consideration of the U.S. Government as a whole. Foreign Press Centers in Washington, New York, and Los Angeles provide facilitative services to foreign journalists working in those cities. The Office of Program Coordination and Development coordinates the design and implementation of all Agency support for major communcation projects proposed by the Agency's overseas posts or undertaken by it in response to worldwide and regional priorities set by the Director, recruits American participants for those projects, and develops a systematic aggregation of essential resource materials to guide the acquisition and production of media support for them. This Office also is responsible for the development and coordination of the Agency's arts initiative undertaken through an agreement with the National Endowments, including recruitment and scheduling of all fine arts exhibitions and performing artists and groups for overseas programming. The Office of Research combines the functions of research on foreign public opinion and communication environment, analysis of foreign media reaction, and the Agency library. The two media services—Exhibits, and Press and Publications—are responsible for the acquisition and production of a variety of media products for use or adaptation by USIA's overseas posts. These include exhibits in various formats, a daily wireless bulletin to all posts, magazines, pamphlets, reprints, photographs, and picture stories. The media services also operate printing plants at two overseas locations.

(iii) Four major offices constitute the Bureau of Educational and Cultural Affairs. The Office of Cultural Centers and Resources provides policy direction, program support, and professional guidance and materials to USIA libraries, American and Binational Centers overseas; promotes the distribution of American books in English and in translation; operates a donated books program; and supports English teaching programs abroad. The Office of Private Sector Programs is responsible for developing cooperative projects with private sector institutions to support, complement and enhance the goals and objectives of the United States Information Agency. These projects are designed to promote a better understanding of the United States abroad by means of educational and cultural exchange between Americans and citizens of other nations. The Office of Private Sector Programs may provide selective assistance, encouragement, and grant support to nonprofit activities of U.S. organizations and institutions that satisfy this purpose, with special emphasis on international educational and cultural exchanges. The Office of International Visitors is responsible for planning, implementing, monitoring, and evaluating all International Visitor (both grantee and voluntary) programs; for managing the Agency's four reception centers; for serving as the Agency's liaison with public and private organizations involved in the International Visitor Program; and for arranging programs in the U.S. for UN Fellows and foreign government trainees. The Office of Academic Programs is responsible for organizing and assisting academic exchanges between the United States and other countries; facilitating the establishment and maintenance of close ties between the American academic community and those abroad; encouraging and supporting learning; and providing staff support to the Board of Foreign Scholarships. The Office maintains liaison with a wide range of non-government institutions to encourage and support private exchange programs and foster institutional linkages across national boundaries; and coordinates international information, educational, cultural, and exchange programs conducted by other departments and agencies of the U.S. Government.

(iv) The Bureau of Management is comprised of a management analysis staff and six major offices reporting to the Associate Director. These offices are responsible for planning, organizing, directing and controlling the Agency's administrative and management operations. These offices provide support services in the areas of administration, personnel and training, budget and fiscal operations, systems technology, security, equal employment opportunity, and contracts.

(v) The Office of Public Liaison (PL), directs and carries out activities designed to discharge the Agency's obligation to provide information about USIA policies, mission and programs to the American people and the communications media. It publishes news releases, fact sheets and pamphlets; provides Agency speakers in response to invitations from organizations and institutions in the U.S.; and holds seminars and workshops with academic, business, professional and public interest institutions and groups. It is responsible for the publication of the Agency's internal newsletter. The Office is responsible for conducting tours of the Agency exhibit at the VOA headquarters.

(vi) The Office of the General Counsel and Congressional Liaison (GC). The General Counsel and legal staff advise all elements of the Agency on the interpretation of all laws, regulations, and Executive Orders that authorize the Agency's program or relate to the Agency's activities. The Office assists in the drafting of proposed legislation, Executive Orders, regulations, contracts, leases, and other legal documents, and participates in the negotiation of international agreements. The Office represents the Agency in hearings arising from disputes on contracts, equal employment opportunity, grievances, labor disputes, and licensing. The Office provides support to trial counsel in cases tried before domestic and foreign courts. The Office secures the necessary rights clearances for the Agency's activities, exercises in full authority vested in the Director by law relating to Exchange Visitor Program designation, visa waiver review, and authorized periods of duration of stays, and advises on matters relating to ethical conduct and conflict of interest of Agency employees. On congressional matters it maintains contact with Members and their staffs and serves as Agency coordinator of hearings on substantive legislation and of Agency programming of Members and staff.

(vii) The Office of Inspector General provides policy direction for and conducts, supervises, and coordinates audits and investigations relating to Agency programs and operations; evaluates whether the Agency has standards adequate to measure program results; evaluates whether programs are effective and are managed with economy and efficiency; and recommends policies and procedures to promote economy and efficiency in such programs and operations. The Office receives, reviews, and coordinates investigations of evidence, allegations, and complaints from employees and applicants concerning waste of resources, fraud, abuse of authority, mismanagement, violations of laws or regulations, or a substantial and specific danger to public health and safety; and reports regularly the results to the Director.

(viii) The Office of Inspections reviews and assesses the effectiveness of Agency programs overseas in support of Agency objectives and the

effectiveness of domestic operations in support of overseas programs.

(ix) The Television and Film Service is responsible for planning, organizing and directing the Agency's television and film activities. The areas of responsibility encompass planning, acquiring, or facilitating production of films for direct projection or telecast by video tape and satellite to audiences overseas; facilitative assistance to visiting foreign television and film producers; assistance to foreign broadcasters in the production and foreign telecast of cooperative television programs; and coordination with other U.S. and foreign government agencies on the dissemination of information overseas through motion pictures and television.

(x) The heads of the five geographic areas are the Agency's principal advisers on all programs within countries in their respective areas. They help to formulate Agency policies and represent the Director in interagency working groups. The Area Directors (Africa; Europe; East Asia and Pacific; American Republics; and North Africa, Near East, and South Asia) are responsible for the coordination and management of public diplomacy programs for the countries in their geographic areas. They supply a knowledge of the field programs and requirements to the Agency's policy and planning processes. They arranged with media services to provide media products to their areas. They consult with appropriate area and country officers in the Department of State and other foreign affairs agencies on operational matters of mutual concern.

(xi) The agency maintains 205 posts abroad in 126 countries. These posts are under the supervision of the U.S. Chiefs of Mission, and with the guidance of the Director and the appropriate Area Office Director, conduct information, educational exchange and cultural programs on behalf of the U.S. Government. Each overseas office is headed by a Public Affairs Officer who is a member of the "Country Team" under the Chief of the U.S. Diplomatic Mission. A list of overseas offices is maintained by the Management Plans and Analysis Staff, Washington, D.C. 20547.

Cultural exchange programs.

E.O. 12291 Federal Regulations

USIA has determined that this is not a major rule for the purposes of E.O.

12291, Federal Regulation, because it will not result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; or

(3) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Authority: Sec. 4, 63 Stat. 111, as amended, 75 Stat. 527–538; 22 U.S.C. 2658, 2451 note; Reorg. Plan No. 2 of 1977; E.O. 12048 of Mar. 27, 1978.

§ 515.3 [Amended]

Part 515 is amended by removing paragraph (h) from section 515.3.

Dated: March 22, 1984.

Charles Z. Wick,

Director, U.S. Information Agency.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

24 CFR Part 51

[Docket No. R-84-709; FR-935]

Environmental Criteria and Standards; Siting of HUD-Assisted Projects Near Hazardous Operations Handling Petroleum Products or Chemicals of an Explosive or Flammable Nature; Correction

AGENCY: Office of the Secretary, HUD.

ACTION: Final rule; correction and technical amendment.

SUMMARY: The purpose of this document is to indicate the correct placement of Appendices to a final rule published on February 10, 1984 (49 FR 5100), as corrected on March 20, 1984 (49 FR 10253), that provided standards for the safe siting of HUD-assisted projects near hazardous operations that handle petroleum products or chemicals of an explosive or flammable nature.

EFFECTIVE DATE: The effective date for the technical amendment appearing in item 2 of this document is March 29, 1984.

FOR FURTHER INFORMATION CONTACT: James L. Christopulos, Office of Environmental and Energy, Telephone number, (202) 755–7225. (This is not a toll-free number).

Accordingly, the following corrections are being made to 24 CFR Part 51:

1. In the March 20, 1984 issue of the **Federal Register**, in FR Doc. 84–7325, on page 10253, column two, item three corrected a February 10, 1984 final rule of the Department. The correction reinstated an Appendix which had been erroneously removed. The correction should have stated also that it was revising the title of the Appendix to read as follows:

Appendix I to Subpart B—Definition of Acoustical Quantities

2. In 24 CFR 51.103 (a) and (b), the term "Appendix" is changed to read "Appendix I to this Subpart" wherever it appears.

3. In the February 10, 1984 issue of the **Federal Register**, in FR Doc. 84–3516, on page 5105, column two, item three, (1) correct the amendatory language to read as follows: "3. Appendix I to Subpart C and Appendix II to Subpart C are added to read as follows:"; and (2) correct the titles of the two Appendices to read as follows:

Appendix I to Subpart C—Specific Hazardous Substances

Appendix II to Subpart C—Development of Standards; Calculation Methods

4. In the February 10, 1984 issue of the **Federal Register**, in FR Doc. 84–3516, page 5103, column three, correct the table of contents entry for § 51.207 to read as follows:

51.207 Amendments to Appendix I to this subpart.

5. In the February 10, 1984 issue of the **Federal Register**, in FR Doc. 84–3516, page 5105, column one, in § 51.207, (1) correct the section heading to read: § 51.207 *Amendments to Appendix I to this Subpart;* and (2) correct the term "Appendix I" wherever it appears to read "Appendix I to this Subpart."

Authority: Sec. 2, Housing Act of 1949 (42 U.S.C. 1441); Sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)); Sec. 2, Housing and Urban Development Act of 1969 (42 U.S.C. 1441(a)).

Dated: March 23, 1984.

BILLING CODE 4210-32-M

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Parts 205, 207, 213, 221, 232, and 244

[Docket No. R-84-1065; FR-1559]

Mortgage and Loan Insurance Programs Under the National Housing Act—Creation of Inferior Liens To Secure Governmental Loans

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Final rule.

SUMMARY: The Secretary is adopting as final an interim rule that amended certain of HUD's multifamily and related mortgage insurance regulations to facilitate the use of grants or loans by Federal, State, and local governmental agencies or instrumentalities in connection with the development of projects with FHA mortgage insurance. The rule permits liens inferior to the insured mortgage where needed to secure the Federal, State, or local loan. The rule also provides that, where the proceeds of such a loan or grant are to be used as "front money" to assure completion of the project and the payment of expenses incident to its construction, "front money" deposit requirements for these purposes may be satisfied by a letter of credit or an agreement among the relevant parties rather than by cash, and insured mortgage proceeds may be advanced to cover these expenses before full disbursement of the loan or grant proceeds.

EFFECTIVE DATE: May 10, 1984.

FOR FURTHER INFORMATION CONTACT: Linda Cheatham, Director, Multifamily Technical Support Division, Office of Multifamily Housing Development, Room 6138, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410. Telephone number (202) 426–7113. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On August 4, 1983 the Department published an interim rule in the **Federal Register** (48 FR 35389), amending the then—existing regulations at 24 CFR Chapter II, Subchapter B, governing certain multifamily and nonresidential mortgage insurance programs under the National Housing Act.

As explained more fully in the interim rule, and briefly summarized here, the amendments are designed to facilitate the use of grants and loans by Federal,

State, and local governmental agencies or instrumentalities in connection with the development of projects whose mortgages are insured under those authorities. The rule also permits liens inferior to the lien of the insured mortgage if they are given in favor of the Federal, State, or local governmental agency under circumstances approved by HUD. Additionally, the rule relaxed the "front money" regulatory requirements in those cases where the money is provided by a grant or loan from a government instrumentality. Finally, the rule specified that the mortgagee of record could not be the issuer of a letter of credit used in connection with the insurance of advances for the programs covered by the rule without the prior written consent of the Commissioner.

The interim rule became effective on October 10, 1983, and provided for public comments to be received by October 3, 1983. The Department received only one comment, and this was from a HUD Field Office.

The comment recommended that the rule be withdrawn (and the old policy reinstated) or modified because of its potentially adverse effects on all parties if the proceeds of secondary financing are withheld to the end of a job. The comment argued that the requirement to post a letter of credit for ten percent of the secondary financing amount could be financially burdensome to the borrower; and, in some cases, may represent an insignificant amount in relation to the total cost of a project. The comment further questioned the fairness of having the borrower incur this additional cost because of the borrower's having little influence over the actions of the secondary lender. Finally, the comment contends that, written agreements aside, delays and cost overruns could result if the government agency fails to honor its obligation to provide the loan or grant funds.

The Department disagrees with the comment. The Field Office misapprehends the funding procedure contemplated by this rule. As the rule (along with the instructions to HUD's Field Offices) makes clear, the secondary financing will be advanced either before the disbursement of mortgage proceeds or concomitantly on a pro rata basis with the expenditure of mortgage funds. Mortgage proceeds will not be substantially drawn down before the disbursement of grant or loan funds. The provision for a letter of credit ensures that the general contractor is paid in a timely manner; it does not, in the Department's view, create an undue financial burden on the mortgagor.

HUD recognizes that in the normal course of events, there exists the possibility of funding delays—a contingency the agreement was designed to ameliorate by its provision for a letter of credit or escrowed funds. Finally, the Department believes that the rule's cost effectiveness (interest expense is minimized by deferring the time that loan or grant funds—proceeds of government borrowing—are disbursed) outweighs the potential adverse effects cited in the comment.

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations in 24 CFR Part 50, which implement section 102(2)(C) of the National Environmental Policy Act of 1969. 42 U.S.C. 4332. The Finding of No Significant Impact is available for public inspection during regular business hours in the Office of the Rules Docket Clerk, Room 10276, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

This rule does not constitute a "major rule" as that term is defined in Section 1(b) of the Executive Order on Federal Regulation issued by the President on February 17, 1981. The rule does not (1) have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies or geographic regions; or (3) have a significant adverse effect on competition, employment, investment, productivity, innovation or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Under the provisions of 5 U.S.C. 605(b) (the Regulatory Flexibility Act), the Undersigned hereby certifies that this rule does not have a significant economic impact on a substantial number of small entities. The rule is a cost-saving measure with little, if any, adverse impact on small entities.

This rule was listed as RIN 2502–AA30 (H–45–81; FR–1559), in the Department's Semiannual Agenda of Regulations published on October 17, 1983 (48 FR 47435) in accordance with Executive Order 12291 and the Regulatory Flexibility Act.

The Catalog of Federal Domestic Assistance Program Numbers are 14.112, 14.116, 14.125, 14.126, 14.127, 14.129, 14.134, 14.135, 14.137, 14.138, and 14.139.

List of Subjects

24 CFR Part 205

Community facilities, Land development.

24 CFR Part 207

Mortgage insurance, Manufactured homes.

24 CFR Part 213

Mortgage insurance, Cooperatives.

24 CFR Part 221

Condominiums, Low and moderate income housing, Mortgage insurance, Projects, Cooperatives.

24 CFR Part 882

[Docket No. R–84–955; FR–1539]

Section 8 Housing Assistance Payments Program; Existing Housing

AGENCY: Office of Assistant Secretary for Housing—Federal Housing Commissioner, (HUD).

ACTION: Final rule.

SUMMARY: This rule amends the regulation for the Section 8 Existing Housing (finders-keepers) Program concerning: (1) Lease term and termination of tenancy; (2) selection of applicants for program participation; (3) determination of the number of bedrooms appropriate for a family; (4) review of certain PHA decisions affecting an applicant or participant; and (5) related regulatory changes. The purpose of this rule is to delineate certain notice and hearing requirements

and waiver requirements associated with the Section 8 Existing Housing program and to make final previously published rules on termination of tenancy.

This rule will provide more explicit guidance to PHAs and families participating in the program.

EFFECTIVE DATE: May 10, 1984.

FOR FURTHER INFORMATION CONTACT: Gerald J. Benoit, Existing Housing Division, Office of Elderly and Assisted Housing, (202)–755–5353, Department of Housing and Urban Development, Washington, D.C. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: .

I. Consolidation of Rulemaking

This rulemaking consolidates two prior rulemaking proceedings in a single final rule:

A. On July 26, 1982 (47 FR 32169), HUD published a proposed rule implementing Federal Court orders (in *Nichols v. Landrieu*, Civil Action No. 79–3094, United States District Court, District of Columbia, September 12, 1980):

1. Certifying a class action on behalf of persons whose section 8 existing housing subsidy may be terminated or reduced, by a PHA "because of family size and composition requirements without notice of the reasons for termination, the availability of a waiver of family size requirements, and an opportunity to be heard to contest the propriety of termination or claim entitlement to the waiver";

2. Directing HUD to publish as a rulemaking for notice and public comment portions of the administrative handbook for the Section 8 Existing Housing Program "delineating notice and hearing requirements pursuant to subsidy reduction"; and

3. Directing that the PHA notify the participant family of its "right to a waiver [of the PHA's family size requirements] and the grounds upon which a waiver may be granted."

In addition to provisions related to the *Nichols* plaintiff class and required under the court order, the rulemaking also proposed other amendments regarding selection of applicants for Certificates and informal hearing requirements for applicants and program participants.

The Department has received 29 public comments on the proposed rule.

For convenience, this rulemaking is referred to below as the "selection and hearing" rule.

B. On August 3, 1982 (47 FR 33497), HUD published an interim rule implementing 1981 legislation (Pub. L. 97–35, Section 328(e)(1)) which requires a minimum one year lease term in section 8 existing housing, eliminates a prior requirement for PHA participation in a termination of tenancy, and requires good cause for termination of tenancy.

The Department has received 58 public comments on the interim rule.

For convenience, this rulemaking is referred to below as the "termination of tenancy" rule.

II. Statement of Family Responsibilities

Before issuance of this rule, the regulation (§ 882.118) provided that: "A Family receiving housing assistance under this program shall be responsible for fulfilling all its obligations *under the Certificate of Family Participation* issued to it by the PHA and *under the Lease with the Owner*."

Family "obligations under the Certificate" were not otherwise defined in the regulation. The form of Certificate signed by the Family (Form HUD 52578, 10–78) states that the Family agrees "to perform all its obligations under the Existing Housing Program." The Certificate also requires the Family to:

—Provide family income information and records required in administration of the program,

—Permit inspection of its dwelling unit at reasonable times after reasonable notice,

—Give at least 30 days notice to the PHA if the family intends to vacate the unit, and

—Cooperate with the PHA in finding a new unit if the unit is too large because of a change in family size.

The Certificate provides that the "conditions" (i.e., the statement of family obligations on the Certificate)" * * * continue to apply after the Family begins to receive assistance under this program."

The proposed selection and hearing rule (proposed § 882.209(a)(2)(i)) stated that the PHA may deny issuance of a Certificate to an applicant who, as a past participant in the Section 8 Existing Housing Program, failed to comply with "family obligations under the section 8 Existing Housing Program."

A legal aid office objects that the authority to deny a Certificate for failure to comply with family obligations under the program is vague, and does not distinguish between a serious violation of program standards, and minor technical or unintentional infractions for which deprivation of assistance would be unfair. The comment also claims that grounds for denial of a Certificate are already sufficiently clear under the regulation and handbook.

The Department agrees that violation of unstated family program "obligations" is not a sufficiently definite regulatory statement of grounds for denial of assistance, but does not agree that grounds are already adequately stated in the regulation. The responsibilities of the family in the Section 8 Existing Housing Program should be comprehensively listed in the regulation.

As revised by this rule, § 882.118 lists the obligations of a family under the Section 8 Existing Housing Program, both positive (requirements) and negative (prohibitions). The PHA may deny or terminate assistance to a current program participant, or to a prior participant seeking readmission to the program, for violation of any of the stated family obligations (see new § 882.210, discussed in section III of this preamble).

A. Obligation To Furnish Required Information and Certification

The regulation (§ 882.118(a)(1)) requires the family to supply such certification, release, information or documentation as the PHA or HUD determine to be necessary in the administration of the program, including use by the PHA for a regularly scheduled reexamination or interim reexamination of family income and composition in accordance with HUD requirements. The requirement to supply program-related information and records, and to certify family income and composition, is not new.

B. Obligation To Allow PHA Inspection of Unit

The regulation (§ 882.118(a)(2)) requires the family to allow the PHA to inspect the unit at reasonable times and after reasonable notice. The requirement to allow PHA inspection of the unit supports the PHA obligation (see § 882.211) to determine by inspection whether the unit is decent, safe and sanitary, and otherwise in accordance with the lease and assistance contract. This obligation is not a new requirement, and is currently stated in the Certificate.

C. Obligations Related To Use and Occupancy of Unit

The family must use the dwelling unit solely for residence by the Family, and as the family's principal place of residence, and may not assign the lease or transfer the unit (§ 882.118(a)(4)).

The requirement for use solely for residence by the family serves to enforce the statutory purpose of section 8 assistance, to provide assistance for occupancy by a lower income family (see U.S. Housing Act of 1937, sec. 8(c)(4); 42 U.S.C. 1437f(c)(4)).

The requirement for use of the dwelling unit as the family's principal place of residence is intended to prevent the use of scarce subsidy resources for a secondary or seasonal place of residence, or for a unit not actually occupied by an eligible family.

The regulation (§ 882.118(b)(3)) also prohibits the family from receiving assistance under the Section 8 Existing Housing Program "while occupying, or receiving assistance for occupancy of, any other unit assisted under any federal housing assistance program (including any section 8 program)." This provision is intended to prevent double subsidy for a family, or the payment of section 8 subsidy for a unit not occupied by an eligible family.

As under the current form of Certificate of Family Participation, the new regulation (§ 882.118(a)(3)) requires the family to notify the PHA before vacating the dwelling unit. The PHA needs to know when the family is going to leave the unit, so that the PHA will not continue assistance payments, other than authorized vacancy payments (§ 882.105(b)), for a unit no longer occupied by the family.

D. Ownership of Unit

The regulation prohibits the family from owning or having any interest in the dwelling unit (§ 882.118(b)(1)). Currently this is one of the owner's certifications on receipt of payment under the assistance contract. The prohibition is based on the statutory character of the section 8 program, as a rental subsidy for a unit under lease from an owner. Section 8 is not a subsidy for owner occupied housing.

In accordance with the two statutory exceptions to the broad restriction on section 8 subsidy for owner occupied housing, section 8 subsidy may be paid on behalf of a cooperative member (see U.S. Housing Act of 1937, sec. 8(f)(2), 42 U.S.C. 1437f(f)(2)), or to subsidize pad rental by the owner of a manufactured home unit (pursuant to sec. 8(j) of the United States Housing Act of 1937, 42 U.S.C. 1437f(j), as amended by the Housing and Community Development Amendments of 1981, Pub. L. 97–35, sec. 329 H).

E. Fraud

The rule provides (§ 882.118(b)(2)) that the family may not commit any fraud in connection with the Section 8 Existing Housing Program. See also § 882.210 (b)(3) and (d)(1), discussed in section III B below, concerning the denial or termination of assistance because of applicant or participant fraud in connection with *any* federal housing assistance program.

F. Tenant Violation of Assisted Lease

In one major respect, the final rule significantly narrows the regulatory definition of family responsibilities under the program. Since the beginning of the Section 8 Existing Housing Program, the program regulations have provided that the family is responsible for "fulfilling all its obligations * * * under the Lease with the Owner" (§ 882.118 of prior rule). This provision is deleted in the final rule.

Enforcement of the family's obligations to the owner under an assisted lease is properly the concern of the owner, not the PHA. The PHA has, in general, no firsthand knowledge of tenant behavior in the unit. If the family has violated the lease, the owner may take action to terminate the tenancy and, if necessary, to evict the family, without involvement of the PHA.

The PHA is prohibited (under prior program policy and the provisions of this final rule, § 882.209(a)(5)) from establishing selection criteria based on an applicant's expected behavior as a tenant. (The prohibition on screening in selection of tenants will be further discussed in section IV D of this preamble). The termination of assistance because of a family's behavior as tenant of an assisted unit is not an appropriate role for the PHA. For this reason, the tenant's responsibility to comply with the lease is not included in the regulatory listing of family program obligations.

III. Bases for Denial or Termination of Assistance

Under the proposed rule on selection and hearing (§ 882.209(a)(2)), the PHA would have been permitted to refuse a Certificate to an applicant who owes money to a PHA or who (as a past participant in the Section 8 Existing Housing Program) vacated a unit in violation of the lease, or failed to pay amounts owed to a section 8 owner. The PHA could also deny a Certificate to a family which failed to comply with family obligations under the Section 8 Existing Housing Program, or which committed fraud or misrepresentation in connection with a federal housing assistance program.

The proposed rule would not have modified regulatory provisions concerning the grounds for denying a new Certificate to a current program participant (former § 882.209(e)(1), now redesignated §882.209(m)), and would not have contained any new provisions concerning the grounds for termination of assistance to a program participant. On reconsideration, the Department believes this approach is too narrow, and that the regulations should set out a comprehensive statement of the grounds not only for denial of initial selection for participation, but for termination or denial of further assistance to a current program participant because of an action or inaction by the family. The final rule includes therefore a new and complete statement, in a separate regulatory section (§ 882.210), of the bases for denial or termination of assistance because of the family's behavior. (The former provisions of § 882.210 ("Request for lease approval") have been moved to § 882.209, as paragraphs (e) to (l).)

A. Failure To Make Payment to PHA

Under the final rule (§§ 882.210(b) (1) and (2)), the PHA may deny participation in the program, may deny issuance of another Certificate to a participant who wants to move to another dwelling unit, may decline to enter an assistance contract or to approve a lease, if the applicant or participant:

—Currently owes rent or other amounts to the PHA or another PHA, and the debt was incurred in connection with public housing or section 8 asisstance under the United States Housing Act of 1937, or

—Has not reimbursed claims paid on its behalf by the PHA to a section 8 owner, either for rent or for other damages under an assisted lease, or for section 8 vacancy payments.

The PHA may properly conclude that families which have not paid the PHA are less deserving of further assistance from limited funding than other families which meet their financial responsibilities. Payment by the Family of amounts owed to a PHA or of section 8 owner claims paid by a PHA will promote the fiscal welfare of the PHA. Reimbursement of section 8 owner claims paid by a PHA on behalf of the family replenishes funds for operation of the PHA's section 8 program, and for assistance payments for families. The requirement for reimbursement tends to discourage tenant behavior which can result in owner claims, such as claims for tenant damage to the unit.

1. *Treatment of Past Rent or Other Debt to a PHA.* Legal aid comments on the proposed rule assert that the denial of assistance because of rent owed to the PHA, including denial because of rent owed under the public housing program, is an "unauthorized collection practice," and that a PHA may not withhold benefits under the PHA's Section 8 Existing Housing Program because of debt incurred in another "completely unrelated" program.

Section 8 and public housing are different forms of housing assistance under the U.S. Housing Act of 1937, but implement the same statutory purpose—to provide decent, safe and sanitary dwellings for lower income families (U.S. Housing Act of 1937, sec. 2 and sec. 3, 42 U.S.C. 1437 and 1437a). Funding for section 8 housing assistance payments and for development of public housing, is drawn from the same statutory source (the amount of contract authority authorized by the Congress under sec. 5(c) of the Act, 42 U.S.C. 1437c(c)), and the statutory criterion for family eligibility is applicable to both section 8 and public housing assistance under the Act (U.S. Housing Act of 1937, sec. 3(a) and sec. 3(b)(2), 42 U.S.C. 1437a(a) and 1437a(b)(2)). The claim that the two programs are unrelatred is an artificial distinction between two forms of lower income housing assistance under the Act.

A comment from a legal aid office states that the denial of assistance to a family which owes rent or other charges is "harsh and unjustified," since this policy penalizes people who have trouble paying for their rents, the class for which the Section 8 Existing Housing Program is designed.

By statutory definition the section 8 and public housing programs serve people who do not have an adequate income. Family dollars paid for rent cannot be used to meet other family costs. However, this is true for all families assisted under these programs, and is not a justification for failure by a family to pay the statutory rental contribution.

Lower income families are required to pay a part of the full economic rent of their housing, in accordance with a statutory formula. The rental contribution from a family provides resources needed for operation of the programs. The requirement for a rental contribution also encourages the sense of family responsibility for its own welfare. Although the payment of rent is difficult for a poor family, the requirement for payment of the statutory rent contribution could collapse unless enforced by the possibility of effective sanctions.

Under the proposed rule, the PHA would have been permitted to deny assistance because of *any debt* owed by a family to the PHA or to another PHA (proposed § 882.209(a)(2)). The final rule only allows a denial of assistance because of debt incurred to a PHA *in connection with section 8 or public housing assistance under the United States Housing Act of 1937 (§ 882.210(b)(1)).*

Comments from legal aid offices state that a denial of program participation because of debt to the PHA may not be automatic and that the regulation should include standards for mitigation of prior debt. They state that the PHA must be required to afford an opportunity for a family to justify the failure to pay rent, to shown that the amounts claimed are not owed (e.g., where the debt is barred by the statute of limitations), to show that rent was lawfully withheld under local law, or to show a change in financial circumstances, and that the PHA must be required to afford a hearing to consider these factors. Several comments claim that the *Vandermark (Vandermark v. Housing Authority of the City of York,* 633 F.2d 436 (3d Cir. 1981)) and *Baker (Baker v. Cincinnati Metropolitan Housing Authority,* 675 F.2d 836 (6th Cir. 1982)) decisions mandate a hearing which gives the applicant an opportunity to explain a failure to pay rent to the PHA.

Under the new regulation, an applicant family has the opportunity to explain the alleged debt. The PHA is required to give an applicant the opportunity for informal review of a decision to deny assistance for this reason (§ 822.216(a); see section VII B of preamble).

The proposed rule is amended to clarify that the PHA may only deny assistance because of debt due a PHA if an applicant or participant "currently owes" money to a PHA (§ 882.210(b)(1)). Past debt to a PHA is not grounds for denial of assistance. The PHA may not deny assistance if the debt has been paid, or is not valid for any reason (e.g., a rent claim extinguished by the statute of limitations). Thus the final regulation automatically takes into account a change in conditions which results in a satisfaction of the prior debt.

A comment from a legal aid service organization objects to allowing a PHA to deny assistance because of debt to other PHAs. The comment notes that only the PHA to which the debt is owed has access to information on the debt. The Department has decided to retain the regulatory authority for a PHA to deny assistance because of rent or debt owed to another PHA. A family which has incurred an obligation to a PHA should not be assured that if the family moves to the assistance program of a new PHA, the new PHA will be compelled to ignore the delinquency. PHAs may give mutual support for the efforts of other PHAs to collect program-related debts owed by assisted families.

2. *Reimbursement of Owner Claims Paid By a PHA.* The proposed rule (§ 882.209(a)(2)(i)) would have allowed the PHA to deny issuance of a Certificate to an applicant who (as a past program participant) vacated a section 8 existing unit in violation of the lease, or failed to satisfy a liability to a section 8 owner for rents or other amounts owed under the lease.

Under the final rule, the PHA may only deny assistance if the PHA has been forced to pay an owner claim. The final rule (§ 882.210(b)(2)) permits a PHA to deny assistance if an applicant or participant has not reimbursed a PHA for any amounts paid by the PHA to a section 8 owner: (1) For rent or other amounts owed by the family to the owner under the lease, or (2) for vacancy payments.

3. *Opportunity for Future Payment; Agreement to Pay.* Under the proposed rule (proposed § 882.209(a)(2)), the PHA may condition issuance of a Certificate on an applicant's "willingness" to enter into an agreement to repay rent or other amounts owed a PHA. Under the final rule (§ 882.210(c)) the PHA may at its discretion offer an applicant or participant the opportunity to enter an agreement to pay amounts owed to a PHA in connection with public housing or section 8, or claims paid by a PHA to a section 8 existing owner. If the PHA chooses to make such an offer, the terms of the agreement are prescribed by the PHA. If the participant breaches the agreement, the PHA may deny or terminate assistance at any time (§ 882.210(b)(5), § 882.210(c) and § 882.210(d)(3)).

A PHA comment states that the issuance of a Certificate should be conditioned on the applicant's agreement to repay amounts owed to the PHA, not just the "willingness" of the applicant to enter an agreement to repay under the language of the proposed rule. The final rule has been revised to clarify, in accordance with the original intention, that the PHA may at its discretion choose whether or not to offer the family the opportunity to enter an agreement for deferred payment of the amounts owed. If the PHA decides not to offer an agreement, or if the family refuses to execute the agreement, the PHA may deny assistance to the family until the family has paid up.

A comment from a legal aid service organization recommends that the family should have the regulatory *right* to enter into a repayment agreement. Another legal aid comment asserts that there should be standards specifying when the PHA *must excuse* prior debt. These recommendations have not been adopted. The decision to accept or not to accept a family promise of future payment properly rests in the discretion

of the PHA, as applied to particular cases, not in the creation of a federal regulatory right to defer the payment of present debt, or in the prescription of a federal standard defining cases in which present debt must be forgiven or in which the present debt may not serve as ground for a denial of assistance. The family can at any time remove the impediment to assistance, by payment of the debt to a PHA, or reimbursement of PHA payments to a section 8 owner.

Some comments claim that a family has a constitutional right to defer payment of amounts owed to a PHA (citing the decisions in *Vandermark* and *Baker*). We do not agree. The *Vandermark* and *Baker* decisions hold that PHAs may withhold entrance to the Section 8 Existing Housing Program because of a family's past failure to pay public housing rent. Procedural and substantive due process do not create any constitutional right to issuance of a Certificate without payment of current debt. The substantive validity of a requirement for prior repayment to a PHA is governed by a simple constitutional test under equal protection—whether the requirement rationally furthers a legitimate State purpose. This preamble has stated some of the main reasons for allowing a PHA to deny section 8 existing assistance to a family until repayment to the PHA.

B. Denial or Termination of Assistance Because of Fraud or Violation of Family Program Obligations

Under the proposed rule (§ 882.209(a)(2)) the PHA would have been authorized to deny issuance of a Certificate to an applicant who failed to comply with "family obligations" under the section 8 program, or who has committed any fraud or misrepresentation in connection with any federal housing assistance program.

The final rule contains a full regulatory definition of the obligations of a program participant (§ 882.116 of the final rule, described in section II of this preamble). The final rule also explicitly confirms that a PHA has the option of denying or terminating assistance for violation of the stated family obligations (§ 882.210(b)(4) and § 882.210(d)(2)).

The PHA may also deny or terminate assistance if the applicant or participant has committed any fraud "in connection with any federal housing assistance program" (§ 882.210(b)(3) and § 882.210(d)(1)); see also provisions on family obligation not to commit any fraud in connection with the Section 8 Existing Housing Program (§ 882.118(b)(2), discussed above in section II E of this preamble).

C. Participant—Denial or Termination of Assistance

Prior to this rule, the program regulation did not contain any unified statement of the bases for denial or termination of assistance to a participant family because of the family's action or inaction. The proposed rule (selection and hearings) only dealt with the grounds for initial denial of participation. Although the proposed rule stated a uniform set of informal hearing requirements for termination or reduction of assistance (proposed § 882.216), the proposed rule did not state the grounds for termination or denial of assistance to a participant family. The final rule defines the bases a PHA may use for denial or termination of assistance to a current program participant. This definition will clarify the substantive rules to be applied in the participant hearing process under the regulation (§ 882.216(b)).

1. *Denial of New Certificate to Participant.* Under the previous rule (§ 882.209(e)(1)), the PHA was required to issue a new Certificate to an assisted family at any time the family wanted to move to another unit in the area (if the PHA had sufficient funds to issue a new Certificate, and the family was meeting its program responsibilities under § 882.118) unless the PHA determined that the family owed payment to the owner "on account of nonpayment of rent or other amount owed under the lease." Under the final rule (§ 882.210(b) and § 882.209(m)(1)), the grounds for denial of a new Certificate to a current program participant are the same as the grounds for denial of assistance to an applicant: failure to pay rent or other debt to a PHA in connection with section 8 or public housing, failure to reimburse claims paid by the PHA to a section 8 owner, fraud or breach of program obligation, breach of agreement to pay or reimburse the PHA.

The final rule (§ 882.209(m)(1)) also specifies that a participant who wants to move must request a new Certificate "during or at the end of the term of the Lease." This is intended to clarify that the right to issuance of a new Certificate applies only to a current program participant. A past participant who applies for a Certificate is treated as an applicant for participation in the PHA's program.

2. *Termination of Assistance Payments Under an Outstanding Assistance Contract.* Under the final rule (§ 882.210(d)), the PHA may terminate housing assistance payments under an outstanding HAP Contract for fraud in connection with any federal housing assistance program, or for violation of family obligations under the section 8 program.

The PHA may not terminate housing assistance payments under an outstanding HAP Contract for nonpayment by the family of amounts owed to a PHA or of section 8 owner claims unless the family breaches an agreement for payment of these amounts (§ 882.210(c) and § 882.210(d)(3)). (Nonpayment is, however, grounds for refusing to issue a new Certificate to the family. See section III A of this preamble.)

The regulation also states (§ 882.210(d)) that the listing of bases for termination of a family's housing assistance payments (because of the action of failure to act by the family) does not affect or limit the right of the PHA to exercise any Contract remedy against the Owner, including the termination of housing assistance payments to the owner. Termination of payments to the owner could become necessary, for example, because of the owner's failure to maintain the unit in compliance with the housing quality standards.

IV. Selection of Participants

Selection of applicants for participation in a PHA's section 8 program begins with determination of statutory eligibility. The applicant must qualify as a "family," and must be income eligible (see U.S. Housing Act of 1937, sec. 3; 42 U.S.C. 1437 a (a) and (b); and see § 882.209(a)(2) and Parts 812 and 813). However, there are many more eligible families than the number that can be assisted with the section 8 funds committee by HUD to a local PHA. To distribute the limited assistance among eligible families, the PHA must have some way to choose which families will be assisted, and in what order. The regulations require a PHA to set up procedures to allocate fairly the available Certificates in accordance with definite selection standards which have been approved in advance by HUD (see § 882.204 (b)(1)(i)(C) and (b)(3)(ii) and § 882.209(a)). The PHA selects applicants for participation from the program waiting list in accordance with the HUD-approved policies and procedures stated in the PHA's administrative plan and equal opportunity housing plan (§ 882.209(a)(7)).

The proposed rule (§ 882.209 (a)(2) and (a)(4)) provided that a PHA may establish "requirements or preferences" for selecting applicants, including use of a nondurational residency requirement or preference; and may refuse to issue a Certificate because of fraud, or because

of certain types of conduct of a former section 8 or public housing program participant. However, the PHA would not be allowed to establish selection criteria based on an applicant's "expected behavior as a tenant" (proposed § 882.209(a)(3)).

Under the final rule (§ 882.209 (a)(3) and (a)(4)) a PHA may establish PHA determined "preferences" in selection of applicants (if incorporated in the HUD-approved administrative plan or equal opportunity housing plan). The PHA may not, however, impose PHA designated "requirements" for selection in addition to the basic program eligibility requirements under the statute (see section IV C on elimination of authority of the PHA to establish a residency "requirement").

Provisions on denial of assistance for fraud or for past conduct as a section 8 or public housing program participant are moved from the regulatory discussion of tenant selection (in proposed § 882.209) to the new unified statement of bases for denial of assistance because of action or inaction by the family (in the new § 882.210 of the final rule, discussed above in section III of this preamble).

In addition to prohibiting selection based on an applicant's expected behavior as a tenant, the final rule prohibits the PHA from considering an applicant's "suitability as a tenant" (§ 882.209(a)(5)).

A. PHA Discretion in Establishing Selection Procedures

Comments from legal aid offices object to the degree of PHA discretion in selection of applicants. The comments state that PHAs should be required to use uniform selection procedures, should not be allowed to set local selection preferences and should not have authority to establish selection criteria not required by statute.

The statutory scheme presumes a bias in favor of PHA autonomy and local discretion. The statute is intended to take advantage of the flexibility allowed by administration of the program through State chartered entities sensitive to local concerns and priorities, and able to respond to local conditions (see U.S. Housing Act of 1937, secs. 2, 3(b)(6), and 8(b)(1); 42 U.S.C. 1437, 1437a(b)(6), 1437f(b)(1)). Section 2 of the Act states that "it is the policy of the United States * * * to vest in local public housing agencies *the maximum amount of responsibility in their administration of their housing programs"* (U.S. Housing Act of 1937, sec. 2, 42 U.S.C. 1437).

It is the judgment of the Department that the selection procedures in this rule strike a reasonable balance between the necessary minimum of federal regulatory controls, and the capacity of each PHA to administer the program in accordance with local objectives and circumstances. Removing PHA discretion and authority in selection of program participants in the manner requested by the legal aid comments would forfeit the advantage of program administration by local public bodies.

The statute does not, as suggested by some comments, bar use by PHAs of non-statutory criteria for admission to the program, nor does the statute deny to HUD the authority to regulate the use of such non-statutory criteria by PHAs. The caselaw has very clearly and soundly concluded that PHAs may establish additional non-statutory criteria for program admission which are reasonably related to program objectives (*Baker v. Cincinnati Metropolitan Housing Authority*, 675 F.2d 836, 839–40 (6th Cir. 1982); *Vandermark v. Housing Authority of the City of York*, 663 F.2d 436, 439–40 (3d Cir. 1981)). Preferences function also as an explicit mode of allocation of a finite subsidy resource where there is no reason to favor a federal formula over a local choice.

B. Denial of Participation to Particular Group or Category

A legal aid organization recommends adoption in the Section 8 Existing Housing Program of the current public housing regulatory provision that PHA admission procedures may "not automatically deny admission to a particular group or category of otherwise eligible applicants (e.g., unwed mothers or families with children born out of wedlock)" (§ 860.204(c)(1)).

There is no present need to expand the reach of this regulatory requirement to the Section 8 Existing Housing Program. The section 8 existing annual contributions contract currently prohibits automatic exclusion of participation in the program *"because of membership in a class such as unmarried mothers, recipients of public assistance, handicapped persons, etc."* (ACC, Part II, § 2.5(c), HUD 52520 C (Supp) (10/79), p. 3.) In addition, PHA selection procedures must be approved in advance by HUD. HUD can require elimination of unreasonable selection procedures proposed by a PHA.

C. Residency

The proposed rule did not revise the prior regulatory provisions which allow a PHA to utilize a requirement or preference for persons living in the jurisdiction, but which prohibit a requirement or preference based upon the length of time the applicant has resided in the jurisdiction (proposed rule § 882.209(a)(4); old rule § 882.209(a)(3)). The residency provisions were included in the proposed rule because of an editorial reorganization to accomodate other substantive changes in the rule. However, a comment from a legal aid organization claims that any requirement for local residency before issuance of a section 8 Certificate discourages travel, and therefore violates the constitutional right to travel. The comment states that any residence requirement, even a non-durational requirement, denies assistance to persons too poor to move to a PHA jurisdiction. The comment also argues that it is unnecessary to impose a local residency requirement in order to make the Section 8 Existing Housing Program "politically palatable" in most communities.

The claims that the residency provisions are unconstitutional ignores the established constitutional distinction between a bona fide residence requirement, and a requirement based on length of residence (e.g., *Dunn* v. *Blumstein*, 405 U.S. 330 (1972); *Shapiro* v. *Thompson*, 394 U.S. 618 (1969)). The Constitution does not prohibit a requirement or preference for bona fide residence in the locality as a condition for State benefits, such as subsidized housing.

Local residency preferences serve purposes other than making a section 8 program politically palatable. A community may wish to provide assistance first to families already living in the community before offering assistance to families not yet residing in the community. The residency preference is a device for allocation of a limited pot of assistance.

The final rule (§ 882.209(a)(4) continues to allow PHAs to establish nondurational residency "preferences," and prohibits durational preferences. The PHA may not, however, impose a residency "requirement," which would prohibit selection of non-residents.

D. Owner Responsibility for Selection of Tenants

Legal aid comments assert that allowing PHAs to establish selection requirements and preferences violates the statutory directive that selection of tenants "shall be the function of the owner" (U.S. Housing Act of 1937, sec. 8(d)(1)(A), 42 U.S.C. 1437f(d)(1)(A)).

Under the final rule (§ 882.209(a)(5)), the PHA may not:

establish selection criteria based on the applicant's suitability as a tenant or expected behavior as a tenant. The Owner will select

the tenant. The PHA's selection of an applicant for participation is not a representation by the PHA to the Owner concerning expected behavior of the Family in tenancy of a unit, or concerning the Family's suitability for tenancy.

The provisions of the rule amply comply with the statutory allocation of responsibility for tenant selection.

The statute allocates selection functions between the PHA and the owner, and indicates also that the precise division of functions is subject to HUD requirements. The provision that selection of tenants for existing units is the function of the owner is *"subject to the provisions of the annual contributions contract between the Secretary and the [Public Housing] Agency"* (U.S. Housing Act of 1937, sec. 8(d)(1)(A), 42 U.S.C. 1437f(d)(1)(A)). Under the annual contributions contract, the PHA administering a Section 8 Existing Housing Program agrees to comply with HUD regulations and requirements for the program.

In describing the respective roles of the PHA and the owner, the Congress has referred to "the basic responsibility over tenant selection which, under current law, rests solely with the *PHA and owner"* (Conference Report, Housing and Community Development Amendments of 1979, H.R. Rep. No. 96-706, 96th Cong., 1st Sess. 55 (1979)) (emphasis supplied). The PHA selects a family to be assisted under the program, if and when the family rents a suitable unit. The owner selects tenants for occupancy of the owner's units. Indeed, under the structure of the Section 8 Existing Housing Program, the PHA has no way of forcing an owner to select and rent to a family holding a Certificate. On the other hand, the owner has no involvement with the separate process by which a PHA selects families for participation in the program.

Legal aid comments claim that allowing PHAs to reject an applicant because of the applicant's past conduct as a section 8 or public housing tenant violates the requirement that the selection of tenants is the function of the owner. However, the regulatory grounds for denial of admission (§ 882.210, see discussion at section III of this preamble) do not permit the PHA to deny assistance because of a family's suitability or expected behavior as a tenant. The responsibility for tenant selection is left to the owner. The owner decides whether a family holding a Certificate from the PHA will be selected to reside as a tenant in the owner's unit. The grounds for denial of admission because of past conduct of the applicant (§ 882.210(b)) all deal with actions by the applicant related to past participation in a federal housing assistance program (fraud or violation of section 8 program obligations, failure to pay amounts owed to a PHA or to reimburse section 8 owner claims paid by a PHA). The PHA is responsible for determining who may receive a subsidy under the program. This is not the function of the owner. The PHA's decision to deny assistance because of the family's past conduct in Federal housing programs does not in any way compromise the owner's choice to rent or not to rent a unit to a family holding a Certificate.

Unlike the comments from legal aid offices, individual and PHA comments favor allowing the PHA to deny assistance to a past section 8 program participant who violated the lease, failed to pay rent or vacated the unit in violation of the lease. A PHA comment states that the PHA should be able to deny a Certificate for verified undesirable behavior as a section 8 or public housing tenant. Another comment recommends that PHAs should be able to screen applicants, for their past tenancy and credit record. The comments suggest that the admission of tenants with a history of lease violation reduces the credibility of the program among owners, and will affect owner participation.

The Department is sensitive to the importance of the concerns reflected in the comments. The ability of the Section 8 Existing Housing Program to provide a broad choice of housing opportunities to program families depends completely on the voluntary choice of private owners to rent their units under the program. The ability of a PHA to induce owners to rent units to Certificate holders may be affected by the characteristics of families selected by the PHA to participate in the program.

However, a family unacceptable to one owner may be acceptable to another. Leaving screening of prospective tenants to the owner offers the family the maximum opportunity to find a unit in the local housing market. In selecting tenants, the private landlord may use whatever credit checks or screening process best suits the landlord's interest (subject of course to applicable fair housing limitations). The landlord may apply this process to any prospective tenant, including a section 8 Certificate holder. In deciding whether to rent to a family, the owner's judgment should dictate the level and type of tenant screening.

There is also considerable administrative advantage to PHAs in avoiding screening for expected behavior or suitability as a tenant. Because screening is not the responsibility of the PHA, the PHA does not need to decide whether the PHA has enough information to justify withholding assistance. The PHA can, however, emphasize to the owner, before execution of an assistance contract for a unit, that the PHA has not pre-screened the family for suitability or behavior and that, as with any other private market tenant, this is the job of the owner.

E. Waiting List

Prior to this rule, requirements for administration of a PHA waiting list were handled separately (old § 882.207 (b) and (c)) from the procedures for selection and issuance of Certificates (old § 882.209). The final rule merges the regulatory treatment of waiting list procedures into the treatment of PHA selection procedures (in § 882.209(a) (7) and (8), for a clearer presentation of the sequence of procedures leading to family participation in the PHA program.

The regulation continues the requirement for the PHA to maintain a waiting list of income eligible families which have applied for participation in the program (§ 882.209(a)(7)). However, under the old regulation (§ 882.207(c)), the PHA could suspend taking of applications only if there "is no reasonable prospect" that additional Certificates can be issued in the next year, and must make public announcement of the suspension. The new regulation provides that if there is insufficient funding to admit all eligible applicants for participation, the PHA may *at any time* suspend the acceptance or processing of new applications, or the addition of new listings to the waiting list (§ 882.209(a) (8)).

This revision will allow PHAs more flexibility in administration of the waiting list. The change will also tend to minimize PHA expenses in processing of applications, and in maintenance of the waiting list. The PHA is able to judge whether additional applications are necessary to enlarge the pool of eligible applicants to whom Certificates may be issued. The regulation continues the requirement for public announcement of a suspension.

F. Implementation of Statutory Selection Preference

A 1979 statutory amendment requires a preference for selection of families which occupy substandard housing or are involuntarily displaced at the time they are seeking assistance (amendment of sec. 8(d)(1)(A) of the U.S. Housing Act of 1937, Housing and Community Development Amendments of 1979, sec.

206(b)(1), Pub. L. 96–153, 42 U.S.C. 1437f(d)(1)(A)). A comment from a legal aid organization urges that implementation of the 1979 preference should be included in the rule. The 1979 preference provision was amended by the Congress in 1983 to expand the preference requirement to cover families who "are paying more than 50 per centum of family income for rent" (amendment of section 8(d)(1)(A) of the U.S. Housing Act of 1937, by Housing and Urban-Rural Recovery Act of 1983, Title II, sec. 203(b)(1), Pub. L. 98–181).

The 1979 preference, as amended in 1983, will be implemented in a separate rulemaking, which will cover parallel statutory requirements for preference in selecting families for various types of assisted housing, including section 8 existing. This is desirable in order to assure a uniform implementation of the statutory preference requirements applicable in the different programs.

G. Statement of Selection Procedures: Equal Opportunity Housing Plan and Administrative Plan

Under the proposed selection and hearing rule, PHA selection procedures, including any preferences or requirements for selection, must be stated in a single, HUD-approved "equal opportunity housing plan" (§ 882.204(b)(1)). The preamble stated (47 FR 32170) that "PHA discretion in determining selection criteria and preferences should be limited only by statutory eligibility limitations and the distinctive set of policy concerns which are evoked by equal housing opportunity review." The proposed change in selection procedures is not adopted in the final rule.

A comment from a legal aid service organization recommends that a statement of selection criteria and preferences should be retained in the PHA's administrative plan, and should be reviewed by HUD personnel with responsibility for programmatic issues.

A PHA urges that certain types of preference factors (such as excess rent burden, displacement, occupancy of substandard housing, handicap or disaster) should be in the administrative plan rather than the equal opportunity housing plan.

On reconsideration, the Department has decided to preserve the separate roles, under prior practice, of the administrative plan and the equal opportunity housing plan in establishing the PHA's selection procedures. Administration of selection requirements involves factors not characteristically considered in the province of an equal opportunity review. The equal opportunity housing plan is best used to express the particular equal opportunity concerns in selection of tenants.

The final rule provides that the PHA must select applicants for participation in accordance with policies and procedures, including any preferences, stated in the administrative plan *or* equal opportunity housing plan (§ 882.209(a)(7) and § 882.209(a)(3)). The regulation now indicates the special role of the equal opportunity housing plan. The final rule (§ 882.204(b)(1)(i)(C)) states that the *equal opportunity housing plan* must describe the PHA's policies and procedures for "selecting Families for participation without discrimination because of age, race, color, religion, sex, handicap or national origin." On the other hand, the regulation (§ 882.204(b)(3)(ii)) states that the PHA's *administrative plan* must state the PHA's policies and procedures for "handling applications and determining Family eligibility"and "selecting Families for participation in the PHA's Section 8 program (including any selection preferences)."

A PHA comment expresses concern that the PHA should not be restricted to stating its selection criteria in the equal opportunity housing plan. Neither the proposed nor the final rule limits the ability of the PHA to publicize the nature of its selection requirements in any desired form.

V. Unit Size

The proposed rule on applicant selection and informal hearings deals with two aspects of a PHA's standards for determining the unit size which is entered on a family's Certificate. First, the proposed rule (§ 882.209(b)(i)) gives the PHA flexibility in establishing standards for determining the appropriate unit size ("number of bedrooms or other sleeping rooms") for different types of families. Second, the proposed rule (proposed § 882.209(b)(ii)) allows the PHA to establish criteria for granting exceptions from the unit size standards. Both aspects were the subject of public comment.

Under the proposed rule, a PHA's unit size standards must provide for efficient use of program resources while avoiding overcrowding, and must be consistent with the housing quality standards (which establish minimum requirements for approval of a unit selected by a family). A comment from a former PHA employee recommends that HUD prescribe a nationally developed occupancy standard. A comment from a legal aid service organization asserts that because of the PHA discretion allowed under the rule some PHAs may establish unit size standards that will cause hardship to program families. The comment also objects to deletion of the prior regulatory requirement that the bedroom size assigned (on the Certificate) may not require persons of opposite sex, other than husband and wife or very young children, to occupy the same room.

The Department has considered the comments, but has decided to allow considerable discretion to PHAs in establishment of unit size standards, rather than dictate for all PHAs national standards governing the number of bedrooms for a family. The final rule requires (§ 882.209(b)(2)) that:

> The PHA shall enter on the Certificate the smallest number of bedrooms consistent with standards established by the PHA for determining the number of bedrooms for Families of different sizes and compositions. The PHA's standards shall provide for the minimum commitment of housing assistance payments while avoiding overcrowding and shall be consistent with the applicable housing quality standards * * *.

The regulation as adopted sufficiently controls the discretion of PHAs in determining unit size standards, while allowing PHAs to adjust unit size standards to local circumstances. The Department addresses this issue in the spirit of the statutory objective to leave maximum discretion to PHAs in the administration of their section 8 programs, and of the broad national objective of deregulation across the spectrum of federal programs.

To understand the regulatory provisions it is necessary to distinguish the function of the Certificate unit size standards (under amended § 882.209(b)(2)), as contrasted with the function of the housing quality standards ("HQS") (especially the HQS space and security standards in § 882.109(c)). The Certificate unit size standards are used to determine the maximum fair market rent (expressed in number of bedrooms) for a unit rented by a family (cf. definition of "unit" in § 882.102 and cf. § 882.106 and § 888.102(b) (as revised 48 FR 43582)). The HQS are used to evaluate the characteristics of the individual unit selected by a family, so that units subsidized under the program are decent, safe and sanitary, as determined under minimum program standards. The Certificate unit size standards limit the rent that can be paid for a unit, while the HQS determine whether the unit can be subsidized under the program at any rent.

Under the final rule (§ 882.209(b)(2)), the PHA is required to establish occupancy standards to govern the number of bedrooms entered on the

Certificate issued to a family. The PHA occupancy standards must provide for the smallest subsidy level which will avoid overcrowding of a family, and will permit the family to rent a unit conforming with HQS. When issuing a Certificate, the PHA must enter the number of bedrooms for which the family is eligible under the PHA standards.

The proposed and the final rule do not relax the HQS standards in any way. The HQS (§ 882.109(c)) provide, first, that the unit must afford the family "adequate space and security" (minimum requirement), and, second, that there must be "at least one *bedroom or living/sleeping room* of appropriate size for each two persons". This standard may be modified with approval of the local HUD office (as in the case of all HQS acceptability criteria). Previously the HQS required at least one *"sleeping* or living/sleeping room" for each two people (§ 882.109(c)(2) of prior rule). This technical amendment clarifies the purpose of the original HQS standard.

Another amendment (§ 882.209(i)(2)) specifies that the PHA may not prohibit a family from renting a unit with fewer bedrooms than the number stated on the Certificate. The smaller unit must, however, satisfy the regular HQS requirements. Thus, where the PHA unit size standards as applied to a family exceed the HQS minimum, the family has the choice of renting a unit up to the maximum FMR (by bedroom size) allowed under the Certificate, or down to the HQS minimum.

Comments from a legal aid office and a PHA object to deletion of the minimum bedroom requirement in the unit size standard. The legal aid comment states that families will be pressured by PHAs and owners into accepting units which are unsafe and unsanitary. The PHA objects to counting a living room as a sleeping room under HQS. The regulation change does not lower HQS minimums. The regulation permits the family to shop for a unit which satisifies the HQS space and other requirements, and which can be rented within the applicable FMR. At the same time, the PHA is required (§ 882.209(b)(2)) to establish Certificate unit size standards higher than the HQS minimum where necessary to avoid overcrowding.

A. Occupancy Standards—Family Members of Opposite Sex

The Department agrees with comments advising that the regulation should continue to prescribe minimum unit size standards for persons of different sex who are members of an assisted family. In the final rule, this concern is addressed in the determination of unit acceptability under HQS rather than in the Certificate unit size standards, as under the prior regulation (old § 882.209(a)(2)(ii)). The following provision has been added to the HQS "acceptability criteria" for unit space and security:

> Persons of opposite sex, other than husband and wife or very young children, shall not be required to occupy the same bedroom or living/sleeping room.
> (§ 882.109(c)(2))

The number of bedrooms entered on the Certificate issued to a family must be consistent with the amended HQS acceptability requirement on occupancy by persons of opposite sex.

It should be noted that whereas the old Certificate unit size standards established a minimum number of *bedrooms* ("bedroom size") for persons of opposite sex, the new HQS criterion is a limitation on occupancy of the same "bedroom *or living/sleeping room"* by persons of opposite sex.

B. Granting of Exceptions to Unit Size Standards

Under the judgment of the United States District Court in the *Nichols* case, a PHA which terminates or reduces section 8 subsidy to a recipient family because of a change in family size and composition must notify the recipient of any right to waiver of family size requirements, and of the grounds on which a waiver may be granted by the PHA.

The proposed rule (selection and hearing) (§ 882.209(b)(ii)) would have permitted a PHA to: "grant exceptions from the PHA unit size standards * * * to allow the assignment of a larger unit size than that established under the standards if warranted by the relationship, age, sex, health or handicap of the Family members." Comments from legal aid offices state that the proposed provisions do not satisfy the *Nichols* order, since the provisions do not use the word "waiver" and do not establish a "right" to a waiver, that the right to a waiver should be mandatory, not discretionary, and should be built into the unit size standards, or that families should have a "mandatory right to a waiver" if they can show "unique reasonable circumstances" that demonstrate "good cause" for deviation from the standards.

With respect to terminology, HUD believes that the authority for an "exception," as provided in the regulation, is the same as a "waiver," i.e., authority for the PHA to treat special cases in a special manner. The term "exception" will be more readily understood by PHAs and families. The Department prefers to reserve the term "waiver" for a provision relieving obligations under an outstanding Department regulation (see Part 899, Subpart A).

The final rule (§ 882.209(b)(2)) provides that:

> The PHA shall grant exceptions from the standards if the PHA determines the exceptions are justified by the relationship, age, sex, health or handicap of Family members, *or other individual circumstances.* (emphasis added)

The provision allowing exceptions justified by "individual circumstances" is new, and is intended to afford the PHA additional latitude to respond to special needs in individual cases. In each case, the determination to grant an exception from the standard rests in the PHA's administrative discretion.

HUD does not believe, as suggested by the comments, that the order in *Nichols* requires that the regulations specify the grounds for waiver of unit size standards by each PHA participating in the program. The order requires that a PHA notify the participant of the grounds for which a waiver may be considered by the PHA (see discussion in section V C below). Different PHAs have different unit size standards which reflect local circumstances and the administrative judgment of the individual PHAs. Similarly, there should be local discretion to define the types of circumstances in which the PHA may consider a waiver of the local standards to meet the unique problems of individual families.

HUD also does not agree that granting a waiver by a PHA must be mandatory under the court order, or that circumstances in which a waiver must be given must be predefined in the PHA standards. The order requires notice of the grounds upon which a waiver "*may* be granted" by a PHA. As stated in a PHA comment, exceptions from unit size standards should be based on the circumstances of individual cases. The purpose of providing for a "waiver" is to allow the PHA flexibility to respond to special cases and problems not adequately treated in the generally applicable PHA unit size standards.

C. Notice of Grounds for Exception

The proposed rule stated that the PHA criteria for granting exceptions from the unit size standards, and the procedures for granting exceptions shall be made available to applicants and participating families (proposed § 882.209(b)(1)(2)). The comment from counsel for the *Nichols* plaintiff states that the

proposed requirement that exception criteria must be "made available" does not satisfy the *Nichols* obligation to give notice of the right to a waiver. A comment from a PHA, however, objects to the requirements to make the grounds for exception available to applicants and participants since it is difficult to foresee all possible reasons for exception.

The decree in *Nichols* applies to a participant ("recipient") whose assistance is reduced or terminated pursuant to § 882.213 because of a decrease in family size. To clarify the Department's action to comply with the notice requirement of the *Nichols* decree, the provision for notice to a recipient "of his right to a waiver and the grounds upon which a waiver may be granted" is now incorporated in § 882.213, and provides in terms that the PHA must "notify" the family that exceptions to the unit size standards may be granted and of the circumstances in which the grant of an exception will be considered by the PHA.

VI. Status of Applicant and Participant

The United States Housing Act of 1937 sets the minimum conditions of eligibility for assistance under the Section 8 Existing Housing Program, but does not create an entitlement of any individual to section 8 assistance. The rule has now been amended to make clear that nothing in the rule is intended to create or imply any right to participation in the program. The rule acknowledges, however, that an applicant may have a right, independent of the rule, to bring a judicial action challenging a PHA's violation of a constitutional or statutory requirement (e.g., equal opportunity requirements under Title VI or Title VIII), and states that the rule is not intended to affect such a right of action:

> Nothing in this Part is intended to confer on an applicant for participation any right to be listed on the PHA waiting list, to any particular position on the waiting list, to receive a Certificate, or to participate in the PHA's program. The foregoing sentence shall not be deemed to affect or prejudice any judicially-recognized cause of action. (§ 882.209(a)(9))

The status of an applicant is different from that of a participant. It is important to define the point at which a family moves from the status of "applicant" to the status of "participant":

> A Family becomes a participant in the PHA's Secton 8 Existing Housing Program ("participant") *when the PHA executes a Contract with an Owner for housing assistance payments on behalf of the Family.* (§ 882.209(a)(1)) (emphasis supplied)

The program regulation has been revised at various points to reflect the distinction between an applicant and a participant, and to define regulatory requirements applicable to each stage of program participation (see especially, § 882.216). The revisions will remove confusion under the prior rule as to the status and rights of a family at the preliminary stages which may lead to participation in the program.

VII. PHA Review of Decisions Affecting an Applicant or Participant

Before promulgation of this rule, a single set of minimum hearing procedures applied to both applicants to the program and current participants in the program (Handbook 7420.7, section 10–8, revised November 1979). In the same way, the proposed rule (selection and hearing) provided for a single hearing procedure without distinguishing between applicants and current program participants (although the *Nichols* decision only mandated a rulemaking proceeding for the certified class of participants whose assistance is terminated or reduced because of change in family size or composition). The proposed procedures were essentially the same as in the handbook.

In the preamble to the proposed rule, the Department invited comment on "alternative regulatory patterns" which would grant PHAs greater discretion to fashion locally developed informal hearing procedures after giving "due consideration" to the elements of a fair hearing.

After careful examination of public comments on the proposed rule, the Department has determined:

PHA review procedures will be separately defined for applicants and for current participants in the program.

The regulation will state mimimum procedures for PHA review of determinations concerning an applicant of participant.

For an applicant, the minimum procedures will require prompt written notice of a PHA determination, and use of a simple and informal procedure for PHA review of the determination. The applicant will have the opportunity to present written or oral objections to the determination.

For a participant, the PHA will be required to provide an opportunity for an informal hearing to review certain PHA determinations relating to the individual circumstances of the participant. The purpose of the hearing is to consider whether a PHA decision is in accordance with PHA rules and HUD regulations.

A. PHA Discretion in Development of Review Procedure

Legal aid comments generally advocate imposing strong, uniform and specific hearing requirements on PHAs. The comments state that PHAs lack the resources and expertise to develop hearing systems on their own, that there are no geographic distinctions justifying local determination of proper hearing procedures, that PHA staff prefer the security of HUD prescribed hearing guidelines, that PHAs will exercise poor discretion if given a choice, that failure to mandate specific hearing procedures will result in litigation, and that specific HUD hearing requirements are necessary for the protection of tenants. Legal aid comments object also that the alternative procedures would only require the PHA to give "due consideration" to basic elements of a due process hearing.

Comments from several PHAs and from a legal aid office state that PHAs should have flexibility in devising hearing procedures for different situations. A PHA comment notes the demand on PHA administrative time if a PHA tries to offer the same level of protection to everyone.

On reconsideration, HUD believes that there are compelling reasons for the Department to specify minimum procedures for appeal of PHA determinations for each of the two major phases of a family's involvement in the program: first as an applicant, and then as a participant. The Section 8 Existing Housing Program is administered by PHAs which differ greatly in program size and administrative resources. Many PHAs do not presently have the expertise and capacity to devise procedures for review of PHA decisions, or may welcome the assurance of HUD-determined minimum procedures. The Section 8 Existing Housing Program functions in much the same way in different places, in accordance with a simple national program design.

The Department has not adopted the alternative hearing approach discussed in the preamble to the proposed rule. The final rule prescribes minimum review procedures for use by all PHAs. The desirability of recognizing differences in the character and importance of the private interests affected by PHA determinations is built into the review and hearing procedures provided in the regulation, by providing separate procedures for applicants and for current program participants (see § 882.216).

B. Review Procedure for Applicants

1. *Public Comments.* Several PHA comments recommend the use of a simple review procedure for applicants. A PHA suggests that an applicant should simply be given an opportunity to meet with a PHA representative. Another PHA states that where an applicant is determined ineligible, the PHA should give written notice of ineligibility, and an opportunity for an interview and review by an impartial official of the PHA. A PHA comment claims that since the determination of applicant ineligibility is generally based on HUD requirements, the hearing for an applicant is useless.

2. *Factors Considered.* Where an applicant seeks admission to the Section 8 Existing Housing Program, neither the statute nor the regulation create any property right to assistance under the Act, or to PHA action which may lead to participation in the program (see section VI of this preamble; see § 882.209(a)(1) and § 882.209(a)(9)). Since the applicant has no property right, a PHA is not constitutionally required to provide any administrative due process hearing on PHA determinations to grant or deny participation to an applicant. The Department has decided, however, to require that PHAs provide an applicant the opportunity for informal review of a decision denying assistance to an applicant, in order to minimize mistakes by the PHA in application of the PHA's selection procedures.

In determining procedures for PHA review of PHA decisions on applications for participation, the Department has balanced possible benefits for the applicant against the programmatic, fiscal and administrative costs of procedural safeguards, and has considered the following factors:

There is a very large pool of program eligibles in relation to the number of places available. Admission to the program does not follow from mere proof of eligibility.

A determination that a family is eligible, and to list the family on the PHA waiting list, means only that the family can stand in line for assistance. There is no guarantee that a determination of eligibility or listing on the waiting list will ever actually result in issuance of a Certificate, or that, if a Certificate is issued, the family will find a landlord who will accept the family as a suitable tenant.

Because of the great number of potential applicants, the administration of procedures for reconsideration of decisions on applicants may be a substantial burden on the administrative capacities and fiscal resources of a PHA.

There is only one source of funding for housing assistance payments to families and for PHA expenses in administration of the Section 8 Existing Housing Program (U.S. Housing Act of 1937, sec. 5(c) and sec. 8, 42 U.S.C. 1437c(c) and 1437f). If PHA administrative fees are increased to cover increased PHA costs in administering procedures for review of PHA determinations, less money remains for assistance payments to families.

The Section 8 Existing Housing Program has definite and limited resources. The admission of one family means that admission must be denied to some other eligible family.

The chances of admission to the program are determined by the assistance resources available to the PHA, and the operation of the waiting list, rather than by the isolated consideration of facts relating to a particular family. The operation of this selection procedure can best be monitored by HUD review of the PHA management practices, rather than by determinations in PHA hearings for individual applicants.

A PHA hearing process is at best an imperfect device for the determination of controverted fact. PHAs do not have the power to subpoena evidence or witnesses. Even within the limits of the PHA's capacities to conduct hearings, there is an inescapable dilemma: the more elaborate the procedure for PHA review of decisions affecting an applicant, the more burdensome and expensive to the PHA; the less elaborate the procedure, the less effective in determining matters of disputed fact.

3. *Procedures Required.* Having weighed all the above considerations, the Department has decided to require PHAs to establish a simple but effective procedure for informal review of PHA determinations on an application for admission to the program. Under the final rule (§ 882.216(a)(1)) the PHA must give an opportunity for an informal review of a decision denying an applicant:

Listing on the PHA waiting list.

Issuance of a Certificate of family participation.

Participation in the program (i.e., execution of an assistance contract on behalf of the family).

The PHA review procedure must include the following elements (§ 882.216(a)):

Prompt written notice of a PHA decision denying assistance to the applicant. The notice must give a *brief statement of the reasons for the decision.* The notice must also state that the applicant may request an informal review of the decision, and describe how to obtain the review.

(§ 882.216(a)(1))

An *opportunity for informal review* of the PHA decision, in accordance with *review procedures established by the PHA.*

Review by *any person or persons designated by the PHA, other than a person who made or approved the decision under review or a subordinate of such person.*

Opportunity for applicant to present written or oral objections to the PHA decision.

Prompt written *notice of the final PHA decision, including a brief statement of the reasons for the decision.*

(§ 882.209(a)(2))

4. *Subjects Covered by Applicant Review Process.* Comment from a legal aid organization contends that a hearing should be required for any PHA action affecting the interest of an applicant or participant. Comments from PHAs on the other hand, suggest limitations on the requirement for a hearing. PHA comments state that a hearing is unnecessary if a tenant fails to supply required information, or fails to keep appointments. PHAs recommend elimination of a hearing requirement for a PHA determination that a family is not eligible for assistance, for a PHA determination of the appropriate unit size for a family (number of bedrooms on Certificate), for a PHA determination that the unit selected by a family is not in accordance with HQS, or for a PHA determination not to extend a Certificate.

Under the final rule, the PHA is required to offer the applicant the opportunity to present objections to a PHA decision denying assistance to the applicant. However, the regulation (§ 882.216(a)(3)) provides that the informal review requirements for applicants do not apply to the following types of determinations, which are properly left to the administrative discretion of the PHA, or which are controlled by applicable program requirements:

To review discretionary administrative determinations by the PHA, or to consider general policy issues or class grievances.

To review the PHA's determination of the number of bedrooms entered on the Certificate under the PHA's unit size standards.

To review the PHA's determination that a unit located by a Certificate

holder does not comply with the HQS, or the PHA's determination not to approve the lease for the unit.

To review the PHA's decision not to approve a request by a Certificate holder for an extension of the term of the Certificate.

C. PHA Hearing Procedure for Participants

The proposed selection and hearing rule (proposed § 882.216(a)(2)) would have required the PHA to provide the opportunity for an informal hearing whenever assistance to a Certificate-holder is *terminated or reduced.* Under the final rule, the PHA is required to provide the opportunity for an informal hearing on key PHA decisions which affect the interests of a participant (§ 882.216(b)(1)). The regulation defines, with more precision than in the proposed rule, the purpose and subjects of the hearing for program participants.

1. *Purpose of Hearing for Participant.* The hearing process under the final rule is designed to assure that decisions by the PHA with respect to a participant family comply with applicable rules. The hearing process does not displace the regular PHA administrative process for matters committed to PHA discretion and management judgment.

The PHA must provide the opportunity for a hearing to consider if a PHA decision is *"in accordance with law, HUD regulations and PHA rules"* (§ 882.216(b)(1)). Thus, the participant may not claim a hearing on a PHA decision merely because the family objects to a law rule. The right to a hearing applies only when the family is claiming that the law or rule has been incorrectly applied by the PHA. For example, if the percentage of income the family must contribute for rent increases because of a change in statutory rental requirements, the family has no right to a hearing unless the family claims that the PHA has made a mistake in computing the family's contribution under the statute and implement HUD rules.

The participant hearing requirements applies only to PHA decisions "relating to the individual circumstances of the Family" (§ 882.216(b)(1)). Correspondingly, the PHA is not required to provide an opportunity for an informal hearing "to review discretionary administrative determinations by the PHA, or to consider general policy issues or class grievances" (§ 882.216(b)(2)(i)).

2. *Subject of Hearing for Participant.* At a family's request, PHA must provide the opportunity for an informal hearing to consider if the following types of decisions are in accordance with law, HUD regulations and PHA rules (§ 882.216(b)(1)):

A determination of the amount of the family contribution to rent (Total Tenant Payment or Tenant Rent) (§ 882.216(b)(1)(i)).

The rule specifies that the administrative hearing requirement does not apply to the determination of the PHA's schedule of Utility Allowances for families in the PHA's section 8 program.

A decision to deny or terminate assistance on behalf of the participant (§ 882.216(b)(1)(ii)).

A determination that a participant is residing in a unit with a larger number of bedrooms than allowed under the PHA unit size standards, or to deny the participant's request for an exception from the standards (§ 882.216(b)(1)(iii)).

A determination of the number of bedrooms to be entered on the Certificate of a participant family which wants to move to another unit (§ 882.216(b)(1)(iv)).

a. *Determination of Family Rent.* The section 8 subsidy is the difference between the family contribution, as determined by a statutory formula, and the full rent for a unit. The regulation requires the PHA to provide the opportunity for an informal hearing on a PHA determination of the amount of the family contribution (total tenant payment and tenant rent (as determined under 24 CFR Part 813) (§ 882.216(b)(1)(i)).

b. *Termination or Denial of Assistance.* The requirement to provide the opportunity for an informal hearing applies to a PHA decision to terminate or deny assistance for a participant (§ 882.216(b)(1)(ii)). Thus the PHA must give a hearing when the PHA terminates assistance payments under an outstanding assistance contract, and when the PHA denies issuance of a new Certificate to a participant who wants to move.

c. *Unit Size Determination.* A PHA comment objects to the requirement for an informal hearing on a PHA determination of the appropriate unit size entered on the Certificate issued to a family, Under the final rule, the requirement to provide the opportunity for an informal hearing will apply: (1) To a determination that a participant family is residing in a unit with a larger number of bedrooms than appropriate under the PHA unit size standards (the *Nichols* situation) and to the denial of the family's request for an exception from the standards (§ 882.209(b)(2), § 882.213 and § 882.216(b)(1)(iii)), and (2) in the case of an assisted family which wants to move to another unit, a determination of the number of bedrooms to be entered on the Certificate issued to the family under the PHA standards (§ 882.209(m)(1) and § 882.216(b)(1)(iv)).

3. *When Hearing Is Not Required.*—a. *Sanctions Against Owner.* Under the proposed rule (selection and hearings), the PHA is not required to provide the opportunity for a hearing to a participant when the PHA exercises any sanction against an owner under the assistance contract, including the termination of housing assistance payments to the owner (proposed § 882.216(a)). Several legal aid comments object to this provision.

The final rule retains (§ 882.216(b)(2)(iii) the exception. The Department considers of paramount importance the need to encourage vigorous enforcement by PHAs of owner obligations under the housing assistance payments contract. It is the reponsibility of the PHA to monitor owner compliance with the assistance contract, and to decide whether and when to take action against the owner under the assistance contract because of the owner's breach of contractual obligations to the PHA under the assistance contract.

The determination of the appropriate contractual remedy against the owner involves the exercise of PHA discretion and judgment. For this reason, the decision to impose sanctions against an owner is not an appropriate subject for the participant hearing process. The judgment of the PHA is based on the overall interests of the local assistance program and the enforcement of national program requirements, such as the owner's obligation to maintain the unit in accordance with HQS.

When assistance payments to the owner are terminated because of owner violations of the contract, the participant may obtain a new Certificate, move to a new unit, and continue to receive subsidy under the program. The participant may prefer not to move, and may, for example, be willing to put up with substandard conditions in the unit, to avoid the inconvenience and expense of a move. However, for the benefit of the program, and to assure the proper application of section 8 subsidy funds in accordance with the statutory purpose (i.e., to assist tenants of decent, safe and sanitary housing), the exercise of contractual sanctions against the owner should not be delayed pending an administrative hearing process on behalf of the tenant.

Although the assistance contract is between the owner and the PHA is for the benefit of the family, the family has no direct right under the contract, either as a contractual party or third party

beneficiary. The assistance contract for the Section 8 Existing Housing Program provides explicitly that the family does not have any right to enforce the assistance contract, or to assert any third party claim under the contract section 23 of assistance contract, HUD 52535, 10/82).[1]

b. *PHA Determination on Unit Compliance With HQS.* PHA comments object to a requirement for informal hearing on a PHA determination that a unit is not up to HQS. For participants, the final regulation states (§ 882.216(b)(2)(ii)) that the PHA is not required to provide the opportunity for an informal hearing to review the PHA's determination that a unit does not comply with HQS, that the owner has failed to maintain or operate the unit to provide decent, safe and sanitary housing in accordance with the HQS (including all services, maintenance and utiities required under the lease), or that the unit is not decent, safe and sanitary because of increase in family size or change in family composition.

The HQS implement the statutory purpose to provide subsidy for a family living in decent, safe and sanitary housing. The PHA must enforce the HQS requirements even if the family is willing to live in housing which does not meet the program standards. As with the decision to enforce contractual sanctions against the owner, the determination that a unit does or does not satisfy HQS is a responsibility entrusted under the regulation to the administrative judgment of the PHA. The participant has no right to participate in this determination, and the PHA is not required to afford the opportunity for informal hearing on the determination.

c. *Extension of Certificate.* Under the proposed rule, the right to an informal hearing applies to a Certificate holder whose assistance is terminated "by refusal to renew a Certificate or otherwise" (proposed § 882.216(a)(3)). PHA comments object to a requirement for informal hearing to challenge a PHA decision on extension of a Certificate.

After a Certificate is issued (to an applicant or a participant), the family has sixty days to find a unit (§ 882.209(c)(1)). The family may ask for extensions of the period to find a unit, for a maximum total Certificate life of 120 days (§ 882.209(d)(2)). The regulation gives the PHA discretion to decide whether or not to grant an extension of the Certificate beyond the initial sixty days (within the maximum allowable period); the regulation does not give the family any right to an extension of the original sixty day Certificate period.

The Department agrees with the comment by a PHA that the decision whether to extend a Certificate is not an appropriate subject of the hearing process. The final rule (§ 882.216(b)(2)(iv)) states that the PHA is not required to afford the opportunity for an informal hearing to review the PHA's decision not to approve a participant family's request for extension of the Certificate.

Extension beyond 120 days is prohibited by the regulation, and consequently is not a proper subject of the hearing process. Extension for up to sixty days after the initial search period is a matter that by regulation is left to the PHA's administrative discretion. In exercising this discretion, the PHA may consider the likelihood of the participant family finding a unit in the period provided; the overall administrative demands on the PHA; and the desirability of releasing funds for use by other families. While the participant may ask for an extension of the Certificate, the participant has no right to an extension.

4. *Furnishing Description of Hearing Procedures to a Participant.* Under the rule, the PHA is required to adopt written procedures for conducting informal hearings for particpants (§ 882.216(b)(6)).

Information on the hearing procedures is included in the packet of information given to a family when the Certificate is issued (§ 882.209(b)(4)(vii)). The information contains a general description of the hearing procedures, including a description of the circumstances in which the PHA is required to provide the opportunity for an informal hearing, and of the procedures for requesting a hearing.

5. *Notice of Determination and Right to a Hearing.* The proposed rule (selection and hearings) required the PHA to notify the "Certificate holder" of any PHA decision to "deny, defer, terminate or reduce" housing assistance, and that the Certificate holder may request an informal hearing (proposed § 882.216(b)).

The final rule (§ 882.216(b)(3)(i)) requires the PHA to give prompt written notice of a determination (1) to deny or terminate housing assistance to the participant, or (2) that the unit in which a family is living is too large under the PHA unit size standards, or to deny the family's request for an exemption from the standards. The notice to the participant must contain a brief statement of the reasons for the decision. The notice must also state that the participant may request an informal hearing on the decision, and the time by which the request for an informal hearing must be made by the participant.

The final rule (§ 882.216(b)(3)(ii)) provides that when the PHA determines: (1) The amount of the family contribution to rent, or (2) the number of bedrooms entered on the Certificate of an assisted family which wants to move to another unit, the PHA must notify the participant that the participant may ask for an explanation of the basis for the PHA determination and that the participant may request an informal hearing on the determination.

By statute, family income is reexamined at least annually, and the family share of the rent is recomputed in accordance with a statutory formula. This reexamination and redetermination is carried out every year for all participant families. For almost all families, the rental determination is a technical application of the HUD-prescribed rent computation procedures to the income information furnished by the family. The need for an informal hearing on a rental determination applies only in that small minority of cases in which the family desires to challenge the legal correctness of the PHA's rental computation (including the factual basis for the computation). The family can request an explanation of the rental computation. The PHA may, for example, furnish the family a copy of the PHA worksheets showing the rental computation.

The decision on the Certificate unit size determination is also part of the PHA's routine administrative process. The unit size is stated on the Certificate issued to the family. There is no need to require separate notice of the unit size determination. The participant may ask for an explanation of how the unit size was determined under the PHA unit size standards.

Legal aid comments recommend that the regulations state that the PHA notice to a participant must give the factual basis for a proposed decision. The Department believes that the regulatory requirements for notice of the reason for decision (termination of assistance, family in oversized unit), or of the opportunity for explanation (rent, unit size on Certificate) are sufficient to

[1] In *Holbrook v. Pitt*, 643 F.2d 1261 (1981), reh. den. July 7, 1981, the Seventh Circuit held that tenants in another section 8 program were third party beneficiaries of the assistance contract between HUD and the project owner. The assistance contract at issue in that case did not include a contractual disclaimer of intent to create third party rights under the contract. The existence of a third-party beneficiary claim depends on the intention of the original parties, as expressed in the contract, to create a direct right of enforcement in the third party beneficiary.

inform the family of the basis for a decision, and to enable the family to present objections effectively at an informal hearing.

6. *Time of Hearing.* The proposed rule (§ 882.216) states the cases in which an informal hearing is required, but does not specify when the hearing must be held. Comment from a legal aid office says that there should be a right to a hearing before the PHA terminates subsidy for a family. A PHA says that a hearing should not be required prior to "reduction" of subsidy (i.e., determination of the family contribution). A PHA comment contends that a PHA should not be required to take positive action for continuance of assistance pending the hearing.

Under the final rule (§ 882.216(b)(4)), the participant must be given opportunity for an informal hearing before an action or determination by the PHA if the PHA decides to terminate the ongoing flow of assistance payments under an outstanding assistance contract. Conversely, however, there is no regulatory requirement for an informal hearing before a determination of family rent, a determination to deny assistance on behalf of the family (refusal to issue a new Certificate when the family wants to move, to enter a Contract or to approve a lease), or a determination of the unit size on the Certificate issued to a participant who wants to move.

This distinction is based on an analysis of the structure and practical realities of the Section 8 Existing Housing Program in the light of the constitutional principles enunciated by the Supreme Court in *Matthews v. Eldridge*, 424 U.S. 319 (1976).

a. *When Prior Hearing is Required: Termination of Payments by the PHA Under an Assistance Contract.* If the PHA proposes to terminate the flow of assistance payments on behalf of a participant during the term of an outstanding assistance contract (and is required to provide an opportunity for informal hearing on the determination; see § 882.216(b) (1) and (2)), the PHA must provide the opportunity for informal hearing *before* the termination (§ 882.216(b)(4)). The PHA may stop assistance payments because of owner's breach of the contract without giving any administrative hearing for the participant (§ 882.216(b)(2)(iii)). However, if the PHA wants, for example, to terminate assistance payments for participant fraud, or for violation of family obligations (§ 882.210(d)), or because the family is residing in an oversized unit (§ 882.213), the PHA must give the family the opportunity for an informal hearing on the PHA decision before the termination of assistance payments.

The interest of the participant family is greatest when the PHA is cutting off an ongoing stream of assistance payments under an outstanding assistance contract. The potential harm to the family is greater than where the PHA declines to enter into a new assistance commitment for the family, or when the PHA is merely adjusting the family contribution. Termination of the assistance payments may lead to eviction of the family from the unit if the family is unable to pay the unassisted rent.

b. *When Prior Hearing is Not Required.*—(1). *Time of Hearing on Rental Determination.* The regulation does not require a hearing before a change in the tenant share of rent. The PHA's determination of the family contribution is not an action to limit the section 8 subsidy paid, but is the means of ascertaining the amount of the subsidy under the statutory formula, i.e., the difference between the tenant share of rent (tenant rent) and the rent payment to the owner (contract rent). In almost all cases, the rent determination is made as part of the routine reexamination and redetermination for all families in the PHA's program, rather than as a special action solely affecting the individual participant family.

The regulation preserves the opportunity of the family for informal hearing to determine if the PHA has correctly applied the rules for calculation of the family share of rent. If there are mistakes, the mistakes can be identified and corrected. If the family contribution is reduced as a result of a hearing, any overpayment must be refunded to the family. In *Matthews v. Eldridge*, the Supreme Court states that "a claim to a predeprivation hearing as a matter of constitutional right rests on the proposition that full relief cannot be obtained at a postdeprivation hearing" (424 U.S. at 331). In section 8, an overpayment by the family can be compensated by a refund to the family.

A family should not be permitted to delay the implementation of the statutory rent computation by asserting a claim for an advance hearing. The establishment of a regulatory right to an advance PHA hearing (before the section 8 subsidy payment is adjusted to reflect the family contribution determined by the PHA) would encourage the abuse of the hearing mechanism to delay the payment by a family of amounts properly computed by the PHA, rather than as a vehicle for discovering and reversing PHA mistakes in applying the rules. Families may deliberately seek to postpone the completion of a hearing in order to postpone the need to pay the proper share of the rent.

(2). *New Assistance Commitment for a Participant.* The final rule does not require the PHA to provide an opportunity for a hearing *before* the PHA denies a new Certificate and new assistance commitment for a participant family. The PHA should not be required to execute the administrative tasks needed for a new assistance commitment (e.g., inspection of new unit, examination of proposed lease), or required to enter an assistance contract with a new section 8 owner, until the PHA has had the opportunity to hold a hearing on the denial of assistance to the family.

(3). *Participant Moving to New Unit: Time of Hearing on Unit Size Stated on Certificate.* When a participant wants to move to another unit, the participant may request a hearing on the number of bedrooms entered on the Certificate (§ 882.216(b)(1)(iv)). The rule does not require a hearing on the unit size determination prior to issuance of the Certificate. A requirement for an advance determination, notice and hearing would unnecessarily complicate the routine process for extension of assistance to program families. It would also delay issuance of Certificates and the opportunity for the families to search for new units.

c. *Promptness of Hearing.* The PHA is not required to provide the opportunity for advance hearing in the cases noted in section VII C 6 b above. However, in all cases where a hearing is required, the PHA must proceed with a hearing in a reasonably expeditious manner upon the request of the participant (§ 882.216(b)(5)).

7. *Elements of Hearing.* The informal hearing procedures in the proposed rule (selection and hearings) were substantially the same as the hearing procedures prescribed in the HUD program handbook (paragraph 10—8 of the PHA Administrative Practices Handbook, Handbook 7420.7). Some comments recommend the adoption of a more elaborate hearing process, or of a process with all the elements of a *Goldberg* administrative hearing (*Goldberg v. Kelly*, 397 U.S. 254 (1970)). Other comments suggest that PHAs should have freedom to devise workable local varations in the hearing mechanism.

The final rule prescribes the minimum elements of a PHA hearing on a PHA decision which affects a participant (§ 882.216(b)(6)). In determining the minimum elements, HUD has balanced the interests of the participant, and the

interests of the PHA and program. The regulation procedures recognize that the interest of a current program participant in the assurance of continued subsidy is greater than the interest of an applicant seeking admission to the program.

The participant hearing procedures in the final rule give the participant the opportunity for a hearing to test whether a PHA decision is in compliance with applicable laws or rules, and the opportunity to present evidence bearing on the decision. At the same time, the procedures are designed to avoid burdening the PHA with elaborate and inflexible requirements which may be more appropriate to a judicial or other formal hearing process. The participant hearing requirements under this rule will give a full and fair administrative review. The imposition of a more elaborate procedure is unlikely to result in a substantial benefit in a significant number of cases and would be an unjustified administrative burden on the PHA.

The final rule provides that the PHA must adopt written procedures for the conduct of informal hearings for participants (§ 882.216(b)(5)), and must give each participant a general description of the procedures (§ 882.209(b)(4)(vii)). The hearing procedures used by the PHA must comply with the following (§ 882.216(b)(6)):

—The hearing may be conducted by any person or persons designated by the PHA, other than a person who made or approved the decision under review or a subordinate of such person (§ 882.216(b)(6)(i)).

—The person who conducts the hearing may regulate the conduct of the hearing in accordance with the PHA hearing procedures (§ 882.216(b)(6)(iii)).

—At its own expense, the participant may be represented by a lawyer or other representative (§ 882.216(b)(6)(ii)).

—The PHA and the participant shall be given the opportunity to present evidence and question any witnesses. Evidence may be considered without regard to admissibility under the rules of evidence applicable to judicial proceedings (§ 882.216(b)(6)(iv)).

—The person who conducts the hearing shall issue a written decision, stating briefly the reasons for the decision. Factual determinations relating to the individual circumstances of the participant shall be based on the evidence presented at the hearing. A copy of the hearing decision shall be furnished promptly to the participant (§ 882.216(b)(6)(v)).

a. *Person Conducting Hearing.* A number of legal aid comments contend that the proposed rule does not guarantee use of an impartial hearing officer. The proposed rule (§ 882.216(c)(1)) would have allowed appointment of a PHA officer or employee "who did not participate in the PHA decision," or of an outside person designated by the PHA. Several of the comments object to the modification of the prior HUD handbook requirement for appointment of a PHA employee or other public official "who is not directly involved in the day-to-day administration of the program" (HUD handbook 7420.7, section 10—8b). Comment by a PHA supports modification of this requirement.

The final rule (§ 882.216(b)(6)(i)) provides that:

> The hearing may be conducted by any person or persons designated by the PHA, other than a person who made or approved the decision under review or a subordinate of such person.

This provision retains in substance the restriction against using a person who participated in the original decision as the hearing officer. The provision is simplified by eliminating the unnecessary references to appointment of an officer or employee of the PHA or of an outside person. Under the final rule the PHA may designate "any person or persons," including a PHA employee or officer, or an outside person. The final rule also adds a provision that the person conducting the hearing may not be a subordinate of the person who made the original decision. By specifically prohibiting use of a subordinate of the original decision-maker, HUD seeks to relieve the concern that a person engaged in day to day administration will not possess the requisite impartiality. This new requirement is intended to assure that the hearing officer is not subject to the pressures of a superior, and therefore to enhance the independence and objectivity of the review procedure. The regulation also clarifies that a person who "approved" the original decision may not be used to conduct the informal hearing.

The standards in the rule are a sufficient guarantee of the impartiality of the PHA review in the context of the administrative review process for the Section 8 Existing Housing Program. The purpose of the informal hearing is to give the participant a chance for a review of a PHA decision, to see if the PHA has violated an applicable law or rule. In the administrative review, the participant gets the benefit of a second look at the challenged decision, by someone other than a person who made or approved the original decision. Since the reviewer did not make or approve the original decision, the review is not prejudiced by the mind-set of the original decision maker. Through this review, prior error can be uncovered and rectified.

The reviewer may be a person with knowledge of the program, and of technical program requirements and procedures (for example, procedures for determination of the tenant share of rent in accordance with the U.S. Housing Act of 1937). This familiarity can assist in a more rapid, more economical and more accurate determination on the points at issue. The PHA hearing process should be able to benefit from the experience of the hearing officer, especially knowledge concerning programs requirements and procedures.

Comment by *Nichols* counsel claims that the proposed regulation violates the court order with respect to designation of a hearing officer. We do not agree. HUD believes that the court's concern in *Nichols* was with the lack of any enforceable regulations guaranteeing notice and hearing to persons whose section 8 subsidy is terminated or reduced due to changes in family size and composition. To correct this situation, the court directed HUD to publish the "the pertinent sections, from its Administrative Practices Handbook" (Handbook 7420.7, section 10–8), because such provisions, if incorporated into a formal regulation, would provide constitutionally adequate due process protections.

The court did not, however, express an intent to freeze the hearing requirements (for participants whose subsidy is reduced or terminated due tc changes in family size) in the exact form of the old handbook reguirements. Such an approach is inconsistent with accepted principles of regulatory publication for notice and public comment, and is not required in order to afford full due process protection to the participant. A hearing officer is sufficiently impartial for constitutional purposes so long as the hearing officer is not the person who rendered the challenged decision. The constitution does not prohibit use of a hearing officer involved in the day-to-day administration of the program (as the handbook provided), and such a prohibition could be detrimental to the section 8 participants, for example by depriving the hearing process of persons knowledgeable of technical requirements of the housing subsidy program, and by diverting scarce

program resources to hire outside persons as hearing officers.

Nothing in the *Nichols* order identifies the handbook hearing procedure as the only constitutionally acceptable procedure. The handbook procedure was merely the hearing process in effect at the time of the *Nichols* decision. By directing the agency to issue formal rules establishing notice and hearing procedures, the court required the initiation of a process which, by definition, contemplates review and revision of proposed regulatory language in the light of public comment (see 24 CFR 10.16). Thus the Department sees no impediment to modification of notice and hearing procedures in response to needs of the program, and HUD's analysis of the handbook procedure.

Comment from a PHA states that the regulation should permit the use of a hearing panel, instead of a single hearing officer. The language of the final rule (§ 882.216(b)(6)(i)) clarifies that the hearing may be by a "person *or persons*" designated by the PHA. Use of a hearing panel is permitted at the discretion of the PHA.

b. *Conduct of Hearing and Presentation of Evidence.* A number of legal aid comments object to the provision in the proposed rule (§ 882.216(c)(3)) that the right of the Certificate holder (or applicant) to offer and examine evidence and question any witnesses is "subject to the direction of the hearing officer." The comments appear to suggest that the right to offer and examine evidence should be absolute, and not subject to regulation by the hearing officer.

To establish a practical and orderly hearing machinery, the hearing officer must have authority to regulate the conduct of the hearing, including determinations on the relevance of proof that may be offered, and of the manner in which evidence is presented. The authority of a hearing officer or judge to regulate the conduct of the proceeding is a normal and necessary element of any hearing process. The proposed provision did not deny the participant a fair opportunity to present relevant proof in the informal hearing.

The final rule confirms that the hearing officer has authority to regulate conduct of the hearing in accordance with the PHA hearing procedures (§ 882.216(b)(6)(iii)) (in regard to the offer and examination of evidence, and in other respects), and separately states the right of the participant and the PHA to present evidence and question witnesses (§ 882.216(b)(6)(iv)).

Use of the formal rules of evidence applicable in a judicial proceeding is not suitable for the informal hearings required under this regulation. A provision has been added in the final rule (§ 882.216(b)(6)(iv)) to clarify that evidence may be considered without regard to admissibility under the rules of evidence applicable in judicial proceedings.

Under the proposed rule (§ 882.216(c)(4)), the decision on "any issue of fact" must be exclusively based on evidence presented at the hearing. The final rule (§ 882.216(b)(6)(v)) provides that factual determinations "relating to the individual circumstances of the participant" must be based on evidence presented at the hearing.

c. *Hearing Decision.*—(1). *Form of Decision.* The proposed rule (§ 882.216(c)(4)) requires the hearing officer to issue a written decision "stating briefly the factual and other basis for the decision." Comment from a legal aid office asserts that the decision must declare both the legal and evidentiary grounds of the decision. Upon reexamination of this question, the Department believes that the requirements in the proposed rule are more elaborate than necessary. The final rule simply requires that the person conducting the hearing shall "issue a written decision, starting briefly the reasons for the decision" (§ 882.216(b)(6)(v)). A copy of the decision must be promptly furnished to the participant.

The statement of the decision required by the regulation tells the participant what was decided, and the reasons for the decision. A requirement for a legalistic statement of evidentiary and legal grounds for the decision would add little of benefit to the participant. The character of the decision is not more informative or comforting to the participant when stated as an enumeration of "evidentiary" and "legal" grounds.

The statement of decision required by the regulation must be truly informative as to the reasons for the decision. This would include a short statement of the elements of fact or law on which the decision is actually based. A bare and conclusory statement of the hearing decision, that does not let the participant know the basic reasons for the decision, will not satisfy the regulatory requirement. There is no reason to believe that a more formal statement of the decision will result in better decisions, or decisions satisfactory to more participants.

(2) *Effect of Decision.* Comments from a PHA and a legal aid office state that the decision in a PHA hearing should be binding on the PHA, or should be final subject only to HUD review.

The final rule specifies certain cases in which the PHA is not bound by a decision of the hearing officer (§ 882.216(b)(7)(i)):

—The PHA is not bound if the decision concerns a subject outside the scope of the required hearing process, or beyond the authority of the person conducting the hearing under the PHA hearing procedures (§ 882.216(b)(7)(i)(A)).

—The PHA is not bound by a hearing decision contrary to HUD regulations or requirements, or otherwise contrary to Federal, State or local law (§ 882.216(b)(7)(i)(B)).

The purpose of the hearing process is to give the participant the opportunity for a fair hearing, to ascertain whether a PHA decision is in accordance with law, HUD regulations and PHA rules. The PHA has the final responsibility to act in accordance with controlling Federal, State or local legal requirements, and this obligation may not be altered by any decision of the hearing officer.

If the PHA determines that is is not bound by a decision of the hearing officer, the PHA must promptly notify the participant of the determination, and of the reason for the determination (§ 882.216(b)(7)(ii)).

The final rule does not adopt the recommendation for HUD review of PHA hearing decisions. This recommendation is inconsistent with the basic responsibility of the PHA for day to day administration of the program.

d. *Record of Hearing.* Several legal aid comments claim that procedural due process requires that there must be a stenographic record of the informal hearing. The Department believes that in the context of the participant determinations covered by the section 8 existing housing informal hearing process, and given the nature of the public and private interests at stake, procedural due process does not require that the PHA incur the very substantial expense of a stenographic record (cf., e.g., *Neddo v. Housing Authority of the City of Milwaukee,* 335 F. Supp. 1397 (U.S. District Court, E.D. Wisconsin 1971)). A transcript of the administrative hearing is not necessary in order to provide a fair hearing. The notice of decision required by the regulation will be adequate to inform the participant of the reasons for the decision.

C. Administrative Fee

Comment from a PHA notes the administrative burden and cost for PHA hearings, and recommends that HUD reimburse PHAs for hearing costs outside the normal administrative fee

structure. The Department shares the PHA's concern with the expense of the administrative hearing process. By distinguishing between the review processes for applicants and participants, and by a specification of certain limitations on the hearing process for participants, the final regulation seeks to balance the benefits of adequate procedural safeguards against the drain on program resources.

The Department will not, however, provide separate reimbursement for PHA costs in implementing the hearing procedures. In general, PHA fees are paid as a formula reimbursement for all PHA costs of administration. The Department believes that this system tends to result in a more efficient administration of the program with less Federal interference in PHA management. The use of a separate compensation structure for PHA hearing costs would undercut the benefits of the flat-fee reimbursement, and would lead to demands for special reimbursement in other areas.

VIII. Tenancy

A. Form of Assisted Tenancy

The interim rule on termination of tenancy redefined major aspects of the subsidized tenancy. The interim rule removed the provision for termination of tenancy on 30 days notice by the owner or the tenant, and for automatic extension of assistance if a family continues in occupancy "on the same terms and conditions." Under the interim rule (§ 882.107(b)), the section 8 assisted tenancy is for a fixed term of one to three years. At the end of a term, the owner may not refuse to enter a new assisted lease except for cause. However, the interim rule (§ 882.215(b)) provided that the owner need not have good cause for termination of tenancy if the owner "decides not to enter a new Contract with respect to the unit" at the end of the lease term. The interim rule was issued to implement 1981 amendments to the program statute (sec. 8(d)(1)(B) of the U.S. Housing Act of 1937, 42 U.S.C. 1437f(d)(1)(B), as amended by sec. 326(e)(1) of the Housing and Community Development Amendments of 1981, Pub. L. 97–35).

Public Comments

Comments from PHAs and from the National Association of Housing and Redevelopment Officials emphasize that operation of the Section 8 Existing Housing Program depends on the voluntary participation of private landlords. The comments state that owner willingness to rent units to Certificate holders will be hurt by the elimination of provision for termination by the owner on 30 days notice without cause, and by creation of a "perpetual tenancy" terminable only for cause.

PHA comments say that many owners will not sign assistance contracts which do not allow termination on 30 days notice, that allowing termination on notice is closer to local landlord tenant practice, and that owners want to preserve the ability to sell the unit or to terminate the tenancy for other reasons.

PHA comments claim that provision for termination by either party on notice benefits both the tenant and the PHA. The tenant can move after giving notice to the owner without breaking the lease. PHA comments say that this may be helpful if the tenant wants to move to another unit or to other employment. Termination on 30 days notice by the tenant avoids owner hostility, and also reduces the need for PHA payment of owner vacancy claims.

Two State agency PHAs support elimination of the provision for termination by either party on 30 days notice. One of the PHAs recommends clarification that there can be termination by mutual consent of the owner and tenant.

PHAs also criticize the requirement under the interim rule that an owner must have good cause for non-renewal of the lease at the end of the fixed term (unless the owner withdraws the unit). The comments say that the good cause requirement interferes with normal relationships between a landlord and tenant. The requirement may be appropriate for project-based assistance, but not for the finders-keepers program, where the family can move and receive assistance in a new unit. The good cause requirement is one-sided, since the tenant is not bound to enter a new lease. The requirements impose a permanent limitation on rent, and may complicate the owner's sale of the property. The regulations should reflect the requirements of the private rental market, and should recognize the right of the owner to terminate the tenancy without cause at the end of the lease. To avoid discouraging owner participation, the owner should be as free as the tenant not to renew the lease.

In addition, most comments by PHAs and legal aid offices object to the new regulatory requirement for execution of a new assistance contract and lease in order to extend the subsidized tenancy at the end of the term. Subsidy payments for the assisted family will be interrupted if the PHA, owner, and family do not complete the necessary steps for renewal of assistance before the end of the lease term. Where the family wishes to move, it may not be able to find a new unit by the end of the term. The old regulatory system of automatic extensions gives a valuable flexibility, and provides a safety net where the PHA has not completed the renewal process. A break in the flow of assistance payments may damage owner confidence in the program, and the family may be evicted. A legal aid comment objects to termination of assistance where the landlord refuses to renew the lease without proper legal basis. Comments recommend that HUD provide for automatic extension of the assistance term, either until the tenancy is renewed or terminated, or during a grace period for special circumstances.

A few PHA comments support the regulation change requiring execution of a new lease and assistance contract for continuation of assistance. A PHA says that the regulatory change will have little impact on its operations, since the PHA already requires execution of a new assistance contract and lease at the time of tenant income recertification.

A number of PHAs recommend the use of a simple procedure for extension of the assisted tenancy, such as by execution of a simple renewal form.

A number of legal aid comments suggest the use of a procedure requiring advance notice by the PHA or owner of the upcoming end of the lease term, or of the owner's intention not to renew the assisted lease.

1. *Good Cause Requirement—Effect on Tenancy.* Public comments on the interim rule present in general a cogent critique of problems which result from the changes in the form of the assisted tenancy under the 1981 amendments and the interim rule. The Department shares the concern that a number of the changes could reduce the desire of private landlords to offer units for rental under the program, and could thus narrow the housing choices of assisted families. However, the program options open to the Department must accord with the 1981 statutory prohibition of a termination of tenancy in section 8 existing housing other than for statutory good cause grounds (U.S. Housing Act of 1937, sec. 8(d)(1)(B)(ii), 42 U.S.C. 1437f(d)(1)(B)(ii)).

The Department may not restore a provision for termination by the owner without cause, either on 30 days notice during the lease term, or at the end of the term. The present statutory good cause requirements for termination of tenancy apply both during the term of an assisted lease and at the end of the lease term. (For discussion of the new regulatory statement of certain cases that fall within the term "good cause,"

see section VIII B 2 below; for a discussion of good cause and owner withdrawal from the program, see section VIII B 3 below).

2. *Assisted Lease and Contract.*

a. *New Regulation Provisions—Description.* In response to the consensus of public comments, the final regulation provides for automatic extension of the assisted tenancy. The regulation does not require the execution of a new lease or contract to accomplish an extension. The final regulation provides:

> The term of the Lease shall begin on a date stated in the Lease, and shall continue until: (1) A termination of the Lease, by the Owner * * *, (ii) a termination of the Lease by the Family in accordance with the Lease or by mutual agreement during the term of the Lease, or (iii) a termination of the Contract by the PHA. (§ 882.215(a)(1))

As under the interim rule (and the prior rule), the term of the assisted lease between the owner and the tenant is the same as the term of the assistance contract between the owner and the PHA which subsidizes occupancy under the lease:

> The term of the Contract shall begin on the first day of the term of the Lease and shall end on the last day of the term of the Lease. (§ 882.215(b)(2))

Thus, as the lease extends automatically, unless terminated for one of the stated reasons, the term of the assistance contract will automatically track the term of the lease. The technical implementation of the requirement that the lease and the contract run for concurrent terms reverses the interim rule provision that the lease term follows the term of the assistance contract. Substantively the result is identical.

Under the interim rule, the length of the term of the assistance contract was fixed in advance, and could not extend beyond the remaining term of the Annual Contribution Contract ("ACC") between HUD and the PHA. Under the final rule (§ 882.215(a)(2)), the term of the lease must begin at least one year prior to the end of the remaining term of the ACC, and the term of the assistance contract and lease end if the ACC terminates. Although the final rule now provides for an automatic and indefinite extension of the initial one year lease and subsidy term, in practice the PHA can continue to make payments under the assistance contract only so long as the PHA receives the funds from HUD under the ACC.

To clarify the relationship between the assistance contract and the assisted lease, a new provision states that the term of the lease ends if the assistance contract is terminated by the PHA (§ 882.215(a)(1)(iii)). A substantively provision was previously contained in the regulatory statement of required lease provisions (previously Part 882, Appendix I, section (g)(2), now deleted from the regulation, see section VIII G of this preamble), but was not previously stated in the body of the rule.

A new provision (§ 882.215(a)(5) states:

> The Lease shall permit a termination of the Lease by the Family without cause, at any time after the first year of the Lease term, on not more than sixty days written notice by the Family to the Owner (with copy to the PHA).

Another new provision (§ 882.215(a)(3)) has been added to state the relationship between the new provisions defining the term of the lease and assistance contract to the regulatory provisions on annual and special adjustments, and on determination of the family contribution:

> During the term of the Lease, the Contract Rent shall be subject to adjustment in accordance with [§ 882.108 [rent adjustments], and the Tenant Rent shall be subject to change in accordance with HUD regulations and requirements.

b. *New Regulation Provisions—Purpose and Operation.* The new provision for automatic extension of the lease will resolve the problems, described in the public comments, stemming from the requirement in the interim rule for execution of a new assistance contract and lease to continue the flow of assistance. Under the final rule, the ongoing stream of assistance to the family is not interrupted because of inability to complete the administrative steps for continuation of assistance. The PHA is relieved of the administrative burden of processing a new assistance contract or lease, or even of the need to distribute and secure execution of simplified renewal documentation, as suggested by some PHAs.

The regulation will also avoid the possible problem, identified in the comments, of an interruption in assistance because of a wrongful refusal by the owner to execute a new lease and a new assistance contract (absent good cause for nonrenewal). Since there is no break in payments, the owner will not be able to rely on a hiatus in assistance payments as good cause grounds for termination of tenancy.

The new regulatory provision for automatic extension has been designed to avoid the legal uncertainties produced by the old regulatory provision (§ 882.107(h), before amendment by the interim rule) that the term of the assistance contract continues in effect for the duration of the tenancy "if a Family continues in occupancy * * * on the same terms and conditions as the original Lease." To determine if the assistance contract remained in effect during a holdover after the original lease term, if was necessary to examine the legal incidents of the holdover tenancy under State and local law to ascertain if the holdover tenancy was on the same terms and conditions. However, this inquiry often yielded no clear answer as to the legal characteristics of a holdover tenancy, and consequently no clear answer on the continued existence of a subsidized tenancy. Many PHAs have apparently dealt with the need for extension under the old regulatory provision by routinely requiring execution of some form of extension documentation by the family and the owner. The old regulation provision was variously understood and implemented by different PHAs.

The existence or nonexistence of a subsidized tenancy should be legally well defined, and should be as clear as possible to the owner, tenant, and PHA. The mechanism for extension of the tenancy should involve the minimum administrative task for the PHA. The provision for automatic extension under the regulatory formula in the final rule gives greater clarity in definition of the assisted tenancy, and requires no administrative action by the PHA.

Since the term of the assisted tenancy is now indefinite, the family should not be permanently bound by the lease. HUD agrees with the public comments, as described above, observing that a provision for termination on notice can benefit the tenant, and that termination by the tenant can reduce the need for vacancy payments by the PHA. Under the regulation (§ 882.215)(a)(5)), the lease must allow the family to terminate the lease without cause, on notice to the owner, at any time after the first year of the term. The tenant may not be required to give more than sixty days written notice of termination. A copy of the termination notice must be sent to the PHA.

Nothing in the rule prohibits inclusion of a unilateral lease provision allowing termination of the tenancy *by the tenant* (with or without cause) during the first year of the term, or on less than sixty days notice. The statutory good cause requirements for termination of tenancy apply only to a termination of tenancy by the owner. The Department recognizes that some owners may be unwilling to agree to a one-sided provision for termination on notice by the tenant alone, during or after the first

year of the term. Some owners may also be unwilling to rent to program families without the right to terminate the tenancy on short notice and without cause.

The regulation (§ 882.215(a)(1)(ii)) clarifies that the owner and the tenant may mutually agree, at any time during the term of the lease, to a premature termination of the lease term.

As the comments suggest, PHAs may have to pay vacancy claims (if a tenant vacates a unit in violation of the lease). However, as described in section III A of this preamble, the PHA may deny a new Certificate if the family fails to reimburse the PHA for section 8 owner claims paid by the PHA (§ 882.210(b)(2)). This provision should produce some incentive for families to try to minimize owner claims (e.g., by getting owner to agree to a release from the lease), or to pay the PHA back.

c. *Offer of a New Lease by the Owner.* Since the assisted lease as defined in this rule continues for an indefinite term, there is need for a procedure allowing modification of the lease terms from time to time. The Department believes that many owners will not wish to enter into a leasehold where the terms are frozen so long as the tenant remains in the unit. The final rule (§ 882.215(a)(4)) therefore provides that the owner may offer the family a new lease for execution by the family after approval by the PHA in accordance with program requirements, for a term beginning at any time after the first year of the lease term. The owner must give the tenant written notice of the offer, with a copy to the PHA, at least sixty days before the proposed beginning date of the new lease. The offer may specify a reasonable time limit for acceptance by the family. Failure by the family to accept the owner's offer of a new lease which has been approved by the PHA is good cause for termination of tenancy (§882.215(c)(2)).

d. *Termination of Subsidy.* Section 8 assistance payments to the owner stop when the statutory family share (Tenant Rent) covers the full contract rent (§ 882.212). The assistance contract terminates if a year has passed since the last PHA payment on behalf of the family (in order to free up the subsidy commitment for another family). A PHA asks for clarification that termination of the assistance contract because the tenant is paying the rent is not ground for termination of the lease. This recommendation has not been adopted. The lease term ends when the assistance contract is terminated by the PHA for any reason (§ 882.215(a)(1)(iii)). The landlord should not continue to be bound by lease provisions intended to regulate the subsidized tenancy, including the requirement for a continuing tenancy terminable only for statutory cause. Landlord and tenant should have the opportunity to redefine their legal relationships free from the requirements and constraints of the Federal subsidy program. The interests of the assisted family are already sufficiently protected, since the family's rights under the lease are not affected for a full year after the cessation of the assistance payments (§ 882.212).

B. Grounds for Termination of Tenancy

Section 8(d)(1)(B)(ii) of the United States Housing Act of 1937 (42 U.S.C. 1437f(d)(1)(B)(ii), as amended by sec. 326(e)(1) of the Housing and Community Development Amendments of 1981, Pub. L. 97–35) provides that in section 8 existing housing:

> The owner shall not terminate the tenancy except for serious or repeated violation of the terms and conditions of the lease, for violation of applicable Federal, State, or local law, or for other good cause.

The interim rule stated the grounds for termination in the language of the statute without any regulatory elaboration.

The final rule contains two new provisions which provide regulatory guidance in application of the statutory provisions for termination of tenancy for violation of Federal, State, or local law, or for "other good cause."

1. *Termination for Violation of Applicable Law.* The statutory authority to terminate the tenancy because of a violation of applicable law by the tenant is restricted in the final rules (§ 882.215)(c)(1)(ii)) to a:

> Violation of Federal, State, or local law *which imposes obligations on the tenant in connection with the occupancy or use of the dwelling unit and surrounding premises* * * *.

The Department believes that termination on this ground should be restricted to violations related to occupancy of the unit.

2. *Termination for "Other Good Cause".* By design, the interim rule did not contain any definition of "other good cause" for termination of tenancy. The preamble to the interim rule stated:

> Application of the statutory standards to particular cases should be determined by the courts, normally in the course of the eviction proceeding brought by the owner. (47 FR 33479, 33499)

Several PHA and legal aid comments recommend that the regulation define good cause for termination of tenancy. A PHA and a legal aid office urge that the regulations follow the approach used in the HUD regulations governing tenant eviction procedures (24 CFR Part 450, Subpart A) in project based housing subsidy programs. These regulations provide that conduct of a tenant cannot be "good cause" for termination of tenancy unless the landlord has served the tenant with prior written notice that such conduct shall "henceforth" constitute a basis for termination of occupancy (§ 450.3(b)).

It remains the view of the Department that a comperhensive regulatory definition of good cause in the Section 8 Existing Housing Program is neither possible nor desirable. The good cause category should remain open to case by case determination by the courts. It is a prime virtue of this statutory category that it permits termination by an owner in types of cases which cannot be readily foreseen.

The Department does not believe that the approach to good cause in the project subsidy programs is suitable for the finders-keepers program, where individual tenants are subsidized on a unit by unit basis, and where the subsidy commitment to the owner ends if the family moves from the unit. Many finders-keepers landlords participate in the program only for a single unit or for a few units. Tenancy requirements should be as simple as possible, with minimal demands on the owner beyond the normal requirements of an unsubsidized tenancy. As applied in the context of the finders-keepers program, a requirement to give advance notices of conduct that will in future be good cause for termination places an excessive demand on the foresight of the owner in anticipating the kinds of tenant conduct for which the owner might wish to terminate a tenancy. Even the most extensive advance enumeration of good cause cases will inevitably omit circumstances that later occur, and which should be legitimately regarded as good cause for termination of tenancy.

The good cause concept should be flexible and open to application in concrete cases, but there is a critical need to provide explicit regulatory assurance to prospective section 8 owners that legitimate owner concerns will be recognized as grounds for termination of tenancy. With the provision for automatic and indefinite extension of the tenancy, without any predefined limit, this assurance may be essential to promote broad participation by owners.

The final rule (§ 882.215(c)(2)) provides:

> The following are some examples of "other good cause" for termination of tenancy by the Owner: failure by the Family to accept the

offer of a new Lease * * *; a Family history of disturbance of neighbors or destruction of property, or of living or housekeeping habits resulting in damage to the unit or property; criminal activity by Family members involving crimes of physical violence to persons or property; Owner's desire to utilize the unit for personal or family use or for a purpose other than use as a HUD assisted residential rental unit; or a business or economic reason for termination of the tenancy (such as sale of the property, renovation of the unit, desire to rent the unit at a higher rental). This list of examples is intended as a non-exclusive statement of some situations included in "other good cause," but shall in no way be construed as a limitation on the application of "other good cause" to situations not included in the list.

The explicit regulatory statement that a business or economic reason is good cause for termination of tenancy should help PHAs in responding to owner concern, as described in the public comment, with the good cause requirement for termination of tenancy, and in particular with the elimination of the provision for termination on 30 day notice. It is likely that in most cases where an owner wants to terminate the section 8 existing tenancy there are either good cause grounds relating to behavior of the individual tenant, or good cause business reasons relating to use of the property. Several Federal court decisions have concluded that statutory "good cause" would include a business or economic reason for termination of the tenancy (e.g., *Mitchell v. U.S.*, 569 F. Supp. 701 (N.D. Cal, Aug. 1983)).

A legal aid office says that the failure to define good cause will cause a "vast" increase in administrative costs because of varying interpretation and administration of the good cause requirement. We do not agree. The degree of regulatory definition of good cause is unlikely to have any systematic or substantial effect on PHA costs, since good cause is determined in local landlord tenant courts, and there is no longer a statutory or regulatory requirement for PHA involvement in the process for termination of tenancy (for leases entered after promulgation of the interim rule on September 21, 1982).

3. *Withdrawal by the Owner from the Program—Exemption from.*

Good Cause Requirement

The Conference Report on the 1981 amendments states that: It is not the intention of the Conferees that these statutory provisions [on termination of tenancy] govern the relationship between a landlord and a tenant after a landlord has *in good faith, terminated his participation in the sec. 8 existing program.* (H.R. Rep. No. 97–208, 97th Cong., 1st Sess. 695 (1981), *reprinted in* 1981 U.S. Code Cong. and Ad. News, 1010, 1053–54)

The interim rule (§ 882.215(b)(ii)) provided that an owner is not subject to the statutory good cause requirement for termination of tenancy if the owner elects not to enter into a new assistance contract "with respect to the unit."

a. *Public Comments.* PHA comments express a strong concern with the PHA's administrative burdens because of owner withdrawal from the program (withdrawal of the individual unit, under the terms of the interim rule). The comments observe that PHAs will have to maintain a list of units withdrawn from the program, and ask how long the PHA is barred from renting the unit to another finders-keepers tenant. PHA comments stress that it will be difficult or impossible for PHAs to monitor a bar on the use of units withdrawn from the program, and note that such a bar will hamper the search for housing by Certificate holders.

A number of comments by legal aid offices criticize the lack of a statement in the regulation that the owner's withdrawal must be "in good faith." Several comments suggest that exemption from good cause means that the owner must have a "good cause reason" for termination of tenancy, or that a legitimate *business* reason is the only basis for the exemption from good cause. Public comments state that the Conference Report does not allow the owner to avoid the need to show good cause for termination of tenancy by withdrawing a single unit from participation.

b. *Final Rule.* Since publication of the interim rule, a Federal district court decision (*Mitchell v. U.S.*, 569 F. Supp. 701 (N.D. Cal, Aug. 1983)) has stated that the HUD regulatory exemption from good cause where the individual unit is not to be leased to an assisted tenant is not consistent with the legislative intent. The court indicated its preliminary view that an owner's statutory obligation to comply with good cause for termination of tenancy ends only when the owner is terminating participation "in the *entire assisted housing program.*" The Department believes that other courts are likely to follow this analysis.

The reasoning of the court in *Mitchell* affords the Department only two choices: (1) To allow an exemption from good cause if an owner is withdrawing all units from participation in the program; (2) to require that in all cases the owner must have good cause for termination of tenancy, without authorizing any exemption. After full consideration of the public comment on the interim rule, the Department has decided that the final rule will not provide or permit any exemption of the owner from the good cause requirement for termination of tenancy (with respect to contracts or leases entered after the rule is effective).

An exemption from good cause where the owner is withdrawing totally from participation in the program would leave the owner an all or nothing choice: the owner must either terminate participation for all tenants, or show good cause for termination of tenancy of any particular tenant. The election by section 8 owners to withdraw could result in the eviction of many section 8 tenants. Owner withdrawal from the program for all units will also reduce the supply of units which may be rented by Certificate holders. Thus, a provision for owner withdrawal could simultaneously increase the number of families looking for housing, as it reduces the number of units available to be rented. As noted in the comments, the exemption from good cause also would create serious problems for PHAs in administering a bar on owner participation in the program after an owner's withdrawal. The administrative difficulties remarked in the comments would be compounded by a requirement for application of the bar to all of an owner's units.

Finally, it appears that in most cases the good cause exemption is not necessary. An owner who is withdrawing all units in good faith from participation in the program for a business or economic reason has "other good cause" for termination of tenancy. Indeed the owner could withdraw even a single unit from the program for a good cause business or economic reason.

C. PHA Role in Termination of Tenancy; Requirement for Notice by the Owner to the PHA or Family

Before the interim rule, the HUD program regulation (§ 882.215) required an owner to obtain PHA authorization for eviction of a section 8 existing tenant. Before the 1981 amendments which added the statutory grounds for termination of tenancy, the PHA possessed by law the sole right to issue a notice to vacate to the tenant (U.S. Housing Act of 1937, sec. 8(d)(1)(B), 42 U.S.C. 1437f(d)(1)(B)). The 1981 amendments removed any statutory requirement for PHA participation in a termination of tenancy.

A number of legal aid offices recommend restoration of a requirement for PHA approval of an eviction, or for the PHA to issue an eviction notice. The comments assert that judicial review of a termination of tenancy does not give enough protection for the tenant; PHA

review would reduce the number of evictions, and is an opportunity for PHA mediation and resolution of disputes between the landlord and tenant; and elimination of PHA involvement will increase PHA administrative costs because of tenant moves.

A PHA urges that HUD state in the regulation *text* (as indicated in the preamble to the interim rule (47 FR 33499)) that there is no requirement for PHA involvement in a termination of tenancy, or in the decision whether a landlord can terminate the tenancy. However, a number of PHAs recommend that the owner should have to give notice of the termination proceeding to the PHA at the same time as the tenant. This notice could be given by furnishing the PHA a copy of the notice to vacate served on the tenant. The PHAs state that the notice by the owner to the PHA will allow the PHA to take steps to assist the family in finding another unit, that the PHA needs to know if there has been an interruption of assistance payments by the PHA because of PHA clerical or computer error, that notice avoids payments to the owner after the tenant has vacated the unit. A PHA comment suggests that PHAs need to know the grounds for termination, since family failure to perform obligations under the lease is grounds for termination of participation in the program (but see section II F of this preamble).

The final rule does not adopt the recommendation to require PHA approval of an eviction or termination of tenancy, or require that the PHA issue the eviction notice. The questions involved in a termination of tenancy are best resolved in the State judicial proceedings for eviction of a tenant. To assure the availability of the State judicial forum in a termination of tenancy, the final rule adds a provision (§ 882.215(c)(3)) that the section 8 owner may evict the tenant from the dwelling unit only by instituting a court action. This requirement furthers the policy embedded in the list of prohibited lease provisions (now at Part 882, Appendix I, see section VIII G of preamble) which prohibits the use of lease provisions which could foreclose the tenant's opportunity for a fair hearing in a State court eviction proceeding.

The substantive Federal good cause requirements under the statute and the HUD regulation are binding in the State judicial proceeding, and the State proceedings are subject to the due process requirement for a fair hearing under the Fourteenth amendment. To encourage participation by private owners, it is important to minimize the procedural burdens on the owners. The approach in this rule is consonant with the 1981 amendments, which remove the old statutory requirement for PHA participation in eviction (by PHA issuance of the notice to vacate), but which require good cause for termination of the assisted tenancy.

A conforming amendment (removing § 882.116(p)) eliminates authorization of evictions from the listing of PHA responsibilities.

Although the final rule does not require any PHA approval of, or other involvement in, the termination of tenancy, the rule accepts the recommendation that the owner should be required to notify the PHA. The rule (§ 882.215(c)(3)) provides that the owner must notify the PHA in writing of the commencement of procedures for termination of tenancy. Notice to the PHA must be given at the same time that the owner gives notice to the tenant pursuant to State or local law (such as a notice to vacate or notice to quit). Notice to the PHA may be given by furnishing the PHA a copy of the notice to tenant.

When the PHA receives the notice from the owner, the PHA may try to resolve the dispute between the owner and tenant, thus avoiding the eviction. The PHA is not, however, required to play this role, and the owner is not required to seek the mediation of the PHA.

Several legal aid comments recommend a regulatory requirement for the owner to give notice of termination of tenancy to the tenant, and specifying the character of the owner notice. The final rule does not contain any requirement for a form of notice by the owner to the tenant. In the finders-keepers program, the owner is and should be subject only to the same tenant notice requirements which apply to an unassisted tenant.

D. Leases Entered Into Before October 1, 1981

Section 8 existing program leases entered before October 1, 1981 (effective date of the 1981 statutory amendments on termination of tenancy) remain subject to the old statutory requirement that the PHA has the sole right to issue a notice to vacate to the tenant (U.S. Housing Act of 1937, sec. 8(d)(1)(B), 42 U.S.C. 1437f(d)(1)(B), as in effect prior to enactment of sec. 326(e) of the Housing and Community Development Amendments of 1981, Pub. L. 97–35). The provisions of the final rule governing such tenancies (see interim rule § 882.215(a); final rule § 882.215(d)) track the statutory requirement verbatim, and eliminate as unnecessary the interim rule provision that the PHA must give the notice to vacate unless the grounds for eviction as stated in the owner's representation are not sufficient under the lease.

One PHA objects that the requirement for PHA issuance of the notice to vacate makes the PHA an agent of the owner. Another PHA objects to the different treatment of the section 8 tenancies under leases entered before and after October 1, 1981. We note only that the regulation follows a statutory distinction in treatment of program tenancies.

Legal aid comments recommend that the regulation specify that termination of tenancy under the old leases must be for cause, that the good cause grounds are the same as required for leases under the new statutory requirements, that sufficiency under the lease is not good cause, that the regulations should specify the procedure for PHA issuance of a notice to vacate, and that the tenant should have the right to a hearing before the PHA. One PHA asks that the regulations clarify the meaning of notice to vacate in relation to State law.

Issues concerning program leases entered before October 1, 1981, or concerning the construction of the special statutory requirements applicable to such leases, are of dwindling practical significance. The old statutory requirements would only be applicable if the terms and conditions of a pre-October 1, 1981 lease have continued in effect without any positive contractual act by the owner and the tenant to extend or amend the lease after that date.

Courts held that the prior HUD regulation (§ 882.215 before promulgation of the interim rule) did not comply with the statutory requirement for PHA issuance of a notice to vacate (e.g., *Brown v. Harris*, 491 F. Supp. 845 (N.D. Cal. 1980)). The final regulatory provisions are designed solely to correct this deficiency, not to rewrite program contracts after the fact. Little point would be served by attempting to further regulate tenancies under the old statutory requirements. The provision on the grounds for PHA refusal to issue a notice to vacate are not necessary, since the grounds are covered by the outstanding assistance contract between the PHA and owner (assuming there still exist program tenancies covered by the old statutory requirements).

E. Applicability and Implementation

By statute, the good cause grounds for termination of tenancy apply to section 8 existing leases entered after September 30, 1981 (Housing and Community Development Amendments of 1981, sec. 326(e)(2)). The interim rule

became effective September 21, 1982 (47 FR 41735). Comment by a legal aid office objects to application of the good cause grounds to leases entered between the effective date of the statute and the effective date of the regulation. Comment by another legal aid office states that for leases entered during this period, tenants have a contractual right to PHA issuance of the notice to vacate, and that the regulation should so state.

Applicability of the statutory grounds for termination of tenancy enacted in 1981 is determined by the statute. The regulation follows the statutory requirement.

Leases entered after September 30, 1981, but before promulgation of the interim rule, require PHA authorization for an eviction. Therefore PHA authorization (but not PHA issuance of a notice to vacate) is a contractual right of the tenant under such leases. Nothing in the interim or the final rule affects this right. The right arises from the lease between the tenant and the owner, and there is no need to address this subject in the regulation.

A number of PHAs and the National Association of Housing and Redevelopment Officials object to retroactive application of new regulatory tenancy requirements to previously executed leases and assistance contracts. Several of the comments express a particular concern with the invalidation of 30-day termination clauses in leases entered before the interim rule. A PHA asks for clarification on the applicability of new eviction requirements for tenancies originally commenced before October 1, 1981.

Nothing in the interim or the final rule modifies the conditions of a program tenancy under an executed assistance contract and assisted lease except as necessary to conform to a statutory requirement in existence when the lease was entered. Under the interim rule (interim § 882.215(b)), the 1981 statutory grounds for termination of tenancy were made applicable to leases entered after October 1, 1981, as required by the legislation. However, the interim provisions on term of the assistance contract and lease (interim § 882.107 (b) and (c)) were not made retroactively applicable to tenancies under an assistance contract and lease entered before the effective date of the rule. These regulatory provisions applied prospectively only, to a lease and assistance contract entered between the owner and the tenant after the effective date. A provision for termination by owner without cause on 30 days notice (in a lease entered after September 30, 1981) is invalid because of the statutory good cause requirement, not because of any retroactive application of the regulatory provisions governing the term of the assistance contract and lease.

The final rule specifies applicability of new regulatory provisions defining the assisted tenancy. Under the rule (§ 882.215(g)), the new provisions defining the term of the assisted lease and assistance contract (§ 882.215 (a) and (b)), stating certain cases included in "other good cause," and requiring the owner to notify the PHA of the commencement of proceedings for termination of tenancy (§ 882.215(c) (2) and (3)) are applicable in any case where the lease or assistance contract is entered after the effective date of the rule. These new regulatory provisions do not affect contract rights if the assistance contract and lease were entered before that date.

A PHA urges distribution of new assistance contracts before the effective date of the final rule. The Department expects to distribute a new form of assistance contract prior to the effective date.

F. Non Applicability of Regulation on Termination of Tenancy in Multi-family Subsidy Programs

Part 247, Subpart A (formerly in Part 450) establishes substantive and procedural requirements for termination of tenancy in projects assisted under certain FHA subsidy programs. A new provision in this rule (§ 882.215(f)) states that Part 247 is not applicable to a tenancy assisted under the Section 8 Existing Housing Program. This provision removes the overlap of requirements for termination of tenancy for finders-keepers tenant residing in a project otherwise covered under Part 247, Subpart A. Such a finders-keepers tenancy will be subject only to the termination of tenancy requirements in the section 8 finders-keepers program.

G. Lease Addendum

A legal aid comment recommends that the lease should specify that the landlord has the burden of proving good cause. This recommendation has not been adopted. While the substantive good cause requirement is controlled by Federal law, the procedural incidents of the possessory action should be left to determination under State and local law.

A PHA states that the required lease addendum should continue to be used to override provisions of owner leases not consistent with HUD requirements. As in the past, the required lease provisions will contain language stating that the minimum HUD required provisions will override conflicting provisions in the lease.

The final rule deletes from Part 882 the text of the required lease provisions in the program (previously Part 882, Appendix I). This is in accordance with practice in the other section 8 programs. Key regulatory requirements relating to the lease (e.g., grounds for termination of tenancy) are covered in the text of the HUD rules and need not be duplicated by inclusion of the form of lease addendum in the codified rule. The revised rule (§ 882.209(j)(1)) states:

> The Lease between the Owner and the Family shall be in accordance with § 882.215 [assisted tenancy], and any other applicable HUD regulations and requirements. The Lease must include all provisions required by HUD, and shall not contain any of the prohibited provisions in Appendix I.

H. Concurrent Notices

The regulation (§ 882.215(e)) specifies that required notices relating to the assisted tenancy (pursuant to § 882.215) may be combined with and run concurrently with any notices required under State or local law.

IX. Removal of Obsolete Provisions

Several obsolete provisions are removed from the regulation: (1) Alternative computation of annual adjustments for assistance contracts entered before January 29, 1979 (§ 882.108(a)(i)); (2) provisions on rent credit (in § 882.102, § 882.115, § 882.116(f)); and (3) transition provisions on applicability of regulations published in 1978 (§ 882.122). Since these provisions have no present applicability or effect on the public, notice and public procedure are unnecessary.

Other Matters

A Finding of No Significant Impact with respect to the environment is unnecessary since the Section 8 Existing Housing Program is categorically excluded from the National Environmental Policy Act procedures under 24 CFR 50.21(a)(4).

This rule does not constitute a "major rule" as that term is defined in Section 1(b) of Executive Order 12291 on Federal Regulation issued by the President on February 17, 1981. Analysis of the rule indicates that it does not: (1) Have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; or (3) have a significant adverse effect on competition, employment, investment,

productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The information collection requirements contained in this rule have been or will be submitted to the Office of Management and Budget (OMB) for approval under the Paperwork Reduction Act. No person may be subjected to a penalty for failure to comply with these information requirements until they have been approved and assigned an OMB control number. The OMB control number, when it is assigned, will be announced by separate notice in the Federal Register.

Pursuant to 5 U.S.C. 605(b) (the Regulatory Flexibility Act), the Undersigned hereby certifies that this rule does not have a significant economic impact on a substantial number of small entities.

The rule was listed as items H–75–82 and H–23–80 in the Department's Semiannual Agenda of Regulations published on October 17, 1983 at 48 FR 47445 and 47452, pursuant to Executive Order 12291 and the Regulatory Flexibility Act.

The Catalog of Federal Domestic Assistance program number is 14.156 and title is Lower-Income Housing Assistance Program (Section 8).

List of Subjects in 24 CFR Part 882

Grant programs: Housing and community development, Housing, Rent subsidies.

PART 882—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—EXISTING HOUSING

Accordingly, 24 CFR Part 882 is amended as follows:

1. In § 882.101, paragraph (a) is made an undesignated paragraph and the heading "General." is removed, paragraphs (a)(1) and (a)(2) are redesignated paragraphs (a) and (b) respectively, and new paragraph (b) is revised to read as follows:

§ 882.101 Applicability and scope.

* * * * *

(b) For the purposes of this Part "Section 8 Existing Housing Program" means the program under this Part (except Subparts D and E of this Part). "Existing Housing" means housing that in Decent, Safe, and Sanitary condition except that it does not include: (1) A unit which is covered by an Agreement to Enter into Housing Assistance Payments Contract or by a Housing Assistance Payments Contract under any section 8 program other than the Section 8 Existing Housing Program, (2) a unit which is owned by the PHA administering the ACC under this Part, or (3) housing assisted under the Act other than under section 8 or section 17.

§ 882.102 [Amended]

2. Section 882.102 is amended by removing the term "*Rent Credit.* See § 882.115.", and by revising the definitions of "Existing Housing" and "Service Agreement" to read as follows:

§ 882.102 Definitions.

* * * * *

Existing Housing. See § 882.101(b).

* * * * *

Service Agreement. A written agreement approved by the State between the Owner (including an entity with the right to sublease) of an Independent Group Residence and the Service Agency and/or other entities providing the supportive services to the occupants of Independent Group Residences. The agreement shall specify the type and frequency of the supportive services to be furnished. (See §§ 882.109(n)(6) and 882.209(j)(2)).

* * * * *

3. In § 882.106, paragraphs (a)(1) and (c)(2)(ii) are revised to read as follows:

§ 882.106 Contract rents.

(a) * * *

(1) The Gross Rent for any existing housing unit approved pursuant to § 882.209(f) shall not exceed the Fair Market Rent applicable to such unit on the date of Lease approval, except as provided in this paragraph (a).

* * * * *

(c) * * *

(2) * * *

(ii) The PHA shall issue a Certificate of Family Participation to each eligible Family which will reside in an Independent Group Residence. A separate Lease and Contract shall be executed for each such Family. A Resident Assistant who lives in the unit may be counted as a Family member in determining the appropriate number of bedrooms. However, the Resident Assistant's income shall be disregarded in determining the Total Tenant Payment, the Tenant Rent or the Family's income eligibility.

* * * * *

4. Section 882.107 is revised to read as follows:

§ 882.107 Term of ACC.

The initial term of the ACC shall be for five years. The term may be extended.

5. In § 882.108, paragraph (a)(1)(i) is revised to read as follows:

§ 882.108 Rent adjustments.

(a) * * *

(1) *Annual Adjustments.* (i) Annual adjustments as of any anniversary date shall be determined by using the applicable Section 8 Annual Adjustment Factor (24 CFR Part 888) most recently published by HUD in the Federal Register.

* * * * *

§ 882.109 [Amended]

6. In § 882.109, paragraph (c) (2) is revised to read as follows:

§882.109 Housing quality standards.

* * * * *

(c) * * *

(2) *Acceptability Criteria.* The dwelling unit shall contain a living room, kitchen area, and bathroom. The dwelling unit shall contain at least one bedroom or living/sleeping room of appropriate size for each two persons. Persons of opposite sex, other than husband and wife or very young children, shall not be required to occupy the same bedroom or living/sleeping room. Exterior doors and windows accessible from outside the unit shall be lockable.

* * * * *

§ 882.109 [Amended]

7. In § 882.109, paragraphs (n) (3), (n) (6) (iii) and (n) (7) are revised to read as follows:

§882.109 Housing quality standards.

* * * * *

(n) *Independent Group Residence—Performance Requirement.*

* * * * *

(3) The dwelling unit shall afford the Family adequate space and security. A living room, kitchen, dining area, bathroom, and other appropriate social, recreational or community space shall be within the unit, and the unit shall contain at least one bedroom of appropriate size for each two persons. Exterior doors and windows accessible from outside each unit shall be capable of being locked. An emergency exit plan shall be developed and occupants shall be apprised of the details of the plan. All emergency and safety features and

procedures shall meet applicable State and local standards.

* * * * *

(6) *Supportive Services.*

* * * * *

(iii) A written Service Agreement, approved by the State and in effect between the Owner and the Service Agency and/or the entities which provide the necessary supportive service, shall be submitted to the PHA with the request for Lease approval. The Lease between the eligible individual and the Owner shall set forth the Owner's obligation for and means of providing these services. If the lessor provides the supportive services, a Service Agreement is not required and the provision of these services shall be incorporated into the Lease and shall be approved by the State. (See § 882.209(j) (2).)

(7) *State Approval.* Independent Group Residences shall be licensed, certified or otherwise approved in writing by the State (e.g., Departments of Human Resources, Mental Health, Retardation, Social Services, etc.) prior to the execution of the initial Contract. This approval shall be reexamined periodically based on a schedule established by the State. To assure that facilities and the supportive services are appropriate to the needs of the occupants, the State shall also approve the written Service Agreement (or Leases, if the provider of services is the lessor) for each Independent Group Residence. (See § 882.209(j) (2).)

* * * * *

§ 882.115 [Reserved]

8. Section 882.115 is deleted and reserved.

9. § 882.116, paragraph (p) is removed, paragraphs (q) and (r) are redesignated paragraphs (p) and (q) respectively, and paragraphs (f), (g) and (n) are revised to read as follows:

§ 882.116 Responsibilities of the PHA.

* * * * *

(f) Provision to each Certificate holder of basic information on applicable housing quality standards and inspection procedures, search for and selection of housing, owner and tenant responsibilities, and basicrules.

(g) Determination of the amount of the Total Tenant Payment and Tenant Rent.

* * * * *

(n) Adjustment of the amount of the Tenant Rent, Utility Reimbursement and housing assistance payment as a result of an adjustment by the PHA of any applicable Utility Allowance.

* * * * *

10. Section 882.118 is revised to read as follows:

§ 882.118 Obligations of the Family.

(a) The Family shall:

(1) Supply such certification, release, information or documentation as the PHA or HUD determine to be necessary in the administration of the program, including use by the PHA for a regularly scheduled reexamination or interim reexamination of Family income and composition in accordance with HUD requirements.

(2) Allow the PHA to inspect the dwelling unit at reasonable times and after reasonable notice.

(3) Notify the PHA before vacating the dwelling unit.

(4) Use the dwelling unit solely for residence by the Family, and as the Family's principal place of residence; and shall not assign the Lease or transfer the unit.

(b) The Family shall not:

(1) Own or have any interest in the dwelling unit (other than in a manufactured home assisted under Subpart F of this Part). If the Owner is a cooperative, the Family may be a member of the cooperative.

(2) Commit any fraud in connection with the Section 8 Existing Housing Program.

(3) Receive assistance under the Section 8 Existing Housing Program while occupying, or receiving assistance for occupancy of, any other unit assisted under any Federal housing assistance program (including any section 8 program).

§ 882.122 [Reserved]

11. Section 882.122 is deleted and reserved.

12. In § 882.204, paragraphs (a)(2), (b)(1) (i) and (ii), (b)(3)(ii), and (b)(4) are revised to read as follows:

§ 882.204 Submission of PHA applications.

* * * * *

(a) * * *

(2) State by number of bedrooms the total number of units requested by the PHA (i.e., one bedroom units, two bedroom units), and the approximate number of units for elderly, handicapped, or disabled Families.

* * * * *

(b) * * *

(1) * * *

(i) The plan shall describe the PHA's policies and procedures for:

(A) Outreach to eligible Families, and satisfying the requirements of § 882.207;

(B) Achieving participation by Owners of units of suitable price and quality located outside areas of low income or minority concentration (and outside the local jurisdiction in any area where the PHA is not legally barred from entering into Contracts) and satisfying the requirements of § 882.206;

(C) Selecting Families for participation without discrimination because of age, race, color, religion, sex, handicap or national origin;

(D) Assisting Certificate holders who allege that illegal discrimination is preventing them from leasing suitable units.

(ii) The PHA should consider the possibility of subcontracting with a community-based organization, such as a fair housing organization that has had experience in assisting families which traditionally have encountered discrimination or other difficulties in finding housing in the locality.

* * * * *

(3) * * *

(ii) The administrative plan shall state the PHA's policies and procedures for: performing outreach to eligible Families; contacting Owners; handling applications and determining Family eligibility; selecting Families for participation in the PHA's Section 8 program (including any selection preferences); computing the Total Tenant Payment and the Tenant Rent; briefing Families and issuing Certificates (including determination of the number of bedrooms entered on the Certificate); inspecting units for conformity to housing quality standards; approving Leases and executing Contracts; making payments to Owners; certifying and recertifying incomes; providing housing information and services to applicants and to Families participating in the program; reviewing and adjusting, as necessary, Utility Allowances; reinspecting units under Contract; adjusting Contract Rent payable to Owners; establishing informal review procedures for applicants for participation in the PHA program and informal hearing procedures for participants in the PHA program; monitoring program performance.

(4) A proposed schedule of Utility Allowances with a justification of the amounts proposed.

13. In § 882.206, paragraphs (a) and (b) are revised to read as follows:

§ 882.206 Annual Contributions Contract; schedule of leasing.

(a) *Transmittal of ACC.* After the HUD field office has prepared the ACC, the ACC shall be transmitted to the PHA

for execution by the PHA. The ACC shall be returned to HUD together with the PHA's estimates of its financial requirements on the prescribed forms, equal opportunity housing plan, administrative plan and proposed schedule of Utility Allowances, if these have not been previously submitted.

(b) *Execution of ACC by HUD.* After receipt of the PHA-executed ACC and HUD approval of the equal opportunity housing plan, administrative plan, financial estimates and the schedule of Utility Allowances, HUD shall execute the ACC. HUD shall then transmit to the PHA a fully executed copy of the ACC together with a leasing schedule in accordance with paragraph (c) of this section.

* * * * *

14. In § 882.207, the phrase "; waiting list" in the section heading is removed, paragraph (a) is made an undesignated paragraph and the paragraph (a) heading "Public Notice to Lower-Income Families." is removed, paragraphs (b) and (c) are removed, and paragraphs (a)(1) and (a)(2) are redesignated paragraphs (a) and (b) respectively, and new paragraph (a) is revised to read as follows:

§ 882.207 Public notice to lower-income families

* * * * *

(a) The notice shall state that occupants of housing assisted under the Act, and applicant on a waiting list for any such housing, must apply specifically for participation in the PHA's Section 8 Existing Housing Program if they wish to be considered for such participation. The notice shall also state that applicants for participation in the program will not lose their places on the public housing waiting list.

* * * * *

15. In § 882.209, the section heading is revised, paragraph (f) is removed, paragraphs (a), (b) and (c)(7) are revised, paragraph (e) is redesignated as paragraph (m) and new paragraph (m) is revised, and new paragraphs (e) to (l) are added, to read as follows:

§ 882.209 Selection and participation.

(a) *Selection for Participation in PHA's Section 8 Existing Housing Program.* (1) A Family becomes a participant in the PHA's Section 8 Existing Housing Program ("participant") when the PHA executes a Contract with an Owner for housing assistance payments on behalf of the Family.

(2) The PHA shall determine whether an applicant for participation qualifies as a Family, and is income eligible.

(3) The PHA's administrative plan or equal opportunity housing plan may provide for preferences in selection of applicants.

(4) The PHA may establish selection preferences for applicants living in the PHA jurisdiction. However, preferences may not be based on the identity or location of the housing which is occupied or proposed to be occupied by the applicant, nor upon the length of time the applicant has resided in the jurisdiction. Applicants who are working or who have been notified that they are hired to work in the jurisdiction shall be treated as residents of the jurisdiction.

(5) The PHA shall not establish selection criteria based on the applicant's suitability as a tenant or expected behavior as a tenant. The Owner will select the tenant. The PHA's selection of an applicant for participation is not a representation by the PHA to the Owner concerning expected behavior of the Family in tenancy of a unit, or concerning the Family's suitability for tenancy.

(6) If the PHA has selected an eligible Family residing in an Independent Group Residence to participate in the PHA's Section 8 program, the PHA may establish a preference for selecting eligible applicants who have indicated the desire to reside in an Independent Group Residence when a Section 8 Family in an Independent Group Residence moves. A Family given this preference shall select the unit of its choice and does not have to reside in the Independent Group Residence in which a vacancy has occurred.

(7) The PHA shall maintain a waiting list of income eligible Families which have applied for participation in the PHA's Section 8 program. The PHA shall select applicants for participation from the waiting list in accordance with policies and procedures (including any preferences) stated in the administrative plan or equal opportunity housing plan.

(8) If there is insufficient funding to admit all eligible applicants to participation in the PHA's Section 8 program, the PHA may at any time suspend the acceptance or processing of new applications, or the addition of new listings to the waiting list. Any such suspension shall be publicly announced by the PHA through publication in a newspaper of general circulation as well as through minority media and other suitable means.

(9) Nothing in this Part is intended to confer on an applicant for participation any right to be listed on the PHA waiting list, to any particular position on the waiting list, to receive a Certificate, or to participate in the PHA's Section 8 program. The foregoing sentence shall not be deemed to affect or prejudice any judicially-recognized cause of action.

(10) The PHA shall maintain records of applicants and participants which provide HUD with racial, gender and ethnic data.

(11) The PHA shall retain for three years a copy of the application, notices to the applicant, and the applicant's responses.

(b) *Issuance of Certificate of Family Participation and Certificate Holder's Packet. (1) When the PHA determines there is sufficient funding, the PHA shall issue a Certificate to an applicant on the waiting list.*

(2) The PHA shall enter on the Certificate the smallest number of bedrooms consistent with standards established by the PHA for determining the number of bedrooms for Families of different sizes and compositions. The PHA's standards shall provide for the minimum commitment of housing assistance payments while avoiding overcrowding and shall be consistent with the applicable housing quality standards (see § 882.109(c)). The PHA shall grant exceptions from the standards if the PHA determines the exceptions are justified by the relationship, age, sex, health or handicap of Family members, or other individual circumstances. For a Family renting a unit with a larger or smaller number of bedrooms than stated on the Certificate, see § 882.209(i).

(3) The PHA shall maintain a system to assure that the PHA will be able to honor all outstanding Certificates within the funding provided under the ACC, and that it will comply to the maximum extent feasible with the unit distribution specified in the ACC.

(4) When issuing a Certificate, the PHA shall give the Family a Certificate Holder's Packet, which includes:

(i) Request for Lease approval;

(ii) Required Lease provisions and prohibited Lease provisions (see § 882.209(j)(1));

(iii) Information regarding lead-based paint poisoning hazards, symptoms and precautions;

(iv) Fair housing information and housing discrimination complaint forms, as required by HUD;

(v) Information on the Total Tenant Payment and the Tenant Rent;

(vi) The PHA's schedule of Utility Allowances;

(vii) Information on the PHA's procedures for conducting informal hearings for participants. This information shall contain a general description of the procedures for conducting informal hearings for

participants in the PHA program; including a description of the circumstances in which the PHA is required to provide the opportunity for an informal hearing (pursuant to § 882.216 (b)(1) and (b)(2)), and of the procedures for requesting a hearing;

(viii) Such other items as the PHA may determine.

(c) * * *

(7) Function of Fair Market Rent, determination of Tenant Payment, Total Tenant Rent and of the housing assistance payment; and

* * * * * *

(e) *Information to Owners and Requests to PHA for Lease Approval.* (1) The PHA will respond to inquiries from Owners who have been approached by Certificate holders by explaining major program procedures including Lease provisions, Lease approval procedures, housing quality inspections, Contract provisions and payment procedures and by furnishing copies of the pertinent forms.

(2) When a Family has found a unit it wants and the Owner is willing to lease, the Family shall submit to the PHA a Request for Lease Approval signed by the Owner of the unit and the Family. At the same time, the Family shall submit a copy of the proposed Lease (which shall be in accordance with § 882.209(j)). The proposed Lease shall be complete except for execution and entry of the amount of rent payable by the Family to the Owner (Tenant Rent).

(f) *Amount of Contract Rent to Owner.* (1) The PHA shall determine whether the requested Contract Rent is approvable in accordance with § 882.106. If the Family is to pay directly for any of the utilities or services, the PHA shall determine the amount of the Utility Allowance on account thereof. Inasmuch as the Fair Market Rents are established for a geographic area within which the rents for modest Decent, Safe, and Sanitary housing may vary substantially, the PHA shall make an analysis to determine the reasonable rent for the particular unit. If the requested Contract Rent plus any applicable Utility Allowance is at or below the reasonable rent and at or below the Fair Market Rent, it may be approved.

(2) If the otherwise approvable Contract Rent to Owner plus the applicable Utility Allowance, if any, is higher than the applicable Fair Market Rent, and if the PHA determines that such higher rent is justified, it shall take the action required by § 882.106 to have a higher rent approved.

(g) *Amount of Rent Payable by Family to Owner.* The amount of rent payable by the Family to the Owner shall be the Tenant Rent. Where applicable, the Utility Reimbursement will be paid by the PHA directly to the Family, or, if the Family and the utility company consent, may be paid jointly to the Family and the utility company or directly to the utility company.

(h) *Decent, Safe, and Sanitary Condition of Unit.* (1) Before approving a Lease, the PHA shall inspect the unit for compliance with the PHA's housing quality standards as established in accordance with § 882.109, or cause it to be so inspected on the date on which the Owner indicates that the unit will be ready for inspection, or as promptly as possible thereafter.

(2) If there are defects or deficiencies which must be corrected in order for the unit to be Decent, Safe, and Sanitary, the Owner shall be advised by the PHA of the work required to be done. Before a Contract is executed, the unit must be reinspected to ascertain that the necessary work has been performed and that the unit is Decent, Safe, and Sanitary. Occupancy of housing which requires repairs in orders to be made Decent, Safe and Sanitary may be assisted under this Part only after such repairs have been made.

(3) A report of every inspection and reinspection under this paragraph (h) shall be prepared and maintained in the files of the PHA. Each such report shall specify: (i) Any defects or deficiencies which must be corrected in order for the unit to be Decent, Safe, and Sanitary, and (ii) any other defects or deficiencies, a record of which shall be maintained for use in the event of a subsequent claim by the Owner that they were caused during the period of occupancy by the Family.

(i) *Size of Units.* (1) Regardless of the number of bedrooms stated on the Certificate, no otherwise acceptable unit shall be disapproved on the ground that it is too large for the Family, if the rent to Owner plus any Utility Allowance applicable to the actual larger size unit does not exceed the Fair Market Rent, or such higher rent as may previously have been approved by HUD under § 882.106(a) (3) or (4), for a unit with the number of bedrooms stated on the Certificate.

(2) The PHA may not prohibit a Family from renting a unit with fewer bedrooms than the number stated on the Certificate. However, the unit must meet the space requirement of § 882.109(c), or such variation as may have been approved by HUD, and the rent to Owner plus any applicable Utility Allowance must not exceed the Fair Market Rent, or such higher rent as approved by HUD pursuant to § 882.106(a) (3) or (4), for the actual smaller size unit.

(j) *Lease Requirements.* (1) *Required and Prohibited Provisions.* The Lease between the Owner and the Family shall be in accordance with § 882.215, and any other applicable HUD regulations and requirements. The Lease must include all provisions required by HUD, and shall not contain any of the prohibited provisions in Appendix I.

(2) *Independent Group Residences.* Leases for Independent Group Residences shall incorporate by reference the supportive services to be provided in accordance with the written Service Agreement between the Owner and the Service Agency and/or other entities providing the necessary supportive services. If the lessor provides the supportive services, a Service Agreement is not required and the provision of these services shall be incorporated into the Lease. This Service Agreement or pertinent Lease provisions shall be approved in writing by the State prior to PHA execution of the Contract (See §§ 882.102 and 882.109(n)(6)).

(k) *Approval of Lease and Execution of Related Documents.* (1) If the PHA determines that a unit which an Eligible Family wishes to lease is in Decent, Safe, and Sanitary condition, that the rent is approvable, and that the proposed Lease complies with the requirements of this Part, the PHA shall notify the Owner and the Family of its determination of Lease approval, and furnish two copies of the Contract to the Owner.

(2) After notification: (i) The Family and the Owner shall execute the Lease; (ii) the Owner shall sign both copies of the Contract, and shall furnish to the PHA a copy of the executed Lease, and both copies of the executed Contract; (iii) the PHA shall execute the Contract and return an executed copy to the Owner.

(3) The PHA shall retain the following in its files: The Request for the Lease Approval, the approved Lease, inspection report(s), the certification pursuant to § 882.106(b) that the rent is reasonable and not in excess of rents currently being charged by the Owner for comparable unassisted units, and the executed Contract.

(l) *Disapproval of Lease.* (1) If the PHA determines that the Lease cannot be approved for any reason, including the condition of the unit, the PHA shall notify the Owner and the Family that:

(i) The proposed Lease and/or the proposed dwelling unit are/is disapproved, for specified reasons; and

(ii) If the conditions requiring disapproval are remedied, and a Request for Lease Approval is resubmitted on or before a specified date, the Lease will be approved if the PHA determines that the conditions have been remedied to its satisfaction.

(2) The Certificate of Family Participation shall not expire before the date specified pursuant to paragraph (l)(1)(ii) of this section.

(3) The PHA shall retain in its files the following: the Request for Lease Approval, the inspection report(s), if any, and the notification of disapproval of the Lease.

(m) *Continued Participation When Participant Family Moves.* (1) If a participant in the PHA's Section 8 program notifies the PHA, during or at the end of the term of the Lease, that the Family wants another Certificate so that the Family can move to another dwelling unit within the area in which the PHA has determined that the PHA is not legally barred from entering into Contracts, the PHA shall (unless the PHA determines it does not have sufficient funding for continued Section 8 assistance for the Family) either: (i) Issue another Certificate, or (ii) deny issuance of a Certificate in accordance with § 882.210.

(2) If a participant in the PHA's Section 8 program moves out of the area in which the PHA has determined that it is able to enter Contracts, the Family may obtain housing assistance under the Section 8 program only if the Family is admitted to participation in the Section 8 program of a PHA operating in the area to which the Family moves. The new PHA shall treat the Family either as a participant in the PHA's Section 8 program to whom the PHA is already providing assistance and who wants to move to another unit, or as a resident who has submitted an application for participation. In either case, the PHA shall not deny admission to the program on the ground that the Family income is above limits for admission in that jurisdiction.

16. Section 882.210 is revised, to read as follows:

§ 882.210 Grounds for denial or termination of assistance.

(a) This section states the grounds for denial of assistance to an applicant, or for denial or termination of assistance to a participant, because of action or inaction by the applicant or participant.

(b) The PHA may deny an applicant admission to participation in the program, may deny issuance of another Certificate to a participant who wants to move to another dwelling unit (see § 882.209(m)(1) and § 882.216(b)(1)(iv)), and may decline to enter into a Contract, or to approve a Lease, where requested by a participant, in the following cases:

(1) If the applicant or participant currently owes rent or other amounts to the PHA or to another PHA in connection with Section 8 or public housing assistance under the United States Housing Act of 1937.

(2) If the applicant (as a previous participant in the Section 8 program) or participant has not reimbursed the PHA or another PHA for any amounts paid to an Owner under a Contract for rent or other amounts owned by the Family under the Lease (see § 882.112(d)), or for a vacated unit (see § 882.105(b)).

(3) If the applicant or participant has committed any fraud in connection with any federal housing assistance program.

(4) If the applicant or participant has violated any Family obligation under the Section 8 Existing Housing Program as stated in § 882.118.

(5) If the applicant or participant has breached an agreement as described in § 882.210(c).

(c) In the cases described in § 882.210(b)(1) and (2), the PHA may at its discretion offer the applicant or participant the opportunity to enter an agreement to pay amounts owed to a PHA or amounts paid to an Owner by a PHA. If the PHA elects to make such offer, the agreement shall be on terms prescribed by the PHA. The PHA may at any time deny or terminate assistance for breach of such agreement.

(d) In the following cases, the PHA may terminate housing assistance payments which are being made on behalf of the participant under an outstanding Contract: (1) If the participant has commited any fraud in connection with any federal housing assistance program. (2) If the participant has violated any Family obligation under the Section 8 Existing Housing Program as stated in § 882.118. (3) If the participant has breached an agreement as described in § 882.210(c) above. The provisions of this paragraph (d) shall not affect or limit the right of the PHA to exercise any Contract remedy against the Owner under an outstanding Contract, including the termination of housing assistance payments to the Owner (see § 882.211(c) and § 882.216(b)(2)(iii)).

17. Section 882.211 is revised to read as follows:

§ 882.211 Maintenance, operation and inspections.

(a) *Maintenance and Operation.* The Owner shall provide all the services, maintenance and utilities which the Owner agrees to provide under the Contract, subject to termination of housing assistance payments or other applicable remedies if the Owner fails to meet these obligations.

(b) *Periodic Inspection.* In addition to the initial inspection provided under § 882.209(h)(l), the PHA will inspect or cause to be inspected each dwelling unit leased to a Family at least annually and at such other times as may be necessary to assure that the Owner is meeting the obligation to maintain the unit in Decent, Safe and Sanitary condition and to provide the agreed upon utilities and other services. The PHA will take into account complaints and any other information coming to its attention in scheduling inspections. All complaints by Families concerning compliance by the Owner with the housing quality standards shall be retained in the PHA's files for three years.

(c) *Units Not Decent, Safe and Sanitary.* If the Owner fails to maintain a dwelling unit in Decent, Safe and Sanitary condition, the PHA may exercise any of its rights and remedies under the Contract, including termination of housing assistance payments (even if the Family continues in occupancy) and termination of the Contract. If the PHA determines to terminate the Contract, and the Family wants to move to another dwelling unit with assistance under the PHA's Section 8 program, the PHA shall issue another Certificate to the Family (unless the PHA denies issuance of a Certificate in accordance with § 882.210).

18. Section 882.213 is revised to read as follows:

§ 882.213 Overcrowded or oversized units.

The PHA shall issue a participant Family a new Certificate, and the Family and PHA shall try to find an acceptable unit as soon as possible, if: (a) The PHA determines that a Contract unit is not Decent, Safe and Sanitary because of an increase in Family size or a change in Family composition, or (b) The PHA determines that the Family is residing in a unit with a larger number of bedrooms than appropriate under the PHA standards (see § 882.209(b)(2)) because of a change in Family size or change in Family composition, and that the Gross Rent for the unit exceeds the Fair Market Rent for a unit with the number of bedrooms appropriate for the Family size and composition. (The PHA shall notify the Family that exceptions to the standards may be granted, and of the circumstances in which the grant of an exception will be considered by the PHA.) If an acceptable unit is found that is available for occupancy by the

Family, the PHA shall terminate the Contract in accordance with its terms.

19. Section 882.215 is revised to read as follows:

§ 882.215 Assisted tenancy.

(a) *Term of Lease.* (1) The term of the Lease shall begin on a date stated in the Lease, and shall continue until: (i) A termination of the Lease by the Owner in accordance with paragraph (c) of this section, (ii) a termination of the Lease by the Family in accordance with the Lease or by mutual agreement during the term of the Lease, or (iii) a termination of the Contract by the PHA.

(2) The term of the Lease shall begin at least one year prior to the end of the remaining term of the ACC. The Contract and the Lease shall end upon termination of the ACC.

(3) During the term of the Lease, the Contract Rent shall be subject to adjustment in accordance with § 882.106, and the Tenant Rent shall be subject to change in accordance with HUD regulations and requirements.

(4) The Owner may offer the Family a new Lease for execution by the Family after approval by the PHA in accordance with § 882.209(k), for a term beginning at any time after the first year of the term of the Lease. The Owner shall give the tenant written notice of the offer, with copy to the PHA, at least sixty days before the proposed commencement date of the new Lease term. The offer may specify a reasonable time limit for acceptance by the Family.

(5) The Lease shall permit a termination of the Lease by the Family without cause, at any time after the first year of the term of the Lease, or not more than sixty days written notice by the Family to the Owner (with copy to the PHA).

(b) *Housing Assistance Payments Contract.* (1) The Contract for a unit shall be in a form prescribed by HUD.

(2) The term of the Contract shall begin on the first day of the term of the Lease and shall end on the last day of the term of the Lease.

(c) *Termination of Tenancy (for Leases entered into on or after October 1, 1981).* (1) The Owner shall not terminate the tenancy except for:

(i) Serious or repeated violation of the terms and conditions of the Lease;

(ii) Violation of Federal, State, or local law which imposes obligations on the tenant in connection with the occupancy or use of the dwelling unit and surrounding premises; or

(iii) Other good cause.

(2) The following are some examples of "other good cause" for termination of tenancy by the Owner: Failure by the Family to accept the offer of a new Lease in accordance with paragraph (a)(4) of this section; a Family history of disturbance of neighbors or destruction of property, or of living or housekeeping habits resulting in damage to the unit or property; criminal activity by Family members involving crimes of physical violence to persons or property; the Owner's desire to utilize the unit for personal or family use or for a purpose other than use as a HUD assisted residential rental unit; or a business or economic reason for termination of the tenancy (such as sale of the property, renovation of the unit, desire to rent the unit at a higher rental). This list of examples is intended as a non-exclusive statement of some situations included in "other good cause," but shall in no way be construed as a limitation on the application of "other good cause" to situations not included in the list.

(3) The Owner may evict the tenant from the unit only by instituting a court action. The Owner must notify the PHA in writing of the commencement of procedures for termination of tenancy, at the same time that the Owner gives notice to the tenant under State or local law. The notice to the PHA may be given by furnishing to the PHA a copy of the notice to the tenant.

(d) *Termination of Tenancy (for Leases entered into before October 1, 1981).* For Leases entered into before October 1, 1981, the PHA shall have the sole right to give the notice to vacate, with the Owner having the right to make representation to the PHA for temination of tenancy.

(e) *Concurrent Notices.* Any notices required under this section (see paragraphs (a)(4), (a)(5), (c)(3) and (d) of this section) may be combined with and run concurrently with any notices required under State or local law.

(f) *Non-applicability of Part 247—Evictions from Certain Subsidized and HUD-owned Projects.* Notwithstanding the provisions of 24 CFR 247.1, 24 CFR Part 247 shall not apply to a tenancy assisted under the Section 8 Existing Housing Program.

(g) *Applicability.* Paragraphs 882.215 (a), (b), (c)(2) and (c)(3) shall be applicable if a Lease or Contract is entered after May 10, 1984.

20. Section 882.216 is revised to read as follows:

§ 882.216 Informal review or hearing.

(a) *Informal Review of PHA Decision on Application for Participation in PHA Program.* (1) The PHA shall give an applicant for participation in the PHA's Section 8 Existing Housing Program prompt written notice of a decision denying assistance to the applicant including a decision denying listing on the PHA waiting list, issuance of a Certificate of Family Participation, or participation in the program). The notice shall also state that the applicant may request an informal review of the decision, and shall describe how to obtain the informal review.

(2) The PHA shall give the applicant an opportunity for an informal review of the decision, in accordance with review procedures established by the PHA. The informal review shall be conducted by any person or persons designated by the PHA, other than a person who made or approved the decision under review or a subordinate of such person. The applicant shall be given an opportunity to present written or oral objections to the PHA decision. The PHA shall promptly notify the applicant in writing of the final PHA decision after the informal review, including a brief statement of the reasons for the final decision.

(3) The PHA is not required to provide an opportunity for an informal review in accordance with paragraph (a):

(i) To review discretionary administrative determinations by the PHA, or to consider general policy issues or class grievances;

(ii) To review the PHA's determination of the number of bedrooms entered on the Certificate under the standards established by the PHA (see § 882.209(b)(2));

(iii) To review the PHA's determination that a unit located by a Certificate holder does not comply with the PHA's housing quality standards established in accordance with § 882.109, or the PHA's determination not to approve the Lease for the unit;

(iv) To review the PHA's decision not to approve a request by a Certificate holder for an extension of the term of the Certificate.

(b) *Informal Hearing on PHA Decision Affecting Participant Family.* (1) The PHA shall give a participant in the PHA's Section 8 Existing Housing Program an opportunity for an informal hearing to consider whether decisions relating to the individual circumstances of the Family are in accordance with law, HUD regulations and PHA rules, in the following cases:

(i) A determination of the amount of the Total Tenant Payment or Tenant Rent (not including determination of the PHA's schedule of Utility Allowances for Families in the PHA's Section 8 program).

(ii) A decision to deny or terminate assistance on behalf of the participant.

(iii) A determination that a participant Family is residing in a unit with a larger number of bedrooms than appropriate under the PHA standards (see § 882.209(b)(2) and § 882.213), and the PHA's determination to deny the Family's request for an exception from the standards.

(iv) In the case of an assisted Family which wants to move to another dwelling unit with continued participation in the PHA program (see § 882.209(m)(1)), a determination of the number of bedrooms entered on the Certificate under the standards established by the PHA (see § 882.209(b)(2)).

(2) The PHA is not required to provide an opportunity for an informal hearing in accordance with paragraph (b):

(i) To review discretionary administrative determinations by the PHA, or to consider general policy issues or class grievances;

(ii) To review the PHA's determination that a unit does not comply with the PHA's housing quality standards established in accordance with § 882.109, that the Owner has failed to maintain or operate a Contract Unit to provide decent, safe and sanitary housing in accordance with the HQS (including all services, maintenance and utilities required under the Lease), or that the Contract unit is not decent, safe and sanitary because of an increase in Family size or change in Family composition;

(iii) To review a decision by the PHA to exercise any remedy against the Owner under an outstanding Contract, including the termination of housing assistance payments to the Owner (see § 882.211(c)); or

(iv) To review the PHA's decision not to approve a Family's request for an extension of the term of the Certificate issued to an assisted Family which wants to move to another dwelling unit with continued participation in the PHA's Section 8 program.

(3)(i) The PHA shall give the participant prompt written notice of a decision described in § 882.216(b)(1) (ii) or (iii). The notice shall contain a brief statement of the reasons for the decision. The notice shall state that, if the participant does not agree with the decision, the participant may request an informal hearing on the decision, and shall also state the time by which the request for an informal hearing must be made by the participant.

(ii) When the PHA determines the amount of the Total Tenant Payment or the Tenant Rent as described in § 882.216(b)(1)(i), or determines the number of bedrooms entered on the Certificate of an assisted Family which wants to move to another dwelling unit as described in § 882.216(b)(1)(iv), the PHA shall notify the participant that the participant may ask for an explanation of the basis of the PHA determination, and that, if the participant does not agree with the determination, the participant may request an informal hearing on the decision.

(4) If the PHA has decided to terminate housing assistance payments on behalf of a participant under an outstanding Contract (and if the PHA is required to give the participant an informal hearing on the decision), the participant shall be afforded the opportunity for such informal hearing before the termination of housing assistance payments.

(5) In all cases where a hearing is required under paragraph (b), the PHA shall proceed with a hearing in a reasonably expeditious manner upon the request of the participant.

(6) The PHA shall adopt written procedures for conducting informal hearings for participants in the PHA's Section 8 program. The PHA hearing procedures shall comply with the following:

(i) The hearing may be conducted by any person or persons designated by the PHA, other than a person who made or approved the decision under review or a subordinate of such person.

(ii) At its own expense, the participant may be represented by a lawyer or other representative.

(iii) The person who conducts the hearing may regulate the conduct of the hearing in accordance with the PHA hearing procedures.

(iv) The PHA and the participant shall be given the opportunity to present evidence, and may question any witnesses. Evidence may be considered without regard to admissibility under the rules of evidence applicable to judicial proceedings.

(v) The person who conducts the hearing shall issue a written decision, stating briefly the reasons for the decision. Factual determinations relating to the individual circumstances of the participant shall be based on the evidence presented at the hearing. A copy of the hearing decision shall be furnished promptly to the participant.

(7)(i) The PHA is not bound by a hearing decision: (A) Concerning a matter for which the PHA is not required to provide an opportunity for an informal hearing pursuant to § 882.216(b), or otherwise in excess of the authority of the person conducting the hearing under the PHA hearing procedures, or (B) Contrary to HUD regulations or requirements, or otherwise contrary to Federal, State or local law.

(ii) If the PHA determines that it is not bound by a hearing decision, the PHA shall promptly notify the participant of the determination, and of the reasons for the determination.

Appendix I—[Removed]

21. In Part 882, Appendix I—Required Lease Provisions is removed and Appendix II is redesignated as Appendix I.

22. In § 882.504, paragraph (j) is revised to read as follows:

§ 882.504 Assistance to owners and selection of units.

* * * * *

(j) The Lease between the Owner and the Family must be in accordance with § 882.511 and any other applicable HUD regulations and requirements. The Lease must include all provisions required by HUD, and must not include any of the prohibited provisions in Appendix I.

Authority: Section 8, United States Housing Act of 1937 (42 U.S.C. 1437f); sec. 328(e) of the Housing and Community Development Amendments of 1981 (Pub. L. 97-35); and sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

Dated: March 21, 1984.

Maurice L. Barksdale,

Assistant Secretary for Housing, Federal Housing Commissioner.

BILLING CODE 4210-27-M

Solar Energy and Energy Conservation Bank

24 CFR Part 1800

[Docket No. R-84-1053; FR-1700]

Financial Assistance Program of the Solar Energy and Energy Conservation Bank; Correction

AGENCY: Solar Energy and Energy Conservation Bank, HUD.

ACTION: Final rule; correction.

SUMMARY: The purpose of this document is to correct a table contained in a final rule that set forth the requirements for implementing the Solar Energy and Energy Conservation Bank's program which was published in the **Federal Register** on March 16, 1984 (49 FR 9865).

FOR FURTHER INFORMATION CONTACT: Dr. Richard Francis, Manager, Solar Energy and Energy Conservation Bank, Telephone number, (202) 755-7168. (This is not a toll-free number.)

Accordingly, the following is being made in FR Doc. 84-7024 appearing in

the March 16, 1984 issue of the **Federal Register** beginning on page 9665:

1. On page 9669, middle of page, third column, remove the table from § 1800.67(a)(1) and insert the following new Tables I and II in its place:

TABLE I

Building type	Assistance as percentage of improvement cost	Maximum assistance			
		1-family building	2-family building	3-family building	4-family building
One- to four-family residential building. Annual income of recipient:					
80 percent or less of median area income	50 percent up to	$1,250	$2,000	$2,750	$3,500
80–100 percent of median area income	35 percent up to	875	1,400	1,925	2,450
100–120 percent of median area income	30 percent up to	750	1,200	1,650	2,100
120–150 percent of median area income	20 percent up to	500	800	1,100	1,440
Over 150 percent of median area income	20 percent up to	(1)	(2)	(2)	(2)

[1] $400 for a non-occupant owner.
[2] $400 per dwelling unit for an owner.

TABLE II

Building type	Assistance as percentage of improvement cost	Maximum assistance
Multifamily residential building	20 percent up to	(1)
Agricultural or commercial building	20 percent up to	$5,000

[1] $400 for a tenant with annual income not in excess of 150% of median area income; $400 per dwelling unit for an owner.

Authority: Secs. 506(e) and 520, Solar Energy and Energy Conservation Bank Act (12 U.S.C. 3604(e) and 3618).

Dated: March 23, 1984.

Grady J. Norris,

Assistant General Counsel for Regulations.

BILLING CODE 4210-32-M

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

25 CFR Part 11

Law and Order on Indian Reservations; Listing of Courts of Indian Offenses

Correction

In FR Doc. 84-5304 beginning on page 7365 in the issue of Wednesday, February 29, 1984, make the following corrections.

On page 7366, first column, in § 11.1(a), insert "(8) Kaibab (Arizona)." between paragraphs (7) and (9).

In the second column in the file line, "FR Doc. 84-5304" should read "FR Doc. 84-5303".

BILLING CODE 1505-01-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 1

[T.D. 7947]

Income Tax; Taxable Years Beginning After December 31, 1953; Deduction for Motor Carrier Operating Authorities

Correction

In FR Doc. 84-5935 beginning on page 8246 in the issue of Tuesday, March 6, 1984, make the following corrections.

1. On page 8248, first column, third line of § 1.9200-1(c)(1)(ii), "paragraph (c)(1)(ii)" should have read "paragraph (c)(1)(i)".

2. On page 8249, second column, § 1.9200-1(g), eighteenth line of example (1)(iv), "$30,000" should have read "$130,000".

BILLING CODE 1505-01-M

Bureau of Alcohol, Tobacco and Firearms

27 CFR Part 9

[T.D. ATF-170; Ref: Notice No. 484]

The Umpqua Valley Viticultural Area

AGENCY: Bureau of Alcohol, Tobacco and Firearms, Treasury.

ACTION: Final rule, Treasury decision.

SUMMARY: As the result of a petition, this final rule establishes a viticultural area in Douglas County, Oregon, to be known as "Umpqua Valley." The Bureau of Alcohol, Tobacco and Firearms (ATF) believes the establishment of Umpqua Valley as a viticultural area and its subsequent use as an appellation of origin on wine labels and in wine advertisements will allow wineries to better designate where their wines come from and will enable consumers to better identify the wines from this area.

EFFECTIVE DATE: April 30, 1984.

FOR FURTHER INFORMATION CONTACT: Robert L. White, Regulations and Procedures Division, Bureau of Alcohol, Tobacco and Firearms, Washington, DC 20226 (202-566-7531).

SUPPLEMENTARY INFORMATION:

Background

On August 23, 1978, ATF published Treasury Decision ATF-53 (43 FR 37672, 54624) revising regulations in 27 CFR Part 4. These regulations allow the establishment of definite viticultural areas. The regulations also allow the name of an approved viticultural area to be used as an appellation of origin on wine labels and in wine advertisements.

On October 2, 1979, ATF published Treasury Decision ATF-60 (44 FR 56692) which added a new Part 9 to 27 CFR, for the listing of approved American viticultural areas.

Section 4.25a(e)(1), Title 27, CFR, defines an American viticultural area as a delimited grape-growing region distinguishable by geographical features. Section 4.25a(e)(2) outlines the procedures for proposing an American viticultural area. Any interested person may petition ATF to establish a grape-growing region as a viticultural area.

Mr. David B. Adelsheim, Chairman of the Appellation Committee, Oregon Winegrowers Association, petitioned ATF to establish a viticultural area in Douglas County, Oregon, to be known as "Umpqua Valley." This viticultural area is located entirely within Douglas County in the southwestern part of the State and consists of approximately 768,000 acres. There are five wineries

and approximately 334 acres of grapes scattered throughout the area. In response to this petition, ATF published a notice of proposed rulemaking, Notice No. 484, in the **Federal Register** on September 16, 1983 (48 FR 41604), proposing the establishment of the Umpqua Valley viticultural area.

Comments

No comments were received during the comment period. ATF has received no information from any source indicating opposition to the petition.

General Information

In *The Winemakers* by Purser and Allen, the beginnings of viticulture in the Umpqua Valley are traced to Jesse Applegate who planted 40 acres of grapes in 1876 that were probabley sold as table grapes. The Von Pessl brothers planted the first vinifera vines soon after, having brought cuttings from St. Helena and Lodi, California. The brothers grew Zinfandel, Riesling, and Sauvignon, made wine for home use, and also ran a distillery. Adam Doerner visited the Von Pessls in 1888, worked for the Beringers in St. Helena, then returned to the Umpqua Valley to grow Sauvignon and Riesling grapes. The winery he started continued to produce wine up until 1965 (selling most to home winemakers during Prohibition) under Adam's son and grandson.

Leon Adams, in *The Wines of America,* calls Richard Sommer the father of Oregon's current wine industry. The following quote is from Adams' book: "Remembering what Dr. Amerine (University of California at Davis professor) had taught, that the finest wine grapes in California are grown in the cooler districts, Sommer went where it is still cooler, to Oregon. He went * * * north, testing the grapes in each locality. At Roseburg in the Umpqua Valley he found some Zinfandels in the 80-year-old Doerner's Winery vineyard that tested right. In 1961 he bought a hillside farm * * * ten miles west of Roseburg, planted vines from the Napa Valley, and bonded his winery two years later." In the 22 years since that time, winegrape acreage in the Umpqua Valley has grown considerably. In the period between 1981 and 1983, vineyard acreage increased by about 201 acres. This is an increase of about 151 percent in two years and shows that this area is a rapidly developing grape-growing area.

Evidence Relating to the Name

The name "Umpqua Valley" is the name used in both academic and consumer-oriented wine and viticulture books to refer to the section of Douglas County where grapes are grown. *The Wines of America* by Leon Adams, McGraw-Hill Book Co., 1978, *Northwest Wine* by Ted Meredith, Nexus Press, 1980, and *Touring The Wine Country of Oregon* by Ronald and Glenda Holden, 1982, all make extensive mention of viticulture in the Umpqua Valley. In *The Winemakers* by Purser and Allen, Harbor House Publishing Ltd., 1977, the authors interchange "Umpqua Valley" with the more prosaic "Hundred Valleys of the Umpqua."

Umpqua Valley has been in use on approved wine labels since 1964, and became one of three appellations of origin approved for use on Oregon wines by the Oregon Liquor Control Commission in 1976. That appellation was defined, using political boundaries, as being all of Douglas County. Those county lines coincide almost exactly with the boundary of the Umpqua River basin. However, only the center, intermountain lowland section of that basin is cultivable. Consequently, the boundaries of the viticultural area have been drawn to coincide with this center, intermountain lowland section.

Historical/Current Evidence of Boundaries

Umpqua is a historic name in the State of Oregon. It was used by the Indians to refer to the locality of the Umpqua River and the name came to be applied both to the river and to an Indian tribe. The territorial legislature created an "Umpqua County" on January 24, 1851. It ceased to exist on October 16, 1862, its area having been added to Douglas and Lane Counties. The Hudson's Bay Company had an establishment in the Umpqua Valley as early as 1832, probably on Calapooya Creek. It was generally called Old Fort Umpqua, and Umpqua City was established near Reedsport in 1850 but gradually died out by 1867. The present Umpqua Post Office is on the Umpqua River, near the mouth of Calapooya Creek. It was originally known as Umpqua Ferry when it was established in 1877.

Contemporary attempts to define an "Umpqua Valley" viticultural area include the previously mentioned Oregon Liquor Control Commission-approved appellation and "Wine-Grape Adaptation to Oregon Climates" by Warren Aney in the *Proceedings* of the Oregon Horticultural Society, 1974. Mr. Aney used various climatological factors to isolate an oval-shaped area around Roseburg, 33 miles wide and 70 miles long, stretching from Elkton in the north to Canyonville in the south. A recent unpublished proposal by the same author (February 25, 1982) identifying various potential viticultural areas in the Pacific Northwest, defined the "Umpqua subregion" as "that part of the Umpqua basin above Elkton having—

(a) An elevation not greater than 300 meters (1,000 feet);

(b) An expected 20-year minimum not lower than minus 20 degrees Celsius (minus four degrees Fahrenheit);

(c) A growing season at least 180 days long; and

(d) At least 2,000 degrees-days from April through October."

A map of donation land claims (free land given to settlers by 1855) in the *Atlas of Oregon,* University of Oregon Books, 1976, page 8, and a map compiled from LANDSAT satellite photographs, found on page 23 of the same book, both clearly isolate the agricultural intermountain lowlands of the Umpqua basin from the surrounding forested coastal and Cascade Mountain regions. The most accurate map showing the cultivable land in the Umpqua River basin is the two-part General Soil Map contained in Appendix I–16, "Umpqua Drainage Basin," to *Oregon's Long-Range Requirements for Water,* State Water Resources Board, Salem, 1969. It divides all of the land in the central part of the basin into five classes of irrigation suitability, from excellent to very poor (non-irrigable), based on slope and soil type. In defining the boundaries of the viticultural area, we have tried to include all areas with soils in Classes I–IV in the central part of the basin, i.e., from Scottsburg upstream.

Geographical Evidence

In accordance with 27 CFR 4.25a(e)(2), the viticultural area should possess geographical features which distinguish the viticultural features of the area from surrounding areas.

The petition and attached documents contained substantial geographic and climatic information which show that:

(a) The Umpqua Valley viticultural area is basically the intermountain lowlands section of the Umpqua basin. It is bounded on the west and north by the Coast Range Mountains. The Klamath Mountains form the southern boundary and the Cascade Mountains the eastern. The area is separated from the Willamette Valley by an 800 foot divide at the Douglas/Lane County line. In comparison, the surrounding area is generally steeper and more rugged.

(b) The 1,000-foot contour line was chosen as the basic boundary of the viticultural area because elevation seems to be a fairly reliable indicator of suitability for cultivation. At the 1,000-foot level, low slopes turn into steep

slopes and become less hospitable to horticulture. Above the 1,000-foot contour line there is a noticeable difference in climate, soils, topography and vegetation. In addition, there are a few sections of the region below the 1,000-foot elevation, particularly south of the Umpqua River between Elkton and Scottsburg, which contain no cultivable soils. These have been excluded from the viticultural area. Similarly, in the Cascade foothills, the upper sections of the valleys of the North Umpqua River and Calapooya Creek have been excluded for lack of irrigable land.

(c) The soils reflect the complex geology of the region. In the flood plains of the Umpqua River and its tributaries, there is much recent alluvial material which is slightly acidic and well-drained. The flood plains are intensively used for irrigated specialty crops, including grapes. In comparison, the surrounding area is not part of the flood plains and consequently its soil is quite different.

(d) The climate of the Umpqua basin is characterized by cool winters, warm summers, and high annual precipitation with a definite summer deficiency. The mean January temperature at Roseburg is 41 degrees Fahrenheit and the July mean is 67 degrees Fahrenheit. The frost-free period averages 230 days and the April through October degree-day index is 2,380 which establishes this growing area as Region I as classified by the University of California at Davis system of heat summation by degree-days. This area has slightly greater annual temperature ranges than the Willamette Valley to the north and the coastal areas to the west.

Boundaries

The boundaries proposed by the petitioner are adopted. An exact description of these boundaries is discussed in the regulations portion of this document. ATF believes that these boundaries delineate an area with distinguishable geographic and climatic features.

Miscellaneous

ATF does not wish to give the impression by approving the Umpqua Valley viticultural area that it is approving or endorsing the quality of the wine from this area. ATF is approving this area as being distinct from surrounding areas, not better than other areas. By approving the area, wine producers are allowed to claim a distinction on labels and advertisements as to origin of the grapes. Any commercial advantage gained can only come from consumer acceptance of Umpqua Valley wines.

Executive Order 12291

It has been determined that this final regulation is not a "major rule" within the meaning of Executive Order 12291, 46 FR 13193 (February 17, 1981), because it will not have an annual effect on the economy of $100 million or more; it will not result in a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; and it will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Regulatory Flexibility Act

The provisions of the Regulatory Flexibility Act relating to an initial and final regulatory flexibility analysis (5 U.S.C. 603, 604) are not applicable to this final rule because the final rule will not have a significant economic impact on a substantial number of small entities. The final rule will not impose, or otherwise cause, a significant increase in the reporting, recordkeeping, or other compliance burdens on a substantial number of small entities. The final rule is not expected to have significant secondary or incidental effects on a substantial number of small entities.

Accordingly, it is hereby certified under the provisions of section 3 of the Regulatory Flexibility Act (5 U.S.C. 605(b)), that this final rule will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

The provisions of the Paperwork Reduction Act of 1980, Pub. L. 96–511, 44 U.S.C. Chapter 35, and its implementing regulations, 5 CFR Part 1320, do not apply to this final rule because no requirement to collect information is imposed.

Disclosure

A copy of the petition and comments, along with the appropriate maps with boundaries marked, are available for inspection during normal business hours at the following location: ATF Reading Room, Room 4407, Office of Public Affairs and Disclosure, 12th & Pennsylvania Avenue, NW, Washington, DC.

Drafting Information

List of Subjects in 27 CFR Part 9

Administrative practice and procedure, Consumer protection, Viticultural areas, Wine.

Authority and Issuance

Accordingly, under the authority contained in section 5 of the Federal Alcohol Administration Act (49 Stat. 981, as amended; 27 U.S.C. 205), 27 CFR Part 9 is amended as follows:

PART 9—AMERICAN VITICULTURAL AREAS

Paragraph 1. The table of sections in 27 CFR Part 9, Subpart C, is amended to add the title of § 9.89. As amended, the table of sections reads as follows:

Subpart C—Approved American Viticultural Areas

Sec.

* * * * *

9.89 Umpqua Valley.

Par. 2. Subpart C is amended by adding § 9.89. As amended, Subpart C reads as follows:

Subpart C—Approved American Viticultural Areas

* * * * *

§ 9.89 Umpqua Valley.

(a) *Name.* The name of the viticultural area described in this section is "Umpqua Valley."

(b) *Approved maps.* The appropriate maps for determining the boundaries of the Umpqua Valley viticultural area are two U.S.G.S. maps. They are titled:

(1) "Roseburg," scale 1:250,000 (1958, revised 1970); and

(2) "Medford," scale 1:250,000 (1955, revised 1976).

(c) *Boundaries.* The Umpqua Valley viticultural area is located entirely within Douglas County, Oregon, which is in the southwest part of the State. The beginning point is the intersection of Interstate Highway 5 with the Douglas/Lane County line in Township 21 South (T21S), Range 4 West (R4W) on the "Roseburg" map.

(1) From the beginning point, the boundary proceeds north along the Douglas/Lane County line approximately .5 miles to the the 1,000-foot contour line;

(2) Thence northwest along the 1,000-foot contour line to the Douglas/Lane County line; thence west along the Douglas/Lane County line approximately 2.5 miles, returning to the 1,000-foot contour line; thence in a

generally westerly direction along the 1,000-foot contour line to the R9W/R10W range line;

(3) Thence south along the R9W/R10W range line approximately 2.75 miles to the center of the Umpqua River; thence along a straight line in an easterly direction approximately 6.25 miles to the intersection of range line R8W/R9W with the center of the Umpqua River; thence south along range line R8W/R9W approximately 3.5 miles to its intersection with township line T22S/T23S;

(4) Thence southeast approximately 8.5 miles along a straight line to the intersection of township line T23S/T24S with range line R7W/R8W; thence south along the R7W/R8W range line approximately 8 miles to its intersection with the 1,000-foot contour line; thence in a southeasterly direction in a straight line approximately 3.5 miles toward the intersection of township line T25S/T26S with range line R6W/R7W, returning to the 1,000-foot contour line;

(5) Thence in a southerly direction along the 1,000-foot contour line to the intersection of township line T27S/T28S with range line R7W/R8W; thence in a southwesterly direction in a straight line approximately 3.5 miles toward the intersection of township line T28S/T29S with range line R8W/R9W, returning to the 1,000-foot contour line; thence south along the 1,000-foot contour line to its intersection with township line T29S/T30S;

(6) Thence east along township line T29S/T30S approximately .33 miles, rejoining the 1,000-foot contour line; thence in a northerly and eventually a southerly direction along the 1,000-foot contour line past the town of Riddle on the "Medford" map to range line R6W/R7W; thense south along the R6W/R7W range line approximately .5 miles back to the 1,000-foot contour line;

(7) Thence in an easterly, westerly, and eventually a northerly direction along the 1,000-foot contour line to a point approximately 3.5 miles east of Dillard, where the contour line crosses Interstate Highway 5 on the "Roseburg" map; thence northeast along Interstate Highway 5 approximately .25 mile, returning to the 1,000-foot contour line; thence in a generally northeasterly, southeasterly, northwesterly, and eventually a northeasterly direction along the 1,000-foot contour line past the town of Idleyld Park to the R2W/R3W range line;

(8) Thence north along range line R2W/R3W approximately 1.75 miles to the T25S/T26S township line; thence west along township line T25S/T26S approximately .25 mile, returning to the 1,000-foot contour line; thence in a generally westerly and then a northerly direction along the 1,000-foot contour line up the valley of Calapooya Creek to the R3W/R4W range line; thence north along range line R3W/R4W approximately 2.25 miles, back to the 1,000-foot contour line;

(9) Thence in a westerly and then a northerly direction along the 1,000-foot contour line to the T23S/T24S township line; thence east along the T23S/T24S township line approximately 2.75 miles to the 1,000-foot contour line; thence in a northerly direction along the 1,000-foot contour line to its intersection with the Douglas/Lane County line; thence north along the Douglas/Lane County line approximately .75 mile to the point of beginning.

Signed: January 24, 1984.

Stephen E. Higgins,

Director.

Approved: March 16, 1984.

John M. Walker, Jr.,

Assistant Secretary (Enforcement and Operations).

BILLING CODE 4410-21-M

DEPARTMENT OF JUSTICE

28 CFR Part 0

[Tax Division Directive No. 47]

Organization of the Department of Justice; Appendix to Subpart Y—Redelegation of Authority To Compromise and Close Civil Claims; Redelegation of Authority To Compromise and Close Civil Claims

AGENCY: Tax Division, Department of Justice.

ACTION: Final rule.

SUMMARY: This directive gives the Attorney-in-Charge of the Dallas Field Office authority to accept offers in compromise in which the amount of the Government's concession, exclusive of statutory interest, does not exceed $10,000, and to reject offers in compromise, regardless of amount. This directive supersedes Tax Division Directive No. 45. This revision is intended to simplify the Department's procedures.

EFFECTIVE DATE: March 29, 1984.

FOR FURTHER INFORMATION CONTACT: Mildred L. Seidman, Tax Division, Department of Justice, Washington, D.C. 20530, (202) 724-6567.

SUPPLEMENTARY INFORMATION: The Assistant Attorney General for the Tax Division has determined that this directive is not a rule within the meaning of Executive Order 12291 or the Regulatory Flexibility Act.

List of Subjects in 28 CFR Part 0

Administrative practice and procedure; Authority delegations (Government agencies).

PART 0—[AMENDED]

In appendix to Subpart Y—Redelegation of Authority to Compromise and Close Civil Claims, Tax Division Directive No. 45 is deleted and Directive No. 47 is added as follows:

[Directive No. 47]

By virtue of the authority vested in me by Part 0 of Title 28 of the Code of Federal Regulations, particularly §§ 0.70, 0.160, 0.162, 0.164, 0.166, and 0.168, it is ordered as follows:

Section 1. The Chiefs of the Civil Trial Sections, the Claims Court Section, and the Appellate Section and the Attorney-in-Charge of the Dallas Field Office are authorized to reject offers in compromise, regardless of amount, provided that such action is not opposed by the agency or agencies involved.

Sec. 2. Subject to the conditions and limitations set forth in Section 8 hereof, the Chiefs of the Civil Trial Sections and Claims Court Section are authorized to:

(A) Accept offers in compromise in all civil cases in which the amount of the Government's concession, exclusive of statutory interest, does not exceed $200,000,

(B) Approve administrative settlements not exceeding $100,000,

(C) Approve concessions (other than by compromise) of civil claims asserted by the Government in all cases in which the gross amount of the original claim does not exceed $100,000,

(D) Accept offers in compromise in injunction or declaratory judgment suits against the United States in which the amount of the related liability, if any, does not exceed $200,000, and

(E) Accept offers in compromise in all other nonmonetary cases,

provided that such action is not opposed by the agency or agencies involved, and provided further that the case is not subject to reference to the Joint Committee on Taxation.

Sec. 3. Subject to the conditions and limitations set forth in Section 8 hereof, the Chief of the Appellate Section is authorized to:

(A) Accept offers in compromise with reference to litigating hazards of the issues on appeal in all civil cases in which the amount of the Government's concession, exclusive of statutory interest, does not exceed $200,000,

(B) Accept offers in compromise in declaratory judgment suits against the United States in which the amount of the related liability, if any, does not exceed $200,000, and

(C) Accept offers in compromise in all other nonmonetary cases which do not involve issues concerning collectibility,

provided that such action is not opposed by the agency or agencies involved or the chief of the section in which the case originated, and provided further that the case is not subject to reference to the Joint Committee on Taxation.

Sec. 4. Subject to the conditions and limitations set forth in Section 8 hereof, the Attorney-in-Charge of the Dallas Field Office is authorized to accept offers in compromise in all civil cases in which the amount of the Government's concession, exclusive of statutory interest, does not exceed $10,000, provided that such action is not opposed by the agency or agencies involved, and provided further that the case is not subject to reference to the Joint Committee on Taxation.

Sec. 5. Subject to the conditions and limitations set forth in Section 8 hereof, the Chief of the Office of Review is authorized to:

(A) Accept offers in compromise in all civil cases in which the amount of the Government's concession, exclusive of statutory interest, does not exceed $500,000,

(B) Approve administrative settlements not exceeding $500,000,

(C) Approve concessions (other than by compromise) of civil claims asserted by the Government in all cases in which the gross amount of the original claim does not exceed $500,000,

(D) Accept offers in compromise in all nonmonetary cases, and

(E) Reject offers in compromise, or disapprove administrative settlements or concessions, regardless of amount.

provided that the action is not opposed by the agency or agencies involved or the chief of the section to which the case is assigned, and provided further that the case is not subject to reference to the Joint Committee on Taxation.

Sec. 6. Subject to the conditions and limitations set forth in Section 8 hereof, the Deputy Assistant Attorneys General and the Special Counsel to the Assistant Attorney General each is authorized to:

(A) Accept offers in compromise of claims against the Government in all cases in which the amount of the Government's concession, exclusive of statutory interest, does not exceed $750,000,

(B) Approve administrative settlements not exceeding $750,000,

(C) Accept offers in compromise of claims in behalf of the Government in all cases in which the difference between the gross amount of the original claim and the proposed settlement does not exceed $750,000 or 10 percent of the original claim, whichever is greater,

(D) Approve concessions (other than by compromise) of civil claims asserted by the Government in all cases in which the gross amount of the original claim does not exceed $750,000,

(E) Accept offers in compromise in all nonmonetary cases, and

(F) Reject offers in compromise, or disapprove administrative settlements or concessions, regardless of amount,

provide that such action is not opposed by the agency or agencies involved, and provided further that the case is not subject to reference to the Joint Committee on Taxation.

Sec. 7. Subject to the conditions and limitations set forth in Section 8 hereof, United States Attorneys are authorized to:

(A) Reject offers in compromise of judgments in favor of the Government, regardless of amount,

(B) Accept offers in compromise of judgments in favor of the Government where the amount of the judgment does not exceed $500,000, and

(C) Terminate collection activity by that office as to judgments in favor of the Government which do not exceed $50,000 if the United States Attorney concludes that the judgment is uncollectible,

provided that such action has the concurrence in writing of the agency or agencies involved, and provided further that this authorization extends only to judgments which have been formally referred to the United States Attorney for collection.

Sec. 8. The authority redelegated herein shall be subject to the following conditions and limitations:

(A) When, for any reason, the compromise or administrative settlement or concession of a particular claim, as a practical matter, will control or adversely influence the disposition of other claims totalling more than the respective amounts designated in Section 2, 3, 4, 5, 6, and 7 the case shall be forwarded for review at the appropriate level.

(B) When, because of the importance of a question of law or policy presented, the position taken by the agency or agencies or by the United States Attorney involved, or any other considerations, the person otherwise authorized herein to take final action (or the Chief of the Office of Review, in cases which have been considered by such office) is of the opinion that the proposed disposition should be review at a higher level, the case shall be forwarded for such review.

(C) If the Department has previously submitted a case to the Joint Committee on Taxation leaving one or more issues unresolved, any subsequent compromise or concession in that case must be submitted to the Joint Committee, whether or not the overpayment exceeds the amount specified in Section 6405 of the Internal Reveune Code.

(D) Nothing in this Directive shall be construed as altering any provision of Subpart Y of Part O of Title 28 of the Code of Federal Regulations requiring the submission of certain cases to the Attorney General, the Deputy Attorney General, or the Solicitor General.

(E) Authority to approve recommendations that the Government confess error, or make administrative settlements, in cases on appeal, is excepted from the foregoing redelegations.

(F) The Assistant Attorney General, at any time, may withdraw any authority delegated by this Directive as it relates to any particular case or category of cases, or to any part thereof.

Sec. 9. This Directive supersedes Tax Division Directive No. 45, effective June 6, 1983.

Sec. 10. This Directive shall become effective March 29, 1984.

Glenn L. Archer, Jr.,

Assistant Attorney General, Tax Division.

Dated: March 20, 1984.

Approved:

D. Lowell Jensen,

Acting Deputy Attorney General.

BILLING CODE 4410-01-M

Office of the Attorney General

28 CFR Part 0, 16, and 50

[Order No. 1055-84]

Revision of Department of Justice Regulations Implementing the Freedom of Information Act and the Privacy Act of 1974

AGENCY: Office of the Attorney General, Justice.

ACTION: Final rule.

SUMMARY: This notice sets forth revisions to the procedural regulations of the Department of Justice that implement the Freedom of Information Act ("FOIA") and the Privacy Act of 1974 and provide for access to FBI identification records. The regulations implementing the FOIA and the Privacy Act are revised in their entirety. The Supplementary Information section below explains the modifications that have been made to the proposed regulations published at 48 FR 35892 (Aug. 8, 1983).

These revisions are intended to simplify the Department's procedures, clarify the system for the access of records under the FOIA and the Privacy Act, clarify the system for the referral of such requests within the Department (or from the Department to other government agencies), clarify procedures for handling law enforcement records and records about individuals, and provide for notice to submitters of business information of the filing of a request for that information. The revisions also clarify the distinctions between the procedures for responding to requests under the Freedom of Information Act and the Privacy Act.

Finally, this Notice also sets forth a revision of the Department's 1973 policy statement on the discretionary disclosure of investigatory records of historical interest. 28 CFR 50.8 has been updated to reflect the 1974 amendments to the Freedom of Information Act.

DATE: These regulations will become effective April 30, 1984, except that the

revised policy statement in 28 CFR 50.8 shall be effective March 29, 1984.

FOR FURTHER INFORMATION CONTACT: Kevin R. Jones, Deputy Assistant Attorney General, Office of Legal Policy, United States Department of Justice, Room 4224, 10th Street and Constitution Avenue, N.W., Washington, D.C. 20530 ((202) 633–4606).

SUPPLEMENTARY INFORMATION: These rules do not constitute "major rules" within the meaning of Executive Order No. 12291 (Improving Government Regulations). These regulations will not cause a significant economic impact or other substantial effect on small entities; therefore, the requirements of the Regulatory Flexibility Act, 5 U.S.C. 605(b), do not apply

This final rule does not alter the current language of 28 CFR 16.9, relating to fees charged under the Freedom of Information Act, except to renumber it as 28 CFR 16.10. Revisions to this section are still under review and will be dealt with in a separate rulemaking proceeding.

I. Analysis of Comments Received

A total of 10 comments were postmarked or received within the comment period as extended. Comments were received from the following:

American Society of Newspaper Editors/ American Newspaper Publishers Association/National Newspaper Association
Center for National Security Studies
Rep. Glenn English
Rep. John N. Erlenborn
Freedom of Information Clearinghouse
Mr. D. R. Keller
Rep. Thomas N. Kindness
Mr. James T. O'Reilly
Mr. Y. Shanmugadhasan
Society of Professional Journalists/Sigma Delta Chi

Comments simply requesting an extension of time for the public comment period, which was scheduled to expire on September 7, 1983, were also received from the American Bar Association's Section of Administrative Law, the American Society of Newspaper Editors, Rep. English, Rep. Kindness, the National Newspaper Association, and the Society of Professional Journalists/Sigma Delta Chi. By order dated September 8, 1983 (Attorney General Order No. 1031–83, 48 FR 41161 (Sept. 14, 1983)), the initial comment period was extended to October 3, 1983. Another two comments, from the American Business Press and the ABA Section of Administrative Law, were postmarked and received after the expiration of the comment period as extended, and accordingly were not included in the analysis of the comments set forth below.

1. *Discretionary Disclosures (Proposed § 16.1(a)).* One commenter questioned the omission of the language in the current § 16.1(a) which authorizes the discretionary release of records that the Department may withhold under the FOIA, whenever it determines that such disclosure is in the public interest and is not otherwise prohibited by law. The language of proposed § 16.1(a) has been revised to make clear that discretionary releases may be made in appropriate situations.

2. *Priority of Requests (Proposed § 16.1(d)).* One commenter questioned the provision that provides that FOIA requests shall be processed in their "approximate order of receipt." This provision is expressly made to apply, however, only "to the extent consistent with sound administrative practice." The provision is intended to be consistent with *Open America v. Watergate Special Prosecution Force*, 547 F.2d 605 (D.C. Cir. 1976), and is not inconsistent with a two-track system—such as that used by the Federal Bureau of Investigation—which employs a chronological system for responding to requests but places larger "project requests" in a different processing pool than other requests.

3. *Decentralized Processing of Requests (Proposed § 16.3(a)).* One commenter questioned the provision relating to the referral of requests to individual components of the Department for initial response. This commenter asserted that such a "decentralized" method for responding to requests called into question the treatment of the Department as one agency under the FOIA and the Privacy Act.

This comment reflects a misunderstanding of the present practice and regulations of the Department. Current §§ 16.4 and 16.5 provide that, although FOIA requests are initially to be filed with the Office of Legal Policy, all FOIA requests are then referred to the responsible division for processing. Proposed § 16.3 is quite similar, except that it directs requesters to file their requests directly with the appropriate component or with the FOIA/PA Section, Justice Management Division, rather than the Office of Legal Policy. This change is made to bring the regulations more in keeping with present practice and to minimize the possibility of delays resulting from the need to refer requests to appropriate components. Proposed § 16.1(c) emphasizes the continuing policy role of the Office of Legal Policy in supervising the implementation of these regulations within the Department of Justice.

4. *Marking Requirement (Proposed §§ 16.3(a) and 16.41(a)).* One commenter questioned the requirement that envelopes containing initial requests for access must be addressed and marked in a particular manner. The proposed regulation is not intended to require that a request be deemed defective if the envelope was not so marked. However, all requesters are encouraged to mark their requests properly, to avoid unnecessary delays in the referral of requests once their nature has become apparent. The language of this section has been modified to encourage requesters to mark their requests properly, but so as not to appear to penalize a requester whose request was not so marked. As in the existing regulations, the new regulations provide that the time limits under the FOIA do not begin to run until the request is received by the appropriate component, or would have been received with the exercise of due diligence by Department personnel. Proposed § 16.41(a) has been modified in the same manner as this section.

5. *Agreement to Pay Fees (Proposed §§ 16.3(c) and 16.41(c)).* Several commenters objected to the requirement that requesters filing requests under the FOIA must state in their requests their willingness to pay fees up to $25.00, and to the provision that components of the Department may, in their discretion, treat requests not containing this assurance as defective in form and not to have been received until the requester gives such assurance after prompt inquiry by the component. This provision is said to contradict the ten day time limit of the FOIA, to have the possibility of deterring requesters whose fees would be less than $25.00, and to be administratively impracticable.

The Department believes that the provisions of proposed § 16.3(c) would be fully consistent with the requirements of the FOIA, and that, in any event, the invocation of these provisions would be discretionary with each component. However, to avoid the prospect of unnecessary paperwork for the Department and for requesters, and in accordance with the specific suggestion in one comment, the provisions of proposed 28 CFR 16.3(c) have been changed: (1) To reflect that the filing of a request under the FOIA shall be deemed to constitute agreement by the requester to pay all applicable fees up to $25.00, unless a waiver or reduction of fees is sought, (2) to provide that the acknowledgement letters from the Department shall confirm this

obligation of the requester, and (3) to encourage requesters to specify a maximum fee that, absent some further development, they are willing to bear. A similar revision has been made to proposed § 16.41(c) concerning requests for access under the Privacy Act.

6. *Referral of Requests to Other Components or Agencies (Proposed § 16.4).* Several commenters questioned the provisions for the referral of requests to other agencies or other components of the Department, in light of the decisions of the District of Columbia Circuit in *McGehee v. CIA*, 697 F.2d 1095 (D.C. Cir.), *vacated in part on panel reh'g, reh'g en banc denied*, 711 F.2d 1076 (D.C. Cir. 1983), and *Paisley v. CIA*, 712 F.2d 656 (D.C. Cir. 1983).

To the extent that proposed § 16.4 addresses the referral of requests among components of the Department of Justice, the *McGehee* decision has no applicability whatsoever. Nothing in 5 U.S.C. 552 or in *McGehee* or *Paisley* addresses the procedures for referring responsibility for responding to requests *within* an agency; that is a matter committed solely to each agency's discretion, consistent with sound administrative practice and the time limit provisions of 5 U.S.C. 552(a)(6). The language of the proposed regulation does not materially alter the Department's current procedures for referral of requests within the Department, except to provide for the filing of requests directly with the appropriate component or with the Justice Management Division's FOIA/PA Section rather than with the Office of Legal Policy. This change is intended to reduce the possibility of delays in the routing and referral of requests to the appropriate component.

To the extent that proposed § 16.4 provides for inter-agency referrals, *McGehee* and *Paisley* do not preclude this practice either. The discussion of this issue in *McGehee* is interlocutory and therefore does not bind agency policy. The *Paisley* decision is inapplicable because, although the court's opinion discussed inter-agency referrals, the facts of that case actually involved an intra-agency referral. Accordingly, it remains the Department's position that sound agency policy and practice continue to warrant such referrals under certain circumstances. *See FOIA Update*, Summer 1983, at 5. In fact, the provisions for referral of classified information under proposed § 16.4 to the component or agency that classified the information are essentially the same as the requirements of current § 16.10(b)(3).

With respect to the provisions of proposed § 16.42 which implement the Privacy Act, however, the regulations have been revised to provide for consultation rather than referrals. This is in accord with the different considerations under the Privacy Act governing access to systems of records.

7. *Date for Determining Responsive Records (Proposed § 16.4(j)).* Several commenters, again in light of the *McGehee* decision, questioned the provision that the date of receipt of a request ordinarily shall be the date for determining responsive records in response to that request. However, the *McGehee* decision expressly declined to rule on the appropriateness of the date-of-receipt provision applied by the agency in that case; instead, it remanded the issue to the district court for further consideration. *See* 697 F. 2d at 1103–04. Moreover, the particular concern of the court in that case was the agency's failure to give *any* notice of the time-of-receipt provision until the matter was in litigation some 2½ years later. *See id.* at 1097, 1105.

The purpose of proposed § 16.4(j) is to give notice to all requesters at the outset of the usual date for determining responsive records. The provision is not mandatory in all cases, and each component retains discretion to follow a different approach in particular cases rather than the date-of-receipt rule that "ordinarily" would apply. In any event, all that a requester desiring access to materials generated subsequent to the receipt of the initial request need do is to file a new request for the subsequent information.

8. *Business Notification Procedures (Proposed § 16.7).* The provisions for notification of submitters of business information, set forth in proposed § 16.7, were also addressed by several commenters. The following discussion addresses the specific issues raised by the comments.

a. *Explanation of provisions of section to submitters.* One commenter suggested that submitters be advised of the provisions of this section in any subpoena, civil investigative demand, or letter request issued by the Department. As a matter of sound administrative practice, all submitters should make themselves familiar with these regulations setting forth procedures for notice to submitters. These regulations are part of the public record and need not be reiterated in every communication with submitters.

b. *Circumstances in which notice is required (Proposed § 16.7 (b) and (c).* One commenter asserted that notification to business submitters should not be required in every case, suggesting that notice be required only in "close cases" under procedures similar to those of the Food and Drug Administration, 21 CFR 20.45. The provisions of proposed § 16.7(b) do not require notice in every case where business information is requested. Proposed § 16.7(g) expressly provides that notice need not be given if the agency decides not to disclose the information, the information has lawfully been made public, disclosure is required by law other than the FOIA, or the information relates to a criminal law enforcement investigation. Moreover, for information submitted after the effective date, notice is required only with respect to information for which the submitter has made a good faith designation of business or commercial sensitivity or which the component has reason to believe may result in commercial or business injury to submitter if disclosed. Accordingly, the regulations should not permit the designation of nonsensitive information and would not require notice to the submitter regarding information that the Department either withholds because it is clearly exempt or discloses because it is clearly not exempt.

These regulations, properly construed, are in fact similar to the approach suggested by the commenter and implemented by the FDA, except that the component would be required to give notice of intended disclosure in all cases where a submitter has designated information as confidential in good faith (except as provided in § 16.7(g)). (It may be noted in this regard that the FDA has recently broadened its notice procedures. *See FOIA Update*, Fall 1983, at 12.)

c. *Requirement to describe requested information to the submitter (Proposed § 16.7(b)).* One commenter questioned the need for the provision which would require that the notice to a submitter "should describe the exact nature of the business information requested or provide copies of the records or portions thereof containing the business information." The provision is intended to give the submitter a clear understanding of the information the agency contemplates disclosing; under proposed § 16.7(g)(1), the component need not give any notice to the submitter at all if it determines not to disclose the requested information. The submitter is best able to present its objections to the component if it is made aware of the precise records at issue, not simply a generalized discussion of the nature of the request.

d. *Notice with respect to information less than ten years old (Proposed § 16.7(c)(1)(i)).* One commenter objected that this provision has no basis in the

FOIA and another questioned its clarity. Contrary to the former commenter's apparent assumption, the provision relating to notice to submitters for information that is less than ten years old does not purport to govern the ultimate question of the disclosure of the requested information. [1] Rather, it is designed only to delineate when a submitter should be given advance notice of a component's contemplated disclosure. Particularly with respect to information submitted prior to the effective date of these rules, the intent is to be somewhat overinclusive with respect to notice in order that any submitter with meritorious claims of confidentiality under the statutory standards will be able to make them.

e. *Notice with respect to information given under an express commitment of confidentiality (Proposed § 16.7(c)(1)(ii)).* One commenter questioned this provision, which concerns notice of disclosure with respect to documents previously provided to the Department. It would govern only the question of whether notice of an intended disclosure should be given to a submitter; it is not intended to establish a new rule with respect to the disclosability of the information. As discussed above with respect to information submitted prior to the effective date of these regulations, the intent is to be somewhat overinclusive in defining the circumstances in which notice will be given, in order to reach all submitters who might have valid objections to disclosure. The notice provision would not apply to the extent that the agency determined not to disclose the information. In any event, the submitter who objected to disclosure of information would continue to bear the burden of proof established by law.[2]

f. *Status of documents prepared before 1973 but submitted after 1983 (Proposed § 16.7(c)(2)).* One commenter inquired about the status under proposed § 16.7(c) of documents prepared before 1973 but not submitted to the agency until 1983. Under this paragraph, the ten-year period of paragraph (c)(1) (relating to documents previously submitted to the Department) is intended to provide a reasonable cutoff for notice purposes for information that might still be exempt under the FOIA, while the ten-year period of paragraph (c)(2) will run from the date of *submission* of the information to the agency, not from the date the document was prepared. Thus, under paragraph (c)(2), if a submitter anticipates that its information will retain its exempt status for more than ten years after its submission to the Department, the submitter should make a special showing for a longer notice period as provided therein.

g. *Effective date of the business notification provisions (Proposed § 16.7(c)(2)).* The date on which § 16.7 becomes fully effective (set for October 1, 1983 in the proposed regulation) has been changed to May 1, 1984, in order to give both submitters and requesters additional time to become familiar with the new provisions of § 16.7.

h. *Certification of claims of confidentiality (Proposed § 16.7(c)(2)).* One commenter suggested that any assertion of confidentiality by a submitter should be accompanied by a certification by a company officer that the information is in fact competitively sensitive and has not been disclosed outside the company. The Department is reluctant to impose such strict formalistic requirements for purposes of the notice requirement under this section. The Department contemplates that submitters will ensure that assertions of confidentiality are given full, good faith consideration prior to presentation to the Department. However, proposed § 16.7(c)(2) has been revised to provide that, whenever possible, the submitter's claim of confidentiality should be supported by a statement or certification by an officer or authorized representative of the company that the information at issue is in fact confidential commercial or financial information and has not been disclosed to the public.

i. *Specific reference to Exemption 4 (Proposed § 16.7(d)).* As drafted, proposed § 16.7 did not specifically refer to the requirements of Exemption 4 of the FOIA, 5 U.S.C. 552(b)(4). The Department agrees that submitters of business information should object to disclosure only upon a showing that the information submitted is in fact exempt from disclosure under Exemption 4 or another provision of law. To emphasize this, the language of the objection provision in proposed § 16.7(d) has been expanded to include specific reference to the requirements of Exemption 4.

j. *Reasonable period for notification (Proposed § 16.7(d)).* One commenter suggested that the regulations should provide a specific time period for notification. However, in view of the existing time limit provisions of 5 U.S.C. 552(a)(6), which do not expressly authorize additional time in order to notify submitters of requests for information submitted by them, the Department is unable to specify precise periods for the notice to business submitters to be provided under proposed § 16.7. The intent is for the component to give the submitter a sufficient time to review and respond to the notice, within the existing time limit provisions of the FOIA as construed by the courts.

k. *Reference to grounds for nondisclosure (Proposed § 16.7(d)).* One commenter questioned whether this provision is intended to provide for withholding of information on grounds other than the exemptions of the FOIA. To avoid possible misinterpretation, the language of the provision has been clarified.

l. *Submitter's objections to disclosure (Proposed § 16.7(d)).* One commenter suggested that the Department advise business submitters that supporting information they provide in statements of objection to disclosure may be subject to the disclosure provisions of the FOIA. Inasmuch as such cautionary language may prevent future disclosures of sensitive information, or at least future rounds of notices to and responses from business submitters relating to information previously the subject of a FOIA request, such language will be added to proposed § 16.7(d).

m. *Notice to submitter of intent to disclose information (Proposed § 16.7(e)).* One commenter asserted that the Department should not give submitters advance notice of the intent to disclose information unless simultaneous notice is given to the requester, on the theory that the submitter otherwise would have an unfair advantage in selecting a forum for judicial review. However, inasmuch as this provision relates only to determinations to *disclose* requested business information, the requester ordinarily would have no occasion to seek judicial review. Nevertheless, to ensure that requesters are not placed at an unfair disadvantage in the selection of judicial forums, § 16.7(e) has been revised to require that a component forward to the requester of business information a copy of the notice to disclose at the same time it forwards such notice to the business submitter.

n. *Definition of "criminal law enforcement agency" (Proposed § 16.7(g)(4)).* In response to a request for clarification on this point, it should be noted that the Federal Bureau of Investigation is intended to be a "criminal law enforcement agency" within the meaning of proposed § 16.7(g)(4), but the Antitrust and Tax

[1] *Accord, Petkas v. Staats,* 501 F.2d 887, 889 (D.C. Cir. 1974) (prior commitment of confidentiality not dispositive under Exemption 4).

[2] *See Chrysler Corp. v. Brown,* 441 U.S. 281 (1979).

Divisions are not. For the purpose of notification to submitters under this provision, the term is intended to include the FBI and other agencies within the government dedicated to criminal law enforcement, not components that simply have some criminal law jurisdiction.

9. *FOIA Appeals (Proposed § 16.8).* One commenter suggested that the procedures governing administrative appeals from the denial of FOIA requests should specify time limits for action, and should state that an administrative appeal is not mandatory before judicial review can be sought. The requirement for timely response to all matters under the FOIA is stated in proposed § 16.1(d) and need not be restated throughout the regulations. Moreover, unless the agency has failed to comply with the time limits of 5 U.S.C. 552(a)(6), thereby constructively exhausting the requester's administrative remedies, an administrative appeal is indeed required before judicial review can be sought. *See, e.g., Tuchinsky v. Selective Service System*, 418 F.2d 155, 158 (7th Cir. 1969).

10. *Access to Records Under the Privacy Act (Proposed § 16.40(a)).* Two commenters questioned the provision stating that Subpart D of 28 CFR Part 16 sets forth the provisions for providing access under the Privacy Act to records contained in systems of records. This provision is intended simply to state that the procedures in the subpart are applicable to all such requests. To the extent that these comments relate to the relationship of the FOIA and the Privacy Act, that issue is discussed below.

11. *Statements of Disagreement (Proposed § 16.50(e)).* Two commenters questioned new language which would limit a statement of disagreement under the Privacy Act to one page. After consideration of this proposed change, the Department has decided to retain the current provision which limits these statements to one page per fact disputed.

12. *Relationship Between the Privacy Act and the FOIA (Current § 16.57).* Several commenters questioned the deletion of the provisions of current 28 CFR 16.57, which state the Department's position that requests by individuals for information on themselves are subject to all of the exemptions of the Privacy Act but, as a matter of administrative discretion, provide for such individuals to receive information exempt under the Privacy Act if it would otherwise be available under the FOIA.

The deletion of this regulation governing the Department's exercise of its discretion to disclose exempt information under the Privacy Act in fact simply reflects the Department's position in litigation under the FOIA and the Privacy Act since 1981. The Department's reconsideration of its position followed the decision of the district court in *Greentree v. United States Customs Service*, 515 F. Supp. 1145 (D.D.C. 1981), which held, contrary to the position of the plaintiff and the Department, that the Privacy Act operates as an exemption statute within the meaning of Exemption 3 of the FOIA, 5 U.S.C. 552(b) (3). In weighing whether to defend the district court's judgment, the Department also considered the prior *sua sponte* rulings by the Fifth and Seventh Circuits that the FOIA cannot compel disclosure of information exempt under the Privacy Act.[3] Only after reviewing these decisions, carefully reexamining the legislative history of the Privacy Act, and consulting with other interested agencies, including the Office of Management and Budget, did the Department decide to adopt its present policy and defend the district court's decision in *Greentree*.

As the comments reflect, the judicial decisions since then have been inconsistent. The D.C. Circuit and, recently, the Third Circuit, have reached the conclusion that the Privacy Act is not an Exemption 3 statute under the FOIA.[4] However, district courts in other circuits have reached the opposite conclusion.[5] Most recently, the question was decided squarely in the government's favor by the Seventh Circuit, which ruled that the Privacy Act is an Exemption 3 statute and, accordingly, that records exempt from disclosure under the Privacy Act need not be disclosed under the FOIA.[6] In addition, the Office of Management and Budget, which by law has the primary responsibility for the implementation and construction of the Privacy Act, has concurrently proposed to revise its "Implementation of the Privacy Act of 1974 Supplementary Guidance" to reflect the construction of the Privacy Act as an exemption statute under FOIA Exemption 3. *See* 48 FR 36359 (Aug. 10, 1983). As noted, the Solicitor General has asked the Supreme Court to resolve the conflict among the circuits on this issue.

The Department has taken the comments received carefully into consideration. In light of the conflicting construction by the courts and the lead agency for implementation of the Privacy Act, the Department has concluded that it is not appropriate at present to retain the policy incurrent 28 CFR 16.57, which purports to bind the Department to exercise its discretion in a particular manner in certain cases. As revised, Subpart D of the regulations would neither require nor forbid the Department to assert the exemptions of the Privacy Act in appropriate cases, but would leave the question to the sound discretion of the officials responding to the request in the particular circumstances of the case.

13. *Existing delegations of Authority.* One commenter inquired whether the existing Appendixes to Subpart A and D are affected by this Order which revises those subparts in their entirety. Those Appendixes, which are delegations of authority within the Federal Bureau of Investigation and were not adopted as part of those subparts, are unaffected by the revision to Subparts A and D and shall remain unchanged.

II. Other Changes in the Proposed Regulations

Several other changes discussed below have been made in the proposed regulations.

1. *References to the FOIA/PA Referral Unit.* The proposed regulations have been revised for clarity to change the name of the FOIA/PA Referral Unit to the FOIA/PA Section, Justice Management Division.

2. *Access to Historical Records Maintained in National Archives and Records Service Centers (Proposed §§ 16.3(a) and 16.41(a)).* These sections are intended in part to advise requesters seeking certain historical records maintained by National Archives and

---

United States Dep't of Justice*, 717 F.2d 799 (3d Cir. 1983) (per curiam), *rehearing en banc denied by 6–4 vote* (3d Cir. Nov. 10, 1983), *petition for cert. filed*, 52 U.S.L.W. 3512 (U.S. Dec. 23, 1983) (No. 83–1045).

[5] *See Martin v. FBI*, No. 83–C–123 (N.D. Ill. Sept. 30, 1983); *Rachel v. United States Dep't of Justice*, Civil Action No. 83–C–0434 (N.D. Ill. Aug. 1, 1983); *Turner v. Ralston*, Civil Action No. 81–3227–CV–5–2 (W.D. Mo. Mar. 17, 1983); *Anderson v. Huff*, 3 Gov't Discl. Serv. ¶ 83,124 (D. Minn. June 8, 1982); *Heinzl v. INS*, 3 Gov't Discl. Serv. ¶ 83,121 (N.D. Cal. Dec. 18, 1981).

[6] *Shapiro v. DEA*, 721 F.2d 215 (7th Cir. 1983), *aff'g* 3 Gov't Discl. Serv. ¶ 83,122 (W.D. Wis. Oct. 8, 1982), *petition for cert. filed*, No. 83–5678 (U.S. Dec. 8, 1983). As the Court of Appeals summarized its holding (721 F.2d at 222):

"[T]he legislative history of the Privacy Act shows Congress' concern that individuals not use the Act to obtain access to their own criminal investigative files. It makes little sense to conclude that Congress would enact specific nondisclosure provisions in the Privacy Act to address this Concern, while at the same time allowing individuals to bypass these exemptions by using the broader terms of the FOIA."

Records Service centers that they must contact the General Services Administration directly, rather than the Department's FOIA/PA Section. These sections have been revised for clarity.

3. *Form of Action on Appeal (Proposed §§ 16.8(c), 16.48(c) and 16.50(d)).* The language of these provisions as proposed has been revised for clarity.

4. *Verification of Identity (Proposed § 16.41(d)(1)).* This provision has been modified to continue the present requirement that statements of identity be notarized. Statements of identity need not be provided on any special form, but an optional form is available and may be obtained from the FOIA/PA Section.

5. *Initial Action by Receiving Component (Proposed § 16.42(c)(2)).* The term "receiving component" means the component that has received a request for access to records. For clarity in the context of subsequent referrals of the responsibility for responding to a request, the phrase "in the hands of the receiving component" has been deleted.

6. *Requests for Correction of records and for Accounting of Record Disclosures (Proposed §§ 16.50(a) and 16.52).* To assist requesters in directing requests for correction of records or for accounting of record disclosures to the appropriate component, a sentence has been added to each of these sections advising requesters that Appendix I to Part 16 lists these components.

7. *Contracted Record Systems (Current § 16.53).* The Department's existing regulation governs contracts for the operation of record systems by or on behalf of the Department, in accordance with 5 U.S.C. 552a(m). This provision, inadvertently omitted from the proposed regulations, has been reinstated with minor revisions as new § 16.55.

8. *Use and Collection of Social Security Numbers (Current § 16.55).* This existing regulation, limiting the use and collection of Social Security numbers, was also inadvertently omitted from the proposed regulations, and has been reinstated with minor revisions as new § 16.56.

III. Revision of Department's Policy Relating to Disclosure of Law Enforcement Records of Historical Interest

This notice also sets forth a revision to 28 CFR 50.8, the Department's statement of policy regarding the discretionary disclosure of investigatory records of historical interest that are exempt from mandatory disclosure under the FOIA. The existing policy statement, promulgated in 1973 prior to the 1974 amendments to the FOIA, has long been out of date.

The revised policy statement is intended to emphasize the Department's practice of affording discretionary access to historical records contained in certain investigatory files compiled for law enforcement purposes. Through the sound exercise of its discretion, the Department intends to facilitate the public's awareness of historical matters in such files, to the extent it does not adversely affect the Department's law enforcement or other significant interests, such as the privacy of individuals. The new policy statement focuses on the nature of the records themselves, rather than on the status of the requester.

This new policy statement is promulgated in final form, to become effective upon publication in the **Federal Register**. The requirements of the Administrative Procedure Act for publication of a notice of proposed rulemaking and opportunity for comment, as well as a 30 day period of notice before the effective date, are not applicable for general statements of policy, 5 U.S.C. 553 (b)(A) and (d)(2). This revision is not intended to affect any request for historical records made before the effective date of the revised policy statement.

List of Subjects

28 CFR Part 0

Government employees, Organization and functions (Government agencies), Authority delegations (Government agencies).

28 CFR Part 16

Freedom of information, Privacy, Administrative practice and procedure.

28 CFR Part 50

Freedom of information.

PART 0—[AMENDED]

Accordingly, under the authority vested in me by 28 U.S.C. 509 and 510 and 5 U.S.C. 301, 552, and 552a, Parts 0, 16, and 50 of Chapter I of Title 28 of the Code of Federal Regulations are amended as follows:

1. Part 0 shall be amended as follows:

a. Section 0.23(c) is revised to read as follows:

§ 0.23 General functions.

* * * * *

(c) Manage and coordinate the discharge of Departmental responsibilities related to the Freedom of Information Act [5 U.S.C. 552] and the Privacy Act [5 U.S.C. 552a], including coordination and implementation of policy development and compliance within executive agencies and Departmental units relative to the Freedom on Information Act and within Departmental units relative to the Privacy Act; and supervise the Office of Information and Privacy which will, except as otherwise directed by the Attorney General, act on appeals taken from Departmental denials of access to records under the Privacy Act and the Freedom of Information Act.

* * * * *

b. Section 0.23a(a)(1) is revised to read as follows:

§ 0.23a Office of Information and Privacy.

(a) * * *

(1) Act on behalf of the Attorney General on Freedom of Information Act and Privacy Act appeals under §§ 16.8, 16.48, 16.50(d) and 16.52, respectively, under the supervision of the Assistant Attorney General, Office of Legal Policy, except that: (A) In the case of a denial of a request by the Assistant Attorney General, Office of Legal Policy, the Attorney General or his designee shall act on the appeal, and (B) a denial of a request by the Attorney General shall constitute the final action of the Department on that request.

* * * * *

2. The table of contents for Subparts A and D, Part 16, is revised to read as follows:

PART 16—PRODUCTION OR DISCLOSURE OF MATERIAL OR INFORMATION

Subpart A—Procedures for Disclosure of Records Under the Freedom of Information Act

Sec.
16.1 General provisions.
16.2 Public reference facilities.
16.3 Requirements pertaining to requests.
16.4 Responses by components to requests.
16.5 Form and content of component responses.

3. Subpart A is revised to read as follows:

Subpart A—Procedures for Disclosure of Records Under the Freedom of Information Act

Authority: 5 U.S.C. 552.

§ 16.1 General provisions.

(a) This subpart contains the regulations of the Department of Justice implementing the Freedom of Information Act ("FOIA"), 5 U.S.C. 552. All requests for records that are not processed under subparts C or D of this part shall be processed under this subpart. Information customarily furnished to the public in the regular course of the performance of official duties may continue to be furnished to the public without complying with this subpart, provided that the furnishing of such information would not violate the Privacy Act of 1974, 5 U.S.C. 552a, and would not be inconsistent with subparts C, D, or E of this part. To the extent permitted by other laws, the Department will also consider making available records which it is permitted to withhold under the FOIA if it determines that such disclosure could be in the public interest.

(b) As used in this subpart, the following terms shall have the following meanings:

(1) "Appeal" means the appeal by a requester of an adverse determination of his request, as described in 5 U.S.C. 552(a)(6)(A)(ii).

(2) "Agency" has the meaning given in 5 U.S.C. 551(1) and 5 U.S.C. 552(e).

(3) "Component" means each separate bureau, office, board, division, commission, service, or administration of the Department of Justice.

(4) "Request" means any request for records made pursuant to 5 U.S.C. 552(a)(3).

(5) "Requester" means any person who makes a request to a component.

(6) "Business information" means trade secrets or other commercial or financial information.

(7) "Business submitter" means any commercial entity which provides business information to the Department of Justice and which has a proprietary interest in the information.

(c) The Assistant Attorney General, Office of Legal Policy, shall be responsible to the Attorney General for all matters pertaining to the administration of this subpart within the Department of Justice. The Assistant Attorney General, Office of Legal Policy, may take or direct such actions, directly or through the Office of Information and Privacy within the Office of Legal Policy, to carry out this responsibility as he deems necessary.

(d) Components of the Department of Justice shall comply with the time limits set forth in the FOIA for responding to and processing requests and appeals, unless there are exceptional circumstances within the meaning of 5 U.S.C. 552(a)(6)(C). A component shall notify a requester whenever the component is unable to respond to or process the request or appeal within the time limits established by the FOIA. Components shall respond to and process requests and appeals in their approximate order of receipt, to the extent consistent with sound administrative practice.

§ 16.2 Public reference facilities.

(a) The Department of Justice shall maintain public reading rooms or areas at the locations listed below:

(1) United States Attorneys and United States Marshals—at the principal offices of the United States Attorneys listed in the United States Government Manual;

(2) Federal Bureau of Investigation—at the J. Edgar Hoover Building, 9th Street and Pennsylvania Avenue NW., Washington, D.C.;

(3) Immigration and Naturalization Service—at the Central Office, 425 I Street NW., Washington, D.C., and at each District Office in the United States listed in the United States Government Manual;

(4) All other components of the Department of Justice—Department of Justice, 10th Street and Constitution Avenue NW., Washington, D.C.

The public reference facilities of all components shall contain the materials relating to those components which are required by 5 U.S.C. 552(a)(2) to be made available for public inspection and copying.

(b) Each component shall maintain, make available for public inspection and copying, and publish each quarter a current index of the materials available at its public reading room or area which are required to be indexed under 5 U.S.C. 552(a)(2). However, if a component determines by order published in the **Federal Register** that publication of such an index would be unnecessary or impracticable, then it shall not be required to publish the index.

(c) Each component is responsible for determining which materials it generates or maintains are required to be indexed under 5 U.S.C. 552(a)(2). The Justice Management Division shall ensure that a current index of all materials required to be indexed under 5 U.S.C 552(a)(2) is published in the **Federal Register**, except to the extent that such publication is considered unnecessary or impracticable and an order to that effect is published in the **Federal Register**.

§ 16.3 Requirements pertaining to requests.

(a) *How Made and Addressed.* A requester may make a request under this subpart for a record of the Department of Justice by writing to the component that maintains the record. A request should be sent to the component at its proper address and both the envelope and the request itself should be clearly marked: "Freedom of Information Act Request." (Appendix I to this part lists the components of the Department and their addresses. The functions of each component are summarized in Part 0 of this title and in the description of the Department and its components in the United States Government Manual, which is issued annually and is available from the Superintendent of Documents.) A requester in need of guidance in defining a request or determining the proper component to which he should send his request may write to the FOIA/PA Section, Justice Management Division, United States Department of Justice, 10th Street and Constitution Avenue NW., Washington, D.C. 20530. Requests for certain historical records of the Department maintained in National Archives and Records Service centers must be directed to the General Services Administration in accordance with its regulations.

(b) *Request Must Reasonably Describe the Records Sought.* A request must describe the records sought in sufficient detail to enable Department personnel to locate the records with a reasonable amount of effort. A request for a specific category of records shall be regarded as fulfilling this requirement if it enables responsive records to be identified by a technique or process that is not unreasonably burdensome or disruptive of Department operations. Wherever possible, a request should

include specific information about each record sought, such as the date, title or name, author, recipient, and subject matter of the record. In addition, if the request seeks records pertaining to pending litigation, the request should indicate the title of the case, the court in which the case was filed, and the nature of the case. To the extent possible, requesters are encouraged also to include in their requests the file designations of the records they seek. If a component determines that a request does not reasonably describe the records sought, the component shall either advise the requester what additional information is needed or otherwise state why the request is insufficient. The component also shall extend to the requester an opportunity to confer with Department personnel with the objective of reformulating the request in a manner which will meet the requirements of this section.

(c) *Agreement to Pay Fees.* The filing of a request under this subpart shall be deemed to constitute an agreement by the requester to pay all applicable fees charged under § 16.10 of this subpart, up to $25, unless a waiver of fees is sought. The component responsible for responding to the request shall confirm this agreement in its letter of acknowledgement to the requester. When filing a request, a requester may specify a willingness to pay a greater amount, if applicable.

§ 16.4 Responses by Components to Requests.

(a) *In General.* Except as otherwise provided in this section, the component that: (1) First receives a request for a record; and (2) has possession of the requested record is the component ordinarily responsible for responding to the request.

(b) *Authority to Grant or Deny Requests.* The head of a component, or his designee, is authorized to grant or deny any request for a record of that component.

(c) *Initial Action by the Receiving Component.* When a component receives a request for a record in its possession, the component shall promptly determine whether another component, or another agency of the Government, is better able to determine: (1) Whether the record is exempt, to any extent, from mandatory disclosure under the FOIA; and (2) whether the record, if exempt to any extent from mandatory disclosure under the FOIA, should nonetheless be released to the requester as a matter of discretion. If the receiving component determines that it is the component or agency best able to determine whether or not to disclose the record in response to the request, then the receiving component shall respond to the request. If the receiving component determines that it is not the component or agency best able to determine whether or not to dislcose the record in response to the request, the receiving component shall either:

(i) Respond to the request, after consulting with the component or other agency best able to determine whether or not to disclose the record and with any other component or agency having a substantial interest in the requested record or the information contained therein; or

(ii) Refer the responsibility for responding to the request to the component best able to determine whether or not to disclose the record, or to another agency that generated or originated the record, but only if that other component or agency is subject to the provisions of the FOIA.

Under ordinary circumstances, the component or agency that generated or originated a requested record shall be presumed to be the component or agency best able to determine whether or not to disclose the record in response to the request. However, nothing in this section shall prohibit a component that generated or originated a requested record from referring the responsibility for responding to the request to another component, if the component that generated or originated the requested record defermines that the other component has a greater interest in the requested record or the information contained therein.

(d) *Law Enforcement Information.* Whenever a request is made for a record containing information which relates to an investigation of a possible violation of criminal law or to a criminal law enforcement proceeding and which was generated or originated by another component or agency, the receiving component shall refer the responsibility for responding to the request to that other component or agency; however, such referral shall extend only to the information generated or originated by that other component or agency.

(e) *Classified Information.* Whenever a request is made for a record containing information which has been classified, or which may be eligible for classification, by another component or agency under the provisions of Executive Order 12356 or any other Executive Order concerning the classification of records, the receiving component shall refer the responsibility for responding to the request to the component or agency that classified the information or should consider the information for classification. Whenever a record contains information that has been derivatively classified by a component because it contains information classified by another component or agency, the component shall refer the responsibility for responding to the request to the component or agency that classified the underlying information; however, such referral shall extend only to the information classified by the other component or agency.

(f) *Notice of Referral.* Whenever a component refers all or any part of the responsibility for responding to a request to another component or to another agency, it ordinarily shall notify the requester of the referral and inform the requester of the name and address of each component or agency to which the request has been referred and the portions of the request so referred.

(g) *Agreements Regarding Consultations and Referrals.* No provision of this section shall preclude formal or informal agreements between components, or between a component and another agency, to eliminate the need for consultations or referrals of requests or classes of requests.

(h) *Separate Referrals of Portions of a Request.* Portions of a request may be referred separately to one or more components or to one or more other agencies whenever necessary to process the request in accordance with the provisions of this section.

(i) *Processing of Requests that Are Not Properly Addressed.* A request that is not properly addressed as specified in § 16.3(a) of this subpart shall be forwarded to the FOIA/PA Section, Justice Management Division, which shall forward the request to the appropriate component or components for processing. A request not addressed to the appropriate component will be deemed not to have been received by the Department of Justice until the FOIA/PA Section has forwarded the request to the appropriate component and that component has received the request, or until the request would have been so forwarded and received with the exercise of reasonable diligence by Department personnel. A component receiving an improperly addressed request forwarded by the FOIA/PA Section shall notify the requester of the date on which it received the request.

(j) *Date for Determining Responsive Records.* In determining records responsive to a request, a component ordinarily will include only those records within the component's possession and control as of the date of its receipt of the request.

§ 16.5 Form and content of component responses.

(a) *Form of Notice Granting a Request.* After a component has made a determination to grant a request in whole or in part, the component shall so notify the requester in writing. The notice shall describe the manner in which the record will be disclosed, whether by providing a copy of the record to the requester or by making a copy of the record available to the requester for inspection at a reasonable time and place. The procedure for such an inspection shall not unreasonably disrupt the operations of the component. The component shall inform the requester in the notice of any fees to be charged in accordance with the provisions of § 16.10 of this subpart.

(b) *Form of Notice Denying a Request.* A component denying a request in whole or in part shall so notify the requester in writing. The notice must be signed by the head of the component, or his designee, and shall include:

(1) The name and title or position of the person responsible for the denial;

(2) A brief statement of the reason or reasons for the denial, including the FOIA exemption or exemptions which the component has relied upon in denying the request and a brief explanation of the manner in which the exemption or exemptions apply to each record withheld; and

(3) A statement that the denial may be appealed under § 16.8(a) and a description of the requirements of that subsection.

(c) *Record Cannot be Located or Has Been Destroyed.* If a requested record cannot be located from the information supplied, or is known or believed to have been destroyed or otherwise disposed of, the component shall so notify the requester in writing.

§ 16.6 Classified information.

In processing a request for information that is classified or classifiable under Executive Order 12356 or any other Executive Order concerning the classification of records, a component shall review the information to determine whether it warrants classification. Information which does not warrant classification shall not be withheld from a requester on the basis of 5 U.S.C. 552(b)(1). The Office of Information and Privacy shall, upon receipt of any appeal involving classified or classifiable information, take appropriate action to ensure compliance with Part 17 of this chapter.

§ 16.7 Business information.

(a) *In General.* Business information provided to the Department of Justice by a business submitter shall not be disclosed pursuant to a Freedom of Information Act request except in accordance with this section.

(b) *Notice to Business Submitters.* A component shall provide a business submitter with prompt written notice of a request encompassing its business information whenever required under paragraph (c), and except as is provided in paragraph (g), of this section. Such written notice shall either describe the exact nature of the business information requested or provide copies of the records or portions thereof containing the business information.

(c) *When Notice Is Required.* (1) For business information submitted to the Department prior to May 1, 1984, the component shall provide a business submitter with notice of a request whenever: (i) The information is less than ten years old; (ii) the information is subject to prior express commitment of confidentiality given by the component to the business submitter; or (iii) the component has reason to believe that disclosure of the information may result in commercial or financial injury to the business submitter.

(2) For business information submitted to the Department on or after May 1, 1984, the component shall provide a business submitter with notice of a request whenever: (i) The business submitter has in good faith designated the information as commercially or financially sensitive information, or (ii) the component has reason to believe that disclosure of the information may result in commercial or financial injury to the business submitter. Notice of a request for business information falling within the former category shall be required for a period of not more than ten years after the date of submission unless the business submitter requests, and provides acceptable justification for, a specific notice period of greater duration. Whenever possible, the submitter's claim of confidentiality should be supported by a statement or certification by an officer or authorized representative of the company that the information in question is in fact confidential commercial or financial information and has not been disclosed to the public.

(d) *Opportunity to Object to Disclosure.* Through the notice described in paragraph (b), a component shall afford a business submitter a reasonable period within which to provide the component with a detailed statement of any objection to disclosure. Such statement shall specify all grounds for withholding any of the information under any exemption of the Freedom of Information Act and, in the case of Exemption 4, shall demonstrate why the information is contended to be a trade secret or commercial or financial information that is privileged or confidential. Information provided by a business submitter pursuant to this paragraph may itself be subject to disclosure under the FOIA.

(e) *Notice of Intent to Disclose.* A component shall consider carefully a business submitter's objections and specific grounds for nondisclosure prior to determining whether to disclose business information. Whenever a component decides to disclose business information over the objection of a business submitter, the component shall forward to the business submitter a written notice which shall include:

(1) A statement of the reasons for which the business submitter's disclosure objections were not sustained;

(2) A description of the business information to be disclosed; and

(3) A specified disclosure date.

Such notice of intent to disclose shall be forwarded a reasonable number of days, as circumstances permit, prior to the specified date upon which disclosure is intended. A copy of such disclosure notice shall be forwarded to the requester at the same time.

(f) *Notice of FOIA Lawsuit.* Whenever a requester brings suit seeking to compel disclosure of business information covered by paragraph (c), the component shall promptly notify the business submitter.

(g) *Exceptions to Notice Requirements.* The notice requirements of this section shall not apply if:

(1) The component determines that the information should not be disclosed;

(2) The information lawfully has been published or otherwise made available to the public;

(3) Disclosure of the information is required by law (other than 5 U.S.C. 552); or

(4) The component is a criminal law enforcement agency that acquired the information in the course of a lawful investigation of a possible violation of criminal law.

§ 16.8 Appeals.

(a) *Appeals to the Attorney General.* When a request for access to records or for a waiver of fees has been denied in whole or in part, or when a component fails to respond to a request within the time limits set forth in the FOIA, the requester may appeal the denial of the request to the Attorney General within 30 days of his receipt of a notice denying his request. An appeal to the Attorney General shall be made in writing and

addressed to the Office of Information and Privacy, United States Department of Justice, 10th Street and Constitution Avenue, N.W., Washington, D.C. 20530. Both the envelope and the letter of appeal itself must be clearly marked: "Freedom of Information Act Appeal." An appeal not so addressed and marked will be forwarded to the Office of Information and Privacy as soon as it is identified. An appeal that is improperly addressed will be deemed not to have been received by the Department until the Office of Information and Privacy receives the appeal, or would have done so with the exercise of reasonable diligence by Department personnel.

(b) *Action on Appeals by the Office of Information and Privacy.* Unless the Attorney General otherwise directs, the Director, Office of Information and Privacy, under the supervision of the Assistant Attorney General, Office of Legal Policy, shall act on behalf of the Attorney General on all appeals under this section, except that: (1) In the case of a denial of a request by the Assistant Attorney General Office of Legal Policy, the Office of Information and Privacy or his designee shall act on the appeal, and (2) a denial of a request by the Attorney General shall constitute the final action of the Department on that request.

(c) *Form of Action on Appeal.* The disposition of an appeal shall be in writing. A decision affirming in whole or in part the denial of a request shall include a brief statement of the reason or reasons for the affirmance, including each FOIA exemption relied upon and its relation to each record withheld, and a statement that judicial review of the denial is available in the United States District Court for the judicial district in which the requester resides or has his principal place of business, the judicial district in which the requested records are located, or the District of Columbia. If the denial of a request is reversed on appeal, the requester shall be so notified and the request shall be processed promptly in accordance with the decision on appeal.

§ 16.9 Preservation of Records.

Each component shall preserve all correspondence relating to the requests it receives under this subpart, and all records processed pursuant to such requests, until such time as the destruction of such correspondence and records is authorized pursuant to Title 44 of the United States Code. Under no circumstances shall records be destroyed while they are the subject of a pending request, appeal, or lawsuit under the Act.

§ 16.10 Fees.

(a) *When Charged.* Fees pursuant to 31 U.S.C. 9701 and 5 U.S.C. 552 shall be charged according to the schedules contained in paragraph (b) of this section for services rendered in responding to requests for Justice Department records under this subpart unless the official of the Department making the initial or appeal decision determines that such charges, or a portion thereof, are not in the public interest because furnishing the information primarily benefits the general public. Such a determination shall ordinarily not be made unless the service to be performed will be of benefit primarily to the public as opposed to the requester, or unless the requester is an indigent individual. Fees shall not be charged where they would amount, in the aggregate, for a request or series of related requests,to less than $3. Ordinarily, fees shall not be charged if the records requested are not found, or if all of the records located are withheld as exempt. However, if the time expended in processing the request is substantial, and if the requester has been notified of the estimated cost pursuant to paragraph (c) of this section and has been specifically advised that it cannot be determined in advance whether any records will be made available, fees may be charged.

(b) *Services Charged for and Amount Charged.* For the services listed below expended in locating or making available records or copies thereof, the following charges shall be assessed:

(1) *Copies.* For copies of documents (maximum of 10 copies will be supplied) $0.10 per copy of each page.

(2) *Clerical searches.* For each one quarter hour spent by clerical personnel in excess of the first quarter hour in searching for and producing requested record, $1.00.

(3) [Reserved]

(4) *Certification.* For certification of true copies, each, $1.

(5) *Attestation.* For attestation under the seal of the Department, $3.

(6) *Nonroutine, nonclerical searches.* Where a search cannot be performed by clerical personnel, for example, where the task of determining which records fall within a request and collecting them requires the time of professional or managerial personnel, and where the amount of time that must be expended in the search and collection of the requested records by such higher level personnel is substantial, charges for the search may be made at a rate in excess of the clerical rate, namely for each one quarter hour spent in excess of the first quarter hour by such higher level personnel in searching for a requested record, $2.00.

(7) *Examination and related tasks in screening records.* No charge shall be made for time spent in resolving legal or policy issues affecting access to records of known contents. In addition, no charge shall be made for the time involved in examining records in connection with determining whether they are exempt from mandatory disclosure and should be withheld as a matter of sound policy.

(8) *Computerized records.*

(i) *Computer time charges (includes personnel costs).*

1. Central processor charge per hour	$1[illegible].00
2. Main storage charge per 1,000 bytes per hour	.60
3. Channel charges per hour	.74
4. Card reading per 1,000 cards	.20
5. Printing per 1,000 lines	.[illegible]
6. Card punching per 1,000 cards	10.[illegible]
7. Tape mount	.50
8. Specific device charges:	
a. IBM 2260 Cathode ray tube or equivalent per hour	[illegible].20
b. IBM 3330 Disk storage or equivalent per hour	39.72
c. IBM 2314 Disk storage or equivalent per hour	39.72
d. IBM 3420 Tape Drive or equivalent per hour	[illegible].50

(ii) *Material charges.*

1. One-part paper per 1,000	$1[illegible].[illegible]
2. Two-part paper per 1,000	17.63
3. Three-part paper per 1,000	28.95
4. Four-part paper per 1,000	37.52
5. Five-part paper per 1,000	50.83
6. Stock Hollerith cards per 1,000	1.78
7. Magnetic tape per reel	9.50
8. Disk pack, each	775.00

(9) *Tape recordings and other audio records.*

(i) *Personnel charges.* Personnel charges in connection with the duplication of audio records shall be charged in accordance with paragraph (b)(2) or (b)(6) of this section, whichever is appropriate.

(ii) *Materials charges.*

1. 45 minute cassette	$0.56
2. 60 minute cassette	[illegible]
3. 90 minute cassette	.77

(10) *Other charges.* When a response to a request requires services or materials other than the common ones described in paragraphs (b)(1) through (b)(9) of this section, the direct cost of such services or materials to the government may be charged, but only if the requester has been notified of such cost before it is incurred.

(c) *Notice of Anticipated Fees in Excess of $25.* Where it is anticipated that the fees chargeable under this

section will amount to more than $25, and the requester has not indicated in advance his willingness to pay fees as high as are anticipated, the requester shall be notified of the amount of the anticipated fee or such portion thereof as can readily be estimated. In such cases, a request will not be deemed to have been received until the requester is notified of the anticipated cost and agrees to bear it. Such a notification shall be transmitted as soon as possible, but in any event within five working days, giving the best estimate then available. The notification shall offer the requester the opportunity to confer with Department personnel with the object of reformulating the request so as to meet his needs at lower cost.

(d) *Form of Payment.* Payment should be made by check or money order payable to the Treasury of the United States.

(e) *Advance Deposit.* (1) Where the anticipated fee chargeable under this section exceeds $25, an advance deposit of 25 percent of the anticipated fee or $25, whichever is greater, may be required.

(2) Where a requester has previously failed to pay a fee under this section, an advance deposit of the full amount of the anticipated fee may be required.

(f) *Other Services.* Nothing in this section shall be construed to entitle any person, as of right, to any services or materials to which such person is not entitled under 5 U.S.C. 552.

§ 16.11 Other rights and services.

Nothing in this subpart shall be construed to entitle any person, as of right, to any service or to the disclosure of any record to which such person is not entitled under 5 U.S.C. 552.

4. Section 16.33 is revised to read as follows:

§ 16.33 Fee for production of identification record.

Each written request for production of an identification record must be accompanied by a fee of $11.00 in the form of a certified check or money order, payable to the Treasury of the United States. This fee is established pursuant to the provisions of 31 U.S.C. 9701 and is based upon the clerical time beyond the first quarter hour to be spent in searching for, identifying, and reproducing each identification record requested as specified in § 16.10 of this part. Any request for waiver of the fee shall accompany the original request for the identification record and shall include a claim and proof of indigency.

5. Subpart D is revised to read as follows:

Subpart D—Protection of Privacy and Access to Individual Records Under the Privacy Act of 1974

Authority: 5 U.S.C. 552a.

§ 16.40 General provisions.

(a) *Purpose and Scope.* This subpart contains the regulations of the Department of Justice implementing the Privacy Act of 1974, 5 U.S.C. 552a. The regulations apply to all records which are contained in systems of records maintained by the Department of Justice and which are retrieved by an individual's name or personal identifier. These regulations set forth the procedures by which an individual may seek access under the Privacy Act to records pertaining to him, may request correction of such records, or may seek an accounting of disclosures of such records by the Department. These regulations are applicable to each component of the Department.

(b) *Transfer of Law Enforcement Records.* The head of a component, or his designee, is authorized to make written requests under 5 U.S.C. 552a(b)(7) for transfer of records maintained by other agencies which are necessary to carry out an authorized law enforcement activity of the component.

(c) *Definitions.* As used in this subpart, the following terms shall have the following meanings:

(1) "Agency" has the meaning given in 5 U.S.C. 551(l) and 5 U.S.C. 552a(a)(1).

(2) "Component" means each separate bureau, office, board, division, commission, service, or administration of the Department of Justice.

(3) "Record" means any item, collection, or grouping of information about an individual which is maintained by any component within a system of records and which contains the individual's name, identifying number, symbol, or other identifying particular assigned to the individual, such as a fingerprint, voiceprint, or photograph.

(4) "Request for access" means a request made pursuant to 5 U.S.C. 552a(d)(1).

(5) "Request for correction" means a request made pursuant to 5 U.S.C. 552a(d)(2).

(6) "Request for an accounting" means a request made pursuant to 5 U.S.C. 552a(c)(3).

(7) "Requester" means an individual who makes either a request for access, a request for correction, or a request for an accounting.

(8) "System of records" means a group of any records under the control of any component from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to that individual.

§ 16.41 Requests for Access to Records.

(a) *Procedure for Making Requests for Access to Records.* An individual may request access to a record about him by appearing in person or by writing to the component that maintains the record. (Appendix I to this part lists the components of the Department of Justice and their addresses. The "Notice of Records Systems" published by the National Archives and Records Service, General Services Administration, describes the systems of records maintained by all federal agencies, including the Department and its components.) A requester in need of guidance in defining his request may write to the FOIA/PA Section, Justice Management Division, United States Department of Justice, 10th Street and Constitution Avenue, N.W., Washington, D.C. 20530. A request should be addressed to the component that maintains the requested record. Both the envelope and the request itself should be marked: "Privacy Act Request." Requests for certain historical records of the Department maintained in National Archives and Records Service centers must be directed to the General Services Administration in accordance with its regulations.

(b) *Description of Records Sought.* A request for access to records must describe the records sought in sufficient detail to enable Department personnel to locate the system of records containing the record with a reasonable amount of effort. Whenever possible, a request for access should describe the nature of the record sought, the date of the record or the period in which the record was compiled, and the name or identifying number of the system of records in which the requester believes the record is kept. The Notices the Department publishes in the Federal Register describing its components' systems of records may require, in appropriate instances, that requests for access to records describe the records sought with even greater specificity.

(c) *Agreement to Pay Fees.* The filing of a request for access to a record under this subpart shall be deemed to constitute an agreement to pay all applicable fees charged under § 16.47 up to $25.00. The component responsible for responding to the request shall confirm this agreement in its letter of acknowledgment to the requester. When filing a request, a requester may specify a willingness to pay a greater amount, if applicable.

(d) *Verification of Identity.* Any individual who submits a request for access to records must verify his identity in one of the following ways, unless the notice published in the **Federal Register** describing the relevant system of records provides otherwise:

(1) Any requester making a request in writing must state in his request his full name, current address, and date and place of birth. In addition, a requester must provide with his request an example of his signature, which shall be notarized. Sample forms used for such notarized statement of identity may be which may be obtained from the FOIA/PA Section, Justice Management Division, United States Department of Justice, 10th Street and Constitution Avenue, N.W., Washington, D.C. 20530. In order to facilitate the identification and location of the requested records, a requester may also, at his option, include in his request his Social Security number.

(2) Any requester submitting a request in person may provide to the component a form of official photographic identification, such as a passport or an identification badge. If a requester is unable to produce a form of photographic identification, he may provide to the component two or more acceptable forms of identification (such as a driver's license or credit card) bearing his name and address.

(e) *Verification of Guardianship.* The parent or guardian of a minor (or the guardian of a person judicially determined to be incompetent) who submits a request for access to the records of the minor or incompetent must establish: (1) His own identity and the identity of he subject of the record, as required in paragraph (d) of this section, (2) that the is the parent or guardian of the subject of the record, which may be proved by providing a copy of the subject's birth certificate showing parentage or by providing a court order establishing the guardianship, and (3) that he seeks to act on behalf of the subject of the record.

§ 16.42 Responses by components to requests for access to records.

(a) *In General.* Except as otherwise provided in this section, the component that: (1) First receives a request for access to a record, and (2) has possession of the requested record is the component ordinarily responsible for responding to the request.

(b) *Authority to Grant or Deny Requests.* The head of a component, or his designee, is authorized to grant or deny any request for access to a record of that component.

(c) *Initial Action by the Receiving Component.* When a component receives a request for access to a record in its possession, the component shall promptly determine whether another component, or another Government agency, is better able to determine whether the record is exempt, to any extent, from access. If the receiving component determines that it is the component or agency best able to determine whether the record is exempt, to any extent, from access, then the receiving component shall respond to the request. If the receiving component determines that it is not the component or agency best able to determine whether or not the record is exempt from access, the receiving component shall respond to the request, after consulting with the component or agency best able to determine whether or not the record is exempt from access. Under ordinary circumstances, the component or agency that generated or originated a requested record shall be presumed to be the component or agency best able to determine whether or not the record is exempt from access. However, nothing in this section shall prohibit a component that generated or originated a requested record from consulting with another component or agency, if the component that generated or originated the requested record determines that the other component or agency has an interest in the requested record or the information contained therein.

(d) *Law Enforcement Information.* Whenever a request for access is made for a record containing information which relates to an investigation of a possible violation of criminal law or to a criminal law enforcement proceeding and which was generated or originated by another component or agency, the receiving component shall consult with that other component or agency, as appropriate.

(e) *Classified Information.* Whenever a request for access is made for a record containing information which has been classified, or which may be eligible for classification, by another component or agency under the provision of Executive Order 12356 or any other Executive Order concerning the classification of records, the receiving component shall refer the responsibility for responding to the request to the component or agency that classified the information or should consider the information for classification. Whenever a record contains information that has been derivatively classified by a component because it contains information classified by another component or agency, the component shall refer the responsibility for responding to the request to the component or agency that classified the underlying information; however, such referral shall extend only to the information classified by the other component or agency.

(f) *Agreements Regarding Consultations.* No provision of this section shall preclude formal or informal agreements between components, or between a component and another agency, to eliminate the need for consultations concerning requests or classes of requests.

(g) *Processing of Requests for Access Not Properly Addressed.* A request for access that is not properly addressed as specified in § 16.41(a) of this subpart shall be forwarded to the FOIA/PA Section, Justice Management Division, which shall forward the request to the appropriate component or components for processing. A request not addressed to the appropriate component will be deemed not to have been received by the Department until the FOIA/PA Section has forwarded the request to the appropriate component and that component has received the request, or until the request would have been so forwarded and received with the exercise of reasonable diligence by Department personnel. A component receiving an improperly addressed request from the FOIA/PA Section shall notify the requester of the date on which it received the request.

(h) *Date for Determining Responsive Records.* In determining records responsive to a request for access, a component ordinarily will include only those records within the component's possession and control as of the date of its receipt of the request.

§ 16.43 Form and content of component responses.

(a) *Form of Notice Granting Request for Access.* After a component has made a determination to grant a request for access in whole or in part, the component shall so notify the requester in writing. The notice shall describe the manner in which access to the record will be granted and shall inform the requester of any fees to be charged in accordance with § 16.47 of this subpart.

(b) *Form of Notice Denying Request for Access.* A component denying a request for access in whole or in part shall so notify the requester in writing. The notice shall be signed by the head of the responsible component, or his designee, and shall include:

(1) The name and title or position of the person responsible for the denial;

(2) A brief statement of the reason or reasons for the denial, including the

Privacy Act exemption or exemptions which the component has relied upon in denying the request and a brief explanation of the manner in which the exemption or exemptions apply to each record withheld; and

(3) A statement that the denial may be appealed under § 16.48(a) of this subpart, and a description of the requirements of that subsection.

(c) *Record Cannot be Located or Has Been Destroyed.* If a requested record cannot be located from the information supplied, or is known or believed to have been destroyed or otherwise disposed of, the component shall so notify the requester in writing.

(d) *Medical Records.* When an individual requests medical records pertaining to himself which are not otherwise exempt from individual access, the component may advise the individual that the records will be provided only to a physician, designated by the individual, who requests the records and establishes his identity in writing. The designated physician shall determine which records should be provided to the individual and which records should not be disclosed to the individual because of possible harm to the individual or another person.

§ 16.44 Classified information.

In processing a request for access to a record containing information that is classified or classifiable under Executive Order 12356 or any other Executive Order concerning the classification of records, a component shall review the information to determine whether it warrants classification. Information which does not warrant classification shall not be withheld from a requester on the basis of 5 U.S.C. 552a(k)(1). The Office of Information and Privacy shall, upon receipt of any appeal involving classified or classifiable information, take appropriate action to ensure compliance with Part 17 of this chapter.

§ 16.45 Records in exempt systems of records.

(a) *Law Enforcement Records Exempted Under Subsection (k)(2).* Before denying a request by an individual for access to a law enforcement record which has been exempted from access pursuant to 5 U.S.C. 552a(k)(2), the component must review the requested record to determine whether information in the record has been used or is being used to deny the individual any right, privilege, or benefit for which he is eligible or to which he would otherwise be entitled under federal law. If so, the component shall notify the requester of the existence of the record and disclose such information to the requester, except to the extent that the information would identify a confidential source. In cases where disclosure of information in a law enforcement record could reasonably be expected to identify a confidential source, the record shall not be disclosed to the requester unless the component is able to delete from such information all material which would identify the confidential source.

(b) *Employee Background Investigations.* When a requester requests access to a record pertaining to a background investigation and the record has been exempted from access pursuant to 5 U.S.C. 552a(k)(5), the record shall not be disclosed to the requester unless the component is able to delete from such record all information which would identify a confidential source.

§ 16.46 Access to records.

(a) *Manner of Access.* A component that has made a determination to grant a request for access shall grant the requester access to the requested record either by: (1) Providing the requester with a copy of the record or (2) making the record available for inspection by the requester at a reasonable time and place. The component shall in either case charge the requester applicable fees in accordance with the provisions of § 16.47 of this subpart. If a component provides access to a record by making the record available for inspection by the requester, the manner of such inspection shall not unreasonably disrupt the operations of the component.

(b) *Accompanying Person.* A requester appearing in person to review his records may be accompanied by another individual of his own choosing. Both the requester and the accompanying person shall be required to sign a form stating that the Department of Justice is authorized to disclose the record in the presence of both individuals.

§ 16.47 Fees for access to records.

(a) *When Charged.* A component shall charge fees pursuant to 31 U.S.C. 9701 and 5 U.S.C. 552a(f)(5) for the copying of records to afford access to individuals unless the component, in its discretion, waives or reduces the fees for good cause shown. A component shall charge fees only at the rate of $0.10 per page. For materials other than paper copies, the component may charge the direct costs of reproduction, but only if the requester has been notified of such costs before they are incurred. Fees shall not be charged where they would amount, in the aggregate, for one request or for a series of related requests, to less than $3.00. However, a component may, in its discretion, increase the amount of this minimum fee.

(b) *Notice of Estimated Fees in Excess of $25.* When a component determines or estimates that the fees to be charged under this section may amount to more than $25, the component shall notify the requester as soon as practicable of the actual or estimated amount of the fee, unless the requester has indicated in advance his willingness to pay a fee as high as that anticipated. (If only a portion of the fee can be estimated readily, the component shall advise the requester that the estimated fee may be only a portion of the total fee.) Where the estimated fee exceeds $25 and a component has so notified the requester, the component will be deemed not to have received the request for access to records until the requester has agreed to pay the anticipated fee. A notice to a requester pursuant to this paragraph shall offer him the opportunity to confer with Department personnel with the object of reformulating his request to meet his needs at a lower cost.

(c) *Form of Payment.* Requesters must pay fees by check or money order made payable to the Treasury of the United States.

(d) *Advance Deposits.* (1) Where the estimated fee chargeable under this section exceeds $25, a component may require a requester to make an advance deposit of 25 percent of the estimated fee or an advance payment of $25, whichever is greater.

(2) Where a requester has previously failed to pay a fee charged under this part, the requester must pay the component or the Department the full amount owed and make an advance deposit of the full amount of any estimated fee before a component shall be required to process a new or pending request for access from that requester.

§ 16.48 Appeals from denials of access.

(a) *Appeals to the Attorney General.* When a component denies in whole or in part a request for access to records, the requester may appeal the denial to the Attorney General within 30 days of his receipt of the notice denying his request. An appeal to the Attorney General shall be made in writing, addressed to the Office of Information and Privacy, United States Department of Justice, 10th Street and Constitution Avenue, NW., Washington, D.C. 20530. Both the envelope and the letter of appeal itself must be clearly marked: "Privacy Act Appeal." An appeal not so addressed and marked shall be forwarded to the Office of Information

and Privacy as soon as it is identified as an appeal under the Privacy Act. An appeal that is improperly addressed shall be deemed not to have been received by the Department until the Office of Information and Privacy receives the appeal, or until the appeal would have been so received with the exercise of reasonable diligence by Department personnel.

(b) *Action on Appeals by the Office of Information and Privacy.* Unless the Attorney General otherwise directs, the Director, Office of Information and Privacy, under the supervision of the Assistant Attorney General, Office of Legal Policy, shall act on behalf of the Attorney General on all appeals under this section, except that: (1) In the case of a denial of a request for access by the Assistant Attorney General, Office of Legal Policy, the Attorney General or his designee shall act on the appeal, and (2) a denial of a request for access by the Attorney General shall constitute the final action of the Department on that request.

(c) *Form of Action on Appeal.* The disposition of an appeal shall be in writing. A decision affirming in whole or in part the denial of a request for access shall include a brief statement of the reason or reasons for the affirmance, including each Privacy Act exemption relied upon and its relation to each record withheld, and a statement that judicial review of the denial is available in the United States District Court for the judicial district in which the requester resides or has his principal place of business, the judicial district in which the requested records are located, or the District of Columbia. If the denial of a request for access is reversed on appeal, the requester shall be so notified and the request shall be processed promptly in accordance with the decision on appeal.

§ 16.49 Preservation of records.

Each component shall preserve all correspondence relating to the requests it receives under this subpart, and all records processed pursuant to such requests, until such time as the destruction of such correspondence and records is authorized pursuant to Title 44 of the United States Code. Under no circumstances shall records be destroyed while they are the subject of a pending request for access, appeal, or lawsuit under the Act.

§ 16.50 Requests for correction of records.

(a) *How Made.* Unless a record is exempted from correction and amendment, an individual may submit a request for correction of a record pertaining to him. A request for correction must be made in writing and must be addressed to the component that maintains the record. (Appendix I to this part lists the components of the Department and their addresses.) The request must identify the particular record in question, state the correction sought, and set forth the justification for the correction. Both the envelope and the request for correction itself must be clearly marked: "Privacy Act Correction Request." If a requester believes that the same record appears in more than one system of records, he should address his request for correction to each component that controls a system of records which contains the record.

(b) *Initial Determination.* Within 10 working days of receiving a request for correction, a component shall notify the requester whether his request will be granted or denied, in whole or in part. If the component grants the request for correction in whole or in part, it shall advise the requester of his right to obtain a copy of the corrected record, in releasable form, upon request. If the component denies the request for correction in whole or in part, it shall notify the requester in writing of the denial. The notice of denial shall state the reason or reasons for the denial and advise the requester of his right to appeal.

(c) *Appeals.* When a request for correction is denied in whole or in part, the requester may appeal the denial to the Attorney General within 30 days of his receipt of the notice denying his request. An appeal to the Attorney General shall be made in writing, shall set forth the specific item of information sought to be corrected, and shall include any documentation said to justify the correction. An appeal shall be addressed to the Office of Information and Privacy, United States Department of Justice, 10th Street and Constitution Avenue, NW., Washington, D.C. 20530, unless the appeal is from a denial by the Assistant Attorney General, Office of Legal Policy, in which case the appeal shall be addressed to the Attorney General, at the same address. Both the envelope and the letter of appeal itself must be clearly marked: "Privacy Act Correction Appeal."

(d) *Determination on Appeal.* The Director, Office of Information and Privacy, under the supervision of the Assistant Attorney General, Office of Legal Policy, or the Attorney General in appropriate cases, shall decide all appeals from denials of requests to correct records. All such appeals shall be decided within 30 working days of receipt of the appeal, unless there is good cause to extend this period. If the denial of a request is affirmed on appeal, the requester shall be so notified in writing and advised of: (1) The reason or reasons the denial has been affirmed, (2) the requester's right to file a Statement of Disagreement, as provided in paragraph (e) of this section, and (3) the requester's right to obtain judicial review of the denial in the United States District Court for the judicial district in which the requester resides or has his principal place of business, the judicial district in which the record is located, or the District of Columbia. If the denial is reversed on appeal, the requester shall be so notified and the request for correction shall be remanded to the component that denied the request for processing in accordance with the decision on appeal.

(e) *Statements of Disagreement.* A requester whose appeal under this section is denied shall have the right to file a Statement of Disagreement with the Office of Information and Privacy, 10th Street and Constitution Avenue, NW., Washington, D.C. 20530, within 30 days of receiving notice of denial of his appeal. Statements of Disagreement may not exceed one typed page per fact disputed. Statements exceeding this limit shall be returned to the requester for condensation. Upon receipt of a Statement of Disagreement under this section, the Director, Office of Information and Privacy, shall have the statement included in the system of records in which the disputed record is maintained and shall have the disputed record marked so as to indicate (1) that a Statement of Disagreement has been filed, and (2) where in the system of records the Statement may be found.

(f) *Notices of Correction or Disagreement.* Within 30 working days of the correction of a record, the component that maintains the record shall advise all components or agencies to which it previously disclosed the record that the record has been corrected. Whenever an individual has filed a Statement of Disagreement, a component shall append a copy of the Statement to the disputed record whenever the record is disclosed. The component may also append to the disupted record any written statement it has made giving the component's reasons for denying the request to correct the record.

§ 16.51 Records not subject to correction.

The following records are not subject to correction or amendment as provided in § 16.50 of this subpart:

(a) Transcripts of testimony given under oath or written statements made under oath;

(b) Transcripts of grand jury proceedings, judicial proceedings, or quasi-judicial proceedings which constitute the official record of such proceedings;

(c) Presentence reports which are the property of the courts, but are maintained by a component in a system of records; and

(d) Records duly exempted from correction pursuant to 5 U.S.C. 552a(j) or 552a(k) by notice published in the **Federal Register.**

§ 16.52 Request for accounting of record disclosures.

(a) An individual may request a component that maintains a record pertaining to him to provide him with an accounting of those other agencies to which the component has disclosed the record, and the date, nature, and purpose of each disclosure. A request for an accounting must be made in writing and must identify the particular record for which the accounting is requested. The request also must be addressed to the component that maintains the particular record, and both the envelope and the request itself must clearly be marked: "Privacy Act Accounting Request." (Appendix I to this part lists the components of the Department and their addresses.)

(b) Components shall not be required to provide an accounting to an individual to the extent that the accounting relates to: (1) Records for which no accounting must be kept pursuant to 5 U.S.C. 552a(c)(1), (2) disclosures of records to law enforcement agencies for lawful law enforcement activities, pursuant to written requests from such law enforcement agencies specifying records sought and the law enforcement activities for which the records are sought, under 5 U.S.C. 552a(c)(3) and (b)(7), or (3) records for which an accounting need not be disclosed pursuant to 5 U.S.C. 552a (j) or (k).

(c) A denial of a request for an accounting may be appealed to the Attorney General in the same manner as a denial of a request for access, with both the envelope and the letter of appeal itself clearly marked: "Privacy Act Accounting Appeal."

§16.53 Notice of subpoenas and emergency disclosures.

(a) *Subpoenas.* When records pertaining to an individual are subpoenaed by a grand jury, court, or quasi-judicial authority, the official served with the subpoena shall be responsible for ensuring that written notice of its service is forwarded to the individual. Notice shall be provided within 10 working days of the service of the subpoena or, in the case of a grand jury subpoena, within 10 working days of its becoming a matter of public record. Notice shall be mailed to the last known address of the individual and shall contain the following information: The date the subpoena is returnable, the court or quasi-judicial authority to which it is returnable, the name and number of the case or proceeding, and the nature of the records sought. Notice of the service of a subpoena is not required if the system of records has been exempted from the notice requirement of 5 U.S.C. 522a(e)(8), pursuant to 5 U.S.C. 552a(j), by a Notice of Exemption published in the **Federal Register.**

(b) *Emergency Disclosures.* If the record of an individual has been disclosed to any person under compelling circumstances affecting the health or safety of any person, as described in 5 U.S.C. 552a(b)(8), the individual to whom the record pertains shall be notified of the disclosure at his last known address within 10 working days. The notice of such disclosure shall be in writing and shall state the nature of the information disclosed, the person or agency to whom it was disclosed, the date of disclosure, and the compelling circumstances justifying the disclosure. The officer who made or authorized the disclosure shall be responsible for providing such notification.

§ 16.54 Security of systems of records.

(a) The Assistant Attorney General for Administration, Justice Management Division, shall be responsible for issuing regulations governing the security of systems of records. To the extent that such regulations govern the security of automated systems of records, the regulations shall be consistent with the guidelines developed by the National Bureau of Standards.

(b) Each component shall establish administrative and physical controls to prevent unauthorized access to its systems of records, to prevent the unauthorized disclosure of records, and to prevent the physical damage or destruction of records. The stringency of such controls shall reflect the sensitivity of the records the controls protect. At a minimum, however, each component's administrative and physical controls shall ensure that: (1) Records are protected from public view, (2) the area in which records are kept is supervised during business hours to prevent unauthorized persons from having access to the records, and (3) records are inaccessible to unauthorized persons outside of business hours.

(c) Each component shall establish rules restricting access to records to only those individuals within the Department who must have access to such records in order to perform their duties. Each component also shall adopt procedures to prevent the accidental disclosure of records or the accidental granting of access to records.

§16.55 Contracting record systems.

(a) No component of the Department shall contract for the operation of a record system by or on behalf of the Department without the express approval of the Attorney General, the Deputy Attorney General, or the Assistant Attorney General for Administration.

(b) Any contract which is approved shall contain the standard contract requirements promulgated by the General Services Administration to ensure compliance with the requirements imposed by the Privacy Act. The contracting component shall have responsibility for ensuring that the contracter complies with the contract requirements relating to privacy.

§ 16.56 Use and collection of social security numbers.

(a) Each system manager of a system of records which utilizes Social Security numbers as a method of identification without statutory authorization, or authorization by regulation adopted prior to January 1, 1975, shall take steps to revise the system to avoid future collection and use of the Social Security numbers.

(b) The head of each component shall take such measures as are necessary to ensure that employees authorized to collect information from individuals are advised that individuals may not be required to furnish Social Security numbers without statutory or regulatory authorization and that individuals who are requested to provide Social Security numbers voluntarily must be advised that furnishing the number is not required and that no penalty or denial of benefits will flow from the refusal to provide it.

§ 16.57 Employee standards of conduct.

(a) Each component shall inform its employees of the provisions of the Privacy Act, including the Act's civil liability and criminal penalty provisions. Each component also shall notify its employees that they have a duty to: (1) Protect the security of records, (2) ensure the accuracy, relevance, timeliness, and completeness of records, (3) avoid the unauthorized disclosure, either verbal or written, of records, and

(4) ensure that the component maintains no system of records without public notice.

(b) Except to the extent that the Privacy Act permits such activities, an employee of the Department of Justice shall:

(1) Not collect information of a personal nature from individuals unless the employee is authorized to collect such information to perform a function or discharge a responsibility of the Department;

(2) Collect from individuals only that information which is necessary to the performance of the functions or to the discharge of the responsibilities of the Department;

(3) Collect information about an individual directly from that individual, whenever practicable;

(4) Inform each individual from whom information is collected of: (i) The legal authority that authorizes the Department to collect such information, (ii) the principal purposes for which the Department intends to use the information, (iii) the routine uses the Department may make of the information, and (iv) the practical and legal effects upon the individual of not furnishing the information;

(5) Maintain all records which are used by the agency in making any determination about any individual with such accuracy, relevance, timeliness, and completeness as to ensure fairness to the individual in the determination;

(6) Except as to disclosures to an agency or pursuant to 5 U.S.C. 552a(b)(2), make reasonable efforts, prior to disseminating any record about an individual, to ensure that such records are accurate, relevant, timely, and complete;

(7) Maintain no record concerning an individual's religious or political beliefs or activities, or his membership in associations or organizations, unless: (i) The individual has volunteered such information for his own benefit, (ii) a statute expressly authorizes the Department to collect, maintain, use, or disseminate the information, or (iii) the individual's beliefs, activities, or membership are pertinent to and within the scope of an authorized law enforcement or correctional activity;

(8) Notify the head of the component of the existence or development of any system of records that has not been disclosed to the public;

(9) When required by the Act, maintain an accounting in the prescribed form of all disclosures of records by the Department to agencies or individual's whether verbally or in writing;

(10) Disclose no record to anyone, except a component, for any use, unless authorized by the Act;

(11) Maintain and use records with care to prevent the inadvertent disclosure of a record to anyone; and

(12) Notify the head of the component of any record that contains information that the Act or the foregoing provisions of this paragraph do not permit the Department to maintain.

(c) Not less than once each year, the head of each component shall review the systems of records maintained by that component to ensure that the component is in compliance with the provisions of the Privacy Act.

§ 16.58 Other rights and services.

Nothing in this subpart shall be construed to entitle any person, as of right, to any service or to the disclosure of any record to which such person is not entitled under 5 U.S.C. 552a.

6. An Appendix I is added to Part 16, to read as follows:

PART 50—[AMENDED]

7. Section 50.8 of Part 50 is revised to read as follows:

§ 50.8 [Amended]

(a) The Department of Justice recognizes that portions of certain investigatory files compiled by the Department for law enforcement purposes, although of significant historical interest, are nevertheless exempt from mandatory disclosure under the Freedom of Information Act, 5 U.S.C. 552, as amended. In responding to requests pursuant to that Act, it is the general policy of the Department that such files that are more than fifteen years old and that are no longer substantially related to current law enforcement activities will be processed for disclosure subject to deletions to the minimum extent necessary to protect law enforcement efficiency, personal privacy, or other legitimate interests that

would be implicated by the disclosure of such files.

(b) The policy set forth in this section shall not be deemed to constitute a waiver of any applicable exemption under the Freedom of Information Act. By providing for exemptions in the Act, Congress conferred upon agencies the discretion to grant access to exempt materials, unless otherwise prohibited. All disclosures pursuant to the policy set forth in this section are at the sole discretion of the Attorney General and of those persons to whom authority therefor may be delegated.

(c) This policy is intended to further the public's knowledge of matters of historical interest and, at the same time, to preserve the Department's law enforcement efficiency and to protect personal privacy and other legitimate interests.

Dated: March 23, 1984.

William French Smith,

Attorney General.

BILLING CODE 1505-01-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Public Land Order 6528

[A-030682, A-033854, A-049677, AA-50511]

Alaska; Transfer of Jurisdiction; Revocation of Public Land Order 1102, as Amended; Partial Revocation of Public Land Orders 1345, 1523, and 2993

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order revokes four public land orders affecting 613.19 acres of public land withdrawn for airports and military purposes. It also transfers jurisdiction of 39.97 acres of acquired land from the Department of the Army to the Department of the Interior. This action makes all the lands available for conveyance to the State of Alaska. The lands remain closed to all other forms of appropriation under the public land laws, including mining and mineral leasing, by Section 1425 of the Alaska National Interest Lands Conservation Act (ANILCA) of December 2, 1980.

EFFECTIVE DATE: March 29, 1984.

FOR FURTHER INFORMATION CONTACT: Mary Jane Clawson, Alaska State Office, 907-271-3240.

SUPPLEMENTARY INFORMATION: By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of October 21, 1976, 90 Stat. 2751; 43 U.S.C. 1714, and by Section 1425 of the Alaska National Interest Lands Conservation Act (ANILCA) of December 2, 1980; Pub. L. 96-487 (94 Stat. 2515), it is ordered as follows:

1. Public Land Order No. 1102 of March 23, 1955, as amended, which withdrew lands for use by the Department of Interior for an airport, is hereby revoked in its entirety, and Public Land Order Nos. 1345, 1523, and 2993, of October 16, 1956, October 8, 1957, and March 22, 1963, respectively, which withdrew lands for use by the Department of the Army for military purposes are hereby revoked as to the following described lands:

Seward Meridian, Alaska

T. 15 N., R. 3 W.,
Sec. 6, S½SW¼SE¼;
Sec. 7, N½SE¼;
Sec. 8, W½SW¼NW¼NW¼, W½W½SW¼NW¼, W½NW¼NW¼SW¼SW¼NW¼SW¼, W½SE¼NW¼SW¼, SE¼SE¼NW¼SW¼, S½SW¼, SW¼SE¼;
Sec. 16, fractional, lots 1, 2, and 3;
Sec. 17, fractional, lots 1, 2, 3, 5, and 6, N½NE¼.

The area described contains 613.19 acres.

2. Subject to valid existing rights, jurisdiction of the following described land, which was acquired by the United States and used by the Department of the Army for the Nike Site Bay Military Reservation, is hereby transferred to the Department of the Interior for conveyance to the State of Alaska.

Seward Meridian, Alaska

T. 15 N., R. 3 W.,
Sec. 17, U.S. Survey No. 1087.

The area described contains 39.97 acres.

3. The lands described in paragraphs 1 and 2 remain closed to operation of the public land laws, including the mining and mineral leasing laws, by Section 1425 of ANILCA.

4. The lands described in paragraphs 1 and 2 will be conveyed to the State of Alaska under the provisions of Section 1425 of ANILCA, and the North Anchorage Land Agreement, as amended.

Inquiries concerning the lands should be addressed to the Chief, Branch of Lands, Bureau of Land Management, 701 "C" Street, Box 13, Anchorage, Alaska 99513.

Dated: March 22, 1984.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 0 and 1

[MM Docket No. 84-1; FCC 84-87]

Compensation for Expenses Incurred in Mitigating the Effects of Cuban Interference to Services Rendered by AM Radio Stations in the United States

AGENCY: Federal Communications Commission.

ACTION: Final rules.

SUMMARY: This action establishes the requirements for compensation to United States AM radio broadcasters for certain allowable expenses they incur in mitigating interference from Cuban stations.

The Radio Broadcasting to Cuba Act directs the FCC to issue regulations prescribing such requirements.

AM broadcasters who meet the requirements set forth in the new regulations will be found eligible, by the FCC, to receive compensation payments by the United States Information Agency in such amounts, up to a maximum determined by the FCC, as the USIA finds appropriate taking into account the amounts of funds that Congress may in the future appropriate for this purpose and the demand for compensation by qualifying broadcasters.

EFFECTIVE DATE: August 1, 1984.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Louis C. Stephens or Wilson LaFollette, (202) 632-7792, (202) 632-5414, Mass

Media Bureau, Federal Communications Commission.

A—Text of Section 7 of the Radio Broadcasting to Cuba Act
B—Text of new Subpart M, Part 1 of the Rules and Regulations of the Federal Communications Commission

I. Introduction

1. In a *Notice of Proposed Rule Making* adopted in this proceeding on January 4, 1984, 49 FR 1091, the Commission invited comments on proposed regulations mandated by section 7 of the Radio Broadcasting to Cuba Act ("the act")[1] Section 7 provides for a program of interim assistance to U.S. AM radio broadcasters in the form of compensation for allowable expenses incurred in mitigating the effects of interference from Cuban stations, and directs the Federal Communications Commission to issue regulations and establish the procedures for providing such compensation. Having considered this matter in light of the comments and reply comments filed in this proceeding, we now adopt the regulations set forth in Appendix B.

[1] Pub. L. No. 98–111, 97 Stat. 749 (Approved Oct. 4, 1983). Section 7 of this Act is set out in full in Appendix A.

II. Background

2. As we observed in the *Notice* inaugurating this proceeding, efforts so far have failed to resolve the problem of longstanding and shifting patterns of interference to AM radio broadcast stations in the United States by Cuban stations. It started before Cuba gave notice in November, 1980, of its intent to withdraw from the North American Regional Broadcasting Agreement as of November, 1981. It has worsened since Cuba withdrew from the Regional Administrative Radio Conference, Rio de Janeiro, 1981 and declined to sign the Final Acts of that conference (hereinafter sometimes referred to as "the Rio Final Acts"), which established a Region 2 Plan for mutual protection of the AM services of participating Western Hemisphere countries.

3. The Radio Broadcasting to Cuba Act recognizes that the eventual solution is to be sought by negotiating a settlement of U.S. claims to protection against Cuban interference, and the Act looks to the Secretary of State to pursue such a settlement. Meanwhile, the Act calls for the establishment of a program of interim assistance to the United States broadcasters who are adversely affected by Cuban radio interference and who, before, on, or after the date of its enactment (October 4, 1983) incur expenses in mitigating such interference pursuant to special temporary authorizations (STAs) issued by this Commission.

III. Commenting Parties

4. Comments and Reply Comments were filed by the below-listed parties:

United States Information Agency (USIA).		X

In deciding upon the regulations set forth in Appendix B, hereto, we have carefully considered the foregoing comments and reply comments. Their substance is noted in the following discussions of the several questions involved.

IV. Discussion

5. *Definition of Cuban Interference.* In AM broadcasting, both domestically and internationally, the presence or absence of interference is customarily determined by whether, at the point of reception, the field strength of the signals of other co-channel or adjacent-channel stations exceeds a stated ratio with respect to the signals of the protected station. The ratios generally applicable among the several countries of the Western Hemisphere are those set out in the Final Acts of the Regional Administrative Radio Conference on Medium Frequency Broadcasting in Region 2, Rio de Janeiro, 1981. Our proposal to use this standard was generally supported by commenting parties. The comments filed jointly by the Florida Associations referred to departures from the provisions of the North American Regional Broadcasting Agreement (NARBA). However, while NARBA at one time prescribed the ratio applicable as between Cuba and the United States, it no longer governs.

6. We believe that the Final Acts of the 1981 AM Conference at Rio de Janeiro provide the appropriate standard to apply in making findings concerning Cuban interference for the purpose of determining eligibility for compensation under Section 7 of the Radio Broadcasting to Cuba Act. Cuba, as a Member of the International Telecommunication Union, has agreed not to cause "harmful interference" to the radio stations of other Members. The United States is an ITU Member. The term "harmful interference" is defined in the ITU Convention as "interference * * * which seriously degrades,

obstructs or repeatedly interrupts a radiocommunication service operating in accordance with the Radio Regulations." The Rio Final Acts, comprising an ITU Regional Agreement that has been signed by most countries of the Western Hemisphere (ITU Region 2), establish the norms generally applicable in Region 2 for determining when radiation exceeds a generally acceptable level and is considered to cause "objectionable interference." Under the ITU Radio Regulations this quantfied standard is applied, in lieu of the more loosely defined concept of "harmful interference, in determining whether signatories to a Regional Agreement are providing due protection to the stations of the other signatories. Cuba has not signed or adhered to the Rio Final Acts, but this is not to say that the interference standards established in that document are irrelevant or inapplicable to Cuba. The standards established in the Final Acts provide the appropriate basis for quantifying the level of radiation, from a non-signatory to the Rio Final Acts toward stations in any other country in the Western Hemisphere, that may reasonably be considered as likely to cause "harmful interference" within the meaning of the ITU Radio Regulations that do apply to Cuba. In fact, we would find it difficult to understand the justification for quantifying "harmful interference" from any non-signatory in Region 2 toward any other Western Hemisphere country otherwise than by applying the standards that most countries in this Hemisphere have agreed to apply in determining when radiations reach an objectionable level. We therefore consider it appropriate to apply the norms of the Rio Final Acts in determining whether radiations from Cuba toward AM stations in the United States constitute interference for the purposes of the Section 7 program of compensation to affected American broadcasters. We so provide in Section 1.1702 of the new regulations.

7. One result is that, in determining whether Cuban stations cause skywave interference to AM stations in the United States, we employ the 50% skywave signal incidence standard of the Rio Final Acts rather than the 10% standard that is applicable as among stations within the United States. This approach was supported by the NTIA and other parties, but was objected to in comments filed by the Florida Associations, who contend that because the Commission employs the 10% skywave signal incidence factor for other domestic purposes, it should similarly treat interfering Cuban skywave signals. We believe, however, that for the purpose of the program of compensation under Section 7 of the Act, which concerns interference from another country, it is more appropriate to apply the pertinent international standard.

8. *Method for Calculating the Level of Cuban Interference.* It is usually possible to base calculations of the level of interference on the locations of the interfering stations and known operating parameters such as power and antenna radiation pattern. It has been evident for some time, however, that numbers of Cuban stations are not operating with announced facilities, but are in fact employing powers and other station characteristics different from those reflected in regularly available data. Discrepancies between reported and actual operating powers have been apparent in the results of the Commission's monitoring of received field strengths of Cuban signals at locations within the United States, especially at its Fort Lauderdale monitoring station. In these circumstances, it will be necessary, in determining the power levels of Cuban AM transmissions for the purposes of the Section 7 compensation program, to establish a method that can appropriately be used for calculating such powers until Cuba comes into conformity with the established international practices concerning the announcement of proposed changes in frequency assignments and the avoidance of harmful interference to stations in other countries.

9. In paragraph 21 of the *Notice of Proposed Rule Making,* we recognized the need for periodic monitoring, at suitable locations, of the field strengths of the signals of Cuban stations on all 107 AM channels. Data so accrued, together with appropriate determinations as to the directions from which those Cuban signals are coming, will make it possible to estimate the powers and locations of Cuban AM stations. From the powers and locations so estimated and using the methods prescribed in the Rio Final Acts, it will be possible to predict the levels of interference caused by Cuban AM stations. The data so obtained will not only permit determinations of whether interference reaches the minimum levels qualifying licensees for compensation, but will also provide verified, documented, and consistently compiled particulars concerning Cuban operations on all 107 AM channels that will be indispensable to resolution of the Cuban interference problem that Section 7(a) expressly intends that the Secretary of State should seek.

10. The USIA recommended that the presence of Cuban interference be verified by continuous measurements taken on the periphery of the station's primary service area, that the interference be clearly identifiable and audible above other common noises, and that calculations of probable effects of monitored Cuban signals not be considered sufficient. It is pertinent to bear in mind that the limitations that are placed on compensation both by Section 7(b) of the Act and § 1.1708 of the new regulations will make it necessary for recipients of compensation to bear very substantial amounts of the costs involved in making the necessary facilities changes. For this reason, it is unlikely that AM broadcasters will embark on facilities changes unless significant interference is experienced on a scale that impinges harmfully on the service the station is able to render. The regulations contain safeguards against including in the compensation program facilities changes made for purposes other than recovering service lost to Cuban interference, such as to enlarge service areas beyond their previously established interference-free contours. In these circumstances, we have difficulty justifying the additional burdens and costs that would be associated with the kinds of showings of "actual" interference that the USIA proposed be required. The industry's responses to the Commission's invitation that it participate in the procedures necessary to carry out the program, including monitoring, was predominantly negative. One comment suggests that the cost of administration could be reduced if the task of administration program were contracted out. However, no analysis to support this view was provided in the comment.

11. We had proposed that monitoring for the purpose of determining the *existence* and the *level* of Cuban interference be conducted semimonthly. (We discuss later, in paragraphs 18 to 21 the differently structured monitoring methods proposed for the separate purpose of determining the *incidence* or *duration* of such interference.) The NTIA recommended that the monitoring from which the levels of Cuban interference would be determined be conducted much more frequently than semimonthly, in fact, as frequently as daily. That would increase the cost of such monitoring enormously and would be beyond the foreseeable resources of the Commission. Moreover, we do not believe that routine monitoring as detailed and voluminous as that is

necessary for reasonable implementation of the program of compensation established in Section 7 of the Act. Also, we do not believe that it would be necessary to carry out the purposes of other parts of the Act. In particular cases it may become appropriate to monitor more frequently than semimonthly. Within the capacities of available staff and equipment, that could be done on an *ad hoc* basis. The NTIA also expressed its concurrence with the technical procedures the Commission proposed for determining the locations and powers of Cuban AM stations, but cautioned that it may be desirable to correct the measured field strength data for the non-sea portions of the paths, and to take care that measured signals are not contaminated by other signals arising outside Cuba, or by skywaves. We agree. The procedures for monitoring were planned accordingly.

12. *Minimum Level of Interference Qualifying Licensees for Compensation.* As we observed in the *Notice,* the legislative history of the Act indicates that Congress intended that the FCC establish a threshold level of interference in order to qualify an applicant for compensation under Section 7. We proposed that such threshold level be established as follows. The applicant, presuming that the interfering Cuban station operates at the power and at the location derived by baseline studies of the monitoring data obtained as described in paragraph 10, above, and employing the methods of calculation prescribed in the Rio Final Acts, would determine what portion of its otherwise interference-free primary or secondary service area is subjected to Cuban interference. We proposed that the applicant would meet the required threshold level of interference only if the population in the area so subjected to Cuban interference totaled at least 10% of the population within the area in which the station would render interference-free primary or secondary service were it not for the Cuban interference. Most of the parties addressed this proposal.

13. The comments generally supported a requirement that the interference have some defined minimum level of impact. However, almost all of them advocated that holders of previously issued STAs to mitigate Cuban interference should be exempted from the requirement. Affected stations that expended substantial amounts of money for facilities changes to mitigate the effects of Cuban interference may be presumed to have been more than negligibly affected. This is supported by showings of interference submitted by applicants for STAs issued before the compensation program was contemplated. Thus in their case, separate, detailed, after-the-fact showings would not be needed. Their preparation and review would impose a needless burden. We agree, and have provided for such exemption in § 1.1706(b) of the new regulations.

14. The *Notice* Proposed a required showing of interference to 10% of the total *population* within the station's service area. The parties preponderantly advocated that, instead, applicants be permitted to do so in terms of interference to at least 10% of their otherwise interference-free service *areas.* It was pointed out, in response to our reference in the *Notice* to the example of the Florida Everglades as an area of limited population, that there are some local residents and some travelers needing radio service in that sparsely settled area. It was contended that the compensation program should embrace restoration of service to less densely settled areas as well as to the more densely populated places. We disagree. Station licensees are free to seek authorization for facilities changes that will restore service in any areas lost to Cuban interference without in turn interfering with other stations entitled to interference protection. However, Section 7 was not intended to provide full compensation for all costs incurred to mitigate Cuban interferene. The language of the statute and its legislative history indicate, rather, that it was intended to provide some assistance in cases where threshold requirements established by this Commission are met. Taking all pertinent circumstances into account, including the need to moderate the costs of the program, and the desirability of applying available funds so that they will benefit the largest numbers of persons subjected to interference, we have found it preferable to retain the population basis for determining whether applicants who are not exempted meet the 10 % service impact requirement.

15. The USIA, Susquehanna Broadcasting Co., and Ronald F. Schatz advocated that only interference to the primary service areas of affected stations be taken into account for purposes of compensation under Section 7. The Clear Channel Broadcasting Service, on the other hand, urge that it would be inappropriate not to include interference to secondary service areas. Specifically, CCBS states that, although it may not be possible to restore service to all affected parts of a Class I station's secondary service area, there are considerable numbers of persons dependent upon skywave signals for nighttime aural broadcast service, and excluding consideration of interference to secondary service areas would not be appropriate. We agree, and have drafted the regulations accordingly.

16. The USIA proposed raising the threshold still higher than the 10% level we had proposed. USIA proposed requirements that the measured harmful interference be shown to have increased by 50% or more since October 4, 1982 (one year before approval of the Act), that such interference have caused a reduction of 20% or more in the actual listening audience, and that it have caused a reduction of 10% or more in the station's revenues. The last mentioned requirement raises questions that we would be at a loss to answer. Many factors affect fluctuations in station revenues (for example, changes in economic conditions, programming changes, the competitive draw of programming offered by other stations, changes in management personnel or techniques). Even if it were possible to isolate the factor of Cuban interference, we believe that carrying out the necessary intensive economic and financial analyses of all the pertinent factors would be too time-consuming and burdensome, and require an unjustified addition of staff qualified to perform such analyses.

17. Measuring reduction in the listening audience as suggested by the USIA would require repeated, expensive, special surveys, and it is unclear how audience losses could be reliably attributed to the single factor of Cuban interference, when so many factors are known to bear on fluctuations in audience levels. Additionally, we do not find that the suggested requirement of a 50% increase in the level of interference would be justified. If Cuban stations are shown to cause interference in that part of a station's service area where at least 10% of the total population in the otherwise interference-free service area reside, it is realistic to consider that both the service and economic well-being of the station are significantly affected. We believe it is consistent with the intent of Congress that, in such circumstances, a station licensee who incurs expenses for mitigating such interference should be considered as eligible for the limited amount of compensation for which the regulations provide. Taking all the foregoing considerations into account, we believe it desirable, in the interests of economical administration of the program, to adhere to the proposal in the

Notice that the threshold requirement as to the *level* of received interference be established at 10% of the served population, and that the attainment of that level be calculated in the manner previously discussed in this *Report and Order* and provided for in §§ 1.1702, 1.1703 and 1.704(a) of the new regulations.

18. *Minimum Duration of Interference Qualifying Licensees for Compensation.* The legislative history of the Act indicates Congressional intent that the FCC consider threshold requirements not only as to the *level* of interference experienced from Cuban stations, but also as to its *duration.* (See section-by-section analysis of the Act placed in the Congressional Record by Representative Fascell, of Florida, Congressional Record for September 23, 1983, at page H 7680.) The *Notice* proposed that duration of the Cuban interference be shown by logged monitorings of Cuban signals by the station licensees within the affected portion of their service areas or, in some cases, near the station's transmitter. The NTIA urged that such monitorings be performed by the FCC, rather than by the stations. While this would be one way to assure consistent performance of the monitoring in accordance with accepted engineering practice, the task is beyond the resources that are available, or could be expected to be made available, to the Commission. Monitoring to show *duration* of the Cuban interference (as compared with its level) will be required on sixty consecutive days, in some cases both during daytime and nighttime hours. The Commission lacks the staff and equipment that would be necessary to monitor Cuban signals that many times, and at diverse station locations. The FCC staff will be prepared, however, if and when circumstances call for spot checks or reviews of monitoring conducted by station licensees, to perform such checks. In any event, the FCC staff will closely control the monitoring referred to in paragraph 10, above, that will be performed to establish the *levels* of radiation reaching the United States from Cuban stations on all 107 AM radio broadcast channels. This, it is believed, will provide an adequate and appropriate factual basis for future discussions envisaged for the purpose of resolving the problem of Cuban interference. Bearing in mind the limited purpose of monitoring by station licensees, the requirement that it be performed in accordance with good engineering practice, the review that the Commission will perform in order reasonably to assure that proper standards are observed, and the impossibility of the FCC taking on this additional monitoring task, we believe it desirable to adopt essentially the requirements proposed in the *Notice* with respect to monitoring to be performed by station licensees.

19. The Florida Associations urged that the burden on station licensees of performing the prescribed monitoring over a period of sixty days should be relieved by requiring that it be performed for only thirty days. It must be borne in mind that the purpose of the monitoring by licensees is to determine whether the interference is only sporadic or temporary, or is of sufficient duration to warrant compensation for part of the costs of facilities changes to mitigate its effects. Even sixty days is short for this purpose, but we proposed that period in order to economize on the time and expense of performing this task. We believe that any shorter period would be inappropriate, taking into account the additional fact that, insofar as nighttime skywave interference is concerned, the variability of skywave transmissions necessitates at least a sixty-day monitoring period.

20. The Florida Associations proposed that stations previously authorized to make facilities changes to mitigate Cuban interference be exempted from the requirement of monitoring to show *duration* of interference. The same considerations that we found to justify such stations from showings of the *level* of Cuban interference make it appropriate to apply the exemption also to showings of its duration. Section 1.1706(b) of the new regulations accordingly provides for it. We believe this to be appropriate even in cases where interference on which earlier STAs were based might be shown to have abated. The Act contemplates that the interference should be resolved, that the facilities changes authorized to mitigate it are temporary in nature, and that holders of STAs issued before the enactment of Section 7 may be called upon to return to their previous facilities without further compensation at such time as the interference is definitively removed. Thus, there is a need for a showing of duration of the interference in new cases, so that compensation will not be provided in cases of random or insubstantial interference. However, we find that no useful purpose will be served by requiring showings by stations that have already experienced interference of sufficient duration to justify their outlay of substantial sums for temporarily changed facilities, under previously issued STAs, before compensation by the Federal Government was contemplated.

21. Several parties recommended that the regulations make clear that monitoring efforts for the purpose of showing duration of interference be set up separately for interference experienced during the daytime and during nighttime hours. That is appropriate and consistent with the intent of the *Notice,* and § 1.1705 so provides. The requirement is that the interference be detected on at least thirty of the sixty days of prescribed monitoring by the station licensee, at least once during the prescribed daytime or nighttime hours, or both, as the case may be.

22. *Compensable costs: General Considerations.* The intent that the costs incurred in mitigating the effects of Cuban interference be compensated partially, rather than fully, is clearly evident not only in Section 7 of the Act, but also in its legislative history. The section-by-section analysis of the Act that Representative Dante Fascell placed on the record during remarks in the course of the floor debate on September 23, 1983 states, at page H 7680 of the Congressional Record: "The Commission may also consider establishing limits on the type and extent of reimbursable expenses." The USIA points out that the $5 million authorized for the Section 7 program may be expected to cover certain administrative costs as well as compensation payments. It further notes that no funds have yet been appropriated for these purposes, and counsels the need to moderate the size of compensation payments. In prescribing the kinds of costs that will be compensable, and the extent to which they may be compensated under this program, we have applied the limitations expressly laid down in the statute. Moreover, in exercising the discretion conferred on the Commission, we have endeavored to give due weight to considerations urged upon us by the parties. The paramount consideration, we believe, is provided by the current Federal budgetary deficit and the need it imposes to avoid undue demands on the Federal Treasury, while at the same time giving due effect to the Congressional purpose of providing some assistance to affected broadcasters. The American Legal Foundation recommended, in substance, that the Commission make a study of probable demand before establishing the requirements for compensation; but the statutory deadline for issuing the implementing regulations precludes that approach. With the objective of achieving an appropriate balance among all the pertinent considerations, we have

arrived at the following decisions as to the kinds and amounts of expenses that the new regulations should treat as compensable.

23. *Compensable Costs: Replaced Equipment.* In the *Notice of Proposed Rule Making* we considered the express provision of Section 7(b) that expenses eligible for compensation "shall be limited to the cost of equipment (replaced, less depreciation) and associated technical and engineering cost." We initially construed the quoted language as requiring that the amount of depreciation taken for income tax purposes on existing equipment that is replaced by new facilities must be subtracted from otherwise compensable equipment costs. We accordingly proposed to treat as compensable that part of the cost of new equipment remaining after subtracting the depreciation taken on replaced equipment. The USIA commented that, in its view, the legislation bars compensation for capital outlays for new equipment. It recommends that compensation for equipment be limited to the cost of "equipment replaced less depreciation."

24. We accept USIA's interpretation as conforming more closely to the literal language of the statute than the one we initially proposed in the *Notice*. It is pertinent to note that more direct, less debatable language could have been used to make the costs of new equipment expressly compensable, rather than the language in the Act, whose only express reference to includible equipment is to "replaced" equipment, i.e., existing equipment that is replaced by the new facilities. The legislative history is not helpful on this point.

25. Apart from the question of whether the Act bars inclusion of the costs of new equipment, is the probability that, at least in most cases, the basis proposed by the USIA will result in lower compensation than if the cost of new equipment were included. Upon further consideration, we have so drawn Section 1.1708 of the new regulations. We have, at the same time, balanced the resultant reduction in compensation by allowing compensation for the full amount of includible costs (within a $250,000 ceiling), rather than allowing only 50% of such costs, as we originally proposed. Although this may not be expected to offset fully the probable resultant net diminution of compensation, we believe that the course we have adopted properly carries out the mandate of the Act, and reasonably balances the objectives of providing some meaningful assistance to affected broadcasters, while duly moderating resultant demands on the Federal Treasury. Additionally, it will be simpler and more economical to administer.

26. *Compensable Costs: "Associated Technical and Engineering Costs."* The new regulations do not provide for compensation for outlays to acquire and install or construct new equipment, but they do permit compensation for "associated technical and engineering costs" that are provided for in the Act. These costs include out-of-pocket expenditures prudently made to carry out the planning, designing, engineering and testing of new facilities that are reasonably needed to mitigate the effects of Cuban interference, and to carry out monitoring that the regulations call upon station licensees to conduct. Licensees who received FCC authorizations to make such facilities changes before the new regulations prescribing monitoring requirements were adopted may seek compensation, provided they can demonstrate that the costs which they seek to have reimbursed were reasonable and prudently incurred previously in monitoring Cuban signals in order to obtain factual data that they presented to the FCC in support of their requests for such FCC authorizations. We believe that these are reasonable and appropriate conditions to impose on compensation for monitoring. To this extent we do not concur with the recommendation of Sudbrink Broadcasting Company that the costs of taking field strength measurements be compensated, with no qualifying conditions. Sudbrink also recommended that we include the costs of studying alternatives to the facilities changes made to mitigate Cuban interference. We do not consider this appropriate for generalized approval by regulation. Instead, we believe that it would be preferable to consider, on the facts of individual cases, whether the expenses so incurred should be accepted as reasonable and prudent, and otherwise suitable for compensation.

27. *Non-Compensable Costs: Land.* It may be impossible in some cases to construct necessary directional antenna systems on land already owned or used by an affected station for its transmitter and antenna tower(s). This would necessitate the acquisition, or possibly the leasing, of additional land to accommodate new transmission facilities. In the *Notice*, we proposed to exclude land costs as non-compensable. For one thing, it appeared doubtful that land came within the allowable categories of expenses to which compensation was limited by Section 7(b) of the Act. Susquehanna Broadcasting Company supported the proposed exclusion of land costs from compensation. Ronald F. Schuatz recommended in his Reply Comments that land costs be treated as compensable. The NTIA suggested that the ground on which antenna towers are erected, and which contains the essential ground system, should be considered part of the antenna and thus eligible for compensation. The NTIA also suggested that the cost of purchasing land should be allowed, at least in cases where it could not have been obtained by lease. We believe, however, that it would be unduly costly, burdensome, and beyond the Commission's resources to attempt to determine whether it would have been possible, upon adequate search of the entire area where the antenna might be located, to find land that the owners would be willing to lease. Collateral questions would be likely to arise, such as whether the costs of available leases were reasonable, or so excessive as to warrant purchase. The reasonableness of the price paid for land, and its residual value if its use were discontinued upon cessation of the interference, are questions illustrative of numerous others that we believe would arise and unduly complicate the administration of a provision permitting compensation for the cost of land. The Florida Associations proposed that the cost of leasing land, but not its purchase, be compensable. For reasons similar to those already stated, we consider this undesirable, apart from the fact that it is doubtful that the Act intended to make any land costs compensable, whether incurred for lease or purchase.

28. *Non-Compensable Costs: Legal Fees.* Plough Broadcasting Company disagreed with our proposal to treat legal fees as non-compensable, arguing that the Act may reasonably be construed as intending to provide compensation for legal fees when they are incurred in connection with the facilities changes necessitated by Cuban interference. We disagree. Legal fees do not come within the ordinarily understood meaning of the statutory terms used to describe the costs to which compensation is expressly limited: i.e. certain "equipment" costs, and the costs of "associated technical and engineering expenses." Accordingly, we have adhered to our proposal not to treat legal fees as compensable.

29. *Successive Facilities Changes.* Ambassador Diana Lady Dougan, Coordinator of International Communications and Information

Policy, Department of State, commented that it would be desirable that the regulations make clear whether a station licensee that had already been awarded compensation for expenses incurred in mitigating Cuban interference would be eligible for additional compensation if additional facilities changes were found later to be necessary to overcome the effects of further changes in the operating parameters of Cuban stations. The USIA recommended that such additional compensation be expressly barred, and that applicants be limited to compensation for only one such change of station facilities. We note in this regard that, after an initial modification, there would usually be relatively limited opportunity to make further changes that would not cause prohibited interference to other stations. There is, moreover, a limit on the capacity and the desire of Cuba to continue indefinitely to make changes in the pattern of its broadcast transmissions, considering the effects of changes in station frequencies and powers on services provided to Cuban listeners. We believe that it would be more equitable, and in keeping with the intent of the statute, that we deal individually with any applications that may be filed for compensation arising out of changes made after previous modifications for which compensation had been allowed. We would not expect that such additional compensation could be justified except in unusual and highly meritorious circumstances.

30. *Eligibility Confined to Stations Directly Affected.* It would, in our opinion, carry the compensation program beyond the intent of Congress to compensate expenses incurred, not for changes to affected stations, but for changes to other stations that would be necessitated by the remedial action taken by directly affected stations. This could lead to indefinite "daisy-chaining" effects that could multiply the costs far beyond those contemplated by Congress. It would, moreover, be contrary to Commission policy to grant authorizations for facilities changes that would cause prohibited interference to other stations.

31. *Ceiling on Compensation.* The Notice proposed to limit compensation of 50% of the amounts expended for compensable kinds of costs, up to a maximum of $250,000 in each case. Commenting broadcasters and associations opposed both these limitations. The USIA felt that compensable expenses should be limited to the lesser of the $250,000 ceiling or 20% of the fair market value of the station at the time the claim was made. We feel that the views of the USIA, as the agency charged by the Act with responsibility for making compensation payments under Section 7, are entitled to great weight. We believe, however, that it would be undesirable for this Commission to attempt to assay the market value of stations. Our decision to adopt the USIA's more restrictive proposals concerning allowance for equipment costs goes a long way toward achieving the underlying objective of moderating the costs of the program to the Federal Treasury. It appears probable that, if we were to curtail further the already substantially reduced basis for determining the amount of compensation payments, the amount of compensation would be reduced below levels intended by Congress.

32. *Priorities.* In the *Notice* we proposed to classify applications for compensation into three priority groups, and to sequence the applications within each of those groups. Insofar as the comments addressed the proposal, they generally concurred with it. Section 1.1710 of the new regulations contains essentially the proposed provisions. It should be understood, however, that the classification of an application within one of the three priority groups, and its sequencing within that group, does not establish a definitive entitlement to the payment of the amount of compensation in the full amount for which the FCC has found the applicant to be eligible. Nor, for the following reasons, would such finding by the Commission necessarily entitle applicants to receive compensation in the established priority sequence.

33. As provided in § 1.1710(e) and 1.1711 of the new regulations, the FCC will inform the USIA of its findings as to the applicant's eligibility for compensation, and as to its priority classification. That finding is provided for the information of the USIA, upon whom the Act confers the responsibility and the authority to make the compensation payments. Under the Act all appropriations of funds for the compensation payments are made to the USIA as the paying agency. The FCC will make determinations as to whether applicants meet the requirements of the Act and of the regulations for eligibility for compensation, and will determine the maximum amounts for which they qualify. But the Commission will not make the compensation payments or manage the funds that the Act provides will be appropriated to the USIA for this purpose. Since it cannot be known in advance whether funds will be appropriate in sufficient amounts to cover fully the aggregate amounts of compensation for which applicants are found eligible by the FCC, the question of whether the amount for which applicants are found eligible can or should be reimbursed fully, and in a single payment, are questions that must be determined by the USIA.[3]

34. It could happen that, if and when funds are appropriated, they might be insufficient to cover all of the amounts for which applicants will have been found eligible in the sense that they have been found to have satisfied the requirements of the Act and the implementating regulations. It is also possible that developments may expand the foreseeable demand for compensation beyond originally indicated levels, and beyond the amounts of funds that have been appropriated, or for which appropriations may be expected to be provided. In such cases, it may become necessary for the USIA to apportion available funds in some manner, thus making temporary or permanent payments of only some portion of the amounts of compensation for which the FCC has determined applicants to be eligible.

35. An additional reason why the prioritities established by the FCC cannot constitute a definitive entitlement arises from the fact that the priority group in which an application falls, and the sequence within the group, will be made initially when the FCC makes the provisional finding of eligibility under § 1.1711(a). Such provisional finding is issued before the new facilities are acquired and installed or constructed. Circumstances may intervene that would delay the construction and the consequent issuance of the definitive eligibility finding under § 1.1711(b). It would not be proper that earlier applicants who delay carrying out facilities changes be able to block the payment of compensation to later applicants who are found to be eligible, promptly install the new facilities, make all required showings, provide all required documentation and meet all other requirements for compensation in timely fashion.

36. Taking all the foregoing considerations into account, including uncertainty as to whether appropriated funds will be available to cover the entire amounts of compensation for which applicants will have satisified

[3] Although $5 million has been authorized to fund this compensation program, no funds have yet been appropriated for it. Without such appropriation, compensation payments cannot commence.

eligibility requirements, the Commission has concluded that it is appropriate to handle priorities as provided in § 1.1710(e) of the new regulations. Specifically, the Commission will initially designate each application as falling within the First, Second or Third Priority group, and will indicate its sequence within that group. Such determinations will be notified to the applicant and the USIA. This will provide the USIA with the particular information it would need if, in the performance of its function as the paying agency, the USIA found it possible and desirable to exercise its discretion so as to apply the priority ranking and sequence established by the FCC.

V. Order

37. Accordingly, pursuant to authority found in Section 7 of the Radio Broadcasting to Cuba Act, Section 553 of the Administrative Procedure Act, as amended, and Section 4(j) of the Communications Act of 1934, as amended, it is ordered, that, effective August 1, 1984, the regulations appended hereto and designated as Subpart M of Part 1 of the Rules and Regulations of the Federal Communications Commission are adopted.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

William J. Tricarico,

Secretary.

Appendix A—Text of Section 7 of the Act

Section 7 of the Radio Broadcasting to Cuba Act, Pub. L. 98–111, 97 Stat. 749, (1983) provides as follows:

Sec. 7. (a) It is the intent of the Congress that the Secretary of State should seek prompt and full settlement of United States claims against the Government of Cuba arising from Cuban interference with broadcasting in the United States. Pending the settlement of these claims, it is appropriate to provide some interim assistance to the United States broadcasters who are adversely affected by Cuban radio interference and who seek to assert their right to measures to counteract the effects of such interference.

(b) Accordingly, the agency may make payments to the United States radio broadcasting station licensees upon their application for expenses which they have incurred before, on, or after the date of this Act in mitigating, pursuant to special temporary authority from the Federal Communications Commission, the effects of activities by the Government of Cuba which directly interfere with the transmission or reception of broadcasts by these licensees. Such expenses shall be limited to the costs of equipment (replaced less depreciation) and associated technical and engineering costs.

(c) The Federal Communications Commission shall issue such regulations and establish such procedures for carrying out this section as the Federal Communications Commission finds appropriate. Such regulations shall be issued no later than one hundred and eighty days after enactment of this Act.

(d) There are authorized to be appropriated to the Agency [United States Information Agency], $5,000,000 for use in compensating United States radio broadcasting licensees pursuant to this section. Amounts appropriated under this section are authorized to be available until expended.

(e) Funds appropriated for implementation of this section shall be available for a period of no more than four years following the initial broadcast occurring as a result of programs described in this Act.

(f) It is the sense of the Congress that the President should establish a task force to analyze the level of interference from the operation of Cuban stations experienced by broadcasters in the United States and to seek a practical political and technical solution to this problem.

(g) This section shall enter into effect on October 1, 1984.

Appendix B

PART 0—[AMENDED]

Section 0.61 of Part 0 of the Rules and Regulations of the Federal Communications Commission is amended by adding new paragraph (i), reading as follows:

§ 0.61. [Amended]

* * * * *

(i) Process applications for compensation submitted pursuant to Subpart M, Part 1 of this chapter.

PART 1—[AMENDED]

Part 1 is amended by adding a new Subpart M to read as follows:

* * * * *

Subpart M—Implementation of Section 7 of the Radio Broadcasting to Cuba Act: Compensation of Costs of Mitigating Cuban Interference

Sec.

1.1701 Purpose.
1.1702 Definition of Cuban interference.
1.1703 Method for calculating the level of Cuban interference.
1.1704 Minimum level and duration of interference qualifying licensees for compensation.
1.1705 Method for determining duration of Cuban interference.
1.1706 Waivers and exceptions.
1.1707 Required FCC authorizaton for modification of station facilities.
1.1708 Compensable costs.
1.1709 Requirements for filing applications for compensation.
1.1710 Priorities.
1.1711 Provisional and definitive findings of eligibility.
1.1712 Review of findings.

Authority: Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.

Subpart M—Implementation of Section 7 of the Radio Broadcasting to Cuba Act: Compensation of Costs of Mitigating Cuban Interference

§ 1.1701. Purpose.

(a) The regulations in this Subpart implement Section 7 of the Radio Broadcasting to Cuba Act, Pub. L. 98–111, 97 Stat. 749 (1983). That statute is referred to in this Subpart as "the Act."

(b) Section 7 of the Act provides for the payment of compensation by the United States Information Agency (USIA) to radio broadcast station licensees for allowable expenses they incur in mitigating interference from Cuba to the broadcast service they provide. Subsection 7(c) directs the Federal Communications Commission to issue appropriate regulations and establish procedures for carrying out Section 7.

(c) The regulations in this Subpart M establish the standards, requirements, and procedures that the Federal Communications Commission will apply in making findings as to whether applicants for compensation under Section 7 of the Radio Broadcasting to Cuba Act qualify for it, and if they do, in what amounts. The Commission will transmit those findings to the USIA for guidance in the discharge of the responsibility that the Act places upon the USIA to make such compensation payments.

§ 1.1702. Definition of Cuban interference.

For the purposes of this Subpart M, Cuban interference to a United States AM broadcast station is radiation from a radio transmitter in Cuba at a level that, under the provisions of the Final Acts of the Regional Administrative Radio Conference, Rio de Janeiro 1981, ("the Rio AM Agreement") would be treated as causing objectionable interference if it occurred between signatory countries.

§ 1.1703. Method for calculating the level of Cuban interference.

(a) The FCC will prepare, periodically update, and make publicly available a list of Cuban stations known to be operating on the 107 channels allocated for AM broadcasting. The list will show the location and calculated operating power of each Cuban station.

(b) In order to obtain the data needed to calculate the power of Cuban stations, the Commission will arrange for the monitoring of the groundwave signals of Cuban AM stations at suitable locations. The field strengths of the

signals of Cuban stations operating on all 107 AM channels and the directions from which they are transmitted will be logged as nearly semi-monthly as practicable. The data so obtained will be used in making studies on the basis of which the location and transmitter power of each Cuban station will be calculated.

(c) In order to determine the existence and level of interference to United States AM radio broadcast stations for the purposes of this subpart, Cuban stations will be presumed to be operating at the locations and with the powers determined in the manner stated in paragraphs (a) and (b) of this section; and the methods for calculating interference prescribed in the "Rio AM Agreement" referred to in § 1.1702 will be used.

§ 1.1704. Minimum level and duration of interference qualifying licensees for compensation.

In order to be eligible for compensation under Section 7 of the Act, the licensee of a United States AM radio broadcast station that does not come within the exception under § 1.1706(b) of this subpart must:

(a) Using the methods provided in § 1.1703(c), and treating the station's primary and secondary service areas separately, show that a Cuban station causes objectionable interference to the affected station's signals in a portion of its primary and secondary service area where at least 10% of the total population within that otherwise interference-free primary or secondary service area reside;

(b) Using the methods provided in § 1.1705, show that the signals of a Cuban station have been detected within the service area of the affected station on at least half of the days during a prescribed test period. The reception of such Cuban signals must be separately shown to occur during that part or those parts of the day (i.e., during daytime hours, nighttime hours, or both) when the interference pertinent to an application for compensation occurs.

§ 1.1705 Method for determining duration of Cuban interference.

(a) Section 1.1703 prescribes how the *existence* and *level* of Cuban interference will be determined. This § 1.1705 prescribes how the *duration* or *incidence* of Cuban interference will be determined in order to show compliance with the minimum interference "duration" requirements of § 1.1704(b).

(b) Unless the exception in § 1.1706(b) applies, applicants for compensation shall monitor and log the signals of interfering Cuban stations in the manner prescribed in paragraphs (c) through (e) of this section, and shall submit the results of such monitoring to the Commission.

(c) Using equipment and methods conforming with good engineering practice, licensees whose applications for compensation are based on Cuban interference experienced during daytime hours shall, on 60 consecutive days, take and log field strength measurements of the signal of the interfering Cuban station between two hours after local sunrise and two hours before local sunset during brief intervals when the transmitter of the affected station is turned off. Except as provided in paragraph (e)(1) of this section, measurements shall be taken within the portion of the station's otherwise interference-free service area where the calculations performed in accordance with § 1.1703(c) predict that Cuban interference will occur.

(d) Applicants who experience interference by Cuban *groundwave* signals to their primary service areas at night shall similarly take and log field strength measurements as provided in paragraph (c) above, but during nighttime hours instead of during the daytime.

(e)(1) Applicants who experience nighttime interference by Cuban *skywave* signals to the primary service areas of their Class II, Class III, or Class IV stations shall similarly take and log field strength measurements of the Cuban signals on 60 consecutive days during the nighttime hours between two hours after local sunset and two hours before local sunrise. Such measurements shall be taken in the general vicinity of the affected station's transmitter, but not so close as to experience the effects of re-radiation from the station's own tower(s).

(2) Applicants who experience nighttime interference by Cuban *skywave* signals to their Class I stations shall take measurements as prescribed in the first sentence of paragraph (e)(1), above, at locations within the affected portion of their primary service areas, unless only their secondary service is affected. In the latter case, the measurements shall be taken within the affected portion of their secondary service area.

(f) The monitoring of Cuban signals prescribed in this section is designed to provide evidence of the *duration* or *incidence* of interfering Cuban signals for the purposes of determining compliance with the 50% requirement in § 1.1704(b). Although the procedures under this section call for the measuring and recording the field strengths of Cuban signals within the affected station's service area, the Commission, when determining whether the minimum *level* of interference prescribed in § 1.1704(a) exists, will ordinarily base its findings solely on calculations performed in conformity with § 1.1703, without taking into account the field strengths recorded by station licensees under this section. However, in cases where the data obtained by monitoring performed by the licensee under this § 1.1705 reflect a consistently large, unexplained disparity from the level of interference calculated under § 1.1703, the Commission may either request the applicant to take further measurements or defer reaching a finding on the application until it reviews and reconsiders the data previously assembled and the calculations previously made under § 1.1703. The Commission will take such further action in each such case as it may find appropriate in the circumstances of the case.

§ 1.1706 Waivers and exceptions.

(a) The Commission recognizes that compliance with some of the requirements for compensation may be needlessly burdensome for licensees whose facilities were modified, for the purpose of mitigating the effects of Cuban interference, under Commission authorization issued before the regulations in this Subpart L were adopted. Accordingly, the Commission will, upon the request of applicants in such cases, consider waiving or adjusting the showings generally required to be made by applicants.

(b) Licensees who were authorized before April, 1984 to modify their station facilities for the explicit purpose of mitigating the effects of interference from Cuba are generally excepted from the requirements of §§ 1.1703, 1.1704, and 1.1705 relating to showings of minimum levels and duration of Cuba interference; provided that, such licensees shall submit such information relating to interference received by them as the Commission may find it appropriate to request in individual cases.

§ 1.1707 Required FCC authorization for modification of station facilities.

(a) Section 7(b) of the Radio Broadcasting to Cuba Act provides for compensation for expenses incurred "pursuant to special temporary authority from the Federal Communications Commission" in mitigating the effects of Cuban interference. This requirement will ordinarily be satisfied by the issuance by the Commission of an "STA" (special temporary authorization)

for the purposes of enabling the station to restore service to areas prevented by Cuban interference from receiving interference-free primary or secondary service that the station could otherwise provide.

(b) As Congress was aware, most of the authorizations issued before the enactment of the Radio Broadcasting to Cuba Act, for the purpose of mitigating the effects of Cuban interference, were in the form of STAs. Other forms of licensing have been used in a few cases for the same explicit purpose. The substance of the statutory prerequisite to compensation referred to in paragraph (a) of this section is understood to be that the licensee have been authorized by the Federal Communications Commission to make the facilities changes in question for the purpose of mitigating the effects of Cuban interference, but not that such authorization necessarily have been issued in the explicit form of an STA. The Commission will act accordingly in determining whether applicants meet the requirements of Section 7(b) of the Act.

§ 1.1708 Compensable costs.

(a) The following costs are compensable under Section 7 of the Radio Broadcasting to Cuba Act, up to but not exceeding $250,000:

(1) The original cost of existing equipment used by the applicant for the operation of the affected station that it is necessary to replace by facilities specially authorized by the Federal Communications Commission in order to mitigate the effects of interference from Cuba, less the amount of depreciation on such existing equipment previously reported as deductions on Federal income tax returns;

(2) Technical and engineering cost associated with the facilities changes so authorized. The costs allowable under this paragraph (2) shall include costs prudently incurred in planning, designing, engineering and testing such new facilities, and in performing monitoring required by § 1.1704(b), or monitoring performed by licensees who submitted the results to the Commission in support of their applications for authorizations to change facilities to mitigate Cuban interference that were granted before March 15, 1984.

(b) The following costs are not compensable:

(1) The cost of acquiring, constructing or installing the new facilities authorized by the Commission, apart from the associated technical and engineering costs that are compensable under paragraph (a)(2);

(2) Remuneration or expenses paid to persons, such as the station engineer, who are in the regular employ of the applicant; provided that this shall not bar compensation for out-of-pocket outlays for payments to such employees for overtime work on the tasks listed in § 1.1708(a)(2);

(3) Attorney's fees;

(4) The costs of acquiring title or leasehold interests in land; and

(5) Any part of costs incurred for the purpose of extending the interference-free service of stations beyond the area to which the existing affected station would provide interference-free service if the Cuban interference were not present.

§ 1.1709 Requirements for filing applications for compensation.

(a) This section states the requirements for filing applications for compensation for expenses incurred in mitigating the effects of Cuban interference that are filed pursuant to this Subpart M. Applications for authorization by the Federal Communications Commission to make changes in authorized station facilities are governed by other applicable provisions of the FCC rules.

(b) Applications for compensation may be filed on or after the entry into effect of this Subpart M, by the licensees of AM broadcast stations in the United States who simultaneously file or had previously filed applications for authorization to change licensed station facilities in order to mitigate the effects of interference received from stations in Cuba. Applications shall be file with the Secretary to the Federal Communications Commission, Washington, D.C. 20554.

(c) Applications for compensation need not use any particular form, but shall contain all the information required under this Subpart M, and any supplemental information the Commission may request the applicant to file. When initially submitted, the applications need not be accompanied by the evidence of duration of interference required by §§ 1.1704(b) and 1.1705, or the proof of costs required by § 1.1709(f) that applicants file after the facilities changes have been completed.

(d) Applications for compensation, when initially filed, shall be accompanied by:

(1) A statement, with supporting breakdown, of the actual costs of constructing or acquiring and installing replaced equipment prescribed in § 1.1708(a)(1);

(2) A statement of the amount of depreciation on such replaced equipment previously reported as deductions on Federal income tax returns; and

(3) An estimate, with supporting breakdown, of the technical and engineering costs prescribed in § 1.1708(a)(2) prudently incurred and expected to be incurred in planning, designing, engineering and testing the new or changed facilities used to mitigate the effects of Cuban interference, but not including the cost of the new facilities themselves.

(4) A statement, with supporting breakdown, of the costs incurred and expected to be incurred in making the showing of duration of Cuban interference required under § 1.1704(b), from which the applicant is not exempted under § 1.1706.

(e) The data concerning duration of interference required by §§ 1.1704(b) and 1.1705 may be submitted in a supplemental filing for association with a previously filed application for compensation when the applicant completes the prescribed monitoring. However, if the applicant does not file such data within 120 days from the date of the filing of the application for compensation, or within such extended period as the Commission may for good cause permit, the application will be returned. In such case, any priority accrued under § 1.1710 will lapse; and if the application is subsequently refiled, it will be treated as a new application under § 1.1710(c).

(f) Upon the completion of facilities changes authorized to mitigate the effects of Cuban interference, applicants for compensation shall submit to the Federal Communications Commission a detailed financial statement of the out-of-pocket expenditures made for services and replaced equipment that are compensable under § 1.1708. The statement shall be supported by accompanying receipted bills, cancelled checks, and such additional evidence of actual and prudent outlays for such compensable kinds of services and equipment as the Commission may request in individual cases.

§ 1.1710 Priorities.

Because it is not possible to foresee the extent to which interference by Cuban stations may be experienced, and because it is therefore uncertain whether the available funds will be sufficient to cover all the allowable compensation payments to all qualifying applicants, the following priorities are established for eligibility for compensation payments, in order to provide an equitable basis for the distribution of available funds:

(a) *First Priority:* Applicants whose authorizations of facilities changes to mitigate Cuban interference were issued by the Federal Communications Commission prior to October 4, 1983 (the date of the enactment of the Radio Broadcasting to Cuba Act) and whose applications for compensation are filed before October 1, 1984 (the date Section 7 of that Act enters into effect). Within this first priority group, priority will be accorded in the order in which such authorizations were granted.

(b) *Second Priority:* Applicants whose authorizations of facilities changes to mitigate Cuban interference were issued on or after October 4, 1983 and before the effective date of the regulations adopted in this Subpart M, and whose applications for compensation are filed no later than October 1, 1984. Within this second priority group, priority will be accorded in the order in which the applications for authorization to make such facilities changes are filed with the Federal Communications Commission.

(c) *Third Priority:* Applicants who do not come within the first or second priority groups, and applicants whose priorities as a member of the second group have lapsed under § 1.1709(e). Within this third priority group, priority will be accorded in the order of the filing or refiling of applications for compensation that contain substantially all the information.

(d) The effect of the priority sequencing of applicants established under paragraphs (a) through (c), of this section, is governed by the fact that the responsibilities for processing and evaluating applications, and for making the compensation payments, have, by statute, been divided between the FCC and the USIA. While the FCC will initially receive, process and evaluate applications for compensation, the USIA has been designated by the Act as the agency that will make the payments, and to whom appropriations for this purpose will be made. In these circumstances, the matter of priority standing of applicants for compensation will be dealt with as provided in paragraph (e) of this section.

(e) The FCC will determine the priority group in which each applicant for compensation falls and the applicant's priority within that group, and will inform USIA and the applicant of that determination. However, the FCC does not administer the compensation payments or control the funds appropriated for those payments. The authority to perform those functions hving been conferred by statute upon the USIA, it is for USIA to determine the manner in which the priorities established by the FCC are applied in practice in the administration of the compensation funds entrusted to the USIA. Accordingly, such questions as whether all applicants within a particular priority group who are found by the FCC to qualify for compensation will receive such compensation fully before any applicants in a lower priority group, or whether available funds (if inadequate to cover all qualifying applicants) will be pro-rated in some fashion among members of the same priority group, or otherwise, will be for the USIA to decide, taking into account the amounts of appropriated funds and the demand for them.

§ 1.1711 Provisional and definitive findings of eligibility.

(a) As soon as practicable after the filing of applications containing all the information required under § 1.1709 (c), (d) and (e), the Commission will make a provisional findings as to whether the applicant meets the requirements of this Subpart M for compensation, and if so, in what estimated amount.

(b) When the facilities changes are completed and the documentation required by § 1.1709(f) is filed, the Commission will make a definitive finding as to the amount of compensation for which applicant meets the requirements of this Subpart M. Such amount shall not exceed the amount of compensation determined in the provisional finding adopted under paragraph (a) of this section.

(c) The findings reached under paragraphs (a) and (b) of this section will be adopted by order, which will be published and transmitted to the USIA and the applicant. Such findings do not constitute entitlement to compensation, which will depend upon the availability of appropriated funds and the satisfaction of such requirements as may be established by the United States Information Agency which, under the Act, is responsible for making the compensation payments.

§ 1.1712 Review of findings.

(a) Sections 0.61 and 0.283 of this chapter delegate to the Chief, Mass Media Bureau, the processing of applications for compensation under this Subpart M, and the adoption of orders containing provisional and definitive findings as to the amount of compensation for which applicants qualify under the Radio Broadcasting to Cuba Act and the regulations in this subpart.

(b) Sections 1.101, 1.102(b), 1.103, 1.104, 1.106, 1.108, 1.110 (except the last sentence thereof), 1.113, 1.115, and 1.117 of this chapter, which relate to reconsideration and review of actions taken by the Commission and pursuant to delegated authority, and to effective dates and finality of actions, shall apply to orders making provisional or definitive findings under § 1.1711.

(c) The Commission considers that orders adopted under § 1.1711 (a) or (b) by the Commission *en banc*, but not those adopted under delegated authority by the Chief, Mass Media Bureau, are final orders subject to judicial review under Section 402(a) of the Communications Act of 1934, as amended, 47 U.S.C. 402(a).

[FR Doc. 84-8316 Filed 3-28-84; 8:45 am]
BILLING CODE 6712-01-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1033

[13th Rev. S.O. No. 1474; Amdt. No. 5]

Car Service; Various Railroads Authorized to Use Tracks and/or Facilities of Chicago, Milwaukee, St. Paul Pacific Railroad Co.

AGENCY: Interstate Commerce Commission.

ACTION: Amendment No. 5 to thirteenth revised service order No. 1474.

SUMMARY: Pursuant to section 122 of the Rock Island Railroad Transition and Employee Assistance Act, Pub. L. 96-254, this order authorizes various railroads to provide interim service over the Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Debtor, (Richard B. Ogilvie), Trustee, and to use such tracks and facilities as are necessary for operations. This order permits carriers to continue to provide service to shippers which would otherwise be deprived of essential rail transportation.

EFFECTIVE DATE: 11:59 p.m., March 31, 1984, and continuing in effect until 11:59 p.m., June 30, 1984, unless otherwise modified, amended or vacated by order of this Commission.

FOR FURTHER INFORMATION CONTACT: M. F. Clemens, Jr., (202) 275-7840 or 275-1559.

Railroads.

Decided: March 23, 1984.

Upon further consideration of Thirteenth Revised Service Order No. 1474 (48 FR 6989, 13047, 28992, 44559, and 56059), and good cause appearing therefor:

§ 1033.1474 [Amended]

It is ordered, Thirteenth Revised Service Order No. 1474 *various railroads authorized to use tracks and/or facilities of the Chicago, Milwaukee, St. Paul and Pacific Railroad Company, debtor (Richard B. Ogilvie, trustee)* is amended by substituting the following paragraph (n) for paragraph (n) thereof:

* * * * *

(n) *Expiration date.* The provisions of this order are extended for an additional period of time, and shall expire at 11:59 p.m., June 30, 1984, unless otherwise modified, amended or vacated by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., March 31, 1984.

This action is taken under authority of 49 U.S.C. 10304–10305 and Section 122, Pub. L. 96–254.

This amendment shall be served upon the Association of American Railroads, Transportation Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association. Notice of this amendment shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members J. Warren McFarland, Bernard Gaillard, and John H. O'Brien.

James H. Bayne,

Acting Secretary.

Proposed Rules

Federal Register
Vol. 49, No. 62
Thursday, March 29, 1984

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 904

Grapefruit Grown in a Designated Area in California; Order Directing That a Referendum Be Conducted; Determination of Representative Period for Voter Eligibility; and Designation of Referendum Agents To Conduct the Referendum

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Referendum order.

SUMMARY: This document directs that a referendum be conducted among growers of grapefruit grown in a designated area in California, to determine whether they favor continuation of the marketing order program.

DATES: Representative period, September 1, 1982 through August 31, 1983.

ADDRESSES: See information contained in supplementary information.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, Chief, Fruit Branch, Fruit and Vegetable Division, AMS, USDA, telephone (202) 447–5975.

SUPPLEMENTARY INFORMATION: This action has been reviewed under Secretary's Memorandum 1512–1 and Executive Order 12291, and has been designated a "non-major" rule. This action is required to determine whether growers favor continuation of the marketing order for grapefruit grown in the production area as specified in the order.

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and Marketing Order No. 904, it is hereby directed that a referendum be conducted April 16–25, 1984, among the growers who, during the period September 1, 1982 through August 31, 1983 (which period is hereby determined to be a representative period for the purposes of such referendum), were engaged in the production area in the production of grapefruit covered by the marketing order, to ascertain whether continuation of the marketing order is favored by the growers.

Roland G. Harris and John H. Clark, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, 845 South Figueroa—Suite 540, Los Angeles, California 90017, telephone (213) 688–3190, are hereby designated as referendum agents of the Secretary of Agriculture to conduct the referendum. The procedure applicable to the referendum shall be the "Procedure for the Conduct of Referenda in Connection with Marketing Orders for Fruits, Vegetables, and Nuts Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended" (7 CFR Part 900.400 *et seq.*).

Copies of the text of the aforesaid marketing order may be examined in the office of the referendum agents or the Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250.

Ballots to be cast in the referendum may be obtained from the referendum agents and from their appointees.

List of Subjects in 7 CFR Part 904

Marketing agreements, Grapefruit, California.

Dated: March 20, 1984.

John Ford,

Deputy Assistant Secretary, Marketing and Inspection Services.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR PART 39

[Docket No. 84-NM-02-AD]

Airworthiness Directives; Boeing Model 737 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes a new airworthiness directive (AD) which would require structural inspections and repairs or replacements, as necessary, on certain Boeing Model 737 series airplanes to assure continued airworthiness. Some Boeing Model 737 series airplanes are approaching or exceeding the manufacturer's original objective fatigue design life. These older airplanes are the ones most likely to develop fatigue cracks in the structure. The manufacturer has completed a structural reevaluation to identify structurally significant items where, if cracking does develop and is permitted to grow undetected, may result in an inability to carry the required loads specified in FAR 25.571. this proposed AD defines structural maintenance requirements for the identified items necessary to preclude this potentially catastrophic condition.

DATES: Comments must be received on or before April 30, 1984.

ADDRESSES: The service documents may be obtained upon request from the Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. This information also may be examined at Federal Aviation Administration, Northwest Mountain Region, Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Carlton Holmes, Airframe Branch ANM–120S, FAA, Northwest Mountain Region, Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington, telephone (206) 431–2920. Mailing Address: Seattle Aircraft Certification Office, FAA, Northwest Mountain Region, 17900 Pacific Highway South, C–68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified below. All communications received on or before the closing date for comments, will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be

available, both before and after the closing date for comments in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of the proposed AD, will be filed in the Rules Docket.

Availability of NPRMS

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Northwest Mountain Region, Office of Regional Counsel, Attention: Airworthiness Rules Docket No. 84–NM–02–AD, 17900 Pacific Highway South, C–68966, Seattle, Washington 98168.

Discussion

Introduction

A significant number of transport category airplanes are approaching their design life goal. It is expected that these airplanes will continue to be operated beyond this point. The incidence of fatigue cracking on these airplanes is expected to increase as airplanes reach and exceed their goals.

In order to evaluate the impact of increased fatigue cracking with respect to maintaining fail-safe design and the damage tolerance of the airplane structure, large transport airplane manufacturers have been requested to conduct a structural reassessment of the airplane using modern damage tolerance evaluation techniques. The criteria for this reassessment are contained in FAA Advisory Circular (AC) 91–56, "Supplemental Structural Inspection Program for Large Transport Category Airplanes," as well as § 25.571 (Amdt. 25–45) of the Federal Aviation Regulations (FAR).

The structural reassessment involves:

(1) The identification of structural parts or components which contribute significantly to carrying flight, ground, pressure, or control loads whose failure could affect the structural integrity necessary for the safety of the airplane and whose damage tolerance or fail-safe characteristics are necessary, therefore, to establish or confirm. These are called Structural Significant Items (SSI).

(2) The calculation of residual strength, with multiple site damage and interactive crack growth under typical flight and ground loading, such that the airplane structure can sustain the load conditions stated for fail-safe qualification under the current FAR 25.571(b).

(3) The establishment of a procedure for developing inspection programs that provide a high probability of detecting fatigue damage before residual strength falls below fail-safe or damage tolerance requirements.

In conducting the assessment, or audit, The Boeing Company has developed continuing structural integrity programs for its transport airplanes. The program developed for the Boeing 737 (Boeing Document No. D6–37089, entitled "Boeing 737 Supplemental Structural Inspection Document" [SSID], in two volumes) ensures continuing structural airworthiness of the Boeing 737 by specifying details to be inspected, inspection intensities, and associated intervals based on the structural audit.

The Boeing 737 program makes use of the Damage Tolerance Rating (DTR) System developed by Boeing. This rating system is used to determine the probability of detecting fatigue damage, which is presumed to have occurred in a fleet of airplanes and has not been reported, before the residual strength of any airplane falls below regulatory fail-safe strength levels.

The supplemental inspection program developed for the Boeing Model 737 permits operator flexibility by adjusting or supplementing existing maintenance programs, where necessary, to meet the required damage tolerance rating. The program was developed in cooperation with members of the airline industry who participated with Boeing in working group sessions. These meetings were also attended by engineers and maintenance specialists from the FAA. Participants included representatives from 17 airlines. All SSI's, which require directed inspections for maintaining structural integrity and with no history of in-service fatigue cracking, are included in this document. An explanation and summary listing of the SSI's is given in detail in §§ 4.0 and 8.0, respectively, of Boeing Document D6–37089.

Damage tolerance rating forms (DTR Check Forms) are provided, in Volume 2, § 11.0, for each operator of candidate airplanes to select the inspection options which together meet the damage tolerance rating requirements. If an operator's existing maintenance program meets or exceeds the required damage tolerance rating no additional inspection requirements are necessary for that detail. If the current maintenance program falls below the required damage tolerance rating, an operator must improve or supplement its programs. To achieve this, an operator may increase the frequency or intensity of its normal maintenance for its candidate airplanes, or incorporate additional inspection methods, including non-destructive test techniques. Feasible inspection options, developed in conjunction with airline working group members, were used to complete an example rating for each SSI.

Known fatigue problems, which could affect the structural integrity necessary for safety of the airplane, covered by existing service bulletins have been reassessed and a safety of flight addendum added to each as required. A list of service bulletins with flight safety addenda is given in Section 9.0.

It is expected that fatigue related service bulletins subsequent to or resulting from the supplemental inspection program, that require a flight safety addendum, will also be referenced in Section 9.0.

Candidate Airplanes

Airplanes with the highest number of flight cycles are the most likely to experience initial fatigue damage in the fleet. Therefore, this program is based on supplemental inspection of high time (candidate) airplanes.

Directed inspection programs for these airplanes (i.e. the candidate fleet) coupled with reporting of discrepancies found and, where necessary, follow-up action, will maintain structural airworthiness in the total fleet when fatigue cracking occurs. to maintain adequate fleet surveillance, each operator with candidate airplanes must provide a directed inspection program for those airplanes which meet the requirements established by this document.

The initial Boeing 737 candidate fleet consists of those airplanes exceeding 37,500 landings by April 30, 1983. A list of candidate airplane serial and line numbers is listed in Boeing Document D6–37089 for the Model 737–100/200 series. The candidate list will be reviewed periodically and updated if there are significant changes in fleet distribution, composition, or utilization.

Structural Significant Items (SSI)

The two design principles for obtaining structural safety are "damage tolerance" and "safe life." Damage tolerance relies on some means of detecting damage before airplane safety is jeopardized. This is the preferred design principle whenever practical. A safe-life principle is used where there is little or no chance of detecting damage before residual strength is reduced below acceptable limits. A conservative fatigue damage threshold is used to limit the service life. On modern commercial jet transports, this design concept is generally limited to landing gear components.

Airplane structure can be categorized to determine safety analysis requirements and corresponding

maintenance considerations. The first breakdown is a determination of an item's function in relation to structural integrity. Any detail, element, or assembly, which contributes significantly to carrying flight, ground, pressure or control loads, and whose failure could affect the structural integrity necessary for the safety of the airplane, is classified as a SSI. Items not in this category are classified as secondary or other structure.

For the category of secondary or other structure, safety is ensure by demonstrating that a flight can be completed safely after the component has lost its ability to function or has separated from the aircraft. Structural maintenance is dictated by the economic consequences of major damage or loss of the component compared to those of an inspection program required to find damage early.

The second category is damage-tolerant design where damage is obvious or malfunction evident before reaching critical size. Examples of this are significant fuel tank leakage or controlled cabin depressurization. In this category, safety is ensured by providing adequate residual strength with extensive damage that is obvious during walk-around or functional checks to personnel whose primary responsibility may not be structural inspection. Economics may dictate structural maintenance where it may be desirable to detect damage early.

The rest of the damage tolerant structure falls into a third category in which structural integrity is maintained by timely damage detection in a planned inspection program. Inspection program requirements for detecting corrosion, stress corrosion, and accidental damage are based on operator experience on the same or similar structure. For fatigue damage, inspection program requirements are matched to structural characteristics that include residual strength, crack growth rate, and damage detection. All items in this category are included in the Boeing Model 737 supplemental inspection program. The parameters considered in determining the SSI's included:

Consequence of Cracking, Inspectability, Stress Environment, Multiple Cracking, Structural Redundancy.

For each SSI, several cracking patterns were considered to determine the most critical. This generally resulted in a crack origin being considered in a location difficult to inspect. In some cases, a single SSI may have multiple cracking patterns due to various parts of the item being hidden from view. For example, a spar chord can be visible from both sides, hidden on either side, or hidden on both sides. For these SSI's, a DTR Check Form is provided for the most critical cracking pattern(s).

The fourth structural category is safe life. Operator experience is used to develop a maintenance program for preventing or detecting and repairing any corrosion, stress corrosion, or accidental damage.

Effect on Existing Maintenance Programs

In developing the SSID, the working group reviewed its operation and maintenance practices and existing maintenance programs with respect to the basic requirements of the SSID program. As a result, the Boeing 737 SSID allows affected operators to take credit for maintenance already being performed and gives the operators flexibility in revising their maintenance programs to incorporate the SSID for the affected airplanes.

Upon detection of damage on an individual SSI, an assessment will be made as to the need for inspection of all affected airplanes at a threshold and interval established from metallurgical examination and additional fracture mechanics analysis.

The SSID provides an operator with the minimum inspection requirements necessary to provide the required damage tolerance rating (DTR) and the means to evaluate their existing maintenance program. An operator, using the document, will be able to determine for a particular SSI if their regularly scheduled maintenance will provide the required DTR or if additional supplemental inspections must be accomplished.

If cracking does occur, it is likely to occur on older airplanes. The manufacturer has completed a structural reevaluation to identify significant structural components that, if cracking does develop and is permitted to grow undetected, may result in an inability to carry the required loads specified in FAR 25.571. This AD defines structural maintenance requirements for the identified components necessary to preclude this potentially catastrophic condition. As a consequence, the proposed AD would require all affected operators who have not already done so to incorporate in their FAA approved continuing airworthiness program and implement a revision which provides no less than the required damage tolerance rating for each SSI listed in the Boeing Document or later FAA approved revisions.

Information collection requirements contained in this proposed AD have been approved by the Office of Management and Budget under the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96–511) and have been assigned OMB control number 2120–0056.

Economic Impact

Approximately 92 airplanes of U.S. registry and 27 U.S. operators would initially be affected by the proposed AD. It is estimated that the implementation of the SSID program for a typical operator would take approximately 1000 manhours. It is also estimated that the average labor cost would be $35 per manhour. Based on these figures, the cost to implement the SSID program is estimated to not exceed $950,000.

The recurring inspection impact on the affected operators is estimated to be 500 manhours per airplane at an average labor cost of $35 per manhour. Based on these figures, the annual recurring cost of this AD is estimated to not exceed $1,700,000.

Based on the above figures, the total cost impact of this AD for the first year is estimated to not exceed $2,700,000 and $1,700,000 for each year thereafter.

For these reasons, the proposed rule is not considered to be a major rule under the criteria of Executive Order 12291, or a significant rule under DOT Regulatory Policies and Procedures. Few, if any, small entities within the meaning of the Regulatory Flexibility Act would be affected.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

The Proposed Amendment

Accordingly, the Federal Aviation Administration (FAA) proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations (14 CR 39.13) by adding the following new airworthiness directive (AD):

Boeing: Applies to Boeing Model 737 series airplanes, certificated in all categories, listed in Section 3.0 of Boeing Document No. D6–37089, "Supplemental Structural Inspection Document" (SSID), original issue, or later FAA approved revision, and aircraft serial number 20336. Compliance is required as indicated in the body of the AD.

To ensure the continuing structural integrity of these airplanes, accomplish the following, unless already accomplished:

A. Within one year after the effective date of the AD, incorporate a revision into the FAA approved maintenance inspection program which provides no less than the required damage tolerance rating (DTR) for each Structural Significant Item (SSI) listed in Boeing Document D6–37089, Original Issue, or later FAA approved revision. The required DTR value for each SSI is listed in the

document. The revision to the maintenance program shall include and be implemented in accordance with the procedures in Sections 5.0 and 6.0 of the SSID.

B. Cracked structure shall be repaired before further flight in accordance with an FAA approved method.

C. Aircraft may be ferried to a maintenance base for repair in accordance with FAR 21.197 and 21.199.

D. Alternate means of compliance which provide an equivalent level of safety may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

E. Operators who have acceptably incorporated Boeing Document No. D6–37089 into their approved maintenance program are exempt from the provisions of this AD.

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to the Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. These documents may also be examined at FAA, Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington.

The FAA has requested **Federal Register** approval to incorporate by reference the manufacturer's Supplemental Inspection Document identified and described in this proposal.

(Secs. 313(a), 314(a), 601 through 610, and 1102 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 through 1430 and 1502); 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); and 14 CFR 11.85)

Note.—For the reasons discussed earlier in the preamble: the FAA has determined that this document involves a proposed regulation which (1) is not major under Executive Order 12291, and (2) is not a significant rule pursuant to the Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and it is certified under the criteria of the Regulatory Flexibility Act that this proposed rule, if promulgated, would not have a significant economic impact on a substantial number of small entities since few, if any, small entities operate Boeing Model 737 airplanes. A regulatory evaluation has been prepared and has been placed in the public docket.

Issued in Seattle, Washington, on February 7, 1984.

David E. Jones,

Acting Director, Northwest Mountain Region.

14 CFR Part 39

[Docket No. 83–ASW–12]

Airworthiness Directives; Societe Nationale Industrielle Aerospatiale (SNIAS) Models AS350 and AS355 Series Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to amend an existing airworthiness directive (AD) which requires repetitive inspection and repair or replacement, as necessary, of the main rotor mast on Aerospatiale Model AS350 and AS355 helicopters. This amendment is needed to provide for different inspection requirements for Model AS350 and AS355 helicopters, to provide for differences in operating environments, and to exclude corrosion resistant masts from the AD applicability.

DATE: Comments must be received on or before April 30, 1984.

ADDRESSES: Comments on the proposal may be mailed in duplicate to: Regional Counsel, Attention: Docket No. 83–ASW–12, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101, or delivered in duplicate to: 4400 Blue Mound Road, Room 158, Bldg. 3B, Fort Worth, Texas 76106.

Comments delivered must be marked: Docket No. 83–ASW–12.

Comments may be inspected in Room 158, Building 3B, weekdays, except Federal holidays, between 8 a.m. and 4:30 p.m.

The applicable service bulletins may be obtained from Aerospatiale Helicopter Corporation, 2701 Forum Drive, Grand Prairie, Texas 75051, Attention: Customer Support.

A copy of each of the service bulletins is contained in the Rules Docket at the Office of the Regional Counsel, Federal Aviation Administration Southwest Region, 4400 Blue Mound Road, Fort Worth, Texas 76106.

FOR FURTHER INFORMATION CONTACT: Chris Christie, Manager, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Office, c/o American Embassy, Brussels, Belgium, telephone number 513.38.30; or R. T. Weaver, helicopter Policy and Procedures Staff, ASW–111, Aircraft Certification Division, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101, telephone number (817) 877–2548.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments will be considered by the Director before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket, Room 158, Building 3B, 4400 Blue Mound Road, Fort Worth, Texas 76106, for examination by interested persons. A report summarizing each FAA-public contact, concerned with the substance of the proposed AD, will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped post card on which the following statement is made: "Comments to Docket Number 83–ASW–12." The post card will be date/time stamped and returned to the commenter.

After issuing Amendment 39–4599 (48 FR 14351), AD 83–07–05, as amended by Amendment 39–4698 (48 FR 37924), the FAA has determined, based on service experience and fatigue testing, that the repetitive inspection types and intervals required by the AD can be changed to consider differences in operating stresses and differences in operating environments. Also, the FAA has determined that if a corrosion resistant mast is installed on a Model AS355 helicopter, a service life is not needed. Accordingly, the proposed AD amendment will provide different inspection programs for AS350 and AS355 helicopters; it will provide for operations in corrosive environments; and it will exclude the corrosion resistant mast from the AD inspection and replacement requirements.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) by further amending Amendment 39–4599 (48 FR 14351), AD 83–07–05, as amended by Amendment 39–4698 (48 FR 37924) by revising paragraphs e, f, g, and h, and by adding a new paragraph k as follows:

Aerospatiale Helicopter Corporation: Applies to Aerospatiale Model AS350 and AS355 series helicopters certificated in all categories.

Compliance is required as indicated (unless already accomplished).

* * * * *

e. For AS355 helicopters (within 10 hours' time in service after the effective date of this amended AD, unless already accomplished):

(1) Remove from service any main rotor mast which has accumulated 450 hours' or more total time in service of which 300 hours' or more time in service was in saline (or corrosive) environments.

(2) For helicopter masts operated in nonsaline (or noncorrosive) environments:

(i) Repeat the inspections of paragraph d of this AD at intervals not to exceed 300 hours' time in service from the last paragraph d inspection.

(ii) Visually inspect the upper mast flange-to-shaft radius at intervals not to exceed 50 hours' time in service from last inspection. Inspect for finish deterioration, corrosion, or cracks. Use a 10-power glass in area of suspected surface finish cracks. Conduct magnetic particle or dye penetrant inspections in accordance with paragraph d(2) of this AD of all areas where finish deterioration is found.

(iii) For AS355 helicopters with masts which have accumulated 450 hours' or more total time in service and have operated in saline (or corrosive) environments less than 300 hours, reduce the repetitive visual inspection interval of the upper mast flange-to-shaft radius from 50 to 25 hours.

(3) To qualify for consideration of nonsaline (or noncorrosive) environment operations, an individual Model AS355 helicopter mast must meet all the following criteria:

(i) It must not be operated over salt water for a major part of any month.

(ii) It must not have a total of 300 hours' or more time in service of over salt water operations.

(iii) It must not be installed on a helicopter that had a main rotor mast replaced due to corrosion.

f. For AS350 helicopters (within 10 hours' time in service after the effective date of this AD, unless already accomplished):

(1) Repeat the inspections of paragraph d of this AD at intervals not to exceed 300 hours' time in service from the last paragraph d inspection.

(2) Visually inspect the mast upper flange-to-shaft radius at intervals not to exceed 50 hours' time in service after the last inspection. Inspect for finish deterioration, corrosion, or cracks. Use a 10-power glass in areas of suspected surface finish cracks. Conduct magnetic particle or dye penetrant inspections in accordance with paragraph d(2) of this AD of all areas where finish deterioration is found.

g. Rework corroded masts in accordance with Aerospatiale Service Bulletin No. 05.08 or 05.13, dated April 19, 1983, or later FAA approved equivalent. Replace any masts corroded beyond the allowed rework.

h. Reinstall the main rotor hub in accordance with the appropriate Model AS350 or AS355 Maintenance Manual, or FAA approved equivalents, after completion of the inspections and rework of paragraphs d, e, f, and g.

k. After the installation of corrosion resistant masts (P/N 350A.37.1076.07), the repetitive inspections and life limits of paragraphs d, e, and f, no longer apply.

This proposed amendment further amends Amendment 39-4599 (48 FR 14351), AD 83-07-05, as amended by Amendment 39-4698 (48 FR 37924).

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); 49 U.S.C. 106(g) [Revised, Pub. L. 97-449, January 12, 1983]; 14 CFR 11.85)

Note.—The FAA has determined that this proposed regulation only involves 141 aircraft, makes only minimal changes to inspection requirements, and provides for use of a new corrosion resistant mast (as an option). Therefore, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; and (4) if promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Fort Worth, Texas on March 14, 1984.

F. E. Whitefield,
Acting Director, Southwest Region.

[Airspace Docket No. 84-ASW-14]

Proposed Revocation of Transition Area; Columbus, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Aviation Administration proposes to revoke the transition area at Columbus, TX. The intended effect of the proposed action is to cancel controlled airspace for aircraft executing a standard instrument approach procedure (SIAP) to the Columbus Airport. This action is necessary since the Columbus Airport has been closed and a requirement no longer exists for a 700-foot transition area to provide protection of aircraft operating at this airport.

DATE: Comments must be received on April 30, 1984.

ADDRESSES: Send comments on the proposal in triplicate to: Manager, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, TX 76101.

The official docket may be examined in the Rules Docket, weekdays, except Federal holidays, between 8 a.m. and 4:30 p.m. The FAA Rules Docket is located in the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, TX.

FOR FURTHER INFORMATION CONTACT: Kenneth L. Stephenson, Airspace and Procedures Branch, ASW-535, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, TX 76101; telephone: (817) 877-2630.

SUPPLEMENTARY INFORMATION:

History

Federal Aviation Regulation Part 71, Subpart G 71.181 as republished in FAA Order 7400.6, Compilation of Regulations, dated January 3, 1984, contains the description of transition areas designated to provide controlled airspace for the benefit of aircraft conducting instrument flight rules (IFR) activity. Revocation of the transition area at Columbus, TX, will necessitate an amendment to this subpart. This amendment will be required at Columbus, TX, since the airport has been closed and the IFR procedure to the Columbus Airport has been cancelled.

Comments Invited

Interested persons are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposals. (Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposals.) Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 84-ASW-14." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Manager, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, TX 76101, or by calling (817) 877–2630. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should contact the office listed above.

Transition areas, Aviation safety.

The Proposed Amendment

PART 71—[AMENDED]

Accordingly, pursuant to the authority delegated to me, the FAA proposes to amend § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

Columbus, TX Revoked

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); Sec. 6(c), 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); and 14 CFR 11.61(c))

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Fort Worth, TX, on March 19, 1984.

F. E. Whitfield,

Acting Director, Southwest Region.

BILLING CODE 4910–13–M

---

14 CFR Part 71

[Airspace Docket No. 84–ASO–8]

Proposed Designation of Transition Area; Fort Payne, Ala.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to designate the Fort Payne, Alabama, transition area to accommodate Instrument Flight Rule (IFR) operations at Isbell Field Airport. This action will lower the base of controlled airspace from 1,200 to 700 feet above the surface in the vicinity of the airport. An instrument approach procedure, based on a new non-Federal radio beacon (RBN), is being developed to serve the airport and the controlled airspace is required for protection of IFR aeronautical operations.

DATE: Comments must be received on or before May 6, 1984.

ADDRESSES: Send comments on the proposal in triplicate to: Federal Aviation Administration, Attn: Manager, Airspace and Procedures Branch, ASO–530, P.O. Box 20636, Atlanta, Georgia 30320.

The official docket may be examined in the Office of the Regional Counsel, Room 652, 3400 Norman Berry Drive, East Point, Georgia 30344, telephone: (404) 763–7646.

FOR FURTHER INFORMATION CONTACT: Donald Ross, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320, telephone: (404) 763–7646.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with these comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. ———." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Manager, Airspace and Procedures Branch (ASO–530), Air Traffic Division, P.O. Box 20636, Atlanta, Georgia 30320. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11–2 which describes the application procedure.

The Proposal

The FAA is considering an amendment to § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) that will designate the Fort Payne, Alabama, transition area. This action will provide controlled airspace for aircraft executing a new instrument approach procedure to Isbell Field Airport. Section 71.181 of Part 71 of the Federal Aviation Regulations was republished in Advisory Circular AC 70–3A dated January 3, 1983.

List of Subjects in 14 CFR Part 71

Aviation safety, Airspace, Transition area.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to designate the Fort Payne, Alabama, transition area under § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

Fort Payne, Alabama—[New]

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Isbell Field Airport (Lat. 34°28'20"N., Long. 85°43'25" W.); within 3 miles each side of the 043° bearing from the Fort Payne RBN (Lat. 34°31'08" N., Long. 85°40'16" W.), extending from the 6.5-mile radius area to 8.5 miles northeast of the RBN.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1345(a)); 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983))

Note.—The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the

anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in East Point, Georgia, on March 20, 1984.

George R. LaCaille,

Acting Director, Southern Region.

BILLING CODE 4910-13-M

Coast Guard

33 CFR Part 165

[CGD-3-84-08]

Safety Zone Regulations: New York, New Jersey, Sandy Hook Channel, Raritan Bay, Arthur Kill

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to establish a safety zone around all loaded Liquefied Petroleum Gas (LPG) vessels during their transit through New York Harbor. The safety zone will be discontinued, for LPG vessels entering port, when they are safely moored at the LPG receiving facility in the Arthur Kill and, for LPG vessels departing the port, when they pass the Scotland Lighted Buoy "S" (LLNR 1619) at the entrance to Sandy Hook Channel. This safety zone is proposed to minimize the risk of collision between LPG carriers and other vessels. This precautionary measure is deemed necessary in consideration of the nature and quantity of the LPG cargo involved and the limited ability of these vessels to take evasive action when maneuvering through New York Harbor or approaching and departing the terminal. This proposed safety zone regulation would require persons to comply with the general safety zone regulations contained in 33 CFR 165.23 which prohibits persons from entering the safety zone without authorization of the Captain of the Port. Mariners will be provided advance notice of scheduled LPG vessel harbor transits through the Port of New York via Marine Radio Broadcast Notice to Mariners.

DATES: Comments must be received on or before May 14, 1984.

ADDRESSES: Comments should be mailed to the Captain of the Port of New York, Bldg. 109 Governors Island, NY 10004. The comments will be available for inspection and copying between 8:00 a.m. and 4:30 p.m., Monday through Friday, except holidays. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: Lieutenant Commander James M. Collin, Port Safety Officer, Captain of the Port, New York, Building 109, Governors Island, NY 10004; telephone 212-668-7917.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this rulemaking by submitting written views, data, or arguments. Persons submitting comments should include their names and addresses, identify this notice (CGD-3-84-08) and the specific section of the proposal to which their comments apply, and give reasons for each comment. Receipt of comments will be acknowledged if a stamped self-addressed postcard or envelope is enclosed. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. The proposed rules may be changed in light of the comments received. No public hearing is planned, but one may be held if written requests for a hearing are received and it is determined that the opportunity to make oral presentations will aid the rulemaking process.

Drafting Information

The drafters of this notice are Lieutenant Gary W. CHAPPELL, project officer for the Captain of the Port, New York, and Ms. M. A. ARISMAN, project attorney, Third Coast Guard District Legal Office.

Discussion of Proposed Regulation

This proposed safety zone is part of an overall safety program implemented by the Captain of the Port, New York, NY to enhance the safety of liquefied petroleum gas operations in the Port of New York. Under present procedures, the Captain of the Port, New York, issues a temporary safety zone each time an LPG vessel transits New York Harbor, specifying the time and date of the transit and describing the area of the zone. The area described is the same each time since all LPG vessels transit to and from LPG receiving facilities in the Arthur Kill. Because of the recurring nature of the zone, the Coast Guard proposes to issue a permanent safety zone regulation. This safety zone will be in effect whenever a loaded LPG carrier enters the port and transits Sandy Hook Channel, Raritan Bay, and the Arthur Kill enroute to an LPG receiving facility and will remain in effect until the vessel is safety moored; or, whenever a loaded LPG carrier departs an LPG facility and transits the Arthur Kill, Raritan Bay, and Sandy Hook Channel and will remain in effect until the vessel has passed the Scotland Lighted Buoy "S" (LLNR 1619). All marine traffic would be prohibited from entering the safety zone without authorization from the Captain of the Port, New York.

Mariners will be provided notice of scheduled arrivals and departures of loaded LPG vessels via a Marine Safety Information Broadcast Notice to Mariners. The safety zone during transit will be a "moving safety zone" in the waters within 100 yards of the LPG vessel. For incoming LPG vessels, a Coast Guard vessel will meet the LPG carrier at Ambrose Light and escort it from the Scotland Lighted Buoy "S" (LLNR 1619) to berth and will stay on scene until the LPG vessel is moored to the receiving waterfront facility, at which time the safety zone will be secured. For outgoing vessels, the process will be reversed. The concept of a moving safety zone around the LPG vessel minimizes the chance of collision with another vessel by eliminating crossing, overtaking or passing situations in New York Harbor. It minimizes disruption to other vessel traffic as operators can schedule vessel movements ahead of the LPG vessel transit or just after the LPG vessel has passed. The Exxon Bayway waterfront facility has been receiving LPG for many years. For each LPG vessel arrival the Captain of the Port, New York has exercised his authority and established a temporary safety zone describing conditions similar to those contained in this notice of proposed rulemaking. Interested persons who have communicated with the COTP New York have voiced approval of this "moving safety zone" concept during LPG vessel transits. The Coast Guard believes that establishing this safety zone as a permanent rule will enhance its effectiveness through greater dissemination.

Economic Assessment and Certification

This proposed regulations is considered to be nonsignificant in accordance with DOT Policies and Procedures for Simplification, Analysis, and Review of Regulations (DOT Order 2100.5). Its economic impact is expected to be minimal since the theory and practice of establishing a safety zone around a loaded LPG vessel has been in effect for many years. Small and large companies with vessels operating in New York Harbor are aware of scheduled LPG vessel harbor transits and adjust their vessel movements accordingly causing minimum economic impact. Based on this assessment it is

certified in accordance with section 605(b) of Regulatory Flexibility Act (5 U.S.C. 605(b)) that this regulation, if promulgated, will not have a significant economic impact on a substantial number of small entities. Also, the regulation has been reviewed in accordance with Executive Order 12291 of February 17, 1981, on Federal Regulation and has been determined not to be a major rule under the terms of that order.

List of Subjects in 33 CFR Part 165

Harbors, Marine Safety, Navigation (water), Security measures, Vessels, Waterways.

PART 165—[AMENDED]

Proposed Regulation

In consideration of the foregoing, the Coast Guard proposes to amend Part 165 of Title 33, Code of Federal Regulations, by adding section 165.310 to read as follows:

§ 165.310 New York, New Jersey, Sandy Hook Channel, Raritan Bay, Arthur Kill—Safety Zone.

(a) The following areas are established as Safety Zones during the specified conditions:

(1) For incoming tank vessels loaded with Liquefied Petroelum Gas, the waters within a 100 yard radius of the LPG carrier while the vessel transits the Sandy Hook Channel, Raritan Bay East and West Reach, Ward Point Bend East and West Reach, and the Arthur Kill to the LPG receiving facility. The Safety Zone remains in effect until the LPG vessel is moored at the LPG receiving facility in the Arthur Kill.

(2) For outgoing tank vessels loaded with LPG, the waters within a 100 yard radius of the LPG carrier while the vessel departs the LPG facility and transits the Arthur Kill, Ward Point Bend West and East Reach, Raritan Bay West and East Reach, and the Sandy Hook Channel. The safety zone remains in effect until the LPG vessel passes the Scotland Lighted Buoy "S" (LLNR 1619) at the entrance to the Sandy Hook Channel.

(b) The general regulations governing safety zones contained in 33 CFR 165.23 apply.

(c) The Captain of the Port will notify the maritime community of periods during which this safety zone will be in effect by providing advance notice of scheduled arrivals and departures of loaded LPG vessels via a Marine Safety Information Broadcast Notice to Mariners.

(33 U.S.C. 1225 and 1231; 49 CFR 1.46; 33 CFR 160.5))

Dated: March 20, 1984.

James L. McDonald,

Captain, U.S. Coast Guard, Captain of the Port, New York.

BILLING CODE 4910-14-M

VETERANS ADMINISTRATION

38 CFR Part 1

Disinterments From National Cemeteries

AGENCY: Veterans Administration.

ACTION: Proposed regulation.

SUMMARY: The Veterans Administration proposes to change its regulation on disinterment from national cemeteries. The regulation currently states that disinterment of the remains of the dependent of a veteran which were interred in a national cemetery, based on an agreement by the veteran to be buried in the same or adjoining grave, may be authorized by the Chief Memorial Affairs Director. It has been determined that eligibility for burial of a dependent in a national cemetery is not contingent on the interment of the veteran in the same or any other national cemetery. Therefore, the paragraph providing procedures for this requirement is being removed.

DATES: Comments must be received on or before April 30, 1984.

ADDRESSES: Interested persons are invited to submit written comments, suggestions, or objections regarding this proposed regulation to: Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue, NW., Washington, D.C. 20420. All written comments received will be available for public inspection only in the Veterans Service Units, Room 132, of the above address, between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays) until May 14, 1984.

FOR FURTHER INFORMATION CONTACT: Sonja McCombs, (202) 389-2987.

SUPPLEMENTARY INFORMATION: The requirement for a surviving veteran to complete an Agreement for Burial (Dependent), VA Form 40-4969, no longer exists. Since VA Form 40-4983, Request for Disinterment (Dependent), was contingent upon the requirement set forth in VA Form 40-4969, there is no longer a need for VA Form 40-4983. Therefore, 38 CFR 1.621(d) will be removed.

The Administrator has determined that this regulation is nonmajor in accordance with Executive Order 12291, Federal Regulation. The Administrator hereby certifies that this proposed amendment will not, if promulgated, have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601-612. Pursuant to 5 U.S.C. 605(b), this proposed amendment is therefore exempt from the initial and final regulatory flexibility analyses requirements of sections 603 and 604. The reason for this certification is that these regulations apply almost exclusively to individual veterans and their survivors. They will have no significant impact on small entities (i.e., small business, small private and nonprofit organizations, and small governmental jurisdictions).

There is no Catalog of Federal Domestic Assistance number involved.

List of Subjects in 38 CFR Part 1

Cemeteries, Claims, Government property, Veteran.

Approved: March 9, 1984.

By direction of the Administrator.

Everett Alvarez, Jr.,

Deputy Administrator.

§ 1.621 [Amended]

38 CFR Part 1, *General,* is amended by removing paragraph (d) to § 1.621.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Ch. 1

[AD-FRL 2555-2]

Air Pollution Control; Regulation of Polycyclic Organic Matter Under the Clean Air Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Extension of comment period.

SUMMARY: On February 13, 1984 (49 FR 5580) EPA proposed not to regulate polycyclic organic matter (POM) as a specified air pollutant under the Clean Air Act. The State of New York has requested a 60 day extension of the comment period. This notice extends the comment period until May 29, 1984.

DATES: The comment date is extended from March 29, 1984 until May 29, 1984.

ADDRESS: Send comments (in duplicate, if possible) to the Central Docket Section (A-130), U.S. Environmental Protection Agency, 401 M Street, SW.,

Washington, D.C. 20460; Attn: Docket No. A–83–32.

FOR FURTHER INFORMATION CONTACT: Kent Berry, Strategic and Air Standards Division (MD–12), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone (919) 541–5504 or FTS 629–5504.

SUPPLEMENTARY INFORMATION: As discussed in the February 13, 1984 **Federal Register** notice, EPA is under court order to issue its final decision on POM by May 31, 1984. *State of New York* v. *Ruckelshaus, No. 82–CIV–4695.* As a result of this extension to the comment period, the date for issuing a final decision on POM is also being extended by an equivalent period of time to July 30, 1984. The February 13 notice also provided an opportunity for a public hearing if requested. Since no request for a hearing was made, a hearing will not be held.

Dated: March 22, 1984.

Sheldon Meyers,

Acting Assistant Administrator for Air and Radiation.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 84–277; RM–4630]

FM Broadcast Station in Eveleth, Minnesota; Proposed Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to substitute Class C Channel 250 for Channel 261A at Eveleth, Minnesota, and to modify the license for Station WEVE–FM to specify operation on the Class C channel in response to a petition filed by Iron Range Broadcasting Inc.

DATES: Comments must be filed on or before May 14, 1984, and reply comments on or before May 29, 1984.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Kathleen Scheuerle, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subject in 47 CFR Part 73

Radio broadcasting.

Proposed Rule Making

In the matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Eveleth, Minnesota) MM Docket No. 84–277, RM–4630.

Adopted: March 12, 1984.
Released: March 21, 1984.

By the Chief, Policy and Rules Division.

1. A petition for rule making has been filed by Iron Range Broadcasting Inc.[1] ("petitioner"), seeking the substitution of Class C Channel 250 for Channel 261A at Eveleth, Minnesota, and modification of the license for Station WEVE to specify operation on Channel 250.

2. Petitioner submitted information in support of the proposal, indicating that even with translators, Station WEVE–FM, as a Class A station, has not been able to serve the surrounding area. Petitioner indicates that the substitution of Class C Channel 250 would increase its coverage, especially in the rural areas.

3. The proposed substitution of Class C Channel 250 for Channel 261A Eveleth, can be made in conformity with the minimum distance separation requirements provided there is a site restriction of 10.5 miles southeast of Eveleth. This restriction is necessary to avoid short spacing to Channel 251 in St. Cloud, Minnesota.

4. In accordance with established policy, we shall propose to modify the license of Station WEVE–FM (Channel 261A) to specify operation on Channel 250. However, should another party indicate an interest in the Class C assignment, then the modification could not be implemented. See, *Cheyenne, Wyoming,* 62 F.C.C. 2d 63 (1976). Instead an opportunity for the filing of a competing application may be provided.

5. Since Eveleth, Minnesota is located within 320 kilometers (200 miles) of the common U.S.-Canadian border, the Commission must obtain Canadian concurrence in the proposal.

6. In view of the need for a wide coverage area FM station, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules, as follows:

City	Channel No.	
	Present	Proposed
Eveleth, Minnesota	261A	250

7. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

8. Interested parties may file comments on or before May 14, 1984, and reply comments on or before May 29, 1984, and are advised to read the Appendix for the proper procedures. Additionally, a copy of such comments should be served on the petitioners, or their counsel or consultant, as follows: A. L. Stein, Esquire, Colorado Building, Washington, D.C. 20005 (Counsel to the petitioner).

9. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend Sections 73.202(b), 73.504 and 73.606(b) of the Commission's Rules,* 46 FR 11549, published February 9, 1981.

10. For further information concerning this proceeding, contact Kathleen Scheurele, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making, other than comments officially filed at the Commission, or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(c)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules IT IS PROPOSED TO AMEND the FM

[1] Iron Range Broadcasting Inc. is the licensee of Station WEVE, Channel 261A, Eveleth, Minnesota.

Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, and original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

BILLING CODE 6712-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 26

Public Entry and Use, Ruby Lake National Wildlife Refuge, Nevada

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: The Fish and Wildlife Service (Service) proposes to issue revised regulations to govern boating on Ruby Lake National Wildlife Refuge (NWR). This proposed revision is necessary to permit the conduct of a five-year research effort to evaluate the effects of powerboating (10 horsepower or less) on redhead and canvasback duck broods. The Service proposes to extend motorized boating for approximately two weeks, on a limited basis, in the South Sump of Ruby Lake NWR. Powerboating would begin July 15, 1984. The design of the research study requires the early opening to be in effect in alternate years—1984, 1986 and 1988. The current August 1 date would be observed in 1985 and 1987. The alternate-year opening scheme would allow appropriate research treatments to be applied during the periods of non-motorized boating from July 15 to August 1.

DATE: Comments must be received on or before April 30, 1984.

ADDRESS: Comments may be addressed to Richard N. Smith, Associate Director, Research and Development, U.S. Fish and Wildlife Service, 18th and C Streets, NW., Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT: Rollin F. Sparrowe, Director, Division of Wildlife Research, U.S. Fish and Wildlife Service, 18th and C Streets, NW., Washington, D.C. 20240 (telephone: 202–653–8762).

SUPPLEMENTARY INFORMATION: Ruby Lake NWR was established on July 2, 1938, by Executive Order No. 7923, as a refuge and breeding ground for migratory birds and other wildlife. The refuge supports the densest nesting population of canvasbacks in North America, and is the only major cancasback breeding area in the western United States. More than 10 percent of all canvasbacks breeding in the intermountain west nest at Ruby Lake, and more cancasback ducklings are produced annually at Ruby Lake NWR than any other national wildlife refuge. Also, redhead duck production has been estimated to nearly equal canvasback production at Ruby Lake. In all, fifteen different species of waterfowl nest on the refuge.

At the same time, and compatible with Ruby Lake's high value to waterfowl, the refuge has had a long history of boating use. Largemouth bass were introduced in the South Sump in 1932, and an excellent bass fishery has since developed. Boats began to be used for fishing on the South Sump during the mid-1940's. To protect waterfowl and othe refuge resources, the Service has regulated recreational boating on the South Sump of Ruby Lake since the 1950's. Motorless boats and boats with electric motors are currently allowed on the South Sump from June 15 through December 31, and motors of 10 horsepower (hp) or less are allowed on the South Sump August 1 through December 31.

Throughout the years, various regulatory options have been employed by the Service to ensure the continued compatibility of recreational boating with the major purposes for which Ruby Lake NWR was established. Much of the basis for developing boating regulations for Ruby Lake, and for determining compatibility, has been the reliance on biological data obtained on the effects of boating on canvasback and redhead duck nesting activity. Because the Service does not have as much data available on the effects of powerboating on brood behavior and survival as it does for the effects on nesting, it is proposing this research. To acquire additional data would further enhance the Service's waterfowl management capability and provide a biologically sound basis for determining the effects and assuring the compatibility of recreational boating. Therefore, the Service proposes to evaluate powerboating on the distribution, behavior and survival of canvasback and redhead broods at Ruby Lake NWR.

The proposed study will be conducted in the South Sump of Ruby Lake NWR

for a five-year period, beginning in the spring of 1984. The first year will be designated as a pilot year to develop techniques, field test equipment, and make the requisite initial observations of brood behavior in response to disturbances from powerboats. In order to permit this, the basic study design involves alternate motorized boating dates on an annual schedule beginning with a July 15 opening in 1984; then August 1, 1985; July 15, 1986; August 1, 1987; and July 15, 1988. Non-motorized boating use would remain the same each year, opening June 15. This framework will allow replicate testing among years.

Currently, motorized boats, using motors of 10 hp or less, are allowed on the South Sump of Ruby Lake NWR from August 1 through December 31. In order to implement the research study as designed, it is necessary to revise the special regulations contained in 50 CFR Part 26 to include the alternate year opening scheme, beginning with July 15, 1984.

Conformance With Statutory and Regulatory Authorities

The National Wildlife Refuge System Administration Act of 1966 (NWRSAA), as amended (16 U.S.C. 668dd), authorizes the Secretary of the Interior to permit public access, use and recreation on refuges whenever he determines that such uses are compatible with the major purposes for which such areas were established. The Service has determined that permitting the use of motorized boats from July 15 through December 31 in 1984, 1986 and 1988, in order to facilitate a research study on brood behavior and survival will not have a biological impact on waterfowl nesting. The Service also believes that the limited extension of the motorized boating season in the South Sump portion of the refuge in order to undertake the needed research will not result in a substantial biological impact on waterfowl broods. If at any time during the extended boating period, the research activities indicate that motorized boating may be having a biological detrimental effect on duck broods, additional restrictions may be imposed if deemed necessary to maintain compatibility with refuge purposes, as provided for in 50 CFR 25.21. Therefore, the additional 16 days of powerboat use necessary to implement the research study has been determined to be compatible with the major purposes for which Ruby Lake NWR was established.

The provisions of the NWRSAA relating to recreation are administered in accordance with the Refuge Recreation Act of 1962, 16 U.S.C. 460k, which authorizes the Secretary to permit recreational uses on refuges if they are appropriate incidental or secondary uses. In conformance with that Act, the Service has determined that motorized recreational boating governed by the proposed regulations permits a secondary use of Ruby Lake NWR that is not inconsistent with the primary objectives for which it was established. Further, the proposed recreational use will not interfere with the primary purposes for which the Ruby Lake NWR was established. In addition, funds are available within the FY 1984 annual refuge budget of approximately $218,000 for the administration of this recreational activity that will be required to permit a biological study of motorized boating impacts on canvasback and redhead duck broods. Funding to conduct the research study, other than for the expanded boating use, will come from Service sources outside the annual Ruby Lake refuge budget.

Economic Effect

Executive Order 12291 of February 19, 1981, requires the preparation of regulatory impact analyses for major rules. A major rule is one likely to result in an annual effect on the economy of $100 million or more; a major increase in costs or prices for consumers, individual industries, government agencies or geographic regions, or significant adverse effects on the ability of United States-based enterprises to compete with foreign-based enterprises. The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*) requires preparation of flexibility analyses for rules that will have a significant effect on a substantial number of small entities, which include small businesses, organizations or government jurisdictions.

The proposed rulemaking is a temporary, minor adjustment to existing regulations for one refuge; therefore, this action will not have an adverse impact on the overall economy or a particular region, industry or group of industries, or level of government. With respect to small entities, the proposed rulemaking will not significantly alter the existing recreational uses of the refuge, and small entities such as sporting good stores, restaurants, motels and local governments will not be significantly affected by the rule.

Accordingly, the Department of the Interior has determined that this proposed rule is not a "major rule" within the meaning of Executive Order 12291, and would not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval of the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

Environmental Effects

An environmental assessment (EA) and finding of no significant impact (FONSI) have been prepared to analyze the impacts of research to evaluate powerboating activity and its effects on the distribution, behavior and survival of canvasback and redhead broods at Ruby Lake National Wildlife Refuge. The limited trial extension of the morotized boating season is alternate years that is attendant to this research does not differ significantly from existing boating use in the area, and does not constitute a major Federal action. Supporting references used in making the FONSI determination include the EA prepared in 1976 concerning the effects of boating on the management of Ruby Lake NWR, the final enviromental impact statement for the "Operation of the National Wildlife Refuge System," that was filed with the Council on Environmental Quality on November 12, 1976, and the above-referenced EA. The EA and FONSI for the research proposal are available for public review and copying at the Service's Division of Wildlife Research, Room 515, Matomic Building, 1717 H Street, NW., Washington, D.C., or by contacting Rollin Sparrowe at the phone number provided above.

Maps of the South Sump are available from the Refuge Manager, Ruby Lake NWR, Ruby Valley, Nevada 89833, and will be posted at refuge boat landings. Copies of the maps can also be obtained from the Regional Director, U.S. Fish and Wildlife Service, 500 Northeast Multnomah Street, Suite 1692, Portland, Oregon 97232.

Primary author of this proposed rule is Noreen Clough, Division of Refuge Management, U.S. Fish and Wildlife Service, 18th and C St., NW., Washington, D.C. 20240.

List of Subjects in 50 CFR Part 26

National wildlife refuge system, Recreation, Wildlife refuges.

PART 26 [AMENDED]

For the reasons set out in the preamble, as provided for in 50 CFR 26.33, the following special regulations are set forth below.

§ 26.34. Special regulations concerning public access, use and recreation for Ruby Lake National Wildlife Refuge, Nevada.

Beginning June 15 annually, and continuing until December 31, annually, motorless boats and boats with electric motors will be permitted only on that portion of the Ruby Lake National Wildlife Refuge known as the South Sump. For a limited alternating period, beginning on July 15, 1984; July 15, 1986; and July 15, 1988, and continuing through December 31, 1984, 1986 and 1988, respectively, boats propelled with a motor or combination of motors in aggregate not to exceet 10 horsepower rating will also be permitted on the South Sump. Beginning on August 1, 1985, and August 1, 1987, and continuing through December 31, 1985, and 1987, respectively, boats propelled with a motor or combination of motors in aggregate not to exceed a 10 horsepower rating will be permitted in the South Sump. Boats may be launched only from landings approved and so designated by the Refuge Manager.

Authority: 16 U.S.C. 668dd and 460k.

Dated: March 16, 1984.

G. Ray Arnett,

Assistant Secretary for Fish and Wildlife and Parks.

BILLING CODE 4310-07-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 630

Caribbean Fishery Management Council; Swordfish Public Hearings

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Change of dates and announcement of locations for public hearings.

SUMMARY: In reference to a notice published March 14, 1984, 49 FR 9588, the Caribbean Fishery Management Council has changed the dates and has set the locations for their public input on the Swordfish Fishery Management Plan.

DATES: April 10, 1984, St. Thomas, Virgin Islands, from 7–10 p.m., and on April 12, 1984, La Jas, Puerto Rico, from 2–5 p.m.

ADDRESS: The hearings will take place at the following locations:

Conference Room, Legislative Building, St. Thomas, Virgin Islands;

and

Conference Room, Marine Science Laboratory, Isla Magueyes, La Jas, Puerto Rico.

FOR FURTHER INFORMATION CONTACT: Omar Munoz, Suite 1108, Banco de Ponce Building, Hato Rey, Puerto Rico, phone: (809) 753–4926.

Dated: March 26, 1984.

Carmen J. Blondin,

Deputy Assistant Administrator for Fisheries Resource Management, National Marine Fisheries Service.

50 CFR Part 672

Groundfish of the Gulf of Alaska; Availability of Amendment To Fishery Management Plan and Request for Comments

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of availability of an amendment to a fishery management plan and request for comments.

SUMMARY: NOAA issues this notice that the North Pacific Fishery Management Council has submitted Amendment 13 to the fishery management plan for Groundfish of the Gulf of Alaska for review by the Secretary of Commerce and is requesting comments from the public. Copies of the amendment may be obtained from the address below.

DATE: Comments on the plan amendment will be accepted until June 11, 1984.

ADDRESSES: Send comments to Robert W. McVey, Director, Alaska Regions, NMFS, P.O. Box 1668, Juneau, AK 99802.

Copies of the amendment and its environmental assessment/initial regulatory flexibility analysis are available upon request from the North Pacific Fishery Management Council, P.O. Box 103136, Anchorage, AK 99510.

FOR FURTHER INFORMATION CONTACT: Ronald J. Berg (Fishery Biologist, NMFS), (907) 586–7230.

SUPPLEMENTARY INFORMATION: The Magnuson Fishery Conservation and Management Act requires that each regional fishery management council submit any fishery management plan or plan amendment it prepares to the Secretary of Commerce for review and approval or disapproval. The act also requires that the Secretary, upon receiving the plan or amendment, must immediately publish a notice that the plan or amendment is available for public review and comment. The Secretary will consider the public comments in determining whether to approve the plan or amendment.

Amendment 13 proposes measures for managing the pollock resource in the Western and Central Regulatory Areas of the Gulf of Alaska. Regulations proposed by the North Pacific Fishery Management Council and based on the amendment are scheduled to be published within 30 days.

(16 U.S.C. 1801 *et seq.*)

Dated: March 26, 1984.

Roland Finch,

Director, Office of Fisheries Management, National Marine Fisheries Service.

DEPARTMENT OF AGRICULTURE

Soil Conservation Service

Tongue River (Pilot) Watershed, Dam Rehabilitation Work, North Dakota; Finding of No Significant Impact

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of Finding of No Significant Impact.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice than an environmental impact statement is not being prepared for the proposed Rehabilitation Work on Dam No. T7–1, T3–2, T3–6, T8–1, T3–1, T2–4 and T2–2 of the Tongue River (Pilot) Watershed, Pembina and Cavalier Counties, North Dakota.

FOR FURTHER INFORMATION CONTACT: Mr. J. Michael Nethery, State Conservationist, Soil Conservation Service, P.O. Box 1458, Bismarck, North Dakota 58502, telephone (701) 255–4011, extension 421.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. J. Michael Nethery, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The major item of work, to be completed on all seven (7) structures is lining the principal spillway pipe(s) with polyethylene or polyurethane to prevent further degradation of the existing concrete and corrugated metal spillways. Typical installations will require between 250 and 300 linear feet of liner pipe and replacement of at least 20 linear feet of corrugated metal pipe. Associated work includes minor excavation, earth-fill and reseeding of disturbed areas. All work on the damsite will be within approximately a 100 foot radius of the outlet of the principal spillway pipe(s).

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment is on file and may be reviewed by contacting Mr. J. Michael Nethery.

No administrative action on implementation of the proposal will be taken until 30 days after the day of this publication in the **Federal Register.**

(Catalog of Federal Domestic Assistance Program No. 10.901, Resource Conservation and Development Program. State and local review procedures for Federal and federally assisted programs and projects are applicable)

Dated: March 21, 1984.

J. Michael Nethery,

State Conservationist.

BILLING CODE 3410-16-M

DEPARTMENT OF COMMERCE

Office of the Secretary

Agency Forms Under Review by the Office of Management and Budget

DOC has submitted to OMB for clearance the following proposals for collections of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: International Trade Administration
Title: Defense Priorities and Allocations System
Form Numbers: Agency—N/A; OMB—0625–0107
Type of Request: Extension of the expiration date of a currently approved collection
Burden: 25,000 respondents; 16,667 reporting hours
Needs and Uses: Under the Defense Production Act of 1950, as amended, the President is given authority to allocate materials and facilities and to establish priorities in the performance of contracts and orders in support of the national defense. This authority has been delegated by the President to the Secretary of Commerce for industrial products, materials and services and is administered through the Defense Priorities and Allocations System (DPAS). Provisions have been established to audit transactions under the regulation to determine compliance with it. Every person subject to this regulation is required to keep records of transactions for 3 years and produce these records for inspection on demand.
Affected Public: Businesses or other for-profit organizations, small businesses or organizations
Frequency: Recordkeeping
Respondent's Obligation: Mandatory
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Request for Special Priorities Assistance
Form Numbers: Agency—ITA–999; OMB—0625–0015
Type of Request: Extension of the expiration date of a currently approved collection
Burden: 1,800 respondents; 900 reporting hours
Needs and Uses: This form is used by Defense Contractors to request Special Priorities Assistance (SPA) when placing defense rated orders with suppliers, or to obtain timely delivery of products or materials from suppliers, in support of authorized national defense and energy programs. The information is used by the Department of Defense and its associated defense agencies, the Department of Energy and the Department of Commerce to provide SPA.
Affected Public: Businesses or other for-profit organizations, small businesses or organizations
Frequency: On occasion
Respondent's Obligation: Mandatory
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Shipment of Nickel Alloy Products

Form Numbers: Agency—ITA–942; OMB—0625–0025
Type of Request: Extension of the expiration date of a currently approved collection
Burden: 21 respondents; 14 reporting hours
Needs and Uses: The information collected provides data on defense rated shipments of nickel alloy products. The data are used by the Department of Commerce to establish and monitor the percentage obligation ("set-asides") of producers of nickel alloys to accept defense rated orders. The set-asides provide a means for equitably distributing the defense requirements for nickel alloy products among the nickel alloy product producers with a minimum disruption to commercial operations.
Affected Public: Businesses or other for-profit organizations, small businesses or organizations
Frequency: Quarterly
Respondent's Obligation: Mandatory
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Controlled Materials Requirements (Production, Construction, or Research and Development)
Form Number: Agency—ITA–9048; OMB—0625–00133
Type of Request: Revision of a currently approved collection
Burden: 2,900 respondents; 1,250 reporting hours
Needs and Uses: This information is required in support of the President's priorities and allocations authority under the Defense Production Act of 1950, as amended (50 U.S.C. App. 2061, et seq.), as implemented by the Defense Priorities and Allocations system regulation (15 CFR 350). The information collected provides data on the quarterly requirements of controlled materials—copper, steel, aluminum, and nickel alloys.
Affected Public: Businesses or other for-profit organizations, small businesses or organizations
Frequency: On occasion
Respondent's Obligation: Mandatory
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Aluminum Producers and Importers
Form Numbers: Agency—ITA–978; OMB—0625–0016
Type of Request: Revision of a currently approved collection
Burden: 300 respondents; 1,800 reporting hours
Needs and Uses: The information collected provides data on defense rated shipments of aluminum ingot and mill products. The data are used by Commerce to establish and monitor the obligation ("set-asides") of producers of aluminum ingot and mill products to accept defense rated orders.
Affected Public: Businesses or other for-profit organizations, small businesses or organizations
Frequency: Monthly
Respondent's Obligation: Mandatory
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Steel Controlled Materials Report
Form Numbers: Agency—ITA–943; OMB—0625–0017
Type of Request: Extension of the expiration date of a currently approved collection
Burden: 100 respondents; 133 reporting hours
Needs and Uses: The information collected provides data on defense rated shipments of iron and steel. The data are used by the Department of Commerce to establish and monitor the obligation ("set-asides") of producers of iron and steel to accept defense rated orders.
Affected Public: Businesses or other for-profit organizations, small businesses or organizations
Frequency: Quarterly
Respondent's Obligation: Mandatory
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Emergency Application for Rating or Directive Assistance
Form Numbers: Agency—ITA–993; OMB—0625–0032
Type of Request: Extension of the expiration date of a currently approved collection
Burden: 0 respondents; 1 reporting hour
Needs and Uses: In the event of a national emergency, this information would be used to assure that production materials for essential items may be obtained by contractors, and the distribution of these items be accomplished.
Affected Public: Businesses or other for-profit organizations, small businesses or organizations
Frequency: On occasion
Respondent's Obligation: Mandatory
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Radial Ball Bearings 30mm and Under
Form Numbers: Agency—ITA–985; OMB—0625–0044
Type of Request: Revision of a currently approved collection
Burden: 15 respondents; 8 reporting hours
Needs and Uses: The information collected provides data on the shipments, including defense orders and exports, and unfilled orders of radial ball bearings 30mm outer diameter and under. Minature and instrument radial ball bearings are used in many defense critical products. The Department of Defense (DOD) requires that DOD purchased items contain only U.S. manufactured radial ball bearing components. This form is used to monitor this requirement.
Affected Public: Businesses or other for-profit organizations
Frequency: Annually
Respondent's Obligation: Mandatory
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Titanium Metal
Form Numbers: Agency—ITA–991; OMB—00625–0019
Type of Request: Revision of a currently approved collection
Burden: 35 respondents; 140 reporting hours
Needs and Uses: The information collected provides data on the supply, production and shipments of titanium sponge, ingot, and mill shapes, the consumption of scrap, and the imports of titanium sponge. This information is required in support of the President's industrial mobilization responsibilities under the Defense Production Act, as amended.
Affected Public: Businesses or other for-profit organizations, small businesses or organizations
Frequency: Quarterly
Respondent's Obligation: Mandatory
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Shipments of Primary Nickel
Form Numbers: Agency—ITA–920; OMB—0625–0012
Type of Request: Extension of the expiration date of a currently approved collection
Burden: 21 respondents; 14 reporting hours
Needs and Uses: This information is used in support of the President's industrial mobilization responsibilities under the Defense Production Act of 1950, as amended. The information collected provides data on shipments of primary nickel. The data are used by the Department of Commerce in supporting the Federal Emergency Management Agency in determining stockpile goals and establishing

acquisition and disposal programs, and the expansion of domestic supply.
Affected Public: Businesses or other for-profit organizations
Frequency: Quarterly
Respondent's Obligation: Mandatory
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Diamond Dies, Natural and Synthetic: Production, Import and Exports
Form Numbers: Agency—ITA–9015; OMB—0625–0003
Type of Request: Extension of the expiration date of a currently approved collection
Burden: 22 respondents; 11 reporting hours
Needs and Uses: This information is used in support of the President's industrial mobilization responsibilities under Title III of the Defense Production Act, as amended. The information collected provides data on production, imports, and exports of diamond dies, natural and synthetic. The Federal Emergency Management Agency uses the data for its management of the Strategic and Critical Materials Stockpile, and for applications of Title III of the Defense Production Act. It is used by Commerce in support of industrial mobilization planning and preparedness programs.
Affected Public: Businesses or other for-profit organizations, small businesses or organizations
Frequency: Annually
Respondent's Obligation: Mandatory
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Request to Dispose of Commodities or Technical Data Previously Exported
Form Numbers: Agency—ITA–699P; OMB—0625–0009
Type of Request: Extension of the expiration date of a currently approved collection
Burden: 2,500 respondents; 2,500 reporting hours
Needs and Uses: The information requested by this report must be submitted to Office of Export Administration whenever applicants wish to reexport commodities or technical data that normally requires a validated license for export. The propose of this form is to prevent shipments of commodities in violation of the law.
Affected Public: Businesses or other for-profit organizations
Frequency: On occasion
Respondent's Obligation: Required to obtain or retain a benefit
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Request for and Advice on Status of Pending Application, Amendment, or Reexport Request
Form Numbers: Agency—ITA–6019P; OMB—0625–0050
Type of Request: Extension of the expiration date of a currently approved collection
Burden: 400 respondents; 700 reporting hours
Needs and Uses: This is a voluntary form that exporters use to follow-up on pending applications, amendments and reexport requests. The Office of Export Administration returns it giving the current status of their request.
Affected Public: Businesses or other for-profit organizations, small businesses or organizations
Frequency: On occasion
Respondent's Obligation: Voluntary
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Watch Quota Program
Form Numbers: Agency—ITA–321P, 360P, 361P; OMB—0625–0134
Type of Request: Revision of a currently approved collection
Burden: 7 respondents; 201 reporting hours
Needs and Uses: The information collected is used to administer the watch duty-exemption program (Pub. L. 97–446).
Affected Public: Businesses or other for-profit organizations, small businesses or organizations
Frequency: On occasion, annually
Respondent's Obligation: Required to obtain or retain a benefit
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Exhibitor and Mission Member Report Form
Form Numbers: Agency—ITA–4075P; OMB—0625–0034
Type of Request: Reinstatement of a previously approved collection
Burden: 3,000 respondents; 250 reporting hours
Needs and Uses: The information is collected from firms participating in overseas trade promotion events managed and funded by the Department of Commerce. It is used to evaluate efficiency impact, and effectiveness of the Department's trade promotion events.
Affected Public: Business or other for-profit organizations, small business or organizations
Frequency: On occasion
Respondent's Obligation: Voluntary
OMB Desk Officer: Ken Allen, 395-3785

Agency: International Trade Administration
Title: Project License Procedure
Form Number: Agency-EAR 373.2(c); OMB—0625-0002
Type of Request: Extension of the expiration date of a currently approved collection
Burden: 40 respondents; 120 reporting hours
Needs and Uses: The Project License Procedure was developed to provide a single license for the export of commodities needed for large-scale overseas operations. It eliminates the necessity for filing and processing of numerous individual license applications.
Affected Public: Businesses or other for-profit organizations, small businesses or organizations
Frequency: On occasion
Respondent's Obligation: Required to obtain or retain a benefit
OMB Desk Officer: Ken Allen, 395–3785

Agency: International Trade Administration
Title: Export Trading Companies Contact Facilitation Service
Form Number: Agency–ITA–4094P; OMB—0625–0120
Type of Request: Extension of the expiration date of a currently approved collection
Burden: 2,250 respondents; 363 reporting hours
Needs and Uses: Thousands of U.S. firms produce products that are marketable overseas but have never been exported. There is a need to put those new to exporting in contact with firms offering export trade services. The Contact Facilitation Service is designed as a matching system to put the producer together with the exporter or vice versa.
Affected Public: State of local governments, businesses or other for-profit institutions, small businesses or organizations
Frequency: On occasion
Respondent's Obligation: Required to obtain or retain a benefit
OMB Desk Officer: Ken Allen, 395–3785

Agency: National Bureau of Standards (NBS)
Title: National Voluntary Laboratory Accrediation Program (NAVLAP)
Form Numbers: Agency—NBS–1144; OMB—0652–0003
Type of Request: Revision of a currently approved collection
Burden: 250 respondents; 750 reporting hours

Needs and Uses: Information is required of testing laboratories voluntarily applying for accrediation under NAVLAP. The information submitted is used by NBS to determine if the laboratory meets NAVLAP accrediation critera.
Affected Public: State or local governments, businesses or other for-profit organizations, federal agencies or employees, non-profit institutions, small businesses or organizations
Frequency: Annually
Respondent's Obligation: Required to obtain or retain a benefit
OMB Desk Officer: Ken Allen, 395–3785

Agency: National Oceanic and Atomspheric Administration (NOAA)
Title: Report of Observations/Samples Collected by Oceanographic Programs
Form Numbers: Agency—NOAA 24–23; OMB—0643–0033
Type of Request: Extension of the expiration date of a currenly approved collection
Burden: 30 respondents; 100 reporting hours
Needs and Uses: The United Nations Education, Scientific, and Cultural Organization (UNESCO), on recommendations from their working group on International Oceanographic Data Exchange (IDOE), sponsors an international marine data inventory entitled "Report on Observational Samples Collected by Oceanographic Programs." The U.S. delegation to the IDOE agreed that the U.S. will participate in this international inventory. NOAA's form is used by oceanographic researches to submit their data.
Affected Public: Federal agencies or employees, state or local governments, non-profit institutions
Frequency: On occasion
Respondent's Obligation: Voluntary
OMB Desk Officer: Sheri Fox, 395–7231

Agency: National Oceanic and Atomspheric Administration (NOAA)
Title: Volunteer Severe Weather Observer
Form Numbers: Agency—NOAA–88–512; OMB—0648–0032
Type of Request: Extension of the expiration date of a currently approved collection
Burden: 100 respondents; 53 reporting hours
Needs and Uses: The purpose of this collection is to supplement the National Severe Storms Laboratory's sensors (radars, surface stations, etc.) with visual observations of volunteer rural residents in prime data collection regions. These reports emphasize phenomenon that NOAA's sensors are least likely to adequately sample (hail, tornados) and de-emphasize phenomenon NOAA's instruments have previously proven to sample well (rain, wind). Date are used in basic and applied research on severe storms.
Affected Public: Individuals or households
Frequency: On occasion
Respondent's obligation: Voluntary
OMB Desk Officer: Sheri Fox, 395–7231

Copies of the above information collection proposals can be obtained by calling or writing DOC Clearance Officer, Edward Michals (202) 377–4217, Department of Commerce, Room 6622, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Written comments and recommendations for the proposed information collections should be sent ot the respective OMB Clearance Officer, Room 3235, New Executive Office Building, Washington, D.C. 20503.

Edward Michals,

Departmental Clearance Officer.

Tomato Products From Greece; Preliminary Results of Administrative Review of Countervailing Duty Order

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of Preliminary Results of Administrative Review of Countervailing Duty Order.

SUMMARY: The Department of Commerce has conducted an administrative review of the countervailing duty order on tomato products from greece. The review covers the period January 1, 1982 through December 31, 1982.

As a result of the review, the Department has preliminarily determined the amount of bounty or grant to range from 5.62 to 68.91 Greek drachmas per gross kilogram, depending on the specific product. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: March 29, 1984.

FOR FURTHER INFORMATION CONTACT: Al Jemmott or Richard Moreland, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230; telephone: (202) 377–2786.

SUPPLEMENTARY INFORMATION:

Background

On February 28, 1984, the Department of Commerce ("the Department") published in the **Federal Register** (49 FR 7261) the final results of its administrative review of the countervailing duty order on tomato products from Greece (37 FR 6360, March 28, 1972) and announced its intent to conduct the next administrative review. As required by section 751 of the Tariff Act of 1930 ("the Tariff Act"), the Department has now conducted that administrative review.

Scope of the Review

Imports covered by the review are tomato paste and sauce, peeled tomatoes and tomato juice. Such merchandise is currently classifiable under items 141.6520, 141.6540, 141.6600 and 166.3000 of the Tariff Schedules of the United States Annotated. The review covers the period January 1, 1982 through December 31, 1982 and one program: "production aid" to processors of tomatoes.

Analysis of Program

On January 1, 1981, Greece entered the European Communities ("the EC") and the EC established production subsidies to Greek processors of tomatoes. This program replaced the Greek government program that was the subject of earlier reviews. The EC grants the aid to tomato processors whose products meet the quality standards of the EC and who contract to pay tomato producers at or above the minimum Greek prices for tomatoes established by the EC.

The EC reported its schedule of payments to Greek tomato processors based on marketing years—1981/82 and 1982/83 beginning in July of each year. We calculated the amount of assistance provided to specific products for calendar year 1982 of the basis of concentrate ratios provided by the Greek government in an earlier submission. The average of the two payments reported in the schedules for each product was used to determine countervailable amounts.

Preliminary Results of the Review

As a result of our review, we preliminarily determine the total bounty or grant during the period of review to be as shown in the appendix to this notice, ranging from 5.62 to 68.91 Greek drachmas per gross kilogram. Accordingly, the Department intends to instruct the Customs Service to assess countervailing duties as indicated in the appendix on all shipments of Greek tomato products exported on or after

January 1, 1982 and entered, or withdrawn from warehouse, for consumption on or before March 21, 1982.

On March 22, 1982, the International Trade Commission ("the ITC") notified the Department that the Greek government had requested an injury determination for this order under section 104(b) of the Trade Agreements Act of 1979. Should the ITC find that there is material injury or likelihood of material injury to an industry in the United States, the Department intends to instruct the Customs Service to assess countervailing duties in the amount of the estimated duties required to be deposited, on all unliquidated entries of this merchandise entered, or withdrawn from warehouse, for consumption on or after March 22, 1982 and through the date of the ITC's notification to the Department of its determination.

As provided by section 751(a)(1) of the Tariff Act, we intend to instruct the Customs Service to collect cash deposits as indicated in the appendix on all shipments of tomato products from Greece entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review. The deposit requirement shall remain in effect until publication of the final results of the next administrative review.

Interested parties may submit written comments on these preliminary results within 30 days of the date of publication of this notice and may request disclosure and/or a hearing within 10 days of the date of publication. Any hearing, if requested, will be held 45 days after the date of publication or the first workday thereafter. Any request for an administrative protective order must be made no later than 5 days after the date of publication. The Department will publish the final results of this administrative review including the results of its analysis of issues raised in any such written comments or at a hearing.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 355.41 of the Commerce Regulations (19 CFR 355.41).

Dated: March 21, 1984.

Alan F. Holmer,

Deputy Assistant Secretary, Import Administration.

Appendix

For January 1, 1982 through December 31, 1982.

(1) Tomato Paste and Sauce:

Concentration (percent)		Drachmas per gross kilogram (packing size)				
Not less than	But less than	More than 1.5 kg	From 1.5 to 0.7 kg	From 0.7 to 0.25 kg	From 0.25 to 0.15	0.15 and less

Carbon Steel Plate From Romania; Final Results of Administrative Review of Suspension Agreement

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice of Final Results of Administrative Review of Suspension Agreement.

SUMMARY: On January 19, 1984, the Department of Commerce published the preliminary results of its administrative review of the agreement to suspend the antidumping investigation on hot-rolled carbon steel plate from Romania. The review covers the one known exporter of this merchandise to the United States and the period January 4, 1983 through October 31, 1983. There were no known shipments of this merchandise to the United States during the period and there are no known unliquidated entries.

We gave interested parties an opportunity to comment on the preliminary results. Based on our analysis of the comments received, the final results remain unchanged from those presented in the preliminary results of review.

EFFECTIVE DATE: March 29, 1984.

FOR FURTHER INFORMATION CONTACT: Michael J. Altier Or John Kugelman, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230, telephone: (202) 377-3601.

SUPPLEMENTARY INFORMATION:

Background

On January 4, 1983, the Department of Commerce ("the Department") published in the **Federal Register** (48 FR 317) a notice of suspension of the antidumping duty investigation of hot-rolled carbon steel plate from Romania. On January 19, 1984, the Department published in the **Federal Register** (49 FR 2281) the preliminary results of its administrative review of the suspension agreement. The Department has now completed that administrative review.

Scope of the Review

Imports covered by the review are shipments of hot-rolled carbon steel plate, currently classifiable under items 607.6620, 607.6625, 607.9400, 608.0710, and 608.1100 of the Tariff Schedules of the United States Annotated.

The review covers the period January 4, 1983 through October 31, 1983, and Metalimportexport, the only known exporter to the United States of Romanian carbon steel plate covered by the suspension agreement.

Analysis of Comments Received

We invited interested parties to comment on the preliminary results. We received joint comments from Metalimportexport and TradeARBED Inc., an importer, and comments from the United States Steel Corporation. The comments of Metalimportexport and TradeARBED, Inc. will be referred to as those of Metalimportexport.

Comment 1: Metalimportexport claims that section 751 of the Tariff Act of 1930 ("the Tariff Act") requires the Department to review its method for establishing foreign market value, including its choice of surrogate.

Department's Position: We agree. In antidumping proceedings involving state-controlled economy countries the choice of surrogate is an issue which is appropriately addressed in each section 751 review. As discussed in Comments 3 and 13 below, we are not persuaded in this review that a change of surrogate is warranted.

Comment 2: Metalimportexport states that the Department has considerable discretion in determining foreign market value in proceedings involving imports from state-controlled economy countries. The Department's previous determinations, establishing a hierarchy for selecting the surrogate, are not countenanced by statutory provision nor approved by the Congress.

Department's Position: The statute gives the Department a certain amount of discretion in determining foreign

market value in state-controlled economy proceedings. Our regulations and the hierarchy which has evolved in our determinations are within the bounds established by the statute. We have a clear preference for using the home market price of a suitable surrogate producer as the basis for calculating foreign market value. We think this approach is appropriate because it fits most closely with the perferred basis for antidumping comparisons involving producers in market economy countries: a comparison of home market and U.S. prices. It is because the home market prices in state-controlled economies are not a valid basis for comparison that we need a surrogate. In choosing the surrogate for foreign market value we seek to approximate the price that the state-controlled economy producer would have charged in its home market, absent the element of state control. The closest approximation, in our vew, is the price charged by a suitable market economy producer in its home market. As long as the statute remains unchanged, we will continue our present practice.

Comment 3: Metalimportexport contends that the statute and the Department's regulations make it difficult if not impossible to predict the basis for calculating foreign market value in any state-controlled economy country proceeding.

Department's Position: We recognize that the difficulty in predicting which surrogate the Department will select is a shortcoming of section 773(c) of the Tariff Act. This is particularly true during the investigatory stage of a proceeding. The uncertainty affects both the petitioner and the respondent. Beyond the investigatory stage, however, the uncertainty ordinarily is reduced. Once we have found a suitable surrogate we are disposed to continue using that surrogate unless we are persuaded a better surrogate exists.

Comment 4: Metalimportexport asserts that foreign market value for state-controlled economy suppliers should not depend upon the existence of a willing surrogate. No market economy supplier having low home market prices could be expected to cooperate willingly and fully with the Department to aid U.S. market access for its competitor. Suppliers with a significant stake in the U.S. market also may be unwilling to cooperate because such cooperation may subject them to scrutiny under the U.S. antidumping law.

Department's Position: We agree with Metalimportexport that, where a foreign producer's prices are used as a surrogate for foreign market value, that producer's motives for cooperating may be questionable. However, unless the law is changed, we will continue to consider a cooperating free market producer's home market prices as the perferred basis for calculating foreign market value.

Comment 5: Metalimportexport recommends in general, and particularly in this case, that the Department consider according priority to the surrogate producer's U.S. prices as the basis for calculating foreign market value. Reliance on the surrogate's U.S. prices would enchance predictability, make the Department's procedures more transparent, avoid the problems of seeking a willing surrogate producer, facilitate adjustments for price comparability, minimize verification difficulties, and overcome the difficulties which result from exchange rate fluctuations.

Department's Position: We agree that using a foreign supplier's prices in the U.S. market as a basis for calculating foreign market value has advantages. It would reduce the uncertainty for both the petitioner and the state-controlled economy producer. However, in this instance, because the Finnish surrogate producer's U.S. sales are currently the subject of an antidumping investigation, use of its prices to the U.S. is inappropriate.

Comment 6: If the Department determines that foreign market value should again be based upon home market prices charged by the Finnish manufacturr, Rautaruukki Oy, Metalimportexport requests that the Department issue its semiannual estimates of foreign market value in the currency of the surrogate economy country.

Department's Position: We agree that, for suspension agreements involving state-controlled economies, it is appropriate to use the stated currency of the relevant sales transactions for the surrogate. We recalculated the estimated foreign market value in terms of Finnish markkas.

Comment 7: The Department received information on adjustments (e.g. year-end rebates, sales commissions) from the Finnish producer during the original investigation but not during this annual review. If the Department determines that foreign market value should again be based upon home market prices charged by Rautaruukki Oy, Metalimportexport requests that the Department update the price adjustment in a manner other than based upon national inflation indices.

Department's Position: The department allowed five different types of price adjustments (year-end rebates, sales commissions, freight equalization, credit and warranty) in its calculation of the last estimated foreign market value. We agree with Metalimportexport's suggested use of adjustment-to-base price ratios and have made the appropriate recalculations.

Comment 8: If the Department continues to use home market prices charged by Rautaruukki Oy, Metalimportexport requests that the Department make an appropriate level of trade adjustment in calculating the foreign market value and, further, that the Department fill in gaps in the Finnish information provided concerning discounts and rebates, through the use of the best information available, cognizant of the inevitably passive position of the state-controlled economy supplier and the total cooperation which Metalimportexport has extended to the Department from the onset of these investigations.

Department's Position: We are unable to make the requested adjustment because Metalimportexport has not provided adequate information for the Department to ascertain the amount of any level of trade adjustment. Further, we are not aware of any discounts or rebates which have not already been accounted for in calculating the estimated foreign market value. It is likely that the discounts or rebates perceived to be unaccounted for are those discussed in the Department's response to comment 11 below.

Comment 9: If the Department continues to use home market prices charged by Rautaruukki Oy, Metalimportexport requests that the Department make an appropriate adjustment for material and labor cost differentials measured by the production factors provided by Metalimportexport and verified by the Department, consistent with the Commerce Regulations.

Department's Position: We are not able to consider the requested adjustment because Metalimportexport has not provided adequate information for the Department to ascertain the amount of any adjustment relating to differences in costs of material and labor.

Comment 10: Metalimportexport has provided information from confidential sources concerning prices charged for carbon steel plate in the Finnish home market which appear to be at variance with those found by the Department. Metalimportexport requests that the Department take steps to ascertain the correct prices charged Finnish home market customers.

Department's Position: The Department has reviewed the information submitted by Metalimportexport and has found it not to be at variance with that reported by the Finnish producer.

Comment 11: Metalimportexport has provided information that, during the period October 1983 until January 4, 1984, there was an official temporary price reduction from Finnish list prices. Metalimportexport requests that the Department account for this additional price reduction.

Department's Position: The Department accounted for the official temporary allowance reduction granted off the Finnish list prices in its calculation of the estimated foreign market value.

Comment 12: Since there were no shipments of Romanian carbon steel plate to the United States during the period of review, the Department used Romanian carbon steel plate shipments to Finland as the best evidence of the product mix of Romanian carbon steel plate which would have entered the United States absent the suspension agreement. U.S. Steel states that this is an error both as a matter of law and as a mater of fact. U.S. Steel asserts that the use of any surrogate for the mix of Romanian carbon steel products in the United States is an error of law. Absent evidence of a sudden and dramatic shift in the preferences of U.S. buyers, the actual Romanian mix prior to the suspension agreement represents the best evidence as to what would have been shipped but for the agreement. U.S. Steel also asserts that the use of the mix of Romanian shipments to Finland as a surrogate for the mix of Romanian shipments to the U.S. is an error of fact. Given the disparity between Finland and the United States in terms of size and degree of sophistication of the steel consuming sector in the United States, U.S. Steel submits that it is inconceivable Finland could ever serve as a surrogate for the United States.

Department's Position: The Department as a matter of law continues to believe that the best evidence of the mix that would have entered the United States during the period of review is the contemporaneous product mix for Finland. As a matter of fact we are not persuaded that a different consumption pattern exists between Finland and the United States.

Comment 13: U.S Steel continues to believe that Italy constitutes the most appropriate surrogate for foreign home market value purposes. Given the difficulty the Department has experienced in obtaining the cooperation of potential surrogates and the enormous amounts of time required to research, analyze and brief the appropriateness (or lack thereof) of each candidate, U.S. Steel states that it will not make further comments unless and until they are informed as to which countries are in fact willing to serve in the surrogate role.

Department's Position: As discussed in our position to Comments 1 and 3 above we are inclined to continue using Finland as a surrogage until we are persuaded a better one exists. A complete explanation of the Department's position and process regarding Finland's selection as a surrogate can be found in the Department's preliminary affirmative determination of August 16, 1982 (47 FR 25646) and the accompanying decision memorandum dated August 9, 1982. We are in agreement with U.S. Steel regarding the difficulty in obtaining cooperation of poetntial surrogates and the extensive amounts of time required to select a willing surrogate.

Final Results of the Review

The final results of our review are the same as those presented in the preliminary results of review. Since there were no shipments of Romanian carbon steel plate to the United States during the period and the other terms of the agreement have been met, we determine that Metalimportexport has complied with the terms of the suspension agreement.

The new estimated foreign market value is effective for all entries, or withdrawals from warehouse, for consumption of Romanian carbon steel plate on or after the date of publication of this notice, and remains in effect until our next semiannual notification.

The Department intends to begin immediately the next administrative review. Interested parties are encouraged to review the public record and submit applications for protective orders, if desired, as early as possible after the Department's receipt of the information during the next administrative review.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 353.53 of the Commerce Regulations (19 CFR 353.53).

Alan F. Holmer,

Deputy Assistant Secretary for Import Administration.

Steel Wire Rope From Japan; Final Results of Administrative Review of Antidumping Finding

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice of Final Results of Administrative Review of Antidumping Finding.

SUMMARY: On December 5, 1983, the Department of Commerce published the preliminary results of its administrative review of the antidumping finding on steel wire rope from Japan. The review covers 101 of the 104 known manufacturers and/or exporters and two known third-country resellers of this merchandise to the United States and the period October 1, 1981 through September 30, 1982.

We gave interested parties an opportunity to comment on the preliminary results. We received no comments. The final results of review are unchanged from those presented in the preliminary results of review.

EFFECTIVE DATE: March 29, 1984.

FOR FURTHER INFORMATION CONTACT: Maureen A. Flannery or John R. Kugelman, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230, telephone: (202) 377-3601.

SUPPLEMENTARY INFORMATION:

Background

On December 5, 1983, the Department of Commerce ("the Department") published in the **Federal Register** (48 FR 54528) the preliminary results of its administrative review of the antidumping finding on steel wire rope from Japan (38 FR 28571, October 15, 1973). The Department has now completed that administrative review.

Scope of the Review

Imports covered by the review are shipments of steel wire rope, except brass electroplated steel truck tire cord of cable construction specially packaged for protection against moisture and atmosphere. Such steel wire rope is currently classifiable under items 642.1200, 642.1400, 642.1500, 642.1600, and 642.1700 of the Tariff Schedules of the United States Annotated.

The review covers 101 of the 104 known manufacturers and/or exporters and two known third-country resellers of Japanese steel wire rope to the United States and the period October 1, 1981 through September 30, 1982. We will cover shipments by three firms, Mitsui

and Co., Ltd., Shinyo Ropes Co., Ltd., and Wire Shoji, in a subsequent review.

Final Results of the Review

Interested parties were invited to comment on the preliminary results. The Department received no written comments or requests for a hearing. Based on our analysis, the final results of our review remain unchanged from the preliminary results of review, and we determine that the following weighted-average margins exist for the period October 1, 1981 through September 30, 1982:

Manufacturer/exporter	Margin (per-cent)

[1] No shipments during the period.
[2] For cash deposit purposes only.

The Department shall determine, and the U.S. Customs Service shall assess, antidumping duties on all appropriate entries. Individual differences between United States price and foreign market value may vary from the percentages stated above. The Department will issue appraisement instructions on each exporter directly to the Customs Service. Appraisement instructions for shipments by Mitsui & Co., Ltd., Shinyo Ropes Co., Ltd., and Wire Shoji will be deferred.

Further, as provided for by § 353.48(b) of the Commerce Regulations, a cash deposit of estimated antidumping duties based on the above margins shall be required on future entries from these firms. Since the weighted-average margin for the manufacturer/exporter combination Marusen Wire Rope Mfg. Co./Yutoku & Co., Ltd. is less than 0.50 percent and, therefore, *de minimis* for cash deposit purposes, the Department shall waive the deposit requirement for shipments of steel wire rope from that manufacturer/exporter combination. For any future entries from a new exporter not covered in this or prior reviews, whose first shipments of steel wire rope occurred after September 30, 1982 and who is unrelated to any reviewed firm, a cash deposit of 7.29 percent shall be required. These deposit requirements and waiver shall remain in effect until publication of the final results of the next administrative review.

The Department intends to begin immediately the next administrative review. The Department encourages interested parties to review the public record and submit applications for protective orders, if desired, as early as possible after the Department's receipt of the information during the next administrative review.

This administative review and notice are in accordance with section 751(a)(1) of the Tariff Act of 1930 (19 U.S.C. 1675(a)(1)) and § 353.53 of the Commerce Regulations (19 CFR 353.53).

Dated: March 21, 1984.

Alan F. Holmer,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

Petitions by Producing Firms for Determinations of Eligibility To Apply for Trade Adjustment Assistance; Golden Crescent, Inc., et al.

Petitions have been accepted for filing from the following firms: (1) Golden Crescent, Inc., P.O. Box 1358, Moultrie, Georgia 31768, producer of men's and women's slacks and shorts (accepted

February 23, 1984); (2) Euro-Style Fashions, Inc., 136 West 21st Street, New York, New York 10011, producer of women's footwear (accepted February 24, 1984); (3) Joseph Sander Supply Company, 3720 14th Avenue, Brooklyn, New York 11218, producer of apparel accessories and headwear (accepted February 24, 1984); (4) Ag-Rain, Inc., 600 S. Schrader Street, Havanna, Illinois 62644, producer of agricultural irrigation equipment (accepted February 28, 1984); (5) Electralloy Corporation, 475 Park Avenue South, New York, New York 10016, producer of stainless steel ingots, bars and plates (accepted February 28, 1984); (6) Josephson's Smokehouse & Dock, P.O. Box 412, Astoria, Oregon 97103, processor of seafood (accepted February 28, 1984); (7) Mid West Glove Corporation, 835 Industrial Road, Chillicothe, Missouri 64601, producer of work gloves (accepted March 5, 1984); (8) Mustang Tripsaver, Inc., P.O. Box 4306, Corpus Christi, Texas 78408, producer of oil field equipment (accepted March 5, 1984); (9) Carissa Creations, Inc., 335 Hudson Street, Hackensack, New Jersey 07601, producer of jewelry (accepted March 5, 1984); (10) Gaynor Electric Company, Inc., P.O. Box 2125, Waterbury, Connecticut 06720, producer of electro-mechanical switches (accepted March 5, 1984); (11) Allied Roll Builders, Inc., P.O. Box 425, Titusville, Pennsylvania 16354, producer of steel rods (accepted March 5, 1984); (12) Tompkins Rubber Company, 550 Township Line Road, Blue Bell, Pennsylvania 19422, producer of rubber components for medical devices (accepted March 6, 1984); (13) East Shoe Chemical Company, Inc., P.O. Box 448, Muskegon, Michigan 49443, producer of organic chemicals (accepted March 6, 1984); (14) Prestini Musical Instruments Corporation, 2301 Patagonia Highway, Nogales, Arizona 85621, producer of musical instrument pads and reeds (accepted March 6, 1984); (15) Allen's Apiaries, Route 1, Box 16B, Payette, Idaho 83661, producer of honey, beeswax and pollen (accepted March 6, 1984); (16) Van Dyk Research Corporation, 45 South Jefferson Road, Whippany, New Jersey 07981, producer of copiers, duplicators and supplies (accepted March 6, 1984); (17) Wayne Floral Company, Inc., P.O. Box 6, Newark, New York 13901, producer of cut flowers and potted plants (accepted March 6, 1984); (18) Federal Packing of Puerto Rico, Inc., P.O. Box 29046, Rio Piedras, Puerto Rico 00929, processor of meat (accepted March 6, 1984); (19) McKeesport Steel Castings Company, 200 25th Street, McKeesport, Pennsylvania 15132, producer of steel castings (accepted March 7, 1984); (20) Horix Manufacturing Company, 1384 Island Avenue, McKees Rocks, Pennsylvania 15136, producer of food processing and other machinery and equipment (accepted March 8, 1984); (21) Kiowa Corporation, 610 S. 12th Avenue, Marshalltown, Iowa 50158, producer of metal diecastings (accepted March 9, 1984); (22) Namsco, Inc., 331 31st Street, Bellwood, Illinois 60104, producer of automotive wheel covers (accepted March 9, 1984); (23) United Speaker Systems, Inc., 6400 Youngerman Circle, Jacksonville, Florida 32244, producer of loudspeakers (accepted March 9, 1984); (24) Stranahan Gear Company, Inc., 1 Cabot Boulevard East, Langhorne, Pennsylvania 19047, producer of industrial gears (accepted March 9, 1984); (25) Swift Engineering Company, Inc., P.O. Box 27, Pontiac, Michigan 48056, producer of machine tools and special machinery (accepted March 9, 1984); (26) Viola Sportswear, Inc., 5115 El Paso Drive, El Paso, Texas 79905, producer of men's and children's pants (accepted March 9, 1984); (27) Quabaug Rubber Company, 17 School Street, North Brookfield, Massachusetts 01535, producer of footwear soles and heels (accepted March 9, 1984); (28) B.M.D. Fashions, Inc., 49 Columbus Boulevard, New Britain, Connecticut 06051, producer of women's tops (accepted March 9, 1984); (29) Curry and Sorensen, Inc., 2105 Edwards Avenue, S. El Monte, California 91733, producer of hand tools (accepted March 9, 1984); (30) Jay Bee Engineering, Inc., 6190 West 55th Avenue, Arvada, Colordo 80002, producer of metal equipment parts (accepted March 9, 1984); (31) Warley Worsted Mills, Inc., 12 Perkins Street, Lowell, Massachusetts 01854, producer of yarn (accepted March 9, 1984); (32) RBC Industries, Inc., 355 E. Ontario Street, Philadelphia, Pennsylvania 19134, producer of plastic toys (accepted March 9, 1984); (33) Loyola Beach Vegetable Company, Box 71, Riviera, Texas 78379, producer of vegetables and fruit (accepted March 9, 1984); (34) MGS, Inc., RD 3, Box 202, Denver, Pennsylvania 17517, producer of fabricated steel components (accepted March 9, 1984); (35) Richmond Sales, Inc., 42 Power Road, Pawtucket, Rhode Island 02860, producer of jewelry (accepted March 9, 1984); (36) Micro Controls, Inc., P.O. Box 728, Burleson, Texas 76028, producer of communication and data transmittal equipment (accepted March 12, 1984); (37) U.S. Synthetic Corporation, 365 S. Mountainway Drive, Orem, Utah 84058, producer of synthetic industrial diamonds and drill bits (accepted March 12, 1984); (38) Ruska Instrument Corporation, 3601 Dunvale, Houston, Texas 77063, producer of measurement, control, calibration and analysis instruments and other electronic products (accepted March 13, 1984); (39) Elegant Knitted Headwear Company, Inc., 195 Front Street, Brooklyn, New York 11201, producer of headwear, scarves and legwarmers (accepted March 13, 1984); (40) Hollywood Lingerie, Inc., 600 Broadway, New York, New York 10013, producer of women's nightgowns and underwear (accepted March 13, 1984); (41) Falcon Sportswear, Inc., 112 Lincoln Avenue, Bronx, New York 10454, producer of men's shirts and women's blouses (accepted March 14, 1984); (42) President Novelty & Jewelry Company, Inc., 104 West 29th Street, New York, New York 10001, producer of jewelry (accepted March 14, 1984); (43) Quad Company, 12 Grove Street, Ballston Spa, New York 12020, producer of wood trunings and plastic snowballs and packaging inserts (accepted March 14, 1984); (44) Elwood Manufacturing Company, 105 S. St. Louis Street, Elwood, Illinois 60421, producer of agricultural tractor components (accepted March 15, 1984); (45) The Zeller Corporation, P.O. Box 278, Defiance, Ohio 43512, producer of automotive parts (accepted March 16, 1984); (46) Vatco Industries Corporation, 184 Everett Avenue, Allston, Massachusetts 02134, producer of automotive seat covers and cushions (accepted March 19, 1984); (47) Selvin Shoe Manufacturing Company, 2413 Eastern Avenue, Baltimore Maryland 21224, producer of men's, women's and children's footwear (accepted March 19, 1984); (48) Metros Company, 1499 Delp Drive, Harleysville, Pennsylvania 19438, producer of metal-working, parts-handling and assembly machines (accepted March 19, 1984).

The petitions were submitted pursuant to Section 251 of the Trade Act of 1974 (Pub. L. 93–618) and § 315.23 of the Adjustment Assistance Regulations for Firms and Communities (13 CFR Part 315). Consequently, the United States Department of Commerce has initiated separate investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received

by the Director, Certification Division, Office of Trade Adjustment Assistance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business of the tenth calendar day following the publication of this notice.

The Catalog of Federal Domestic Assistance official program number and title of the program under which these petitions are submitted is 11.309, Trade Adjustment Assistance. Inasfar as this notice involves petitions for the determination of eligibility under the Trade Act of 1974, the requirements of Office of Management and Budget Circular No. A–95 regarding review by clearinghouses do not apply.

Jack W. Osburn, Jr.,

Director, Certification Division, Office of Trade Adjustment Assistance.

National Oceanic and Atmospheric Administration

Delaware Coastal Management Program, et al.; Intent To Evaluate

AGENCY: National Oceanic and Atmospheric Administration, National Ocean Service, Office of Ocean and Coastal Resource Management, Commerce.

ACTION: Notice of intent to evaluate.

SUMMARY: The National Oceanic and Atmospheric Administration, National Ocean Service, Office of Ocean and Coastal Resource Management (OCRM), announces its intent to evaluate the performance of the Delaware Coastal Management Program (CMP); Louisiana CMP; Michigan CMP; New Jersey CMP; Wisconsin CMP; and Washington National Estuarine Sanctuary (Padilla Bay) through June 1984. These reviews will be conducted pursuant to Section 312 of the Coastal Zone Management Act (CZMA) which requires a continuing review of the performance of the states with respect to coastal management, and their adherence to the terms of financial assistance awards funded under the CZMA. Coastal zone management is funded under Section 306, and the Estauarine Sanctuary program is authorized by Section 315, CZMA. The reviews involve consideration of written submissions, a site visit to the state, and consultations with interested Federal, state and local agencies and members of the public. Public meetings will be held as part of the site visits. The state will issue notice of these meetings. A subsequent notice will be placed in the **Federal Register** announcing the availability of the Final Findings based on each evaluation once these are completed.

FOR FURTHER INFORMATION CONTACT: John H. McLeod, Acting Evaluation Officer, Policy Coordination Division, Office of Ocean and Coastal Resource Management, National Ocean Service, NOAA, 3300 Whitehaven Street NW., Washington, D.C. 20235 (telephone: 202/634–4245).

(Federal Domestic Assistance Catalog 11.419 Coastal Zone Management Program Administration)

Dated: March 21, 1984.

Peter L. Tweedt,

Director, Office of Ocean and Coastal Resource Management.

BILLING CODE 3510–DR–M

Evaluation of State/Territorial Coastal Management Programs, Coastal Energy Impact Programs and National Estuarine Sanctuaries; Availability of Findings

AGENCY: National Oceanic and Atmospheric Administration, National Ocean Service, Office of Ocean and Coastal Resource Management, Commerce.

ACTION: Notice of availability of evaluation findings.

SUMMARY: Notice is hereby given of the availability of the evaluation findings for Oregon, Alaska, Florida, Mississippi, Guam, and Northern Mariana Islands Coastal Zone Management Programs, and/or Coastal Energy Impact Programs and/or National Estuarine Sanctuaries. Section 312 of the Coastal Zone Management Act of 1972, as amended, requires a continuing review of the performance of each coastal state with respect to the implementation of its federally approved Coastal Management Program, Coastal Energy Impact Program, and National Estuarine Sanctuary financial assistance awards. The states and territories evaluated were found to be adhering both to the programmatic terms of their financial assistance awards and/or to their approved coastal management programs; and to be making progress on award tasks, special award conditions, and significant improvement tasks aimed at program implementation and enforcement, as appropriate. Accomplishments in implementing coastal zone management programs were occurring with respect to the national coastal management objectives identified in Section 303(2)(A)–(I) of the Coastal Zone Management Act.

A copy of the assessment and detailed findings for these programs may be obtained on request from: John H. McLeod, Acting Evaluation Officer, Policy Coordination Division, Office of Ocean and Coastal Resource Management, National Ocean Service, NOAA, 3300 Whitehaven Street NW., Washington, D.C. 20235 (telephone: 202/634–4245).

BILLING CODE 3510–DR–M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcing an Increase in the Import Limits for Certain Cotton Apparel Products From Indonesia

March 23, 1984.

ACTION: Increasing by the application of carryforward the import limits for men's and boys' woven cotton shirts in Category 340 from 324,210 dozen to 344,818 dozen and for cotton trousers in Category 347/348 from 579,519 dozen to 616,108 dozen, produced or manufactured in Indonesia and exported during the twelve-month period which began on July 1, 1983.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924) and December 14, 1983 (48 FR 55607), and December 30, 1983 (48 FR 57584).

SUMMARY: The Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement of November 9, 1982 between the Governments of the United States and Indonesia provides, among other things, for the borrowing of yardage from the succeeding year's level (carryforward) with the amount used being deducted from the level in the succeeding year. At the request of the Government of Indonesia, increases for carryforward are being applied to the restraint limits for cotton textile products in Categories 340 and 347/348.

EFFECTIVE DATE: March 23, 1984.

FOR FURTHER INFORMATION CONTACT: Diana Bass, International Trade Specialist, Office of Textiles and

Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377–4212).

SUPPLEMENTARY INFORMATION: On June 30, 1983, a letter was published in the **Federal Register** (48 FR 30181) from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, which established restraint limits for Categories 340 and 347/348, produced or manufactured in Indonesia and exported to the United States during the twelve-month period which began on July 1, 1983 and extends through June 30, 1984. In accordance with the terms of the bilateral agreement, and at the request of the Government of Indonesia, the United States Government has agreed to increase the limits for cotton textile products in Categories 340 and 347/348. Accordingly, in the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to increase the levels to the designated amounts.

Ronald I. Levin,

Acting Chairman, Committee for the Implementation of Textile Agreements.

March 23, 1984.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: On June 24, 1983, the Chairman, Committee for the Implementation of Textile Agreements, directed you to prohibit entry of goods exported during the twelve-month period beginning on July 1, 1983 and extending through June 30, 1984 of certain cotton textile products, produced or manufactured in Indonesia, in excess of designated limits. The Chairman further advised you that the limits are subject to adjustment.[1]

Effective on March 23, 1984, the directive of June 24, 1983 is hereby amended to include the following adjusted twelve-month limit for for cotton textile products in Categories 340 and 347/348, produced or manufactured in Indonesia and exported during the twelve-month period which began on July 1, 1983.

Category	Adjusted 12-mo. limit [1]
340	344,818 dozen.
347/348	616,108 dozen.

[1] The limits have not been adjusted to account for any imports after June 30, 1983.

[1] The term "adjustment" refers to those provisions of the Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement of November 9, 1982, between the Governments of the United States and Indonesia which provide, in part, that: (1) specific levels of restraint may be increased for carryover and carryforward up to 11 percent of the applicable category limit; and (2) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement.

The action taken with respect to the Government of the Republic of Indonesia and with respect to cotton textile products from Indonesia has been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register**.

Sincerely,

Ronald I. Levin,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-DR-M

COMMODITY FUTURES TRADING COMMISSION

Chicago Mercantile Exchange and MidAmerica Commodity Exchange: Proposed Amendments Relating to the Live Cattle Futures Contracts

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of proposed contract market rule changes.

SUMMARY: The Chicago Mercantile Exchange (CME) and MidAmerica Commodity Exchange (MCE) have submitted proposals to amend their live cattle futures contracts. The proposed amendments would revise the list of exchange-approved delivery points on both the CME and MCE live cattle contracts. The Commodity Futures Trading Commission ("Commission") has determined that the proposals are of major economic significance and that, accordingly, publication of these proposals is in the public interest, will assist the Commission in considering the views of interested persons, and is consistent with the purposes of the Commodity Exchange Act.

DATE: Comments should be received on or before April 30, 1984.

ADDRESS: Interested persons should submit their views and comments to Jane K. Stuckey, Secretary, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581. Reference should be made to CME and MCE live cattle futures contracts.

FOR FURTHER INFORMATION CONTACT: Fred Linse, Division of Economics and Education, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581, (202) 254–6990.

SUPPLEMENTARY INFORMATION: The current CME and MCE live cattle contracts specify par delivery of cattle at any of six exchange-approved locations: Peoria, Illinois; Joliet, Illinois; Omaha, Nebraska; Sioux City, Iowa; Guymon, Oklahoma; and Greeley, Colorado. Under the CME and MCE proposals, Dodge City, Kansas and Amarillo, Texas would be designated as new delivery points on the live cattle contract and Guymon, Oklahoma would be deleted from the current list of Exchange-approved delivery points. The proposed delivery points at Dodge City and Amarillo would be added at par subject to the requirements that cattle delivered at these points must be in the yards by 9:00 a.m. on the day of delivery and must stand without feed and water prior to weighing.

The CME states that the propposed designation of new delivery points at Dodge City, Kansas and Amarillo, Texas is based on structural changes which have occurred in the cattle industry. According to the CME, since 1965 the number of fed cattle marketed has declined in the Eastern Corn Belt and increased dramatically in the Plains states, primarily in the states of Texas and Kansas. The CME further indicates that during this time period, structural changes in the cattle slaughter industry have paralleled the changes that have been occurring in the location of cattle marketings. The CME states that cattle slaughter has decreased in the Corn Belt and increased sharply in the Plains states, particularly in the states of Texas, Nebraska and Kansas.

The CME believes that the designation of new delivery points in Kansas and Texas would reflect the shift of production and slaughter from the Corn Belt to the Plains region. The CME submits that delivery facilities at Amarillo, Texas and at Dodge City, Kansas have the physical capacity to accommodate CME deliveries. The CME states that the number of pens, the number of scales and the number of USDA graders at the two locations is comparable to or surpasses the physice facilities at existing live cattle delivery points. The CME further maintains that the designation of the two new delivery points should not increase the uncertainty faced by long traders with respect to the location of the point of delivery. The CME states that there are a sufficient number of major beef packers located in the current CME live cattle delivery areas which also operate plants in the Amarillo and Dodge City areas.

Under the CME's proposal, Guymon would be deleted from the list of delivery points on the live cattle contract. The CME indicates that during most years since 1975, deliveries at Guymon have accounted for a very

small percentage of total CME live cattle deliveries. The CME further states that becasue USDA graders must travel to Guymon to grade CME deliveries, deliveries made at Guymon are more expensive than at other exchange-approved delivery points. The CME maintains that the addition of the two new delivery points at Amarillo and Dodge City would serve the same geographic region as currently served by Guymon while eliminating the need to dislocate USDA graders for CME deliveries. The CME believes that the elimination of a delivery point at Guymon, Oklahoma will have a minimal impact on producers and packers in that area and would reduce the potential for market congestion which might result from an inadequate number of graders to evaluate CME deliveries if Guymon was retained as a delivery point given the proposed addition of delivery points at Amarillo and Dodge City.

The CME is also proposing that cattle delivered at Amarillo, Texas and Dodge City, Kansas must be in the yards no later than 9:00 a.m. on the day of delivery and must stand without feed and water prior to weighing. The CME states that a specification of a 9:00 a.m. stand at Amarillo and Dodge City would facilitate USDA grading of the cattle. The CME submits that Southern Plains cattle traditionally are marketed at a lighter weight than Corn Belt cattle or Northern Plains cattle and that lighter weight cattle have a greater percentage of intestinal fill. The CME indicates that with a 9:00 a.m. stand, cattle delivered at Amarillo and Dodge City would receive their final feeding the evening prior to delivery and, thus, shrink would occur prior to grading and the degree of fill among deliveries should be consistent.

The MidAmerica Commodity Exchange (MCE) has also submitted a proposal to amend its live cattle contract which would be analogous to the proposed CME live cattle amendments. The MCE indicates that the current terms and conditions of the MCE's 20,000 pound live cattle contract are deliberately designed to parallel the terms and conditions of the CME's 40,000 pound live cattle contract in order to provide MCE members and their customers access to the liquidity and price discovery mechanism of the CME live cattle futures market through inter-market spreading. As a result, according to the MCE, an active two-for-one MCE to CME contract inter-market spread has developed. The MCE indicates that the proposed changes in the CME contract would create adverse consequences for inter-market spreaders without appropriate amendments to MCE rules. Therefore, the MCE is proposing amendments which would conform to those proposed by the CME as noted above.

The MCE submits that during the past five years, the volume of slaughter cattle marketings in the Dodge City and Amarillo areas has been among the largest in the United States. The MCE maintains that because of the high number of feedlots and packers in both areas, a substantial number of potential futures market participants, including producers in western Kansas, the Oklahoma panhandle and northwestern Texas, could make delivery at either Amarillo or Dodge City. The MCE further indicates that several of the largest packers have slaughter facilities in the regions close to the proposed delivery points, which the MCE feels would provide a market for cattle and prices equivalent to those at other exchange-approved delivery points.

The MCE further believes that the proposed Amarillo delivery point would be superior to the current Guymon delivery point due to the high concentration of packers in the Amarillo area, which the MCE maintains would provide a more liquid cash market. The MCE also states that because USDA graders have to travel to Guymon to grade MCE live cattle deliveries, deliveries to Guymon are more expensive to the short than deliveries at other exchange-approved delivery points. The MCE submits that due to the additional grding costs of Guymon deliveries, the effectiveness of the Guymon delivery point for cash/futures arbitrage and assurance of cash/futures convergence is limited. The MCE indicates that there have been no MCE live cattle deliveries at Guymon during the past five years.

The proposed amendments to the CME and MCE live cattle futues contracts would become effective after Commission approval for all contract months subsequently listed by the ERxchanges for trading, but would not be applicable to currently listed months.

In accordance with Section 5a(12) of the Community Exchange Act, 7 U.S.C. 7a(12) (1982), the Commission has determined that the proposals submitted by the CME and MCE concerning their live cattle futures contracts are of major economic significance. Accordingly, the CME and MCE proposals will be available for inspection at the Office of the secretariat, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581. Copies can be obtained through the Office of the Secretariat by mail at the above address or by phone at (202) 254–6314.

Other materials submitted by the CME and MCE in support of the proposed rules may be available upon request pursuant to the Freedom of Information Act (5 U.S.C. 552) and the Commission's regulations thereunder (17 CFR Part 145 (1982)). Requests for copies of such materials should be made to the FOIA, Privacy and Sunshine Acts Compliance Staff of the Office of the Secretariat at the Commission's headquarters in accordance with 17 CFR 145.7 and 145.8.

Any person interested in submitting written data, views or arguments on the proposed amendments should send such comments to Jane K. Stuckey, Secretary, Commodity Futures Trading Commission, 2033, K Street NW., Washington, D.C. 20581, by April 30, 1984. Such comment letters will be publicly available except to the extent they are entitled to confidential treatment as set forth in 17 CFR 145.5 and 145.9.

Issued in Washington, D.C. on March 26, 1984.

Jane K. Studkey,

Secretary to the Commission.

BILLING CODE 6351–01–M

CONSUMER PRODUCT SAFETY COMMISSION

Notification of Proposed Collection of Information Survey of Households With Coal or Wood-burning Appliances

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1981 (44 U.S.C. 3501 *et seq.*) the Consumer Product Safety Commission has submitted to the Office of Management and Budget a request for approval through August 31, 1984, of a proposed collection of information in the form of a survey of households having a wood-burning fireplace, a wood or coal-burning stove, a fireplace insert, or a wood-burning furnace.

The survey is intended to provide information about types and ages of wood and coal-burning heating equipment now in use; types of chimneys and chimney connectors; types of fuel; patterns of use; and fire incidents and injuries associated with these appliances. The Commission staff will use the information obtained from this survey to assign relative risks of fire

among wood and coal-burning appliances.

Additional Details About the Proposed Collection of Information

Agency Address: Consumer Product Safety Commission, 1111 18th Street NW., Washington, D.C. 20207.

Title of Information Collection: Solid Fuel Appliance and Chimney Survey.

Type of Request: New plan.

Frequency of Collection: One time.

General Description of Respondents: Households having a wood-burning fireplace, wood or coal-burning stove, fireplace insert, or wood-burning furnace.

Estimated Number of Respondents: 700.

Estimated Number of Hours per Response: 0.25.

Comments: Comments on this request for approval of a proposed collection of information should be addressed to Andy Velez Rivera, Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, Washingtoin, D.C. 20503; telephone (202) 395–7313. Copies of the request for approval of the proposed collection of information are available from Francine Shacter, Office of Budget, Program Planning, and Evaluation, Consumer Product Safety Commission, Washington, D.C. 20207; telephone (301) 492–6529.

This is not a proposal to which 44 U.S.C. 3504(h) is applicable.

Dated: March 26, 1984.

Sayde E. Dunn,

Secretary, Consumer Product Safety Commission.

[FR Doc. 84-8479 Filed 3-28-84; 8:45 am]

BILLING CODE 6355-01-M

DEPARTMENT OF DEFENSE

Department of the Army

Corps of Engineers

Intent To Prepare a Draft Environmental Impact Statement (DEIS); Water Resources Management Study for the Oswego River Watershed, NY, Under Resolution of the House Committee on Public Works Adopted on 11 April 1974 (House Document Number 846, 76th Congress)

AGENCY: U.S. Army Corps of Engineers District, Buffalo, DOD.

ACTION: Notice of Intent to prepare a Draft Environmental Impact Statement (DEIS).

Proposed Action: The proposed action would result in implementing new lake level regulation plans (target rule curves) on Canandaigua Lake, Keuka Lake, Owasco Lake, Skaneateles Lake, and Otisco Lake. No new target rule curve will be initiated on either Seneca Lake or Cayuga Lake; however, the Basis of Comparison (an adjusted standard to provide a uniform standard profile of existing conditions) will be modified due to the fact that a new target rule curve will be implemented on Keuka Lake. Keuka Lake flows directly into Seneca Lake, which in turn flows into Cayuga Lake. Therefore, under the new Keuka Lake target rule curve, minor changes to existing conditions on Seneca Lake and Cayuga Lake are expected. In addition, to implement the new target rule curve on Canandaigua Lake and Keuka Lake some structural modification in their outlets must be constructed. Canandaigua outlet modifications will require about 4 miles of channelization from the lake downstream to Chapin, NY, and construction of a new control structure. Keuka Lake will require the removal of an earthen weir at the lake outlet and construction of a new control structure in its place. There will be no change to the current operating policy on Oneida Lake.

Alternatives Considered: Each of the eight lakes was examined to determine it specific characteristics hydraulically, hydrologically, environmentally, and economically. These parameters created the bounds within which a computer model was operated to produce new target rule curves. In excess of 100 target rule curves were evaluated for the eight lakes involved in this study.

Plans Considered in Detail: In addition to the No Action alternative, a resource management plan was considered in detail. These alternative plans are briefly described below.

a. *No Action*—This alternative plan implies that the Federal Government acting through the Corps of Engineers, would neither make any structural modifications within the project area nor initiate implementation of any new lake level regulation plans. Operation of existing control structures would continue in accordance with existing target rule curves.

b. *Resource Management Plan*—This is a composite plan. It is made up of eight distinct parts. Each of the eight lakes was evaluated individually, in order to determine which new target rule curve and/or structural measures would maximize the planning objectives for that lake. Once the component parts of the plan were determined, they were combined to form the management plan for the watershed (reference Proposed Action).

Public Involvement: Considerable public involvement has been conducted for the Oswego Watershed project. Six public workshops were conducted from November 1982 through August 1983 at various locations throughout the watershed. During each session public input was solicited.

Issues: Significant issues to be evaluated in the DEIS and/or feasibility report will be impacts from new target rule curves, the construction of new control structures, channelization, and disposal of dredged and excavated material. These impacts will be analyzed to determine both positive and negative impacts upon the following parameters: Flood control, water supply, water quality, fish and wildlife, recreation, navigation, hydropower generations, and irrigation. In addition all applicable laws and statutes outlined in 40 CFR 1502.25 and Corps of Engineers Regulation ER 200–2–2 will be reviewed and consulted during the preparation and review of the DEIS.

Scoping Needs: No scoping meeting will be held, since adequate coordination has already been conducted. A public meeting will be scheduled during the DEIS review period.

Availability: The Draft Environmental Impact Statement should be available for public review on or about June 1984.

ADDRESS: Questions about the proposed action and DEIS can be answered by Dr. Stephen Yaksich, project manager, of the Water Quality Branch, U.S. Army Engineer District, Buffalo, 1776 Niagara Street, Buffalo, NY, 14207, telephone number (716) 876–5454, extension 2272.

Dated: March 22, 1984.

Robert R. Hardiman,

Colonel, Corps of Engineers, District Commander.

BILLING CODE 3710-GF-M

DEPARTMENT OF EDUCATION

Office of Postsecondary Education

Veterans' Cost-of-Instruction Payments program; Payments to Institutions of Higher Education; Application Notice for Transmittal of Applications for New Awards for Fiscal Year 1984

Applications for new awards are invited from institutions of higher education under the Veterans' Cost-of-Instruction Payments Program. This program issues awards to institutions or combinations of institutions of higher

education to assist them in providing specific services to veterans.

Authority for this program is contained in Section 420 of the Higher Education Act of 1965, as amended, 20 U.S.C. 1070e–1.

Closing Date for Transmittal of Applications: An application for a new award must be mailed or hand delivered by May 11, 1984.

Applications delivered by Mail: An application sent by mail must be addressed to the U.S. Department of Education, Veterans' Cost-of-Instruction Program Branch (Room 3514, ROB–3) 400 Maryland Avenue, SW., Washington, D.C. 20202.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the Secretary of Education.

If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing: (1) a private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail. Each late applicant will be notified that its application will not be considered.

Applications Delivered by Hand: An application to be hand delivered must be taken to the U.S. Department of Education, Veterans' Cost-of-Instruction Program Branch (Room 3514, ROB–3) 7th and D Street, SW., Washington, D.C. Hand delivered applications will not be accepted after 4 p.m. on the closing date.

Program Information and Application Forms: Program information packages and application forms are expected to be ready for mailing by April 6, 1984. They may be obtained by writing to the U.S. Department of Education, Office of Postsecondary Education, Veterans' Cost-of-Instruction Program Branch (Room 3514, ROB–3) 400 Maryland Avenue, SW., Washington, D.C. 20202.

Available Funds: There is authorized 3.0 million dollars for new awards under this program in fiscal year 1984.

Applicable Regulations: The regulations applicable to this Program include the following:

(a) Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75, 77, and 78); and

(b) Regulations governing the Veterans' Cost-of-Instruction Payments to Institutions of Higher Education (34 CFR Part 629).

Further Information: For further information contact Dr. James F. Rogers, Chief, Veterans' Cost-of-Instruction Program Branch, U.S. Department of Education (Room 3514, ROB–3) 400 Maryland Avenue, SW., Washington, D.C. 20202. Telephone: 202–245–2806.

(20 U.S.C. 1070e–1)

Dated: March 26, 1984.

(Catalog of Federal Domestic Assistance Number 84.540; Higher Education Veterans' Cost-of-Instruction Program (VCIP))

Edward M. Elmendorf,

Assistant Secretary for Postsecondary Education.

BILLING CODE 4000–01–M

DEPARTMENT OF ENERGY

National Petroleum Council, Distribution Task Group of the Committee on the Strategic Petroleum Reserve; Meeting

Notice is hereby given that the Distribution Task Group of the Committee on the Strategic Petroleum Reserve will meet in April 1984. The National Petroleum Council was established to provide advice, information, and recommendations to the Secretary of Energy on matters relating to oil and natural gas or the oil and natural gas industries. The Committee on the Strategic Petroleum Reserve will address various aspects of the Strategic Petroleum Reserve and the long-term availability and movement patterns of tankers worldwide. Its analysis and findings will be based on information and data to be gathered by the various task groups. The time, location, and agenda of the Distribution Task Group meeting follows:

The Coordinating Subcommittee will hold its first meeting on Thursday, April 12, 1984, starting at 9:00 a.m., in Room 3507, Exxon Company, U.S.A., 800 Bell Avenue, Houston, Texas.

The tentative agenda for the Distribution Task Group meeting follows:

1. Opening remarks by Chairman and Government Cochairman.

2. Discuss the scope of the overall study.

3. Discuss the study assignment of the Distribution Task Group.

4. Discuss any other matters pertinent to the overall assignment from the Secretary of Energy.

The meeting is open to the public. The Chairman of the Distribution Task Group is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Distribution Task Group will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Gerald J. Parker, Office of Oil, Gas and Shale Technology, Fossil Energy, 301/353–3032 prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Summary minutes of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room 1E–190, DOE Forrestal Building, 1000 Independence Avenue SW., Washington, D.C., between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday, except Federal holidays.

Issued at Washington, D.C., on March 22, 1984.

William A. Vaughan,

Assistant Secretary, Fossil Energy.

[FR Doc. 84–8486 Filed 3–28–84; 8:45 am]

BILLING CODE 6450–01–M

Review of Enforcement Case Settlements; Increased Public Participation

AGENCY: Department of Energy.

ACTION: Notice of increased public participation in the review of enforcement case settlements.

SUMMARY: The Department of Energy is seeking increased public participation in the review and assessment of proposed settlements of cases involving the enforcement of federal petroleum price and allocation regulations. Wider public participation will be invited in the review of proposed consent orders in which the amount of liability in controversy exceeds ten million dollars and in which disputed issues covering a wide range of regulatory matters are resolved. In these cases, the public will be provided detailed information on the basis and rationale of the proposed settlement and will be invited to participate in a public hearing on the settlement. The public hearing will expand the opportunity for interested persons to provide information, comments and recommendations to the Department of Energy as to whether a proposed consent order should be made

final, modified or rejected by the Department as not in the public interest. The procedures described in this notice will be conducted pursuant to the regulations governing the issuance of consent orders. See 10 CFR 205.199J.

FOR FURTHER INFORMATION CONTACT: Milton C. Lorenz, Special Counsel, or Carl A. Corrallo, Solicitor, Economic Regulatory Administration, Forrestal Building, 1000 Independence Avenue SW., Washington, D.C. 20585, (202) 252–8900 or 252–4167.

Background

Since 1979, Department of Energy procedural regulations have formally provided for "consent orders" which may resolve any or all outstanding compliance proceedings involving a person or firm subject to the now-terminated federal petroleum price and allocation regulations. 10 CFR 205.199J. The procedure for making proposed consent orders involving more than $500,000 (excluding interest and penalties) final orders requires a notice in the **Federal Register** that invites written public comments on the settlement. Following a comment period of at least thirty days, the Department may reject the proposed consent order, or it may decide to make the proposed consent order a final order. The decision to make a proposed order final is also published in the **Federal Register.**

In following this procedure in the past, the Department has provided in its public notices summary information on proposed consent orders, and the notices have emphasized the remedial terms of the settlements. The comments received in response to these notices have focused primarily on the disposition of the settlement refunds. Comments generally have not been received on other aspects of settlement agreements, including the Department's rationale and basis for proposing a settlement. The Department wishes to provide information to enable the public to understand fully the reasons a settlement is considered by the Department to be in the public interest and to encourage public comment on the adequacy of and rationale for the settlement.

The Department has carefully reviewed its consent order procedures to determine if they could be utilized in a manner that would enhance the public comment process. Settlements remain the Department's preferred method of resolving these complex and expensive litigation matters, and to the extent such settlements can be reached, the public should be provided a full explanation and opportunity for comment. As a result of this review the Department's consent order procedures will be applied in a manner designed to enhance the public's participation in the review of proposed settlements.

Procedure

The process for the review of a proposed consent order begins with a **Federal Register** notice that will provide comprehensive information on the settlement. Information will be included on the audit findings, the negotiation process, enforcement actions pending against the company, disputed issues resolved, the impact of the disputed issues on overcharge calculations, maximum overcharge liability, litigation risks, and the amount proposed to be paid in resolution of the disputed issues. The proposed consent order will also be included in this notice.

Following the **Federal Register** notice, there will be the thirty-day written comment period during which interested persons may submit information, comments and recommendations to the Department on the proposed settlement.

Upon completion of the comment period, the Economic Regulatory Administration will hold a public hearing to receive oral comment on the proposed settlement. The public hearing will be announced in the **Federal Register** notice on the proposed consent order. The hearing will be presided over by the ERA Administrator or his designee, along with a panel of enforcement officials from the ERA and the Department's Office of General Counsel. Oral comment will be received from any interested person, with reasonable time limitations imposed to permit broad public participation. Comments will be received on all aspects of the settlement, with the exception of its remedial provisions. The remedial provisions will be subject to public comment and participation before the Office of Hearings and Appeals if, and after, the consent order is made final. The hearing will be recorded with transcripts available to the public.

The information from the written comments and the public hearing will be reviewed by ERA and OGC enforcement officials and the proposed settlement will be evaluated on the basis of this information. The consent order will be renegotiated and revised, as necessary, with a decision on a final order made by the ERA Administrator.

Notice of the final consent order will be published in the **Federal Register,** and the notice will address the significant written and oral comments, as well as any other considerations that were relevant to the Administrator's decision. The text of the final order will be included in the notice.

This increased public participation will be sought for all consent orders in which the amount in controversy exceeds ten million dollars (excluding interest and civil penalties) and in which a wide range of issues are resolved. Settlements for $500,000 or more, regardless of the amount in controversy or the range of issues, will continue to be published for public comment in the **Federal Register.**

Issued in Washington, D.C., on March 23, 1984.

Donald Paul Hodel,

Secretary of Energy.

[FR Doc. 84-8467 Filed 3-28-84; 8:45 am]

BILLING CODE 6450-01-M

Economic Regulatory Administration

[Docket No. ERA-FC-84-007; OFP Case No. 61048-9245-20-24]

Powerplant and Industrial Fuel Use; Prohibition Orders, Exemption Requests; Calcogen, Inc.

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Notice of Acceptance of Petition for Exemption and Availability of Certification by Calcogen, Inc.

SUMMARY: On February 28, 1984, Calcogen, Inc. (Calcogen) filed a petition with the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) requesting a permanent cogeneration exemption for a proposed electric powerplant to be located at the Metropolitan State Hospital, Norwalk, California, from the prohibitions of Title II of the Powerplant and Industrial Fuel Use of 1978 (42 U.S.C. 8301 *et seq.*) ("FUA" or "the Act"). Title II of FUA prohibits both the use of petroleum and natural gas as a primary energy source in any new powerplant and the construction of any such facility without the capability to use an alternate fuel as a primary energy source. Final rules setting forth criteria and procedures for petitioning for exemptions from the prohibitions of Title II of FUA are found in 10 CFR Parts 500, 501, and 503. Final rules governing the cogeneration exemption were revised on June 25, 1982 (47 FR 29209, July 6, 1982), and are found at 10 CFR 503.37.

The proposed powerplant for which the petition was filed is an approximately 27 MW (net) combined cycle cogeneration facility consisting of: (1) A gas turbine generator, (2) a waste heat recovery steam generator, and (3) a steam extraction turbine generator. The

plant will burn only natural gas. It is expected that virtually all of the net annual electric power produced by the cogenerator will be sold to Southern California Edison (SCE), making the cogeneration facility an electric powerplant pursuant to the definitions contained in 10 CFR 500.2. The facility will produce approximately 12,625 lbs. of steam per hour which will supply Metropolitan Hospital's needs. Calcogen will operate the facility.

ERA has determined that the petition appears to include sufficient evidence to support an ERA determination on the exemption request and it is therefore accepted pursuant to 10 CFR 501.3. A review of the petition is provided in the SUPPLEMENTARY INFORMATION section below.

As provided for in sections 701 (c) and (d) of FUA and 10 CFR 501.31 and 501.33, interested persons are invited to submit written comments in regard to this petition and any interested person may submit a written request that ERA convene a public hearing.

The public file containing a copy of this Notice of Acceptance and Availability of Certification as well as other documents and supporting materials on this proceeding is available upon request through DOE, Freedom of Information Reading Room, 1000 Independence Avenue, SW., Room 1E-190, Washington, D.C. 20585, Monday through Friday, 8:00 a.m. to 4:00 p.m., except Federal holidays.

ERA will issue a final order granting or denying the petition for exemption from the prohibitions of the Act within six months after the end of the period for public comment and hearing, unless ERA extends such period. Notice of any such extenson, together with a statement of reasons therefor, would be published in the **Federal Register**.

DATES: Written comments are due on or before May 14, 1984. A request for a public hearing must be made within this same 45-day period.

ADDRESSES: Fifteen copies of written comments or a request for a public hearing shall be submitted to: Case Control Unit, Office of Fuels Programs, Room GA-007, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C. 20585.

Docket No. ERA-FC-84-007 should be printed on the outside of the envelope and the document contained therein.

FOR FURTHER INFORMATION CONTACT:

George G. Blackmore, Office of Fuels Programs, Economic Regulatory Administration, 1000 Independence Avenue, SW., Room GA-073L, Washington, D.C. 20585, Phone (202) 252-1774

Marya Rowan, Office of the General Counsel, Department of Energy, Forrestal Building, Room 6A-141, 1000 Independence Avenue, SW., Washington, D.C. 20585, Phone (202) 252-6739

SUPPLEMENTARY INFORMATION: Calcogen proposes to install a cogeneration system at Metropolitan Hospital, Norwalk, California, which will: (1) Generate electrical power for sale to SCE, and (2) produce steam to meet the hospital's heating and cooling requirements. The proposed cogeneration system will be operated by Calcogen. The system will consist of a gas turbine generator which will produce electric power, a waste heat recovery system, and an extraction steam turbine which will produce steam and additional electric power for sale to SCE.

The cogeneration facility is classified as an electric powerplant under FUA because more than 50 percent of its net annual electric generation will be sold.

Section 212(c) of the Act and 10 CFR 503.37 provide for a permanent cogeneration exemption from the prohibitions of Title II of FUA. In accordance with the requirements of § 503.37(a)(1), Calcogen has certified to ERA that:

1. The oil or gas to be consumed by the cogeneration facility will be less than that which would otherwise be consumed in the absence of the cogeneration facility, where the calculation of savings is in accordance with 10 CFR 503.37(b); and

2. The use of a mixture of petroleum or natural gas and an alternate fuel in the congeneration facility, for which an exemption under 10 CFR 503.38 would be available, would not be economically or technically feasible.

In accordance with the evidentiary requirements of § 503.37(c) (and in addition to the certifications discussed above), Calcogen has also included as part of its petition:

1. Exhibits containing the basis for the certifications described above; and

2. An environmental impact analysis, as required under 10 CFR 503.13.

In processing this exemption request, ERA will comply with the requirements of the National Environmental Policy Act of 1969 (NEPA); the Council on Environmental Quality's implementing regulations, 40 CFR Part 1500 *et seq.*; and DOE's guidelines implementing those regulations, published at 45 FR 20694, March 28, 1980. NEPA compliance may involve the preparation of: (1) An Environmental Impact Statement (EIS); (2) an Environmental Assessment; or (3) a memorandum to the file finding that the grant of the requested exemption would not be considered a major Federal action significantly affecting the quality of the environment. If an EIS is determined to be required, ERA will publish a Notice of Intent to prepare an EIS in the **Federal Register** as soon as practicable. No final action will be taken on the exemption petition until ERA's NEPA compliance has been completed.

The acceptance of the petition by ERA does not constitute a determination that Calcogen is entitled to the exemption requested. That determination will be based on the entire record of this proceeding, including any comments received during the public comment period provided for in this notice.

Issued in Washington, D.C., on March 23, 1984.

Robert L. Davies,

Director, Coal & Electricity Division, Office of Fuels Programs, Economic Regulatory Administration.

[FR Doc. 84-8383 Filed 3-28-84; 8:45 am]

BILLING CODE 6450-01-M

Energy Information Administration

American Statistical Association Committee on Energy Statistics

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the American Statistical Association's Committee on Energy Statistics will meet with representatives of the Energy Information Administration (EIA) on Thursday, April 12, 1984, at the J. W. Marriott Hotel, 1331 Pennsylvania Avenue, Northwest, Washington, D.C., from 1:30 p.m. to approximately 5:00 p.m. The meeting will continue on Friday, April 13, 1984, in the J. W. Marriott Hotel, from 9:00 a.m. until approximately 3:30 p.m.

The purpose of the meeting is to enable the EIA to utilize the American Statistical Association's Committee on Energy Statistics to obtain advice on EIA programs and to benefit from the Committee's expertise concerning other energy statistical matters.

The tentative agenda is as follows:

A. Opening Remarks

B. Major Topics:

1. Progress Report: Approaches to Verifying Model Documentation
2. Estimating Changes in Household Energy Characteristics
3. EIA's Quality Audit Program
4. Progress Report: Quality Control Activities in the Petroleum Supply Division
5. EIA Sampling Processes

a. Sampling Multiple Attributes
b. EIA–782 Phase II Sample Design and Estimation
c. Frames Development Methodology
6. Progress Report: Consistency Between Forecasts in the *Short-Term Energy Outlook* and the *Annual Energy Outlook*
7. Short-Term Price Forecasting Methodology
8. Adjusting for Data Shifts Due to Changes in Survey Forms and Definitions

C. Public Comments
D. Topics for Future Meetings

The meeting is open to the public. Any member of the public may file a written statement with the EIA for forwarding to the Committee, either before or after the meeting. Members of the public who wish to make oral statements pertaining to agenda items should inform Ms. Kathleen Repass Weigl, EIA Committee Liaison, (202) 252–6463, or Dr. Fred C. Leone, Executive Director of the American Statistical Association, (202) 393–3253, at least five days prior to the meeting and reasonable provisions will be made to include their presentations on the agenda. Subsequent to approval by the Committee, minutes of an executive summary of the meeting will be available for public review and copying at the Office of Planning and Resources, EI–32, EIA, 1000 Independence Avenue, SW., Rooom 2H–055, Washington, D.C. 20585, (202) 252–6460, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday.

Issued at Washington, D.C., on March 22, 1984.

J. Erich Evered,

Administrator, Energy Information Administration.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Docket No. QF84–166–000]

Air Products and Chemicals, Inc.; Application for Commission Certification of Qualifying Status of a Cogeneration Facility

March 26, 1984.

On February 2, 1984, Air Products and Chemicals, Inc. (Applicant) of P.O. Box 538, Allentown, Pennsylvania 18105, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility will be located at 14700 Intracoastal Drive, New Orleans, Louisiana. The facility will consist of a combustion turbine generator, a connecting steam generator, and a waste heat recovery boiler. The primary energy source of the facility will be natural gas. The useful thermal energy output, which is in the form of steam, will be utilized in chemical production processes. The electric power production capacity of the facility will be 23 megawatts.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. RP81–67–005]

Black Marlin Pipeline Co.; Tariff Filing

March 26, 1984

Take notice that on March 16, 1984, Black Marlin Pipeline Company (Black Marlin) tendered for filing First Revised Sheet No. 1 and Original Sheet Nos. 24 through 61 to Original Volume No. 2 of its FERC Gas Tariff to be effective September 1, 1982.

Black Marlin states that the filing is in compliance with a rate investigation settlement approved by the Commission on August 27, 1982 *(Black Marlin Pipeline Company,* Docket No. RP81–67–000; 20 FERC ¶61,297), and is for the purpose of including in Volume No. 2 of its FERC Gas Tariff a special contract for the sale of gas produced in Southeast Pescadito Field, Webb County, Texas, to Transcontinental Gas Pipe Line Corporation. This special contract was inadvertently overlooked in Black Marlin's earlier compliance filing. Black Marlin states that a copy of this filing is available for public inspection at its general office at Two Greenway Plaza East, Houston, Texas, and that copies have been served on all parties in Docket No. 81–67–000.

Any person desiring to be heard or to protest said filing should file a petition to invervene or protest with the Federal Energy Regulatory Commission 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 FERC 385.211 and 385.214). All such petitions or protests should be filed on or before April 4, 1984. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to this proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. CP84–104–001]

Columbia Gas Transmission Corp.; Request Under Blanket Authorization

March 23, 1984.

Take notice that on March 19, 1984, Columbia Gas Transmission Corporation (Columbia Transmission), 1700 MacCorkle Avenue SE., Charleston, West Virginia 25314, filed in Docket No. CP84–104–001 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) that Columbia Transmission proposes to continue to transport natural gas on behalf of GTE Products Corporation (GTE) under the authorization issued in Docket No. CP83–76–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

By notice issued December 27, 1983, pursuant to the prior notice and protest procedure set forth in 18 CFR 157.205, Columbia Transmission received authorization to transport up to 3.7 billion Btu equivalent of natural gas per day through May 9, 1984, to GTE's Versailles, Kentucky, plant.

Columbia Transmission proposes to continue the above-described transportation through June 30, 1985, on the same terms and conditions as the existing transportation authority.

Any person or the Commission's staff may, within 45 days after issuance of

the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Acting Secretary.

[FR Doc. 84-8451 Filed 3-28-84; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP84-271-000]

Columbia Gas Transmission Corp.; Request Under Blanket Authorization

March 23, 1984.

Take notice that on March 1, 1984, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25314, filed in Docket No. CP84-271-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) that Columbia proposes to transport natural gas on behalf of Lancaster Colony Corporation (Lancaster) under the authorization issued in Docket No. CP83-76-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Specifically, Columbia proposes to transport up to 150 million Btu of natural gas per day for Lancaster for a term of one year. Columbia states that the gas to be transported would be purchased from John C. Mason (Mason) by Lancaster and would be used for boiler fuel in Lancaster's plant in Leesburg, Ohio.

Columbia states that it has released certain gas supplies which Lancaster has purchased from Mason and that these supplies are subject to the ceiling price provisions of sections 103, 107 and 108 of the Natural Gas Policy Act of 1978. It is indicated that Columbia would receive up to 150 million Btu of natural gas per day delivered into its pipeline system at existing interconnections in Holmes and Coshocton Counties, Ohio, and would redeliver such gas to Pike Natural Gas Company, the distribution company serving Lancaster.

Further, Columbia states that depending upon whether its gathering facilities are involved, it would charge either (1) its average system-wide storage and transmission charge, currently 40.11 cents per dt equivalent of gas, exclusive of company-use and unaccounted-for gas, or (2) its average system-wide storage, transmission and gathering charge, currently 44.93 cents per dt, exclusive of company-use and unaccounted-for gas. Columbia states that it would retain 2.85 percent of the total quantity of gas delivered into its system for company-use and unaccounted-for gas. Columbia also states that it is charging the Gas Research Institute Funding Unit.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Acting Secretary.

H L T Energy Inc., et al.; Applications for "Small Producer" Certificates [1]

March 23, 1984.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the Regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make protest with reference to said applications should on or before April 10, 1984, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

BILLING CODE 6717-01-M

[Docket No. GP84-25-000]

JM Resources; Request for Relief of Refund Obligation

Issued: March 23, 1984.

On October 24, 1983, J M Resources (JM) filed a request for relief of refunds and interest with the Federal Energy Regulatory Commission (Commission) arising from certain actions taken by the National Fuel Supply Company (National Fuel). JM claimed that National Fuel overpaid JM amounts due under their gas purchase contract and that National Fuel wrongful withheld amounts owed to JM to recoup their overpayments with interest.

JM sells gas produced from its Lepp No. 4 and Newbury No. 6 wells to

National Fuel. JM states that both of these wells produce gas qualifying under section 107 of the National Gas Policy Act of 1978 (NGPA) 15 U.S.C. 3301–3432 (1982) as tight formation gas. The terms of the subject contract provided for a price limitation of either the lesser of: (1) Ninety percent of the average posted price of No. 6 fuel oil per MMBtu or (2) one hundred and fifty percent of the maximum lawful price specified in section 103(b) of the NGPA. On December 27, 1982, the parties amended the contract to provide, commencing January 1, 1983, the price of $4.00 per Mcf plus escalation by the amount of increase per month in the price of NGPA section 103 gas.[1] JM states that National Fuel disregarded the contract price limitation and paid the full section 107(c)(5) price.

On April 15, 1983, National Fuel notified JM that during an internal audit it discovered that it overpaid JM Resources for a fifteen month period between February 1982 and April 1983. National Fuel requested that JM refund the overpayments with interest. The amount of the overpayments equals $11,506.13, plus interest, for gas purchased from the subject wells.

JM states that when it received payments from National Fuel at the tight formation gas ceiling rates, it assumed National Fuel decided to treat this gas in conformity with its other section 107 contracts and pay the full section 107 price. JM states that it did not feel that it was unusual, illegal, or immoral for it to accept payment of the full section 107 price despite the contractual price limitation. JM attributes this situation to the inaction and negligence on the part of National Fuel.

JM requests that the Commission take jurisdiction of this matter and grant relief from National Fuel's assessment of the overpayments plus interest against JM.

Any person desiring to be heard or to make any protest to this petition should file a motion to intervene or a protest in accordance with the requirements of Rules 211 or 214 of the Commission's Rules of Practice and Procedure. The motion should be filed within 30 days after notice is published in the **Federal Register**, with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington D.C. 20426. The Commission will consider all protests filed, but the filing of a protest will not make the protestants parties to the proceedings.

Lois D. Cashell,

Acting Secretary.

[FR Doc. 84-8455 Filed 3-28-84; 8:45 am]

BILLING CODE 6717-01-M

[1] The original contract price and the renegotiated contract price are below the ceiling rate for section 107(c)(5) tight formation gas as set forth in § 271.703(a).

[Docket No. G–5716–013, et al.]

Mobil Oil Corp. & Mobil Producing Texas & New Mexico Inc. (Successor to Northern Natural Gas Producing Co.); Petition To Amend Certificates of Public Convenience and Necessity, Redesignate Rate Schedules, and Substitute Mobil Oil Corp. & Mobil Producing Texas & New Mexico Inc. as a Party

March 23, 1984.

Take notice that on January 19, 1984, Mobil Oil Corporation (Mobil) and Mobil Producing Texas & New Mexico Inc. (Mobil Producing) of Nine Greenway Plaza, Suite 2700, Houston, Texas 70046, filed an application for Certificates of Public Convenience and Necessity to render service previously authorized by the Commission under Certificates of Public Convenience and Necessity heretofore issued to Northern Natural Gas Producing Company (Northern) and for substitution of Mobil and Mobil Producing for Northern in any other related proceedings as listed in the attched appendix.

Effective December 31, 1983, Northern Natural Gas Producing Company was merged into Mobil Oil Corporation and by General Conveyance entered into and make effective from December 31, 1983, Mobil assigned to Mobil Producing certain properties located in the States of New Mexico and Texas. Mobil and Mobil Producing hereby adopts, ratifies and makes its own in every respect the Rate Schedules as listed in the attached appendix heretofore filed with the Commission by Northern.

Any person desiring to be heard or to make any protests with reference to said applications should on or before April 9, 1984, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, .214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Lois D. Cashell,

Acting Secretary.

MIGC, Inc.; Proposed Purchased Gas Adjustment Rate Change

March 26, 1984.

Take notice that on March 16, 1984, MIGC, Inc. tendered for filing copies of Twenty-Ninth Revised Sheet No. 32 and Fifth Revised Sheet No. 32–A to its FERC Gas Tariff Original Volume No. 1, as required by the Commission's Rules and Regulations under the Natural Gas Act.

MIGC's Twenty-Ninth Revised Sheet No. 32 and Fifth Revised Sheet No. 32–A provide for a Purchased Gas Adjustment rate decrease of 19.12¢ per MMBtu effective May 1, 1984 in order (1) to provide for a current gas cost adjustment to permit MIGC to reflect the lower cost of gas purchases which it is currently incurring (Table II); (2) to provide for an adjustment to MIGC's unrecovered Purchased Gas Cost Account as of January 31, 1983 and January 31, 1984 (Table III); (3) to recover carrying charges as permitted under FERC Order No. 47 (Table VI) as set forth in MIGC's First Revised Sheet No. 31–A, (4) to set forth projected incremental pricing surcharges to become effective May 1, 1984 (Fifth Revised Sheet No. 32–A)[1]; and (5) to reflect a surcharge to permit MIGC to recover production related charges pursuant to FERC Order No. 94–A. 18 CFR 271.1100, *et seq.*

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with the Rules 214 and 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214 and 385.211). All such petitions or protests should be filed on or before April 4, 1984. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for the public inspection.

[Docket No. RP81-49-021]

Natural Gas Pipeline Company of America; Change in FERC Gas Tariff

March 26, 1984.

Take notice that on March 20, 1984, Natural Gas Pipeline Company of America (Natural) submitted to be a part of its FERC Gas Tariff, Third Revised Volume No. 1, the below listed tariff sheets to be effective May 1, 1984.

Fifty-fifth Revised Sheet No. 5
Twenty-second Revised Sheet No. 5A
Tenth Revised Sheet No. 5B
Fifth Revised Sheet No. 8
Second Revised Sheet No. 13
Seventh Revised Sheet No. 14
Seventh Revised Sheet No. 116
Fourth Revised Sheet No. 117
Sixth Revised Sheet No. 121

Natural states that the purpose of this filing is to implement the cost allocation and rate design procedures in compliance with (1) Commission Order Affirming in Part and Modifying in Part Initial Decision, issued November 4, 1983, and (2) Article II of the Stipulation and Agreement approved May 13, 1982, at Docket No. RP81–49.

Natural states that a copy of the filing was mailed to Natural's jurisdictional customers, interested sate commisions, and all parties listed on the official service list in Docket No. RP81–49.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commision, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with the requirements of Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests must be filed on or before April 5, 1984. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. TA84-2-37-002]

Northwest Pipeline Corp.; Change in Rates

March 23, 1984.

Take notice that on March 21, 1984, Northwest Pipeline Corporation ("Northwest") tendered for filing and acceptance as part of its F.E.R.C. Gas Tariff, First Revised Volume No. 1, the following tariff sheets:

Substitute Thirteenth Revised Sheet No. 10
Fourteenth Revised Sheet No. 10

The tendered tariff sheets provide for a change in rates applicable to service rendered under rate schedules affected by and subject to Article 16, "Purchased Gas Cost Adjustment Provision" ("PGA"). Such change in rates is for the purpose of implementing a reduction in purchased gas costs which will result from Commission approval of Northwest's certificate application in Docket No. CP84–294–000 authorizing the sale and delivery of incentive priced Canadian gas to certain distribution customers of Northwest for resale to designated end users who would otherwise switch to alternate fuels.

Both Substitute Thirteenth Revised and Fourteenth Revised Sheet No. 10 contain the rate reduction referred to above. Thirteenth Revised Sheet No. 10 is provided in the event Commission authorization in Docket CP84–294–000 is received prior to April 1, 1984. An effective date of April 1, 1984 is requested for this sheet. Fourteenth Revised Sheet No. 10 is provided in the event Commission approval in Docket No. CP84–294–000 is not received prior to April 1, 1984. An effective date concurrent with the Commission approval of the above referenced docket is requested for this sheet.

A copy of this filing has been served on all parties of record in Docket No. RP72–154 and on all jurisdictional customers and affected state regulatory commissions.

Any persons desiring to be heard or protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capital Street, NE., Washington D.C. 20426, in accordance with Rules 211 or 214 of the Commission's rules of Practice and Procedure. All such petitions or protests should be filed on or before March 30, 1984. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Onsite Energy—San Juan Creek Athletic Club; Application for Commission Certification of Qualifying Status of a Cogeneration Facility

March 26, 1984.

On March 8, 1984, Onsite Energy (Applicant), of 10951 Sorrento Valley Road, Suite II–S, San Diego, California 92121, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility will be located at the San Juan Creek Athletic Club, 33061 Camino Capistrano, San Juan Capistrano, California. The facility will consist of a reciprocating engine generator unit with waste heat recovery equipment. The primary energy source for the facility will be natural gas. The useful thermal energy output will be used for swimming pool heating, jacuzzi heating, and/or pre-heating of domestic hot water. The electric power production capacity of the facility will be 60 kilowatts.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. QF84-198-000]

Tenneco Oil Company—Oxford Lease; Application for Commission Certification of Qualifying Status of a Congeneration Facility

March 26, 1984.

On March 5, 1984, Tenneco Oil Company, (Applicant) of P.O. Box 9909 Bakersfield, California 93389, submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility will be located on the Oxford Lease (Federal Serial #SAC–019392) in the Midway-Sunset field, Kern County, California. The facility will consist of two separate cogneration units. Each unit will consist of a combustion turbine generator, a duct system, and a waste heat recovery boiler. The primary energy source for the facility will be natural gas. The useful thermal energy output, which is in the form of steam, will be used in enhanced oil recovery. Each unit will have an electric power production capacity of 2600 kilowatts. The total electric power production capacity of the facility will be 5200 kilowats.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. G-2601-003, et al.]

Getty Oil Company, et al.; Applications for Certificates, Abandonments of Service and Petitions To Amend Certificates[1]

March 23, 1984.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before April 11, 1984, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, .214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Lois D. Cashell,

Acting Secretary.

---

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

[1] Acreage in the assignment dedicated to this contract has been assigned to J. P. Oil Company.
[2] Effective September 1, 1983, Phillips Petroleum Company assigned to Phillips Oil Company its interest in the Call and Sand leases, both located in Nueces County, Texas.
[3] By assignments dated March 25, 1982, and April 29, 1983, certain leases were assigned to Kirby Exploration Company et al. and to Taylor Energy Company, respectively.
[4] Applicant is filing under Gas Sales Contract dated May 26, 1983, amended by Supplemental Gas Purchase Agreement dated March 8, 1984.
[5] The referenced wells have now been depleted and are not capable of commercial production. Lario has now plugged these wells, which were the last two producing wells dedicated under the referenced contract.
[6] Collapsed casing: Uneconomical.
[7] It has become uneconomical to maintain this facility given the low volume of production received.
[8] Depletion of reserves and expiration of leases.
[9] Applicant is filing under Gas Purchase Contract dated February 13, 1984.
[10] Reserves depleted, all wells plugged and abandoned, contract terminated.
[11] Applicant is filing under Gas Purchase Contract dated February 17, 1984.
[12] Applicant is filing under Gas Purchase Contract dated January 23, 1984.
[13] Applicant is filing under Gas Purchase and Sales Agreement dated February 20, 1984.
Filing Code: A—Initial Service. B—Abandonment. C—Amendment to add acreage. D—Amendment to delete acreage. E—Total Succession. F—Partial Succession.

BILLING CODE 6717–01–M

Determination Under the Natural Gas Policy Act for OCS Leases Issued on or After April 20, 1977

March 12, 1984.

On September 27, 1983, the Federal Energy Regulatory Commission (Commission) issued Order No. 336 under Docket Nos. RM83–3 and RM81–12 (48 FR 44508 September 29, 1983). In that order, the Commission amended its regulations relating to filing requirements for well category applications under the Natural Gas Policy Act of 1978 (NGPA). The determination process for natural gas produced from a new lease, i.e., a lease entered into on or after April 20, 1977, on the Outer Continental Shelf (OCS), and qualifying as new natural gas under Section 102 of the NGPA, was amended in two respects. First, the Commission eliminated the requirement that a determination be made for each well producing gas from a new OCS lease. Second, in lieu of filing an application for each well, the Commission now permits the grant of a new OCS lease to constitute the requisite jurisdictional agency determination that the gas is produced from a new OCS lease.

Under the new procedures, the U.S. Department of Interior, Minerals Management Service (MMS), must file within 60 days of the grant of the lease a notice of determination which includes the lease number, the area and block number, and the date on which the OCS lease was issued by the Secretary of the Interior. This determination is subject to Commission review in the same manner as other jurisdictional agency determinations.

On February 28, 1984, the Commission received notice from MMS, Pacific OCS Region, that on November 30, 1983, MMS conducted a lease offering for the Pacific Outer Continental Shelf region. Included in this offering were lease numbers OCS–P–0503 through OCS–P–0510. The legal description for these leases is:

Lease No.	Legal description	Effective date
OCS–P–0503	[illegible]	[illegible]
OCS–P–0504	[illegible]	[illegible]
OCS–P–0505	[illegible]	[illegible]
OCS–P–0506	[illegible]	[illegible]
OCS–P–0507	[illegible]	[illegible]
OCS–P–0508	[illegible]	[illegible]
OCS–P–0509	[illegible]	[illegible]
OCS–P–0510	[illegible]	[illegible]

Pursuant to Order No. 336, these leases have been determined to qualify under NGPA Section 102(c)(1)(A), as new OCS leases granted on or after April 20, 1977. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of this notice in the Federal Register.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

FEDERAL RESERVE SYSTEM

Matewan Bancshares, Inc., et al.; Formations of; Acquisitions by; and Mergers of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (49 FR 794) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than April 20, 1984.

A. **Federal Reserve Bank of Richmond** (Lloyd W. Bostian, Jr., Vice President), 701 East Byrd Street, Richmond, Virginia 23261:

1. *Matewan Bancshares, Inc.*, Matewan, West Virginia; to become a bank holding company by acquiring 100 percent of the voting shares of The Matewan National Bank, Matewan, West Virginia.

B. **Federal Reserve Bank of Dallas** (Anthony J. Montelaro, Vice President), 400 South Akard Street, Dallas, Texas 75222:

1. *CNB Financial Corporation, Inc.*, Taylor, Texas; to become a bank holding company by acquiring 80 percent of the voting shares of The City National Bank of Taylor, Taylor, Texas.

2. *SoBank, Inc.*, Tyler, Texas; to acquire 100 percent of the voting shares of South Broadway Bank, Tyler, Texas, a *de novo* bank.

Board of Governors of the Federal Reserve System, March 23, 1984.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

Pacific Western Bancshares; Application to Engage de Novo in Permissible Nonbanking Activities

The company listed in this notice has filed an application under § 225.23(a)(1) of the Board's Regulation Y (49 FR 794) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (49 FR 794) to commence or to engage *de novo*, either directly or through a subsidiary, in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views of writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than April 19, 1984.

A. **Federal Reserve Bank of San Francisco** (Harry W. Green, Vice President) 101 Market Street, San Francisco, California 94105:

1. *Pracific Western Bancshares*, San Jose, California; to engage *de novo* through its subsidiary Western Capital Management Corporation, San Jose, California, in the provision of investment advisory services to financial institutions, public agencies, corportations and individuals, including portfolio investment advice, general economic information and studies, and the development of investment policies, procedures and recommendations.

Board of Governors of the Federal Reserve System, March 23, 1984.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

Public Workshop; Anesthetic Management of the Pediatric Dental Patient

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing a forthcoming public workshop on appropriate use of drugs and methods for managing the pediatric patient requiring dental procedures.

DATE: The workshop will be held on May 22, 8:30 a.m. to 5 p.m. and on May 23, 8:30 a.m. to 12 m.

ADDRESS: The meeting will be held at the National Institutes of Health (NIH), Bldg. 1, Wilson Hall, 9000 Rockville Pike, Bethesda, MD.

FOR FURTHER INFORMATION CONTACT: James Hannan, Center for Drugs and Biologics (formerly National Center for Drugs and Biologics) (HFN-160), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3500.

SUPPLEMENTARY INFORMATION: Managing pediatric patients needing extensive dental treatment who are occasionally uncooperative is a persistent problem in dental therapy. Pediatric patients may respond erratically to sedative type drugs, and administering nitrous oxide is often difficult, if not impossible. Various psychological and physical management techniques have been developed and used with varying degrees of success. Pharmacologic management using narcotic analgesics has remained a popular method among some dentists in dealing with the pediatric patient. However, potential life threatening adverse reactions have been reported when narcotics are administered for sedation. The meeting will provide a forum to discuss: (1) The various management techniques for the pediatric dental patient; (2) possible guidelines for the use of conscious sedation, deep sedation, and general anesthesia in the pediatric dental patient; and (3) monitoring for possible problems when drugs are administered to the pediatric

patient and the proper preparation for managing emergency situations.

Requests for information on the meeting should be directed to James Hannan (address above).

Dated: March 23, 1984.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160-01-M

Health Care Financing Administration

Medicaid Program; Hearing; Reconsideration of Disapproval of a Pennsylvania State Plan Amendment

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Notice of hearing.

SUMMARY: This notice announces an administrative hearing on May 1, 1984, in Philadelphia, Pennsylvania, to reconsider our decision to disapprove Pennsylvania State Plan Amendment 83–11.

DATE: Requests to participate in the hearing as a party must be received by April 13, 1984.

FOR FURTHER INFORMATION CONTACT: Docket Clerk, Hearings Staff, Bureau of Eligibility, Reimbursement and Coverage, 365 East High Rise, 6325 Security Boulevard, Baltimore, Maryland, 21207, Telephone: (301) 594–8261.

SUPPLEMENTARY INFORMATION: This notice announces an administrative hearing to reconsider our decision to disapprove a Pennsylvania State Plan Amendment.

Section 1116 of the Social Security Act and 45 CFR Parts 201 and 213 establish Department procedures that provide an administrative hearing for reconsideration of a disapproval of a State plan or plan amendment. HCFA is required to publish a copy of the notice to a State Medicaid Agency that informs the agency of the time and place of the hearing and the issues to be considered. (If we subsequently notify the agency of additional issues which will be considered at the hearing, we will also publish that notice.)

Any individual or group that wants to participate in the hearing as a party must petition the Hearing Officer within 15 days after publication of this notice, in accordance with the requirements contained in 45 CFR 213.15(b)(2). Any interested person or organization that wants to participate as amicus curiae must petition the Hearing Officer before the hearing begins, in accordance with the requirements contained in 45 CFR 213.15(c)(1).

If the hearing is later rescheduled, the Hearing Officer will notify all participants.

The issue in this matter is whether Pennsylvania's request to place restrictions on payment to skilled nursing facilities (SNFs) for services furnished to Medicare-eligible recipients violates Section 1902(a)(23) and 1902(a)(13)(A) of the Social Security Act and Medicaid regulations at 42 CFR 431.51 and 42 CFR 440.240. Under the State's proposed plan amendment, the State would deny payment for the first 100 days that Medicaid eligible recipient receives services in a SNF that does not participate in medicare. For SNFs that are Medicare-participating, no payment would be made for the first 20 days and only the Medicare SNF coinsurance amount would be paid for days 21 through 100; if care is furnished in a non-Medicare certified bed in such a facility, no payment would be made for the first 100 days.

Section 1902(a)(23) and Medicaid regulations at 42 CFR 431.51 require a State plan to ensure that recipients may obtain services from any qualified provider that undertakes to provide the services. HCFA has determined that the proposed amendment would violate section 1902(a)(23) in that recipients eligible for both Medicare and Medicaid would be denied admission to certain qualified facilities of their choice as a result of the State's policy of not providing full reimbursement.

Regulations at 42 CFR 440.240 require that the services available to a categorically needy recipient cannot be less in amount, duration, or scope than those available to a medically needy recipient, and that the services available to either the categorically needy group or to a covered medically needy group must be available equally in amount, duration, and scope for all recipients within the group. The proposed amendment would result in Medicare-eligible recipients receiving less coverage for SNF services than would other recipients. Therefore, HCFA has determined that the proposed amendment would be in violation of the comparability of services requirement, in regulations at 42 CFR 440.240.

Finally, section 1902(a)(13)(A) requires that States make payment for long-term care facility services through the use of rates that are reasonable and adequate to meet the costs that must be incurred by efficiently and economically operated providers to provide services in conformity with applicable State and Federal laws, regulations, and quality and safety standards. HCFA has determined that the proposed amendment is in violation of section 1902(a)(13)(A) of the Act because, by denying payment for the first 100 days that a Medicare-eligible Medicaid recipient receives services in a SNF that does not participate in Medicare, it would preclude reimbursement of reasonable and adequate payment rates as required by the statute governing payments to medicaid providers.

The notice to Pennsylvania announcing an administrative hearing to reconsider our disapproval of its State plan amendment reads as follows:

Mr. **Gerald F. Radke,**
Deputy Secretary for Medical Assistance,
Department of Public Welfare
Harrisburg, Pennsylvania 17120

Dear Mr. Radke:

This is to advise you that your request for reconsideration of the decision to disapprove Pennsylvania State Plan Amendment 83–11 was received on February 23, 1984. You have requested a reconsideration of whether this plan amendment, which would place restrictions on payment to skilled nursing facilities for services furnished to Medicare-eligible recipients, conforms to the requirements for approval under the Social Security Act and pertinent Federal requirements.

I am scheduling a hearing on your request to be held on May 1, 1984, at 10 a.m., in the Third Floor Conference Room, 3535 Market Street, Philadelphia, Pennsylvania 19104. If this date is not acceptable, we would be glad to set another date that is mutually agreeable to the parties.

I am designating Mr. Albert Miller as the presiding official. If these arrangements present any problems, please contact the Docket Clerk. In order to facilitate any communication which may be necessary between the parties to the hearing, please notify the Docket Clerk of the names of the individuals who will represent the State at the hearing. The Docket Clerk be reached at (301) 594–8261.

Sincerely yours,

Carolyne K. Davis, Ph.D.

(Sec. 1116 of the Social Security Act (42 U.S.C. 1316))

(Catalog of Federal Domestic Assistance Program No. 13.714, Medical Assistance Program)

Dated: March 21 1984.

Carolyne K. Davis,

Administrator, Health Care Financing Administration.

BILLING CODE 4120-03-M

Social Security Administration

Transitional-Employment Training Demonstration Program: Announcement of the Availability of Grant Funds

The Acting Commissioner of Social Security announces that applications will be accepted for grants to support the development and operation of programs providing transitional-employment training services to mentally retarded recipients of Supplemental Security Income (SSI). These grants are authorized under section 1110(a) of the Social Security Act, as amended. This announcement describes the nature of the grant activities and grantee (grant recipient) requirements, and gives notice of the anticipated availability of Fiscal Year 1984 funds in support of the proposed activities.

Program Purpose

The grants announced here are intended to promote development of transitional-employment training. The grants form part of a demonstration and research program that will provide experience with transitional-employment training programs for mentally retarded SSI recipients and information about the effects of such programs on long-term employment and the receipt of SSI benefits.

These objectives will be pursued through the combined efforts of the grantees and an independent research contractor who has already been selected by the Social Security Administration (SSA). Grantees will be reponsible for planning their transitional-employment training programs, providing a range of services, collecting research data from and about participating individuals, and maintaining data on program operations. The research contractor will document the services provided by grantees, evaluate the impact of services on participants, and analyze the cost-effectiveness of service.

Transitional Employment and Training Model

Grantees under this demonstration must offer programs which serve a specific population, provide a range of services conforming to a general intervention model specified in the detailed guidelines for applicants, and offer certain organizational strengths.

Population to be Served. The population to be served by the transitional-employment training program operators consists of mentally retarded SSI recipients between the ages of 18 and 40. Grantees will conduct outreach activities with referral agencies and/or individual potential participants to encourage participation.

Grantees will be expected to (1) screen individuals and evaluate their potential to be trained and placed in competitive employment; and (2) determine the appropriate services to be provided to the individuals. The sample of individuals actually enrolled in demonstration programs will therefore be drawn from a subset of the full population of mentally retarded SSI recipients between the ages of 18 and 40.

Service Model. The demonstration is intended to test the effects of transitional services to help retarded individuals obtain and retain permanent employment in the competitive job market. Under the service model to be tested in this demonstration, the grantee will:

1. Provide participants with training in specific vocational skills (for example, attendance, time management, production, social interaction, and following directions). Grantees must provide such training at least primarily, if not entirely, in ordinary work environments among non-retarded co-workers.
2. Place participants in competitive jobs with the potential for permanent employment.
3. Provide post-placement support and follow-up as needed to promote job retention.

Grant guidelines contained in the application kit explain the component services that the grantees must provide to conform to the service model and the latitude that is left to the grantees for designing their own particular programs.

The demonstration focuses on a *transitional* service model, rather than a model which implies a permanent or long-term support role to maintain employment of retarded individuals. Grantees will be expected to ensure that all the services described above are provided to each participant as necessary. The total intervention for each participant under the demonstration project is expected to vary from a few months to a year.

Demonstration Scale and Duration. Grant awards are expected to be issued in the spring of 1984 and will be for a maximum period of two-and-a-half years. The grant period will include an initial planning period of up to five months, the period of full program operation, and a period for orderly phase-out of program operations supported by grant funds. It is anticipated that demonstration participants would be enrolled over the first six to nine months of operations, beginning in October 1984.

Given the research requirements for adequate sample size aggregated across all demonstration grant programs, each grantee will be expected to provide services for a substantial number of participants. It is presently anticipated that each grantee will enroll and provide services to between 30 and 100 participants over the course of the demonstration, and that the grantees will conduct outreach activities to generate the desired level of volunteers from among the population potentially eligible for participation.

Organizational Eligibility Requirements. Grants may be awarded to State or local governments and public or private nonprofit organizations or agencies. Applications will also be considered which include cooperative arrangements with other service operators in order to meet the enrollment target of 30 to 100 participants. Grant applicants should be able to demonstrate substantial experience in providing employment-related services to the mentally retarded. They should also be able to demonstrate the financial stability and organizational resources necessary to develop and manage the type of project described here. One condition of being awarded a grant will be a commitment on the part of the grant applicants to cooperate with the research contractor in conducting the demonstration programs. The applicants must also collect and provide data to the research contractor in accordance with specifications set forth in the guidelines provided to grant applicants and in subsequently developed data collection procedures.

Research-Related Requirements

Although grants are intended to assist grantees in providing services, each grantee will also be expected to accommodate the research objectives of the overall project activity and to cooperate fully with the research contractor in achieving evaluation objectives. Grantees will be expected to: (1) adhere to their proposed service plans as approved by SSA; (2) maintain detailed data on resource use and costs, programs services and placements provided to participants, and intake screenings and assessments of demonstration participants; (3) provide the resulting data to the research contractor through an established reporting procedure; (4) adhere to the policies and procedures established for assessing the abilities of participants and selecting participants; (5) adhere to

the policies and procedures established for data collection; and (6) participate in periodic meetings and interviews with the research contractor's staff and representatives of the other demonstration grantees.

Availability and Duration of Funding

SSA anticipates allocating a total of $2.1 million for the transitional-employment training demonstration grants among 5 to 9 grantees. These figures are intended to provide some guidance as to the magnitude of grantee programs which will be feasible, but they are subject to change. Grant awards will be issued for the full period including the planning, operation, and phase-out of the project. Actual award of grants is contingent on availability of funds.

The Application Process

1. *Availability of application forms.* Application kits which contain the prescribed application forms and detailed program guidelines are available upon request. Requests for application kits should be directed by mail or telephone to Social Security Administration, Division of Contracts and Grants Management, OMBP, Grants Management Branch, Dogwood West Building, First Floor, 1848 Gwynn Oak Avenue, Baltimore, Maryland 21207. Telephone (301) 594–0284, Lawrence H. Pullen, Chief, Grants Management Branch.

When requesting an application kit, the applicant should request a kit for grants under section 1110 of the Social Security Act and refer to this announcement to ensure receipt of the proper application.

2. *Additional Information.* For questions concerning project development, please contact Dr. Aaron J. Prero, Office of Research, Statistics, and International Policy, OP, SSA, Room 2–0–5 Annex Building, 6401 Security Boulevard, Baltimore, Maryland 21235, telephone (301) 594–6594 or 594–6591.

3. *Additional Submission.* To be considered for these section 1110 grants, all applications must be submitted on the standard forms provided by the Division of contracts and Grants Management. The application shall be executed by an individual authorized to act for the applicant agency and to assume for the agency the obligations imposed by the terms and conditions of the grant.

4. *Grantees Share of the Project Costs.* Grant recipients receiving assistance to conduct section 1110(a) projects are expected to contribute towards the project costs. Generally, contributing 25 percent of the total cost of the activity is considered acceptable. No grant will be awarded that covers 100 percent of the project's costs.

5. *Application Consideration.* Applications are initially screened for their relevance to this announcement. If judged irrelevant, the applications are returned to the applicants. Relevant applications are reviewed and evaluated by a review panel of not less than three experts. A written assessment of each application is made.

6. *Application Approval.* Following the approval of the applications selected for funding, grant awards will be issued within the limits of Federal Funds available. The grant awards will be issued in August 1984. The official award document is the "Notice of Grant Award." It will provide the amount of funds awarded, the purpose of the award, the budget period for which support is given, the total project period for which support is comtemplated, and the total grantee participation.

Criteria for Review and Evaluation of Application

Competing applications will be reviewed and evaluated against the following criteria:

1. Do the qualifications of the project personnel indicate they are capable of competently performing their assigned tasks? Are the assignments of responsibility for portions of the project and the lines of authority within the organization appropriate for the proposed work? (25 points)

2. Do the applicant's current organization and organizational plan provide adequate facilities, resources, and experience to plan, conduct, and complete the project? Does the organizational plan indicate sufficient experience in serving the target population or clearly related experience? (15 points)

3. Does the design of the applicant's project promise to provide an adequate test of the service model? Have plans been presented to deal with all required aspects of the demonstration project? Are details of the planned services realistic elaborations of the basic service model? Do plans for collection of data adhere to program objectives? (40 points)

4. Is the budget detailed with justifications and explanations for the requested amounts? Are the costs reasonable and adequately described? (10 points)

5. Do project plans clearly define the work to be undertaken in each of the project phases: planning, operations, and phase-out? Is adequate detail presented concerning how the work in each of these major phases will be scheduled and performed? (10 points)

Closing Dates

The closing date for receipt of applications in response to this announcement will be (insert date 60 days following the date of this notice).

Applications may be mailed or personally delivered to: Social Security Administration, OMBP, Division of Contracts and Grants Management, Grants Management Branch, Dogwood West Building, First Floor, 1848 Gwynn Oak Avenue, Baltimore, Maryland 21207.

In order to be considered applications must be received by the Division of Contracts and Grants Management, Grants Management Branch, by the closing date. Personally delivered applications are accepted during normal working hours of 8:30 a.m. to 5:00 p.m., Monday through Friday. An application will be considered to be received on time if mailed no later than the closing date, as evidenced by a legible U.S Postal Service postmark. Private metered postmarks will not be considered acceptable as proof of timely mailing. Applications submitted by any means other than by mailing through the U.S. Postal Service shall be considered as acceptable only if physically received at the above address before close of business on or before the deadline date. Applications which are not received on time will not be considered for funding.

Executive Order 12372 "Intergovernmental Review of Federal Programs"

These grant activities are not covered by the requirements of Executive Order 12372 relating to the Federal policy for consulting with State and local elected officials on proposed Federal financial assistance.

(Catalog of Federal Domestic Assistance Program No. 13.812—Assistance Payment—Research)

Dated: March 26, 1984.

Martha A. McSteen,

Acting Commissioner of Social Security.

BILLING CODE 4190–11–M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Fair Housing and Equal Opportunity

[Docket No. N-84-1361; FR-1943]

Voluntary Affirmative Marketing Agreements

AGENCY: Office of Assistant Secretary for Fair Housing and Equal Opportunity (HUD).

ACTION: Notice and request for comments.

SUMMARY: HUD requests public comments to assist it in developing improvements in the Voluntary Affirmative Marketing Agreements that HUD enters into with organizations in the housing industry for further the objectives of the Fair Housing Act. HUD is particularly interested in comments concerning the stated objective of the affirmative marketing agreements and the role of Community Housing Resource Boards.

DATE: Comment due date: May 29, 1984.

ADDRESS: Interested persons are invited to submit written comments regarding this notice to the Rules Docket Clerk, Office of the General Counsel, Room 10278, Department of Housing and Ubgan Development, 451 Seventh Street, SW., Washington, D.C. 20410. Communications should refer to the docket number and title. A copy of each communication submitted will be available for public inspection and copying during regular business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Nathaniel K. Smith, Director, Division of Housing and Community Development, or Deborah Seaborn-Dickens, Equal Opportunity Specialist, Office of Voluntary Compliance, Fair Housing and Equal Opportunity; Room 5242, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410. Telephone: (202) 755-5992 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION: This Notice requests comments from the public to assist the Department of Housing and Urban Development in developing and considering improvements to voluntary agreements executed with organizations in the housing industry in furtherance of the objectives of Title VIII of the Civil Rights Act of 1968 (the "Fair Housing Act").

The Fair Housing Act provides: "It is the policy of the United States to provide, within constitutional limits, for fair housing throughout the United States". 42 U.S.C. 3601. The authority and responsibility for administering the Act is vested in the Secretary of Housing and Urban Development. Section 809 of the Act directs the Secretary, among other things, to:

> * * * call conferences of persons in the housing industry and other interested parties to acquaint them with the provisions of this [Act] and his suggested means of implementing it, and [to] endeavor with their advice to work out programs of voluntary compliance and of enforcement. 42 U.S.C. 3608.

One means by which the Secretary has discharged this responsibility is by negotiating and executing voluntary affirmative marketing agreements with national associations representing major components of the housing industry, such as real estate brokers, homebuilders and real estate license commissions. Each agreement is designed to carry out a broad equal opportunity program including outreach advertising, affirmative action in employment, safeguards against racial steering, and other actions designed to ensure that housing will be marketed on an equal opportunity basis.

The national association party to an agreement commends its adoption by member affiliates at the State or local level. Upon adoption of the agreement at the local level, HUD field offices provide technical assistance, monitor progress under the agreement, and organize a citizen participation component.

There is a two-fold policy objective to HUD's voluntary compliance programs: (1) Cooperation and assistance in aiding persons, firms, agencies, and municipalities to comply voluntarily with the Fair Housing Act and HUD equal opportunity requirements; and (2) encouragement of these same parties to exceed the minimum level of legal requirements by working affirmatively to further fair housing objectives.

Voluntary affirmative marketing agreements are intended to promote institutional change on an area-wide basis. Complete equal housing opportunity cannot be achieved until the real estate and building industries, apartment housing association members, financial institutions and local governments demonstrate their acceptance of minority applicants and affirmatively promote open communities. Industry group programs play an important role in HUD's promotion of fair housing because they apply to conventionally financed housing, representing approximately 90% of the total housing market, as well as housing assisted or insured under the Department's programs.

The first national Voluntary Affirmative Marketing Agreement (VAMA) was adopted by the Board of Directors of the National Association of Realtors (NAR) at its annual convention on November 11, 1975, and was executed by HUD and NAR on December 16, 1975. A Memorandum of Understanding executed by HUD and NAR effective November 16, 1981, renewed the VAMA until September 20, 1986. The Memorandum of Understanding amended certain provisions of the VAMA and clarified the intent of other provisions. The text of the HUD/NAR VAMA is set forth in Appendix A to this Notice, and the Memorandum of Understanding is set forth in Appendix B.

The HUD/NAR VAMA is the most broadly subscribed and prominent of the national voluntary agreements, NAR Member Boards of Realtors, State Associations, and individual realtors who subscribe to the agreement on behalf of their firms, become signatories to the agreement. As of December 1983, the NAR VAMA had been adopted by 1,018 out of the total 1,974 NAR Member Boards of Realtors across the country. In addition 50 of the 51 State Associations of Realtors (including the District of Columbia) had adopted the agreement.

A key element of the HUD/NAR VAMA is the provision for appointment by HUD of a Community Housing Resource Board (CHRB) under each agreement to assist the signatory Board of realtors with any problems that may arise in the implementation of the agreement, and to assess program progress under the agreement. HUD appoints to the CHRB representatives of community organizations through the geographic area served by the signatory Board that have a substantial interest in housing and equal opportunity. The CHRB is intended to maximize communication between the housing industry and minority and women's groups of the community, and to enhance the prospects of implementation of industry group commitments made in the VAMA. The first objective requires broad minority and fair housing group representation on the CHRB. The second objective requires the most influential community representation possible, including public officials or their representatives.

Realtor firms and individual Realtors do not become members of CHRBs in their capacities as such. The Memorandum of Understanding provides the "the prerogatives of Member Board membership on a CHRB shall be determined by NAR." NAR has advised its Member Boards that neither

members of the Board nor individual Realtors should become CHRB members as representatives of a Member Board, in order to avoid an appearance of CHRB domination by realtors as well as an appearance of Board commitment to be bound by CHRB opinions or recommendations. However, NAR encourages its Member Boards to appoint liaison representatives to CHRBs. In addition, individual realtors may beome CHRB members as representatives of community groups other than a Member Board.

HUD provides funding assistance to CHRBs pursuant to regulation located at 24 CFR Part 120. As of December 1983, 589 CHRBs had been established under VAMAs adopted by NAR Member Boards of Realtors. However, a number of the established CHRBs have not commenced any substantial activity.

A similar VAMA was executed by HUD and the National Association of Real Estate Brokers (NAREB) on May 14, 1976. NAREB was formed in 1947 as an organization of Black licensed real estate practitioners who, at that time, were excluded from membership in the major national trade association. HUD undertook negotiation of a voluntary affirmative marketing agreement with NAREB in order to promote cooperation between NAR and NAREB and to expand and extend the range of minority sales experience and responsibility. A successor VAMA was executed by HUD and NAREB on August 12, 1982, to remain in effect until August 12, 1986.

Like the HUD/NAR VAMA, the HUD/NAREB VAMA is adopted at the local level by NAREB Member Boards of Realtists. The HUD/NAREB VAMA also provides for HUD appointment of CHRBs to meet regularly with signatory Boards to assist them with problems program implementation and new initiatives designed to further the purposes of fair housing and the objectives of the agreement. In practice, HUD has designated CHRBs appointed under the NAR agreement to serve the NAREB signatory Board as well in areas where both agreements have been adopted. The HUD/NAREB VAMA also provides that HUD will affirmatively seek participation of NAREB representatives to CHRBs appointed under the NAR agreement.

As of December 1983, the HUD/NAREB VAMA had been adopted by 35 local NAREB Member Boards of Realtists.

A model VAMA for homebuilders was approved by HUD and the National Association of Homebuilders on October 22, 1976. Unlike the HUD/NAR VAMA, with respect to which NAR maintains close scrutiny over content and operation because of uniform liability insurance requirements, the HUD/NAHB model VAMA, when executed by HUD and State or local homebuilder groups, may contain deviations from the national model so long as the resulting agreement is at least as comprehensive in its commitments as the national model. Builder VAMAs are applicable to all housing developed, marketed, sold or rented by the builder, whether or not HUD-assisted or HUD-insured.

The HUD/NAHB model VAMA provides for appointment by the State or local Builder Group of a Community Housing Leadership Board composed of local community leaders having a substantial interest in housing and equal opportunity. As constituted in accordance with the model VAMA, Community Housing Leadership Boards are not eligible for HUD assistance under 24 CFR Part 120. As of December 1983, 30 local home builder groups had executed a form of VAMA with HUD.

In addition, the Home Builders Association of Alabama entered into an agreement in 1974 which continues in effect and remains to date the only State-wide home builders' agreement.

The text of the HUD/NAHB model VAMA is set out in Appendix C, and the agreement with the Home Builders Association of Alabama is set out in Appendix D. Several State builder organizations currently are considering agreements similar to the Alabama agreement.

A common feature of each of the VAMAs described above provides that signatories to association voluntary agreements executed by HUD are not required to file affirmative marketing plans for individual HUD-insured or HUD-assisted projects under HUD's Affirmative Fair Housing Marketing Regulations (24 CFR Part 200, Subpart M). While this provision is not applicable, as a practical matter, to many signatories of the NAR and NAREB agreements, it is significant to builder signatories of the NAHB model or similar agreements.

Paragraph VIII of the HUD/NAR VAMA provides that representatives of the Member Board, HUD, the CHRB and a State or local human rights enforcement agency will meet annually to evaluate the effectiveness of the local agreement. It further provides that HUD and the Board shall determine whether the agreement, or some modification thereof, should be adopted for the following year. Also, where an evaluation of the agreement at any time during its term reveals that reasonable progress is not being made toward achieving its objectives, the agreement may be modified by mutual consent of the parties; where the parties are unable to agree on terms of a modification, any party may terminate the agreement.

Although Paragraph VIII by its terms contemplates modification of the local agreement at the local level, the reality is that any significant changes would be arrived at by negotiation between HUD and NAR for incorporation in the HUD/NAR VAMA. This is reflected in paragraph 4 of the Memorandum of Understanding, which provides for annual review of the effectiveness of the agreement by a joint HUD/NAR "review team" (see Appendix). The Memorandum of Understanding provides that the review team will "develop recommendations for consideration to improve the implementation of the agreement."

It is in connection with its development of recommendations for consideration with NAR and, to the extent applicable, with other national associations with whom HUD has entered into voluntary agreements, that the Department now requests public assistance. The request appears timely, in view of eight years of experience under the agreement and the continually increasing number of local Boards of Realtors that have adopted the HUD/NAR VAMA. In addition, several questions have been raised by organizations having a demonstrated interest in fair housing regarding certain provisions of the VAMA or the Memorandum of Understanding, particularly those relating to CHRBs. Some of these questions were raised in public comments on HUD's interim rule governing the disbursement of HUD assistance to CHRBs published March 25, 1982 (47 FR 12926). However, only three public comments on the interim rule were received. The Department considers it desirable to obtain a broader range of comments before developing its final rule governing CHRBs.

Accordingly, the Department solicits comments, particularly from housing industry groups (including local Boards of Realtors and individual realtor firms) that are signatories to voluntary agreements, fair housing organizations, State and local fair housing agencies, and community organizations that have participated in activities undertaken pursuant to voluntary agreements, on the matters noted below or other subjects related to voluntary affirmative marketing agreements.

Goals of VAMA

A question on which the Department solicits comment is whether the scope of

the affirmative marketing objective of the VAMA is sufficiently comprehensive.

Paragraph III of the HUD/NAR VAMA provides:

> Based on the premise that an informed choice is a free choice, the goal of this Agreement is to provide information that will enable minority buyers to make a free choice of housing location. The object of marketing is to sell; the object of Affirmative Marketing is to sell free choice.

The emphasis of this provision is on expansion of housing opportunities for minorities. This may be compared to HUD's Affirmative Fair Housing Marketing Regulations applicable to HUD-insured or HUD-assisted housing, which state their objective as the achieving of

> * * * a condition in which individuals of similar income levels in the same housing market area have a like range of housing choices available to them regardless of their race, color, religion, sex, or national origin. 24 CFR 200.610.

In their implementing provisions, the regulations require a HUD program applicant to

> carry out an affirmative program to attract buyers or tenants, regardless of sex, of all minority and majority groups to housing for initial sale or rental. * * * Such a program shall *Typically* involve publicizing to minority persons the availability of housing opportunities regardless of race, color, religion, sex or national origin, through the type of media customarily utilized by the applicant, including minority publications or other minority publications or other minority outlets which are available in the housing market area (emphasis added). 24 CFR 200.620(a).

The regulation quoted above was developed in 1972. Subsequent articulations of the objectives of affirmative marketing, influenced by experience, have referred more explicitly to the requirement, in some circumstances, of special outreach to non-minorities. Thus, more recent regulations have described the target of affirmative marketing activities as those "least likely to apply." See, e.g., 24 CFR 880.601(a) (Section 8 New Construction), 882.207(a) (Section 8 Existing Housing). The Instructions for the preparation of an Affirmative Fair Housing Marketing Plan developed under the regulation provide:

> The affirmative program * * * should assure that any group(s) of persons NOT likely to apply for the housing without special outreach efforts (because of existing neighborhood racial or ethnic patterns, location of housing in the SMS, price or other factors) know about the housing, feel welcome to apply and have the opportunity to buy or rent. Instructions for Form HUD-935.2

The implication that in some circumstances the target group for affirmative marketing outreach may be non-minorities is made explicit in HUD's Affirmative Fair Housing Marketing Handbook, which states the following example:

> A 100 unit Section 8 New Construction project is proposed for location in an *area of minority concentration*, which is 50 percent Black and 25 percent Hispanic. The tenant population of all assisted housing, including the conventional Low Income Public Housing and the four Section 8 New Construction projects already in occupancy, is also predominantly minority. Given these facts, the non-minority segment should be selected for special outreach. Since more than one minority group, e.g., Blacks and Hispanics, lives in the area of the project, outreach should also be targeted to the minority group which does not predominate, i.e., the Hispanics. Implementation of Affirmative Fair Marketing Requirements, Handbook 8025.1 REV-1, Appendix 5.

Recognition that achievement of affirmative marketing objectives may not be accomplished exclusively through outreach to minorities also has been reflected in voluntary agreements executed by HUD. For example, under the HUD/NAREB VAMA executed in 1976, signatory firms agreed to

> * * * make special outreach efforts to inform minorities of housing opportunities available in areas of majority concentration and make similar efforts to inform the majority white population of available housing opportunities located in areas of minority concentration.

(This provision was not included in the HUD/NAREB VAMA executed in August 1982.) Similarly, the State-wide voluntary agreement entered by HUD and the Home Builders Association of Alabama provides that the State Association will—

> Show evidence of sensitivity to the need for directing the marketing activity to those groups which are not likely to apply without special outreach, i.e., to racial minority groups for housing in predominantly non-minority areas; to racial majority groups for housing in integrated areas.

In commenting on whether the scope of the affirmative marketing concept should be broadened in the VAMA, commenters should focus on the particular means by which a signatory firm could achieve a broadened objective.

HUD's Affirmative Fair Housing Marketing Regulations, referred to above, focus mainly on advertising. This is an appropriate focus for an agreement or plan regarding a housing owner or rental agent who simply advertises for and receives applicants. The functions of a real estate broker include advertising, but their more important and significant activities are qualitatively different from simply advertising. Real estate brokers show homes—or, perhaps more crucially in this context, suggest homes to be shown and, by necessary implication, fail to suggest others.

In this connection, paragraph IV D. of the HUD/NAR VAMA requires signatory Boards to disseminate to their member firms suggested principles of office management as promulgated from time to time by NAR. Such principles address, among other things, "procedures to insure that prospective purchasers are made aware of an optimum number (consistent with the resources of the member firm) of available locational choices within their price and interest ranges," as well as "means of providing prospects with complete and accurate information on availability of homes, alternative methods of financing, and other facts affecting prospects' choice of location (such as schools, employment, transportation, etc.)." The suggested principles developed and disseminated by NAR cover such matters as reporting forms to record homeseeker preferences information, such as price range, location or grographic area, size and specific features, and similar characteristics of properties shown or suggested by the salesperson. See the NAR publication Affirmative Marketing Handbook (Second Edition 1983). Adoption of the suggested principles by individual signatory firms is not mandatory.

The Department is aware that it is possible for some activities purportedly undertaken in the name of racial integration to have a limiting effect on the ability of some persons to select or apply for the housing of their choice. In housing contexts more than in other areas of affirmative action, the burden of these limitations may fall on minorities. See, e.g., *Burney* v. *Housing Authority for the County of Beaver*, 551 F. Supp. 746 (W.D. Pa. 1982). The Department does not support activities that limit the free choice of any persons, majority or minority, in selecting available housing.

Addressing a related topic, Secretary Pierce recently stated:

> Setting the goals of free choice and integration in supposed opposition to each other obscures the issue rather than clarifies it. The issue is free choice, but the unavoidable fact is that the choice is not "free" when it is limited on account of race. The primary concern of our enforcement efforts must continue to be those cases where a minority homeseeker is denied the right to live in a non-segregated community. But, it is

my strong conviction that the restriction of choice is no less real—and the denial of free choice no less unlawful—when a white homeseeker is denied the choice of an integrated community. Address to Annual Convention of Board of Directors, National Association of Realtors, November 14, 1983.

The Department recognizes that the delimiting of activities which a real estate broker or sales person may undertake in furtherance of affirmative marketing objectives is not a simple proposition. Because of the critical impact of the brokers' activities on whether housing is actually made available or—as the Fair Housing Act prohibits—"made unavailable" to a prospect, the Department has been more cautious in endorsing choice-influencing activities by brokers than when undertaken by actors having a less decisive role in the housing acquisition process, such as counselling agencies.

It also must be borne in mind that the VAMA is, and will remain, a voluntary undertaking by private firms. It does not prescribe conditions for participation in HUD-insured or assisted programs but, instead, generates voluntary undertakings exceeding legal requirements in activities that, for the most part, are not financed or regulated by HUD. "[T]he success of the Agreement depends on a 'voluntary' as opposed to a 'coerced' commitment to the spirit and intent of the concept of affirmative marketing in support of equal opportunity in housing." Affirmative Marketing Handbook 7 (Second Edition 1983).

In this context it is appropriate to refer to considerations taken into account at the time of development of the original HUD/NAR VAMA, as described by NAR:

> The initial efforts by the National Association and HUD to develop a single nationwide Affirmative Marketing Agreement involved an in-depth analysis of affirmative marketing obligations then in effect as a result of judicial decision, consent decree, or voluntary agreement. The Housing Section of the Civil Rights Division of the Department of Justice was particularly involved in this analysis, not only as legal counsel to HUD, but in its own right as an agency charged with enforcement of Title VIII.
>
> The objective of this analysis was to identify those types of affirmative marketing activities that:
>
> a. Would contribute positively and significantly to the promotion of equal opportunity in housing and compliance with Title VIII, specifically;
>
> b. Would be undertaken by Boards of Realtors and Realtors at a cost that would not place them at a competitive disadvantage with those who chose not to participate in affirmative marketing;
>
> c. Would not constitute a deterrent to membership in a Board of Realtors; and
>
> d. Would not jeopardize the independent contractor status of real estate salespersons affiliated with Realtors.
>
> Particularly, the analysis was designed to assure that the affirmative marketing activities to be included in the Agreement did not involve commitments or obligations which might expose Realtors and Member Boards to serious legal liability under the antitrust laws or real estate license laws, or even under the civil rights laws themselves.
>
> Thus, as a result of this analysis, it was determined that certain provisions sometimes appearing in affirmative marketing agreements, judgments and consent decrees should be excluded, such as:
>
> a. Those requiring brokers to ignore allegedly restrictive covenants even though not declared unenforceable by the courts;
>
> b. Those requiring brokers to "refuse to deal" with financial institutions accused of "red lining" when such accusation has not been proved;
>
> c. Those requiring brokers to "refuse to cooperate" with any other broker who has not agreed to participate in an affirmative marketing program or who violates the civil rights laws;
>
> d. Those requiring brokers to engage in "affirmative steering" where the legality of such affirmative steering has not been established;
>
> e. Those requiring brokers to establish integration goals and quotas when the legality of such goals and quotas has not been determined;
>
> f. Those requiring brokers to agree on the level of their sales activities in changing neighborhoods;
>
> g. Those requiring brokers to advertise in specified media in specified amounts regardless of the advertising value of the media. Affirmative Marketing Handbook 6–7 (Second Edition 1983).

With the foregoing background and considerations in mind, the Department invites comments on whether consideration should be given to re-defining the affirmative marketing objectives of its voluntary agreements and, if so, on particular recommended means by which such objectives may be furthered by parties to the agreements.

Rental Coverage

Paragraph 11(B) of the HUD/NAR VAMA defines "Buyer" to "include, to the extent applicable, a person seeking to rent, as well as buy, residential property." However, the focus of the balance of the agreement clearly concentrates on the homeownership rather than rental market.

The HUD/NAHB model VAMA covers rental as well as sale properties developed by its signatories. In fact, many signatories of home builder agreements are developers and owners of rental properties. However, the HUD/NAHB agreement's coverage of rental properties is principally directed to initial rent-up and not to continuing rental activity.

HUD's Voluntary Affirmative Marketing Handbook (8021.1) recommends development of voluntary plans with local apartment housing councils, and Appendix J of the Handbook contains a model plan. The model plan contemplates, among other things, development of a code of fair housing practices relevant to apartment house rental standards and procedures, and development of standard rental application forms for adoption by members. Only one or two of these plans are currently active, however.

Comment is solicited as to whether more direct focus on rental markets is appropriate in voluntary agreements, and on particular ways in which such increased focus can be implemented.

Educational Programs

An important feature of the HUD/NAR VAMA is its provision for Board development of educational materials and training courses for members and for new applicants for broker membership in duties and obligations under the fair housing laws and the goals and programs of the VAMA. Historically, HUD has cooperated with NAR in the development of educational and training materials. The VAMA, accordingly, provides an institutional framework for the dissemination throughout the industry of a uniform understanding of compilance requirements and acceptable practices. It also provides a framework for continuing consultation and dialogue on these subjects between industry groups and the Department.

The Department solicits comments on means by which this aspect of the HUD/NAR relationship may be improved, and on ways in which similar functions may be implemented in other voluntary agreements.

Publication of Signatories

Section 1 of the Memorandum of Understanding describes the methods by which individual Realtor members of a signatory Board who subscribe on behalf of their real estate firms may become parties to the VAMA. That section also places strict limitations on access by anyone other than HUD to the Member Board's list of realtor subscribers, although an individual subscriber or the Member Board may volunteer the information.

This provision of the Memorandum of Understanding confirmed HUD/NAR practice since inception of the VAMA. It is based on HUD's understanding that many Realtors are concerned over possible harassment by groups opposed to the voluntary approach.

Nevertheless, this provision permitting a Member Board to prevent disclosure of names of signatory firms was criticized by commenters on the interim rule regarding CHRBs. Points made by these commenters are:

—Identification of Realtors who have made known their adherence to the principles of fair housing by subscribing to the VAMA would enhance the efforts of fair housing centers who could focus their counseling and referral services on such Realtors.

—CHRBs will have little enthusiasm for promoting the VAMA on a community-wide basis if they are not told of the level of support that real estate firms in their communities have demonstrated for the agreement by signing it.

—Inability to know which, or how many, firms in the community have subscribed to the agreement negates a CHRB's ability to exercise one of its principal prescribed functions, viz., to assess the effectiveness of the VAMA (24 CFR 120.25(a)(3); VAMA paragraph V(A)(4)).

The Department lacks information on which to judge whether the withholding of the names of firms who have become signatories to the VAMA has impeded achievement of the objectives of the VAMA, or as to whether local Boards in fact have found it desirable to withhold publication or to permit it. Accordingly, the Department solicits comments on these points, based particularly upon the experience of signatory Boards and CHRBs.

CHRB Activities

The three explicit responsibilities of a CHRB, as described in the NAR VAMA and reiterated in the "Official Commentary to the Memorandum of Understanding," are to assist the signatory Board with problems that arise in implementation of the VAMA, to assess program progress with representatives of HUD and the member Board, and to meet annually with representatives of the Department and the Member Board to evaluate the effectiveness of the Agreement. Other activities HUD has identified as appropriate for CHRBs are:

1. Making information public regarding the goals of fair housing and the VAMA.
2. Assessing community fair housing needs.
3. Expanding minority involvement in the housing industry professions.
4. Expanding public awareness of housing opportunities in the community.
5. Assisting Board representatives to negotiate with local newspapers for inclusion of a HUD-prescribed publisher's notice regarding refusal to accept real estate advertising that violates Title VIII, and the availability, on an equal opportunity basis, of all advertised dwellings.
6. Assisting the Board to negotiate with television and radio stations for public service time to promote fair housing.
7. Persuading the press to carry articles on the VAMA and the role of the CHRB.
8. Seeking air time community television and radio talk shows to discuss the VAMA and fair housing issues.
9. Providing communinity officials with a set of recommendations to improve fair housing conditions.
10. Reviewing land use and zoning practices to determine whether they perpetuate discriminatory housing practices.
11. HUD is currently developing a base line description of the various activities conducted by a CHRB. The next step in evaluation of CHRBs is developing indicators of these activities and performance standards by which to evaluate the extent of effectiveness of a CHRB. The Department would appreciate any suggestions that would assist in the preparation of such indicators and standards.

It should be noted that CHRBs were not established with the expectation or intention that their functions would overlap those of non-profit housing centers (although such organizations are an important source of membership on CHRBs). Some commenters criticized the prohibition in HUD's interim rule on the use of HUD funds for testing activities (24 CFR 120.25(b)). The Memorandum of Understanding provides that CHRBs "will not sponsor, conduct or fund programs of real estate testing."

Responding to criticism of these limitations, Secretary Pierce wrote:

> With respect to testing and the use of testers, I believe you are aware that I am supportive of the use of testers and have so publicly testified. I also am aware that the courts have generally approved of testing as admissible evidence to prove pattern and practice of discrimination. I strongly feel, however, that CHRB activity should be viewed as a voluntary compliance effort and not as an enforcement effort. The issue is not testing, but where the activity can best take place. I believe that if CHRBs were to undertake testing programs, the cooperative nature of the Agreement would be undermined. We are promoting a voluntary agreement between the public and private sectors, and we must make every effort to increase communication and trust. I should point out, however, that the Agreement contains no prohibition which excludes from CHRB membership representatives of organizations that engage in testing or auditing; it simply states that the CHRB itself cannot undertake testing. We feel that position best serves the objectives of the Agreement. Letter of Executive Director, National Committee on Discrimination Against Housing, July 9, 1981.

A related but different question is raised by the provision of the Memorandum of Understanding which requires that if an organization becomes a party to litigation or an administrative complaint alleging violation of the Fair Housing Act or the Realtor Code of Ethics, as complainant or respondent, that organization or its representative should withdraw from the Equal Opportunity Committee of the Board or from the CHRB during tendency of the litigation or other proceeding.

Criticism of this provision has been stated as follows:

> Fair Housing centers perform a number of services for minority homeseekers to help them obtain desirable housing short of litigation. Litigation, in many cases, however, is unavoidable. It is a consequence of their work and the continuing level of housing discrimination.
>
> Fair Housing center directors and representatives of other civil rights organizations who decide to become members of Resource Boards will be "chilled" in the exercise of their duties to fully represent persons who have been discriminated against. Because we foresee no situations in which a center director would forgo filing a lawsuit or a complaint in order to stay on a Resource Board, this provision assures that few, if any, center directors will become involved in VAMA activities.

The loss of fair housing center representatives as CHRB members would seriously impair the usefulness of CHRBs. The Department solicits comments as to whether this provision of the Memorandum of Understanding has impeded CHRB participation by fair housing organizations, and as to whether Boards or CHRB members have found that CHRB participation by representatives of organizations engaged in litigation has hampered the effectiveness of CHRBs.

Paragraph VIII of the NAR VAMA agreement provides that representatives of the signatory Board, HUD, the CHRB and the State or local human rights enforcement agency will meet annually to review the effectiveness of the VAMA. However, there is no provision for CHRBs to help develop reporting forms or receive copies of the annual

evaluation reports required to be filed by the Board with HUD and NAR. Suggestions are solicited as to means through which CHRB participation in the review and evaluation process can be enhanced.

Certain CHRBs have indicated an interest in undertaking lobbying activities. HUD's position has been that in view of the status of CHRBs as essentially an instrumentality of the Department, their engaging in lobbying activities would be inappropriate. (Use of HUD-furnished funds to support lobbying activities might be particularly inappropriate. See proposed revision to OMB Circular A–122, "Cost Principles for Nonprofit Organizations," making unallowable any costs associated with lobbying and related activities, published at 48 FR 50860 (November 3, 1983). HUD's position, based on the nature of a CHRB as an entity established by the Department, extends also to activities funded from other sources.) The Department solicites comment on this question.

Multi-Board CHRBs

Questions arise regarding the utility and desirability of CHRBs which serve more than one Board of Realtors. Numerous such multi-Board CHRBs exist. However, under the Memorandum of Understanding, appointment of a multi-Board CHRB under the NAR VAMA requires the consent of NAR.

HUD believes that within geographically proximate areas, multi-Board CHRBs can be useful and advantageous. For example, a single CHRB in Dade County, Florida, serves five separate Boards. On the other hand, the Department doubts the utility of a single CHRB intended to serve an entire State. However, a State-wide association of CHRBs, whose purpose would be to share innovative programs and information and provide training on a State-wide basis in cooperation with a State-wide real estate organization, could have a separate usefulness.

The Department solicits comments on the desirability and advantages of multi-Board CHRBs.

Other Matters

The Department invites comments on other matters relating to voluntary agreements or CHRBs, including additional areas of the housing industry in which voluntary agreements in furtherance of the objectives of the Fair Housing Act should be developed and promoted.

Dated: March 23, 1984.

Antonio Monroig,

Assistant Secretary for Fair Housing and Equal Opportunity.

Appendix A—Affirmative Marketing Agreement: Board of Realtors®

I. Parties

A. The undersigned officers of the ———— Board of REALTORS® (hereinafter referred to as the Board) and its individual members whose names and signatures appear in Part IX of this Agreement.

B. The U.S. Department of Housing and Urban Development (HUD) through the authorized representatives whose names and signatures appear in Part X of this Agreement.

C. The adoption of the Affirmative Marketing Agreement by REALTOR® members of a Board may be accomplished in one of two ways as is deemed most convenient by the Board from time to time.

1. The Agreement may be signed by the Board and the REALTOR® on behalf of this firm with a copy retained by each. Such Agreement would be effective without the signature of HUD.

2. The REALTOR® may notify the Board in writing that he subscribes to the Agreement on behalf of himself and his firm. In such case the Agreement would be effective without execution by either HUD or the Board.

II. Definitions

A. Affirmative marketing is defined as a program to inform the minority community of the homes listed for sale or rent by REALTORS®, of the services offered by REALTORS® in selecting a home for purchase, and of the availability of these homes and services to all buyers without regard to race, color, religion, sex or national origin.

B. Buyer is defined to include, to the extent applicable, a person seeking to rent, as well as buy, residential property.

C. Member is defined as a REALTOR® who is a signatory of this Agreement.

D. Associate is defined to mean a sales employee or a salesperson associated with a REALTOR® in an independent-contractor status.

E. Fair Housing Laws include both the 1866 Civil Rights Act, interpreted by the United States Supreme Court in Jones v. Mayer to prohibit discrimination in the acquisition or disposition of all real property, and the 1968 Fair Housing Act.

F. This Voluntary Agreement is intended to implement the congressional directive set forth in Section 809 of the 1968 Fair Housing Act: "(The Secretary of the Department of Housing and Urban Development) shall call conferences of persons in the housing industry and other interested parties to acquaint them with the provisions of this title and his suggested means of implementing it, and shall endeavor with their advice to work out programs of voluntary compliance and of enforcement." 42 U.S.C. 3609.

III. Goal

The goal of HUD, the Board, and the REALTOR® signatories to the Agreement is to implement through local voluntary action the policy expressed by Congress in the first sentence of the 1968 Public Housing Act: "It is the policy of the United States to provide, within constitutional limitations, for fair housing throughout the United States."

Based on the premise that an informed choice is a free choice, the goal of this Agreement is to provide information that will enable minority buyers to make a free choice of housing location. The object of marketing is to sell; the object of Affirmative Marketing is to sell free choice.

IV. Program

The ———— Board of REALTORS® and the member REALTORS® who are signatories of this Agreement agree to adopt and undertake the following affirmative steps designed to implement the purposes of this Agreement.

A. Advertising

1. The Board shall, within 60 days of the date of this Agreement, and quarterly thereafter, place in a newspaper of general circulation in ———— one of the Affirmative Marketing Advertisements mutually agreed upon by HUD and the NATIONAL ASSOCIATION OF REALTORS®.

2. The Board shall negotiate with local newspapers and television stations for the donation of space and time for the presentation of the Board's Affirmative Marketing Advertising to the public and the publication of the recommended "Publisher's Notice," as set forth in HUD's Advertising Guidelines.

3. Each member shall include the official Fair Housing and Equal Opportunity slogan or logo in all classified advertising of six column inches or larger and in all other advertising (including billboards) where its inclusion does not significantly increase the cost of advertising. Alternatively, inclusion of the slogan or logo is not necessary in any classified advertisement where the "Publisher's Notice" referred to in the previous paragraph appears on the page containing the advertisement.

4. Each member shall display the equal housing opportunity slogan or logo in a prominent place in all brochures.

5. As requested by the Board, HUD shall provide technical assistance to the Board and to members in developing advertising techniques consistent with the objectives of this provision.

B. Posting of Signs

Each member shall display the Fair-Housing Poster, which was developed jointly by HUD and the NATIONAL ASSOCIATION OF REALTORS® and which includes the Code for Equal Opportunity in Housing of the NATIONAL ASSOCIATION OF REALTORS® promulgated in May, 1962.

C. Development of Educational Materials and Training Courses

1. The Board shall develop educational materials and training courses for members,

their associates, and new applicants for broker or associate membership in the following areas:

(a) The duties, obligations and rights of REALTORS® under the Fair Housing Laws;

(b) The goals and programs of this Affirmative Marketing Agreement.

2. The Board shall have available for its members copies of the booklet entitled "Affirmative Marketing Handbook" published by the NATIONAL ASSOCIATION OF REALTORS®; the Board shall have available sufficient copies to enable each member to use the booklet in its training and orientation programs and to maintain copies in all of its offices for reference by associates as well as customers.

3. Each member shall make the booklet available to all associates, encourage them to become familiar with it, and urge them to attend and participate in the Board's Training Courses.

4. Each member shall within 60 days after the effective date of this Agreement conduct an informational program for its sales personnel, agents and employees to inform the same of their responsibilities under this Agreement and under the Fair Housing Laws. Each member shall strongly encourage his sales personnel, agents and employees to comply with this Agreement and with the Fair Housing Laws.

D. Development of Office Procedures and Techniques to Carry Out the Purposes of this Agreement

1. Within 30 days after receipt, the Board shall disseminate to members suggested principles of office management as promulgated from time to time by the NATIONAL ASSOCIATION OF REALTORS®. Such principles shall be designed to achieve the goal set forth in Part III of the Agreement and shall address the following areas of concern:

(a) Procedures to insure that prospective purchasers are made aware of an optimum number (consistent with the resources of the member firm) of available locational choices within their price and interest ranges;

(b) A means of providing prospects with complete and accurate information on availability of homes, alternative methods of financing, and other facts affecting prospects' choice of location (such as schools, employment, transportation, etc.);

(c) Methods of eliciting opinions of minority buyers (e.g., by suggestion box, questionnaire, etc.) on ways in which real estate services to minority buyers can be improved or altered to increase Board and member responsiveness to their needs;

(d) A system of recording the names of prospects and the addresses of homes shown to prospects to enable management to monitor the performance of associates in carrying out the purposes of the Agreement.

2. Each member is encouraged to advise the Board periodically as to whether adherence to the suggested office management procedures is achieving its intended purposes and inform the Board as to any changes or innovations deemed necessary or advisable.

3. HUD shall provide technical assistance as requested by the Board in developing or in measuring the effectiveness of the above office procedures.

E. Minority Brokers, Associates and Employees

1. In order to promote equal housing opportunity within the Board and each signatory firm, and to project that image to both the general public and to the minority brokers homeseeker, the Board shall encourage minority to apply for membership through letters of invitation, accompanied by an application form, and through personal visits and telephone calls;

2. In order to promote the recruitment of minority brokers, the Board shall review its present membership policies and practices, and where necessary adopt and implement affirmative procedures, standards and criteria for the selection and admission of members which shall be nondiscriminatory and nonexclusionary in terms of race, color, religion, sex or national origin.

3. Each member shall affirmatively recruit minority salaried employees through advertising directed specifically at the minority community or through those sources likely to produce minority candidates for employment.

4. The board shall sponsor outreach and training programs to attract members of minority groups into the real estate industry as licensed real estate brokers and salespersons.

5. HUD shall assist the Board and individual members in identifying potential minority applicants and sources of recruitment for minority associates and employees.

F. Fair Housing Practices Code

The Board shall adopt the Code for Equal Opportunity in Housing promulgated by the NATIONAL ASSOCIATION OF REALTORS® in May 1972.

G. Affirmative Marketing for Homesellers

In order to promote awareness by homesellers of the requirements of the Fair Housing Laws and the equal housing opportunity policy of those signing this Agreement, each member shall encourage all associates to distribute copies of the flyer entitled "What Everyone Should Know about Equal Opportunity in Housing" to all clients at the time the listing contract is signed.

H. Authorization of Expenses

The Board shall authorize reasonable expenditures as needed to appropriately carry out the Basic Program as set forth herein above.

V. Implementation

A. The Board, with the cooperation of the REALTORS® who are signatories to this Agreement, will establish an Equal Opportunity Committee which will have the following responsibilities.

1. To explain and publicize the purposes and provisions of this Agreement to all member REALTORS® (and through them to their associates) in order to achieve the broadest possible participation in this Agreement by members.

2. To implement and monitor the progress of the Program set out in Part IV of the Agreement.

3. To receive and investigate complaints of violations of Article 10 of the Code of Ethics and Points 1 through 4 of the Code for Equal Opportunity of the NATIONAL ASSOCIATION OF REALTORS® (see Part IV, B) and to refer such complaints to the Professional Standards Committee.

4. To meet at least semi-annually with representatives of HUD, the State or local human rights agency, and representatives of the Community Housing Resources Board (see below) to assess progress.

B. Each member will be responsible for implementing and monitoring the progress of his firm's affirmative marketing procedures as described in the Program in Part IV of this Agreement.

C. HUD will designate specific Regional or Area office personnel who will provide the Board, members, and the Board's Equal Opportunity Committee with technical assistance, information, and advice necessary to implement this Agreement.

D. HUD, in conjunction with State and/or local human rights agencies, will organize a Community Housing Resources Board consisting of representatives of community organizations throughout the metropolitan area that have a substantial interest in housing and equal opportunity. The Community Housing Resources Board will meet regularly with the Board to assist it with any problems which may arise in the implementation of this Agreement.

VI. Authorization of Expenditures

The Board shall authorize expenditures as needed to appropriately carry out the program set forth in this Agreement.

VII. Acceptance of Agreement by HUD in lieu of Individual Affirmative Fair Housing Marketing Plans

Where any signatory to this Agreement hereafter is an applicant for participation in FHA programs and is subject to the requirements of the HUD Affirmative Fair Housing Marketing Regulations or the Joint HUD–VA Nondiscrimination Certification, said signatory shall, in lieu of submitting an individual affirmative marketing plan or executing the Nondiscrimination Certification, reference his participation in the program described in the Agreement.

VIII. Duration

This Agreement shall be effective for five years upon approval by the Assistant Secretary for Fair Housing and Equal Opportunity of HUD. During the sixty days prior to the expiration of each year, representation of the Board, the State or local human rights enforcement agency, the Community Housing Resources Board and HUD will meet to evaluate the effectiveness of the Agreement. HUD and the Board shall determine whether the Agreement, or some modification thereof, should be adopted for the following year. However, where an evaluation of the Agreement at any time during its term reveals that reasonable progress is not being made toward achieving its objectives, the Agreement may be modified upon mutual consent of the parties. Where the parties are unable to agree upon

the terms of a modification, any party may terminate the Agreement.

IX. Adoption and REALTOR® Signatories

Adopted by the Board of Directors of the ———— Board of REALTORS® ——— at a special meeting held on ———, ——— (year), at ——— and certified as true and correct copy.

For the ———— Board of REALTORS®:

———

Executive Secretary

———

President

For Member Firms:

Firm Name

———

Firm Representative

———

X. HUD Signatories

This Agreement has been approved by the Area or Insuring Office Director by ————, on ————, ——— (year), at———

by the Regional Administrator, by ———— on ————, ——— (year), at ———— ————: and by the Assistant Secretary for Fair Housing and Equal Opportunity, by ———— on ————, ——— (year), at ———.

This Affirmative Marketing Agreement was jointly approved by Representatives of the Department of Housing and Urban Development and the NATIONAL ASSOCIATION OF REALTORS® at Washington, D.C. on December 16, 1975.

This document is supplemented by a Memorandum of Understanding signed jointly by Representatives of the Department of Housing and Urban Development and the NATIONAL ASSOCIATION OF REALTORS® at Miami Beach on November 16, 1981.

Appendix B—Memorandum of Understanding

The purpose of this memorandum of understanding between the Department of Housing and Urban Development and the NATIONAL ASSOCIATION OF REALTORS® is to renew the REALTORS® voluntary Affirmative Marketing Agreement and to clarify the meaning and intent of certain specified provisions of said Agreement, as amended by mutual agreement of May 7, 1978.

It is hereby understood and agreed by and between the Department of Housing and Urban Development and the NATIONAL ASSOCIATION OF REALTORS® that existing and future Affirmative Marketing Agreements adopted by them and by their Members, State Associations and Member Boards shall be constructed as follows:

1. Signatories

Paragraph 1. A of the Agreement provides that REALTORS® who subscribe on behalf of their real estate firms are parties to the Agreement. It is understood that the responsibilities of a member Board with respect to voluntary subscription are as follows:

A. A Member Board which has adopted the Affirmative Marketing Agreement will maintain a current list of all REALTORS® who have subscribed to the Agreement on behalf of their real estate firms. This list shall be made available for review by the HUD Assistant Secretary for Fair Housing and Equal Opportunity or his designated representative upon request, provided, however, that the list of Agreement signatories shall not be reproduced or disseminated by HUD without written approval of the Member Board and the NATIONAL ASSOCIATION OF REALTORS®. Access to the list shall be made available to parties other than HUD only on such terms and conditions as are mutually agreed upon by HUD and the Board.

B. A Member Board shall explain and publicize the purposes and provisions of this Agreement to all REALTORS® and through them to their sales associates, in order to achieve broad participation in this Agreement by Members and to encourage member firms to sign the agreement.

C. Designated officials of HUD shall have the right, in person or in writing, to verify names of REALTORS® asking waiver under Article VII from HUD program participation requirements, and the Board shall respond to such requests for verification.

D. Article I, Paragraph C of the Agreement is deleted and the following procedure approved by the NATIONAL ASSOCIATION OF REALTORS® Board of Directors on May 7, 1978 and approved by HUD and submitted in lieu thereof:

"The adoption of the Affirmative Marketing Agreement by REALTOR Members of a Board may be accomplished in one of two ways as is deemed most convenient by the Board from time to time.

a. The Agreement may be signed by the Board and the REALTOR® on behalf of his firm with a copy retained by each. Such Agreement would be effective without the signature of HUD.

b. The REALTOR® may notify the Board in writing that he subscribes to the Agreement on behalf of himself and his firm. In such case the Agreement would be effective without execution by either HUD or the Board.

2. Outreach and Training

Paragraph IV. E of the Agreement defines responsibility for outreach and training programs to attract minority groups into the real estate industry as licensed real estate brokers and salespersons. To this end, the National Association will participate in such national "Fair Housing Conference" as may be convened by HUD to discuss programs designed to promote the concepts and objectives of this Agreement.

3. Review Meetings

The HUD Secretary and the National Association President, or their respective designated representatives, will meet at least quarterly for the purposes of continuing dialogue and prompt resolution of problems or concerns in application or interpretation of the Agreement.

4. Annual Reviews

Paragraph VIII of the Agreement provides that representatives of the Member Board, HUD, the Community Housing Resource Board and the state or local human rights enforcement agency will meet annually to review effectiveness of the Agreement. In this regard, HUD and the NATIONAL ASSOCIATION OF REALTORS® will work jointly to develop a mutually acceptable "annual evaluation of effectiveness report" form to be used to evaluate effectiveness of the Agreement. All signatory Member Boards will annually complete and submit said "annual evaluation of effectiveness report" form to both HUD and the NATIONAL ASSOCIATION OF REALTORS®. In addition, HUD and the NATIONAL ASSOCIATION OF REALTORS® will also review effectiveness of a representative sample of Agreements through procedures defined below, but not necessarily through on-site visits. Therefore, it is understood:

A. That a review team of three members designated by the HUD Secretary and three members designated by the National Association President would be responsible for conducting the annual review of effectiveness of the Affirmative Marketing Agreement;

B. That the review team, taking into consideration current market conditions and fiscal considerations, will annually review a minimum of 25% of the Agreement in force at that time as an indicator of nationwide progress, based on a percentage of small Boards and large Boards which have voluntarily adopted the Agreement and based on a sampling of geographic locations and length of time since adoption.

C. That the review team determine the intervals at which such evaluations will be done and issue joint advance notification of intent to evaluate selected Member Boards;

D. That the review team will receive and analyze results of the evaluations and prepare at least annually a summary report for the HUD Secretary and the President of the NATIONAL ASSOCIATION OF REALTORS®.

E. That the review team will develop recommendations for consideration to improve the implementation of the Agreement.

5. State Association Adoption

Although the Agreement is designed for adoption by Member Boards, many State Associations have also adopted the Agreement as part of their leadership role within the state. It is understood that the responsibilities listed below define responsibilities of a State Association upon adoption:

A. The State Assocation shall establish an Equal Opportunity Committee to explain and publicize the purposes of the Agreement to Member Boards, promote adoption by nonsignatory Boards and make the Agreement available to REALTORS® in unassigned territory.

B. The State Association shall disseminate and encourage the use of the suggested principles of office management and other education and promotional materials by REALTORS® in unassigned territory as provided by the NATIONAL ASSOCIATION

OF REALTORS®, pursuant to Paragraph IV, D of the Agreement.

C. The State Association shall conduct at least two educational seminars annually on Fair Housing Laws and implementation of the Affirmative Marketing Agreement pursuant to Paragraph IV, C of the Agreement.

D. The State Associations shall collect data on program implementation within the state and provide an annual report, identifying successes and examples of innovative implementation and/or areas where assistance is required, to the NATIONAL ASSOCIATION OF REALTORS®, through the State Association Equal Opportunity Chairman to the Enlarged Equal Opportunity Committee.

E. The State Association shall adopt the Code for Equal Opportunity in Housing, and secure and disseminate Fair Housing posters for display in the offices of REALTORS® in unassigned territory.

F. Pursuant to Paragraph IV, A the State Association is not expected to place advertising in every general-circulation newspaper in the state to fulfill its advertising responsibilities. Rather, the State Association shall place one of the approved Affirmative Marketing Advertisements in either the largest general-circulation newspaper in the state or the genral-circulation newspaper serving the city in which the State Association Headquarters is located.

6. Community Housing Resource Boards

As provided in Paragraph V, D, the major purpose and responsibility of a Community Housing Resource Board is to assist the Member Board with any problems which arise in implementation of the Affirmative Marketing Agreement. HUD is responsible for organizing the Community Housing Resource Board, for appointment of members and for insuring that its responsibilities are fulfilled. The prerogatives of Member Board membership on a Community Housing Resource Board shall be determined by the NATIONAL ASSOCIATION OF REALTORS®. In any event, the Member Board shall have the right to be present at all Community Housing Resource Board meetings for the purposes of facilitating liaision. It is contemplated that Member Boards will make reasonable efforts to assist the Community Housing Resource Board in identifying meeting facilities and providing clerical support; however, the Member Board is under no obligation to provide other monetary support to the Community Housing Resource Board.

It is HUD's responsibility to insure a balanced respresentation on the Community Housing Resource Board, which provides equal voice of all of the groups and interests involved in it, such as representatives of state and local agencies of government, civil rights and fair housing groups, and civil organizations which have a substantial interest in housing and equal opportunity.

A multi-Board Community Housing Resource Board, shall be encouraged where practical and economical, but shall not be established without mutual agreement of HUD and the NATIONAL ASSOCIATION OF REALTORS®.

The Community Housing Resource Board will not sponsor, conduct or fund programs of real estate testing.

Any party to litigation or complaints alleging violation of the Federal Fair Housing Law or the REALTORS® Code of Ethics, as from time to time amended, shall immediately withdraw as a member of the Member Board Equal Opportunity Committee or as a member of the Community Housing Resource Board. When the litigation or complaint is resolved, appointment and service on the Equal Opportunity Committee or Community Housing Resource Board may be reinstated.

In support of Paragraph IV, A HUD and members of the Community Housing Resource Board shall assist the Member Board in negotiations with local newspapers for publication of the recommended Publisher's Notice as set forth in HUD's Advertising Guidelines. HUD and representatives of the Community Housing Resource Board shall assist the Member Board in Negotiations with television and radio stations for donations of time to present public service announcements on fair housing and equal opportunity.

7. Community Housing Resource Board Document

HUD and the NATIONAL ASSOCIATION OF REALTORS® will work jointly to develop a mutually acceptable and jointly published document as a reference source and guidebook on organization, appointment and operation of a Community Housing Resource Board.

8. Public Awareness

The words "REALTORS® Guide to Practice Equal Opportunity in Housing" will be deleted from Paragraph IV, G. Said wording was removed from the Agreement through action of the NATIONAL ASSOCIATION OF REALTORS® Board of Directors on May 7, 1978, and approved by HUD. A brochure entitled "What Everyone Should Know about Equal Opportunity in Housing" is available from the National Association for use in fulfilling this responsibility.

Agreement Renewal

The Voluntary Affirmative Marketing Agreement approved by the NATIONAL ASSOCIATION OF REALTORS® Board of Directors on November 11, 1975, and jointly approved by representatives of the Department of Housing and Urban Development and the NATIONAL ASSOCIATION OF REALTORS® on December 10, 1975, will remain in full force and effect, including revisions in Paragraphs I, C and IV, G specified herein, until September 20, 1986, in accordance with provisions of Paragraph VIII as clarified in this document. The Memorandum of Understanding will be attached to Agreements voluntarily adopted by Member Boards and State Associations.

Signed at ——, this —— day of October, 1981, effective September 20, 1981.

For the NATIONAL ASSOCIATION OF REALTORS®

John R. Wood,
President.

Jack Carlson,
Executive Vice President.

For the U.S. Department of Housing and Urban Development

Samuel R. Pierce,
Secretary.

Antonio Monroig,
Assistant Secretary.

Appendix C—Voluntary Affirmative Fair Housing Marketing Agreement

(For Voluntary Use by Members of The National Association of Home Builders)

This Agreement, effective as to the parties hereto respectively on the date executed by said party, by and between the United States Department of Housing and Urban Development (hereinafter referred to as "HUD"); any signatory to the original or a counterpart of this Agreement (hereinafter referred to as "Builder") all of whom shall constitute the Builder Group known as ———— (hereinafter referred to as the "Builder Group").

Witnesseth

WHEREAS, Title VIII of the Civil Rights Act of 1968 (hereinafter referred to as the "Act") declares that: "It is the policy of the United States to provide, within constitutional limitations, for fair housing throughout the United States," and Section 808 thereof vests authority and responsibility for its administration in the Secretary of Housing and Urban Development; and

WHEREAS, voluntary compliance activities are mandated by Sections 808 and 809 of the Act, and in particular Section 808 requires the Secretary of Housing and Urban Development to "cooperate with and render technical assistance to federal, state, local, and other public and private agencies, organizations, and institutions which are formulating or carrying on programs to prevent or eliminate discriminatory housing practices."; and

WHEREAS, Section 808 of the Act states: "The Secretary of the Department of Housing and Urban Development shall call conferences of persons in the housing industry and other interested parties . . . and shall endeavor with their advice to work out programs of voluntary compliance and of enforcement.";

WHEREAS, it is the belief of HUD and the National Association of Home Builders (NAHB) that ". . . the policy of the United States to provide, within constitutional limitations for fair housing throughout the United States, . . ." can best be carried out with ". . . programs of voluntary compliance and of enforcement . . ." therefore, HUD and the NAHB have developed this form of Agreement and have agreed that parties hereto who comply with the provisions of this Agreement are and shall be in compliance with the Act.

NOW THEREFORE, in consideration of the premises and mutual promises and convenants hereinafter set forth, the parties hereto agree as follows:

Section One—Definition

For the purpose of this Agreement the term "Affirmative Marketing" means, a program to inform the community of the availability of housing and services rendered by Builders, to all prospective home buyers and renters, without regard to race, color, religion, sex or national origin, as vested in the Secretary of the Department of Housing and Urban Development by Section 808 of the Act. The purpose of this Agreement is to implement a "Voluntary Affirmative Fair Housing Marketing Program" as provided for and in compliance with the Act (hereinafter referred to as the "Program").

Section Two—Application

The provisions of this Agreement shall apply to all residential housing constructed, marketed, sold, or rented by Builder except that nothing in this Agreement shall apply to any residential housing constructed, marketed, sold, or rented by Builder prior to the effective date of this Agreement. Such effective date shall be the latest date of execution by the Builder or HUD.

Section Three—Voluntary Affirmative Fair Housing Marketing Program

A. Advertising and Public Information

1. Builder Group shall develop and maintain a program of public information to inform the entire community of the Voluntary Affirmative Fair Housing Marketing Program.

2. Builder shall include the official Fair Housing and Equal Opportunity logo, slogan, or statement in all brochures, pamphlets, posters, billboards, and classified advertising of four column inches or larger, as suggested in HUD's Advertising Guidelines for Fair Housing. Alternatively, inclusion of the slogan or logo is not necessary in any classified advertisement where there exists a "Publishers Notice."

3. Whenever human models are depicted in display advertising campaigns, Builder shall attempt to reasonably represent both majority and minority groups so as to indicate receptivity to racial inclusiveness in the housing marketing area(s).

4. When requested, HUD shall provide technical assistance to Builder Group and to Builder in developing advertising and public information tecniques, in accordance with HUD's Advertising Guidelines for Fair Housing.

5. Builder shall maintain a record of advertising that will demonstrate efforts to comply with this Agreement.

B. Fair Housing Posters

Builder will display and maintain the HUD Fair Housing Poster at any place of business where a dwelling is offered for sale or rental, including model houses. Builder will prominently display the Fair Housing Poster so that it is readily apparent to all persons seeking housing accommodations or other services rendered by Builder. For purposes hereof "Fair Housing Poster" means the poster prescribed by HUD for display by persons subject to Section 804–806 of the Fair Housing Act of 1968.

C. Housing Market Area(s) Analysis

1. The HUD Area or Insuring Office shall supply Builder Group an identification of the minority groups whose housing opportunities the parties seek to increase, by cost and kind of housing.

2. Builder shall provide for each project development quarterly reports to the Builder Group or the HUD Area or Insuring Office, at Builder's option, containing a breakdown, by the categories supplied by HUD as set forth in paragraph C.1. hereof, in accordance with HUD procedures for the gathering of necessary data and on model forms established by HUD.

D. Builder Group shall develop a monitoring system in order to receive information from Builder.

E. Builder Group shall submit a report to HUD on a quarterly basis to determine progress in achieving the purpose of this Agreement, including the following:

1. The sales and rental totals of all properties reported to it by members by the group categories identified in paragraph C hereof.

2. A description of all actions in furtherance of this Agreement taken by the local Builder Group during the reporting period.

Section Four—Implementation of the Program

A. Undertakings by Builder Group

Builder Group shall establish an Equal Opportunity Committee consisting of Builders who are signatories to this Agreement which shall have the following responsibilities:

1. To administer and implement the Program as set forth in Section Three of this Agreement as required by the Builder Group.

2. To explain and publicize the purpose and provisions of this Agreement to all Builders who have executed this form of Agreement, in order to achieve broad-based informed participation in the Program contemplated by this Agreement.

3. To meet not less than semi-annually with representatives of HUD and the Community Housing Leadership Board, hereinafter provided for, to determine progress in achieving the purpose of this Agreement.

B. Undertakings by Builder

1. Builder shall inform and train all employees regarding the Affirmative Fair Housing Marketing Program.

2. Builder shall inform the Builder Group in writing of all housing to be constructed, developed, and marketed, at least sixty (60) days prior to such housing becoming available, and shall provide adequate information for distribution by the Community Housing Leadership Board.

C. Undertaking by HUD

1. HUD shall provide to Builder Group and to Builder technical assistance on a continuing basis to aid in the compliance with this Agreement upon request by Builder Group and/or Builder.

Section Five—Community Housing Leadership Board

Builder Group shall appoint _____ individuals with the approval of HUD, which individuals shall constitute the Community Housing Leadership Board for the purpose of this Agreement.

The Community Housing Leadership Board shall be composed of local community leaders having a substantial interest in housing and equal opportunity, from industry, and the financial community and local elected and appointed officials, and other interested parties. The purpose of the Board shall be to assist Builder Group, the Builder, and HUD in carrying out the purpose of this Agreement.

Section Six—Compliance and Enforcement

A. If there is reasonable cause to believe that Builder Group is not in compliance with the basic provisions of this Agreement, the Secretary of HUD (hereinafter referred to as "Secretary"), or the Secretary's designee, may, after providing an opportunity for a fair hearing and determination of the facts, terminate the Agreement.

B. The Secretary shall provide timely notice of the hearing to Builder Group and said hearing shall be conducted in compliance with the Act and Administrative Procedure Act (5 U.S.C., Section 554 et seq.). The decision of the hearing officer shall be subject to judicial review.

C. In the event of termination of the Agreement, the obligations of Builder hereunder shall remain in full force and effect, but only to the extent that said obligations would be required by HUD's Affirmative Fair Housing Marketing Regulations. If Builder has previously applied for HUD assistance and has not yet marketed the housing applied for, Builder must, within ten (10) days from receipt of notice of termination of the Agreement, file with HUD a fully executed Affirmative Fair Housing Market Plan for such housing.

Section Seven—Conference and Conciliation on Alleged Builder Violations

Whenever there is reasonable cause to believe that Builder has failed to make good-faith efforts to fulfill its responsibilities under this Agreement, the following procedures shall be employed prior to the commencement of any action or proceedings against a Builder for any alleged violation within the scope of this Agreement occurring after its effective date:

1. The Equal Opportunity Committee of the Builder Group shall notify Builder of the area(s) of non-compliance and request appropriate corrective action.

2. The Equal Opportunity Committee shall document, in writing, the Builder's non-compliance with the Agreement and provide Builder with copies of such written documentation.

3. Builder shall have fifteen (15) business days from receipt of the written documentation of non-compliance to effectuate the corrective action and to provide written notice to the Equal Opportunity Committee shall arrange for a joint meeting with representatives of the Equal Opportunity Committee, HUD, and Builder, to discuss the steps necessary for compliance with the Agreement.

5. Following the joint meeting referred to in paragraph 4 above, the Equal Opportunity Committee shall provide Builder, in writing, a "Second Notice of Non-Compliance," stating that the Builder has fifteen (15) business days

to take appropriate action, or face termination as party to this Agreement.

6. If compliance with the Agreement is not secured within the allotted time of the "Second Notice of Non-Compliance," the Equal Opportunity Committee and HUD will jointly notify Builder, in writing, that he is terminated as a party to this Agreement, suspended as a member of the Builder Group, an no longer eligible for participation in the Voluntary Affirmative Fair Housing Marketing Program. Thereupon Builder will have ten (10) business days to present an approvable individual Affirmative Fair Housing Marketing Plan for all HUD-assisted projects.

7. By its execution hereof, Builder consents to the notification by HUD of Builder Group that a complaint has been filed against it.

Section Eight—Acceptance of Agreement in Lieu of Individual Affirmative Fair Housing Marketing Plan

When at any future time Builder is an applicant for participation in an FHA or HUD program and is subject to the requirements of the HUD Affirmative Fair Housing Marketing Regulations or the Joint HUD-VA Non-Discrimination Certification, in lieu of submitting an individual Affirmative Fair Housing Marketing Plan or executing the Non-Discrimination Certification, Builder may reference his participation in this Program, which participation shall be accepted by FHA and/or HUD in lieu of an individual Affirmative Fair Housing Marketing Plan.

Section Nine—Term

The original term of this Agreement shall expire on September 30, 1980, and shall automatically be extended for successive one-year terms thereafter unless previously terminated.

Section Ten—Termination

HUD may terminate this Agreement at any time with written notice for noncompliance herewith. Builder and/or Builder Group may terminate this Agreement at any time with or without cause by giving HUD 90 days written notice of its intent to terminate.

Section Eleven—Amendments

This Agreement may be amended only by written consent of all the parties hereto.

Section Twelve—Delegation by Secretary

Wherever the term Secretary of HUD is used herein, it shall be deemed to include and mean his designate for the administration of the Voluntary Affirmative Fair Housing Marketing Program.

Section Thirteen—Adoption and Home Builder Signatories

Adopted by the Builder Group of _____ at a special meeting held on _____, 19—, at _____, and certified as a true and correct copy.

For the _____ Builders Group.

Title _____

Date _____

By appending their signatures hereto, the following hereby become signatories to the above agreement, as of the date indicated next to their respective names, and constitute the Builder Group referred to therein.

Date	Builder

(Additional names may be added on plain paper and attached to this Agreement.)

Section Fourteen—HUD Signatories

This Agreement has been accepted by the Area or Insuring Office Director by _____, on _____, 19—, at _____; by the Regional Administrator, by _____ on _____, 19—), at _____; and by the Assistant Secretary for Fair Housing and Equal Opportunity, by _____, on _____, 19—, at _____.

Appendix D—Affirmative Fair Housing Marketing Plan

1. Parties

a. The Home Builders Association of Alabama (HBAA) and their members whose names appear in Appendix A to this Agreement.

b. The Department of Housing and Urban Development through the authorized signatures appearing in Appendix B.

2. Definitions

Members of the HBAA are residential home and apartment builders, renters, and sellers doing business in the State of Alabama. Substantial portions of their units are developed and marketed under one or more of the FHA Housing Programs. These industry members are subject to the Federal Fair Housing Act of 1968.

a. The Department of Housing and Urban Development has the responsibility under the National Housing Act, as amended, for administering FHA housing programs; and, under the Civil Rights Act of 1968, for developing programs of voluntary compliance with companies in the housing industry.

b. Non-member companies, agencies and individuals may, at any time during the life of this Agreement, become members. These companies, agencies and individuals shall advise the HBAA in writing of their intention.

3. Objectives

To establish an industry and area-wide approach to the Affirmative Fair Housing Marketing Program. Effective February 25, 1972, HUD regulations (HUD Handbook 8030.2, Revised 6–30–73) required the marketing of sale and rental units covered by an FHA housing program to be carried out pursuant to a written Affirmative Fair Housing Marketing Plan. In order to develop compliance with the spirit and letter of these regulations and guidelines, and in order to fully implement the Code of Fair Housing Practices adopted by the HBAA (Appendix C), the following plan of voluntary action will be applicable to all sales and rentals of housing marketed by the member-signatories to this Agreement.

The objectives of this Affirmative Marketing Agreement are:

a. To increase substantially the number of minority residents in neighborhoods outside areas of predominantly minority concentration through advertising and other methods intended to inform minority and majority residents in the State of Alabama that all housing developed, rented and sold by Group members is available to them on an equal opportunity basis.

b. To inform the general public that, in terms of equal opportunity in housing, the State of Alabama is an open community, and to explain and promote the benefits of the Agreement to State residents.

4. Scope

The Agreement covers all residential housing developed, sold and rented by members of the HBAA or their agents, including conventionally financed housing as well as housing developed and marketed under an FHA housing program.

5. Builder Group Responsibilities

In order to carry out effectively the objectives of the Agreement, the HBAA will:

a. Delineate 23 sub-market areas for the State, and

1. The minimum goals for minority and majority sales in the State: 15%.

2. Minority and majority rental goals in the State: 15%.

b. Maintain a current list of community organizations and persons concerned with open housing to be used as referral sources in each market area. (See list of community contacts in Appendix D.)

c. Prominently display the HUD Equal Opportunity logo or slogan on all advertisements for the sale or rental of housing units.

d. Develop, sponsor and underwrite a sustained advertising campaign in the most effective media to promote the principles and meet the goals of this Agreement, and develop awareness among the State homeseeker market of the meaning of equal housing opportunity. Radio, television, billboards, and newspapers, particularly the real estate pages, will be used to reach the specific homeseeker market. Provide all media with information explaining the Agreement and the opportunities for housing in the market area on a regularly scheduled basis. Show evidence of sensitivity to the need for directing the marketing activity to those groups which are not likely to apply without special outreach, i.e., to racial minority groups for housing in predominantly non-minority areas; to racial majority groups for housing in integrated areas.

e. Sponsor an initial comprehensive advertising and public relations campaign promoting the principles and goals of this Agreement.

f. Develop advertising and publicity campaigns of the group through the twenty-five local associations.

g. Encourage the press to publish the recommended "Publisher's Notice" set forth in HUD Advertising Guidelines for Fair Housing, in their respective real estate sections.

h. Solicit and generate substantial public service advertising with mass media in furtherance of the objectives of the Agreement. News and feature stories concerning equal housing opportunities will be prepared on a regularly scheduled basis. Newspapers, including minority newspapers, will be urged to publish these stories as frequently as possible.

i. Media execution: Encourage current advertisers such as utility companies and financial institutions to use the appropriate fair housing opportunity logo and/or slogan on billboards, newspapers and other media.

j. Monitoring. A system of monitoring advertising and publicity will be developed in order to provide HUD with an evaluation of the media campaign.

k. Establish a Community Housing Resource Board in each market area composed of representatives from the minority and majority populations and other whose participation would serve to implement the goals of the Agreement. The HBAA will meet with the Resource Boards on a regular basis to (1) inform the Boards of efforts of the HBAA to implement the Agreement, and (2) draw upon the experience of the Boards to assist in accomplishing the goals of the Agreement and in solving problems as they arise. The Boards may also be called upon to provide housing counseling assistance.

l. Designate an Equal Opportunity Officer to assist in carrying out the goals of the Agreement. The Officer will train employees of member companies in the objectives and implementation of the Agreement.

m. Establish a recruitment pool and training program for minority employees of the members. Continued employment of trainees will be dependent upon successful on-the-job performance during a six-month period.

n. Authorize expenditures as needed to reasonably and appropriately carry out the programs of this Agreement, within the budget of the HBAA.

6. Individual Member Responsibilities

a. Designate a qualified official of the company as Equal Opportunity Officer.

b. Work to achieve the occupancy goals, as set forth in this Agreement for each sub-market area.

c. Inform the appropriate Community Housing Resource Board in a timely fashion of upcoming projects within its area. Provide an adequate supply of printed materials concerning the projects for distribution to the Board's constituency.

d. Insure that all newspaper advertisements will comply with HUD advertising guidelines for fair housing.

e. Insure that radio advertisements will use the "Equal Housing Opportunity" slogan. Television advertisements will use the logo or the slogan.

f. Insure that all billboards will have the logo of such size as to be clearly visible by passing motorists.

g. Insure that all site signs will have the logo of a size as to be readily seen by all visitors to the site.

h. Display the Fair Housing Poster as required by the HUD Fair Housing Poster regulation.

i. Insure that all brochures will display the logo or slogan in a prominent place.

j. Make a special outreach to encourage the majority white population to move into any developments located in racially mixed or transitional areas. The goal of this effort is to achieve a racially balanced community.

k. Maintain a nondiscrimination policy in company employment practices as required by Federal laws. Establish affirmative action numerical goals based on the minority population in the market area as well as such factors as the minimum qualifications for real estate sales personnel and brokers, the existing number of trained minority persons in the area, and the fact that training will be provided by the HBAA.

l. Solicit eligible buyers or renters referred by Community Housing Resource Boards or by the HUD Area Office.

m. Institute formal and informal training programs for all employees, in order to: 1. sensitize employees to the needs of prospective minority clients, 2. positively delineate management's policy of open housing for all persons, and 3. educate employees concerning the specific provisions and goals of this Agreement.

n. In any instance where an individual member firm uses sales personnel other than its own to sell, rent or market its units, the sales and marketing personnel will be required, as a condition of employment, to adopt and be bound by the terms of this Agreement, including the advertising guidelines set forth herein.

o. Maintain a record of advertising and outreach action taken that will demonstrate efforts employed in behalf of increasing minority group employment and housing options.

7. Community Housing Resource Board Responsibilities

a. Assist the HBAA in accomplishing the goals of this Agreement.

b. Receive and disseminate information concerning location, price, and type of housing in the area available to the community.

c. Provide housing counseling assistance as needed.

8. Reports

Each member will file with the Equal Opportunity Officer of the Builder Group, monthly sales and/or rental reports for all housing covered by this Agreement, providing a racial breakdown for sales and/or rentals, starting at the end of the first month, which will then be filed with Director, Equal Opportunity, HUD Area Office.

9. Affirmative Fair Housing Marketing Plan

This Agreement shall constitute, for a member, compliance with the Affirmative Fair Housing Marketing Plan as required by 24 CFR Part 200, Subpart M. Where such a company hereafter is an applicant for participation in FHA housing program to which 24 CFR Part 200, Subpart M applies, said company shall, in lieu of submitting an individual plan, reference its participation in the program described in the Agreement on HUD Form 935.2. Compliance with the terms of this Agreement with respect to the obligations of individual builders shall be governed by 24 CFR 200.635.

10. Duration

This Agreement shall be effective when approved by the Assistant Secretary for Equal Opportunity, HUD, and shall remain in effect for one year. However, where an evaluation of the Agreement at any time during its term reveals that reasonable progress is not being made towards achieving its objectives, the Agreement may be modified upon consent of the parties. Where the parties are unable to agree upon the terms of a modification, HUD in its discretion, may terminate the Agreement, and the obligations set forth in Paragraph 9 of the individual member shall remain in effect as to units marketed under an FHA housing program and covered by this Agreement to the same extent as if said obligations had been embodied in an individual plan filed pursuant to 24 CFR Part 200, Subpart M. Sixty (60) days prior to the date of its scheduled expiration, representatives of the HBAA and of HUD will meet to evaluate the effectiveness of the Agreement and to determine whether this Agreement, or some modification thereof, should be adopted for the following year.

BILLING CODE 4210-28-M

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Pyramid Lake Indian Irrigation Project, Nevada

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: The purpose of this public notice is to change the per acre assessment rates for the operation and maintenance of the irrigation facilities on the Pyramid Lake Indian Irrigation Project, to properly reflect the actual costs for labor, material, equipment, and services. The change is from $29.00 to $30.52 per irrigable acre for non-Indian owned land and Indian owned land leased to non-Indians, and from $16.50 to $3.00 per irrigable acre for Indian owned land farmed and operated by Indians.

EFFECTIVE DATE: This notice will become effective April 1, 1984.

FOR FURTHER INFORMATION CONTACT: Robert L. Hunter, Superintendent, Western Nevada Agency, 5533 Mark Twain Avenue, Carson City, Nevada 89701, telephone number (702) 887-3500.

SUPPLEMENTARY INFORMATION: This notice is issued under authority delegated to the Assistant Secretary for Indians Affairs by the Secretary of the Interior in 209 DM 8 and redelegated by

Deputy Assistant Secretary for Indian Affairs (Operations) to the Area Directors in 10 BIAM 3. On November 16, 1983, the Pyramid Lake Tribal Chairman requested that the Indian assessment rate of $16.50 per acre be reviewed and changed to $3.00 per irrigable acre for the 1984 irrigation season. In 1983, the Pyramid Lake Paiute Tribe under Pub. L. 93–638 contracted with the Bureau of Indian Affairs to operate and maintain the Pyramid Lake Irrigation Project. After review and evaluation of the contract, the Bureau of Indian Affairs determined that: (1) the Indian assessment rate for the operation and maintenance of the irrigation facilities could be reduced to adequately reflect the ability of the Indians as a whole to pay; and (2) to increase the full assessment rate to reflect the full cost of operation and maintenance of the irrigation facilities. Public meetings were held on November 29, 1983, and December 13, 1983, with the Land Resource Committee of the Tribe, Tribal Council and the waterusers. A notice for the meetings was published in the local newspaper. Comments and recommendations were requested on the proposed rate change and none were received.

The notice shall read as follows:

Annual Operation and Maintenance Charges

Annual Per Acre Assessment—The annual assessment against land to which water can be delivered under the Pyramid Lake Indian Irrigation Project in Nevada for operation and maintenance of the Project, is hereby fixed at $30.52 per irrigable acre for non-Indian owned land and Indian owned land leased to non-Indians, and $3.00 per irrigable acre for Indian owned land farmed and operated by Indians.

Payment—The annual operation and maintenance assessment shall be due and payable on April 1 of each year and continued in effect thereafter until further notice. Water will not be delivered to the land until the assessment has been paid or arrangements have been made under 25 CFR Part 171.17 Delivery of Water.

Duty of Water—All water of the project is deemed a common water supply in which all irrigable lands of the project are entitled to share equally and such water will be distributed to the lands of the project as equitable as physical conditions will permit.

Walter R. Mills,

Assistant Area Director (Programs).

BILLING CODE 4310-02-M

Flathead Irrigation & Power Project, Montana; Revision of Power Rate Schedules

This notice of power rate schedule change is published under the authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs in 109 DM 8 and redelegated by the Assistant Secretary to the Area Director in 10 BIAM 3.

Pursuant to the provision in 25 CFR 176.59 authorizing the Area Director to pass increased power costs of the Flathead Irrigation and Power Project to the customer, the following changes are made:

A. The new rates are:

1. *Rate Schedule No. 1:*

(a) Monthly rate. 3.5 cents per kilowatt hour for all kilowatt hours;

(b) Basic Charge. $5.00 per month rural, $3.00 per month within incorporated municipalities. All kilowatt hour charges to be in addition to basic charges;

2. *Rate Scheduled No. 4:*

(a) Energy—3.5 cents per kilowatt hour for first 18,000 kilowatt hours, 2.5 cents for additional kilowatt hours;

(b) Demand—$3.50 per kilowatt.

3. *Rate per season or fraction thereof:*

(a) $10.00 per horsepower connected; 2.5 cents per kilowatt hour for all kilowatt hours used; the minimum connected horsepower charge will be $50.00

Kenneth Smith,

Assistant Secretary—Indian Affairs.

Comprising 137,344.595 acres, more or less.

In exchange for this federal mineral estate, the United States has selected 130,367.45 acres of State-owned minerals within Mohave County, Arizona.

The purpose of the exchange is to unite State and Federal split estates, thereby eliminating surface management difficulties and providing for the consolidation of surface/mineral ownership.

The purpose of this Notice of Realty Action is two-fold. First, this action will provide a response period of forty-five (45) days during which public comments will be accepted. Secondly, this action, as provided in 43 CFR 2201.1(b), shall segregate the federal minerals, as described in this Notice, to the extent

that they will not be subject to appropriaton under the mining laws, subject to any prior valid rights. The segregative effect shall terminate either upon publication in the Federal Register of a termination of the segregation or two years from the date of this publication, whichever comes first. This action is necessary to avoid the occurrence of nuisance mining claims that could encumber the federal minerals while the preparation of an environmental assessment and mineral report are ongoing.

Upon completion of the environmental assessment, a final Notice of Realty Action will be published. The Notice will provide a final description of the Federal and State minerals to be transferred, including reservations.

SUPPLEMENTARY INFORMATION: Detailed information concerning the exchange, including a listing of the selected State-owned minerals, may be obtained from the Area Manager, Phoenix Resource Area, 2015 West Deer Valley Road, Phoenix, Arizona 85027.

For a period of forty-five (45) days, interested parties may submit comments to the District Manager, Phoenix District Office, 2015 West Deer Valley Road, Phoenix, Arizona 85027.

Dated: March 23, 1984.

Marlyn V. Jones,

District Manager.

BILLING CODE 4310-40-M

[Int DEIS 84-7]

Availability; Northeast Resource Area, Colorado, Resource Management Plan, Environmental Impact Statement

AGENCY: Bureau of Land Management (BLM), Interior.

ACTION: Notice of availability of the draft environmental impact statement (DEIS) and of the public hearings.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969, the BLM has prepared a DEIS on alternative resource management plans for the Northeast Resource Area in Colorado.

DATE: Comments will be accepted until July 23, 1984.

ADDRESS: Comments should be sent to: Area Manager, Northeast Resource Area, 10200 West 44th Avenue, #222, Wheatridge, Colorado 80033.

FOR FURTHER INFORMATION CONTACT: Frank Young, Area Manager, Bureau of Land Management, Northeast Resource Area, 10200 West 44th Avenue, #222, Wheatridge, Colorado 80033, (303) 234-4988.

SUPPLEMENTARY INFORMATION: The BLM has prepared a DEIS on 5 alternative resource management plans for the Northeast Resource Area. Included are multiple use allocations and management prescriptions for 40,030 public land acres and minerals management decisions (i.e., coal, oil and gas, salable and locatable minerals) for approximately 615,000 acres of federal subsurface estate where the surface is non-federal. The DEIS displays the management decisions and analyzes the land and resource allocations for environmental, productivity, economic, and social impacts by alternative for comparison purposes. The preferred alternative plan would result in no BLM retention of public land but continue minerals management on all subsurface mineral estate.

Availability

Single copies of the DEIS may be obtained at the above adddress. Public Reading copies are also available at the following locations:

Elbert County Library, Kiowa, CO 80117
Fort Morgan Public Library, 414 Main Street, Fort Morgan, CO 80701
Forth Collins Public Library, 200 Mathews, Fort Collins, CO 80524Penrose Public Library, 20 North Cascade Avenue, Colorado Springs, CO 80903
Limon Memorial Library, 590 "E" Avenue, Limon, CO 80828
Sterling Public Library, Sterling, CO 80751
Boulder Public Library, 1000 Canyon, Boulder, CO 80302

Public Hearings

Public hearings to receive oral and/or written comments will be held at 7 p.m. at the following locations and dates:

Elbert County Courthouse Annex, Commissioners Hearing Room, 221 Comanche, Kiowa, Colorado—7:00 p.m., Monday, June 4, 1984
Larimer County Courthouse, Commissioners Hearing Room, 200 West Oak, Ft. Collins, Colorado—7:00 p.m., Tuesday, June 5, 1984

Gilpin County Courthouse, Court Room, 203 Eureka, Central City, Colorado—7:00 p.m., Wednesday, June 5, 1984
Ramada Foothills, 11595 West 6th Avenue, (6th and Simms), Lakewood, Colorado—7:00 p.m., Thursday, June 7, 1984.

Oral comments may be limited in length to allow all participants equal opportunity.

Dated: March 22, 1984.

Ralph Smith,

Bureau of Land Management, Acting State Director.

BILLING CODE 4310-JB-M

[OR-22454]

Oregon; Proposed Continuation of Withdrawal

The Bureau of Reclamation proposes that the existing land withdrawal made by the Secretarial Order of September 11, 1936, be continued in its entirety for a period of 50 years pursuant to Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714.

The land involved is located at the Unity Reservoir approximately twenty-five miles southwest of Baker and contains 480 acres within Sections 8, 21 and 28, T. 12 S., R. 37 E., Willamette Meridian, Baker County, Oregon.

The purpose of the withdrawal is to protect the Unity Dam and the Burnt River Reclamation Project. The withdrawal segregates the land from operation of the public land laws generally, including the mining laws, but not the mineral leasing laws. No change is proposed in the purpose or segregative effect of the withdrawal.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal continuation may present their views in writing to the undersigned officer of the Bureau of Land Management.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal continuation. All interested persons who desire a public meeting for the purpose of being heard must submit a written request to the undersigned officer within 90 days from the date of publication of this notice. If the State Director, Bureau of Land Management, determines that a public meeting will be held, the time and place will be announced.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. A report will also be prepared for consideration by the Secretary of the Interior, the President, and Congress, who will determine whether or not the withdrawal will be continued and if so, for how long. The final determination on the continuation of the withdrawal will be published in the **Federal Register.** The existing withdrawal will continue until such final determination is made.

All communications in connection with the proposed withdrawal continuation should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, P.O. Box 2965, Portland, Oregon 97208.

Dated: March 23, 1984.

Harold A. Berends,

Chief, Branch of Lands and Minerals Operations.

BILLING DATE 4310-33-M

Salt Lake District, Utah; Proposed Amendment to Grouse Creek Management Framework Plan

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Proposed Amendment of Grouse Creek Management Framework Plan.

SUMMARY: Notice is hereby given that the Bureau of Land Management (BLM), Salt Lake District, intends to amend the lands portion of the Management Framework Plan (MFP) for the Grouse Creek Planning Unit; Box Elder County, Utah.

Recommendations and decisions in the Grouse Creek MFP designated utility corridors and specified that future power transmission lines should be kept within these corridors, where possible. BLM has determined that the designated corridors may not be adequate to meet the need for proposed transmission lines in the area and that other suitable corridors may be identified. A proposal has recently been received from Raft River Electric Cooperative, Inc. and Wells Rural Electric Company to construct a 138 KV power transmission line from Grouse Creek to Wendover, Utah.

Approximately 30 miles of the line would be located in the Grouse Creek Planning Unit along Highway 30 from the Grouse Creek Road intersection to the Utah-Nevada border.

BLM will consider the environmental consequences of the proposed project and several alternatives prior to amending the Grouse Creek MFP. An environmental assessment will be available for public review approximately 30 days following publication of this notice. Issues to be considered in the assessment and proposed plan amendment include: wildlife habitat, visual resources, watershed, water resources, recreation opportunities, and socioeconomics.

Address and date: Comments, including issues to be considered in the proposed MFP amendment, should be sent by May 7 to Wayne Richards, Area Manager, Bear River Resource Area, Bureau of Land Management, 2370 South 2300 West, Salt Lake City, Utah 84119.

Dated: March 23, 1984.

Frank W. Snell,

Salt Lake District Manager.

BILLING CODE 4310-84-M

Eugene District Advisory Council; Meeting

Notice is hereby given in accordance with Section 309 of the Federal Land Policy and Management Act of 1976 that a meeting of the Eugene District Advisory Council will be held on May 1, 1984, at 9:00 a.m. Pacific Standard Time in Room 227 in the Federal Building at 211 E. 7th, Eugene, Oregon.

The agenda for the meeting will include: (1) A review of illegal activities taking place on public lands; (2) a summary of other current issues faced by the District; and (3) an update on the O&C timber harvest.

The meeting is open to the public. Interested persons may make oral statements to the Council between 11:30 a.m. and 11:45 a.m. or file written statements for the Council's consideration. Anyone wanting to make an oral statement must notify the District Manager, Bureau of Land Management, 1255 Pearl Street, Eugene, Oregon 97401, by April 27. Depending on the number of persons wanting to make oral statements, a per person time limit may be established by the District Manager.

Summary minutes of the Council meeting will be maintained in the District Office and be available for public inspection and reproduction during regular business hours within 30 days following the meeting.

Dated: March 8, 1984.

Melvin D. Clausen,

District Manager.

BILLING CODE 4310-84-M

California Desert District; Off-Road Vehicle Designation Decisions in Northern and Eastern Imperial County

AGENCY: Bureau of Land Management, Interior.

ACTION: Off-road vehicle designation decisions to open, close, or limit use of routes of travel on public lands in the northern and eastern portions of Imperial County, California.

SUMMARY: Off-road vehicle designation decisions have been made to protect the resources of the area, to promote safe use of the lands and to minimize conflicts among users. The designations were prepared following the criteria defined in 43 CFR 8342.1 and with the authority of 43 CFR 8000.0–6, 8340, 8341, 8342, and 8364. The California Desert Conservation Area had previously been mapped using a series of 21 maps called the Motorized Vehicle Interim Access Guides. These guides provided the interim vehicle designations made by the California Desert Conservation Area Plan until such a time as vehicle routes in each map area could be more carefully inventoried. This notice serves to inform the public that designation decisions have been completed on the Imperial County portions of the following two map areas:

1. Midway Well map area, located in eastern Imperial County. This area encompasses approximately 500,000 acres of BLM-administered public land and includes such well-known locations as Milpitas Wash, Hauser Geode Beds, Vinagre Wash, Black Mountain, Indian Pass, Picacho Peak, and the Cargo Muchacho Mountains.

2. Cahuilla map area, located in northwestern and northcentral Imperial County. This area encompasses approximate 150,000 acres of BLM-administered public land and includes such well-known locations as the Fish Creek Mountains, Arroyo Salada, San Felipe Creek, and Sebastian Marsh.

These designations supersede the Interim Critical Management Plan (ICMP) designations for these areas. The designation decisions were prepared with extensive public involvement. Work maps for the areas were sent to more than 600 individuals and groups who had previously indicated an interest in being involved in the route approval process. Using route information provided by the public as well as aerial photographs and field surveys, BLM inventoried travel routes and made preliminary route approval decisions. These proposed decisions were sent to all persons on the mailing list and publicized in the local news media. Following a 45-day comment period, the final decisions were made. An ad hoc citizen group composed of interested persons representing the spectrum of public concerns reviewed the decisions.

DATES: These designations are effective upon publication and will remain in effect until rescinded or modified by the authorized officer. Enforcement of these route designations will be implemented as routes are signed or as maps are printed and become available to the public.

ADDRESSES: Send inquiries to District Manager, California Desert District, 1695 Spruce Street, Riverside, California 92507 or the Area Manager, El Centro Resource Area, 333 South Waterman Avenue, El Centro, California 92243. Route designation decision records and maps showing vehicle designations will be available for public review at the above addresses from 7:45 a.m. to 4:30 p.m. on regular work days.

FOR FURTHER INFORMATION CONTACT: Dave Mensing (714) 351–6402; Steve Nelson (619) 352–5842.

SUPPLEMENTARY INFORMATION: Under the authority provided in the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.), the Endangered Species Act (16 U.S.C. 1531 et seq.), EO 11644 (Use of Off-Road Vehicles on the Public Lands), and 3 CFR 74.332 as amended by EO 11989, 42 FR 26959 (May 25, 1977). Any person who violates or fails to comply with the vehicle route designations as governed by 43 CFR Part 8341 is subject to arrest, conviction and punishment pursuant to appropriate laws and regulations. Such punishment may be a fine of not more than $1000 or imprisonment for not longer than 12 months, or both.

Dated: March 21, 1984.

Wesley T. Chambers,

Acting District Manager.

[FR Doc. 84-8328 Filed 3-28-84; 8:45 am]
BILLING CODE 4310-40-M

Final Wilderness Inventory Decision for BLM-Administered Islands in Alabama, Florida, and Louisiana

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of final wilderness inventory decision for BLM-administered islands in Alabama, Florida, and Louisiana.

SUMMARY: This notice is to announce the final wilderness decision on public islands administered by the Bureau of Land Management in Alabama, Florida, and Louisiana, under the authority of Section 603 of the Federal Land Policy and Management Act, and in accordance with guidelines in the September 27, 1978 Bureau of Land Management *Wilderness Inventory Handbook*, Organic Act Directive No. 78–61, Change 3; and the Bureau of Land Management Washington Office memorandum dated July 22, 1981.

The following units proposed to be dropped from further study in the October 14, 1983, **Federal Register**, are no longer subject to wilderness review because they were found to lack wilderness characteristics:

State	No. of islands	Total acres
Alabama	13	54.52
Florida	3	1.67
Louisiana	2	4.39
Total	18	60.58

During the initial 90-day comment period, two written comments were received. One comment was submitted by a representative of a state governor's office. The second comment was submitted by a representative of the oil and gas industry. Both comments agreed with BLM's wilderness proposal to drop all islands from further wilderness study.

DATE: Comments/Protests should be submitted by April 30, 1984. Any person adversely affected by this decision may appeal such decision under the provisions of 43 CFR Part 4. Protests must be in writing and received at the Jackson District Office on or before the above date.

ADDRESS: Comments/Protests should be sent to: District Manager, Jackson District Office, Bureau of Land Management, P.O. Box 11348, Delta Station, Jackson, MS 39213.

FOR FURTHER INFORMATION CONTACT: Caroline Albright, Jackson District Office, (601) 960–4405.

SUPPLEMENTARY INFORMATION: The October 14, 1983 **Federal Register** (48 FR 46857) announced a 90-day public comment period on 18 island inventory units in Alabama, Florida, and Louisiana, encompassing approximately 60.58 acres. The public comment period ended January 12, 1983. During the comment period, press releases were issued to encourage response; and wilderness review summaries were distributed to county officials in all counties where the islands are located, as well as state officials, interest groups and individuals expressing interest in the public islands. Copies of this three-page summary of the Wilderness Review, along with the situation evaluations and maps, were available

upon request from the District Manager, Jackson District Office, at the above address.

Donald L. Libbey,

District Manager.

BILLING CODE 4310-84-M

Off-Road Vehicle Designation

AGENCY: Bureau of Land Management.

ACTION: Notice of Off-Road Vehicle Designations in the Mackay Planning Unit of the Salmon, Idaho District.

Pursuant to 43 CFR 8340 (Management of Off-Road Vehicle Use on Public Lands). The Salmon, Idaho District of the Bureau of Land Management announces that tis Mackay Planning Unit ORV Management Plan is now completed. The plan designates lands within the planning unit as either limited or open to ORV use. Designations include:

1. Limited areas:

a. Jerry Peak WSA 46–14 (8,790 acres)—ORVs limited to existing roads and trails;

b. Wilow Creek Summit elk crucial winter range (1,088 acres)—closed to all vehicles from December 1 to April 30;

c. Mule deer and elk crucial winter range (11,785 acres)—closed to all organized ORV events from December 1 to April 30;

d. Antelope crucial winter range (24,757 acres)—closed to all organized ORV events from November 15 to April 15.

2. Open areas: All other lands in the Mackay Planning Unit (88,508 actres) subject to regulations as listed in 43 CFR 8340.

Note that there are 132,460 acres of BLM Land in the Mackay Planning Unit. Except for the Jerry Peak WSA and the Willow Creek Summit area (a total of 9,878 acres), the entire planning unit is open to yearlong casual ORV use (122,582 acres). Ther is also an overlap of 2,468 acres between antelope and mule deer crucial winter range. Therefore, of the area open to casual ORV use, only 34,074 acres aare additionally closed to organized OrV events diring the winter months.

Copies of the final plan can be obtained by writing or calling the Salmon District Manger, P.O. Box 430, Salmon, Idaho 83467, (208) 756–2201.

Kenneth G. Walker,

District Manager.

BILLING CODE 4310-GG-M

Proposed Reinstatement of Terminated Oil and Gas Lease

AGENCY: Bureau of Land Management, Interior.

SUMMARY: Under the provisions of Pub. L. 97–451, a petition for reinstatement of oil and gas lease M 55518, Madison County, Montana, was timely filed and accompanied by the required rental accruing from the date of termination, October 1, 1983.

No valid lease has been issued affecting the lands. The lessee has agreed to new lease terms for rentals and royalties at rates of $5 per acre and 16⅔ percent respectively. Payment of a $500 administration fee has been made.

Having met all the requirements for reinstatement of the lease as set out in Sec. 31 (d) and (e) of the Mineral Lands Leasing Act of 1920 (30 U.S.C. 188), the Bureau of Land Management is proposing to reinstate the lease, effective as of the date of termination, subject to the original terms and conditions of the lease, the increased rental and royalty rates cited above, and reimbursement for cost of publication of this Notice.

Cynthia L. Embretson,

Chief, Fluids Adjudication Section.

[FR Doc. 84-8398 Filed 3-28-84; 8:45 am]

BILLING CODE 4310-84-M

[Sale of Public Lands in Summit County, Utah, U–51478, U–51479]

Salt Lake District; Realty Action

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Realty Action; Sale of Public Lands, U–51478, U–51479.

SUMMARY: The following described land has been examined and identified as suitable for disposal by sale under section 203 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2750, 43 U.S.C. 1713), at no less than the appraised fair market value shown:

Legal description	Acreage	Value
U–51478, T. 5 N., R. 7 E., SLB+M, section 10, NE¼NE¼	40.0	$14,000
U–51479, T. 6 N., R. 8 E., SLB+M, section 20, NW¼NW¼	80.0	2,000

The sale parcels are small isolated remnants with no significant public value. The sales will enhance land use compatibility with adjoining private lands. The action is consistent with the Bureau's planning system, and the public interest will be served by offering these lands for sale.

The lands will be sold through competitive bidding with no preference right given to the many adjoining private landowners. Bids may be made by a principal or duly qualified agent. Qualified bidders include: citizens of the United States, 18 years of age or over; a corporation subject to the laws of any state or of the United States; a state, state instrumentality or political subdivision authorized to hold property; and any entities capable of holding lands or interests therein under the laws of the state within which the lands to be conveyed are located. Entities include but are not limted to associations, partnerships, and other legal entities.

The lands will be sold by sealed bids. Sealed bids shall be considered only if received at the place of sale, Bureau of Land Management, 2370 South 2300 West, Salt Lake City, Utah 84119, prior to 9 a.m., May 30, 1984, and for at least the appraised value. Each bid shall be accompanied by a certified check, postal money order, bank draft or cashier's check, made payable to the Bureau of Land Management for not less than one-fifth of the amount bid and shall be enclosed in a sealed envelope clearly marked "Bid for Public Land Sale U–51478 or U–51479, Summit County." Each parcel of land will be sold separately. If two or more bids for the same amount are received, the apparent high bidder shall be determined by drawing pursuant to 43 CFR 2711.3–1(c). The person making the final high bid will be declared the apparent higher bidder on that tract. The acceptance or rejection of any offer to purchase shall be in writing no later than 30 days after the date of the sale.

The terms and conditions applicable to the sale are:

(1) The apparent high bidder shall submit the remainder of the full bid price within 30 days from the notification of acceptance of the offer to purchase. Failure to submit the full bid price prior to, but not including the 30th day following the notification, shall result in cancellation of the sale of the above described lands and the deposit shall be forfeited.

(2) The authorized offer may reject the highest qualified bid and release the bidder from his obligation and withdraw the tract for sale, if he determines the consummation of the sale would be inconsistent with the provisions of any existing law or collusive or other activities have hindered or restrained free and open bidding or consummation of the sale would encourage or promote speculation in public lands.

(3) The patent will contain a reservation for ditches and canals and

be subject to all valid existing rights including the right of any prior mineral permittee or lessee to occupy so much of the surface of the lands as may be reasonably required for mineral leasing operations, without liability to the patentee or successors in interest for improvement damage resulting from such mineral activity.

(4) All minerals will be reserved to the United States.

(5) The United States does not, by the terms of this sale, guarantee to any party physical or legal access to the tract of land being sold.

Detailed information concerning the sale including the valid existing rights, land report and environmental assessment report are available for review at the Salt Lake District Office at the address below.

For a period of 45 days from the date of this notice, interested parties may submit comments to the District Manager, Bureau of Land Management, 2370 South 2300 West, Salt Lake City, Utah 84119. Any adverse comments will be evaluated by the District Manager who may vacate or modify this realty action and issue a final determination. In the absence of any action by the State Director, this realty action will become the final determination of the Department of the Interior.

John H. Stephenson,

Associate District Manager.

BILLING CODE 4310-DQ-M

Minerals Management Service

Development Operations Coordination Document; Union Oil Co. of California

AGENCY: Minerals Management Service; Interior.

ACTION: Notice of the receipt of a proposed development operations coordination document (DOCD).

SUMMARY: Notice is hereby given that Union Oil Company of California has submitted a DOCD describing the activities it proposes to conduct on Lease OCS–G 3382, Block 279, West Cameron Area, offshore Louisiana. Proposed plans for the above area provide for the development and production of hydrocarbons with support activities to be conducted from an onshore base located at Intracoastal City, Louisiana.

DATE: The subject DOCD was deemed submitted on March 22, 1984.

ADDRESSES: A copy of the subject DOCD is available for public review at the Office of the Regional Manager, Gulf of Mexico Region, Minerals Management Service, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana (Office Hours: 9 a.m. to 3:30 p.m., Monday through Friday).

FOR FURTHER INFORMATION CONTACT: Mr. Mike Joseph, Minerals Management Service, Gulf of Mexico Region; Rules and Production; Plans, Platform and Pipeline Section, Exploration/ Development Plans Unit; Phone (504) 838–0867.

SUPPLEMENTARY INFORMATION: The purpose of this notice is to inform the public, pursuant to Sec. 25 of the OCS Lands Act Amendments of 1978, that the Minerals Management Service is considering approval of the DOCD and that it is available for public review.

Revised rules governing practices and procedures under which the Minerals Management Service makes information contained in DOCDs available to affected states, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in revised Section 250.34 of Title 30 of the CFR.

Dated: March 23, 1984.

John L. Rankin,

Regional Manager, Gulf of Mexico Region.

BILLING CODE 4310-MR-M

National Park Service

National Park System Advisory Board; History Areas Committee; Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act, as amended, that a meeting of the History Areas Committee of the National Park System Advisory Board will be held on April 9, 1984, commencing at 9:30 a.m. in Room 7000A–B, Department of the Interior, 18th and C Streets, NW., Washington, D.C.

At this meeting the History Areas Committee will meet to consider potential National Historic Landmarks as follows:

1. Aquatic Park Historic District, San Francisco, CA
2. Bishop Hill Historic District, Henry County, IL
3. Whitney M. Young, Jr., Residence, Atlanta, GA
4. Whitney M. Young, Jr., Birthplace, Shelby County, KY
5. Whitney M. Young, Jr., Home, New Rochelle, NY
6. Ball's Bluff Battlefield and National Cemetery, near Leesburg, VA
7. Seattle Electric Company Georgetown Steam Plant, Seattle, WA

The formal recommendations of the Committee will be made to the National Park System Advisory Board at its meeting on April 11, 1984, in Washington, D.C. No formal action of the Secretary of the Interior will be sought until after the Advisory Board has considered the recommendations of its History Areas Committee and acted thereon.

The meeting will be open to the public. However, facilities and space to accommodate members of the public are limited and persons will be accommodated on a first-come, first-served basis. Any member of the public may file with the committee a written statement concerning the matters to be considered. Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact Mr. Benjamin Levy, History Division, National Park Service, Washington, D.C., at (202) 343–8164.

Summary minutes of the meeting will be available for public inspection 4 to 6 weeks after the meeting in room 4209, 1100 L Street NW., Washington, D.C.

David G. Wright,

Associate Director, Planning and Development, National Park Service.

[FR Doc. 84-8322 Filed 3-28-84; 8:45 am]

BILLING CODE 4310-70-M

National Park System Advisory Board; Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that meetings of the National Park System Advisory Board will be held at the Department of the Interior, Rooms 7000–AB, 18th and C Streets, NW., Washington, D.C., April 11 and 12, 1984.

In its general business sessions starting at 9:00 a.m. the Advisory Board will consider administrative matters pertaining to the Board; receive and discuss the report of the History Areas Committee; make recommendations on proposed national historic landmark designations; and review and discuss policy and management issues affecting the National Park System. The meetings will be open to the public. Space and facilities to accommodate members of the public are limited and persons will be accommodated on a first-come-first-served basis. Any member of the public may file with the Advisory Board a written statement concerning matters to be discussed. Persons wishing further information concerning this meeting or who wish to submit written statements may contact Shirley Luikens, Advisory Boards and Commissions, National Park

Service, Department of the Interior, Washington, D.C. (202–343–2012).

Summary minutes of the meeting will be available for public inspection 10 to 12 weeks after the meeting in Room 3328, Interior Building, 18th and C Streets, NW., Washington, D.C.

David G. Wright,

Associate Director, Planning and Development, National Park Service.

[FR Doc. 84-8442 Filed 3-28-84; 8:45 am]

BILLING CODE 4310-70-M

Subsistence Resource Commission; Meeting

AGENCY: National Park Service, Alaska Region, Interior.

ACTION: Subsistence Resource Commission Meeting.

SUMMARY: The Alaska Regional Office of the National Park Service announces a forthcoming organizational meeting of the Aniakchak National Monument Subsistence Resource Commission. The following agenda items will be discussed:

(1) Authorities, responsibilities, and operating requirements of the Commission and the National Park Service.

(2) National monument statement for management, general management plan, fish and game regulations, subsistence issues, and data availability.

(3) Commission organization/ administration, objectives, guidelines, and chairperson selection.

DATE: The meeting will begin at 9:00 a.m. on April 18, 1984, and conclude the afternoon of April 19, 1984.

ADDRESS: The meeting will be held in King Salmon, Alaska.

FOR FURTHER INFORMATION CONTACT:

David Morris, Superintendent, Aniakchak National Monument, P.O. Box 7, King Salmon, Alaska 99613, Phone (907) 246–3305

or

Lou Waller, Subsistence Coordinator, Alaska Regional Office, National Park Service, 2525 Gambell Street, Room 107, Anchorage, Alaska 99503–2892, Phone (907) 271–4638

SUPPLEMENTARY INFORMATION: The Aniakchak National Monument Subsistence Resource Commission is authorized under Title VIII, Section 808, of the Alaska National Interest Lands Conservation Act Pub. L. 96–487.

Robert L. Peterson,

Acting Regional Director, Alaska Region.

[FR Doc. 84-8441 Filed 3-28-84; 8:45 am]

BILLING CODE 4310-70-M

Sleeping Bear Dunes National Lakeshore Advisory Commission; Meeting

Notice is hereby given, in accordance with the Federal Advisory Committee Act, 86 Stat. 770, 5 U.S.C. App. 1, as amended by the Act of September 13, 1976, 90 Stat. 1247, that a meeting of the Sleeping Bear Dunes National Lakeshore Advisory Commission will be held at 8:30 a.m. (EST), May 11, 1984, at the Leland Lodge, 565 Pearl Street, Leland, Michigan.

The Commission was established by the Act of October 21, 1970, 84 Stat. 1076, 16 U.S.C. 460x–3, to meet and consult with the Secretary of the Interior on matters relating to the administration and development of the Sleeping Bear Dunes National Lakeshore.

The members of the Commission are as follows:

Mr. John B. Daugherty (Chairman)
Mr. Sidney Evans
Dr. T. Cline
Mr. George T. Schilling
Mr. William B. Bolton
Mr. Lawrence J. Verdier
Dr. Michael Chubb
Mr. Robert Athey
Ms. Sylvia B. Kruger
Mr. Geroge Weeks

The agenda for the meeting will include discussion of the docking location assessment for the Manitou Islands' ferry; Federal funding for county roads and law enforcement; current planning projects; and Land Protection Plan implementation.

The meeting will be open to the public. Any member of the public may file with the Commission prior to the meeting a written statment concerning the matters to be discussed. Persons wishing further information concerning the meeting, or who wish to sumbit written statements, may contact Richard R. Peterson, Superindentent, Sleeping Bear Dunes National Lakeshore, Frankfort, Michigan 49635, telephone (616) 352-9611.

Minutes of the meeting will be available for public inspection 4 weeks after the meeting at the office of Sleeping Bear Dunes National Lakeshore, Frankfort, Michigan.

Dated: March 20, 1984.

Charles H. Odegaard,

Regional Director, Midwest Region.

[FR Doc. 84-8416 Filed 3-28-84; 8:45 am]

BILLING CODE 4310-70-M

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 28640 (Sub-9), et al.]

Rail Carriers; Chicago, Milwaukee, St. Paul and Pacific Railroad Co.—Reorganization—Acquisition by Grand Trunk Corporation

AGENCY: Interstate Commerce Commission.

ACTION: Acceptance of acquisition proposals and scheduling of proceedings.

SUMMARY: The Commission accepts applications filed under section 5(b) of the Milwaukee Railroad Restructuring Act (MRR), 45 U.S.C. 904(b), by Soo Line Railroad Company (Soo), Chicago and North Western Transportation Company (CNW), Grand Trunk Corporation (GTC) and Chicago Milwaukee Corporation (CMC) to acquire and operate the core assets of the Chicago, Milwaukee, St. Paul and Pacific Railroad Company (MILW), transmitted to the Commission on March 14, 1984 by MILW's Reorganization Court in Order No. 738, subject to conditions, and sets a procedural schedule for consideration of these proposals with various pending inconsistent plans for reorganization of MILW.

DATES: The final date for amendment to the MRR applications, as well as related pending applications is April 6, 1984. Verified statements in support of the acquisition proposals of Soo, CNW, GTC and CMC are also due April 6, 1984. Opposition statements are due May 7, 1984. The complete procedural schedule is contained in the Commission's decision.

ADDRESSES: An original and 20 copies of all pleadings referring to Finance Docket No. 28640 (Sub-No. 9) should be sent to:

Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423

Copies should also be served on parties of record in Finance Docket No. 28640 (Sub-No. 9). A list of parties of record is available from the Secretary's Office at (202) 275–7999.

FOR FURTHER INFORMATION CONTACT:

Louis E. Gitomer, (202) 275–7245.

or

Joseph C. Levin, (202) 275–7936.

SUPPLEMENTARY INFORMATION: The complete procedural schedule for consideration of the acquisition applications of Soo, CNW, GTC, and

CMC and further information are contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. InfoSystems, Inc., Room 2227, Interstate Commerce Commission, Washington, DC 20423, or call 289–4357 (DC Metropolitan area) or toll free (800) 424–5403.

Parties are admonished that no extensions can be granted because MILW Reorganization Court's Order No. 736 requires the Commission to arrive at a decision in these consolidated proceedings and transmit that decision to the court by September 10, 1984.

Soo's proposal consists of an Alternate Plan of Reorganization, identified as Finance Docket No. 28640 (Sub-No. 9M), and Acquisition Application, identified as Finance Docket No. 28640 (Sub-No. 9N). The proposal contemplates that Soo's wholly-owned subsidiary Newco, Inc., would acquire and operate MILW's core assets. Soo also filed two directly-related exemption requests. In Finance Docket No. 28640 (Sub-No. 9P), Soo seeks an exemption from 49 U.S.C. 10901 to construct and operate connections between Soo and MILW track at Duplainville and South Superior, WI. In Docket No. MC–F–15231 (Sub-No. 2), Soo seeks an exemption to acquire control of the Milwaukee Motor Transportation Company.

CNW's Acquistion Application, identified as Finance Docket No. 28640 (Sub-No. 9Q), is a modification of its previously-filed Inconsistent Plan of Reorganization in Finance Docket No. 28640 (Sub-No. 9C) (*See* Notice published August 26, 1983 at 48 FR 38911.) CNW's acquisition proposal does not include the request in Finance Docket No. 28640 (Sub-No. 9F) for exemption to abandon approximately 1,000 miles of rail line in Illinois, Iowa, Minnesota, Missouri, and Wisconsin.

GTC's acquisition proposal, indentified as Finance Docket No. 28640 (Sub-No. 9R), modifies the Stock Acquisition Agreement that is the basis of the MILW Trustee's Amended Plan of Reorganization (*See* Notice published May 2, 1983 at 48 FR 19792.)

CMC's Alternate Plan of Reorganization, identified as Finance Docket No. 28640 (Sub-No. 9K) proposes that MILW be reorganized as an independent carrier (*See* Notice published August 26, 1983 at 48 FR 38911.)

Decided: March 22, 1984.

By the Commission, Chairman Taylor, Vice Chairman Andre, Commissioners Sterrett and Gradison. Chairman Taylor concurred in part and dissented in part with a separate expression. Commissioner Gradison did not participate.

James H. Bayne,

Acting Secretary.

[FR Doc. 84–8424 Filed 3–28–84; 8:45 am]

BILLING CODE 7035–01–M

[Finance Docket No. 30406]

Rail Carriers; Spokane International Railroad Co. and Union Pacific Railroad Co.—Abandonment and Discontinuance Exemption—Spokane County, WA

AGENCY: Interstate Commerce Commission.

ACTION: Notice of exemption.

SUMMARY: The Interstate Commerce Commission exempts from the requirements of 49 U.S.C. 10903 *et seq.* the physical abandonment by Spokane International Railroad Company of, and the discontinuance of service by Union Pacific Railroad Company over, 0.62 mile of railroad extending from milepost −0.04 to milepost 0.58, in Spokane County, WA, subject to standard labor protective conditions.

DATES: This exemption will be effective on April 30, 1984. Petitions to stay must be filed by April 9, 1984, and petitions for reconsideration must be filed by April 18, 1984.

ADDRESSES: Send pleadings referring to Finance Docket No. 30406 to:

(1) Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, D.C. 20423

(2) Petitioner's representative: Joseph D. Anthofer, 1416 Dodge St., Omaha, NE 68179

FOR FURTHER INFORMATION CONTACT: Louis E. Gitomer, (202) 275–7245.

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. InfoSystems, Inc., Room 2227, Interstate Commerce Commission, Washington, DC 20423, or call 289–4357 (DC Metropolitan area) or toll free (800) 424–5403.

Decided: March 22, 1984.

By the Commission, Chairman Taylor, Vice Chairman Andre, Commissioners Sterrett and Gradison. Commissioner Gradison did not participate.

James H. Bayne,

Acting Secretary.

[FR Doc. 84–8425 Filed 3–28–84; 8:45 am]

BILLING CODE 7035–01–M

[I.C.C. Order No. P–72]

Passenger Train Operation; Union Pacific Railroad Co.

It appearing, that the National Railroad Passenger Corporation (Amtrak) has established through passenger train service between Chicago, Illinois, and San Francisco, California. The operation of these trains requires the use of the tracks and other facilities of Denver and Rio Grande Western Railroad Company (DRGW). A portion of the DRGW tracks at Allen and Glenwood Springs, Colorado, are temporarily out of service because of a snow slide. An alternate route is available via the Union Pacific Railroad Company between Denver, Colorado, and Salt Lake City, Utah.

It is the opinion of the Commission that the use of such alternate route is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered,

(a) Pursuant to the authority vested in may be order of the Commission decided April 29, 1982, and of the authority vested in the Commission by Section 402(c) of the Rail Passenger Service Act of 1970 (45 U.S.C. 562(c)), the Union Pacific Railroad Company (UP), is directed to operate trains of the National Railroad Passenger Corporation (Amtrak) between Denver, Colorado, and a connection with DRGW at Salt Lake City, Utah.

(b) In executing the provisions of this order, the common carrier involved shall proceed even though no agreements now exist between them with reference to the compensation terms and conditions applicable to said transportation. The compensation terms and conditions shall be, during the time this order remains in force, those which are voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, the compensation terms and conditions shall be hereafter fixed by the Commission upon petition of any or all of the said carriers in accordance with pertinent authority conferred upon it by the Interstate Commerce Act and by the Rail Passenger Service Act of 1970, as amended.

(c) *Application.* The provisions of this order shall apply to intrastate, interstate and foreign commerce.

(d) *Effective date.* This order shall become effective at 11:49 p.m., EST, March 15, 1984.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., m.s.t., March 16, 1984, unless otherwise modified, amended, or vacated by order of this Commission.

This order shall be served upon Union Pacific Railroad Company and upon National Railroad Passenger Corporation (Amtrak), and a copy of this order shall be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., March 15, 1984.

Interstate Commerce Commission.

John H. O'Brien,

Agent.

[FR Doc. 84-8428 Filed 3-28-84; 8:45 am]

BILLING CODE 7035-01-M

NUCLEAR REGULATORY COMMISSION

[NUREG-0800]

"Standard Review Plan for the Review of Safety Analysis Reports for Nuclear Power Plants"; Issuance and Availability Revised SRP Section 7.1 and Appendix A To SRP Section 7.1, Section 7.5 and Section 7.7

The U.S. Nuclear Regulatory Commission (NRC) has published a revision to Section 7.1, Rev. 1, "Instrumentation and Controls—Introduction" and Appendix A to SRP Section 7.1, "Acceptance Criteria and Guidelines for Instrumentation and Control Systems Important to Safety"; Section 7.5, "Information Systems Important to Safety"; and Section 7.7, "Control Systems" of NUREG-0800, "Standard Review Plan for the Review of Safety Analysis Reports for Nuclear Power Plants," LWR Edition (SRP).

The revision consists of SRP Section 7.1, Rev. 3; an appendix to this Section, Appendix A, Rev. 1; Section 7.5, Rev. 3; and Section 7.7, Rev. 3. The revised SRP Sections incorporates the resolution of Generic Issues 45, "Inoperability of Instrumentation Due to Extreme Cold Weather." The guidelines incorporated are not new requirements, they are a formalization of existing criteria that were previously reviewed and approved in Regulatory Guide 1.151, "Instrument Sensing Lines" (which incorporates ANSI/ISA-S67.02. All changes to the SRP Sections resulting from the resolution of this generic issue and a few editorial changes are identified by a line in the margin of the revise SRP section.

The revised SRP sections are effective immediately. A copy is expected to be available in the Public Document Room within 2 weeks. Copies of the revised SRP Sections or of the complete Standard Review Plan, NUREG-0800, Accession No. PD-81-920199, are available for purchase from the National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia 22161; telephone (703) 487-4650.

Dated at Bethesda, Maryland this 23rd. day of March, 1984.

For the Nuclear Regulatory Commission.

Harold R. Denton,

Director, Office of Nuclear Reactor Regulation.

[FR Doc. 84-8435 Filed 3-28-84; 8:45 am]

BILLING CODE 7590-01-M

NRC Response to Accidents Occurring During the Transportation of Radioactive Material; General Statement of Policy

AGENCY: Nuclear Regulatory Commission.

ACTION: General Statement of Policy.

SUMMARY: The Nuclear Regulatory Commission (NRC) has defined in a general policy statement its role in responding to accidents and incidents related to the transportation of nuclear materials. The purpose of the policy statement is to state clearly the extent of the NRC's participation and involvement in responding to such a transportation accident or incident.

EFFECTIVE DATE: March 29, 1984.

FOR FURTHER INFORMATION CONTACT: Dr. Justin T. Long, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, telephone (301) 427-4135

SUPPLEMENARY INFORMATION:

Background

The Nuclear Regulatory Commission (NRC), under the Atomic Energy Act of 1954, as amended (42 U.S.C. Chapter 23) and section 201 of the Energy Reorganization Act of 1974, as amended (42 U.S.C. 5841), is authorized to license and regulate the receipt, possession, use, and transfer of "byproduct material," "source material," and "special nuclear material" (as defined in 42 U.S.C. 2014). The NRC authority to license air shipment of plotonium is further governed by Pub. L. 94-79. Pertinent NRC regulations are contained in 10 CFR Parts 30, 40, 70, 71, and 73.

The U.S. Department of Transportation (DOT), under the Dangerous Cargo Act (R. S. 4472, as amended, 46 U.S.C. 170), Title VI and 902(h) of the Federal Aviation Act of 1958 (49 U.S.C. 1421-1430 and 1472(h)), the Department of Transportation Act (49 U.S.C. 101, *et seq.*) and the Hazardous Materials Transportation Act (49 U.S.C. 1801-1812), is required to regulate safety in the transportation of hazardous materials, including radioactive materials. Pertinent DOT regulations are contained in 49 CFR Part 100 to 178.

The roles in regulatory responsibility of NRC and DOT have been delineated in a Memorandum of Understanding (MOU) between the two agencies dated June 8, 1979 (44 FR 38690). The MOU does not define the specific responsibilities of each agency in responding to transportation accidents or incidents. However, in all accidents, incidents, and instances of actual or suspended leakage involving packages of radioactive material regulated by the NRC, the MOU assigns to NRC the responsibility to act as lead agency for investigating the cause of the leakage and preparing a report of the investigation.

The Federal Emergency Management Agency (FEMA) is responsible for preparing a Federal Radiological Emergency Response Plan (FRERP). On December 23, 1980, FEMA published a "Master Plan" for commercial nuclear power plant accidents (45 FR 84910). Development of the FRERP, which is scheduled for completion in 1984, entals revision of the "Master Plan," including its expansion to incorporate provisions for responding to all types of peacetime radiological emergencies including transportation accidents. Availability of planning guidance for developing the FRERP was noticed in the **Federal Register** on April 28, 1983 (48 FR 19229). The FRERP will be based on the planning guidance and on the results of a Full Field Exercise conducted in the vicinity of the St. Lucie nuclear power plant in March 1984.

The response to transportation accidents is less structured than the radiological emergency response to accidents at licensed sites because of the uncertainties surrounding (1) the location where the accident occurs, (2) the diversity of authority of those who will be responding, and (3) the likely limited radiation knowledge of the first-on-scene responders (who are usually local officials). The states have the primary responsibility for protecting the health and safety of the citizens from public hazards. Recognition of the responsibilities for radiation hazards is reflected by the existence of an appropriately designated state agency chartered with the responsibility of responding to radiological emergencies.

The existing Memorandum of Understanding between the DOT and the NRC (mentioned above) assigns NRC the responsibility for the regulation and certification of shipping containers for fissile materials and for other radioactive materials (other than low specific activity materials) in quantities exceeding Type A limits as defined in 10 CFR Part 71. The MOU assigns DOT the responsibility for regulation of most other aspects of nuclear transportation activities. DOT operates a National Response Center which serves to relay information concerning transportation incidents involving hazardous materials. DOT regulations require a carrier, at the earliest practicable moment, to give notice to the National Response Center after an incident occurs during the course of transportation in which, among other things, fire, breakage, spillage, or suspected radioactive contamination occurs involving shipment of radioactive material. Each notification of a transportation incident of any kind is relayed by the National Response Center to the Regional Office of the Environmental Protection Agency (EPA) for incidents on land or to the U.S. Coast Guard Captain of the Port for incidents in navigable waters. When a reported incident is known to involve radioactive material, notification is also made to the Regional Coordinating Office for Radiological Assistance of the U.S. Department of Energy (DOE) and to the Regional Office of the Nuclear Regulatory Commission. NRC my also become aware of a transportation incident through other channels, such as the shipper, the carrier, or the police or highway patrol.

DOE has stated that DOE's involvement is the maintenance, at about 30 sites, of teams of technically trained nuclear and transportation specialists available to assist states, upon request, by providing desired advice and counsel in areas where states may need assistance. Such teams are highly professional and are equipped to provide analytical and diagnostic support, but not to become involved in cleanup activities. Such teams operate under the DOE Radiological Assistance Program or the Federal Radiological Monitoring and Assessment Plan (DOE coordinated).

The Commission invites all interested persons who desire to submit written comments or suggestions on this general statement of policy to send them to the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch by July 27, 1984.

Consideration will be given to such submissions in connection with possible future revision of the stated policy. Copies of comments received may be examined at the Commission's Public Document Room, 1717 H Street N.W., Washington, D.C.

Statement of NRC Policy

In any accident or incident occurring in connection with the transportation of radioactive material in which a report is required to be sent to the National Response Center by DOT regulations in 49 CFR 171.15, NRC radiation safety assessment actions will consist of the following.

—Call the agency designated by the affected State to respond to transportation accidents involving radioactive materials as soon as practicable to ensure that agency has been informed of the incident. (The State government is responsible for assuming control of the accident scene to protect the health and safety of the public.)
—Offer NRC technical assistance in the form of information, advice, and evaluations to the State at the time the initial notification is made to the appropriate State agency.
—Assure awareness of the incident by the DOE and other affected agencies, including any agencies specifically designated by the Federal Emergency Management Agency.
—Maintain awareness of the situation until normal conditions are restored at the scene of the accident.
—Provide information on packaging characteristics in response to any query regarding NRC-approved packages.
—Respond to requests for information on NRC activities in connection with the event. Requests for specific information on an accident normally will be referred to the appropriate State agency, or to the DOE if the situation relates to DOE activities.
—If the shipper is an NRC licensee, ensure that the shipper provides complete and accurate information concerning the radioactive material and details of the shipment to emergency response personnel.
—In accordance with the NRC–DOT Memorandum of Understanding, act as lead agency for investigating all accidents, incidents, and instances of actual or suspected leakage involving packages of radioactive material regulated by the NRC. Any NRC personnel at the scene of a transportation accident will notify the on-scene coordinator of his or her presence and make clear that, unless NRC assistance is requested by the on-scene coordinator, NRC activities will be primarily limited to information collection.
—Provide recommendations to emergency response personnel on radiological issues if NRC assistance should be requested by the on-scene coordinator or if a need is recognized by NRC personnel.

The policy here set forth relates solely to radiological concerns. Responding to any attempt to steal or sabotage a shipment of nuclear material is a responsibility of the Federal Bureau of Investigation (FBI) as delineated in the NRC/FBI Memorandum of Understanding dated April 27, 1979, and published December 20, 1979, at 44 FR 75535.

Dated at Washington, D.C., this 23rd day of March 1984.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

BILLING CODE 7590-01-M

[Docket Nos. 50-352-OL and 50-353-OL; ASLBP No. 84-501-02 OL]

Philadelphia Electric Co.; Establishment of Atomic Safety and Licensing Board To Rule on Petitions

Pursuant to delegation by the Commission dated December 29, 1972, published in the **Federal Register**, 37 FR 28710 (1972), and Sections 2.105, 2.700, 2.702, 2.714, 2.714a, 2.717 and 2.721 of the Commission's Regulations, all as amended, an Atomic Safety and Licensing Board is being established in the following proceeding to rule on petitions for leave to intervene and/or requests for hearing and to preside over the proceeding in the event that a hearing is ordered.

Philadelphia Electric Company

Limerick Generating Station, Unit Nos. 1 and 2

This Board is being established to rule on the admissibility of Part 70 issues raised in this proceeding.

The Board is comprised of the following Administrative Judges:

Lawrence Brenner, Chairman, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555

Dr. Richard F. Cole, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555

Dr. Peter A. Morris, Atomic Safety and Licensing Board Panel, U.S. Nuclear

Regulatory Commission, Washington, D.C. 20555.

Issued at Bethesda, Maryland, this 16th day of March 1984.

B. Paul Cotter, Jr.,

Chief Administrative Judge, Atomic Safety and Licensing Board Panel.

BILLING CODE 7590-01-M

[Docket No. 50-390 and 50-391]

Tennessee Valley Authority; Watts Bar Nuclear Plant, Units 1 and 2; Order Extending Construction Completion Dates

Tennessee Valley Authority is the current holder of Construction Permit Nos. CPPR-91 and CPPR-92, issued by the Atomic Energy Commission [1] on January 23, 1973, for construction of the Watts Bar Nuclear Plant, Units 1 and 2. These facilities are presently under construction at the applicant's site on the west branch of the Tennessee River approximately 50 miles northeast of Chattanooga, Tennessee.

On October 11, 1983, the Tennessee Valley Authority (the applicant) filed a request for an extension of the completion dates. The extension has been requested because construction has been delayed by the following events:

1. Piping analysis and hanger/support design, installation, and documentation due to numerous nonconforming conditions identified in the construction and design efforts.
2. Closure of licensing items as a result of NRC-identified violations and TVA-identified conditions adverse to quality (i.e., 50.55e items).
3. Quality assurance documentation, ASME Section III N-5 Data Form, and the "as-constructed" drawings program.
4. Completion of conduit, cable, and instrumentation installation.
5. Application of protective coatings inside the Reactor Building.
6. Completion of the piping, hanger, and support verification program required by NRC-OIE Bulletin 79-14.
7. TVA has also requested that allowance for further contingencies be made in granting the extension of the completion dates.

This action involves no significant hazards consideration, good cause has been shown for the delays; several of the causes were beyond the control of the applicant; and the extension is for a reasonable period, the bases for which are set forth in the staff's evaluation of the request for extension.

The Commission has determined that this action will not result in any significant environmental impact, and pursuant to 10 CFR 51.5(d)(4), an environmental impact statement, or negative declaration and environmental impact appraisal, need not be prepared in connection with this action.

The NRC staff safety evaluation of the request for extension of the construction permits is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555 and the Chattanooga Hamilton County Bicentennial Library, 1001 Broad Street, Chattanooga, Tennessee 37402.

It is hereby ordered that the latest completion date for Construction Permit No. CPPR-91 is extended from March 1, 1984 to January 1, 1985, and the latest completion date for Construction Permit No. CPPR-92 is extended from August 1, 1985 to July 1, 1986.

Date of Issuance: March 26, 1984.

For the Nuclear Regulatory Commission.

Darrell G. Eisenhut,

Director, Division of Licensing, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

---

[1] Effective January 19, 1975, the Atomic Energy Commission became the Nuclear Regulatory Commission and permits in effect on that day were continued under the authority of the Nuclear Regulatory Commission.

OFFICE OF MANAGEMENT AND BUDGET

Proposed Revision of OMB Circular No. A-76; "Performance of Commercial Activies"

AGENCY: Office of Management and Budget.

ACTION: Request for comments on proposed revision of OMB Circular No. A-76, "Performance of Commercial Activities."

SUMMARY: OMB Circular No. A-76 (Revised August 4, 1983) establishes Federal policy regarding the performance of commercial activities. The Supplement to the Circular sets forth procedures for determining whether it is more economical to continue in-house operations of commercial activities or to perform them under contract.

When a decision is made that it is more cost effective to convert an in-house function to contract, Federal employees who are separated or adversely affected by the decision to contract receive the right of first refusal to contractor employment openings for a period of up to 90 days after the beginning of contractor performance.

When the Circular was published for comment in 1983, many commenters requested guidance on the administeration of the right of first refusal. OMB developed this proposed contract clause after consultation with Federal agencies and business representatives.

The propsed right of first refusal contract clause builds upon current policies contained in the Circular. The proposals provide additional guidance concerning:

(1) Employment openings subject to the clause;

(2) Contractor reporting requirements;

(3) Information provided to the contractor;

(4) Qualifications determinations;

(5) Relationship to other statutes, regulations and employment policies; and

(6) Penalty for non-compliance.

The intended effect of the proposed change is to clarify contractor obligations and employee rights, and to collect information on the hiring of adversely affected employees for the purpose of severance pay administration.

Paperwork Reduction Act: The proposed clause establishes a reporting requirement for contractors under the Circular. Should the proposed clause be adopted, it will be submitted for inclusion into the Federal Acquisition Regulation. The current contractor reporting requirement under Federal Procurement Temporary Regulation 63, Supp. 1, (OMB Control No. 3090-0104) would be concelled.

In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. et seq. and 5 CFR Part 1320) the collection of information requirements contained in this proposed revision has been submitted for review to OMB's Office of Information and Regulatory Affairs.

Comments about the appropriateness of information requirements in this proposal should be addressed to Mr. Edward C. Springer, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503 (telephone: (202) 395-4814).

DATE: Comments must be received on or before the 60th day following publication in the **Federal Register**.

ADDRESS: Comments concerning the proposed policy revision should be submitted to the Administrator, Office of Federal Procurement Policy, Office of Management and Budget, Washington, D.C. 20503.

FOR FURTHER INFORMATION CONTACT: Mr. Peter M. Durant, Office of Federal

Procurement Policy, Office of Management and Budget, (202) 395-6810.

David A. Stockman,

Director.

Right of First Refusal

The following clause shall be inserted in all contracts which result from conversion to contract under OMB Circular No. A-76

Right of First Refusal

1. Consistent with the Government post-employment conflict of interest regulations, the Contractor shall give adversely affected Federal employees the right of first refusal for all employment openings under this contract for which they are qualified.

2. *Definitions:* (a) As "adversely affected Federal employee" is: (1) any Federal employee who is assigned to the Government commercial activity, or (2) any employee identified for release from his or her competitive level or separated as a result of the contract.

(b) "Employment openings" are position vacancies created by this contract which the Contractor is unable to fill with personnel in the Contractor's employ at the time of the contract award, including positions within a fifty mile radius of the commercial activity which indirectly arise in the Contractor's organization as a result of the Contractor's reassignment of employees due to the award of this contract.

(c) The "contract start date" is the first day of Contractor performance.

3. *Filling Employment Openings:* (a) For a period beginning with contract award and ending 90 days after the contract start date, no person other than an adversely affected Federal employee on the current listing provided by the Contracting Officer shall be offered an employment opening until all adversely affected and qualified Federal employees identified by the Contracting Officer have been offered the job and refused it.

(b) The Contractor may select any person for an employment opening when there are no qualified, adversely affected Federal employees on the latest, current listing provided by the Contracting Officer.

4. *Contractor Reporting Requirements:* (a) No later than 5 working days after contract award, the Contractor shall furnish the Contracting Officer with the following:

(i) A list of employment openings;

(ii) Sufficient job application forms for adversely affected Federal employees.

(b) By the contract start date the Contractor shall provide the Contracting Officer with the following:

(i) The names of adversely affected Federal employees offered an employment opening;

(ii) The date the offer was made;

(iii) A brief description of the position;

(iv) The date of acceptance of the offer and the effective date of employment;

(v) The date of rejection of the offer, if applicable; the salary and benefits contained in the rejected offer; and

(vi) The names of any adversely affected Federal employees who applied but were not offered employment and the reason(s) for withholding an offer.

(c) For the first 90 days after the contract start date, the Contractor shall provide the Contracting Officer with the names of all persons hired or terminated under the contract, within 5 working days of such hiring or termination.

5. *Information Provided to the Contractor:* (a) No later than 10 working days after contract award, the Contracting Officer shall furnish the Contractor a current list of adversely affected Federal employees exercising the right of first refusal, along with their completed job application forms.

(b) Between the contract award and start dates, the Contracting Officer shall inform the Contractor of any reassignment or transfer of adversely affected employees to other Federal positions.

(c) For a period up to 90 days after contract start date, the Contracting Officer will periodically provide the Contractor with an updated listing of adversely affected Federal employees, reflecting employees recently released from their competitive level or separated as a resulted of the contract award.

6. *Qualifications Determination:* The Contractor has the right under this clause to determine the adequacy of the qualifications of adversely affected Federal employees for any employment openings. However, an adversely affected Federal employee who held a job in the Government commercial activity which directly corresponds to an employment opening shall be considered qualified for that job. Questions concerning the qualifications of adversely affected Federal employees for specific employment openings shall be referred to the Contracting Officer for determination. The Contracting Officer's determination shall be final and binding on all parties.

7. *Relation to Other Statutes, Regulations and Employment Policies:* The requirements of this clause shall not modify or alter the Contractor's responsibilities under statutes, regulations or other contract clauses pertaining to the hiring of veterans, minorities or handicapped persons.

8. *Penalty for Non-compliance:* Failure of the Contractor to comply with any provision of this clause may be grounds for termination for default.

BILLING CODE 3110-01-M

Privacy Act of 1974: Revised Supplemental Guidance on Implementation of the Privacy Act of 1974

March 21, 1984.

AGENCY: Office of Management and Budget.

ACTION: Revision of guidance on the relationship between the Privacy Act of 1974 and the Freedom of Information Act.

SUMMARY: This document issues in final form a revision to OMB's Privacy Act Implementing Guidelines proposed on August 10, 1983 at 48 FR 36359. The revision is intended to clarify the relationship between the Privacy Act and the Freedom of Information Act (FOIA) and improve agency implementation of both Acts. Under the revised Guidelines, agency records exempt from disclosure under provisions of the Privacy Act are, to that extent, also exempt from disclosure under FOIA, by virtue of the Section (b)(3) exemption of FOIA. Therefore, agencies may deny access to records in exempt systems of records when access is sought under FOIA to the same extent they may do so when access is sought under the Privacy Act. However, both the Privacy Act and FOIA provide for universal venue in the District of Columbia, and the Court of Appeals for the District of Columbia Circuit, along with the Court of Appeals for the Third Circuit, have held that the Privacy Act is not a permissible FOIA (b)(3) exemption statute. Consequently, pending a dispositive ruling on the issue by the Supreme Court, agencies should not rely exclusively on this guidance unless a FOIA matter proceeds to litigation within a judicial circuit other than the D.C. or Third Circuits.

FOR FURTHER INFORMATION CONTACT: Robert N. Veeder, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 3235 New Executive Office Building, Washington, D.C. 20503; telephone 202-395-4814.

SUPPLEMENTARY INFORMATION: Under section 6 of the Privacy Act of 1974 (Pub. L. 93-579, December 31, 1974; 5 U.S.C. 552a note), the Office of Management and Budget is responsible for developing guidelines and regulations for the use of

Federal agencies in implementing the Act's key provisions codified at 5 U.S.C. 552a. OMB's Privacy Act Guidelines were first issued in 1975 at 40 FR 28948 (July 9, 1975), and supplemental at 40 FR 56741 (December 4, 1975).

On August 10, 1983, OMB proposed to revise its Privacy Act Guidelines to provide that agency records exempt from disclosure under the Privacy Act were, to that extent, also exempt from disclosure under the Freedom of Information Act (FOIA) (5 U.S.C. 552). 48 FR 36359 (August 10, 1983). OMB's earlier guidance had been that "* * * the Privacy Act should not be used to deny access to information about an individual which would otherwise have been required to be disclosed to that individual under the Freedom of Information Act." 40 FR 56741, 56742.

The Privacy Act's most important provisions relevant to this issue are as follows. First, Federal agencies must publish public notices describing the nature and uses of their "systems of records" on individuals (5 U.S.C. 552a(e)). Second, individuals may control some (though not all) disclosures of their own government records contained in systems of records (5 U.S.C. 552a(b)). Third, individuals may have direct access to their own records contained in systems of records, and may seek amendment to their records according to specified procedures (5 U.S.C. 552a(d)).

The Act also contains exemption provisions applicable to Central Intelligence Agency records and to records pertaining to criminal law enforcement, civil law enforcement, personnel, statistical, and a few other matters (5 U.S.C. 552a (j), (k)). These sections describe the types of matters covered, and permit agency heads, through specified public-notice procedures, to exempt such records from the Act's section (d) first-party access requirements (552a(d)) and from other of the Act's requirements. The exemption provisions do not permit agencies to exempt records from the Act's section (b) requirements giving individuals qualified control over the uses of their government records (552a(b)).

OMB received a total of thirty-four comments on its August 10, 1983 proposal. Twenty-six comments were submitted by Federal agencies; of these, thirteen supported the proposal, eleven were neutral, and two (from the Department of the Interior and the Federal Energy Regulatory Commission) opposed the proposal. Three Members of Congress, Representatives Glenn English, Thomas N. Kindness, and John N. Erlenborn, submitted comments, all in opposition to the proposed change. Five private groups also submitted comments, all in opposition—the Section of Administrative Law of the American Bar Association, the American Society of Newspaper Editors and the American Newspaper Publishers Association (a joint submission), the Center for National Security Studies (on behalf of the American Civil Liberties Union), the National Newspaper Association, and the Reporters Committee for Freedom of the Press.

OMB has studied all of these comments carefully, and has also studied the opinions of the United States Courts of Appeals on both sides of the issue, the most extensive of which are *Shapiro* v. *Drug Enforcement Administration*, 721 F.2d 215 (7th Cir. 1983); *Porter* v. *U.S. Department of Justice*, 717 F.2d 787 (3rd Cir. 1983); and *Greentree* v. *U.S. Customs Service*, 674 F.2d 74 (D.C. Cir. 1982). In addition, we have reviewed scholarly commentary on the issue (*see* Anthony T. Kronman, "The Privacy Exemption to the Freedom of Information Act," IX *Journal of Legal Studies* 727 (1980), and authorities cited at notes 5 and 14), and have consulted with Federal agencies concerning current practices under the Privacy and Freedom of Information Acts. We have concluded that our proposal is correct as a matter of law and policy, and are revising the OMB Privacy Act Guidelines accordingly.

In our view, the two statutes provide in straightforward and unambiguous language that agency records exempt from mandatory disclosure under the Privacy Act are, to that extent, also exempt from mandatory disclosure under FOIA. FOIA requires Federal agencies to make their records "promptly available to any person" upon appropriate request (5 U.S.C. 552(a)(3)). This requirement, however, is subject to several specified exemptions, one of which applies to matters—

> *Specifically exempted from disclosure by statute* (other than section 552b of this title), *provided that such statute* (A) requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or (B) *establishes particular criteria for withholding or refers to particular types of matters to be withheld.*

5 U.S.C. 552(b)(3) (emphasis supplied).

The Privacy Act unmistakably fits the FOIA (b)(3)(B) exemption. Sections (j) and (k) of the Act specifically exempt certain files from disclosure, establish particular criteria for withholding, and refer to particular types of matters to be withheld. Thus, by the terms of FOIA's (b)(3) exemption, the Privacy Act's nondisclosure provisions are recognized by FOIA and are not overridden by FOIA's own mandatory-disclosure requirements.

Some of the record comments and court opinions argue that the FOIA (b)(3) exemption does not apply to sections (j) and (k) of the Privacy Act, since these sections exempt records from the disclosure requirements of "this section"—*i.e.*, from the disclosure requirements of the Privacy Act itself, rather than the requirements of other statutes. But FOIA (b)(3) does not require that other statutes establish blanket nondisclosure requirements—only that certain matters be "*exempted*" from disclosure. Other statutes, standing alone, could, of course, exempt matters from FOIA disclosure without benefit of FOIA (b)(3) itself. Where other statutes provide exemptions from disclosure, and meet FOIA (b)(3)'s standards of specificity and particularity regarding the matters to be withheld, these exemptions must be applied to FOIA as well if the FOIA (b)(3) exemption (in particular that established by (b)(3)(B) is to be given its natural meaning.

Sections (j) and (k) of the Privacy Act provide their own demonstration of the logic of the FOIA (b)(3) exemption. The provisions of these sections make it unmistakably clear that the Congress, while wishing to assure citizens ready access to their government files and the means of correcting significant errors, realized that there were circumstances where such disclosures could be harmful. One is where first-party access could lead to physical or other retaliation against those who provided the information in the records (*e.g.*, criminal and civil investigative files). Another is where first-party access could compromise the government's ability to gather needed information in the first place by reducing the candor of that information (*e.g.*, files compiled to determine suitability for Federal employment).

Congress addressed these problems by providing fairly broad disclosure exemptions for the Central Intelligence Agency and criminal law enforcement agencies (552a(j)), and more narrow, precisely specified exemptions for several civil-investigative and administrative functions (which permit nondisclosure, for example, where disclosure would "compromise the objectivity or fairness" of tests or examinations, or would "reveal the identity" of a confidential source of information) (552a(k), (k)(2), (k)(5)–(7)). In both cases, Congress provided that the disclosure exemptions were to apply only to designated "systems of records," were to exclude only certain requirements of the Act, and were to go

into effect only upon public notice and explanation.

These policies and procedures would be rendered virtually meaningless if the FOIA (b)(3) exemption were ignored. An individual denied access to his records under sections (j) or (k) of the Privacy Act could nonetheless obtain them simply by invoking FOIA instead (except to the extent some other FOIA exemption, such as (b)(6) or (b)(7), were found to apply to the contents of those records). Agencies such as the Federal Bureau of Investigation and the Drug Enforcement Administration, having established systems of records on sensitive criminal matters and exempted them from first-party access under section (j) of the Privacy Act, would nevertheless be obliged to sort through the contents of these files in response to first-party requests and, absent successful invocation of another FOIA exemption, be obliged to reveal their contents to the subjects of their investigations.

The *Greentree* opinion argues that permitting FOIA access to records that had been exempt from disclosure under sections (j) or (k) of the Privacy Act would not render these exemptions *totally* meaningless. The exemptions could still be used to excuse systems of records from Privacy Act requirements *other than* the section (d) access requirements, and could also be used to cut back first-party access from the broad disclosure requirements of section (d) of the Privacy Act to the more narrow requirements of FOIA as qualified by the FOIA (b)(6) and (b)(7) exemptions. *See*, 674 F.2d at 80–81.

We find this argument unpersuasive. That one could ignore FOIA (b)(3) and still leave intact some aspects of sections (j) and (k) of the Privacy Act is no reason not to leave all of its provisions intact as written—especially its most important one. As explained above, the primary purpose of sections (j) and (k) is to protect certain sensitive records from access by the subjects of those records, and both sections do so in terms that meet the specifications of FOIA (b)(3) with exactitude. Moreover, as the Seventh Circuit points out in its *Shapiro* opinion, limiting the scope of Privacy Act section (j) exemptions to the scope of any applicable FOIA exemptions "is contrary to the intent of Congress * * * as shown both by the [section (j)] exemption's language, which is broader than the FOIA exemption covering law enforcement records (Exemption 7), and by the relevant legislative history of the Privacy Act" (721 F.2d at 221).

While parties on both sides of the controversy acknowledge that the legislative history of the two statutes is "ambiguous" on some points, we do not think this history is at all ambiguous on the key issue whether Congress thought that intelligence and criminal investigation records covered by the Privacy Act should be disclosed to the subjects of the investigations. The discussion and legislative citations in the *Sehapiro* opinion are lucid on this question. The *Shapiro* discussion concludes that—

> * * * The legislative history of the Privacy Act shows Congress' concern that individuals not use the Act to obtain access to their own criminal investigation files. It makes little sense to conclude that Congress would enact specific nondisclosure provisions in the Privacy Act to address this concern, while at the same time allowing individuals to bypass these exemptions by using the broader access terms of the FOIA.

721 F.2d at 222.

It is clear, moreover, that Congress has been cognizant of the sometimes complex interrelationships between the Privacy Act, FOIA, and related statutes, and where appropriate has taken direct steps to adjust the statutes' general provisions to account for these interrelationships. At one point the Privacy Act provides that first-party control over disclosure of government records shall not apply to disclosures required by FOIA (552a(b)(2)); at another point, it provides that FOIA exemptions shall not be used to deny access to records otherwise available under the Privacy Act (552a(q)). And FOIA's (b)(3) exemption was itself revised in 1976 to exclude the government in the Sunshine Act (5 U.S.C. 552b) from its incorporation of other statutory exemptions—Congress could have excluded the Privacy Act exemptions as well by adding a single term to this provision.

The record comments and court opinions contain three further arguments for permitting FOIA disclosures of exempt Privacy Act records that merit discussion here. The first is the assertion that the Privacy Act is not (or should not be, or was never intended to be) a FOIA (b)(3) statute. This assertion, taken as a legal proposition, is addressed above. In many cases, however, the assertion seems to be based on the general supposition that since the Privacy Act was intended to *expand* access to government records, it should not be applied so as to *limit* access from that provided by another disclosure statute.

In fact, however, the purpose of the Privacy Act is not disclosure but the protection of individual privacy, and toward this end it restricts disclosure of government records in as many cases as it requires disclosure. The statute provides for public disclosure of the existence, nature, and uses of government "systems of records" on individual citizens. But as to the actual disposition of these records, the Act establishes four types of requirements which are necessarily, and for the most part carefully, balanced among each other. First, the Act gives individuals control over the disclosure of information about themselves in certain government records—but second, it provides explicit limitations on such control. Third, it gives individuals access to information about themselves in certain government records (and the means of correcting erroneous information)—but fourth, it provides explicit limitations on that access. To accept the view that the Privacy Act should not be considered a FOIA (b)(3) statute would be to read the fourth policy out of the Act, although this policy is fully consistent with the other three, and protects the privacy of certain kinds of sensitive communications to the government.

The second argument is that section (b) of the Privacy Act (552a(b)) provides that the Act may not be used to limit disclosures required by FOIA. This argument is prominent in the court opinions in *Porter* (717 F.2d at 793, 797) and *Greentree* (674 F.2d at 79–80). We believe, however, that this view is wholly mistaken. Section (b) does not require agencies to disclose any information at all, but to the contrary establishes qualified limitations on disclosures. In particular, section (b) provides that a record covered by the Privacy Act may not be disclosed to any person without the written consent (or request) of the individual to whom the record pertains, except in twelve specified situations, one of which is that disclosure is required by FOIA (552a(b)(2)).

Thus, 552a(b)(2) says that disclosures from systems of record required by FOIA are not contingent on the permission of the subjects of the records involved. This provision cannot reasonably be read as an affirmative disclosure requirement. We think the conclusion of the *Shapiro* decision that "section (d) provides sole access for first party requests under the Act" (721 F.2d at 220) is inescapably correct. The Privacy Act's limitations on section (d) access set forth in sections (j) and (k), which in turn are recognized by FOIA (b)(3), are unaffected by the Act's separate "conditions of disclosure" specified by section (b)(2).

The final argument is the so-called "third party anomaly" argument,

emphasized in some of the record comments and in the *Porter* and *Greentree* opinions. The argument goes as follows:

The Privacy Act's section (j) and (k) exemptions should not recognaized by FOIA (b)(3) because if they were, there would be cases where individuals would have less access to their own records than third parties, and third parties might even gain access to such records and transmit them back to the first parties. The *Greentree* opinion says that "[s]uch as result would comport with neither logic nor common sense," which suggests that "Congress could not have intended section (j)(2) of the Privacy Act to serve as a withholding statute under FOIA Exemption 3" (674 F.2d at 79, 80).

In our view this point is of little practical importance and does not affect the fundamental legal and policy issues. In virtually all cases of agency records exempt from first-party access under sections (j) and (k), disclosure to others would also be exempt from mandatory FOIA disclosure under the "unwarranted invasion of personal privacy" provisions of sections (b)(6) and (b)(7) of FOIA. As noted previously, the exemptions of FOIA (b)(6) and (b)(7) are narrower than those of sections (j) and (k) of the Privacy Act. However, while these differences can be significant in the case of first-party access, they are small and inconsequential in the case of third-party access to the same records. At most they may result in occasional administrative difficulties and instances of partial and unintended first-party access. These are hardly reasons for ignoring the basic statutory scheme inself by permitting FOIA to nullify the first-party access restrictions of sections (j) and (k).

The text of our revised guidance is set forth below. The guidance refers not only to the Privacy Act exemptions in sections (j) and (k), but to those in sections (d)(5) and (1) as well. The latter provisions, involving information compiled in anticipation of civil actions and records of the National Archives, present FOIA issues similar to those discussed above, but which have not been subjects of significant controversy.

Finally, agencies should note that both the Privacy Act and FOIA provide for universal venue in the District of Columbia. As discussed above, the Courts of Appeals for the District of Columbia Circuit (in *Greentree)* and for the Third Circuit (in *Porter*) have held that the Privacy Act is not a permisible FOIA (b)(3) statute. The Department of Justice is presently seeking a writ of certiorari from the Supreme Court to review the Third Circuit's Decision in *Provenzano v. U.S. Department of Justice,* 717 F.2d 799 (3rd Cir. 1983), a companion case to *Porter.* Pending a dispositive ruling on the issue by the Supreme Court, agencies should not rely exclusively on the guidance on this issue set forth below unless a FOIA matter proceeds to litigation within a judical circuit other than the District of Columbia or Third Circuits.

Christopher C. DeMuth,

Administrator for Information and Regulatory Affairs.

Section (q) of the OMB Privacy Act "Implementing Guidelines" published at 40 FR 28948, July 9, 1975 and supplemented on December 4, 1975 (40 FR 5674), is revised to read as follows:

Section (q) Relationship of the Privacy Act to the Freedom of Information Act

Subsection (q) "No agency shall rely on any exemption contained in section 552 of this title to withhold from an individual any record which is otherwise accessible to such individual under the provisions of this section."

This provision makes it explicit that an individual may not be denied access to a record pertaining to him under subsection (d)(1), access to records, because that record is permitted to be withheld from members of the public under the Freedom of Information Act (FOIA). The only grounds for denying an individual access to a record pertaining to him are the exemptions stated in this Act, subsections (j) and (k); subsection (1), archival records; and subsection (d)(5), records compiled in reasonable anticipation of a civil action or proceeding. In addition, consideration may have to be given to other statutory provisions which may govern specific agency records.

In the converse situation, however, agencies should note that FOIA exemption (b)(3) provides that access under the FOIA is not required if the material sought is specifically barred from disclosure by statute, provided that such statute (A) requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue or (B) establishes particular criteria for withholding or refers to particular types of matters to be withheld. The Privacy Act in subsections (d)(5), (j), (k), and (l) reaches the level of specificity necessary to qualify under paragraph (b)(3)(B) of the FOIA as a withholding statute. Accordingly, should an individual make a FOIA request for his records that are contained in a system of records, agencies may rely on section (d)(5), (j), (k), or (l) of the Privacy Act, when appropriate, to deny such requests. (It should be further noted that for certain exempt systems, substantial portions of the covered records may be required to be released; see, for example, the requirements of (k)(5)).

Whether a request by an individual for access to his records is to be processed under Privacy Act or FOIA procedures involves several considerations. For example, while agencies have been encouraged to reply to requests for access under the Privacy Act within ten days whenever practical, consistent with the FOIA, the Privacy Act does not establish time limits for responding to requests (see discussion of (d)(1)). The Privacy Act also does not establish an administrative appeal on denial of access comparable to that of the FOIA, although agencies are encouraged to permit individuals to request an administrative appeal of initial denials of access to avoid, where possible, the need for unnecessary judicial action. It can also be argued that requests filed under the Privacy Act can be expected to be specific as to the systems of records to which access is sought, whereas agencies are required to respond to a FOIA request only if it "reasonably describes" the records sought. Further, the FOIA permits charging of fees for search as well as copying records, while the Privacy Act permits only for the direct cost of making a copy upon request.

It is our view that, as a matter of procedure, agencies should treat requests by individuals for information pertaining to themselves which specify either the FOIA or the Privacy Act, (but not both), under the procedural provisions established pursuant to the Act specified in the request. When the request specifies both Acts, and may be processed under both, Privacy Act procedures should be employed. When the request specifies neither Act, and could be processed under both Acts, Privacy Act procedures should also be used. However, in these two latter cases, the individual should be advised of the procedures the agency has elected to use, of the existence and general effect of the FOIA, and of the differences, if any, between the agency's procedures under the two (e.g., fees, time limits, access and appeals).

BILLING CODE 3110-01-M

RAILROAD RETIREMENT BOARD

Agency Forms Submitted for OMB Review

AGENCY: Railroad Retirement Board.

ACTION: In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35), the Board has submitted the following proposal(s) for the collection of information to the Office of Management and Budget for review and approval.

Summary of Proposal(s):

(1) Collection title: Application and Claim for Sickness Insurance Benefits
(2) Form(s) submitted: SI–1a/1b, SI–2, SI–3, ID–11a
(3) Type of request: Revisions of a currently approved collection
(4) Frequency of use: On occasion
(5) Respondents: Individuals or households, business or other for-profit
(6) Annual responses: 648,000
(7) Annual reporting hours: 27,1338
(8) Collection description: Under section 2 of the Railroad Unemployment Insurance Act, sickness benefits are provided for qualified railroad workers. The collection obtains information needed for determining eligibility for and amount of such benefits.

(1) Collection title: Requests for Consultative Medical Examination
(2) Form(s) submitted: ID–31a
(3) Type of request: Existing collection in use without an OMB control number
(4) Frequency of use: On occasion
(5) Respondents: Business or other for-profit, small business or organizations
(6) Annual responses: 500
(7) Annual reporting hours: 500
(8) Collection description: Section 2 of the RUIA provides sickness benefits for qualified railroad employees. The collection obtains consultative evidence of inability to work when needed to supplement evidence obtained from other sources.

Additional Information or Comments

Copies of the proposed forms and supporting documents may be obtained from Pauline Lohens, the agency clearance officer (312–751–4692). Comments regarding the information collection should be addressed to Pauline Lohens, Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611 and the OMB reviewer, Milo Sunderhauf (202–395–6880), Office of Management and Budget, Room 3201, New Executive Office Building, Washington, D.C. 20503.

William A. Oczkowski,

Director of Planning and Information Management.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 20779; (SR-CBOE–84–4]

Chicago Board Options Exchange, Inc.; Order Approving Proposed Rule Change

March 21, 1984.

The Chicago Board Options Exchange, Incorporated ("CBOE"), LaSalle at Van Buren, Chicago, IL 60604, submitted on January 30, 1984, copies of a proposed rule change pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act") and Rule 19b–4 thereunder, that would permit open trading to continue until 3:00 p.m. on the Friday before expiration in all expiring series of options. Under existing rules, open trading on expiring options series, other than index options, stops at 2:00 p.m. on the Friday prior to expiration.

Notice of the proposed rule change, together with the terms of substance of the proposed rule change, was given by the issuance of a Commission Release (Securities Exchange Act Release No. 20644, February 10, 1984) and by publication in the **Federal Register** (49 FR 6194, February 17, 1984). No comments were received with respect to the proposed rule filing.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange and, in particular, the requirements of Section 6, and the rules and regulations thereunder.

It is therfore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[FR Doc. 84–8412 Filed 3–28–84; 8:45 am]
BILLING CODE 8010–01–M

[Release No. 20782; (SR–CBOE–84–6)]

Chicago Board Options Exchange, Inc.; Order Approving Proposed Rule Change

March 22, 1984.

The Chicago Board Options Exchange, Inc. ("CBOE"), LaSalle at Jackson, Chicago, Illinois 60604, submitted on February 6, 1984, copies of a proposed rule change pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act") and Rule 19b–4 thereunder, to add CBOE Rule 2.13 to establish a Financial Planning Committee [1] which would make recommendations to the Executive Committee and the Board of Directors with respect to the fee structures, financing, capital and operating budgets, and related financial matters of the Exchange. The committee would consist of the President of the Exchange and at least seven other members, including an Exchange director as either its Chairman or Vice Chairman. Members of the committee would be appointed for three year terms staggered so that the terms of at least two members would expire each year. In addition, under the proposed rule, a quorum for the transaction of business would consist of a majority of the committee members.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by the issuance of a Commission Release (Securities Exchange Act Release No. 20635, February 9, 1984) and by publication in the **Federal Register** (49 FR 6063, February 16, 1984). No comments were received with respect to the proposed rule change.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange and, in particular, the requirements of Section 6 and the rules and the regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

George A.Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 23257; (70–6963)]

Louisiana Power & Light Co.; Proposal To Finance Pollution Control Facilities

March 23, 1984.

Louisiana Power & Light Company ("LP&L"), 142 Delaronde Street, New Orleans, Louisiana 70174, an electric utility subsidiary of Middle South Utilities, Inc., a registered holding company, has filed an application-declaration with this Commission pursuant to Sections 6(a), 7, 9(a), 10 and

[1] The Exchange states that members of the proposed Committee must be approved by the Board of Directors of the CBOE pursuant to Section 8.3 of the Exchange's Constitution.

12(d) of the Public Utility Holding Company Act of 1935 ("Act") and Rules 44 and 50(a)(2) thereunder.

In order to meet certain federal and state pollution control standards, the Company has constructed and installed and is constructing and installing at Unit 3 of its Waterford Steam Electric Generating Station ("Waterford 3") in St. Charles Parish, Louisiana certain facilities solely for atmospheric, air, water and/or pollution control purposes and for solid waste disposal ("Facilities"). To finance some or all of these Facilities, the Company proposes to enter into one or more sale agreements or a sale agreement and one or more supplements and/or amendments ("Sale Agreement") with the Parish of St. Charles, Louisiana ("Parish"); the Parish is to enter into one or more trust indentures or a trust indenture and one or more supplements ("Trust-Indenture") under which the Parish is to issue and sell, in one or more series, its pollution control revenue bonds ("Bonds") in an aggregate principal amount not to exceed $120,000,000. The Bond sale proceeds (net of any underwriter's discount or other expenses payable from such proceeds) are to be deposited with the Trustee and applied to pay the costs of acquiring, constructing, installing and/or equipping the Facilities. Further under the Sale Agreement, the Company is to sell the Facilities to the Parish for cash, and is to simultaneously re-purchase the Facilities from the Parish for a purchase price, payable on an installment payment basis over a period of years, sufficient (together with any other moneys held by the Trustee under the Trust Indenture and available for the purpose for the particular series of Bonds involved) to pay the principal of, the premium, if any, and the interest on such series of Bonds as they become due and payable. The installment payments are to be made directly to the Trustee pursuant to an assignment and pledge thereof by the Parish to the Trustee.

The Company will also be obligated to pay the reasonable and necessary expenses incurred by the Parish pursuant to the Sale Agreement and the Trust Indenture and the reasonable and necessary compensation of and expenses incurred by the Trustee, any registrar or paying agent under the Trust Indenture, and all Indexing Agents, Tender Agents and/or Remarketing Agents, except as to each series of bonds, the initial compensation and expenses of the Trustee, and the legal, accounting, financial and printing expenses and fees, the fee of any underwriter or underwriters ("Underwriter") and substantially all other expenses for that series of Bonds, incurred in connection with the issuance of such series of Bonds, will be included in the "Cost" of the Facilities as defined in the Sale Agreement and therefore to be included in the purchase and re-purchase prices of the Facilities and be financed by the sale of the Bonds of that series.

As to each series of Bonds, the Trust Indenture will provide for the establishment with the Trustee of a Bond Fund and a Project Acquisition Fund; for any accrued interest and/or premium paid by the purchasers of such series of Bonds to be deposited in the Bond Fund for such series and the remainder of the sale proceeds to be deposited in the Project Acquisition Fund for such series; for the cash price payment to the Company upon the sale by the Company to the Parish of the Facilities to be paid out of such Project Acquisition Fund; for any funds remaining in such Project Acquisition Fund after the Facilities have been paid for to be deposited in such Bond Fund and/or used by the Trustee for the redemption and/or payment of principal of Bonds or to purchase Bonds of such series for cancellation or otherwise as directed by the Company with the approval of bond counsel; and for such Bond Fund to be used to pay the principal of, premium, if any, and interest on such series of Bonds. The installment payments to be made by the Company in payment of the re-purchase price are to be deposited in such Bond Fund.

The Trust Indenture will provide that, upon the occurrence of certain events relating to the construction or operation of Waterford 3 or the Facilities, the Bonds will be redeemable by the Parish, at the direction of the Company. Any series of the Bonds may be made subject to a mandatory cash sinking fund under which stated portions of the Bonds of such series are to be retired at stated times. The Bonds will be subject to mandatory redemption in certain other cases, including certain events relating to the taxability of the interest on the Bonds. The payments by the Company in such circumstances shall be sufficient (together with any other moneys held by the Trustee under the Trust Indenture and available for the purpose) to pay the principal of the outstanding Bonds to be retired or redeemed at that time, together with interest accrued or to accrue thereon to the retirement or redemption date.

The Bonds, or the several series thereof, will have a term of not less than 5 years and not more than 35 years, but be subject to earlier redemption and retirement upon the occurrence of certain events.

The Sale Agreement and the Trust Indenture may provide for a fixed interest rate for one or more series of the Bonds and/or for an adjustable interest rate for one or more series of the Bonds. As to series having an adjustable interest rate, the interest rate for the Bonds of such series during the first Rate Period (the period during which the interest rate on such Bonds of a particular series is fixed) will be determined in discussions between the Company and the purchasers of such series from the Parish and be based on the current tax-exempt market rate for comparable bonds having a maturity comparable to the length of the initial Rate Period. Thereafter, for each Rate Period, the interest rate on such Bonds: (a) Will, if no Bonds are tendered for repurchase, be determined by the appointed Indexing Agent based upon an index, chosen by the Indexing Agent, derived from the then current market level for comparable securities of maturity comparable to such Rate Period, or (b), if any of such Bonds are tendered for repurchase, will be that rate which will be sufficient to remarket all such tendered Bonds of such series at their principal amount. At the time of each adjustment, the interest rate so determined will be no greater than 120% nor less than 80% of such index, subject to a maximum rate of interest of 15%.

The initial Rate Period would commence on the date as of which interest begins to accrue on such Bonds of such series. Upon the termination of the initial Rate Period, each Rate Period thereafter, other than the period commencing on the Fixed Rate Date (the date from which the interset rate borne by Bonds of a series would be fixed until maturity), will be a one year period. If the Fixed Rate Date for the Bonds of any series shall not been fixed, the date which would have otherwise been the Anniversary Date (the first day of any Rate Period subsequent to the initial Rate Period, other than the last Rate Period if such shall begin on the Fixed Rate Date) for the Bonds of a series shall be the fixed Rate Date for the Bonds of that series.

The Sale Agreement and the Trust Indenture will provide that holders of such Bonds will have the right to tender their Bonds and have them purchased at a price equal to the principal amount thereof on each Anniversary Date and on the Fixed Rate Date. A Tender Agent will be appointed to facilitate the transfer of any Bonds delivered by holders exercising this right. Any holder

of Bonds wishing to have such Bonds purchased will be required to deliver such Bonds to the Tender Agent no earlier that thirty days preceding such purchase date and no later than fifteen days preceding such purchase date. All obligations of the Company with respect to the purchase of Bonds so tendered would be terminated following the Fixed Rate Date.

Under the Sale Agreement the Company will be obligated to pay amounts equal to the amounts to be paid by the Tender Agent pursuant to the Trust Indenture for the purchase of such Bonds so tendered, such amounts to be paid by the Company on the dates such payments by the Tender Agent are to be made; provided, however, that the obligation of the Company to make any such payment under the Sale Agreement would be reduced by the amount of any other moneys available therefor, including the proceeds of the sale of such Bonds by the Remarketing Agent.

A Remarketing Agent will be appointed who will, upon the delivery of such Bonds by holders to the Tender Agent for purchase, offer such Bonds for sale and use its best efforts to sell such Bonds. The Remarketing Agent will attempt to sell such Bonds at a price equal to the stated principal amount of such Bonds, at an annual interest rate no greater than 120% nor less than 80% of the index for the Rate Period established by the Indexing Agent. Under certain circumstances, Bonds may be remarketed at a discount (not to exceed 5% of the principal amount) or a premium.

Adjustable interest rate Bonds will be subject to optional redemption, at the direction of the Company, in whole at any time or in part from time to time, prior to and including the Fixed Rate Date, on each Anniversary Date at 100% of their principal amount or on each date six months after the Anniversary Date at 100% of their principal amount plus a premium. After the Fixed Rate Date, such Bonds will be subject to optional redemption, at the direction of the Company, in whole or in part at redemption prices for each series of such Bonds to be determined prior to the pricing of such series of Bonds.

In order to obtain a more favorable rating and improve marketability, the Company may, in connection with and in support of any one or more series of the Bonds, arrange for an irrevocable letter of credit from a bank ("Bank") in favor of the Trustee. Payments with respect to principal, premium, if any, interest and purchase obligations in connection with such series of the Bonds, coming due during the term of its supporting letter of credit, would be secured by, or payable from, funds drawn under the letter of credit. In order to induce the Bank to issue such letter of credit, the Company would enter into a reimbursement agreement ("Reimbursement Agreement") with the Bank pursuant to which the Company would agree to reimburse the Bank for all amounts drawn under its letter of credit pursuant to the terms specified in the Reimbursement Agreement.

It is anticipated that the Reimbursement Agreement would require the payment by the Company to the Bank of commitment fees and letter of credit fees, or similar fees, with respect to amounts available to be drawn under its letter of credit. Any such letter of credit may expire or be terminated prior to the maturity date of the series of Bonds which such letter of credit supports and, in connection with such expiration or termination, such series of Bonds may be made subject to mandatory redemption on or prior to the date of expiration or termination of such letter of credit. Provision may be made, as to any such series of Bonds, for extension of such letter of credit or for the replacement thereof, upon its expiration or termination, by another letter of credit from the same or a different Bank.

It is contemplated that the respective series of the Bonds will be sold by the Parish pursuant to arrangements with the Underwriter and/or by private placement in a negotiated sale or negotiated sales. The Company will not be party to such underwriting arrangement or sales; however, the Sale Agreement will provide that the terms of the Bonds, and their sale by the Parish, shall be satisfactory to the Company.

The Company has been advised that the annual interest rate on the Bonds, assuming an initial Rate Period of five years, can be expected at the time of issuance to be 6% to 7% lower than the rate on long-term (30 year) obligations of like tenor and comparable quality, interest on which is tax-exempt. Similarly, the annual interest rates on long-term tax-exempt obligations are expected at the time of issuance of the Bonds to be 1% to2% lower than the rates on obligations of like tenor and comparable quality, interest on which is fully subject to Federal income tax.

The application-declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing could submit their views in writing by April 16, 1984, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the applicant-declarant at the address specified above. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, it ordered, and will receive a copy any notice or order issued in this matter. After said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective.

For the Commission by the Office of Public Utility Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 13803; 812-5730]

Mutual Investment Fund of Connecticut, Inc.; Application for an Order Exempting Applicant From the Provisions

March 1, 1984.

Notice is hereby given that Mutual Investment Fund of Connecticut, Inc. ("Applicant"), One Corporate Center, 20 Church Street, Hartford, Connecticut 06103, a open-end, diversified management investment company, filed an application on December 23, 1983, and an amendment thereto on February 3, 1984, for an order pursuant to Section 6(c) of the Investment Company Act of 1940 ("Act") exempting Applicant from the provisions of Section 30(a) of the Act and Rule 8b-16 thereunder. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below. Such persons are also referred to the Act and the rules thereunder for the complete text of the provisions thereof pursuant to and from which the exemption is being sought.

According to the application, Applicant was organized on August 14, 1956, under the laws of the State of Connecticut to provide a mutual fund investment medium to Connecticut savings banks. It is represented that each shareholder is thoroughly familiar with the Applicant's operations and investments and regularly receives detailed information concerning the nature and performance of the Applicant's investments. It is also represented that all of the Applicant's directors have been and are required by its corporate charter to be officers of

savings bank shareholders of the Applicant.

Applicant states that certain information currently provided to Applicant's shareholders in the annual reports under the Act (Form N–1R and the Form N–1 amendment) is already reported to the shareholders in other documents, which Applicant represents it will continue to provide its shareholders. On the other hand, Applicant submits that some types of information Applicant must provide in the annual reports required under the Act, such as the type of company the Applicant is, frequency of board meetings, method of filling vacancies on the board of Directors, and correspondence with shareholders, is information provided primarily for the Commission and need not be provided annually to the shareholders. Applicant maintains that all of its shareholders are aware of such information by virtue of their status as shareholders and that information is set forth in Applicant's bylaws, which may be amended only upon shareholders approval.

Applicant represents that, if the requested exemptions are granted, certain information not currently provided to shareholders in documents other than Applicant's annual reports under the Act will be provided to shareholders. The annual report to shareholders prepared by the investment adviser and custodian, for example, will include a statement of considerations that affected participation of broker-dealers in commissions or other compensation paid on portfolio transactions of the Applicant, a statement whether its code of ethics has been maintained and enforced, and a statement of any cross-ownership or circular ownership between the Applicant and any other company. The investment advisor and custodian's annual financial report will also state the amount of commissions and any other amounts paid to broker-dealers, the discount on redemption of the Applicant's securities, and whether any suspension of the right of redemption or delay in payment upon repurchase has occurred during the fiscal year. The investment advisor and custodian's monthly financial report will also be distributed to shareholders. The minutes of Applicant's annual meeting of shareholders will identify Applicant's fidelity bond insurer and state any pending legal proceedings against Applicant and any savings account or deposit established by Applicant with any institution other than the custodian. In addition, the minutes of Applicant's annual meeting of shareholders or a special report to shareholders will contain the results of a survey which will be undertaken each year to determine the relationships and transactions, if any, between directors, officers, and affiliated persons of Applicant and Applicant, its investment adviser or directors, officers, controlling persons or affiliated persons of the investment adviser, and its broker-dealers. Applicant represents that it will submit the various documents to be sent to shareholders to the Commission in lieu of the annual reports should such submission be desired.

Applicant states that it believes that an exemption from the annual reporting requirements of Section 30(a) of the Act and Rule 8b–16 thereunder will be in the public interest and consistent with the protection of investors and the purposes and policies of the Act. Applicant submits that its shareholders, all of which are financially sophisticated institutional investors, receive and will continue to receive all the relevant financial and investment information necessary to make an informed investment decision from sources other than the Form N–1R and the annual amendment to Form N–1. Applicant states that the Commission will continue to receive the information Applicant is required to provide under Sections 30(b)(1) and (2) of the Act, which will supply the Commission with an ongoing summary of the Applicant's activities and performance. Furthermore, Applicant undertakes that at such time as the Commission may develop a new form to replace Form N–1R, Applicant will file such form, provided, that any of Applicant's obligations to provide information under the instant exemptive order, if granted, will cease to the extent such obligations are fulfilled or removed by the Commission's adoption of such new form or the Applicant's filing of such new form. Finally, Applicant submits that compliance with the annual reporting requirements of the Act imposes an unnecessary and substantial burden, and that because of its peculiar ownership and management characteristics and state regulation, submission of such reports to the Commission serves no purpose not already accomplished.

Notice is further given that any interested person wishing to request a hearing on the application may, not later than April 11, 1984, at 5:30 p.m., do so by submitting a written request setting forth the nature of his/her interest, the reasons for the request, and the specific issues of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of the request should be served personally or by mail upon Applicant at the address stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed with the request. After said date, an order disposing of the application will be issued unless the Commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[FR Doc. 84–8405 Filed 3–28–84; 8:45 am]

BILLING CODE 8010–01–M

[Release No. 13836; 812–5743]

Narragansett Capital Corp. et al.; Application for an Order Permitting Certain Proposed Transactions and Exempting Those Transactions From the Provisions

March 21, 1984.

Notice is hereby given that Narragansett Capital Corporation ("Narragansett"), registered under the Investment Company Act of 1940 ("Act") as a closed-end, non-diversified, management investment company, and Arthur D. Little, Robert D. Manchester, William P. Lane, Gregory P. Barber, and Roger A. Vandenberg (collectively, the "Individual Applicants," collectively with Narragansett, "Applicants"), 40 Westminster Street, Providence, RI 02903, filed an application on January 12, 1984, and amendments thereto on February 15 and March 6, 1984, requesting an order of the Commission pursuant to Section 17(d) of the Act and Rule 17d–1 thereunder permitting certain proposed transactions, and pursuant to Section 17(b) of the Act exempting those transactions from the provisions of Section 17(a) of the Act. In those transactions, described more fully below, Narragansett First Fund ("First Fund"), a limited partnership controlled by Narragansett in which the Individual Applicants have financial interests, would participate with certain persons directly or indirectly affiliated with Narragansett. Those persons are affiliated indirectly with Narragansett because they are associated with portfolio companies affiliated with Narragansett or Narragansett Venture Corporation ("Venture Corporation"), a wholly-owned subsidiary of Narragansett, a registered investment company under the Act and a small business investment company under the Small Business Investment Company

Act of 1958, as amended. Some of those persons are directly affiliated with Narragansett as co-partners with Narragansett of a limited partnership, WBC Management Limited Partnership, which is the general partner of a portfolio company of Narragansett, WB Cable Associates Ltd. All interested persons are referred to the application on file with the Commission for a statement of the facts and representations contained therein, which are summarized below, and to the Act and the rules thereunder for the text of its relevant provisions.

Applicants state that by an application filed April 23, 1981, (as amended, the "Original Application"), and by an application for an amended order, filed July 14, 1982, (collectively, as amended, the "Application for Amendment"), they sought an order of the Commission pursuant to Sections 6(c), 17(b) and 57(c) of the Act exempting them from certain provisions of the Act with respect to the establishment and operation of First Fund and permitting certain proposed transactions involving First Fund pursuant to Section 17(d) of the Act and Rule 17d–1 thereunder. On February 25, 1982, the Commission issued a notice (Investment Company Act Release No. 12248) of the filing of the Original Application. On April 2, 1982, the Commission issued an Order (Investment Company Act Release No. 12347) granting the relief sought by the Original Application (the "Original Order"). On September 22, 1982, the Commission issued an order (Investment Company Act Release No. 12664) amending the Original Order (the "Amended Order") and granting the relief sought by the Application for Amendment. Applicants state that since the filing of the Original Application and the Application for Amendment, Narragansett received commitments from a number of institutional investors for investments in First Fund, and in closings occurring from December, 1982 through February, 1983, First Fund was organized under a Limited Partnership Agreement (as amended, the "Partnership Agreement") with 37 Limited Partners, including Narragansett (the "Limited Partners") committing capital contributions in the aggregate amount of $74,650,000 in addition to the General Partner's capital contribution of $500,000.

According to the application, Narragansett is the sole general partner and the Individual Applicants are the limited partners of Narragansett Management Partners ("NMP"), a limited partnership that is the sole general partner of First Fund. Monroe M. Rifkin ("Rifkin"), Charles R. Morris III ("Morris"), Bruce Paul ("Paul"), Cambridge Venture Partners ("Cambridge") and Rifcam Limited Partnership ("Rifcam"), a limited partnership of which Rifkin is the general partner and Cambridge is the limited partner, are affiliated persons (pursuant to Section 2(a)(3) of the Act) of certain portfolio companies of Narragansett and Venture Corporation (the "Portfolio Companies") because each owns more than 5% of the voting securities of one or more of the Portfolio Companies. Rifkin, Morris and Roger Leonard ("Leonard") are "affiliated persons" of Narragansett directly because each is a co-partner with Narragansett in WBC Management Limited, a limited partnership that is the general partner of a portfolio company of Narragansett, WB Cable Associates Ltd. Rifkin, Morris, Paul, Leonard, Cambridge and Rifcam (the "Rifkin Group") are assumed to be "affiliated persons" of each other. The Portfolio Companies are in turn "affiliated persons" of Narragansett and Venture Corporation because either Narragansett or Venture Corporation owns more than 5% of the voting securities of the Portfolio Companies. Rifkin Associates, Inc. ("Associates") is a cable television management company owned by Rifkin, which manages the Portfolio Companies for a fee based on revenues and is assumed to be an "affiliated person" of Rifkin. The Individual Applicants, First Fund, and Venture Corporation are all affilicates of Narragansett; Rifkin, Morris, Paul, Cambridge and Rifcam are affiliated persons of one or more of the Portfolio Companies because they each own more than 5% of the voting securities of one or more of the Portfolio Companies. Applicants also assert that none of Rifkin, Morris, Paul, Cambridge, Rifcam or Associates are affiliated persons of Narragansett, Venture Corporation or any other person affiliated with Narragansett or Venture Corporation, except for the Portfolio Companies.

Applicants asset that no Individual Applicant nor any other person affiliated with Narragansett or Venture Corporation that would be included in items (A) through (E) of Paragraph (d)(5)(i) of Rule 17d(i) has any financial interest, direct or indirect, in any person who is, was or will be a participant in the proposed transactions except for the financial interests of the Individual Applicants in Narragansett and in the First Fund through NMP. None of the Individual Applicants nor any of the other persons who are affiliated with Narragansett have any financial interest, direct or indirect, in Rifkin, Morris, Paul, Leonard, Rifcam, Cambridge, Associates or the other persons associated with Rifkin or in any of the Portfolio Companies, except through their financial interests in Narragansett or Venture Corporation.

The application states that the proposed transactions involve the sale of FNI Communications Company ("FNI"), the owner and operator of four cable television systems operating through 13 franchises located within 90 miles of Nashville, Tennessee, and serving over 25,000 basic subscribers. FNI is presently 100% owned by Sidney Sheldon. Associates conducted a due diligence review of the properties and in behalf of an entity to be controlled by Rifkin and Narragansett submitted a bid to purchase the assets of FNI for $24,500,000 in cash, which was accepted by the seller on December 23, 1983. The specific terms of the proposed sale of FNI involve many separate transactions between the affiliated persons described above, and are set forth in detail in the application.

According to the application, it is presently planned that the assets of FNI will be purchased under an Asset Purchase Agreement with FNI (the "Purchase Agreement") by an operating limited partnership ("Operating Partnership No. 1"), of which a wholly owned subsidiary of Narragansett (the "Subsidiary") and Rifkin are the limited partners and a Tennessee limited partnership ("Management Partnership No. 1") is the sole general partner. FNI Management Corp. ("General Partner No. 1") and RICAP Company ("General Partner No. 2") are the general partners of Management Partnership No. 1. Rifkin and the Subsidiary each own 50% of the voting stock of General Partner No. 1 and General Partner No. 2, as well as shares of non-voting stock of General Partner No. 1.

Applicants state that if the order requested by the present application is received before the closing date under the Purchase Agreement, Narragansett will, prior to the closing, transfer to First Fund at its cost all of the stock of the Subsidiary and a subordinated note of Operating Partnership No. 1 in the amount of $4,200,000 (the "Subordinated Note No. 1"). This transfer would terminate Narragansett's interest in Operating Partnership No. 1, Management Partnership No. 1 and both General Partner No. 1 and No. 2. If that order is not received prior to the closing date, Narragansett will not transfer the stock of the Subsidiary or the Subordinated Note No. 1 to First Fund,

will make the subordinated loan to and the limited partnership investments in Operating Partnership No. 1 or No. 2, as the case may be, planned for First Fund, and First Fund will not acquire any interest in the Subsidiary or any other entity involved in the acquisition of FNI initially or thereafter.

According to the application, a financing plan which is connected with the proposed sale of FNI contemplates raising between $6,000,000 and $7,000,000 through a private offering through an investment banker of limited partnership interests in another operating limited partnership ("Operating Partnership No. 2"). If the placement of limited partnership interests in Operating Partnership No. 2 is completed prior to the closing date under the Purchase Agreement, the rights of Operating Partnership No. 1 under the Purchase Agreement will be assigned to Operating Partnership No. 2, which will make the purchase. If the placement is completed after the closing date, the assets purchased by Operating Partnership No. 1 will be transferred at their original cost to Operating Partnership No. 2 subject to liabilities, as soon as the placement is completed.

Applicants state that the organizational structure of Operating Partnership No. 2 would be similar to that of Operating Partnership No. 1. The general partner of Operating Partnership No. 2 will be a Tennessee limited partnership (Management Partnership No. 2) of which Rifkin and the Subsidiary will be the limited partners. Management Partnership No. 2 will have two corporations as its general partners (GP No. 1 and GP No. 2), the voting stock of each of which will be owned equally by Rifkin and the Subsidiary. In order to comply with certain Federal income tax requirements Rifkin and the Subsidiary will also purchase non-voting stock of one of the general partners (GP No. 1) in an amount sufficient to provide such general partner with a net worth equal to approximately 10% of the capital contributed by limited partners to Operating Partnership No. 2. The financing of Operating Partnership No. 2 in addition to the $6,000,000 to $7,000,000 of limited partnership equity would consist of an $18,000,000 secured revolving line of credit or term loan from a non-affiliated bank and $1,000,000 to $2,000,000 of subordinated debt. In the event the order requested by the application is received prior to the closing date under the Purchase Agreement Narragansett will transfer at its cost to First Fund the subordinated note of Operating Partnership No. 2 (the "Subordinated Note No. 2").

Applicants assert that the assignment of its rights under the Purchase Agreement or the sale of the assets acquired from FNI by Operating Partnership No. 1 to Operating Partnership No. 2 would substantially benefit First Fund since upon the admission of the new limited partners to Operating Partnership No. 2, First Fund will be repaid a substantial part of the equity investment in the Subsidiary, while retaining a substantial portion of the equity interest in Operating Partnership No. 2 through its ownership interest in Management Partnership No. 2. Upon closing under the Purchase Agreement, Associates will receive a fee of $100,000 from Operating Partnership No. 1 or No. 2 as compensation for finding and investigating this investment opportunity. Associates will operate the Operating Partnership No. 1 or Operating Partnership No. 2 as the case may be, under a management contract pursuant to which Associates will receive an annual fee equal to approximately 5% of gross operating revenues.

According to the application, the Purchase Agreement between Operating Partnership No. 1 and FNI is being negotiated. Among other things it contemplates placing $1,000,000 is escrow to be surrendered to FNI as liquidated damages should a closing not take place due to the failure of performance on the part of Operating Partnership No. 1. Should the escrow fund be surrendered its cost to Narragansett and the Rifkin Group would be $763,000 and $125,000, respectively. If the order requested is received before the closing under the Purchase Agreement, Narragansett's obligation with respect to the escrow fund will be assumed by First Fund, and the Subordinated Note No. 1 or Subordinated Note No. 2, as the case may be, issued to Narragansett by Operating Partnership No. 1 will be held by First Fund, which will accordingly bear that cost.

Applicants assert that the transactions involving First Fund and the Rifkin Group described herein would come within the exemptions granted by Rule 17a–6 and Rule 17d–1(d)(5) were it not for the financial interests of the Individual Applicants as limited partners of NMP. These financial interests are the same as those contemplated at the time of the issuance of the Amended Order. The participation of the Individual Applicants in the profits and losses of First Fund through their limited partnership interests in NMP was recognized at the time of the issuance of the Amended Order and the relationship between the Individual Applicants and the shareholders of Narragansett has not changed. In the Amended Order the Commission recognized that the requirement of approval by the "Required Majority" of the Board of Directors of Narragansett (as defined in Section 57(c) of the Act) would protect the interests of the Narragansett shareholders in the transactions contemplated by the Application for Amendment. Applicants contend that there is no reason to apply a different standard to the transactions contemplated hereby, which will not be consummated unless they receive such approval after full disclosure of the interests of all parties, and the financial interests of the Individual Applicants in NMP and hence in First Fund are well known to the Narragansett Directors.

Applicants represent that none of the Individual Applicants nor any other persons so affiliated with Narragansett or Venture Corporation that they would be included in items (A) through (E) of subparagraph (i) of paragraph (5) of Rule 17d–1(d) will have a direct or indirect financial interest in any person (except for First Fund and Narragansett) who is, was or will be a participant in the proposed transactions. Accordingly, Applicants assert that the Individual Applicants would have no incentive to benefit the Rifkin Group as opposed to Narragansett or First Fund.

Applicants assert that denying the requested exemptive relief would deprive the Narragansett stockholders of the benefits that would flow from participation by First Fund in transactions involving Rifkin and the Rifkin Group. The experience that Narragansett has had with Rifkin and the Rifkin Group through investments made by Narragansett or Venture Corporation will be valuable in evaluating the proposed investment by First Fund. The investments made by Narragansett and Venture Corporation in the Portfolio Companies in participation with the Rifkin Group were independent of the proposed transactions. The proposed transactions could not be made by Venture Corporation because FNI is not a small business concern (as a small business investment company Venture Corporation can only invest in small business concerns). Nor could they be made by Narragansett because they involve a leveraged buyout and the First Fund Limited Partnership Agreement prohibits Narragansett (without the Consent of the Limited Partners) from

engaging directly in such a buyout until First Fund has made investments aggregating 90% of the total capital contributions of Limited Partners to the First Fund (90% of total capital contributions is $87,185,000 and investments to date total $14,225,000). Applicants assert that the exemptive relief requested will advance the time at which First Fund shall have made investments aggregating 90% of the total capital contributions of Limited Partners to First Fund, at which time Narragansett would be permitted for the first time to engage directly or indirectly through other partnerships or corporations in leveraged buyouts of non-small business concerns, activities substantially the same as those of First Fund, which will accrue to the benefit of the Narragansett shareholders, since Narragansett will not only be free to engage directly in leveraged buyouts of non-small business concerns, but it will also be able to reduce its expenses by organizing other venture capital partnerships and allocating a portion of its expenses to those other partnerships.

Applicants represent that the First Fund Limited Partnership Agreement anticipated the participation of First Fund in transactions with persons such as the Rifkin Group, who are affiliated with Narragansett, and provided for protection for the interests of the Limited Partners. Section 4.8 of the Limited Partnership Agreement expressly authorizes the purchase by First Fund of securities of an entity in which an "affiliated person" (as defined in Article 1 of the Partnership Agreement) is an officer, director or shareholder, provided the General Partner obtains any required regulatory approval, a favorable recommendation of the Advisory Board and Consent of the Limited Partners. The term "affiliated person" as defined in the Partnership Agreement includes Rifkin, Paul, Cambridge and Rifcam because each owns 10% or more of the stock of a company controlled by Narragansett. The "Advisory Board" consists of seven members, four of whom are elected by the Limited Partners as representatives of the Limited Partners and shall not be "affililated persons" (as defined in Section 2(a)(3) of the Act) of Narragansett or the General Partner, and three of whom are designated by the General Partner.

"Consent of the Limited Partners" means the consent of Limited Partners whose total percentage interest represents at least 60% of the aggregate percentage interests held by the Limited Partners, who are sophisticated institutional investors. Hence if the requested order is issued by the Commission, the proposed transactions would still require a favorable recommendation by the Advisory Board, which is not controlled by Narragansett nor the General Partner, and written consent or approval by Limited Partners owning at least 60% of the total limited partnership interests. Applicants assert that this will insure that the transaction will be reasonable and fair and will not involve any overreaching by any person. Narragansett, which owns a 5.358339% interest as a Limited Partner, would grant its consent and its interest would be included in the minimum percentage.

Applicants assert that in making their determinations the Directors of Narragansett, the members of the Advisory Board and the Limited Partners will be well advised of the financial interest of the Individual Applicants in NMP and will have those interests in mind in approving the particular transaction. Narragansett as the general partner of NMP, which is the General Partner of First Fund and its directors will have a fiduciary relationship to the Limited Partners of the First Fund as well as to the Narragansett stockholders. Applicants assert that any investments of First Fund approved by a Required Majority of the Board of Directors of Narragansett will be considered from the point of view of the benefits to the Narragansett stockholders and not with a view to the benefits accruing to the Rifkin Group.

Applicants assert that, as stated in the Original Application and the Application for Amendment, the relationships established among Narragansett, the Individual Applicants and First Fund is designed to achieve a balance between Narragansett's shareholders and the Individual Applicants that is consistent with the provisions, policies and purposes of the Act and a participation that is not different from or less advantageous than that of other participants as is required by Rule 17d–1 under the Act. There is no change in these relationships in the transactions described herein. Applicants also assert that the proposed transactions are consistent with the policy of Narragansett as recited in its registration statement and reports filed with the Commission. They state that the investment policies of Narragansett currently in effect are set forth in Exhibit E to the proxy statement filed as Exhibit A to the Original Application and that none of these policies in any way restrict Narragansett or any entity controlled by Narragansett, such as First Fund, from entering into the proposed transaction with the Rifkin Group.

Applicants state that Narragansett and the Individual Applicants will participate in the success of the investment in FNI by First Fund through their percentage interest in NMP as described in the Application for Amendment which was approved by the Amended Order. Narragansett will also participate as a Limited Partners of First Fund. The proposed transactions will make no change in those relationships. The participation by the Rifkin Group in the transactions described herein may be different from that of First Fund and hence from the indirect participation by Narragansett and the Limited Partners. However, Applicants assert that these differences will be negotiated at arms-length by the management of Narragansett and will be reasonable and fair under the circumstances and in the light of the objectives of the parties or they would not be approved by the "Required Majority" of the Narragansett Board of Directors, the Advisory Board of First Fund and limited partners owning at least 60% of the total limited partners' percentage interest in First Fund as is required for the Consent of the Limited Partners. In each case there will be full disclosure of all of the pertinent facts, including the financial interest of the Individual Applicants in NMP. There will be no financial interest of the Individual Applicants or other persons affiliated with Narragansett, other than the Rifkin Group, in any parties which participate in the transactions described herein, except for Narragansett and First Fund. Applicants therefore assert the participation by Narragansett in the proposed transactions is not on a bais less advantageous than that of the Individual Applicants or the Limited Partners.

Notice is further given that any interest person wishing to request a hearing on the application may, not later than April 12, 1984, at 5:30 p.m., do so by submitting a written request setting forth the nature of his interest, the reasons for his request, and the specific issues, if any, of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of the report should be served personally or by mail upon Applicants at the addresses stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed with the request. After said date, an order disposing of the application will be issued unless the Commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[Release No. 13838; 812-5643]

Resources Life Insurance Company, et al.; Application for an Order of Exemption

March 21, 1984.

Notice is hereby given that Resources Life Insurance Company ("RLICO"), One Bridge Plaza, Fort Lee, New Jersey 07024, Resources Variable Account I, registered under the Investment Company Act of 1940 ("Act") as a unit investment trust and established by RLICO in connection with the proposed issuance of certain variable annuity contracts ("Account"), and Integrated Capital Services, Inc. (the principal underwriter for the contracts) (collectively, "Applicants") filed an application on September 12, 1983 and amendments thereto on March 9 and March 16, 1984 for an order pursuant to section 6(c) of the Act granting exemptions from the provisions of sections 26(a)(2)(C) and 27(c)(2) of the Act to the extent necessary to permit transactions described in the application. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein in support of the requested relief pursuant to section 6(c), which are summarized below, and are referred to the Act for a statement of the relevant provisions.

Applicants request exemption from sections 26(a)(2)(C) and 27(c)(2) to the extent necessary to deduct from contract values any premium taxes imposed thereon and to impose a guaranteed records maintenance charge of $30 upon December 31st of each calendar year. Applicants represent that this latter charge is not designed to exceed actual expenses incurred and contains no element of profit.

Applicants also request relief to the extent necessary to deduct a mortality and expense risk charge from the Account at an effective annual rate of 1.40% of the value of the assets of the Account and represent that this charge is reasonable in amount as determined by industry practice with respect to comparable annuity products and that the basis for this representation is reflected in documents on file with RLICO. Applicants will impose in some cases a sales load upon partial and total contract surrenders. Applicants acknowledge that this charge may be insufficient to cover all costs of distributing the contract and that any shortfall would be absorbed by the general account of RLICO, which may include profits derived from the mortality and expense risk charge. In this regard RLICO represents that it has concluded that there is a reasonable likelihood that the proposed distribution financing arrangement will benefit the Account and contractowners, and the Account represents that it will invest only in funds which undertake to have a board with a disinterested majority formulate and approve any plan under Rule 12b-1 to finance distribution expenses.

Notice is further given that any interested person wishing to request a hearing on the application may, not later than April 12, 1984, at 5:30 p.m., do so by submitting a written request setting forth the nature of his interest, the reasons for this request, and the specific issues, if any, of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of the request should be served personally or by mail upon Applicants at the address stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed with the request. After said date an order disposing of the application will be issued unless the Commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 13840; 812-5742]

Travelers Equities Fund, Inc., et al.; Application for Order Exempting Proposed Transactions and Permitting Proposed Transactions

March 22, 1984.

Notice is hereby given that Keystone Custodian Funds, Inc. ("Keystone"), One Tower Square, Hartford, Connecticut 06115, the corporate trustee of Keystone Custodian Fund, Series K-2 ("Series K-2"), Series K-2 and Travelers Equities Fund, Inc. ("TEFI") ("Applicants"), both open-end, diversified management investment companies registered under the Investment Company Act of 1940 ("Act"), filed an application on January 11, 1984, and an amendment thereto on February 24, 1984, for an order of the Commission (1) pursuant to Sections 6(c) and 17(b) of the Act, exempting certain transactions incident to the reorganization of TEFI and Series K-2 from the provisions of Section 17(a), 19(b), and 22(c) of the Act and Rules 19b-1 and 22c-1 thereunder, and (2) pursuant to Section 17(d) of the Act and Rule 17d-1 thereunder, permitting the proposed reorganization. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below, and to the Act for the text of the provisions cited in the application.

Applicants state that TEFI was organized in 1968 as a Maryland corporation the investment objective of which is primarily the long-term appreciation of capital and secondarily the growth of income without emphasis on obtaining short-term trading profits. It is stated that, as of December 31, 1983, TEFI had net assets of approximately $49.3 million and approximately 5,000 shareholders. Applicants state further that Series K-2 was organized in 1935 as a Pennsylvania unincorporated common law trust the investment objective of which is capital growth. Applicants state that, as of December 31, 1983, Series K-2 has net assets of approximately $141.9 million and approximately 22,000 shareholders.

Applicants propose that Series K-2 acquire all of the assets of TEFI in the manner set forth in an Agreement and Plan of Reorganization (the "Agreement") between Keystone on behalf of Series K-2 and TEFI. Applicants state that, under the terms of the Agreement, on a closing date (the "Closing Date"), Series K-2 will acquire all of the assets of TEFI in exchange for shares of Series K-2 and the assumption of all of the liabilities of TEFI by Series K-2. Applicants represent that each TEFI shareholder will be entitled to receive that proportion of Series K-2 shares to be received by TEFI that the number of TEFI shares owned by such shareholder bears to the number of TEFI shares outstanding on the date of exchange. Applicants state that full shares and, to the extent necessary, a fractional share of Series K-2 equal in aggregate net asset value to the aggregate net asset value of TEFI, adjusted as described below, are to be issued by Series K-2 in exchange for the net assets of TEFI. The value of the exchanged Series K-2 shares and TEFI's assets acquired by Series K-2 will be determined using the valuation procedures applicable to the net assets

of Series K–2 as set forth in its trust agreement and then current prospectus.

Applicants state that Keystone has agreed to provide, at no cost to the shareholders of TEFI, account insurance to all individual shareholders of TEFI on the Closing Date who continue to maintain their investments and reinvest all dividends and capital gains distribution on Series K–2 shares which they receive in connection with the reorganization. The insurance is intended to guarantee that the value of former TEFI shareholders' Series K–2 accounts on the date of death will be no less than the value of their TEFI accounts on the Closing Date, reduced by the proportionate amounts of any redemptions in their Series K–2 accounts. Applicants state that they deem this insurance arrangement not to require exemptive relief under Section 17(d) of the Act and that therefore they are seeking no such relief in their application.

Applicants state that TEFI and Series K–2 each have agreed to declare a dividend to their respective shareholders prior to consummation of the reorganization of all of their respective undistributed investment company taxable income and any net realized capital gain (to the extent not offset by a capital loss carryover) through the Closing Date. Applicants state that if not making such a distribution by Series K–2 would not materially adversely affect shareholders of TEFI in the reorganization, then any such net realized capital gain will not be distributed by Series K–2.

As a result of the reorganization, TEFI shareholders will be allocated a portion of the net unrealized appreciation in the portfolio of Series K–2. Accordingly, for purposes of Series K–2's acquisition of TEFI's assets, Applicants will make an adjustment to compensate TEFI shareholders for any additional capital gains tax payable after the reorganization resulting from Series K–2's realization of unrealized appreciation in its portfolio attributable to periods before the reorganization. Applicants state that such adjustment will be made according to the Agreement by calculating the "opportunity cost" to shareholders of an assumed amount of tax payable on a portion of the change in unrealized appreciation experienced by shareholders. Applicants state that the calculated opportunity cost will be reflected in the number of shares issued by Series K–2 for the acquisition of the net assets of TEFI. Applicants state further that, as of December 31, 1983, TEFI had $1,097,000 of net unrealized appreciation on investment and Series K–2 had $35,374,000 of net unrealized appreciation on investments. Applicants submit that, if the proposed transaction had occurred on December 31, 1983, the amount of the adjustment would have been $252,558 or approximately plus $.055 per share to TEFI and less $.013 per share to Series K–2.

Applicants state that Series K–2 will assume all liabilities of TEFI in connection with the acquisition of its assets and that Series K–2 will bear the fees and expenses incurred by it in connection with the reorganization. The Travelers Corporation ("Travelers") will bear the fees and expenses incurred by TEFI in connection with the reorganization, except the expenses of independent counsel to the non-interested directors of TEFI. It is expected that the reorganization will be submitted for approval by the holders of two-thirds of the outstanding shares of TEFI and that the acquisition, if approved, will be consummated shortly thereafter.

Applicants state that Travelers Investment Management Company is investment adviser for TEFI. In addition, approximately 35 percent of the outstanding shares of TEFI are beneficially owned by Travelers. The Massachusetts Companies, Inc. ("MassCo"), also a wholly-owned subsidiary of Travelers, beneficially owns 28 percent of the outstanding shares of TEFI. Keystone, a wholly-owned subsidiary of Travelers, is the corporate trustee of Series K–2. Applicants submit that they may be deemed to be affiliated persons of each other for purposes of the prohibitions of Sections 17(a) (1) and (2) of the Act. In addition, the proposed reorganization may be deemed to involve a joint enterprise or other joint arrangement for purposes of Section 17(d) of the Act and Rule 17d–1 thereunder.

Applicants state that TEFI and Series K–2 have each made a distribution of realized capital gains to shareholders following their most recent fiscal year ends. The Agreement provides that TEFI and Series K–2 will distribute to shareholders prior to the Closing Date any investment company taxable income and net realized capital gains. Applicants submit that, to the extent that such distribution involves the distribution of capital gains more often than once every twelve months, it would be prohibited by Section 19(b) and Rule 19b–1 thereunder.

The Agreement provides that shares of Series K–2 will be issued on the Closing Date at their then net asset value in exchange for assets of TEFI, subject to the adjustment based on the amount of net unrealized appreciation in the portfolios of TEFI and Series K–2. Applicants submit that the issuance of shares of Series K–2 in the manner provided by the Agreement may be deemed to violate the provisions of Section 22(c) of the Act and Rule 22c–1 thereunder.

Applicants assert that the terms of the proposed reorganization are consistent with the standards of Sections 6(c) and 17(b) of the Act and Rule 17d–1 under the Act. The Board of Directors of TEFI, including a majority of the directors who are not interested persons of TEFI or Series K–2, has approved the proposed reorganization and recommended that it be submitted to TEFI's shareholders for approval. Applicants assert further that the Board of Directors of Keystone including those who have in various other contexts performed the functions of independent directors of Series K–2, has approved the proposed reorganization. The Boards of Directors of TEFI and Keystone have further determined that an adjustment to reflect the difference in the amount of unrealized capital appreciation in the portfolios of TEFI and Series K–2 is appropriate.

Applicants assert that, in connection with its approval of the proposed reorganization and its decision to recommend the transaction to shareholders for approval, the Board of Directors of TEFI also considered the continued viability of TEFI. The directors were concerned with the continuing net redemptions experienced by TEFI, with its small size and sales load structure, and with TEFI's continued ability to obtain high-quality management services without increases in the costs of such services to shareholders. The Board of Directors also considered the fact that the reorganization could result in higher expenses to TEFI shareholders. However, Applicants submit that shareholders of TEFI will become shareholders of a large and growing fund with an experienced, well-respected investment manager, improved investment performance and an active, viable distribution program. Applicants assert that shareholders of TEFI can also be expected to benefit indirectly from the greater diversification of security holdings possible in a portfolio of Series K–2's size.

Applicants represent further that the advantages of the proposed reorganization to shareholders of TEFI outweigh any disadvantage in the structural differences between TEFI and

Series K–2. Applicants state that, whereas TEFI shareholders have one vote per share on all matters on which shareholders vote under Maryland law or the Act, Series K–2 shareholders have one vote per share only on certain matters. Applicants state that, although Series K–2 shareholders are not called upon to approve the continuance of Keystone as corporate trustee, Series K–2 shareholders have the voting rights provided by Sections 13(b), 16(c) and 32(a) of the Act.

Applicants assert that the proposed reorganization is in the interest of Series K–2 shareholders because despite the absence of immediate monetary savings, the increase in Series K–2's net assets resulting from the reorganization could possibly reduce management fees and permit greater diversification of investment. Applicants state that Series K–2 will increase its assets without incuring the transaction costs incident to investing a comparable amount of cash.

Applicants assert that the proposed reorganization is consistent with the policies of Series K–2 and TEFI. Applicants state that the primary investment objective of each fund is capital growth and that the investment policies and restrictions of Series K–2 and TEFI are similar. Applicants represent that securities in the investment portfolio of TEFI are suitable investments for Series K–2. Applicants represent further that no realignment of TEFI's portfolio will occur prior to the reorganization and TEFI's shareholders will not incur any brokerage expense in connection with the reorganization. Applicants represent that securities received by Series K–2 as a result of the reorganization will be held for investment until they are sold in the ordinary course of portfolio management for investment purposes.

Applicants state that compliance with Rule 17a–8 under the Act would exempt them from the prohibitions of Section 17(a) of the Act if the possibility of such compliance were not negated by Travelers' and MassCo's ownership of TEFI shares and Travelers' and Keystone's possible status as separate investment advisers. Nevertheless, the Boards of Directors of TEFI and Keystone have made the determinations required by Rule 17a–8 under the Act. Applicants assert that Travelers will vote its TEFI shares in the same proportion that the publicly-held TEFI shares are voted on the transaction.

Applicants submit that granting the requested relief from Section 22(c) of the Act and Rule 22c–1 thereunder is consistent with the exemptive standards of Section 6(c) of the Act. Applicants submit that if Rule 17a–8 under the Act were available to them, exemptive relief from the provisions of Rule 22c–1 under the Act would not be required because Rule 22c–1(a)(2) under the Act provides that Rule 22c–1 shall not prevent any registered investment company from adjusting the price of its redeemable securities sold pursuant to a merger, consolidation or purchase of substantially all of the assets of a company, which meets the conditions specified in Rule 17a–8 under the Act. Applicants submit that they have met the conditions of Rule 17a–8 under the Act and that granting the requested relief from Section 22(c) of the Act and Rule 22c–1 thereunder is appropriate.

Applicants assert that granting the requested exemption from the provisions of Section 19(b) of the Act and Rule 19b–1 thereunder is also appropriate under the exemptive standards of Section 6(c) of the Act. Applicants state that Section 19(b) of the Act is designed to prevent realized capital gains from being distributed to shareholders in a manner indicating such capital gains distributions to be part of regular dividends from investment income. Applicants propose to distribute any investment company taxable income and realized capital gains prior to the Closing Date. Applicants represent that the distributions would be made in connection with the reorganization for tax and accounting purposes. Accordingly, Applicants submit that the distribution of any net realized capital gains to TEFI and Series K–2 shareholders prior to the reorganization will not result in any of the abuses addressed by Section 19(b) of the Act and Rule 19b–1 thereunder.

Applicants assert that the terms of the proposed reorganization are fair and reasonable and do not involve overreaching on the part of any person concerned and that the proposed reorganization is consistent with the policies recited in Applicants' respective registration statements and reports filed under the Act and with the general purposes of the Act. Applicants further submit that the participation of TEFI and Series K–2 in the proposed transaction is consistent with the provisions, policies and purposes of the Act and is not on a basis different from or less advantageous than that of other participants.

Notice is further given that any interested person wishing to request a hearing on the application may, not later than April 16, 1984, at 5:30 p.m., do so by submitting a written request setting forth the nature of his/her interest, the reasons for the request, and the specific issues of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of the request should be served personally or by mail upon Applicants at the address stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed with the request. After said date, an order disposing of the application will be issued unless the Commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 13837; (812–5842)]

Providence Life Insurance Company, et al.; Application for an Order of Exemption

March 21, 1984.

Notice is hereby given that Providence Life Insurance Company ("PLICO"), One Bridge Plaza, Fort Lee New Jersey 07024, Providence Variable Account I, registered under the Investment Company Act of 1940 ("Act") as a unit investment trust and established by PLICO in connection with the proposed issuance of certain variable annuity contracts ("Account"), and Integrated Capital Services, Inc. (the principal underwriter for the contracts) (collectively, "Applicants") filed an application on September 12, 1983 and amendments thereto on March 9 and March 16, 1984 for an order pursuant to section 6(c) of the Act granting exemptions from the provisions of sections 26(a)(2)(C) and 27(c)(2) of the Act to the extent necessary to permit transactions described in the application. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein in support of the requested relief pursuant to section 6(c), which are summarized below, and are referred to the Act for a statement of the relevant provisions.

Applicants request exemption from sections 26(a)(2)(C) and 27(c)(2) to the extent necessary to deduct from contract values any premium taxes imposed thereon and to impose a guaranteed records maintenance charge of $30 upon December 31st of each calendar year. Applicants represent that this latter charge is not designed to exceed actual expenses incurred and contains no element of profit.

Applicants also request relief to the extent necessary to deduct a mortality and expense risk charge from the Account at an effective annual rate of 1.40% of the value of the assets of the Account and represent that this charge is reasonable in amount as determined by industry practice with respect to comparable annuity products and that the basis for this representation is reflected in documents on file with PLICO. Applicants will impose in some cases a sales load upon partial and total contract surrenders. Applicants acknowledge that this charge may be insufficient to cover all costs of distributing the contract and that any shortfall would be absorbed by the general account of PLICO, which may include profits derived from the mortality and expense risk charge. In this regard PLICO represents that it has concluded that there is reasonable likelihood that the proposed distribution financing arrangement will benefit the Account and contractowners, and the Account represents that it will invest only in funds undertaken to have a board with a disinterested majority formulate and approve any plan under Rule 12b–1 to finance distribution expenses.

Notice is further given that any interested person wishing to request a hearing on the application may, not later than April 12, 1984, at 5:30 p.m., do so by submitting a written request setting forth the nature of his interest, the reasons for this request, and the specific issues, if any, of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of the request should be served personally or by mail upon Applicants at the address stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed with the request. After said date an order disposing of the application will be issued unless the Commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 20777; File No. SR–PSE–84–5]

Filing of Proposed Rule Change by Pacific Stock Exchange, Inc.

March 21, 1984.

Pursuant to Section (19)(b)(1) of the Securities Exchange Act of 1934 (the "Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on March 8, 1984, the Pacific Stock Exchange, Inc. ("PSE") filed with the Securities and Exchange Commission the proposed rule change as described herein. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

The Exchange proposes to amend its listing fee schedule by adopting a refund policy under which the Exchange would return all but 25% of the listing fee paid by an issuer that withdraws an original or additional listing application before the Exchange has either approved or disapproved it. The amount retained would be applied as partial payment for the listing fee of a new application submitted within one year to list the same issue. On March 14, 1984, the PSE filed with the Commission Amendment No. 1 to SR–PSE–84–5 which states that the Exchange will refund all but 25% of the fee paid for a listing application that has been disapproved by the Exchange. In addition, Amendment No. 1 provides that no refund will be made on a listing application that is withdrawn after the Exchange has approved it. According to the Exchange, the proposed rule change is consistent with Section 6(b)(4) of the Act in that it provides for the equitable allocation of reasonable fees and other charges among issuers and other persons using its facilities.

In order to assist the Commission in determining whether to approve the proposed rule change or institute proceedings to determine whether the proposed rule change should be disapproved, interested persons are invited to submit written data, views and arguments concerning the submission within 21 days after the date of publication in the **Federal Register**. Persons desiring to make written comments should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 450 5th Street NW., Washington, D.C. 20549. Reference should be made to File No. SR–PSE–84–5.

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change which are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those which may be withheld from the public inaccordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Room 450 5th Street NW., Washington, D.C. Copies of the filing and of any subsequent amendments also will be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[FR Doc. 84–8408 Filed 3–28–84; 8:45 am]

BILLING CODE 8010–01–M

[Release No. 20778; SR–Phlx–84–4]

Philadelphia Stock Exchange, Inc.; Filing and Order Granting Accelerated Approval of Proposed Rule Change

March 21, 1984.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on February 23, 1984, the Philadelphia Stock Exchange, Inc. ("Phlx"), 1900 Market Street, Philadelphia, PA 19103, filed with the Securities and Exchange Commission the proposed rule change as described herein. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

The rule change would: (1) Fix the cut-off time for options exercises at 5:30 p.m. (New York time) on the last business day before expiration; (2) delete a clause providing an exception from the established cut-off time for options in an account maintained for another member and including only positions of the latter's customers; (3) drop certain explanatory matter relating to the rules of the Options Clearing Corporation ("OCC"); (4) add a provision requiring time-stamping of exercise instructions; and (5) add a reference to notices not to exercise options which otherwise would be automatically exercised under OCC Rule 805. Phlx states that the purpose of the proposed rule change is to take account of OCC rules calling for automatic exercise in certain cases. The proposed rule also shortens the Phlx exercise cut-off rule, adopting language similar to that in the current Chicago

Board Options Exchange ("CBOE") rule and that of the American Stock Exchange, Inc. ("Amex").[1]

Interested persons are invited to submit written data, views and arguments concerning the submission within 21 days from the date of publication in the **Federal Register**. Persons desiring to make written comments should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Reference should be made to File No. SR-Phlx-84-4.

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change which are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those which may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Room. Copies of the filing and of any subsequent amendments also will be available at the principal office of the above-mentioned self-regulatory organization.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges and in particular, the requirements of Section 6 and the rules and regulations thereunder.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof in that insofar as the proposal would alter the existing Phlx rule, it is substantially the same as the CBOE and Amex rules recently published for public comment, considered and approved by the Commission. In light of this fact, and to reduce the potential for confusion, accelerated approval is appropriate.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change referenced above be, and hereby is, approved.

[1] *See* CBOE Rule 11.1(b) and Amex Rule 960(b). Proposed changes to these rules were approved by the Commission in CBOE-83-20, Securities Exchange Act Release No. 20172, September 12, 1983, 48 FR 42889, September 20, 1983; and SR-Amex-83-25, Securities Exchange Act Release No. 20338, November 1, 1983, 48 FR 51186, November 7, 1983. The Amex rule change was granted accelerated approval on the basis of the CBOE filing.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 84-023]

Acceptance of Plan Review, Inspections and Examinations by the American Bureau of Shipping (ABS) on Behalf of the United States Coast Guard

AGENCY: Coast Guard, DOT.

ACTION: Notice of public comment period.

SUMMARY: The Coast Guard is requesting public comment on the implementation of certain delegations by the Coast Guard to the American Bureau of Shipping regarding vessel plan review, inspections and admeasurement.

DATE: Comments must be received prior to April 30, 1984.

ADDRESS: Comments may be mailed to Commandant (G-CMC/44), U.S. Coast Guard, Washington, D.C. 20593.

SUPPLEMENTARY INFORMATION:

Discussion

In 1982, the Coast Guard was given authority by Congress to delegate certain plan review and vessel inspection and examination functions to the American Bureau of Shipping (ABS), a private sector, non-profit classification society. There followed several memorandums of understanding (MOU) between the Coast Guard and the ABS. One MOU concerning plan review and vessel inspection was signed on April 27, 1982 and published in the **Federal Register** on June 10, 1982 (47 FR 25235). Implementing guidance for this MOU is contained in Navigation and Vessel Inspection Circular (NVC) 10-82. Another MOU addressed ABS performing certain admeasurement functions. That MOU was signed on February 1, 1982 and published in the **Federal Register** of Apirl 1, 1982 (47 FR 13947). Navigation and Vessel Inspection Circular 1-82 gives guidance on implementing this MOU.

The MOU of April 27, 1982 sought to reduce the duplication in plan review and vessel examination suggested to exist between the statutorily mandated safety inspections of the Coast Guard and the classification surveys of the ABS. This MOU was limited to new construction issues and was made optional because of service costs associated with owner selection of the ABS alternative. These delegations do not relieve the Coast Guard of its statutory responsibility for commercial vessel safety. To carry out these responsibilities the Coast Guard has maintained oversight of those activities delegated to ABS and is the final authority in administrative appeal. The benefits to be gained by this action are:

Shorten the time required to review certain vessel construction plans.

Simplify inspection procedures.

Allow better utilization of Coast Guard inspection personnel.

The MOU of February 1, 1982, provides for Coast Guard acceptance of certain ABS admeasurement certificates. Because of the ABS cost issues, this MOU did not make admeasurement by ABS mandatory but provides vessel owners with an alternative to Coast Guard admeasurement. Use of ABS admeasurement services will also reduce the Coast Guard admeasurement workload.

To assess the affects of these procedures and to report to Congress, the Coast Guard is seeking comments from industry and the general public. In addition to general comments, we wish that the following questions be addressed. Have these new procedures led to more efficient plan review and scheduling of inspections? Have there been any undue problems in implementing these procedures such as difficulties in appeals or interpretations? Do you favor expansion of the MOU to include Coast Guard acceptance of ABS' work product in additional areas of new construction activity, such as structural fire protection? What experience have you had with ABS admeasurement?

Clyde T. Lusk, Jr.,

Rear Admiral, U.S. Coast Guard Chief, Office of Merchants Marine Safety.

BILLING CODE 4910-14-M

Federal Aviation Administration

Advisory Committee; Reestablishment; National Airspace Review

Announcement. Notice is given of the reestablishment of the National Airspace Review Advisory Committee. This Advisory Committee stems from informal meetings held by the Federal Aviation Administration (FAA) in May of 1981 on a proposed review of airspace and procedural aspects of the National Airspace System. The Administrator of

the Federal Aviation Administration is the sponsor of the Committee. The membership will include experts from the Government, the aviation industry, and those representing the viewpoints of other elements of the aviation community. Non-Federal members of the Committee do not become Government employees. They serve without compensation and at their own expense. The Committee will make recommendations to the FAA on airspace and procedural areas identified in the NAR Plan to make the system more effective and efficient for all airspace users.

Public Interest. The Secretary of Transportation has determined that the reestablishment and continued use of the Committee is necessary in the public interest in connection with duties imposed on the FAA by law. Meetings of the Committee will be open to the public except as provided for in Section 10(d) of the Advisory Committee Act.

Issued in Washington, D.C., on March 21, 1984.

R. J. Van Vuren,

Associate Administrator for Air Traffic.

BILLING CODE 4910-13-M

National Airspace Review; Meeting

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of meeting.

SUMMARY: Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) notice is hereby given of a meeting of Task Group 2-2 of the Federal Aviation Administration National Airspace Review Advisory Committee. The agenda for this meeting is as follows: A review of current special VFR procedures and their application is necessary. A review of pertinent handbook material and Federal Aviation regulations relating to these operations will be undertaken by the group.

DATE: Beginning Monday, April 23, 1984, at 11 a.m., continuing daily, except Saturdays, Sundays, and holidays, not to exceed two weeks.

ADDRESS: The meeting will be held at the Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: National Airspace Review Program Management Staff, room 1005, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591, 426-3560. Attendance is open to the interested public, but limited to the space available. To insure consideration, persons desiring to make statements at the meeting should submit them in writing to the Executive Director, National Airspace Review Advisory Committee, Associate Administrator for Air Traffic, AAT-1, 800 Independence Avenue, SW., Washington, D.C. 20591, by April 16. Time permitting and subject to the approval of the chairman, these individuals may make oral presentations of their previously submitted statements.

Issued in Washington, D.C., on March 23, 1984.

John Watterson,

Acting Manager, Special Projects Staff, Office of the Associate Administrator for Air Traffic.

UNITED STATES INFORMATION AGENCY

Culturally Significant Objects Imported for Exhibition; Determination

Notice is hereby given of the following determination: Pursuant to the authority vested in me by the Act of October 19, 1965 (79 Stat. 985, 22 U.S.C. 2459), Executive Order 12047 of March 27, 1978 (43 FR 13359, March 29, 1978), and the Delegation of Authority from the Director, USIA (47 FR 57600, December 27, 1982), I hereby determine that the objects in the exhibit "The Sun King: Louis XIV and the New World" (included in the list [1] filed as a part of this Determination), imported from abroad for the temporary exhibition without profit within the United States, are of cultural significance. These objects are imported pursuant to loan agreements between the Louisiana State Museum and foreign lenders. I also determine that the temporary exhibition or display of the listed exhibit objects at the Louisiana State Museum, New Orleans, Louisiana, beginning on or about April 29, 1984, to on or about November 18, 1984, and at the Corcoran Gallery of Art, Washington, D.C., beginning on or about December 20, 1984, to on about April 7, 1985, is in the national interest.

Public notice of this determination is ordered to be published in the **Federal Register.**

[1] An itemized list of imported objects included in the exhibit is filed as part of the original document.

Dated: March 26, 1984.

Thomas E. Harvey,

General Counsel and Congressional Liaison.

BILLING CODE 8230-01-M

Grants, Program for Private Not-for-Profit Organizations; In Support of International Educational and Cultural Activities

The United States Information Agency (USIA) announces a program of limited grant support to non-profit activities of United States institutions and organizations in the Private Sector. The primary purpose of the program is to enhance the achievement of the Agency's international public diplomacy goals and objectives by stimulating and encouraging increased private sector commitment and activity.

Private sector organizations interested in working cooperatively with USIA on the following concept are encouraged to so indicate:

U.S.-Japan Parliamentary/Legislative Exchange Program on Economic Issues and Foreign Affairs. USIA is interested in establishing a two-way exchange program for members and staffers of the Japanese Diet and the U.S. Congress. The initial program in Washington D.C. could be for approximately 12 Japanese participants. Programs should provide a comparison of the U.S. Congress and Japanese Diet, with particular emphasis on economic and foreign policy issues. Meetings and discussions would, for example, compare the role of political parties, the bureaucracy, and the executive in affecting foreign policy legislation. They may also examine differences in budget development and legislative oversight. (Tentative activity date: Fall 1984.)

Your submission of a letter indicating interest in the above project concept begins the consultative process. This letter should further explain why your organization has the substantive expertise and logistical capability to successfully design, develop and conduct the above project.

Emphasis during the preliminary consultative process will be on identifying organizations whose goals and objectives clearly complement or coincide with those of USIA. Furthermore, USIA is most interested in working with organizations that show promise for innovative and cost effective programming; and with

organizations that have substantial potential for obtaining third party private sector funding in addition to USIA support. Organizations must also demonstrate a potential for designing programs which will have a lasting impact on their participants. In your response, you may also wish to include other pertinent background information.

This is not a solicitation for a grant proposal. Following the receipt of your letter, and an internal review, USIA may invite your organization to examine and further develop USIA's initiative program concept(s) (summarized above). USIA would then consider your fully developed proposal for limited financial assistance. To be eligible for consideration, organizations *must* postmark their general letter of interest within 20 days of the date of this notice.

Mark Blitz, Director, Office of Private Sector Programs, Bureau of Educational and Cultural Affairs (Attn: Initiative Programs), United States Information Agency, 301 4th Street, SW., Washington, D.C. 20547

Dated: March 26, 1984.

Charles N. Canestro,

Management Analyst, Federal Register Liaison.

BILLING CODE 8230-01-M

VETERANS ADMINISTRATION

Veterans Administration Medical Center, Tampa, Florida; Land Acquisition and Construction of a Radiation Therapy Suite, Clinical Addition, and a Spinal Cord Injury Addition; Finding of No Significant Impact

The Veterans Administration (VA) has assesed the potential environmental impacts that may occur as a result of the proposed acquisition of approximately 20 acres and construction of a Radiation Therapy Unit, Clinical Addition, and a Spinal Cord Injury Unit (SCIU) and has determined that the potential environmental impacts will be minimal from the development of this project.

The project is in several parts. The Radiation Therapy Unit will be a single story building of approximately 20,000 gross square feet west of the hospital on property that the VA presently owns. The Clinical Addition and SCIU will be west of the Radiation Therapy Unit on the land to be acquired. The Clinic will be approximately 200,000 gross square feet on two levels. The SCIU will be a single level structure interconnected to the Clinic Addition.

Development of the project will cause minor short and long term impacts in the form of air pollution (dust and fumes) during construction operations.

The VA will adhere to all applicable Federal, State, and local environmental regulations during construction and operation of this project.

The significance of the identified impacts has been evaluated relative to the considerations of both context and intensity as defined by the Council on Environmental Quality (Title 40 CFR 1508.27).

An Environmental Assessment has been prepared in accordance with the requirements of the National Environmental Policy Act Regulations, §§ 1501.3 and 1508.9. A "Finding of No Significant Impact" has been reached based upon the information presented in this assessment.

The assessment is being placed for public examination at the Veterans Administration, Washington, D.C. Persons wishing to examine a copy of the document may do so at the following office: Mr. William F. Sullivan, Director, Office of Environmental Affairs (008C), Room 423, Veterans Administration, 811 Vermont Avenue, NW., Washington, D.C. 20420, (202) 389-3316. Questions or requests for single copies of the Environmental Assessment may be addressed to the above office.

Dated: March 22, 1984.

By direction of the Administrator.

Everett Alvarez, Jr.,

Deputy Administrator.

FEDERAL COMMUNICATIONS COMMISSION
March 23, 1984.

FCC To Hold Open Commission Meeting, Friday, March 30, 1984

The Federal Communications Commission will hold an Open Meeting on the subjects listed below on Friday, March 30, 1984, which is scheduled to commence at 9:30 a.m., in Room 856, at 1919 M Street, NW., Washington, D.C.

Agenda, Item No., and Subject

Common Carrier—1—Title: Modification of Policy on Ownership and Operation of U.S. Earth Stations that Operate with the INTELSAT Global Communications Satellite System. (CC Docket No. 82-540) Summary: The Commission will consider responses to its notice of inquiry concerning changes to the Commission's current policy on the ownership and operation of U.S. earth stations that operate with the INTELSAT Global Communications Satellite System.

Common Carrier—2—Title: In the Matter of Joint Request of Communications Satellite Corporation and RCA Global Communications, Inc., to resolve dispute concerning the manner by which capital contributions for international earth station facilities may be adjusted. File No. I-S-P-83-005. Summary: The Commission will consider applications for review and requests for reallocation of joint owners' shares in ESOC filed by RCA Global Communications and Western Union International, Inc. The Commission will also consider a motion for stay of the Commission's order pending court review filed by RCA.

Common Carrier—3—Title: Application of Communications Satellite Corporation (Comsat) to participate in the INTELSAT Business Services (IBS) program. Summary: The Commission will consider whether Comsat's participation in the IBS program is in the public interest.

Common Carrier—4—Title: International Relay, Inc., Memorandum Opinion, Order and Authorization to construct and operate earth stations to provide International Business Service, File Nos. CSG-84-001-P/L, I-T-C-84-001, CSG-84-004-P/L, I-T-C-84-024. Summary: The Commission will consider granting IRI's applications for authority to construct and operate international earth stations to provide INTELSAT's International Business Service to area businesses.

Common Carrier—5—Title: Applications of Communications Satellite Corporation for authorization to construct and operate an earth station at the New York Teleport complex. Summary: The Commission will consider whether to authorize the Communications Satellite Corporation to construct a satellite earth station at the Teleport complex, Staten Island, New York and operate it with INTELSAT satellites to provide International Business Service.

Common Carrier—6—Title: Notice of Proposed Rulemaking to eliminate or amend the Commission's satellite procurement rules. Summary: The Commission will consider revision of its satellite procurement rules in view of changed circumstances since their adoption in 1964.

Common Carrier—7—Title: Changes in the Corporate Structure and Operations of the Communications Satellite Corporation. (CC Docket No. 80-634) Summary: The Commission will consider adoption of a Memorandum Opinion and Order concerning Comsat's corporate structure and cost allocation practices.

Common Carrier—8—Title: In the Matter of Regulatory Policies Concerning Direct Access to INTELSAT Space Segment for the U.S. International Service Carriers. (CC Docket No. 82-548) Summary: The Commission will consider pleadings filed in response to its Notice of Inquiry concerning the possible modification of the current arrangements whereby the USISCs acquire, through the Communications Satellite Corporation (Comsat), the satellite capacity of the International Telecommunications Satellite Organization (INTELSAT).

Common Carrier—9—Title: Overseas Option for High Speed Switched Digital Service, AT&T Communications Transmittal No. 14. Summary: The Commission will consider a proposed offering by AT&T for an international video teleconferencing service.

Common Carrier—10—Title: In the Matter of Integrated Services Digital Networks (ISDI). (Gen. Docket No. 83-841) Summary: In August, 1983, the Commission released a Notice of Inquiry in this proceeding inviting comment on a range of ISDN issues. The Commission will consider the adoption of a report addressing these issues and the comments filed thereon.

Common Carrier—11—Title: North American Telecommunications Association Petition for Emergency Relief Requiring Non-Discriminatory CPE Interconnection During the Six-Month Transition Period Prior to BOC's Compliance with the Computer II Rules. North American Telecommunications Association Motion for Partial Stay of the Dial Tone Referral Modification Granted in CC Docket No. 83-115 Pending Submission and Disposition of Petitions for Reconsideration. Summary: The FCC will consider: (1) NATA's petition for an emergency ruling requiring the BOCs to process all service requests for interconnection of CPE through the Centralized Operations Groups (COGs), and (2) NATA's motion for a stay of that portion of the *BOC Separation Order*, FCC 83-252, CC Docket 83-115 which permits a BOC to refer a customer to the BOC's separate CPE Organization, provided the customer is informed that other sources of CPE are available.

Common Carrier—12—*Amendment of Part 67 of the Commission's Rules and Establishment of a Joint Board*, CC Docket No. 80-286 (Jurisdictional Separations) The Commission will decide whether to refer certain additional questions to the Joint Board in this proceeding.

This meeting may be continued the following work day to allow the Commission to complete appropriate action.

Additional information cerning this meeting may be obtained from Sally Lawrence, FCC Public Affairs Office, telephone number (202) 254-7674.

William J. Tricarico,
Secretary, Federal Communications Commission.

2

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Changes in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 522b(e)(2)), notice is hereby given that at its open meeting held at 2:00 p.m. on Monday, March 26, 1984, the Corporation's Board of Directors determined, on motion of Chairman William M. Isaac, seconded by Director Irvine H. Sprague (Appointive), concurred in by Director C. T. Conaver (Comptroller of the

Currency), that Corporation business required the addition to the agenda for consideration at the meeting, on less than seven days' notice to the public, of the following matters:

Application of Maine Savings Bank, Portland, Maine, and insured mutual savings bank, for consent to merge, under its charter and title, with The Savings and Loan Association of Bangor, Bangor, Maine, a non-FDIC insured institution, and for consent to establish the three offices of The Savings and Loan Association of Bangor as branches of the resultant bank.

Recommendations regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 45,977–L—Banco Credito y Ahorro Ponceno, Ponce, Puerto Rico
Case No. 45,983–SR—Indian Springs State Bank, Kansas City, Kansas

Memorandum re: Approval of Funds and Award of Contract for Computer Room Renovation.

Memorandum re: Purchase of Two Additional Floors in Ecker Square.

By the same majority vote, the Board further determined that no earlier notice of these changes in the subject matter of the meeting was practicable.

Dated: March 26, 1984.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

SECURITIES AND EXCHANGE COMMISSION

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94–409, that the Securities and Exchange Commission will hold the following meetings during the week of April 2, 1984, at 450 Fifth Street, NW., Washington, D.C.

A closed meeting will be held on Wednesday, April 4, 1984, at 9:00 a.m. An open meeting will be held on Wednesday, April 4, 1984, at 2:30 p.m. in Room 1C30.

The Commissioners, Counsel to the Commissioners, the Secretary of the Commission, and recording secretaries will attend the closed meeting. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meeting may be considered pursuant to one or more

of the exemptions set forth in 5 U.S.C. 552b(c) (4), (8), (9)(A) and (10) and 17 CFR 200.402(a) (4), (8), (9)(i) and (10).

Chairman Shad and Commissioners Treadway and Cox voted to consider the items listed for the closed meeting in closed session.

The subject matter of the closed meeting scheduled for Wednesday, April 4, 1984, at 9:00 a.m., will be:

Institution of administrative proceedings of an enforcement nature.

Institution and settlement of administrative proceedings of an enforcement nature.

Institution of injunctive action.

Litigation matter.

Consideration of amicus participation.

Opinions.

The subject matter of the open meeting scheduled for Wednesday, April 4, 1984, at 2:30 p.m., will be:

Consideration of whether to issue releases: setting aside, in part, proposed fees of the National Association of Securities Dealers, Inc. ("NASD") as an inappropriate limitation on the Institutional Networks Corporation's access to certain NASD quotation information; expanding the current proceeding to cover quotation information on all securities in the NASDAQ system; and modifying the terms of the interim relief currently in effect;' and approving in part and disapproving in part the NASD's proposed fees. For further information, please contact William W. Uchimoto at (202) 272–2409.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: David Wescoe at (202) 272–2092.

March 23, 1984.

George A. Fitzsimmons,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENTS: (49 FR 9672 March 14, 1984)

STATUS: Open/closed meeting.

PLACE: 450 Fifth Street, NW., Washington, D.C.

DATE PREVIOUSLY ANNOUNCED: Friday, March 9, 1984.

CHANGE IN THE MEETING: Deletion/additional items.

The following items were not considered at an open meeting scheduled for Thursday, March 22, 1984, at 2:30 p.m.

1. Consideration of whether to adopt revised rules under the Public Utility Holding Company Act of 1935 governing the Preservation of Records of registered holding companies and their mutual or subsidiary service companies. For further information, please contact Grant G. Guthrie at (202) 272–7677.

2. Consideration of whether to adopt proposed Rule 205–3, with changes, under the Investment Advisers Act of 1940 to permit registered investment advisers to enter into contracts with certain clients providing for compensation based on a share of capital gains or capital appreciation in the client's account. For further information, please contact Forrest R. Foss at (202) 272–3038.

The following additional item was considered at a closed meeting scheduled for Thursday, March 22, 1984, following the 2:30 p.m. open meeting.

Investigatory matter.

The following additional item will be considered at an open meeting scheduled for Thursday, March 29, 1984, at 10:00 a.m.

Consideration of whether to authorize Consolidated Natural Gas Company, a registered holding company, to adopt antitakeover amendments to its corporate charter and solicit proxies in connection therewith under the Public Utility Holding Company Act of 1935. For further information, please contact James E. Lurie at (202) 272–7648.

Chairman Shad and Commissioners Treadway and Cox determined that Commission business required the above changes and that no earlier notice thereof was possible.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: JoAnn Zuercher at (202) 272–2014.

George A. Fitzsimmons,

Secretary.

SYNTHETIC FUELS CORPORATION

Meeting of the Board of Directors

ENTITY: United States Synthetic Fuels Corporation.

ACTION: Notice of meeting.

SUMMARY: Interested members of the public are invited to attend and observe a meeting of the Board of Directors of the United States Synthetic Fuels Corporation to be held at the time date and place specified below. This public announcement is made pursuant to the open meeting requirements of section 116(f)(1) of the Energy Security Act (9 Stat. 611, 637; 42 U.S.C. 8701, 8712(f)(1) and Section 4 of the Corporation's Policy on Public Access to Board meetings. During the meeting, the Board of Directors will consider a resolution to close a portion of the meeting pursuant to Article II, Section 4 of the Corporation's By-laws, Section 116(f) of the said Act and Sections 4 and 5 of the said policy.

MATTERS TO BE CONSIDERED:

Open session

1. Call to Order (9:30 a.m. EST).
2. Approval of Minutes.
3. Resolution to Close Meeting.

Closed session

4. Consideration of Pending Synthetic Fuel Projects.

A. Tar Sands Projects:
- Hop Kern River Project
- Forest Hill Project
- Kentucky Tar Sand Project
- Chaparrosa Ranch Project
- Enpex Project
- Sunnyside Project

B. Coal (including lignite and peat) Projects:
- First Colony Project
- Cool Water Project
- DOW Syngas Project
- Great Plains Coal Gasification Project
- Louisiana Synthetic Fuels Project
- Arkansas Lignite Conversion Project
- Memphis Project
- Northern Alabama Project
- Northern Peat Energy Project

C. Oil Shale Projects:
- Seep Ridge Project
- Paraho-Ute Project
- Means Oil Shale Project
- Cathedral Bluffs Project
- Union Parachute Creek Phase II

In addition, the Board of Directors will consider such other matters as may be properly brought before the meeting.

TIME AND DATE: 9:30 a.m. (EST), April 5, 1984.

PLACE: U.S. Synthetic Fuels Corporation, 2121 K Street, NW., Room 503, Washington, D.C. 20586.

PERSON TO CONTACT FOR MORE INFORMATION: If you have any questions regarding this meeting, please contact Mr. Owen J. Malone, Assistant Secretary, at (202) 822–6336.

United States Synthetic Fuels Corporation.

Robert W. Gambino,

Group Vice President-Corporate.

March 28, 1984.

federal register

Thursday
March 29, 1984

Part II

National Aeronautics and Space Administration

48 CFR Ch. 18

Implementation of the Federal Acquisition Regulation (FAR); NASA Federal Acquisition Regulation Supplement (NASA/FAR Supplement); Final Rule

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Ch. 18

Implementation of the Federal Acquisition Regulation (FAR); NASA Federal Acquisition Regulation Supplement (NASA/FAR Supplement)

AGENCY: Office of Procurement, Procurement Policy Division, NASA.

ACTION: Final rule.

SUMMARY: At 49 FR 6388 NASA published a Notice of proposed rule making which made available to the public a copy of the NASA FAR Supplement which implements and supplements the Federal Acquisition Regulation (FAR). The deadline for receipt of comments, if any, was set at March 22, 1984. To date, several copies of the Supplement have been distributed, but no comments have been received. NASA desires that its NASA FAR Supplement become effective on the effective date of the FAR which is April 1, 1984. Accordingly, this final rule adopts the initial draft of the NASA FAR Supplement as final.

EFFECTIVE DATE: This rule is effective April 1, 1984.

FOR FURTHER INFORMATION CONTACT: James H. Wilson, Procurement Policy Division (Code HP), Office of Procurement, NASA Headquarters, Washington, D.C. 20546. Telephone (202) 453–2118.

SUPPLEMENTARY INFORMATION: Although the initial draft of the NASA FAR Supplement is adopted as final in order to meet the effective date of the FAR, all comments received as a result of the 49 FR 6388 Notice of proposed rule making will be carefully reviewed and any amendments deemed necessary as a result thereof will be published in the **Federal Register** as amendments to this final rule.

Impact

The Director, Office of Management and Budget (OMB), by memorandum dated October 4, 1982, exempted agency procurement regulations from Executive Order 12291. NASA certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). This rule provides uniformity with other Federal agencies and reduces the administrative impact on bidders as set forth in OFPP Policy Letter 83–2.

List of Subjects in 48 CFR Ch. 18

NASA Federal Acquisition Regulation Supplement, Government procurement.

Authority: The provisions of this document are issued under 42 U.S.C. 2473(c)(1).

S. J. Evans,

Assistant Administrator for Procurement.

Title 48 of the Code of Federal Regulations is amended by establishing Chapter 18 to read as set forth below:

CHAPTER 18—NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

SUBCHAPTER A—GENERAL

Part
1801 Federal Acquisition Regulation System
1802 Definitions of words and terms
1803 Improper business practices and personal conflicts of interest
1804 Administrative matters
1805 Publicizing contract actions

SUBCHAPTER B—ACQUISITION PLANNING

1807 Acquisition planning
1808 Required sources of supplies and services
1809 Contractor qualifications
1810 Specifications, standards, and other purchase descriptions
1812 Contract delivery or performance

SUBCHAPTER C—CONTRACTING METHODS AND CONTRACTING TYPES

1813 Small purchase and other simplified purchase procedures
1814 Formal advertising
1815 Contracting by negotiation
1816 Types of contracts
1817 Special contractor methods

SUBCHAPTER D—SOCIOECONOMIC PROGRAMS

1819 Small business and small disadvantaged business concerns
1822 Application of labor laws to government acquisition
1823 Environment, conservation, and occupational safety
1824 Protection of privacy and freedom of information
1825 Foreign acquisition

SUBCHAPTER E—GENERAL CONTRACTING REQUIREMENTS

1828 Bonds and insurance
1829 Taxes
1830 Cost accounting standards
1831 Contract cost principles and procedures
1832 Contract financing
1833 Disputes and appeals

SUBCHAPTER F—SPECIAL CATEGORIES OF CONTRACTING

1834 Major system acquisition
1835 Research and development contracting
1836 Construction and architect-engineer contracts
1837 Service contracting

SUBCHAPTER G—CONTRACT MANAGEMENT

1842 Contract administration
1843 Contract modifications
1844 Subcontracting policies and procedures
1845 Government property
1846 Quality assurance
1847 Transportation
1848 Value engineering
1849 Termination of contracts
1850 Extraordinary contractual actions
1851 Use of government sources by contractors

SUBCHAPTER H—CLAUSES AND FORMS

1852 Solicitation provisions and contract clauses
1853 Forms

Table of Subchapters, Parts and Subparts

SUBCHAPTER A—GENERAL

Part 1801—Federal Acquisition Regulation System

Subpart
1801.1 Purpose, Authority, Issuance.
1801.2 Administration.
1801.3 Agency Acquisition Regulations.
1801.4 Deviations from the FAR and NASA FAR Supplement.
1801.5 Agency and Public Participation.
1801.6 Contracting Authority and Responsibilities.

Part 1802—Definitions of Words and Terms

1802.1 Definitions.

Part 1803—Improper Business Practices and Personal Conflicts of Interest

1803.1 Safeguards.
1803.2 Contractor Gratuities to Government Personnel.
1803.3 Reports of Identical Bids and Suspected Antitrust Violations.
1803.6 Contracts with Government Employees or Organizations Owned or Controlled by Them.
1803.70 Contracts Between NASA and Former NASA Employees.

Part 1804—Administrative Matters

1804.1 Contract Execution.
1804.2 Contract Distribution.
1804.4 Safeguarding Classified Information Within Industry.
1804.6 Contract Reporting.
1804.8 Contract Files.
1804.70 Transfer of Contracting Office Responsibility.
1804.71 Uniform Acquisition Instrument Identification.
1804.72 Review and Approval of Contractual Instruments.
1804.73 Procurement Request.

Part 1805—Publicizing Contract Actions

1805.1 Dissemination of Information.
1805.2 Synopses of Proposed Contracts.
1805.3 Synopses of Contract Award.
1805.4 Release of Information.
1805.5 Paid Advertisments.

SUBCHAPTER B—ACQUISITION PLANNING

Part 1807—Acquisition Planning

1807.1 Acquisition Plans.
1807.3 Contractor Versus Government Performance.
1807.70 [Reserved]
1807.71 Master Buy Plan Procedure.

Part 1808—Required Sources of Supplies and Services

1808.1 Excess Personal Property.
1808.3 Acquisition of Utility Services.
1808.4 Ordering From Federal Supply Schedules.
1808.6 Ordering From Federal Prison Industries, Inc.
1808.7 Acquisition From the Blind and Other Severely Handicapped.
1808.8 Acquisition of Printing and Related Supplies.
1808.11 Leasing of Motor Vehicles.

Part 1809—Contractor Qualifications

1809.1 Responsible Prospective Contractors.
1809.2 Qualified Products.
1809.4 Debarment, Suspension, and Ineligibility.
1809.5 Organizational Conflicts of Interest.

Part 1810—Specifications, Standards, and Other Purchase Descriptions

Part 1812—Contract Delivery or Performance

1812.1 Delivery or Performance Schedules.
1812.2 Liquidated Damages.
1812.3 Priorities, Allocations, and Allotments.
1812.5 Suspension of Work, Stop-Work Orders, and Government Delay of Work.

SUBCHAPTER C—CONTRACTING METHODS AND CONTRACTING TYPES

Part 1813—Small Purchase and Other Simplified Purchase Procedures

1813.1 General.
1813.2 Blanket Purchase Agreements.
1813.3 Fast Payment Procedure.
1813.4 Imprest Fund.
1813.5 Purchase Orders.
1813.70 Procurement Request Overlay Method.

Part 1814—Formal Advertising

1814.2 Solicitation of Bids.
1814.4 Opening of Bids and Award of Contract.
1814.5 Two-Step Formal Advertising.

Part 1815—Contracting by Negotiation

1815.1 General Requirements for Negotiation.
1815.2 Negotiation Authorities.
1815.3 Determinations and Findings to Justify Negotiations.
1815.4 Solicitation and Recepit of Proposals and Quotations.
1815.5 Unsolicitated Proposal.
1815.6 Source Selection.
1815.7 Make-or-Buy Programs.
1815.8 Price Negotiation.
1815.9 Profit.
1815.10 Preaward and Postaward Notifications, Protests, and Mistakes.

Part 1816—Types of Contracts

1816.2 Fixed-Price Contracts.
1816.3 Cost-Reimbursement Contracts.
1816.4 Incentive Contracts.
1816.5 Indefinite-Delivery Contracts.
1816.6 Time-and-Materials, Labor-Hour, and Letter Contracts.
1816.7 Agreements.

Part 1817—Special Contractor Methods

1817.1 Multiyear Contracting.
1817.2 Options.
1817.4 Leader Company Contracting.
1817.5 Interagency Acquisition Under the Economy Act.
1817.70 Procurement With Military Departments.

SUBCHAPTER D—SOCIOECONOMIC PROGRAMS

Part 1819—Small Business and Small Disadvantaged Business Concerns

1819.1 Terms and Size Standards.
1819.2 Policies.
1819.3 Determination of Status as a Small Business Concern.
1819.4 Cooperation with the Small Business Administration.
1819.5 Set-Asides for Small Business.
1819.6 Certificates of Competency and Determinations of Eligibility.
1819.7 Subcontracting with Small Business and Small Disadvantaged Business Concerns.
1819.8 Contracting with the Small Business Administration (The (a) Program).

Part 1822—Application of Labor Laws to Government Acquisition

1822.1 Basic Labor Policies.
1822.6 Walsh-Healey Public Contracts Act.
1822.8 Equal Employment Opportunity.
1822.10 Service Contract Act of 1965.
1822.11 Professional Employee Compensation.
1822.13 Special Disabled and Vietnam Era Veterans.
1822.70 Nondiscrimination—Government Lease.

Part 1823—Environment, Conservation, and Occupational Safety

1823.1 Pollution Control and Clean Air and Water.
1823.3 Hazardous Material Identification and Material Safety Data.
1823.70 Safety and Health.
1823.71 Frequency Authorization.

Part 1824—Protection of Privacy and Freedom of Information

1824.1 Protection of Individual Privacy.

Part 1825—Foreign Acquisition

1825.1 Buy American Act—Supplies.
1825.2 Buy American Act—Construction Materials.

Subpart 1801.3—Agency Acquisition Regulations

1801.301 Policy.
1801.301–70 Field installation instructions and implementation of the NASA FAR Supplement.
1801.303 Codification and public participation.
1801.303–70 Assignment of numbers.

Subpart 1801.4—Deviations From the FAR and NASA FAR Supplement

1801.400 Scope of subpart.
1801.401 Definition.
1801.402 Policy.
1801.403 Individual deviations.
1801.404 Class deviations.
1801.405 Deviations pertaining to treaties and executive agreements.
1801.470 Modification to existing contracts for new procurement.
1801.471 Procedure for requesting deviations.

Subpart 1801.5—Agency and Public Participation

1801.570 Publicizing the development of NASA procurement policies, regulations, procedures, and forms.

Subpart 1801.6—Contracting Authority and Responsibilities

1801.601 General.
1801.603 Selection, appointment, and termination of appointment.
1801.603–1 General.
1801.603–4 Termination.

Authority: 42 U.S.C. 2473(c)(1).

1801.000 Scope of part.

This part sets forth basic policies and general information about the National Aeronautics and Space Administration (NASA) Federal Acquisition Regulation (FAR) Supplement including purpose, authority, applicability, issuance, arrangement, numbering, dissemination, implementation, supplementation, maintenance, administration, and deviation.

Subpart 1801.1—Purpose, Authority, Issuance

1801.101 Purpose.

(a) The NASA FAR Supplement establishes agency-wide uniform policies and procedures that implement and supplement the FAR.

1801.102 Authority.

(a) The Assistant Administrator for Procurement has been delegated authority to prepare, issue, and maintain the NASA FAR Supplement, by the Administrator under the authority of:

(1) The National Aeronautics and Space Act of 1958, as amended (Pub. L. 85–568; 42 U.S.C. 2451 et seq.);

(2) 10 U.S.C. Chapter 137;

(3) Other statutory authority; and

(4) FAR Subpart 1.3.

1801.103 Applicability.

(a) The NASA FAR Supplement applies to all acquisitions as defined in FAR Part 2 except where expressly excluded in the FAR or this supplement.

1801.104 Issuance.

1801.104–1 Publication and code arrangement.

(a) The NASA FAR Supplement is published in:

(1) The daily issue of the Federal Register;

(2) Cumulated form in the Code of Federal Regulations (CFR); and

(3) A separate loose-leaf edition adaptable for either interleaving with the FAR or filing separately.

(b) The NASA FAR Supplement is issued as Chapter 18 of Title 48 CFR and parallels the FAR in format, arrangement, and numbering system. Thus, a formal citation to this paragraph would appear as 48 CFR 1801.104–1(b).

1801.104–2 Arrangement of regulations.

(a) *General.* The NASA FAR Supplement conforms with the arrangment and numbering system prescribed by FAR 1.104. The numbering illustrations at FAR 1.104–2(b) are equally applicable to the NASA FAR Supplement; however, users are reminded that in the loose-leaf edition of the supplement, NASA's assigned CFR Chapter number 18 will appear to the left of the applicable part number separated by a dash, e.g., 1815.402–1.

(b) *Numbering.* (1) All coverage in the NASA FAR Supplement that is unique to NASA will use Part, Subpart, Section, and Subsection numbers 70 through 89 (see 1801.303–70):

(i) Part 1870 is the first part number NASA can use for adding coverage that neither implements or supplements the FAR; i.e., there is no appropriate subject heading within the 53 parts of the FAR under which the coverage could be located.

(ii) Subpart 1815.70 is the first subpart number NASA can use to supplement FAR Part 15.

(iii) Section 1815.470 is the first number NASA can use to supplement FAR Subpart 15.4.

(iv) Subsection 1815.402–70 is the first number NASA can use to supplement FAR 15.402.

(v) Subsection 1815.402–170 is the first number NASA can use to supplement FAR 15.402–1.

(2) All coverage in the NASA FAR Supplement other than that identified

with a 70 or higher number, as described in (a)(1) above, implements the FAR and will bear the identical number and title of the FAR segment being implemented down to the subsection level, e.g., 1815.402–1 implements FAR 15.402–1. Below this level (paragraph, subparagraph (see FAR 1.104–2(b)(2))), no attempt is made to correlate NASA FAR Supplement alphanumerics with FAR alphanumerics.

(c) *References and citations.* (1) Unless otherwise stated, cross references indicate parts, subparts, sections, subsections, paragraphs, subparagraphs, or subdivisions of this Regulation.

(2) This Regulation may be referred to as the National Aeronautics and Space Administration Federal Acquisition Regulation Supplement, the NASA FAR Supplement, or for the purposes of brevity the NFS. This subparagraph would normally be cited as the NASA FAR Supplement 1801.104–2(c)(2) but within this regulation it will be cited as 1801.104–2(c)(2).

(d) *Provisions and clauses.* See FAR Subpart 52.1 and Subpart 1852.1 for information regarding the numbering and dating of provisions and clauses.

1801.104–3 Copies.

Copies of the NASA FAR Supplement in **Federal Register**, loose-leaf, and CFR form may be purchased from the Superintendent of Documents, U.S. Government Printing Office (GPO), Washington, DC 20402.

1801.104–370 Dissemination of this Regulation, revisions and procurement notices.

(a) The NASA FAR Supplement and NASA FAR Supplement Directives (NFSD's) (see 1801.270), will be distributed directly to NASA Headquarters and installations by the U.S. Government Printing Office. The number of copies of the regulation, and revisions thereof, will be distributed on the basis of the requirements furnished by each Headquarters office and NASA field installation, to the Office of Procurement, NASA Headquarters (Code HP–1). Procurement Notices will be distributed by the Procurement Policy Division, Office of Procurement, NASA Headquarters. Both NFSD's and Procurement Notices which revise this Regulation will be published in the **Federal Register.**

(b) Heads of field installations will ensure that copies of the NASA FAR Supplement and revisions thereto are distributed to all interested activities and individuals within their installation. Code HP–1 is responsible for distribution to Headquarters offices.

(c) Subscriptions to the NASA FAR Supplement including applicable NFSD's and PN's, may be purchased by private concerns and individuals from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

Subpart 1801.2—Administration

1801.270 Amendment of regulation.

This Regulation will be amended from time to time to set forth improved procedures which reduce contract preparation time, simplify and standardize contract forms, and improve the contracting process. Acquisition personnel are encouraged to submit suggestions, based on operating experience, for improving and simplifying the procedures set forth in this Regulation. Such suggestions should be submitted through the Procurement Officer to the Office of Procurement, NASA Headquarters (Code HP–1).

1801.270–1 Revisions.

This Regulation will be amended by issuance of NASA FAR Supplement Directives (NFSD's) containing loose-leaf replacement pages which revise Parts, Subparts, or paragraphs. Also see 1801.270–2 below. Each replacement page will bear, at the top, the NFSD number and page number. A vertical bar at the beginning or end of a line indicates that a change has been made within that line.

1801.270–2 Procurement notices.

(a) Procurement Notices (PN's) shall also be published as often as may be necessary or advisable under any of the following circumstances:

(1) To promulgate as rapidly as possible selected material revising this Regulation, in a general or narrative manner, in advance of a specific page replacement type revision to this Regulation.

(2) To disseminate material applicable to procurement which is not suitable for insertion in this Regulation but which may have the effect of a directive to, or be of importance and interest to its recipients.

(3) When the policy and/or procedure is expected to be effective for a period of 1 year or less.

(b) Unless otherwise indicated, each item in a Procurement Notice will remain in effect until the effective date of that subsequent NASA FAR Supplement revision which incorporates the item, or until specifically cancelled.

1801.270–3 Effective date.

(a) Statements in NASA FAR Supplement Directives and Procurement Notices to the effect that the material published therein is "effective upon receipt" or upon a specified date, or that changes set forth in the Directive or Notice are "to be used upon receipt," mean that any new or revised clauses or forms included in the Directive or Notice shall be included in invitations for bids and requests for proposals issued thereafter, unless a different meaning is expressed in the Directive or Notice. However, unless otherwise provided, the new revised clauses or forms need not be included in solicitations already in process of preparation where their inclusion would cause an undue delay in the solicitation.

(b) Compliance with a revision to this Regulation shall be in accordance with the NFSD or PN which contains the revision. Procurements initiated after receipt of new or revised clauses should, to the maximum practicable extent, include such clauses.

(c) Unless otherwise stated, invitations for bids which have been issued and bilateral agreements upon which negotiations have been completed prior to the receipt of new or revised contract clauses need not be amended to include the new or revised clauses if such amendment would unduly delay the procurement action.

1801.270–4 Numbering.

NASA FAR Supplement Directives and Procurement Notices will be numbered consecutively on a calendar year basis beginning with number 1 prefixed by the last two digits of the calendar year, e.g., 84–1; 84–2; 84–3, etc.

Subpart 1801.3—Agency Acquisition Regulations

1801.301 Policy.

All agency-wide policies and procedures that govern the contracting (see FAR Subpart 2.1) process or otherwise, control contracting relationships shall be incorporated in the NASA FAR Supplement.

1801.302–70 Field installation instructions and implementation of the NASA FAR Supplement.

Heads of NASA field installations may implement the FAR and NASA FAR Supplement by prescribing for their installation detailed procurement operating instructions, delegations of authority, and assignment of responsibilities which they deem essential for the efficient performance of their procurement function. Such instructions shall comply with FAR 1.302, FAR Subpart 1.4, and Subpart 1801.4.

1801.303 Codification and public participation.

1801.303-70 Assignment of numbers.

(a) Part, Subpart, Section, and Subsection numbers 1 through 69 are reserved for FAR use.

(b) Part, Subpart, Section, and Subsection numbers 70 through 89 are reserved for NASA FAR Supplement use.

(c) Part, Subpart, Section, and Subsection numbers 90 and up are reserved for use by NASA contracting offices.

Subpart 1801.4—Deviations From the FAR and NASA FAR Supplement

1801.400 Scope of subpart.

This subpart prescribes the policies and procedures for authorizing deviations from the NASA FAR Supplement and for the internal processing of FAR deviation requests under FAR Subpart 1.4.

1801.401 Definition.

"Deviation" means—

(a) "Deviation" as defined at FAR 1.401; and/or

(b) Any one or combination of the following:

(1) The issuance or use of a policy, procedure, solicitation provision (see definition in FAR 52.101(a)), contract clause (see definition in FAR 52.101(a)), method, or practice of conducting acquisition actions of any kind at any stage of the acquisition process that is inconsistent with the NASA FAR Supplement.

(2) The omission of any solicitation provision or contract clause when its prescription requires its use.

(3) The use of any solicitation provision or contract clause with modified or alternate language that is not authorized by the NASA FAR Supplement (see definitions of "modification" and "alternate" in FAR 52.101(a)).

(4) The use of a solicitation provision or contract clause prescribed by the NASA FAR Supplement on a "substantially as follows" or "substantially the same as" basis (see definitions in FAR 52.101(a)), if such use is inconsistent with the intent, principle, or substance of the prescription or related coverage on the subject matter in the supplement.

(5) The authorization of lesser or greater limitations on the use of any solicitation provision, contract clause, policy, or procedure prescribed by the NASA FAR Supplement.

(6) The issuance of agency-wide policies or procedures that govern the contracting process or otherwise control contracting relationships that are not incorporated into the NASA FAR Supplement in accordance with FAR 1.301(a) and 1801.301.

1801.402 Policy.

Unless precluded by law, executive order, or regulation, deviations from the NASA FAR Supplement may be granted as specified in this subpart. See FAR Part 53 and Part 1853 regarding exceptions to forms prescribed therein.

1801.403 Individual deviations.

Individual deviations affect only one contracting action and unless FAR 1.405(e) is applicable, may be authorized only by the Assistant Administrator for Procurement or a designee. See 1801.471 regarding request for deviations.

1801.404 Class deviations.

Class deviations affect more than one contracting action. When it is known that a class deviation will be required on a permanent basis, the contracting office should propose an appropriate NASA FAR Supplement revision to cover the matter. Only the Assistant Administrator for Procurement or a designee may approve class deviations. See 1801.471 regarding request for deviations.

1801.405 Deviations pertaining to treaties and executive agreements.

Deviations to the NASA FAR Supplement pertaining to treaties or executive agreements will be processed under the procedures in FAR 1.404 except that deviations not authorized by FAR 1.104 (b) or (c) will be requested under 1801.471.

1801.470 Modification to existing contracts for new procurement.

When an existing contract is modified to add new procurement, approval of the deviations previously granted for the existing contract must be obtained for the modification as though the modification were a new contract. New procurement for the purpose of this section shall be considered any action which requires the citation of an authority to negotiate. An information copy of each request for deviation shall be furnished to the cognizant Associate Administrator.

1801.471 Procedure for requesting deviations.

(a) Requests for authority to deviate from the provisions of this Regulation and other procurement publications shall be submitted to the Office of Procurement, NASA Headquarters (Code HP–1). Such requests shall be signed by the Procurement Officer, or in his absence, the duly appointed Acting Procurement Officer. Such requests shall be submitted as far in advance as the exigencies of the situation will permit.

(b) Each request for a deviation shall contain as a minimum—

(1) Identification of the NASA FAR Supplement requirement from which a deviation is sought;

(2) A full description of the deviation and the circumstances in which it will be used;

(3) A description of the intended effect of the deviation;

(4) A statement as to whether the deviation has been requested previously, and, if so, circumstances of the previous request;

(5) The name of the contractor and identification of the contract affected, including the dollar value;

(6) Detailed reasons supporting the request, including any pertinent background information which will contribute to a fuller understanding of the deviation sought; and

(7) A copy of the counsel's concurrence or comments thereon.

Subpart 1801.5—Agency and Public Participation

1801.570 Publicizing the development of NASA procurement policies, regulations, procedures, and forms.

The views of all interested parties including Government agencies, private organizations and associations, business firms, educational institutions, and individuals will be solicited and considered in the development or amendment of any NASA procurement policy, regulation, procedure, or form. The views of interested parties shall be solicited in accordance with OFPP Policy Letter No. 83–2, dated May 25, 1983.

Subpart 1801.6—Contracting Authority and Responsibilities

1801.601 General.

At NASA, the authority and responsibility to contract for authorized supplies and services are delegated to the Assistant Administrator for Procurement by NMI 5101.8, Delegation of Authority—To Take Actions in Procurement and Related Matters (Assistant Administrator for Procurement), and the authority and responsibility to act in certain circumstances is redelegated to various NASA officials by NMI 5101.24 (Delegation of Authority—To Take Actions in Procurement, Grants, Cooperative Agreements, and Related Matters (various officials).

1801.603 Selection, appointment, and termination of appointment.

1801.603-1 General.

In addition to the requirements and criteria of FAR 1.603, selection, appointment, and termination of appointment of NASA contracting officers shall comply with NASA Procurement Notice 81-32, The NASA Contracting Officer Warrant Program, dated February 1, 1982.

1801.603-4 Termination.

When a letter is required to terminate the appointment of a contracting officer, the letter should read substantially as follows:

Date _____
To: (Name, grade and position title)
From: (Appointing Authority)
Subject: Termination of Appointment as Contracting Officer, Certificate of Appointment, Serial No. ———.
Your appointment as Contracting Officer contained in the subject Certificate is hereby terminated effective ———, 19—.
(Signature and Title) _____

PART 1802—DEFINITIONS OF WORDS AND TERMS

Sec.
1802.000 Scope of part.

Subpart 1802.1—Definitions

1802.100 Definitions.

Authority: 42 U.S.C. 2473(c)(1).

1802.000 Scope of part.

Definitions of commonly used words and terms are in FAR Subpart 2.1. This part amplifies many of the FAR definitions and also includes definitions of other words and terms commonly used in the NASA acquisition process.

Subpart 1802.1—Definitions

1802.100 Definitions.

As used throughout this regulation the following words and terms are used as defined in this subpart unless (a) the context in which they are used clearly requires a different meaning or (b) a different definition is prescribed for a particular part or portion of a part.

"Administrator" means the Administrator or Deputy Administrator of NASA.

"Announcement of opportunity" means a competitive solicitation for proposals, issued pursuant to NASA Handbook (NHB) 8030.6A, "Guidelines for Acquisition of Investigations."

"Assistant Administrator for Procurement" means the Assistant Administrator for Procurement, Office of Procurement, NASA Headquarters (Code H).

"Contracting activity" in NASA includes each "installation" as defined herein.

"Contracting office" within NASA is synonymous with the previously used term "procurement office."

"Defense agencies" as used in the FAR and this regulation, includes NASA unless NASA is specifically excluded.

"Field installation" means Ames Research Center, Goddard Space Flight Center, John F. Kennedy Space Center, Langley Research Center, Lewis Research Center, Johnson Space Center, George C. Marshall Space Flight Center, National Space Technology Laboratories, and any other field installation hereafter established by NASA.

"Head of the agency" in NASA means the Administrator or Deputy Administrator of NASA.

"Head of the contracting activity" in NASA this term includes the Director (or other Head) of a NASA field installation; and the Director, Headquarters Administration Division (Code NH-6), NASA Headquarters.

"Installation" means NASA Headquarters and field installations and is synonymous with the term "contracting activity."

"Procurement" as used in this Regulation is interchangeable with the term acquisition, as defined in FAR Subpart 2.1.

"Procurement Officer" as used in this Regulation refers to the chief of the contracting office, as defined in FAR Subpart 2.1.

PART 1803—IMPROPER BUSINESS PRACTICES AND PERSONAL CONFLICTS OF INTEREST

Subpart 1803.1—Safeguards

Sec.
1803.101 Standard of conduct.
1803.101-1 General.
1803.101-2 Solicitation and acceptance of gratuities by Government personnel.

Subpart 1803.2—Contractor Gratuities to Government Personnel

1803.203 Reporting suspected violations of the gratuities clause.

Subpart 1803.3—Reports of Identical Bids and Suspected Antitrust Violations

1803.03 Reporting suspected antitrust violations.

Subpart 1803.6—Contracts with Government Employees or Organizations Owned or Controlled by Them

1803.602 Exceptions.

Subpart 1803.70—Contracts Between NASA and Former NASA Employees

1803.7001 Policy.
1803.7002 Solicitation provision.

Authority. 42 U.S.C. 2473(c)(1)

Subpart 1803.1—Safeguards

1803.101 Standards of conduct.

1803.101-1 General.

(a) A number of Federal statutes prohibit certain acts by Government personnel and special Government employees as defined in 18 U.S.C. 202 in relation to procurement activities of the Government. Among these statutes are the following: (1) 18 U.S.C. 201 relating to bribes in order to secure a Government contract; (2) 18 U.S.C. 203 relating to compensation for services rendered in connection with any proceeding or claim in which the United States has an interest; (3) 18 U.S.C. 205 relating to acting as an agent or attorney for prosecuting any claim against the United States; (4) 18 U.S.C. 208 relating to transacting business as an officer or agent of the United States with firms of which the officer or agent, spouse, minor child, or partner is an official or in which the officer or agent has a pecuniary interest; and (5) 18 U.S.C. 209 relating to compensation from non-Government sources in connection with Government services.

(b) The statutory prohibitions, and their application to NASA personnel, are discussed in NHB 1900.1B, Standards of Conduct for NASA Employees, and NHB 1900.2A, Standards of Conduct for NASA Special Government Employees. All NASA personnel involved in procurement actions shall become familiar with these statutory prohibitions. Any questions concerning them shall be referred to legal counsel. In addition to criminal penalties, the statutes provide that transactions entered into in violation of these prohibitions are voidable (18 U.S.C. 218). (See Subpart 1803.70 for policy on contracting with former NASA employees.)

1803.101-2 Solicitation and acceptance of gratuities by Government personnel.

Any suspected violations shall be reported promptly to the Installation Office of Inspector General (see NMI 3711.6B, Employee-Communications Channels).

Subpart 1803.2—Contractor Gratuities to Government Personnel

1803.203 Reporting suspected violations of the Gratuities clause.

Any suspected violations of the clause at FAR 52.203-3, Gratuities, shall be reported to the Installation Office of Inspector General (see NMI 3711.6B).

Subpart 1803.3—Reports of Identical Bids and Suspected Antitrust Violations

1803.303 Reporting suspected antitrust violations.

(a) When bids or proposals are received and, in the opinion of the contracting officer, are indicative of possible antitrust violations, the contracting officer shall report such circumstances to the General Counsel, NASA Headquarters, through the Office of Procurement (Code HP–1). Reports of such bids or proposals should not be submitted automatically, but only when there is some reason to believe that those bids or proposal may not have been arrived at independently. Such reports shall be submitted with conformed copies of bids or proposals, contract documents, and other supporting data, and shall set forth:

(1) The noncompetitive pattern or situation under consideration;

(2) Purchase experience in the same product or service for a reasonable period of time (one or more years) prior to the receipt of the bids or proposals under consideration, including unit and total contract price and abstracts of bids;

(3) Community of financial interest among bidders, insofar as it is known;

(4) The extent, if any, to which specification requirements or patents restrict competition;

(5) Information which may be available with respect to the pricing system employed in bids or proposals believed to reflect noncompetitive practices; and

(6) Any other information considered pertinent.

(b) Evidence of noncompetitive bid practices that, in the opinion of the General Counsel, NASA Headquarters, may violate the antitrust laws shall be forwarded to the Attorney General of the United States (see FAR 3.303).

Subpart 1803.6—Contracts With Government Employees or Organizations Owned or Controlled by Them

1803.602 Exceptions.

The Administrator has delegated to the Assistant Administrator for Procurement (Code H) the authority to authorize an exception to the policy in FAR 3.601 (see NMI 5101.8, Delegation of Authority—To Take Actions in Procurement and Related Matters (Assistant Administrator for Procurement)).

Subpart 1803.70—Contracts Between NASA and Former NASA Employees

1803.7001 Policy.

(a) It is NASA policy that contracts will not normally be placed on a noncompetitive basis with any individual who was employed by NASA during the past 2 years, or with any firm in which such a former employee is a partner, principal officer, majority shareholder, or which is otherwise controlled or predominantly staffed by such former employees, unless it is determined to be in the best interest of the Government to do so (see 1815.670(c)).

(b) Where it has been determined that it is appropriate to contract with an individual or a firm described in paragraph (a) above, the approval authority for the Justification for Noncompetitive Procurement (JNCP) shall be one level higher than that prescribed in 1815.670(d) (1), (2), and (3).

(c) If an individual or firm described in paragraph (a) above is involved in a competitive procurement, precautions must be taken to ensure that such individual or firm, per se, is not accorded preferential treatment. In the event such individual or firm is the successful offeror, the contract file shall include a separate document which fully explains the safeguards used to ensure fair treatment of all offerors under the procurement.

(d) Nothing in this subpart shall be construed as relieving former employees from obligations prescribed by law, such as 18 U.S.C. 207, Disqualification of Former Officers and Employees.

(e) The policy set forth in paragraph (a) above shall also be considered when reviewing subcontracts for the purpose of granting consent under NASA prime contracts (see FAR 44.202–2(a)(7)).

1803.7002 Solicitation provision.

The contracting officer shall insert the provision at 1852.203–70, Contracts Between NASA and Former NASA Employees, in all solicitations.

PART 1804—ADMINISTRATIVE MATTERS

Subpart 1804.1—Contract Execution

Sec.

1804.101 Contracting officer's signature.
1804.103 Contract clause.

Subpart 1804.2—Contract Distribution

1804.202 Agency distribution requirements.

Subpart 1804.4—Safeguarding Classified Information Within Industry

1804.402 General.

Subpart 1804.6—NASA Contract Reporting

1804.670 General.
1804.671 Individual Procurement Action Report (NASA Form 507).
1804.671–1 Applicability and coverage.
1804.671–2 Contractual records.
1804.671–3 Submission due date.
1804.671–4 Preparation of Individual Procurement Action Report (NASA Form 507).
1804.671–5 Limited preparation of NASA Form 507.
1804.671–6 Special procurement placement codes (PPC) for certain procurements under $10,000 (no NASA Form 507 required).
1804.672 Report on NASA subcontracts.
1804.672–1 NASA contract clause.
1804.673 Individual contract report for contracts exceeding $150,000 for purchase of supplies and equipment.
1804.673–1 General.
1804.673–2 Applicability and coverage.
1804.673–3 Definition.
1804.673–4 Submission of reports.
1804.674 Subcontracting report.
1804.675 NASA financial management reporting.
1804.675–1 NASA contract clauses.
1804.676 Committee on Academic Science and Engineering (C.A.S.E.) report.

Subpart 1804.8—Contract Files

1804.802 Contract files.
1804.802–70 Handling of classified materials.
1804.802–71 Use of standard file folders for drawer and shelf filing.
1804.802–72 Filing of documents.
1804.802–73 Arrangement of files.
1804.803 Contents of contract files.
1804.803–70 Separate files.
1804.804 Closeout of contract files.
1804.804–2 Closeout of the contracting office files if another office administers the contract.
1804.804–5 Detailed procedures for closing out contract files.
1804.805 Disposal of contract files.
1804.805–70 Review, separation, and retirement of contract files.

Subpart 1804.70—Transfer of Contracting Office Responsibility

1804.7000 Scope of subpart.
1804.7001 Definition.
1804.7002 Restrictions.
1804.7003 Preparatory actions.
1804.7004 Coordinating actions by the contracting officer of the installation transferring the contract.
1804.7005 Inventory of current requests for contract administration assistance.
1804.7006 Transfer review.
1804.7007 Notification to the contractor.
1804.7008 Notification to other agencies.
1804.7009 Administrative actions.
1804.7010 Transfer.
1804.7011 Final action by the contracting officer transferring the contract.
1804.7012 Action by the contracting officer receiving the contract.

Subpart 1804.71—Uniform Acquisition Instrument Identification

1804.7100 Scope of subpart.
1804.7101 Policy.

1804.7102 Invitations for bids, requests for proposals, contracts, agreements, and modifications.
1804.7102–1 Identification of invitations for bids and requests for proposals.
1804.7102–2 Contracts and agreements requiring numbering.
1804.7102–3 Assignment and control of numbers.
1804.7102–4 Assigned contract or agreement prefixes.
1804.7102–5 Serial numbers.
1804.7102–6 Modifications of contracts or agreements.
1804.7102–7 Letter contracts.
1804.7103 Purchase orders and requests.
1804.7103–1 General.
1804.7103–2 Assigned purchase order or request prefixes.
1804.7103–3 Serial numbers.

Subpart 1804.72—Review and Approval of Contractual Instruments

1804.7200 Scope of subpart.
1804.7201 Contract review function.
1804.7202 Research contracts with colleges and universities.
1804.7203 Advance information.
1804.7204 Review by the contracting officer.
1804.7205 Information to be furnished when requesting approval of contracts and supplemental agreements.
1804.7206 Conditional approval of contracts and supplemental agreements.

Subpart 1804.73—Procurement Request

1804.7301 General.

Authority: 42 U.S.C. 2473(c)(1).

Subpart 1804.1—Contract Execution

1804.101 Contracting officer's signature.

In the case of negotiated contracts, the contracting officer shall sign after the contractor, except where otherwise required by the particular contract form or by the circumstances of the acquisition.

1804.103 Contract clause.

See Subpart 1804.72, Review and Approval of Contractual Instruments.

Subpart 1804.2—Contract Distribution

1804.202 Agency distribution requirements.

In addition to the requirements in FAR 4.201 contracts shall be distributed as follows:

(a) For research or research and development projects one copy of the contract plus a copy of the contractor's technical proposal, if any, will be furnished to the Scientific and Technical Information Office, Code NIT–40, NASA Headquarters.

(b) On contracts with educational institutions, further distribution of contractual documents shall be made in accordance with paragraph (c) below.

(c) On all contracts and modifications requiring approval of the Assistant Administrator for Procurement, one executed copy will be retained by the Office of Procurement, NASA Headquarters.

(d) Upon approval (or disapproval) of the proposed contract or modification the Assistant Administrator for Procurement will forward the original and two executed copies of the contract or modification together with the contract file to the Procurement Officer or other official as deemed appropriate.

Subpart 1804.4—Safeguarding Classified Information Within Industry

1804.402 General.

NASA industrial security policies and procedures are prescribed in NASA Management Instruction 1650.1, Industrial Security Policies and Procedures and performed by the Department of Defense (see 18042.202–70(d)).

Subpart 1804.6—NASA Contract Reporting

1804.670 General.

This Subpart prescribes uniform reports which are required to be prepared by contracting and contract administration offices in order to provide management with necessary information to help formulate, change or measure the effectiveness of procurement policy.

1804.671 Individual Procurement Action Report (NASA Form 507).

The Individual Procurement Action Report (NASA Form 507) is designed to provide essential procurement records and statistics through a single uniform reporting program as a basis for required recurring and special reports to the President, the Congress, the Department of Labor, Office of Federal Procurement Policy, Federal Procurement Data Center, the Federal Emergency Management Agency, the General Accounting Office, the Small Business Administration, and other Federal agencies. The preparation and utilization of NASA Form 507 has been made an integral part of the Agency-wide Financial and Contractual Status (FACS) System.

1804.671–1 Applicability and coverage.

The levels at which procurements are individually reportable and require an NF 507 are as follows:

(a) Initial basic procurement.

(1) All contracts (procurements) regardless of dollar obligation amount.

(2) All grants and cooperative agreements and Space Act agreements.

(3) All intragovernmental procurements and purchase orders when the *initial* obligation is $10,000 or more.

(4) All delivery orders for ordering supplies and services of $10,000 or more.

(5) All contracts and purchase orders for consulting services.

(Note.—All other purchase orders under $10,000 are *not* reportable.)

(b) Modifications of procurements that are individually reportable and require NASA Form 507.

(1) Modifications of $10,000 and over.

(2) Modifications which change the estimated cost and/or fee by $10,000 or more; and modifications which extend the completion date by three months or more beyond the date previously reported.

(3) Modifications and modifications which change procurement statistics previously reported.

1804.671–2 Contractual records.

For the purpose of these instructions, the words "contractual records" are used as a generic term for all reportable procurements which include contracts, grants, cooperative agreements, Space Act Agreements and intragovernmental awards. The NASA Form 507 or installation equivalent constitutes the source of data for contractual records with the exception of the obligations, which are obtained from the financial records.

1804.671–3 Submission due date.

The FACS report will be submitted monthly as of the last day of the month to arrive in NASA Headquarters not later than the close of business on the 8th work day following the month being reported. It is suggested that "Procurement" establish an agreement with "Finance" on a cut-off date for processing contractual documents to insure that the same contracts are included in the monthly Procurement and Financial submission.

1804.671–4 Preparation of Individual Procurement Action Report (NASA Form 507).

An individual Procurement Action Report (NASA Form 507) shall be prepared and submitted to Headquarters for each procurement action that meets the reportable criteria described in 1804.671–1 above. Detailed item instructions for the preparation of NASA Form 507 are listed below and correspond to the item numbers shown on the NF 507. Position numbers indicated after each item are the number of characters required in reporting the data element.

(a) *Item 1—Type of record* (1 position). Enter *N* to indicate new initial basic procurement and/or modification procurement that are individually reportable. Enter *C* to indicate a correction to an error on a previously

reportable basic and/or modification procurement.

(b) *Item 2—Contract/grant/purchase order number* (11 positions including blanks). Enter the specific contract, grant, cooperative agreement, Space Act Agreement or purchase order number for which the data are reported. This item contains eleven digits. The first five digits represent the prefix field and the last six digits are used to serially number each contract. If a serial number does not fill out the entire field, leave those digit positions blank in lieu of zeros. For utility contract/purchase order numbers enter an alpha letter in the last position of the serial number. The alpha letter will indicate the fiscal year the service was provided.

(c) *Contract numbering scheme.* (1) The method of numbering contracts and purchase orders is set forth in 1804.71 (*e.g.*, NAS9–14000, NAS10–9080, NASW–2080).

(2) The method of numbering grants is set forth in the NASA Grant and Cooperative Agreement Handbook, NHB 5800.1B paragraph 306 (e.g., NAGW–1).

UTILITY CONTRACTS/PURCHASE ORDERS SERIAL NUMBER SCHEME

Last digit alpha letter	Fiscal years
Z	1980; 1990; etc.
Y	1979; 1989; etc.
X	1978; 1988; etc.
W	1987; 1997; etc.
V	1986; 1996; etc.
U	1985; 1995; etc.
T	1984; 1994; etc.
S	1983; 1993; etc.
R	1982; 1992; etc.
Q	1981; 1991; etc.

(d) *Item 3—Modification number* (3 positions). Enter the supplementary procurement contractual identification code and serial number assigned to the modification action; e.g., S01, M02, A03, etc. The codes currently used are as follows:

Identification Codes

A for *Amendment*
C for *Change Orders*
D for *Delivery Orders*
K for *Call Orders*
L for *Letter Contracts*
M for *Modifications*
N for *Change Notice*
O for *Task Orders*
S for *Supplemental Agreement*

(e) *Item 4—Accounting installation number* (2 positions). Enter a numeric code which identifies the installation currently responsible for maintaining the fiscal records. The following is a list of installations and their assigned codes:

Code and Installations

10 NASA Headquarters
15 Mission Analysis Division
21 Ames Research Center
22 Lewis Research Center
23 Langley Research Center
24 Hugh L. Dryden Flight Research Facility
51 Goddard Space Flight Center
55 NASA Resident Procurement Office—JPL
57 KSC Western Test Range
62 George C. Marshall Space Flight Center
64 National Space Technology Laboratories
72 Lyndon B. Johnson Space Center
70 John F. Kennedy Space Center

(f) *Item 5—Procuring installation number* (2 positions). Enter a numeric code which identifies the installation responsible for the procurement. The following is a list of installations and their assigned codes:

Code and Installations

02 Headquarters Support Division
04 Headquarters Contracts & Grants Division
21 Ames Research Center
22 Lewis Research Center
23 Langley Research Center
24 Hugh L. Dryden Flight Research Facility
51 Goddard Space Flight Center
53 Wallops Flight Center
54 NASA Resident Procurement Office—JPL
62 George C. Marshall Space Flight Center
64 National Space Technology Laboratories
72 Lyndon B. Johnson Space Center
76 John F. Kennedy Space Center

(g) *Item 6—Other agency order number* (15 positions). Enter on this line the Federal agency contract number for orders under contracts awarded by other Federal agencies *(i.e., GSA Federal Supply Schedule, Government Printing Office, etc.)* FPDS will match this number with the initiating agencies procurement statistical data submission.

(h) *Item 7—Contractor identification code (CIC)* (7 positions). This code will be obtained from the publication "NASA Contractor Identification Code." It identifies the procurement in terms of the contractor's name, contractor's division (if any), contractor's address, and contract place of performance. A unique code is assigned for each different combination of the aforementioned items. For combinations not listed in the coding publication, a telephone call will be made to the Office of Procurement, NASA Headquarters (Code HM–1) which will immediately assign a code and, where abbreviations are necessary, the applicable English. The new code will be listed in the next issue of the coding publication.

(i) *Item 8—Contractor's name* (not to exceed 29 positions, including spaces). Enter the name of the contractor. (For editing purposes, the first five characters of the name must be identical to those shown in the publication "NASA Identification Codes" issued quarterly by the Office of Procurement, NASA Headquarters (Code HM–1). For Intragovernmental actions, enter the name of the Department (US Army, US Navy, US Commerce, etc.) and on Item 9 (Contractor Division), the name of the cognizant procuring activity (bureau, command, technical service, etc.). If the activity is a single manager agency, enter the name of the agency.

(j) *Item 9—Contractor's division* (20 positions). Enter the name of the contractor's division if one is named in the contractual instrument. (For editing purposes, the first five characters of the division name must be identical to those shown in the publication "NASA Contractor Identification Codes" issued quarterly by the Office of Procurement, NASA Headquarters (Code HM–1).

(k) *Item 10—Contractor's address—city and State.* Enter city and State of contractor's address as stated in contractual instrument.

(l) *Items 11 and 12—Place of performance* (city—24 positions; State—2 positions, Zip Code—5 positions). Enter the location (city and State) of the principal plant or place of business where the items will be produced or supplied from stock or where the service will be performed. (For editing purposes, the first 3 characters of the city name must be identical to those shown in the publication "NASA Contractor Identification Code.") For construction contracts, enter the site of construction. If more than one location is involved, enter the principal place of performance. In those cases involving intragovernmental actions where the place of performance is unknown, enter the address of the cognizant Government agency. Enter the Zip Code in Item 12.

(m) *Item 13—Contract date/modification date* (6 positions).

(1) *Contract Date*—Enter the year, month and day (two numerics each) shown on the face of the contract. With respect to preliminary contractual instruments, enter the date of commitment to the contractor. This date will be shown as the date of the contract when it is definitized.

(2) *Modification Date*—When reporting a modification, enter in item 13 the year, month and day (two numerics each) shown on the face of the modification being reported.

(n) *Item 14—Completion date* (6 positions). Enter the year, month, and day (two numerics each), either specified or estimated, when all work on the contract and modifications thereto are scheduled for completion. If the date is not determined, enter D in the first position. This date may or may not change as modifications to the contract are issued.

(o) *Item 15—Procurement placement code* (2 positions). Enter a 2-position alpha code which identifies the type of contractor, the extent of competition on the procurement, and the negotiation authority. Refer to the procurement placement code (PPC) matrix (see Supplement 70, Subpart 1). This code relates to the contract in its entirety and can be changed only by a correction.

(1) All procurement awards under $10,000 to "Disadvantaged Business Firms-Direct" shall be reported with a second letter "M" of the procurement placement code, *e.g.*, BM, KM, etc.

(2) All procurement awards under $10,000 to "Women-Owned Firms" shall be coded with a second letter "W" of the procurement placement code, *e.g.*, BW, KW, etc.

(p) *Item 16—Kind of Action.* Enter a 2-numeric code which identifies in general terms the kind of procurement and the action taken to initiate the procurement or modification thereto. Following is a list of codes to be used:

New Contracts

01 *New letter contract*—Enter this code when a new letter contract has been executed.

02 *Definitive contract superseding letter contract*—Self explanatory.

03 *Definitive Contract*—Enter this code for new procurements (except when codes 04, 05, 06 or 21 are applicable) when the first binding document contains all the terms and conditions of the agreement.

04 *Order under contract (BOA's, indefinite delivery order, Federal supply schedule)*—Enter this code when reporting against indefinite delivery type contracts or basic ordering agreements, GSA Federal Supply Schedule contracts, utility contracts, production lists, job orders, task orders, and the like when firm obligations are created by the issuance of such documents.

05 *Intragovernmental*—Enter this code for orders issued to other Federal agencies.

06 *Grants*—Enter this code for new grants.

21 *Cooperative agreement and space act agreement*—Enter this code for new cooperative agreements and Space Act Agreements.

Modifications to Existing Contracts

07 *Additional work*—Enter this code for reporting modifications to existing contracts which add new procurement. New procurement for the purpose of this report shall be a modification action which usually requires the preparation of a Determination and Findings (D&F) to justify the use of authority to negotiate.

08 *Supplemental agreement*—Use this code for reporting bilateral, definitized modifications except those covered in code 10.

09 *Change order*—Enter this code for reporting change orders issued pursuant to the "Changes" clause of the contract.

10 *S/A Definitizing change order*—Enter this code when definitizing change orders.

11 *Administrative*—Enter this code when reporting unilateral modifications and administrative type changes such as incremental funding modifications and novation agreements.

12 *Termination for default*—Enter this code when reporting a termination for default.

13 *Termination for convenience*—Enter this code when reporting a termination for convenience.

(q) *Item 17—Type of contractor* (2 positions).

Business

01 *Section 8(a)—disadvantaged*—Enter this code when the award is placed through the Small Business Administration to a minority business firm which is owned and controlled by socially and economically disadvantaged individuals in accordance with Section 8(a) of the Small Business Act.

02 *Reserved.*

03 *Disadvantaged direct*—Enter this code when the award is placed directly with a disadvantaged business firm.

04 *Other business*—Enter this code when the award is not placed with a minority business firm.

Nonprofit Institutions

05 *Educational*—Enter this code when the award is placed with an educational institution *not* State/Federal-owned.

06 *Hospital*—Enter this code when the award is placed with a hospital *not* State, Federal or local government-owned.

07 *Research foundations/laboratories*—Enter this code when the award is placed with a research foundation or research laboratory *not* State, Federal or local government-owned.

08 *Other nonprofit*—Enter this code when the award is placed with a nonprofit institution or organization which is a corporation, foundation, trust, or institution not organized for profit, no part of its net earnings is applied to the profit of any private shareholder or individual.

State/Local Government

09 *Educational*—Enter this code when the award is placed with a State/Federal-owned educational institution. (Privately owned educational institutions will be coded 05.)

10 *Hospital*—Enter this code when the award is placed with a State, Federal or local government-owned hospital. (Privately owned hospitals will be coded 06.)

11 *Research organization*—Enter this code when the award is placed with a State, Federal or local government-owned research organization.

12 *Other State/local government*—Enter this code when the award is placed with other State or local government organizations.

(r) *Item 18—Type of contract* (2 positions).

(1) Enter a 2-digit code which identifies the type of contract in accordance with the provisions of the basic contract. The following codes are to be used:

01 Firm Fixed-Price (see FAR 16.202). (Also use this code for purchases under GSA Federal Supply Schedule contracts.)

02 Fixed-Price—Redetermination (see FAR 16.205).

03 Fixed-Price—With Economic Price Adjustment (see FAR 16.203).

04 Fixed-Price—Incentive (see FAR 16.204).

05 Cost-No Fee (see FAR 16.302).

06 Cost Sharing (see FAR 16.303). (The estimated cost reported will include *only* the Government's share.)

07 Cost-Plus-Fixed-Fee (see FAR 16.306).

08 Cost-Plus-Incentive-Fee (see FAR 16.304).

09 Time and Materials (see FAR 16.601).

10 Labor-Hour (see FAR 16.602).

11 Retroactive Price Redetermination (see FAR 16.206).

12 Cost-Plus-Award-Fee (see FAR 16.305).

(2) Combination contract types will be reported as follows:

(i) Where the contract has one type of incentive arrangement applying to cost performance and another to technical and/or schedule performance, report the contract type assigned to the cost incentive feature. For example, a contract providing a cost-plus-incentive-fee arrangement on cost, and an award fee arrangement on technical and/or schedule performance, will be reported as a code *08—Cost-Plus-Incentive-Fee.*

(ii) Where one or more items of work are priced exclusively under one of the arrangements coded above, with one or more additional items priced exclusively under another such arrangement, report the contract type in accordance with the code assigned to the predominate arrangement based on dollars.

(s) *Item 19—Labor surplus area* (1 position) (See PRD 78–10).

N *Awards not in a labor surplus area*—Enter this code if the award was not made to a labor surplus area concern.

1 *Labor surplus area—no preference*—Enter this code if the procurement was awarded to a concern in a labor surplus area, but no set-aside preference was involved.

2 *Labor surplus area—tie bid preference*—Enter this code if the procurement was awarded to a concern in a labor surplus area or an area/concern individually certified by the Department of Labor and tie bid preference was given.

3 *Total labor surplus/small business set-asides preference*—Enter this code when reporting an award resulting from a combined total labor surplus area and small business set-aside.

4 *Total labor surplus set-aside preference*—Enter this code if the procurment was awarded to a labor surplus area concern, as a result of a set-aside preference.

(t) *Item 20—Subject to statutory requirements* (1 position). Code in accordance with the provisions of the contract as follows:

N Not subject to statutory requirements listed below.

1 Subject to Walsh-Healey Act, Manufacturer (see FAR 22.606–1).

2 Subject to Walsh-Healey Act, Regular Dealer (see FAR 22.606–2).

3 Subject to Service Contract Act (see FAR Subpart 22.10).

4 Subject to Davis-Bacon Act (see FAR 22.403–1).

(u) *Item 21—Extent of Competition* (1 position).

Advertised

1 *Two-step*—Enter this code for procurement which resulted from acceptance of a bid made by a supplier in response to formal advertisement for bids following request for an evaluation of technical proposals. (see FAR 14.503.)

2 *Other advertised*—Enter this code for procurement which resulted from acceptance of a bid made by a supplier in response to formal advertisement for bids. (see FAR 14.101.)

Competitively Negotiated

3 *Source evaluation board*—Enter this code where offers were received from at least two responsive offerors capable of satisfying the Government's requirements wholly or partially, where the awards were made on the basis of price, design, or technical competition and where Source Evaluation Board procedures were used to evaluate the proposals (see FAR 15.506–2). This code will also be entered where Architect-Engineer Selection Board procedures were used (see FAR 36.603–2).

4 *No source evaluation board*—Enter this code where offers were received from at least two responsive offerors capable of satisfying the Government's requirements wholly or partially, where the awards were made on the basis of price, design, or technical competition, and where Source Evaluation Board procedures were not used to evaluate the proposals.

Noncompetitively Negotiated

5 *Follow-on after competition*—Enter this code when the award means a new procurement placed with a particular contractor to continue or augment a specific NASA program where such placement was necessitated by prior procurement decisions, e.g., contracts with a particular contractor for continuation of research and development in the same program, contracts for support equipment and spare parts from contractor furnishing original equipment. This code will be used *only* when the contractor was selected initially on the basis of competitive negotiation. Follow-on contracts where the contractor was selected initially on the basis of noncompetitive negotiation will be reported as negotiated noncompetitive (code 6).

6 *Other noncompetitive negotiated*—Enter this code where an offer was received from only one responsive offeror capable of satisfying the Government's requirements wholly or partially and where the work involved is not a follow-on procurement reportable under item 5 above. A single source procurement is one in which there was only one responsive reply to a competitive solicitation.

7 *Unsolicited proposal*—Enter this code to identify procurements resulting from a written offer to perform work which does not result from a formal written request for proposals issued by NASA (see FAR 15.501). A negotiated noncompetitive procurement placement code will be used when reporting unsolicited proposals.

(v) *Item 22—Reason for not selecting small business* (2 positions). When an award is made to a large business firm, this code is used to identify the reason the award was not made to a small business firm. If the reason for not awarding the contract to a small business firm is other than one of the codes listed, then use the appropriate "Other" code. If more than one reason is involved, indicate the dominant one. For purchases under Federal Supply Service contracts, use code 04 if no small business firm is listed in the GSA Schedule; however, if a small business firm is listed, use code 10. This code relates to the procurement in its entirety and can be changed only by a correction.

(w) *Item 23—Type of service or product* (4 positions). Enter the code which indicates the principal type of effort or end item that is obtained under the contract. If more than one classification is applicable to the procurement, enter the one accounting for the largest dollar volume of procurement. Codes have been established to identify R&D procurements, service contracts and supply and equipment contracts.

(1) *Research and Development (R&D) Procurement*—R&D codes are used for the following:

(i) All contracts negotiated under authority 10 U.S.C. 2304(a)(11), Experimental, Developmental, or Research work;

(ii) Most, but not all, contracts negotiated under 10 U.S.C. 2304(a)(5), Services of Educational Institutions;

(iii) All contracts funded by R&D appropriations; and

(iv) All contracts for research and development work, even though not authorized under 10 U.S.C. 2304(a)(11) or (5), or funded by R&D appropriations.

(2) If the procurement involves space research and development, enter one of the following codes:

R&D Code and Type of R&D Procurement

AR1 * Aeronautics & Space Technology
AR2 * Space Science and Applications
AR3 * Space Transportation Systems
AR4 * Tracking and Data Acquisition
AR9 * Other Space R&D

*See paragraph (w)(3)(ii) below.

(3)(i) If the procurement involves other than space research and development, enter the applicable code from the FPDS Product and Service Coding Manual or NASA FAR Supplement 70, Subpart 2.

(ii) For the fourth digit of the code use "0" or one of the following "stages of R&D":

Code and Meaning

1 Research
2 Exploratory Development
3 Advanced Development
4 Engineering Development
5 Operational Systems Development
6 Management and Support
7 Commercialization

Note.—For definitions of "stage of R&D" see FPDS Product and Service Coding Manual or 1804.6727(d).

(4) *Other services.* Enter one of the service codes listed in Supplement 70, Subpart 2, which identifies the principal type of services and construction procured under the contract. (Do *not* use these codes for R&D services and procurement of supplies and equipment.)

(5) *Supply and equipment contracts.* For contracts for off-the-shelf supplies and equipment, enter one of the codes listed in Supplement 70, Subpart 2, to identify the principal item of supply or equipment procured under the contract.

(x) *Item 24—Proposed procurement synopsized* (1 position). Enter Y (yes) or N (no) to indicate whether the procurement was synopsized in the Department of Commerce publication "Synopsis of U.S. Government Proposed Procurement, Sales, and Contract Awards" (see FAR 5.201).

(y) *Item 25—Contract administration delegated* (1 position). Enter Y (yes) or N (no) to indicate whether any contract administration functions have been delegated to another Government agency (see FAR Subpart 42.2).

(z) *Item 26—Consultant type contract* (1 position). Enter Y (yes) or N (no) to indicate whether the contract is for consulting services. For the definition of consulting services (see FAR 37.201).

(aa) *Item 27—Support Services Type Contract* (1 position). Enter Y (yes) or N (no) to indicate whether the contract is for support services.

(1) *In-house contractor support:*

(i) Provides a service to the installation, and

(ii) Is performed on or near the installation, and

(iii) Is continuous in nature, and

(iv) Is not provided by prime product development contractor when the work is for the purpose of fulfilling the prime contract, and

(v) Is characterized as: that support necessary due to the on or near site population and activated facilities (housekeeping M and O function), and

the effort necessary to support the research, development or test efforts the installation performs in-house; and

(vi) Excludes:

(A) Construction, alteration and repair contractor;

(B) Purchase and incidental services;

(C) Prime product development contractor;

(D) Operations support contractors; and

(E) Tenants.

(2) *Operations support contractors.* Contractors whose work is performed on or near site due to the location of major operations facilities. (This is the effort associated with carrying out mission operations and is done on-site because that is where the captured facility is—a launch pad or Mission Control Center or a tracking station.)

(i) Restricted to major national operations facilities and foreign and domestic tracking network stations:

(A) JPL-Mission Control Center (DSN)

(B) Goldstone

(C) Mesa Antenna Range

(D) JSC-Mission Control Center (MSF)

(E) GSFC-Mission Control Center (STDN)

(F) World-Wide Network Tracking Stations

(G) OTDA-Operations Funded Support

(H) KSC-Launch Complex 39 and related support facilities;

(ii) That support funded by STS operations at MSFC, KSC, and JSC;

(iii) Tracking operations support contractors are subdivided as on-site (at or near GSFC or JPL) and as off-site.

(3) *Purchased and/or incidental services.*

(i) Purchased services (described in terms of funds only) are:

(A) Delivery orders against Federal supply schedules;

(B) Purchase orders;

(C) Blanket purchase agreements; or

(D) Basic ordering agreements not exceeding $10K per order.

(ii) Incidental services are:

(a) Described in terms of manpower required to perform the services;

(b) Procured from vendors who provide similar services to the local community;

(c) Vendor provides all or a substantial amount of the capital investment required to perform the work under the contract;

(d) Includes small contracts generally not exceeding four to five man-years per annum.

(bb) *Item 28—Cost accounting standards clause* (1 position). Enter Y (yes) or N (no) to indicate whether the contract contains the clause "Cost Accounting Standards" (see FAR 30.303-2).

(cc) *Item 29—New technology clause* (1 position). Enter Y (yes) or N (no) to indicate whether a long form or short form "New Technology" clause is included in the contract or the "Patent (Small Business Firms and Nonprofit Organizations)" clause (See FAR 27.302-4). For purchases under Federal Supply Schedule contracts, enter N (no).

(dd) *Item 30—Report on small business subcontracting program* (1 position). Enter Y (yes) or N (no) to indicate whether the contract contains the clause requiring the contractor to furnish the information prescribed on Standard Forms 294 and 295 (see 1804.6749).

(ee) *Item 31—Report on geographical distribution of NASA subcontracts* (1 position). Enter Y (yes) or N (no) to indicate whether the contract contains the clause requiring the contractor to furnish the information prescribed on NASA Form 667 (see 1805.6750).

(ff) *Item 32—Affirmative action plan* (1 position). Enter Y (yes) or N (no) to indicate whether the business concern certified that an affirmative action plan has been developed and is on file. Only contractors with 50 or more employees and receiving awards of $50,000 or more are required to develop a plan (see FAR 22.804).

(gg) *Item 33—Previously held contract subject to affirmative action program requirements* (1 position). Enter Y (yes) or N (no) to indicate whether the business concern certified that there has been a previous contract(s) subject to Affirmative Action Program requirements of the rules and regulations of the Secretary of Labor. (Refer to Standard Form 33) (see FAR 22.810).

(hh) *Item 34—Contract Physically Complete* (1 position). Enter Y (yes) or N (no) when the contract becomes physically complete, i.e., after all articles and services called for under the contract including such related items as reports, spare parts, and exhibits have been delivered to and accepted by the Government.

(ii) *Item 35—Modification obligations* (1 position). Enter the modification increase or decrease of $10,000 or more. Round the entry to the nearest dollar.

(jj) *Item 36—Women-owned business* (1 position). Enter Y (yes) or N (no) to indicate whether the business concern is women-owned. Enter 1 to indicate that the business firm did not certify as women-owned.

(2) *Women-owned business*—A women-owned business is a business that is at least 51 percent owned, controlled and operated by a woman or group of women. Controlled is defined as exercising the power to make policy decisions. Operated is defined as actively involved in the day-to-day management. For the purposes of this definition, businesses that are publicly owned, joint stock associations and business trusts are exempted. Exempted businesses may voluntarily represent that they are or are not women-owned if this information is available.

(kk) *Item 37—Management reporting requirements (MRR): correlated cost and performance data reporting* (1 position). Enter one of the following codes (see NHB 9501.2A):

N None Required
2 NF 533M only
3 NF 533M and 533Q
4 NF 533M and 533P
5 NF 533P and 533Q
6 NF 533M, 533P and 533Q

(ll) *Item 38—Management reporting requirements (MRR): property and space hardware reporting* (1 position). Enter one of the following codes (see FAR 45.505-11): (Not required on grants)

N None Required
2 NF 1018 without Space Hardware
3 NF 1018 with Space Hardware

(mm) *Item 39—Trade data.* (1) Enter *one* numeric (0-9) to indicate the number of firms that offered foreign end products. Entry required regardless of whether Buy American Act is invoked or not. If none enter *0.* If 9 more enter *9.*

(2) *Percent difference* (2 positions)—If the evaluation factor under Buy American Act is used and results in an award to a firm offering a domestic product, enter the percent difference between the award price and the low firm offering a foreign end product, computed before application of the Buy American Act differential, i.e., the difference divided by the price of the low firm offering a foreign end product. Enter percentage as a whole number. If the evaluation factor under Buy American is not used, enter *0 0.*

(3) *Country of manufacturer* (2 positions)—If the product is manufactured, mined or grown in a foreign country or U.S. outlying area, enter the code from NBS-LO-1067 of that country/area. In the case of a service—if the service is performed by a foreign contractor (including U.S. outlying area contractor)—enter the code from NBS-10-1967 of that, country/area. If the product is manufactured, mined or grown in the U.S.A. (the 50 States and the District of Columbia), or the service is performed by a U.S. contractor, leave this item blank.

(4) *Percent Foreign Content* (2 positions)—Enter the percent of the

contract award price that represents the foreign content of the items or services procured. If none, enter *0 0*. If percent is 99 or 100, enter *9 9*. This information is required only from the successful offeror and regardless of whether the Buy American Act is invoked.

(nn) *Item 40—Total price or estimated cost* (11 positions). (1) Enter the total estimated price or cost for all contracts. For cost-reimbursement type contracts, enter the estimated total allowable cost, exclusive of fee, as prescribed in the contract (see FAR Subpart 16.3). For incentive contracts, enter the target cost exclusive of target profit or fee. For all other contracts, enter the definitized estimate of total cost exclusive of profit or fee.

(2) On *modifications*, enter the total cumulative, definitized estimated cost and *not* merely the increase or decrease effected by the respective modification. (The initially reported estimated cost will be overlaid by modification data.) Round all entries to the nearest whole dollar.

(00) *Item 41—Total profit or fee* (11 positions). (1) Enter the definitized negotiated fee or profit when applicable or available. For incentive contracts, enter the target fee or target profit. For award fee contracts, enter the base fee or potential award fee.

(2) On *modifications*, enter the total cumulative, definitized fee and *not* merely the increase or decrease effected by the respective modification. (The initially reported fee will be overlaid by modification data). Round all entries to the nearest whole dollar.

(pp) *Item 42—Description of contract/modification.* (1) Enter a brief description of the end item or services being procured. For modifications, enter a brief description of the purpose.

(2) *Prepared By.* Type name and/or signature of contracting officer or representative responsible for data being reported.

(3) *Date.* Enter the date report was prepared.

1804.671–5 Limited preparation of NASA Form 507.

For procurement actions listed below, the data to be reported will be *limited* as follows:

(a) *Intragovernmental basic procurement.* The following items will be completed (all other items will be blank):

1. Type of Record
2. Contract/PO Number
4. Accounting Installation Number
5. Procuring Installation Number
7. CIC Number
8. Contractor Name
9. Contractor Division (when applicable)
10. Contractor Address
11. Place of Performance—City
12. Place of Performance—State and Zip
13. Contract Date
14. Completion Date
15. Procurement Placement Code (98)
16. Kind of Action (05)
23. Type of Service or Product
34. Contract Physically Complete (when applicable).
40. Total Price or Estimated Cost
42. Description of Contract

(b) *Grants, cooperative agreements and space act agreements.* The following items will be completed (all other items will be blank):

1. Type of Record
2. Grant/Cooperative agreement/Space Act Agreement Number
4. Accounting Installation Number
5. Procuring Installation Number
7. CIC Number
8. Contractor Name
9. Contractor Division (when applicable)
10. Contractor Address
11. Place of Performance—City
12. Place of Performance—State and Zip
13. Contract Date
14. Completion Date
15. Procurement Place Code (ST, WT, SX, WX, SW, or WW)
16. Kind of Action (06 or 21)
17. Type of Contractor (05–12)
19. Labor Surplus Area (N or 1)
21. Extent of Competition (6 or 7)
23. Type of Service or Product

(c) *Reportable modification.* Only the following items need to be completed.

1. Type of Record
2. Contract/Grant/PO Number
3. Modification Number
4. Accounting Installation Number
5. Procuring Installation Number
13. Modification Date
14. Completion Date (when applicable)
16. Kind of Action (07–13)
18. Type of Contract (when applicable)
28. Cost Accounting Standards Clause (when applicable)
30. Report on Small Business Subcontracting Program (when applicable)
31. Report on Geographical Distribution of NASA Subcontracts (when applicable)
34. Contract Physically Complete (when applicable)
35. Modification Obligations (when applicable)
37. MRR: Cost and Performance Reporting (when applicable)
38. MRR: Property and Space Hardware Reporting (when applicable)
40. Total Price or Estimated Cost (when applicable)
41. Total Profit or Fee (when applicable)
42. Description of Modification

(d) *Corrections.* Only the following items need to be completed:

1. Type of Record
2. Contract/Grant/P.O. Number
3. Modification Number (when applicable)
4. Accounting Installation Number
5. Procuring Installation Number
6. Contract Physically Complete

Plus items to be corrected. If an item needs to be corrected to a blank enter an asterisk.

1804.671–6 Special procurement placement codes (PPC) for certain procurements under $10,000 (no NASA Form 507 required).

(a) The accounting copies on all procurements under $10,000 to Disadvantaged Business Firms—Direct shall be coded with a second letter M of the PPC, *e.g.*, BM, KM, etc. (See PPC matrix in Supplement 70, Subpart 1.)

(b) The accounting copies on all procurements under $10,000 to "Women-Owned Business Firms" shall be coded with a second letter W of the PPC, *e.g.*, BW, KW, etc. (See PPC matrix in Supplement 70, Subpart 1.)

1804.672 Report on NASA subcontracts.

NASA Form 667 will be used to obtain information relating to the geographic distribution of subcontracts awarded under certain NASA contracts.

1804.672–1 NASA contract clause.

The clause at 1852.204–70 shall be inserted in all NASA contracts of $500,000 or more and in all contracts where a modification increases the amount of a contract to $500,000 or more. In the latter instance, the clause will be inserted at the time of the applicable modification but will not be retroactive so as to require the reporting of subcontracts award prior to such modification.

1804.673 Individual contract report for contracts exceeding $150,000 for purchase of supplies and equipment.

1804.673–1 General.

This paragraph establishes procurement data reporting requirements to comply with the Trade Agreement Act of 1979 mandated by section 2 of Pub. L. 96–39. The Office of Federal Procurement Policy, Office of Management and Budget Policy Letter 80–8, dated December 11, 1980, formally established the reporting requirements, disseminated reporting instructions, and designated the Federal Procurement Data Center (FPDC) to collect the data.

1804.673–2 Applicability and coverage.

(a) The levels at which procurement data are to be reported and an "Individual Contract Report for Contracts Exceeding $150,000 for the Purchase of Supplies and Equipment" report to be completed are as follows:

(b) The data requirements are applicable to all contract actions made with appropriated or nonappropriated funds for "supplies and equipment" where the total dollars obligated is more

than $150,000. An Individual Contract Report for Contracts Exceeding $150,000 for the Purchase of Supplies and Equipment shall be prepared and submitted for each reportable contract action in accordance with the following instructions:

(1) A contract which obligated more than $150,000.

(2) Indefinite quantity type contract or basic ordering agreement that may result in the obligations during the fiscal year which accumulate to more than $150,000.

(3) A modification that obligated more than $150,000.

(4) A modification of $10,000 or more to a basic contract that obligated more than $150,000.

(5) Termination of contract that was previously reported.

(6) When a single solicitation results in two or more contracts for the same product and the total amount of the multiple contracts exceed $150,000.

1804.673–3 Definition.

For the purpose of reporting, a reportable contract action means any action that obligates or deobligates funds and is taken to obtain supplies or equipment from sources outside the Federal Government.

1804.673–4 Submission of reports.

The contracting officers or their representatives shall complete an "Individual Contract Report for Contracts Exceeding $150,000 for the Purchase of Supplies and Equipment" for all contract actions made with appropriated or nonappropriated funds for supplies and equipment where the total dollars obligated is more than $150,000 and submit the report to NASA Headquarters, Procurement Management Division (Code HM–1). NASA Headquarters (Code HM–1) will accumulate the reports and submit an Agency consolidated report quarterly to the Federal Procurement Data Center.

1804.674 Subcontracting report.

Standard Forms 294, Subcontracting Report for Individual Contracts, and 295, Summary Subcontract Report, will be used to obtain data to provide a basis for evaluating the effectiveness and extent of subcontracting programs involving small and small disadvantaged business concerns pursuant to the Small Business Act of 1958, as amended by Pub. L. 95–507.

1804.675 NASA financial management reporting.

When financial management reporting on NASA Form 533 series of reports is required (see NASA Management Instruction 9501.2A "Procedures for Contractor Reporting of Correlated Cost and Performance Data") such requirement will be set forth in the procurement request, and the appropriate clauses prescribed at 1804.675–1 shall be included in the contract.

1804.675–1 NASA contract clauses.

(a) The clause at 1852.204–71 shall be used when the NASA Form 533 series of reports, excluding the optional Monthly Contractor Financial Management Performance Analysis Report (NASA Form 533P), is required from the contractor.

(b) The clause at 1852.204–72 shall be used in conjunction with the clause in subparagraph (a) above when the optional Monthly Performance Analysis Report is also required from the contractor.

1804.676 Committee on Academic Science and Engineering (C.A.S.E.) Report.

The Committee on Academic Science and Engineering (C.A.S.E.) Report on College and University projects (NASA Form 1356) is designed to collect data (not appropriate for inclusion on NASA Form 507) required for preparation of Government-wide reports on sponsored projects in universities. Information submitted with NASA Form 1356 is used in conjunction with existing procurement and financial data to produce reports required by the National Science Foundation Act, the Office of Management and Budget, the Legislative Branch and private sector requestors. The preparation and utilization of NASA Form 1356 has been made an integral part of the information system for recording all activity with colleges and universities, regardless of the nature of the obligating instrument (grant, contract, cooperative agreement, purchase order) or type of proposal (solicited or unsolicited). Preparation of the form is specified by NMI 5101.12. Detailed instructions for completion are on the form itself.

Subpart 1804.8—Contract Files

1804.802 Contract files.

The cognizant NASA contracting office will be responsible for maintaining the contract administration file where the contract administration functions have not been delegated under FAR Subpart 42.1.

1804.802–70 Handling of classified material.

When the bulk of the material is unclassified, classified material relating to the same contract shall be maintained in a separate file folder and container, and the unclassified folder marked or cross-referenced to indicate the location of the classified material. The front and back of each folder containing classified material shall be marked with the highest classification assigned to any of the documents in the folder.

1804.802–71 Use of standard file folders for drawer and shelf filing.

(a) For all short duration contracts and for small purchase files, standard letter-size folders should be used. For complex long-duration high-dollar value contracts, heavy individual or 6-part partitioned folders, with front and back flaps, two dividers, expansion gussets between flaps and dividers, and fasteners mounted at the top of the insides of the flaps and on each side of the dividers, may be used.

(b) Loose dividers (file inserts), pre-punched at the top of fastening documents, may be used for subdividing material within the same folder when special folders are not used.

1804.802–72 Filing of documents.

(a) Documents relating to a specific contract and described in FAR 4.803 (a), (b) and (c) should normally be placed in chronological order in an "OFFICIAL FILE" folder or folders. Each folder shall be marked or labeled with the contract number and, when more than one folder is required for the same contract, with information as to the file segment. Other identifying data, such as the contractor's name, should be added only when needed to facilitate filing and locating.

(1) A separate folder need not be established for each subcontract, small purchase, or small dollar value contract, on which little or no administration is required; these should be filed in numerical sequence within the same folder.

(2) When a single folder is used, basic procurement documents and all modifications ordinarily should be filed on the left side of the folder and all other material on the right side. As volume warrants, a contract file may be subdivided further, either within the folder or by using additional folders, as appropriate (e.g., by pre-contract documents, basic contract, contract modifications, termination documents, quality assurance and progressing and production surveillance, property administration and plant clearance, termination documents, and general correspondence).

(3) When it is impractical to file certain documents in the official case folder because of their bulk or use, they may be maintained separately in other suitable containers, but they shall be handled as "OFFICIAL FILES" and

cross-referenced in the contract case file.

(4) Documents relating to two or more contracts may be filed in one contract file and cross-referenced in the others, or enough copies reproduced to provide for filing one in each related contract file. Other pertinent documents of a more general nature may be filed separately in the contractor general file and cross-referenced in the contract file.

(b) Documents described in FAR 4.801(c)(3) and relating generally to the contractor rather than to a specific contract shall be placed in a folder labeled with the contractor's name. When necessary, additional folders may be used and the material subdivided by subject such as general, production, termination, property control, and performance.

1804.802-73 Arrangement of files.

(a) Contract file folders normally should be arranged numerically by contract serial number. When special circumstances warrant, contract folders may be arranged alphabetically by contractor's name.

(b) Contractor general file folders shall be arranged alphabetically by name of the contractor.

1804.803 Contents of contract files.

1804.803-70 Separate files.

Records regarding quality assurance or property actions shall be maintained in separate folders to facilitate possible early disposal of these files.

1804.804 Closeout of contract files.

1804.804-2 Closeout of the contracting office files if another office administers the contract.

(a) Upon receipt of the contract completion statement (NASA Form 1611) from the contract administration office, and compliance with FAR 4.804-2(b), the contracting officer shall complete Item 10 of the NASA Form 1611.

(b) The date in Item 9d of NASA Form 1611, Contract Completion Statement, shall be used as the closeout date for file purposes, except that the date in Item 10e of NASA Form 1611 shall be used when completion of any pending significant contracting office action extends more than three months beyond the date shown in Item 9d of NASA Form 1611.

1804.804-5 Detailed procedures for closing out contract files.

(a) When the contracting office retains contract administration it shall use as necessary NASA Form 1612, Contract Closeout Checklist, and DD Form 1593, Contract Administration Completion Record, to ensure that the applicable actions enumerated at FAR 4.804-5(a) are completed.

(b) Upon completion of paragraph (a) above the contracting officer shall use NASA Form 1611, Contract Completion Statement, (this will satisfy the requirements of FAR 4.804-5(b)) for all contracts exceeding $10,000. For contracts $10,000 and under, the contracting officer shall file a signed statement that all contract actions are complete.

1804.805 Disposal of contract files.

See NHB 1441.1A, NASA Records Disposition Handbook.

1804.805-70 Review, separation, and retirement of contract files.

(a) *Review of contract case and cross reference locator files.* Upon determination of contract completion under the procedures outlined in 1804.804, each office shall review all files pertaining to the individual contract as follows:

(1) *Duplicate or working contract case file*—remove any original or official file copies of documents and place them in the appropriate official file; destroy immediately any remaining material, or segregate and mark it for early disposal.

(2) *Official contract case file*—remove folder for completed contract from the active file series, mark each folder or folder tab "Completed (Date)" and place folder in completed (inactive) contract file series; separate series should be established for contracts of $10,000 or less and for contracts of more than $10,000, to facilitate later disposal.

(3) *Cross reference/locator files*—remove any contract cross-reference data forms relating to the completed contracts, mark each "Completed (Date)", and place them in completed (inactive) cross-reference/locator file series for later disposal.

(b) *Review of contractor general files.* Each office shall review contractor general files at least once annually and—

(1) Remove obsolete and superseded documents relating generally to the contractor (e.g., documents no longer pertinent to any aspect of contractor's current or future capability, performance, or programs, and documents relating to a contractor who is no longer a possible source of supplies, services, or technical assistance) and dispose as authorized in 1804.805; and

(2) Remove any documents pertaining only to completed contracts, place those not routine in nature in inactive contract file for later disposal, and immediately dispose of routine documents as authorized in NHB 1441.1A.

Subpart 1804.70—Transfer of Contracting Office Responsibility

1804.7000 Scope of subpart.

This subpart contains policies and procedures applicable to the transfer of contracts between NASA installations.

1804.7001 Definition.

"Transfer of a contract," as used in this subpart means that process whereby a contract and all future responsibility for the contract held by one installation is transferred or reassigned in writing, to another installation.

1804.7002 Restrictions.

(a) Requests for permission to transfer a contract to another NASA installation, when deemed advisable by the Director of the installation, shall be addressed to the appropriate official-in-charge of a Headquarters program office or the designated program director after concurrence from the recipient installation director.

(b) Contracts shall not be transferred by an installation until approved by the cognizant official-in-charge of the Headquarters program office or designated program director and the concurrence of the recipient installation director. The concurrence of the Associate Administrator for Management Operations is also required for a transfer where an installation's roles and missions may be affected.

(c) An information copy of the memorandum consummating each transfer shall be sent to the Director, Institutional Operations Division, Management Operations Office.

1804.7003 Preparatory actions.

The Procurement Officer of the installation transferring the contract shall contact the Procurement Officer of the installation scheduled to receive the contract. This contact shall be for the purpose of establishing a working agreement and a time phase schedule of transfer actions.

1804.7004 Coordinating actions by the contracting officer of the installation transferring the contract.

The contracting officer shall coordinate with the following elements within his installation prior to transferring a contract:

(a) Financial Mangement Office to determine the contract financial records to be transferred, and the method, timing, and dollar amount of such transfers.

(b) Technical (Engineering and Project) Office to determine the status of any outstanding engineering changes.

(c) Reliability and Quality Assurance Office to determine status and method of transferring the reliability and quality assurance functions.

(d) Industrial Property and Facilities Office to determine the method of transferring the records of Government property.

(e) Transportation Office to determine the status of Bills of Lading furnished to the contractor.

(f) Security Office to determine if any classified material is outstanding and if special precautions are necessary during the transfer process.

(g) Other organizational elements to determine the status of any other actions such as New Technology, Materials Reports, PERT, and Safety.

1804.7005 Inventory of current requests for contract administration assistance.

The contracting officer transferring the contract shall prepare an inventory of all outstanding requests for contract administration assistance issued to other Government agencies (e.g., Military Departments of the Department of Defense, Defense Contract Administration Services Regions, TVA, DOE, FAA, etc.). This inventory shall include the name and address of the agency office, functions requested to be performed, estimated cost of the services, and estimated reimbursement due the administration agency for the services to be performed on the incomplete portion of each requested function. Copies of this inventory will be provided for the contracting officer to whom the contract is to be transferred.

1804.7006 Transfer review.

The contracting officer to whom the contract is to be transferred shall be given an opportunity to review the contract, letters of request, actions in process, and other related files and to request corrective action, if necessary, prior to the official transfer of the contract.

1804.7007 Notification to the contractor.

After coordination with the installation organizational elements as required in 1804.7004 and with the receiving contracting officer, the contractor shall be notified in writing of the impending transfer by the transferring contracting officer.

1804.7008 Notification to other agencies.

As early as practicable after coordination between procurement offices has been effected, the contracting officer transferring the contract, shall notify all agencies performing or requested to perform administration services of the impending transfer.

1804.7009 Administrative actions.

Prior to transferring the contract, a complete inventory shall be made of the contents of the contract file to be transferred. All contract administration actions in process shall be set forth as a separate listing in an inventory and shall include the status of each action.

1804.7010 Transfer.

Upon completion of the preparatory actions required herein, both contracting officers shall agree upon acceptable dates for the transfer of the contract responsibility and the contract files. The contracting officer of the installation transferring the contract shall issue letters as indicated below and provide copies to the contracting officer receiving the contract.

(a) *Contractor.* Notification of the transfer date, termination of appointment of contracting officer's representatives, and the name, mailing address, and telephone number of the contracting officer at the installation receiving the contract.

(b) *Contracting Officer's representatives.* Termination of each contracting officer's representative appointment effective on the date of transfer.

(c) *Agencies performing contract administration functions.* Notification of the effective date of transfer of the contract along with the mailing address and telephone number of the contracting officer at the installation receiving the contract. (Existing requests for contract administration functions shall not be terminated.)

(d) *Installation organizational elements.* Notification of the effective date of transfer and other pertinent information.

(e) *Receiving installation.* Transfer of contract responsibility and transmission of the contract file including an inventory of its contents, and a summary of any contractual problems which should be brought to the attention of the contracting officer receiving the contract. This letter also shall contain a provision for acceptance of the responsibility for the contract and its related files by the contracting officer and a notification of the acceptance to the contracting officer of the installation transferring the contract.

1804.7011 Final action by the contracting officer transferring the contract.

The contracting officer at the installation transferring the contract shall retain for permanent file a copy of—

(a) The approvals and concurrences required by 1804.7002(b);

(b) The inventory receipt signed by the contracting officer receiving the contract;

(c) The contract for historical purposes; and

(d) Any additional documents considered necessary to present a complete summary of the transfer action.

1804.7012 Action by the contracting officer receiving the contract.

The contracting officer receiving the transferred contract shall—

(a) Acknowledge receipt of the contract and its related files;

(b) Inform all offices affected within the installation of the receipt of the contract;

(c) Appoint new contracting officer's representatives, and such other technical representatives as are deemed necessary;

(d) Issue a modification to the contract to provide for the administrative changes caused by the transfer action, such as identifying the—

(1) Office responsible for performing contract administration;

(2) Office responsible for making payment;

(3) Office to which vouchers are to be submitted;

(4) Office to which reports and data are to be submitted;

(5) Place of delivery of contract items; and

(6) Any other change made necessary as a result of the transfer;

(e) Provide copies of the contract documents to the installation offices which have a functional responsibility for the contract; and

(f) Where appropriate, supplement the letter of request to the Government agency providing contract administration support services, to reflect the changes resulting from the transfer action, including identification of new contracting officer's representatives, manpower accounting reporting, reimbursement information, and other changes resulting from the transfer action. The supplement may terminate or amend an existing contract administration support arrangement or may request support in additional areas.

Subpart 1804.71—Uniform Acquisition Instrument Identification

1804.7100 Scope of subpart.

This subpart contains the administrative requirements and

procedures for uniform numbering of NASA contracts (including letter contracts), purchase orders (including requests to other Government agencies), grants, basic agreements, basic ordering agreements, other documents evidencing in whole or in part an agreement between the parties involving the payment of appropriated funds or collection of funds for credit to the Treasury of the United States, and modifications or supplements thereto. It further provides for a uniform identification system for numbering IFB's and RFP's.

1804.7101 Policy.

(a) Documents coming within the scope of this Subpart shall be numbered with approved prefixes and serial numbers for identification, audit, and filing purposes. If a prefix identification symbol is required for an installation or office not listed in this Subpart, a request for the assignment of a prefix identification shall be submitted to the Office of Procurement, NASA Headquarters (Code HP–1). Alpha-numeric characters, other than those prescribed in this Subpart, shall not be used as part of the numbering system. If other identification is required, it shall be placed on the document in such a location as to clearly separate it from the identification number prescribed herein.

(b) The indentification number shall be retained unchanged for the life of the particular instrument and shall consist of not more than 11 alpha-numeric characters positioned as prescribed in this Subpart.

1804.7102 Invitations for bids, requests for proposals, contracts, agreements, and modifications.

1804.7102–1 Identification of invitations for bids and requests for proposals.

IFB's and RFP's shall be numbered in accordance with the individual field installation's system for identifying IFB's and RFP's except that in all cases the identifying number shall begin with the installation's numerical identification prefix as set forth in 1804.7102–4.

1804.7102–2 Contracts and agreements requiring numbering.

The following contracts and agreements shall be numbered in accordance with the uniform numbering system prescribed in 1804.7102–3, 1804.7102–4, 1804.7102.5, 1804.7102–7:

(a) All contracts, including letter contracts, for procurement or sale of supplies or services involving or likely to involve the payment or receipt of $10,000 or more.

(b) All indefinite delivery type contracts involving more than one payment and estimated to involve payment or receipt of more than $10,000 during the fiscal year.

(c) All utilities contracts.

(d) All leases of real property and renewals thereof.

(e) All easements.

(f) All basic agreements.

(g) All basic ordering agreements.

(h) All other written agreements involving payment or receipt of funds not covered by 1804.7103.

1804.7102–3 Assignment and control of numbers.

(a) The numbering of contracts, agreements, and modifications thereto shall be centrally by each contracting office at NASA Headquarters, field installation, or office for which a prefix identification symbol has been assigned.

(b) A complete identifying number shall consist of the following and will be assigned to NASA contracts and agreements designated in 1804.7102–2:

(1) One of the prefix identification symbols contained in 1804.7102–4 followed by a hyphen.

(2) A serial number (assigned in accordance with 1804.7102–5) for the particular transaction.

1804.7102–4 Assigned contract or agreement prefixes.

(a) Approved prefixes for NASA contract or agreement numbers are as follows:

(1) Headquarters and Prefix

Headquarters Administration Office: NASW
Procurement Office (Basic Agreements And Institutional Cost Sharing Agreements): NAS11

(2) Field Installations and Offices and Prefix

Langley Research Center: NAS1
Ames Research Center: NAS2
Lewis Research Center: NAS3
Goddard Space Flight Center: NAS5
NASA Resident Office-JPL: NAS7
George C. Marshall Space Flight Center: NAS8
Lyndon B. Johnson Space Center: NAS9
John F. Kennedy Space Center: NAS10
National Space Technology Laboratories: NAS13

(b) The identification numbering system of all contracts that are totally funded under reimbursable arrangements with the Department of Energy shall conform to 1804.7102–3, except that a DEN prefix shall be used in lieu of the NAS prefix, e.g., DENW would be the Headquarters prefix and DEN8 would be the Marshall designation.

(c) In a like manner, all Special Agreements awarded under the authority of sections 203(c)(5) or 203(c)(6) of the Space Act will also be identified as set forth in 1804.7102–3, except that an NCA prefix shall be used in lieu of the NAS prefix.

(d) Also, all Cooperative Agreements subject to Pub. L. 97–258 will be identified as set forth in 1804.7102–3, except that an NCC prefix shall be used in lieu of the NAS prefix.

1804.7102–5 Serial numbers.

(a) Contracts and agreements identified in 1804.7102–2 shall be numbered serially by the organizational unit authorized to assign such numbers, commencing with the number "1", and continuing in successing without regard to fiscal year or type of contract; for example: NAS5–300, NAS5–301.

(b) If the contract is a facilities contract, the letter "F", in parentheses, shall be at the end of the serial number for identification pruposes; for example: NAS5–301(F).

(c) For basic agreements and institutional cost sharing agreements executed by the procurement office, the letter "B", in parentheses, shall be added at the end of the serial number for basic agreements and the letter "C", in parentheses, shall be added at the end of the serial number for institutional cost sharing agreements; for example: NAS11–1(B), NAS11–2(C).

(d) When the series of numbers under a symbol exceeds five digits (99,999), a new series of numbers will be used beginning the series with number 1 and followed by the capital letter "A". Should additional series become necessary, they will be distinguished by the capital letters "B", "C", etc. as may be required, except that the letters "I" and "O" shall not be used.

1804.7102–6 Modifications of contracts or agreements.

Modifications of definitive contracts or agreements shall (a) bear the same identification as the contract or agreement being modified, and (b) be numbered consecutively for each contract or agreement, beginning with Modification No. 1, regardless of whether the modification is accomplished by unilateral or bilateral action. Except for Notices of termination, modifications shall be effected by the use of Standard Form 30 (Amendment of Solicitation/Modification of Contract).

1804.7102–7 Letter contracts.

(a) *Superseding definitive contract.* The same number assigned to the letter contract according to 1804.7102–4 and 1804.7102–5 shall also be assigned to the superseding definitive contract. No other

contract number will be assigned to the superseding definitive contract.

(b) *Modifications.* (1) Additions or changes to letter contracts will be accomplished by modification to the letter contract. Modifications shall (i) bear the same identification as the letter contract being modified, and (ii) be numbered consecutively for each letter contract, beginning with Modification No. 1, regardless of whether the modification is accomplished by unilateral or bilateral action.

(2) Upon definitization of the letter contract, contract modification shall be accomplished by using the numbering system prescribed in 1804.7102–6.

1804.7103 Purchase orders and requests.

1804.7103–1 General.

Purchase orders (including blanket purchase agreements) and requests to other Government agencies to furnish supplies or services will be assigned a complete identifying number consisting of—

(a) One of the letter prefixes set forth in 1804.7103–2 followed by a hyphen; and

(b) A serial number, assigned in accordance with 1804.7103–3.

1804.7103–2 Assigned purchase order or request prefixes.

Approved letter prefixes for NASA purchase orders (including blanket purchase agreements) or requests to other Government agencies are as follows:

(a) Headquarters and Prefix

Headquarters Administration Office: W

(b) Field Installations and Offices and Prefix

Ames Research Center: A
George C. Marshall Space Flight Center: H
Goddard Space Flight Center: S
John F. Kennedy Space Center: CC
Langley Research Center: L
Lewis Research Center: C
Lyndon B. Johnson Space Center: T
NASA Resident Office-JPL: WO
National Space Technology Laboratories: NS

1804.7103–3 Serial numbers.

The same series of consecutive numbers will be used for numbering both purchase orders (including blanket purchase agreements) and requests to other Government agencies. The series of numbers will commence with the number 1 and continue in succession without regard to the fiscal year. The number will follow the letter symbol, separated by a hyphen, for example: Order Number L–350; Order Number W–1,000. When the series of numbers under a symbol exceeds 5 digits (99,999), a new series will be used beginning the series with number 1 and followed by the capital letter "A". Should additional series become necessary, they will be distinguished by the capital letters "B", "C", "D", etc., as may be required except that the letters "I" and "O" shall not be used.

Subpart 1804.72—Review and Approval of Contractual Instruments

1804.7200 Scope of subpart.

This subpart contains administrative requirements for furnishing advance contract information to NASA Headquarters and to specified field installations of certain proposed procurements expected to exceed the small purchase limitation and for obtaining the approval of NASA Headquarters, prior to award, of specified categories of contracts and supplemental agreements. It also lists information to be furnished by contracting officers in submitting contracts and supplemental agreements that require NASA Headquarters approval. These requirements are in addition to other approval and review requirements.

1804.7201 Contract review function.

The primary purpose of contract review and approval by NASA Headquarters of certain categories of contractual actions is to provide an independent review and analysis for the purpose of determining whether the procurements—

(a) Were competently negotiated;

(b) Are based on adequate information;

(c) Are in conformance with law, established policies and procedures, and sound business practices; and

(d) Will result in contracts that adequately protect the interest of the Government.

1804.7202 Research contracts with colleges and universities.

Where a contract is selected as the research support instrument (see paragraph 203 of the NASA Grant and Cooperative Agreement Handbook, NHB 5800.1A) and the proposed contractor is a nonprofit institution of higher education or a nonprofit institution which is operationally affiliated or integrated with an educational institution, the contracting office will, upon award, forward NASA Form 1356, C.A.S.E. Report on College and University Projects (see 1853.204–1356). This form is either submitted to the contracting office with funded procurement requests (see NMI 5101.12), or, in the case of certain non-funded actions, is initiated by the contracting office. NASA Forms 1356 will be completed, checked and promptly forwarded to the Procurement Management Division (Code HM–1), NASA Headquarters, in accordance with the instructions on the form.

1804.7203 Advance information.

(a) A copy of each unclassified presolicitation notice, solicitation or changes thereto including specifications but not drawings, shall be forwarded to the Office of Small & Disadvantaged Business Utilization, NASA Headquarters (Code K), at the time of issuance. If the proposed procurement is classified, only a copy of the solicitation notice is required.

(b) The presolicitation notice will contain the information prescribed by FAR 5.204). Each copy of the solicitation shall be accompanied by a statement of the estimated cost of the proposed procurement and a complete list of firms or persons solicited. This information is for internal NASA use only.

1804.7204 Review by the contracting officer.

All contractual documents, regardless of dollar value, require a complete review by the contracting officer.

1804.7205 Information to be furnished when requesting approval of contracts and supplemental agreements.

(a) *General.* Requests for approval of contracts and supplemental agreements submitted to Headquarters for approval by the Assistant Administrator for Procurement, in accordance with Subpart 1807.71, Master Buy Plan Procedures, and 1816.603, Letter contracts, shall include the information required by this section and shall be fowarded in sufficient time to allow a minimum of 15 days for review. The official contract file will be submitted with the request for approval and will include completed NASA Form 1098, "Checklist for Negotiated and Advertised Contract File Content (Award File)." Where Headquarters Legal Counsel review is required, a duplicate copy of the file should, if practical, be forwarded in order to expedite review. A list of contracts requiring such legal review will be published periodically.

(b) *Negotiation.* Each request for approval of a negotiated contract or supplemental agreement shall be accompanied by 8 copies of the contract, 4 of which are executed by the contractor and contracting officer, and by the official contract file which contains the appropriate documentation as set forth in FAR 4.803(a). However, for FAR 4.803(a) (10), (11), and (12) provide documentation pertaining only to the successful offeror and for FAR

4.803(a)(28) do not provide supporting documentation for previously issued contract modifications, except as required below. When the contract being forwarded is a supplemental agreement to an existing contract, the contract file shall include an index of all previous modifications which will serve as a guide or quick reference. S.A. No. 2- Added clause 1852.223–70, Safety and Health.

1804.7206 Conditional approval of contracts and supplemental agreements.

(a) Contracts and supplemental agreements submitted to Headquarters for approval by the Assistant Administrator for Procurement may be approved conditionally, subject to requiring the cognizant contracting office to take certain corrective actions within a specified period of time. These corrective actions include (1) revising, deleting, or adding contract clauses, and (2) developing additional supporting data for inclusion in the contract file, prior to or concurrent with the distribution of the approved contract or by an early supplemental agreement.

(b) The Procurement Officer will ensure that these corrective actions are accomplished in accordance with the conditional approval. In addition, the Procurement Officer will provide the Assistant Administrator for Procurement (Code HS–1) with a copy of the corrected contract pages, supplemental agreement, or additional supporting data that accommodates the conditions of approval. This should be evidenced by a memorandum that references the Headquarters approval memorandum and indicates the status of the corrective actions.

(c) On receipt and review of the corrective actions, Headquarters will notify the cognizant Procurement Officer of the disposition of the conditional approval. Such notice will be made a part of the official contract file and the Headquarters file of record.

Subpart 1804.73—Procurement Request

1804.7301 General.

(a) Procurement requests will be prepared and submitted to the contracting office in accordance with the latest revision of NASA Management Instruction 5101.12, "Policy and Procedures Concerning Procurement Request."

(b) Except in unusual circumstances, the contracting office will not issue solicitations until an approved procurement request, containing a certification that funds are available, has been received. However, the contracting office may take all necessary actions up to the point of contract obligation prior to the receipt of the approved procurement request certifying that funds are available when—

(1) Such action is necessary to meet critical program schedules;

(2) It has been established that program authority has been issued and that funds to cover the procurement will be available prior to the date set for contract award or contract modification; and

(3) The Procurement Officer authorizes such action prior to the issuance of the solicitation.

(c) The procurement request shall be assigned within the contracting office to a negotiator who will be responsible to the contracting officer for conducting the business aspects of the transaction. The negotiator will review the request to ensure that it complies with NASA Management Instruction 5101.12, the FAR, and this Regulation, and that the information contained in the request is in sufficient detail to prepare the solicitation. Uncertain requirements or inconsistencies in the procurement request will be discussed with the initiator of the request and clarified prior to the initiation of procurement action.

PART 1805—PUBLICIZING CONTRACT ACTIONS

Subpart 1805.1—Dissemination of Information

Sec.
1805.101 Methods of disseminating information.

Subpart 1805.2—Synopses of Proposed Contracts

1805.201 General.
1805.201–70 Headquarters notification.
1805.205 Special situations.
1805.207 Preparation and transmittal of synopses.

Subpart 1805.3—Synopses of Contract Awards

1805.302 Preparation and transmittal of synopses of awards.
1805.302–70 Headquarters notification.
1805.303 Announcement of contract awards.
1805.303–70 Furnishing additional procurement information to the public.

Subpart 1805.4—Release of Information.

1805.401 General.
1805.402 General public.
1805.403 Requests from Members of Congress.
1805.403–70 Headquarters approval and release.

Subpart 1805.5—Paid Advertisements

1805.502 Authority.

Authority: 42 U.S.C. 2473(c)(1).

Subpart 1805.1—Dissemination of Information
